GREENWAY IS UPHELD.

THE PRIVY COUNCIL DELIVERS JUDGMENT IN THE SCHOOL SUITS.

One School for One Country—In Allowing Appeals the Act is Upheld—A Case Which Brought Forth the Canadian Legal Lights.

LONDON, Aug. 1.—The Privy Council delivered judgment in the Manitoba school cases Saturday. The judgment, or to speak with technical accuracy, the opinion, is dated at Windsor and the appeal in both cases is allowed with costs. The decision upholds the validity of the act abolishing Separate schools in Manitoba. There were two appeals to be decided, that of the City of Winnipeg v. Barrett and the City of Winnipeg v. Logan.

When the Legislature abolished Separate schools a test case was submitted to the Supreme Court at Ottawa. While it was still pending, the city of Winnipeg endeavored to collect taxes for the public schools, but the parties mentioned refused to pay the taxes unless a fair proportion were applied to Separate schools. The hierarchy were the real parties in these test cases and Messrs. S. H. Blake and D'Alton McCarthy were pitted against each other, the latter, of course, representing the city of Winnipeg.

Rejoicing in Manitoba.

WINNIPEG, Aug. 1.—There was great rejoicing in Government circles Saturday upon receipt of information that the Privy Council of England had given a decision favorable to the province in the celebrated Separate School case.

Joseph Martin, who with D'Alton McCarthy appeared for the Government, cabled Premier Greenway as follows: "Strong judgment in our favor. Adopting our arguments, and controverting the Supreme Court on every point. Congratulations on the double event."

Leaders of Government party in their enthusiasm have already set on foot a scheme to give Martin a big reception on his return to Winnipeg.

Commenting on the decision Saturday, The Tribune, the Government organ, says: "There is only one more possible danger to national schools now remaining. Quebec newspapers have already been demanding remedial legislation. It will be well for them to pacify their emotions. The people of Manitoba are free and are determined to remain free. We will never submit to have Sir John Thompson force on us the will of the hierarchy. Further, we do not think that the people of Ontario will endure to have their representatives at Ottawa shirk their duty in such a manner. There is every probability that Sir John Thompson will not dare to attempt the slightest interference with Manitoba. National schools are now safer than ever."

As Viewed in Ottawa.

OTTAWA, Aug. 1.—Sir John Thompson declined to express any opinion upon the decision of the Imperial Privy Council in the Manitoba school case until the full text of the judgment had reached here. The impression prevails that the Dominion Government will ask the Dominion Parliament to provide remedial legislation as provided for in the constitution.

Celebrating the Victory.

WINNIPEG, Aug. 1.—A monster thanksgiving service was held by temperance people here Saturday over the overwhelming testimony in favor of prohibition for this province given at the recent election.

A SERPENT IN THE SKY.

Strange Phenomenon Seen By Captain Thompson of the Trinacria.

NEW YORK, Aug. 1.—One of the strangest phenomena ever witnessed at sea was described Saturday by Captain Thomson of the Anchor Liner Trinacria. It was in brief an earthquake shock at sea on July 15; followed by the appearance in the sky of a huge fiery serpent, which stretched from the zenith to the horizon.

The boat was in latitude 41 deg. 28 min., longitude 65 degrees south of Cape Sable.

An earthquake shock from the northwest was felt at 7 o'clock in the evening.

The vibration caused the pilot boat to tremble, but the sea remained calm. The shock was unmistakably that of an earthquake.

Hardly had the shock subsided when a streak of light was seen extending from the zenith to the northwest horizon in the form of a huge serpent. The reptile gradually tapered from the head, which appeared to be reared high in the air, to the tail near the horizon. It lasted for more than three-quarters of an hour and then gradually disappeared.

The serpentine form in the sky lasted about an hour and then gradually faded. Capt Thomson said he had never seen anything like it before.

AUSTRALIA WILL RETALIATE.

A Counter Measure to the McKinley Bill Damages San Francisco's Trade.

SAN FRANCISCO, Aug. 1.—A cable despatch from London stating that the Government of Victoria, Australia, had increased the import duty on Oregon pine 6.25 per thousand feet and the duty on canned fruit to 6c a pound or about 15c per tin, has caused much excitement here, as it is regarded as the first gun in the fight against the McKinley Bill. The McKinley Bill entirely barred out Australian wool from this country and the Victoria Government has taken revenge.

If the Australian colonies follow suit it will be a heavy blow to San Francisco merchants as this is the port of entry for all these goods. The blow is particularly severe to fruit growers and canners, as they have been several years in building up a market for California canned goods in Australia.

Must Stand His Trial.

MONTREAL, Aug. 1—Charles Travers, who is charged with the death of Michael Murphy, was committed for trial on a coroner's warrant, notwithstanding that the coroner's jury returned a verdict to the effect that the prisoner was not responsible for Murphy's death. Travers was a carver on the Passport.

Recount of Votes in Manitoba.

WINNIPEG, Aug. 1.—The recount of votes cast in Cypress at the recent election resulted in the majority of the Government candidate being cut down to three.

Next recount is in Rockwood, and this constituency the Opposition are quite confident of capturing.

Marcus Mason's Body Found.

NIAGARA FALLS, Aug. 1.—The body of Marcus M. Mason, the Boston man who was drowned at the Cave of the Winds last Sunday afternoon, was found Saturday morning floating in the river, a short distance below the American Falls.

Another Trolley Victim.

BUFFALO, Aug. 1.—An old lady named Mrs. Katherine Wilkinstaedt was struck by a trolley car in Niagara-street Saturday morning and was so seriously injured that she died in a few hours.

Two Tourists Fall Over a Precipice.

VIENNA, July 30.—Two tourists climbing the Raxalpeyestotdayslipped on a boulder-strewn slope and fell over a precipice. Their bodies were found, still roped together, at the bottom of the precipice.

TO ASSASSINATE THE COUNT.

Plot to Remove the Japanese Progressist Leader.

YOKOHAMA, Aug. 1.—An attempt was made yesterday to assassinate the Count O'Kuna, the leader of the Progressist party, and Viscount Kono Tokio, the Japanese Minister of Justice. The attempt is supposed to have been instigated by Radical conspirators.

DISSENTIENTS IN A DILEMMA.

Joe Chamberlain's Reply to Mr. Gladstone's Challenge.

LONDON, Aug. 1.—G. W. Smalley cables to The N.Y. Tribune: There is not the slightest doubt but that Home Rule will be the first measure introduced by Mr. Gladstone, but bills dealing with the improvement in the Franchise Act, with the establishment of parish councils and possibly with the payment of members, will be brought in at the earliest opportunity in the new session and will be proceeded with in the intervals of time necessarily left by the progress of the Home Rule Bill through successive stages.

It is already perceived that the putting forth of such a program will be a matter of some embarrassment to Mr. Chamberlain and his friends. They still declare that they are Liberals, even Radicals, as loyal as they were in 1885. Their only point of difference with the bulk of the Liberal party is in respect of Home Rule. But the measures do not directly touch Home Rule, and are themselves essentially Liberal. How can professed Liberals, even though anti-Home Rulers, stand against them! Mr. Gladstone's quick eye early discovered this dilemma, and he made the opportunity at a roadside station.

Speaking at Birmingham last night, Mr. Chamberlain promptly and boldly took up the challenge. In vain, he tells his old chief, is the net spread in the sight of any bird. Mr. Gladstone admits the impossibility of the Dissentient Liberals voting for Home Rule, but on these other questions he expects that they will vote in accordance with their professions and convictions. Mr. Chamberlain sees clearly enough whither this tends. With the register put on a reasonable business basis and the principle of one man one vote embodied in legislation, the Liberal candidates would sweep the country and carry Home Rule triumphantly. As Mr. Chamberlain tersely and picturesquely puts it, "Mr. Gladstone will give us his ax to grind in order that he may afterward cut off our heads with it." Not for Joe, is in effect his reply to this invitation. Mr. Gladstone probably did not expect any other, but the dilemma of the Dissentient Liberals remained. The reason was a certain amount of reasonableness in their opposition to Liberal measures, when it was their main business to keep in office a Government that barred the way to Home Rule. Now that this Government is washed away they cannot go on opposing Liberal measures without finally losing their claim to rank as Liberals.

Gladstone Better.

LONDON, Aug. 1.—In response to inquiries concerning Mr. Gladstone's condition, Mrs. Gladstone said that her husband was better, that he had in fact improved so much that she could safely say that he was now in his usual state of health. Mrs. Gladstone further said that her husband would probably issue a circular to his supporters Monday.

No Autumn Session.

LONDON, Aug. 1.—The Daily News says: There is no foundation for the rumors that there will be an autumn session of Parliament, and declares that nothing is more improbable.

Lord Lansdowne's Daughter Married.

LONDON, Aug. 1.—Victor C Cavendish nephew of the Duke of Devonshire and heir to the Dukedom, was married on Saturday in St. Margaret's Church, Westminster, to Lady Evelyn Montrose, eldest daughter of the Marquis of Lansdowne. The ceremony was witnessed by a large and fashionable assemblage, many members of the aristocracy having returned to London expressly to attend the wedding. The gifts to the bride were numerous and costly jewels from the Duke of Devonshire, the Marquis of Lansdowne, the Duke of Westminster and many others. Among the most costly gifts were a watch and a bracelet set with diamonds and rubies from ex-Empress Eugenie.

Rallying Italian Catholics.

LONDON, Aug. 1.—The Chronicle says: The French Cardinals have received a circular written by Cardinal Mermillod before his death, requesting them to veto the nomination of a Pope favorable to the Dreibund, whose nominee, it is supposed, will be Cardinal Safelic. The circular asks them to push the candidature of Cardinal Pampuollo, and if they find this choice cannot be ratified, then to support Cardinal Gibbons. The circular says Italy will drift into a Republic, with the connivance of the Catholic world.

Turkey Conciliating France.

LONDON, Aug. 1.—A despatch from Fez says: "The Sultan's attitude toward the British Mission continues defiant, but great preparations are being made to give an unprecedented reception to the Count d'Aubuny, the French Minister in September. The occupants of 50 houses will be evicted to make room for the members of the French embassy."

Hungarian Crops.

BUDA PESTH, Aug. 1.—According to an official Hungarian crop report the yield of wheat is estimated at 70,000,000 cwt,. and of rye at 22,000,000 to 24,000,000 cwt., while barley and oats will be under the average.

Cotton Swindlers Get 3 and 4 Years.

LIVERPOOL, Aug. 1.—John Wilson and Parry Lunt, who ran a bogus cotton syndicate by which they netted £150,000, have been sentenced to 3 and 4 years' imprisonment respectively.

To Shorten the Atlantic Passage.

LONDON, Aug. 1.—Sir Edward William Watkin, the noted projector and manager of railway and other enterprises, has a letter in The Times yesterday advocating the selection of the head of Galway Bay as a port of arrival for the Atlantic steamships, the vessels to proceed thence by ship canal across Ireland to Liverpool, thus saving 588 miles of distance between New York and Liverpool. Sir Edward enlarges on the scheme, which he claims to be entirely practicable, and he declares that the plan has received eminent indorsement and promise of support in Ireland.

French Successful in Dahomey.

LONDON, Aug. 1.—News has been received from Dahomey that the French are gradually forcing the Dahomeyans back. Several successful skirmishes have brought wavering tribes to the French side.

To Honor Columbus' Memory.

CADIZ, Aug. 1.—The Bay of Cadiz is crowded with ships of war of different nationalities, which have come to take part in the Columbus celebration to be held here.

Ten Firemen Injured.

LONDON, July 30.—Rallis' large flour and cotton warehouse at Bootle was destroyed by fire last night. The loss is over £30,000. Ten firemen were seriously injured by the fall of a wall.

PICTURED ON THEIR BREAST

Negroes Killed by Lightning With ous Results.

PITTSBURG, Pa., Aug. 1.—A thunderstorm passed over this city evening doing great damage. Two ne named Richardson and Castle were s by lightning and killed. A white named Williams, standing a short dis away, was rendered unconscious.

Four houses were struck by lightni the east end. On the south side houses were struck by lightning number of persons injured.

A curious phenomenon in connection the deaths of the negroes, William and Solomon Richardson, in Hig Park yesterday from a bolt of ligh was that the foliage of the trees which they sought shelter was graphed on the breasts of the victims the evening the impressions began to There was a curious thing about C When his trousers were removed his limbs were found to have turned ashen white. They kept this color.

WASHINGTON OBSTRUCTIONIS

United States Congressmen Are lyzing Business.

WASHINGTON, Aug. 1.—Saturday bustering in the House was still prog ing, and no one knows when it will The situation is becoming a dangerous Unless the Sundry Civil Bill to-day, or a resolution extending appropriations of last year be a to, work at the Government printing must cease at midnight. It is plain t seen that the attendance is dimini and that the dreaded announcement of quorum" may come at any time. World's Fair men profess that they able to summon enough members within 24 hours to enable a quorum t got together in that case, but they do see yet how that would help them. I absence of any special rule a dozen busters can protract the session and vent the transaction of any busine simply alternating in motions to adjou fixed dates and to recess.

HON EDWARD BLAKE

"KNOXONIAN," in the Canada Presbyterian, speaks as follows of Hon. Edward Blake incidentally giving a hard hit at some kinds of political audiences :—

As a matter of fact, Edward Blake is a charming man to talk to if he is in good health and there is anything worth talking about. We had a pleasant and most profitable talk with him one evening on the deck of a steamer on the Lower St. Lawrence. He was returning from Prince Edward Island, and knew more about the Island than most of the people who live there. In a few minutes he gave in a highly condensed form a history of the Island, a description of its climate, with statistics of its productions down to the last bushel of oats. Then he branched off to the Saguenay timber trade, and that led to Norway and its shipping and its timber productions. Back again to Canada, he explained historically and otherwise the French system of holding, dividing and sub-dividing lands, and contrasted it with the primogeniture system of England. We were younger at that time than we now are, and did little more than tap the great commoner and let the accurate information flow, and when he had finished we wondered for a while whether we ever knew anything or not. It was a well-spent hour. We never spoke to another who seemed to know everything and know it accurately. Principal Grant comes nearer the great commoner in universality of knowledge than any other man we ever spoke to. Alexander Mackenzie was infallibly accurate in certain lines, but though a great reader he had not gone over as wide a field as Mr. Blake.

Years afterwards we were put down beside Mr. Blake at dinner in a friend's house, along with sundry Grits. While the turkey was being carved, we ventured, after some little hesitation, to draw him out on the methods of preparing speeches. The starting point was a book he had read, and which he did not seem to suspect any mere country parson had ever seen. With an amount of modesty not always seen in great men, and never seen in small ones, he explained his methods of preparation, and gave his reasons for and against several other methods. It was a good half hour. We learned a good deal, and were much surprised to find the great orator never wrote even his most polished perorations. We asked him particularly about two that made a powerful impression, and he said he could not have written them because he never wrote any. His method was to put such passages through a mental process that was the equivalent of severe writing. His pen was never used except in arranging ordinary matter.

Mr. Blake suffered not a little in Canada because he was not what is known as a nice fellow. A simpering dude with a head so empty that an idea in it would sound like a marble in a teapot could easily get more cheers than Mr. Blake in some communities we know. A vulgar tirade of abuse, stuffed with stale anecdotes and spiced with profanity could raise a guffaw where Mr. Blake's polished eloquence would not be listened to. The Hon. gentleman has not the ghost of a chance in some constituencies against unclean fellows who would take the free and independent into the bar, fill their stomachs with vile whiskey and their minds with vile stories.

EDITORIAL NOTES.

There are different ways of rendering assistance to those in need. The St. John's fire aroused the sympathies of the people of Canada and the States and assistance in money and provisions was freely rendered, But it rested with an ingenuous yankee to devise the most novel method of offering help. The mayor of St. John's received from the United States a few days ago a letter containing an offer to marry any one of the feminine sufferers providing she is of good character, has light complexion, is plump, weighing from 150 to 175 pounds, and is between 25 and 35 years old.

The majority of the Greenway government in Manitoba is about two to one. The figures stand; for the government 26, opposition 13, Independent liberal 1. The latter will support the governmen on all questions but one. The liberals do not seem to succeed in getting hold of the reins of power at Ottawa, but they make up for it in the provincial legislatures.

ELECTRIC BELT

AND APPLIANCE CO.

49 KING ST. W., TORONTO, Ont

G. C. PATTERSON, Mgr. for Can.

Electricity, as applied by the Owen Electric Belt and Appliances,

Is now recognized as the greatest boon offered to suffering humanity. It is fast taking the place of drugs in all nervous and rheumatic troubles, and will effect cures in seemingly hopeless cases where every other known means has failed. It is natures remedy, and by its steady, soothing current that is readily felt,

POSITIVELY CURES
THE FOLLOWING :

Rheumatism,	Sexual Weakness,
Sciatica,	Female Complaints,
General Debility,	Impotency,
Lumbago,	Kidney Diseases,
Nervous Diseases,	Liver Complaint,
Dyspepsia,	Lame Back.
Varicocele,	Urinary Diseases,

RHEUMATISM.

It is certainly not pleasant to be compelled to refer to the indisputable fact that medical science has utterly failed to afford relief in rheumatic cases. We venture the assertion that although electricity has only been in use as a remedial agent for a few years, it has cured more cases of Rheumatism than all other means combined. Some of our leading physicians, recognizing this fact, are availing themselves of this most potent of nature's forces,

To Restore Manhood and Womanhood

As man has not yet discovered all of Nature's laws for right living, it follows that everyone has committed more or less errors which have left visible blemishes. To erase these evidences of past errors, there is nothing to equal Electricity as applied by the Owen Electric Body Battery and Suspensory. Rest assured any doctor who would try to accomplish this by any kind of drugs is practising a most dangerous form of charlatanism.

We Challenge the World

to show an Electric Belt where the current is under the control of the patient as completely as this. We can use the same belt on an infant that we would on a giant, by simply reducing the current. Other belts have been in the market for five or ten years longer, but to-day there are more Owen Belts manufactured than all other makes combined.

☞ Electric Insoles.—Dr Owen's Electric Insoles will prevent Rheumatism and cure Chilblains and Cramps in the feet and legs. Price $1, by mail.

Beware of Imitations and Cheap Belts.

☞ Our attention having been attracted to an imitation of the Genuine Owen Electric Belt, that is being peddled through the country from town to town, we desire to warn the public against such.

Our Trade Mark is the portrait of Dr. A. Owen, embossed in gold upon every Belt and Appliance manufactured by The Owen Electric Belt and Appliance Co.

Advertising a patent medicine in the peculiar way in which the proprietor of Kemp's Balsam for cough and colds does it is indeed wonderful, He authorized all druggists to give all those who call for it a sample bottle free, that they may try it before purchasing. The large bottles are 50c and $1 We certainly would advise . It may save you from consumption.

A Double Effect

DEAR SIRS,—I have used Hagyard's Pectoral Balsam for bronchitis and for cough with the best results, and can highly recommend it to all sufferers.

A Pleasant Herb Drink

The best cure we know of for constipation and headache is the pleasant herb drink called Lane's Family Medicine. It is said to be Oregon grape root, combined with simple herbs, and is made ready for use by pouring boiling water onto the dried roots and herbs. It is remarkably efficacious in all blood disorders and is now the sovereign remedy with ladies for clearing up the complexion. Druggists sell the package at 50c and $1

For all forms of female weakness Dr. Williams' Pink Pills are an unfailing specific. Mr. Thomas Strachan, Postmaster, Roballion write : - My daughter has been ill for the last four years with female weakness, and had been attended by four of the best doctors in our section. She began the use of Dr Williams Pink Pills, and two boxes have done her vastly more good than all the medicines she took from those doctors.

What She Said

Mrs. R. Peck, 15th street, New York City, visited Canada last year, and had the good fortune to pick up something which not only suited her, but her neighbors also. Writing the manufacture of Nerviline she says:—"I bought three bottles of Nerviline while in Canada and treated my neighbors to some of it, and all think it the best medicine for internal or external pain they have ever used." Nerviline deserves such commendation, for it is a most powerful, penetrating, and certain remedy for pain of all kinds. Take no substitute.

PAR[illegible] the power of acting specifically upon the diseased organs, stimulating to action the dormant energies of the system, thereby removing disease. In fact, great is the power of the medicine to cleanse and purify that diseases of almost every name and nature are driven from the body. Mr. D. Carswell, Carswell P. O., Ont. writes : "I have tried Parmelee's Pills and find them an excellent medicine, and one that will sell well.

A Cure For Constipation And Headache

Dr. Silas Lane while in the Rocky Mountains discovered a root that when combined with other herbs makes an easy and certain cure for constipation. It is in the form of dry roots and leaves, and is known as Lane's Family Medicine. It will cure sick headache in one night, For the blood, liver and kidneys, and for clearing up the complexion it does wonders. Druggists sell it at 50 cents a package

Weighed in the balance, but not found wanting. Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure has been weighed in that just balance, the experience of an impartial and intelligent public. Both remedially and pecuniarily it is a success. Its sales constantly increase, testimony in its favor is daily pouring in. The question of its efficacy in Dyspepsia, Liver complaint, Kidney Ailments, and for Blood Impurity is decided

Now is the time to take a good tonic medicine. Hood's Sarsaparilla possesses the greatest merit, and is popular favo[illegible]

Cured Female Weakness

Mr. Hugh Caldwell, Clydesdale, Ont, writes:—"My daughter was under the care of doctors for more than a year for female weakness, without getting relief. I then procured Pink Pills and they cured her." All dealers 50 cents a box or 6 boxes for 2.60, or mailed on receipt of price. Dr. Williams' Med. Co.. Brockville, Ont., and Schenectady, N. Y.

THE ROOFS OF SIX HOUSES IN TORONTO COLLAPSE.

Attempted Suicide By Taking Arsenic—Arrested for Forgery—Charged With Accepting a Bribe—The Winnipeg Industrial Exhibition a Success—Drowned While Bathing.

TORONTO, Aug. 1.—About 3 o'clock Saturday afternoon the roofs of six houses on the north side of Florence-street, just west of Sheridan-avenue, fell in with a terrible crash. The houses are mere shells, built three years ago, and five are owned by Ald. Bell.

In the collapse two children of James Mahan of No. 64 were injured, though not dangerously.

Only three of the houses were occupied. The roofs are a complete wreck, but the walls still stand.

ARSENIC AFTER A SPREE.

Alexander Mitchell Wearies of Life at Thirty-five Years.

TORONTO, August 1.—Alexander Mitchell, aged 35, a tinner employed by the McDonald Manufacturing Company, attempted suicide last night.

Mitchell lives at 325 Wilton-avenue with his wife and six children.

He had been drinking for some days, and at 9 o'clock last night, while suffering from the effects of his spree, he took a large dose of arsenic.

Doctors Temple and Pyne were summoned by Mitchell's family. After using a stomach pump and administering an antidote they ordered his removal to the Hospital, whither he was taken at 11.30. He is now in a critical condition.

"August Flower"

Mrs. Sarah M. Black of Seneca, Mo., during the past two years has been affected with Neuralgia of the Head, Stomach and Womb, and writes: "My food did not seem to strengthen me at all and my appetite was very variable. My face was yellow, my head dull, and I had such pains in my left side. In the morning when I got up I would have a flow of mucus in the mouth, and a bad, bitter taste. Sometimes my breath became short, and I had such queer, tumbling, palpitating sensations around the heart. I ached all day under the shoulder blades, in the left side, and down the back of my limbs. It seemed to be worse in the wet, cold weather of Winter and Spring; and whenever the spells came on, my feet and hands would turn cold, and I could get no sleep at all. I tried everywhere, and got no relief before using August Flower Then the change came. It has done me a wonderful deal of good during the time I have taken it and is working a complete cure." ⓘ

Children Cry for Pitcher's Castoria

"NO, I WILL FIX THAT."

A Long-Haired Recruit Has His Head Fired With Kerosene.

LONDON, Aug. 1.—Corp. Fehr has been retired from the Hungarian army for an act of unparalleled cruelty. Fehr was known throughout the 86th Infantry Regiment as the most brutal of the non-commissioned officers. Frequent complaints of him to Col. Scotti, commander of the regiment, brought no redress. About 10 weeks ago Fehr began drilling a raw recruit. When the recruit had drilled a few minutes Fehr struck him in the face, kicked him and asked him what he meant by entering the army with his hair uncut. The recruit said he would go at once to the barbers. Fehr caught him by the collar and said, "No, I will fix that."

Fehr then had kerosene brought, poured it on the recruit's head and then touched a match to his hair. The recruit ran groaning into the barracks, where a comrade threw water on him and thus saved his life. As it was his hair was burned off and his scalp was so terribly burned that he is still unfit for duty.

Cholera and Galicia.

VIENNA, Aug. 1.—A letter from Count Von Taafe, Austrian Premier and Minister of the Interior addressed to the Government of Galicia, shows that the Government apprehend a speedy outbreak of cholera in Galicia. Count Von Taafe enjoins the Government to take the strictest precautionary measures, but admits that an outbreak of cholera can hardly be avoided owing to the large masses of Russian troops near the frontier. If this territory becomes cholera-infected the disease will be quickly introduced into Hungary and Austria. It has been habitual for the inhabitants of frontier districts, who are apathetic in regard to cholera and will not take the slighest precautions.

Moors Fire On a Spanish Gunboat.

MADRID, Aug. 1.—The Spanish gunboat Pilar, while cruising along the coast of Morocco, was fired on by a party of Moors on shore. Immediately upon the firing of the first shot the commander of the gunboat hoisted the Spanish flag, thinking the attack was the result of a mistake and thinking it would cease as soon as the nationality of his vessel was made known. In this, however, he was disappointed, for no sooner did the Moors see the flag than their firing became more vigorous. Thereupon the commander ordered the fire to be returned, and for a time brisk cannonading was kept up between the vessel and shore. The course was changed so as to bring the vessel nearer shore and the fire more effective. The Moors held their ground until the vessel neared the shore, when they fled precipitately.

Slandering German Sausage.

BERLIN, Aug. 1.—The Cologne Gazette says attempts to create disorder have recently been made in St. Petersburg by agitators who, tried to convince the people that meat sausages sold there were poison. The fact is regarded as significant as all the sausage makers are Germans. The Prefect of Police has issued a proclamation menacing the agitators with heavy punishment.

A Russian Income Tax.

ST. PETERSBURG, Aug. 1.—A bill has been prepared imposing a graduated tax upon incomes. On incomes of 1000 roubles the tax is one per cent. and for every additional thousand roubles the rate increases one-tenth of one per cent. Exemptions are allowed in the cases of members of the Imperial family, assemblies, nobles, the leading clergy, convents, schools and high Government officials.

Changes in Sweden's Tariff.

CHRISTIANIA, Aug. 1.—The Storthing Saturday agreed to the proposed increase in taxation to the amount of 2,830,000 kroner to provide for the reduction recently made in the duty on sugar and the abolition of the duty on petroleum.

Duke of Manchester Dying.

LONDON, Aug. 1.—The Duke of Manchester, who in 1876 married Miss Consuelo Yznaga of New York, and who has been ill for some time past, is reported as sinking.

MANITOBA'S SMALLPOX SCARE.

An Absolute Quarantine Against it in North Dakota.

VALLEY CITY, N. D., Aug. 1.—Governor Burke has issued a proclamation declaring absolute quarantine against Manitoba on account of smallpox in that Province.

Warned Against Taking Seals.

WASHINGTON, Aug. 1.—Capt. Coulson of the United States revenue cutter Rush, under date of Ounalaska, June 25, reports to the Treasury Department that during a recent cruise from the Island of St. Paul to Ounalaska, he warned 34 American and British schooners against taking seal in Behring Sea.

The Record Beaten From Havre.

QUARANTINE, S. I., Aug. 1.—The steamer La Tourraine arrived Friday evening, beating the record from Havre, in 6 days, 17 hours and 30 minutes. She has has also beaten all previous daily runs of any steamship, having made 528 miles in one day.

Quarantine Raised.

WINNIPEG, Aug. 1.—Quarantine against Victoria, B.C., has been raised by Vancouver, New Westminster and United States ports on Puget Sound, and steamers are now running daily between the island and the mainland.

An American Killed by an Avalanche.

LONDON Aug. 1.—A despatch from Interlaken, Switzerland, says that G. Ribbons of "Springfield, America," while crossing the Grindelwald glacier was struck by an avalanche and instantly killed.

The Tale Is Good, Even if the Animal is Tailless.

KINGSTON, Aug. 1.—Saturday afternoon Mr. Tims shot a large porcupine on Mr. Sear's farm. It had quills in its tail over two feet long, and before Mr. Tims fired quills came towards him thick as hail.

Would Follow the German Plan

NEW YORK, Aug. 1.—The district attorney is considering the matter of supressing certain Anarchist newspapers which have approved of the attack on Frick and urged the members of the organization to murder Carnegie and others

The Kaiser in England.

BERLIN, Aug. 1.—Emperor William Saturday started for England, where he will remain a week as the guest of the Queen. One of the objects of his visit is to attend the Cowes regatta.

All through the Provinces the rapid crease of La Grippe, is causing great alarm. A report was received here to-day, of a new development o the disease, which is worse, perhaps than any other. Wm. Hanley of N. Y, City, died in terrible agony after sickness of only four days. His tongue swelled to such an extent as to make it impossible for him to close his jaws or swallow any food. The report is causing the people in this district to inquire into the noted Grip-cure, recently referred to in so many papers. In Cape Breton the disease has spread very rapidly and with fatal results, D. J. McKillop of L'Archeveque writes Feb. 11th that this cure has been tried in his neighborhood and with such success that all those residing there are obtaining a supply believing it to be the only remedy affording relief and effecting a certain cure. He finished his letter by asking for a large quantity of the Medicine (Dr. Morse's Indian Root Pills) to supply the demands of the community for the relief of LaGrippe.

For You or O

GENTLEMAN,—One of my little girls (aged 4 years) had been troubled with costiveness in its worst form since infancy. We tried different remedies which gave relief while using, but as soon as discontinued she would be worse than before using. She lost her appetite and was growing weak and delicate. A friend of mine who had used B B B with grand results for the same disease advised me to try it, and also the Burdock Pills, which we did. She did not take the contents of one bottle before it relieved her, and not only relieved her but permanently cured her, for she has not been troubled nce since, and she is now eight years old

Advice to Mothers

Mrs. Winslow's Soothing Syrup has been used by millions of mothers for children teething for over fifty years, with perfect success. It relieves the little sufferer at once, produces natural, quiet sleep, and freeing the child from pain, and the young cherub wakes as bright as a button.' is pleasant to taste, sooths the child softens the gums, allays pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhoea, whether arising from teething or other causes 25 cts a bottle.

A Question

How can we raise more corn than the acher? Why, of course by using Putman's Corn Extractor. Putnam's Painless Corn Extractor has given universal satisfaction, for it is safe, sure and painless. Like every article of real merit it has a host of imitators, and we would specially warn the public to guard against these dangerous substitutes offered for the genuine, Putman's Extractor. N. C. Rev William Hollinshed

Pastor of the Presbyterian church of Sparta, N. J., voluntarily writes strongly in favor of Hood's Sarsaparilla. He says "Nothing I know of will cleanse the blood stimulate the liver, or clean the stomach like this remedy. I know of scores and cores who have been cured by it."

Increase Your Weight

If you are losing flesh and blood, commence at once using Miller's Emulsion of Cod Liver Oil, which is far ahead of all other preparations of the kind in existence By taking Miller's Emulsion people gain from 5 to 10 lbs. by the time the first bottle is consumed. It is the greatest blessing of the century to all in delicate health for who suffer with coughs, colds and ailments that tend to consumption. Remember, Miller's Emulsion contains all the consituents in wheat.

Advice oth

Keep the head cool, the feet warm and the bowels regular, and no disease can attack you. This is a celebrated German physician's advise, and can best be accomplished by using Burdock Blood Bitter est blood purifier known. t cur d rs of the stomach, liver, bow

THE FACT

That AYER'S Sarsaparilla CURES OTHERS of Scrofulous Diseases, Eruptions, Boils, Eczema, Liver and Kidney Diseases, Dyspepsia, Rheumatism, and Catarrh should be convincing that the same course of treatment WILL CURE YOU. All that has been said of the wonderful cures effected by the use of

AYER'S Sarsaparilla

during the past fifty years, truthfully applies to-day. It is, in every sense, The Superior Medicine. Its curative properties, strength, effect, and flavor are always the same; and for whatever blood diseases AYER'S Sarsaparilla is taken, they yield to this treatment. When you ask for

AYER'S Sarsaparilla

don't be induced to purchase any of the worthless substitutes, which are mostly mixtures of the cheapest ingredients, contain no sarsaparilla, have no uniform standard of appearance, flavor, or effect, are blood-purifiers in name only, and are offered to you because there is more profit in selling them. NORAH KEEPS THE CUP.

THE ONWARD OF ROCHESTER MEETS WITH A MISFORTUNE

Her Top-mast Breaks off When she is in a Good Position—The Americans are Bound to Win the Cup

The race between the yachts Norah of Belleville and the Onward, of Rochester, for the Fisher cup aroused intense interest in sporting circles in Belleville. The Onward, accompanied by the Cinderalla and and the Choctaw, both of Rochester arrived in Belleville on Thursday night, and on Friday were visited and critically inspected by scores of Bellevillians. They are all three fine boats, trim and neat and evidently built for speed. The Choctaw was beautifully fitted up, and is one of the most costly sail yachts on the lake.

The race began at 12.22, with a fair breeze. The Norah, being a couple of feet longer than the Onward, allowed the latter four minutes handicap. Both boats started off well and with white sails outspread, sped over the water swiftly and beautifully. The course was a ten mile one, to be sailed over three times. On the first round the Onward came in 6¼ minutes ahead of the Norah, having gained 2¾ minutes, and it seemed reasonably certain she would win, and her friends were correspondingly elated. There is many a slip between the cup and the lip, and all her high hopes were destined to be dashed suddenly to the ground. On her second round, on her starboard tack, her topmast and her gaff broke, thus throwing her entirely out of the race. The Norah was now sure of the race if she finished her course within the time limit of six hours, and all interest now centered on her. The first round was sailed in about two hours. The Norah finished the second round in 2 hrs. and 2 minutes and the 3rd. round in 1 hour and 5½ minutes. She then completed the race in a little over six minutes under the limit, so she holds the cup.

It is stated that the Onward will again challenge the Norah as soon as the 30 day limit is over.

The Cinderalla and the Choctaw left last night for Rochester. The Onward is still here undergoing repairs.

The Cinderella left for Rochester last night after being supplied with a topmast by Capt. Allen, which was carried away during the Rochester regatta.

Cept. Allen is building a topmast for the Onward which was carried away in the gale on Saturday.

The Onward will again challenge the Norah for the cup. The Americans are bound to carry away the cup and say that they will send up the Clara from New York if necessary to take the cup from the Norah.

A DELIGHTFUL TRIP

The North King Gave its Patrons a Rare Treat Yesterday

One of the finest of all possible short trips that can be had this hot weather is that on the North King to the Thousand Islands every Sunday morning. The boat leaves here at 3 o'clock, and arrives at Alexander Bay about noon. It leaves there at three takes a run around the Islands and then home again arriving in Belleville at twelve o'clock Sunday night. It is a splendid trip and so popular has it become that the boat can often not find accommodation for all who wish to take it in. Yesterday the boat was as usual crowded. That fine Musical organization, the mandolin orchestra with 25 instruments of Rochester, was on board, and gave a sacred concert. The music was simply delightful. Capt. C. H. Nicholson, who has charge of this palatial steamer, is one of the most obliging and popular officers on the lakes and does all in his power to make these trips enjoyable to all. Yesterday several people from Belleville went down on the North King, and were all delighted with their outing. A large number also boarded the boat here last night for Rochester

Literary Notes

The Lake Magazine for August.—The first number has been issued of a new high-class Canadian magazine, published by the Lake Publishing Company of Toronto. In its chaste and elegant appearance it rivals the best of its American contemporaries, while in the character and popular interest of its contents it scores a decided success. The magazine is devoted to politics, science and general literature, and purposes filling in some measure, in the discussion of public questions, the place filled in Britian and the United States by the leading reveiws of these countries. In the present number are articles on Canada and Imperial Federation, Edward Blake and Ireland, a Cheap and Simple Franchise, from the pens of leading Canadian journalists, and also articles on The Land of Manana, A Canadian Literature, Second Sight Along the Wires, Art in Canada To-day, The Doctrine of Handicaps—all interesting and well written. Two stories and two poems of superior merit in addition to a number of illustrations complete the list of contents. The worst thing about this new publication is its name, which is not at all a good one.

THE CROPS OF THE WORLD

The Crops Good but the Prices Very low

The Globe thus summarizes the crop prospects for Canada and the world in general and the prospects of the markets:—

Business men find great encouragement in the reports of the magnificent harvest now in progress all over the province. Of reports from 28 countries published in the Globe of yesterday, eleven indicated that the wheat crops was quite up to that last year, ten were to the effect that the average yield would be better than in 1891 and seven intimated that the crop was remarkably heavy, or the best ever obtained while the report contained the pleasing intelligence that the yield so much exceeded expectations that the farmers' barns would not hold more than half of it. From these and other reports recoved by the wholesale trade here, it seems but reasonable to conclude that we shall have this year in Ontario the best crop of wheat in the history of the Province. The hay crop, which now apears to be pretty well harvested in most localities, was probably never heavier. The oat crop is a fair average in most sections and heavier than last year in some important sections.

THE PRICES FOR GRAIN

The only drawback to the whole situation is the low prices ruling for grains. The remuneration to the farmer at 75 cents a bushel for wheat, 40 cents up for barley, and 28 cents for oats is not large enough. There are yet considerable quantities of old wheat left in Ontario, much of last year's wheat crop in Manitoba remains unsold and the quantity of old wheat in the United States is very large. These facts considered with the large yield in Canada and the outlook for the crop in the United States are perhaps more favorably regarded by the consumer than the produce. In the United States the crop outlook is promising, and the outlook for foreign supplies is not altogether unfavorable. The Kansas City Star. in an elaborate compilation of the world's supply of wheat, estimates that it is 90,000,000 bushels less than last year. It is figured on the estimate that the American crop will be 91,000,000 bushels less than last year, Australia's 5,000,000 bushels less, India's 58,000,000 bushels less and England's 15,000,000 bushels less—a total shortage of 169,000,000 bushels. The increases allowed are France 36,000,000, Austria-Hungary 50,000,000 bushels, the balance of Europe and the Argentine Republic 23,000,000 bushels—an increase of 79,000.000 to be deducted from the 169,000,000 bushels shortage in the balance of the world. Russia is expected to ship no more than 50,000,000 bushels shipped last year before the prohibitory edict went into effect. The low prices that have ruled for Canada barley since the duty was advanced by the United States do not seem to have had the effect this year of decreasing the acreage in Ontario, according to the most reliable information that can be obtained. Our two-rowed barley according to recent reports, does not appear to be giving the best of satisfaction to English dealers, In the United States Canada barley is much favored, and some malssers prefer it to New York State or Western barley. Thus it occasionally finds a ready market across the border notwithstanding the duty. But the duty makes it necessary to cut the price so fine, there is not much profit in it. The burden of the duty of 30 cents per bushel on barley (equal to a duty of 60 per cent on No. 2 barley) was well illustrated by a shipment made this week. Messrs. J. H. Sproule & Co., the well-known firm of local grain dealers, shipped a cargo of 10,000 bushels of No. 3 extra barley direct to a New York malster, on which a duty of $3,000 had to be paid.

THERE WILL BE A FAIR,

Special Attent on Given to Cattle—A Dog and Horse Show.

The Directors of the W. H. A. Society met in Ald. Ponton's office on Saturday and decided to hold the fall show on Sept. 27—28—29th. The city council will be asked to-night to give exemption from taxation of the ground on condition that a three days' exh bition be held. It is proposed among other attractions to hold a bench show of dogs, and especial attention will be given to horses and the best breeds of cattle. The merchants of Belleville have promised to fill a large port on of the main builing and a subscription list will be circulated among those citizens who will most profit by the success of the annual exhibition. Mr. John Johnston has been appointed manager and no better could have been chosen.

A SERIOUS ACCIDENT.

Robt. Drewery Thrown Against a Telephone Post With Great Violence.

Robt. Drewery of the second concession of Sidney township, was the victim of a serious accident on Saturday. He started on a young colt for his cousin's, John Drewery, when the horse bolted against the fence. The rider was thrown against a telephone post with great violence. His nose was completely flattened on his face. He received a serious cut under the jaw and is internally injured in the region of the groin. Dr. Youker was called in and did everything to relieve the victim. He was still unconscious last night.

The Remains Interred

James Hunter, the unfortunate victim, who was drowned off schooner Kate was recovered on Saturday and brought to the city Saturday evening per steamer Hero. The remains were taken to the residence of his uncle John Caton. The funeral yesterday was very large, showing the esteem in which the young man was held. Mr. and Mrs. Huuter were present from Toronto, where the former is mate on the yacht Aileen.

Those who are in the habit of taking an appetizer before meals could not do better as well for the effect as for economy's sake, than make use of "Indigenous Bitters." As Indigenous Bitters are slightly laxative, those who suffer from habitual constipation, will derive great benefit, by regularly taking them, as they keep the bowels in good order and in that way aid digestion.

A SCENE IN CHARLOTTE.

CONSTABLE JOHNSON CHASES A MAN AT THE MUZZLE OF A REVOLVER

After a Lively Run Daniel Shannon Eludes his Pursuer—An Energetic Constable who is Underpaid.

High Constable Johnston is one of the smallest paid officers in the county while at the same time he probably earns his money better than any other man in it. Within the past few months he has made several important arrests and the Constables pay should be looked into by the county council. He had a lively experience at Charlotte, N. Y., yesterday morning. After telegraphing and writing the chief of police there several times and failing to receive no answer in reference to Daniel Shannon, whom the Constable was sure was in Charlotte, the latter went over to Rochester on Saturday night. As soon as the boat arrived the officer went ashore and looked up the chief of police, who does not seem to be labouring under any unnecessary amount of brain power. The chief positively stated that no man assuming such a description was in Charlotte or had ever been there. Officer Johnston was confident that his man was there, however, and was not satisfied with the information. After going to bed for a few hours he walked over to a saloon to get a lunch. As he entered the door he noticed two men in the corner of the room. One of them acted in a suspicious manner and dropping his head walked out of a rear door. The suspicions of Officer Johnston were at once arroused and following the man said ; "Is that you, Dan ! The man did not reply when the officer took him into custody and drew him back into the hotel. The officer, however, did not keep close enough eye on his man, for no sooner had he turned to call a policeman than his prisoner who was no other than Daniel Shannon, bolted and leaped through a window carrying the sash with him. Constable Johnston at once started in pursuit. Shannon was swift of foot while the constable was no match for his fleetness. The prisoner dashed into a by lane, through several yards, followed by the officer who at the same time was emptying his revolver at the fleeing fugitive, Shannon was suddenly lost to sight while the pursuit was given up, In the meantime the unusual noise at so early an hour created a panic in the streets and the officer soon had the whole populace at his heels. Several policemen rushed up and placed him under arrest. After producing his warrant, however, and convincing the guardians of the police that he was an officer of the law, he was allowed to go. Constable Johnston returned to the boat but thinks he has the right man on Shannon's track and that he will soon be in custody.

TOWN TALK

The merit of Hoods Sarsaparilla is not accidental but is the result of careful study and experiment by educated pharmacists,

DANDRUFF.—If you wish a preparation upon which you can rely for the complete destruction of Dandruff, use Capilline and you will be satisfied.

LAXATIVE.—The Indigenous Bitters is slow purgative for a few weeks, but the affect is only the more certain and effective. A 25c, package makes an excellent purgative.

It is now pretty well understood to be a dangerous practice to attempt to palm off worthless imitations of the "Myrtle Navy" tobacco for the genuine article. In former years that practice was the cause of much annoyance, and Messrs. Tuckett & Son were compelled to resort to the law courts to put a stop to it. Though they have not met with any case of the kind lately, it is always a safe precaution for the purchaser to see that the trade mark T.&B. in bronze letters is stamped upon each plug; no plug ever leaves the factory without it, and to appropriate the trade mark is a punishable offence

TO DYSPEPTICS.—Before trying a multitude of medicines for dyspepsia, apply at once for the great cure of the day Dr. Sey's Remedy.

We do not know of any preparation that has caught the public favor in so short a time as Dodd's Kidney Pills, but when we consider that three-fourths of the Canadian people are afflicted with kidney troubles in some form or other, and that Dodd's Pills are a quick and permanent cure for all these troubles, the large and increasing demand can scarcely be wondered at. Sold by all dealers or by mail on receipt of price, 50 cents per box, Dr. A. L. Smith & Co. Toronto.

OLD TIMES IN HAWAII.

The Absolute Power of the King and the People's Fear of the Priest.

Reverence for royalty was one of the most marked characteristics of the ancient religion of the Hawaiians. It was formerly a crime punishable with death to pass through the King's shadow, or sit higher than his head. His person was sacred, and protected by a strict system of taboo. In the royal palace the taboo stick, with which the King announced his ex-communications, is exhibited. It is a wand with a carved stone cap. If this stick was lowered on the approach of a courtier he was compelled to withdraw immediately, and was recognized as being in disgrace. The King's will was absolute ; but the majority of the Hawaiian monarchs seem to have been of a kindly disposition, and to have made no improper use of their extreme power. It was due to one of them that the taboo system was abolished. This system bore with grievous weight upon the women. They were forbidden the use of some of the most common articles of diet, such as bananas and certain kinds of fish, on pain of death. It was taboo for a woman to enter the eating house of the men, or one of the "helaus" or temples. Before the arrival of the first missionaries the reigning King, out of consideration for some of his women, declared the taboo abolished.

The work of converting the natives to Christianity was greatly assisted by this voluntary renunciation of the old heathen system. The power of the priests was broken by it, though their influence was still strong with the natives. The source of the awe in which they were held is easily understood, when one considers that they were formerly invested with the right of choosing the victims for the human sacrifices. Later they depended largely on the "anana" or power of praying people to death, to retain their influence. No amount of argument can disabuse the native mind of a belief in this particular kind of enchantment. It is not the priests alone who practice it. It is believed that any one can compass the destruction of an enemy by a sufficient exercise of will power. In fact, so strong is the popular conviction on the subject, or so weak the vitality of the race, that it is sometimes sufficient merely to convince a man that some one has determined to pray him to death.

An instance is related by one of the early missionaries of a man who became thus convinced, and set the day and hour of his own death. Mr. Armstrong was resolved that the man should not die. He accordingly procured a sufficient amount of chloroform, and kept him unconscience until the fatal hour was past.. His astonishment on being roused was boundless, but the bold ruse saved his life.—Overland Monthly.

The Fondest Hope of Every Geologist.

Every geologist in the west, or at least every one who says his prayers at all, goes down on his knees every night and prays that he may discover a vein of lithograph stone. There is only one quarry of this precious material in the United States, and that is somewhere in the northeast. The best stone comes from Germany, and is so valuable and expensive that the discovery of even a small vein would prove the fortune of the finder. The geologists are convinced that there must be an abundance of this material somewhere in the United States, and so keep a sharp lookout on any newly discovered stone, for a vein of the lithograph stone would be worth more to its owner than a gold mine.—Globe-Democrat.

A Dentist Dies of Slow Poisoning.

DETROIT, Mich., July 30.—Dr. W. C. Brittan, one of the most popular dentists of Detroit, died on Monday. Yesterday the true cause of his death was learned to be the excessive use of the drug tincture of Sanguinariæ, which he administered to himself to cure a cold. He used it in such quantities that it acted as a slow poison.

GOUGH CAN SELL CHEAPER THAN OTHER DEALERS

FIRST—Because we are the largest Clothiers in Canada, and SECOND, because we are not the supply account of any firm, and consequently are not compelled to handle only one manufacturer's goods, and at whatever prices they have a mind to ask. THIRD—Because we have ample means to buy wherever we like, and no matter how large the stock, whether it is $1,000 or $100,000 worth we are always prepared to pick it up if it is a snap, and FOURTH—Because we sell ten times more goods than any other firm, and consequently can sell on a smaller margin of profit.

Some of our high price friends cannot see anything funny about GOUGH selling so cheap, and call us "Fake" dealers, but when inaugurating this One Price and Low Price System we did so with a determination to

"Hew to the Line ; let the Chips fall where they may !"

And if in fulfilling this mission we are breaking the back bone of our high price oppositionists, we are sorry for them, for we mean them no harm, but claim the right to do our business in a

SQUARE, HONORABLE WAY,

GIVING DOLLAR FOR DOLLAR EVERY TIME.

Yes, we are called "fake" dealers and "low" dealers by our opponents. Well, we freely admit we are low dealers, wallowing in the lowest depths of bed rock prices, while our exalted brethren look down upon us from their high place and go wild because we are capturing their trade, and this is the sequel to their calling us "fake" dealers, etc., but it won't go down, for the name of GOUGH is provincial, and a household word in every family.

Don't forget our

and we are giving extraordinary cuts all along the line, as we are determined to carry no goods over until next season, but require the room for our Big Fall Stock which will commence to arrive next month.

Thonsands of Overall's only 19c per pair, sold by other dealers before we opened here for 50c, but we compel them now to sell them for 25c, and they are mad.

A FLAMING DELUGE.

TOWNS AND INHABITANTS BLOTTED OUT OF EXISTENCE.

Earth Yawns and Swallows People by the Hundred—Latest Details of the Eruption of Gunong—Aroo—Ten Thousand Lives Lost, It is Thought, at a Moderate Estimate.

VICTORIA, B.C., Aug. 2.—The steamer Empress of India, just arrived from Japan, brings additional details of the disastrous volcanic eruption on Great Sangir Island.

Without any warning signal, without any sign whatever of impending disturbance, the Gunong Aroo volcano blared forth on June 7, and within 24 hours the whole of the prosperous surrounding country was devastated.

The location of the crater is latitude 3 degrees 30 minutes north, longitude 125 degrees 20 minutes east.

The western coast of Great Sangir Island is washed by the Celebes Sea, with the Molucca passage on the southeast.

The island is one of a chain of islands near the Philippines.

The first report of the eruption was heard about 6 o'clock in the morning, and for four hours there was one continual stream of fire and ashes belching forth.

After a slight relaxation a flood of fire again began, continuing two days, heavy rumblings being heard in the mountains.

Toroana Buried.

The town of Toroana, on the southern side of the island, suffered then. Dwellings and other structures crumbled under their heavy load of dust and ashes, the inhabitants fleeing for safety, while many perished in the ruins.

The cocoanut plantations, which covered the whole mountain side, were completely destroyed. The country west of Toroana was covered with thick mud and ashes.

Terrific thunderstorms had followed each earthquake. Hot streams of mud and lava running down the mountain side rendered traveling unsafe, and those who were overtaken in their flight perished.

Reports from all over the island indicate the most disastrous consequences. Whole villages are submerged and cocoa and nutmeg plantations everywhere are ruined. In the northern part of the island lava streams were running with terrific force.

Among other villages completely obliterated was that of Tokekam, famed for its beauty and wealth.

Frightful Loss of Life.

The loss of life is something frightful, but no accurate estimate of it can yet be made. Some place it as high as 10,000.

The captain of a ship which took assistance to the sufferers says that 10,000 is not too high a figure as an estimate of the number of dead.

A thousand bodies have been picked up on the shore and many were found floating in the sea.

The alarm reached Ternate and the Netherlands warship Zeemtruw was immediately despatched, while from Mendena the British steamer Hecuba was also sent to render assistance and carry supplies.

The whole island is completely devastated, and although the violent eruption has ceased volumes of smoke are arising, accompanied by steam and ashes.

The lower lands and valleys are covered with lava, which is still pouring down, while cracks in the mountain have opened, emptying volleys of steam, stones and mud.

Further outbreaks were feared, and as fast as steamers and vessels could be obtained the inhabitants still alive were fleeing.

Enormous Loss of Property.

Property worth millions upon millions is destroyed forever. For many years the inhabitants of Sangir Island, living within the shadows of a dormant crater, had tilled the soil and prospered, their chief industry being the growing of nutmegs, cocoanuts and grapes, the product being regularly shipped abroad.

Their life was a romantic one, favored by Providence with a climate equalling, if not surpassing, that of Italy, and a soil needing little cultivation to make it profitable.

With no political or national disturbance the semi-savage natives were gradually becoming civilized. The villages and towns were well built, and had schools and churches.

Showers of Flame and Stones.

The awful devastation began at 8 o'clock on the morning of June 7. There was a terrible rumble, a column of ruddy flame shot up from the crater as high in the heavens as the eye could reach, and immediately afterwards hot ashes were falling like snowflakes over the whole country. Dust was flying in all directions, and from the time of the first explosion until 9 o'clock that evening fierce volumes of flame and smoke and showers of large stones were belched forth, followed by rain, which fell in torrents, bringing down with it the clouds of ashes that were flying through the air.

This continued all night and the whole of the next day.

Villages and Inhabitants Swallowed Up.

Earthquakes began June 9. Village after village was engulfed, hundreds of people dropping into the great cracks in the earth.

The whole country is under a layer of mud, ashes and stones. All vegetation is either burned up by the awful heat of the volcanic fires or has been destroyed by dense showers of ashes and dust. The country around Gunong Aroo and the sides of the hills were still steaming and smoking on June 25, numerous volcanic jets throwing up columns of mud and stones which fell in showers over the district, forming into hot streams which, in their downward course, carried everything before them.

The district on the north side of the island is utterly destroyed, nutmeg and cocoa plantations being laid in ruins and in many cases completely buried under the ashes, mud and lava from the crater.

A Scene of Desolation.

Among others who saw the island after the outbreak was Capt. J. Gray of the steamship Norway, which had been sent with a cargo of rice from Mendanao to relieve the sufferers. He says the whole island, viewed from the westward, presented a most forlorn appearance.

There was no sign of life anywhere. Volumes of smoke could be seen issuing from the volcano, accompanied by fine ashes, which spread like a cloud over the island and fell thickly everywhere. Small jets of steam, smoke and stones were pouring out from the mountain sides, completely covering the lower valleys and lands.

The entire topography of the island was changed.

On the night of the outbreak two Norwegian barks, the Primera and the Fashion, were in Toroana Bay, but got to sea without damage. In a pretty harbor on the northeast side of the island the Dutch ships Terbeka and Grippa were loading nutmegs. They, too, sustained little injury, fortunately, because there was no tidal wave.

The report of the first explosion was heard at Ternate, Gorontalo and Mandanao, which are respectively 210, 240 and 210 miles distant.

The lava streams were confined to the northern slopes of the mountain.

In the Toboekan district not a single village remains, while thousands of the inhabitants were killed in the overflow.

ARBITRATION PROPOSED.

Peace in Sight in the Troubled Iron Districts of the Country.

PITTSBURG, Aug. 2.—Peace will yet reign in the trobled iron districts of the country. The Amalgamated Association is now actively engaged in furthering the manufacturers' proposition for arbitration. The association is determined to have the matter decided by vote, and the different lodges throughout the country are being notified that a prompt response on the arbitration question will benefit all. The lodges are requested to vote as to whether the differences shall be settled by arbitration or by the wage conferences. The manufacturers have decided to wait until Aug. 9 for an answer, but it will certainly take a month to decide the question.

Meanwhile the manufacturers ask the men to go to work at once under the old scale. It is hardly believed the Amalgamated Association will agree to this proposition. The men are now out on strike with their ranks firmly cemented, the officials say, and should they be ordered back to work it is a question whether they can be called out again in as good shape as they now stand.

22,000 NEEDLE PUNCTURES.

"Tom" Haydon Undergoes an Extraordinary Surgical Treatment.

NEW YORK, Aug. 2.—"Tom" Haydon, the blind actor, who lives in Brooklyn, has been undergoing a most extraordinary surgical treatment in the hope that his sight will be restored.

Several weeks ago a man named August Theiss of No. 115 West Fifty-second-street, this city, called on Mr. Haydon and told him he had heard of his affliction and had come to treat him for the restoration of his sight.

Mr. Haydon disrobed, and Theiss began to puncture his skin with an instrument shaped like a brush, and in which there were 33 needle-like steel bristles. These were inserted an eighth of an inch at each puncture. When he finished Haydon had 14,000 tiny punctures on his body, from which blood was pouring freely. Then he was rubbed with oil from head to foot.

Several days later he submitted to a second operation, and a total of 22,011 punctures were on his suffering frame when it was over. Theiss assured Haydon that he will restore his sight in one year.

HER LIFE FOR HER BABE.

Rescued Her Baby Niece, but Died from the Injuries.

WINDSOR, Ont., Aug. 2.—Yesterday morning Miss Florence Smith of Ouletta-avenue was so badly injured while rescuing her baby niece from a burning house that she will die. Her mother and sister Alice were severely burned while trying to recover a large sum of money and some valuable jewelry in the house. The fire was incendiary for the purpose of robbery.

The family just removed here from Wyoming, though they lived here a few years ago. The father was a patent medicine dealer well known throughout Ontario.

7 YEARS FOR 17 BURGLARIES.

Charles Norman of Toronto Convicted and Sentenced.

PORT HURON, Mich., Aug. 2.—Charles Norman of Toronto, who pleaded guilty of 17 burglaries, including burglaries in Port Huron and Sarnia, was sentenced to seven years by Judge Vance at Ionia. Charles Hoffman, another burglar, goes to the same place for three years.

Norman, it will be recollected, sent part of his plunder, some silver spoons, to his wife in Toronto.

FOUR PAUPERS BURNED.

A Delaware Almshouse Struck by Lightning and Destroyed.

WILMINGTON, Del., Aug. 2.—During a terrible thunderstorm Monday the Sussex County Almshouse was struck by lightning and totally destroyed by fire.

Four of the 28 inmates perished in the flames, while many of the others were seriously injured. The loss to the buildings will amount to $40,000.

Died from Over-Excitement.

NEW YORK, Aug. 2.—Thomas Doyle, a young bartender, died a raving maniac at the County Hospital Friday night. Last Wednesday he shot a mad dog. The excitement so worked on him that a friend started with him Friday to the hospital. Just as he reached the gate he became wildly insane and died a few hours afterward.

Swung to Their Death.

KNOXVILLE, Tenn., Aug. 2.—At Jacksboro yesterday a mob lynched Andy Besheare and John Willis, who had assaulted a woman before her husband's eyes. They were made to stand on a gate until the ropes were fixed. Then the gate was swung around on its hinges and both men soon choked to death.

200 Lives in Peril.

AUSTIN, Tex., Aug. 2.—At an early hour yesterday a portion of the State Insane Asylum devoted to female patients was destroyed by fire caused by lightning. The patients, some 200 in number, were removed in safety. Loss $35,000.

Suspected of Parricide.

PHILADELPHIA, Aug. 2.—John Fell, aged 55, was found dead Monday evening. The police believe that he was a victim of violence. Frederick Fell, a son of the dead man, has been arrested, and it is said that William Miller, a son-in-law, will also be arrested

Killed at 70 Years of Age.

THE CANADIAN BUDGE

SESSION OF THE ROYAL COMMISSI IN HALIFAX.

An Old Man's Death Caused by a Prac al Joke—A Moncton Policeman Sh Dead—Toronto Distillers in Ottawa Her Life for the Babe.

HALIFAX, N.S., Aug. 2.—At the session the Royal Commission on the Liquor Tra yesterday J. R. Lithgrow, treasurer Gl Bay Milling Company, said he opposed pro bition on Scriptural grounds. The Israeli were under Divine law and they dealt strong liquor, and such law should be su cient for the people of Nova Scotia.

James W. Fleming, superintendent Ha fax Poor Asylum, testified that the asylu at present has 270 inmates, one-third in asylum directly from liquor and one-th indirectly from drinking habit parents.

Rev. J. S. Coffin of Windsor, ex pre dent of the Wesleyan Conference, No Scotia, stated that he had taken part many Scott Act complaints. He favo prohibition and declared its enforceme possible. The license law worked satisf torily for a time in Cape Breton, but expense attending litigation and app discouraged temperance workers. In Sh burne County at Lockeport, Barring and elsewhere the Scott Act was succe ful. Wherever it failed it was owing to adequate machinery. If the power of Federal Government were behind it the Dominion officers enforcing it suc would be assured.

A. M. Bell said that the license law never been carried out in Halifax. He president of the Law and Order Leag which had attempted to enforce the but the members had been prosecuted conspiracy and sued for damages, and tho they were successful in appeal, the expen were larger, and they had done noth since, though they knew the law was lated in Halifax. He was in favor o Dominion prohibitory law.

Thomas Milsom, city medical officer Dartmouth, said he was opposed to a p hibitory law as being impracticable.

Robert Murray, editor of The Pres terian Witness, stated that the local lice law was in advance of the public sentim of Halifax, though not of other part Nova Scotia. He was in favor of a fed prohibition act carried out by pro officers.

James Naylor, secretary of the Soci for the Prevention of Cruelty, thought t prohibition could to-day be carried in N Scotia by a large majority.

Alderman Pickering declared that p hibition was impracticable, and if car the trade should receive compensation. had visited Bangor, where the Maine was in force, but liquor was openly sold bars in full operation.

The commission was then closed as fa Halifax is concerned, and will meet Truro to-morrow.

Mutton is more nutritious and digestable than beef, although some physicians hold that broth made from beef is more nutritive than that from mutton.

Iced tea, a favorite beverage of midsummer, is a drink of doubtful value at the dinner table. Hot tea heats the stomach and prepares it for its work, while cold tea retards digestion, like ice water taken during a meal, by chilling the stomach.

Grease stains on wall paper may be removed by mixing pipe-clay with enough water to make a sort of cream. Spread this rather thickly on the stain, leave it on for twenty-four hours, then take it off carefully with a knife and dust and brush the paper thoroughly.

Do not use a good chamois skin for wiping the kitchen windows, as they are apt to be a little greasy from the steam of boiling meats, and if a skin is once made greasy, it is spoiled. Use an old salt bag for washing as it is soft and does not cast lint. With a little ammonia in the water for washing them, followed by careful rinsing, they shine.

The bites and stings of insects may be at once relieved and inflammation prevented if the parts are touched with strong liquid ammonia. A wise plan for those who indulge in country rambles or who play tennis is to carry a tiny flat bottle filled with ammonia, with a small camel's hair brush fitted in the cork, when it may be used immediately after the attack.

A very old-fashioned but most effectual way to clean a carpet is to rub it thoroughly with a cloth dipped in one part of oxgall and three parts of water, taking care not to wet the carpet more than is absolutely necessary. Not only will this treatment remove stains, but it will revive color. The oxgall is, however, most malodorous stuff, and in order to avoid the atrocious smell it is better, if possible, to carry on the process in the open air. It takes at least twenty-four hours to get rid of the smell.

To restore the leather bindings of books wash them first very lightly and carefully with clean warm water in which a tiny piece of soda has been dissolved, in order to free the leather from grease; then wash with clear water to remove the soda, and dry. Dissolve a bit of gum arabic the size of a small bean in a teaspoonful of water and beat it up with a teaspoonful of the white of an egg. With a bit of sponge go lightly over the leather with this glair and let it dry. Should the glair froth up on the leather, as it is very likely to do if there is much tool work on the book, dab it until it subsides with the palm of the hand or with the sponge squeezed as dry as possible.

A Strong W—.

Stuart Cumberland, the English mind-reader, and Miss Phyllis Bentley, a relative of his wife, and a performer of apparently miraculous feats of strength, were among the golden wedding guests of the king and Queen of Denmark. Neither the King, nor the Crown Prince, nor the Czar, nor any of the other men present could force to the ground a billiard cue held by Miss Bentley. The Czar, who is regarded as the strongest monarch in Europe, physically, tried without success to lift this young woman from the floor by her elbow or to push her against a wall; while she, alone, lifted a chair containing the Czar, the Crown Prince of Denmark, the Crown Prince of Greece and the Duke of Cumberland—whether singly or collectively, the accounts received do not clearly indicate.

Those who are in the habit of taking an appetizer before meals could not do better as well for the effect as for economy's sake, than make use of "Indigenous Bitters." As Indigenous Bitters are slightly laxative, those who suffer from habitual constipation, will derive great benefit, by regularly taking them, as they keep the bowels in good order and in that way aid digestion.

AND APPLIANCE CO.

G. C. PATTERSON, Mgr for Can.

Electricity, as applied by the Owen Electric Belt and Appliances,

Is now recognized as the greatest boon offered to suffering humanity. It is fast taking the place of drugs in all nervous and rheumatic troubles, and will effect cures in seemingly hopeless cases where every other kuown means has failed. It is natures remedy, and by its steady, soothing current that is readily felt,

POSITIVELY CURES
THE FOLLOWING:

Rheumatism,	Sexual Weakness.
Sciatica,	Female Complaints,
General Debility,	Impotency,
Lumbago,	Kidney Diseases,
Nervous Diseases,	Liver Complaint,
Dyspepsia,	Lame Back.
Varicocele,	Urinary Diseases,

RHEUMATISM.

It is certainly not pleasant to be compelled to refer to the indisputable fact that medical science has utterly failed to afford relief in rheumatic cases. We venture the assertion that although electricity has only been in use as a remedial agent for a few years, it has cured more cases of Rheumatism than all other means combined. Some of our leading physicians, recognizing this fact, are availing themselves of this most potent of nature's forces,

To Restore Manhood and Womanhood

As man has not yet discovered all of Nature's laws for right living, it follows that everyone has committed more or less errors which have left visible blemishes. To erase these evidences of past errors, there is nothing to equal Electricity as applied by the Owen Electric Body Battery and Suspensory. Rest assured any doctor who would try to accomplish this by any kind of drugs is practising a most dangerous form of charlatanism.

We Challenge the World

to show an Electric Belt where the current is under the control of the patient as completely as this. We can use the same belt on an infant that we would on a giant, by simply reducing the current. Other belts have been in the market for five or ten years longer, but to-day there are more Owen Belts manufactured than all other makes combined.

☞ Electric Insoles.—Dr. Owen's Electric Insoles will prevent Rheumatism and cure Chilblains and Cramps in the feet and legs. Price $1, by mail.

Beware of Imitations and Cheap Belts.

☞ Our attention having been attracted to an imitation of the Genuine Owen Electric Belt, that is being peddled through the country from town to town, we desire to warn the public against such.

Our Trade Mark is the portrait of Dr. A. Owen, embossed in gold upon every Belt and Appliance manufactured by The Owen Electric Belt and Appliance Co.

An Old Man Murdered by a Woman.

UTICA, N.Y., Aug. 2.—One of the most cold-blooded murders ever committed in Oneida County occurred at Verona Station 23 miles west of here, yesterday. The victim was Carl Brauer, a harmless old German, and the murderess was Mary Houlihan, a married woman, who lived about 20 rods from Brauer's home. There were no witnesses of the act, although it happened about noon. The woman said she was chopping wood, when Brauer approached her and tried to drag her into an outhouse and assault her. She picked up an ax and struck him several times on the head and then poured scalding hot water over the body, causing the flesh to peel off. The woman was placed under arrest and taken to the Rome jail. The neighbors think that Brauer went to Houlihan's to try and collect $30—money borrowed to buy whisky and pay taxes—and that, receiving no money, he became abusive and was killed. The woman has frequently threatened the lives of people, and her neighbors give her a bad name. An inquest will be held to-morrow.

A Pleasant Herb Drink

The best cure we know of for constipation and headache is the pleasant herb drink called Lane's Family Medicine. It is said to be Oregon grape root, combined with simple herbs, and is made ready for use by pouring boiling water onto the dried roots and herbs. It is remarkably efficacious in all blood disorders and now the sovereign remedy with ladies for clearing up the complexion. Druggists sell the package at 50c and $1

For all forms of female weakness Dr. Williams' Pink Pills are an unfailing specific. Mr. Thomas Strachan, Postmaster, Roballion write :- My daughter has been ill for the last four years with female weakness, and had been attended by four of the best doctors in our section. She began the use of Dr. Williams Pink Pills, and two boxes have done her vastly more good than all the medicines she took from those doctors.

What She Said

Mrs. R. Peck, 15th street, New York City, visited Canada last year, and had the good fortune to pick up something which not only suited her, but her neighbors also. Writing the manufacture of Nerviline she says:—"I bought three bottles of Nerviline while in Canada and treated my neighbors to some of it, and all think it the best medicine for internal or external pain they have ever used." Nerviline deserves such commendation, for it is a most powerful, penetrating, and certain remedy for pain of all kinds. Take no substitute.

PAR the power of acting specifically upon the diseased organs, stimulating to action the dormant energies of the system thereby removing disease. In fact, great is the power of the medicine to cleanse and purify that diseases of almost every name and nature are driven from the body. Mr. D. Carswell, Carswell P. O., Ont. writes: "I have tried Parmelee's Pills and find them an excellent medicine, and one that will sell well.

A Cure For Constipation And Headache

Dr. Silas Lane while in the Rocky Mountains discovered a root that when combined with other herbs makes an easy and certain cure for constipation. It is in the form of dry roots and leaves, and is known as Lane's Family Medicine. It will cure sick headache in one night, For the blood, liver and kidneys, and for clearing up the complexion it does wonders. Druggists sell it at 50 cents a package

PIGS AS A CASUS BELLI.

The Loss of a Litter Came Near Stirring Up War in Samoa.

WASHINGTON, Aug. 2.—A cow kicked herself into undying fame at the Chicago fire in 1871, and if civil war breaks out anew in Samoa, which, according to dispatches from New South Wales, the foreign residents at Samoa apprehend, a litter of pigs will have been the innocent cause of all the carnage and horror that may ensue.

Ever since the outbreak on the island several years ago, when the governments of Germany, Great Britain and the United States espoused the cause of Malietoa and relegated Mataafa to obscurity, the latter has been walking in the woods at Malie, six or seven miles from Apia. He has been in a chronic state of rebellion, not overt, but just rebellious. He wouldn't play with Malietoa's crowd. Occasionally there would be a brush between small parties of the two factions of natives, but nothing serious occurred.

A few months ago, however, a German resident missed a litter of pigs, and suspecting that they had been carried off by some of Mataafa's followers, invoked the strong arm of the law to recover his piggies. Chief Justice Cedarkrantz, sympathizing with his countryman in the loss of the animals, issued a warrant for the arrest of the suspected parties, and gave it to a constable to serve. When the minion of the law approached Mataafa's camp he was met by a crowd of 200 or 300 armed with sticks. They suggested mildly but firmly that he was laboring under a misapprehension, that he didn't really want to serve the warrant, that he was proceeding as he was in order merely to satisfy his superiors and not to gain glory unto himself by effecting an arrest.

This actually seemed to be the constable's purpose, for he returned to Apia without either pigs or prisoner. Naturally the owner of the animals was wroth and demanded that the full power of the army and navy be enforced against Mataafa's camp, that personal rights and the majesty of the law might be vindicated. Chief Justice Cedarkrantz was inclined to insist upon his countryman's demand, but the loss of a few pigs, even if it were more or less mixed up with the abandonment of a principle, was not deemed of sufficient importance to precipitate active hostilities. Latest advices state that the matter was dropped and the indications were that trouble between the factions would be entirely avoided. But how the German is to be solaced for the loss of the pigs does not appear.

THE IRON HALL.

An Application for a Receivership Alarms Its Members.

NEW YORK, Aug. 2.—The members of the Order of the Iron Hall in this city are greatly exercised over the announcement that an application was made on Friday in the Superior Court, Indianapolis, for the appointment of a receiver, on the ground that the organization is insolvent.

The feature of the application that caused most apprehension was the one making serious charges of irregularity against Freeman Somerby of Philadelphia, who is supreme justice and apparently the executive head of the organization.

He is charged with a wilful misappropriation of the funds, with altering the books, and with taking at least $50,000 a year for his private traveling expenses.

He is also charged with failing to call a meeting of the Supreme Council for some years past, and with forcing an increase of his salary from $5000 to $10,000.

DRIVEN DEEP IN THE MUD.

Peculiar and Fatal Accident to Balloonist Hope.

ST. PAUL, Minn., Aug. 2.—Professor Edward Hope, the balloonist, was killed Saturday afternoon at Inver Grove in a peculiar manner. After his balloon had gone up about a mile it began to drift rapidly toward the Mississippi before a west wind.

Becoming alarmed, Hope cut away his parachute and began to descend. The machine worked badly, however, and he fell into a slough, and was driven 12 feet into the soft mud, it requiring nearly one hour to dig his body out.

Accident at a Balloon Ascension.

NEW YORK, Aug. 2.—Lake Quinsigamond, near Worcester, was the scene of a balloon accident Saturday night, which, however, ended in a miraculous escape. During the preparations for a balloon ascension and parachute leap, a storm came up and the balloon escaped. On its upward flight it surged into the crowd, and Benjamin Long was caught by the right foot in a loop of rope and carried skyward, head down. From the start Long made efforts to save himself. His mother, who was among the spectators, was almost paralyzed with fright. When well up in the air, Long managed to seize the cut-off rope on the parachute and dropped like a shot for 50 feet, then, as the big umbrella filled, he sailed out on the lake, struck the water, disentangled his feet and swam ashore and was at once the hero of the crowd. This is the second accident that has happened at these balloon ascensions at this lake. It is probable that they will be given up.

DR. WILLIAMS' PINK PILLS FOR PALE PEOPLE

ARE NOT a Purgative Medicine. They are a BLOOD BUILDER, TONIC and RECONSTRUCTOR, as they supply in a condensed form the substances actually needed to enrich the Blood, curing all diseases coming from POOR and WATERY BLOOD, or from VITIATED HUMORS in the BLOOD, and also invigorate and BUILD UP the BLOOD and SYSTEM, when broken down by overwork, mental worry, disease, excesses and indiscretions. They have a SPECIFIC ACTION on the SEXUAL SYSTEM of both men and women, restoring LOST VIGOR and correcting all IRREGULARITIES and SUPPRESSIONS.

EVERY MAN Who finds his mental faculties dull or failing, or his physical powers flagging, should take these PILLS. They will restore his lost energies, both physical and mental.

EVERY WOMAN should take them. They cure all suppressions and irregularities, which inevitably entail sickness when neglected.

YOUNG MEN should take these PILLS. They will cure the results of youthful bad habits, and strengthen the system.

YOUNG WOMEN should take them. These PILLS will make them regular.

ACROSS THE ATLANTIC.

PETITION AGAINST BALFOUR'S RETURN FOR EAST MANCHESTER.

Cholera has Broken Out in Burmah—Riots in the Cholera-Smitten Districts of Russia—Princess Beatrice's Narrow Escape From Death by Fire.

LONDON, Aug. 2.—A petition has been granted against the return of the Right Hon. Arthur James Balfour, First Lord of the Treasury, and Conservative leader in the House of Commons, as member of Parliament for East Manchester, on the ground that his election was obtained by bribery and illegal voting, by the wholesale treating of voters and the hiring of vehicles to carry them to the polls. Mr. Balfour was declared elected by 5147 votes to 4747 for Prof. J. F. C. Monroe, Liberal. In 1886 Mr. Balfour was elected by 4160 votes to 3516 for J. H. Crosfield, Liberal, and when Mr. Balfour accepted office he was returned without opposition.

A CASTLE ON FIRE.

Princess Beatrice Saved Her Life But Lost Her Jewels and Wardrobe.

BERLIN, Aug. 2.—Princess Beatrice had a narrow escape from death from fire in the castle at Heillgenberg Saturday morning.

Her maid carrying a candle approached too near a mosquito net covering the bedstead, setting fire to the net.

Princess Beatrice, who was in the bed, had no time to dress, but ran out of the room and alarmed the household.

The hose fixture near the bedroom would not work and a whole wing of the castle was destroyed before the firemen arrived.

The Princess lost all her jewels and wardrobe. Her husband, who was sleeping in a hunting-box in the neighboring woods, hastened to the castle as soon as he learned of the fire. Two firemen were injured.

FOUR MEN KILLED.

Fatal Result of the Collision of Two Drags Near Paris.

PARIS, Aug. 2.—Two closely-packed drags collided yesterday on their way home from the Maison Taffite races. The horses became unmanageable and threw the drags down an embankment into the gutter.

All the occupants of the drags were thrown out and two horses rolled down the embankment with them. Four men were killed and several men and two women were severely injured.

Riots In the Cholera Districts.

ST. PETERSBURG, Aug. 2.—From letters received here it is learned that the natives, believing that doctors were poisoning patients who were suffering from cholera, became greatly excited and determined to put an end to the murderous practices. Five thousand of the natives suddenly invaded the Russian quarters of the town of Tashkend and attacked and wrecked the residence of Deputy-Governor Poutinstsoff, who was killed by the mob. A body of troops was hurried to the scene of the attack and opened fire on the natives, killing several of them.

The character of the struggle may be imagined when it is known that 60 of the natives were killed and that hundreds of them were wounded, many of them most grievously. The soldiers, too, suffered heavily, 15 being killed and many wounded.

It is feared that there may be a renewal of the troubles. The troops are being reinforced, and everything is being done to put a summary and effectual end to further uprising on the part of the natives.

Cholera in Burmah.

LONDON, Aug. 2.—The Times announces that cholera has broken out in Toungo, Burmah. The outbreak was due to the filthy condition of the town.

Sent a Message to Mother.

LONDON, Aug. 2.—Princess Beatrice has telegraphed to the Queen from Castle Heillgenberg, Germany, saying that she is quite well, and that, personally, she in no wise suffered from the midnight alarm of Friday last when part of the castle was destroyed by fire.

Three Forgotten Murders.

LONDON, Aug. 2.—A man who is confined in prison in Glasgow has confessed that he was implicated in the murders of Lord Leitrim, Lord Mountmorris and James Carey, the informer. The authorities refuse to divulge the prisoner's name.

Lord Bathurst Dead.

LONDON, Aug. 2.—Allen Alexander Bathurst is dead. He was born Oct. 19, 1832. He represented Cirencester in Parliament from 1857 to 1878, when he entered the House of Peers. He was a lieutenant-colonel of the North Gloucestershire militia and a member of several clubs.

Mrs. Deacon Got Her Children.

Gladstone Feeling Well.

LONDON. August 2.—Yesterday Mr. Gladstone was reported to be feeling well.

A Mysterious Letter.

NEW ORLEANS, Aug. 2.—Chief of Police Gaster yesterday received a letter from what is supposed to be the Mafia. The letter was inclosed in an old envelope, with a skull and crossbones on it. It was sent from the New Orleans postoffice, and an air of mystery hangs about it. The writer is not known, but investigations will be set on foot to find him, and the matter will be pushed until he is discovered. Nunnez, the writer, appears to live in this city, and to have connections in St. Louis. Following is the letter:

NEW ORLEANS, July 29, 1892.

To Chief of Police Gaster:

We have in our possession Judge Marr. Will deliver him in your hands for $500 or will liberate him for $100. We will send you his old clothes, etc., such as we found on his person, but bear in mind for one bad break authorized by you his body will be riddled with shot, then sent you for a present. This money must reach us before 20 days, unless you will have his right ear for further information.

Address General Delivery Postoffice, Chicago, St. Louis or New Orleans.

Respectfully,
P. J. NUNNEZ.

It will be remembered that Judge Marr, of the Criminal District Court in this city, mysteriously disappeared last April. He was old and feeble, and was last seen walking along the levee. The impression of his friends was that he had fallen into the river and was drowned, and that impression still prevails.

Frick Out of Danger.

PITTSBURG, Aug. 9—H.C. Frick is entirely out of danger. His physicians made that announcement, but said it was not likely that he would be down to his office this week.

Foreign Notes.

The political speech made by Prince Bismarck in Jena yesterday is being excitedly criticised by the newspapers of Berlin.

All through the Provinces the rapid crease of La Grippe, is causing great alarm. A report was received here to-day, of a new development of the disease, which is worse, perhaps than any other. Wm. Hanley of N. Y. City, died in terrible agony after sickness of only four days. His tongue swelled to such an extent as to make it impossible for him to close his jaws or swallow any food. The report is causing the people in this district to resort to the noted Grip-cure, recently referred to in so many papers. In Cape Breton the disease has spread very rapidly and with fatal results, D. J. McKillop of L'Archevoque writes Feb. 11th that this cure has been tried in his neighborhood and with such success that all those residing there are obtaining a supply, believing it to be the only remedy affording relief and effecting a certain cure. He finished his letter by asking for a large quantity of the Medicine (Dr. Morse's Indian Root Pills) to supply the demands of the community for the relief of LaGrippe.

For You r O

GENTLEMAN,—One of my little girls (aged 4 years) had been troubled with costiveness in its worst form since infancy. We tried different remedies which gave relief while using, but as soon as discontinued she would be worse than before using. She lost her appetite and was growing weak and delicate. A friend of mine who had used B B B with grand results for the same disease advised me to try it, and also the Burdock Pills, which we did. She did not take the contents of one bottle before it relieved her, and not only relieved her but permanently cured her, for she has not been troubled since since, and she is now eight years old

The "Myrtle Navy" brand of smoking tobacco has stood the test for over twenty years, and during that time it has lost no friends and gained scores of thousands This lengthened experience shows that is no mere passing fashion which has gained it the approval of the public, but its superiority in the essential qualities which make a first-class tobacco.

Advice to Mothers

Mrs. Winslow's Soothing Syrup has been used by millions of mothers for children teething for over fifty years, with perfect success. It relieves the little sufferer at once, produces natural quiet sleep, and freeing the child from pain, and the young cherub wakes as bright as a button. It is pleasant to taste, sooths the child softens the gums, allays pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhoea, whether arising from teething or other causes 25 cts a bottle.

A Question

How can we raise more corn to the acher? Why, of course by using Putman's Corn Extractor. Putnam's Painless Corn Extractor has given universal satisfaction, for it is safe, sure and painless. Like every article of real merit it has a host of imitators, and we would specially warn the public to guard against these dangerous substitutes offered for the genuine, Putman's Extractor. N. C. Rev William Hollinshed

Pastor of the Presbyterian church of Sparta, N. J., voluntarily writes strongly in favor of Hood's Sarsaparilla. He says "Nothing I know of will cleanse the blood, stimulate the liver, or clean the stomach like this remedy. I know of scores and cores who have been cured by it."

Increase Your Weight

If you are losing flesh and blood, commence at once using Miller's Emulsion of Cod Liver Oil, which is far ahead of all other preparations of the kind in existence By taking Miller's Emulsion people gain from 5 to 10 lbs. by thd time the first bottle is consumed. It is the greatest blessing of the century to all in delicate health for who suffer with couahs, colds and ailments that tend to consumption. Remember, Miller's Emulsion contains h consituents in wheat.

Advice oth

Keep the head cool, the feet warm and the bowels regular, and no disease can attack you. This is a celebrated German physician's advise, and can best be accomplished by using Burdock Blood Bitters, the best blood purifier known. It cures disorders of the stomach, liver, bow

THE FACT

That AYER'S Sarsaparilla CURES OTHERS of Scrofulous Diseases, Eruptions, Boils, Eczema, Liver and Kidney Diseases, Dyspepsia, Rheumatism, and Catarrh should be convincing that the same course of treatment WILL CURE YOU. All that has been said of the wonderful cures effected by the use of

AYER'S Sarsaparilla

during the past fifty years, truthfully applies to-day. It is, in every sense, The Superior Medicine. Its curative properties, strength, effect, and flavor are always the same; and for whatever blood diseases AYER'S Sarsaparilla is taken, they yield to this treatment. When you ask for

AYER'S Sarsaparilla

don't be induced to purchase any of the worthless substitutes, which are mostly mixtures of the cheapest ingredients, contain no sarsaparilla, have no uniform standard of appearance, flavor, or effect, are blood-purifiers in name only, and are offered to you because there is more profit in selling them. Take

Ald Diamond Raises Some Objections but is sat on—After a Long Session the Council Adjourns for Six Weeks

The city council met in regular session last night, there being present Mayor Bogart, and Alds. Grills, Taylor, Lingham, Starling, Walmsley, Wallbridge, Hopkins, Gordon, Luscombe, Diamond, Ponton, Hay, Mikel, LaRoche, Doyle, Foster, Clarke and Shevlin.

The reports of the various committees were read, on which the council went into committee of the whole, Ald. Mikel in the chair.

The executive recommended that the taxes on the Agricultural fair grounds for 1891 and 1892 be remitted, on condition that the mortgagees allow the Society the use of the grounds. This recommendation was adopted.

The committe also reported the estimates, as follows :

Ald. Walmsley said that under the head of revenue, the committee had made their estimates where possible exactly as as they would be, but where the revenue could not be exactly known the lowest estimate is given, so that there would be a certainty that the estimated revenue would be realized. The committee was not unanimous on the report. The chief objection made is that provision was not made for paying the whole of last year's deficit, but only $3,545 out of the total deficit of $5,860. Of this deficit some $1,400 had been brought forward from several years ago. To pay all the deficit this year would necessitate either the raising of rate or the curtailment of the expenditures of the committees.

Ald. Diamond raised some objections. He objected that the estimates did not provide for a deficiency of $2,315. He went into some detail as the condition of the finances. He had a minority report which differed from the other report in providing for the whole of the deficit. He also claimed that the deficit, according to the auditors report was not $5,860, but some $1,000 less than that. To provide for this he would strike a rate of 16 8-10 of a mill, or 3-10 of a mill more than the chairman of the executive committee proposed. He claimed that this council had no right to hand over to next years council a deficit of over $2,000. He moved that the estimates provide for the whole deficit and the rate be 16 8-10 of a mill instead of 16 5-10.

Ald Walmsley insisted that his estimate of the deficit was correct and that the rate Ald. Diamond proposed would not meet the whole deficit. He read a note from the auditors in which they stated that the seeming deficit according to their report was not the real deficit, because several accounts had been presented after their report had been made. This showed that the auditor's report from which Mr. Diamond took his figures was not a correct basis, but that the figures the committee had presented were the right ones.

Ald. Diamond insisted that Ald. Walmsley was not correct.

Ald. Walmsley said he was correct, and he had the statement of the auditors and of the treasurer to bear him out.

Ald. Diamond.—Well you are all wrong.

Ald. Ponton supported the report of the committee as it stood. He said it was not fair or reasonable that the council this year should be expected to meet the whole of the deficit, especially as part of that deficit was of some years' standing. He did not approve of Ald. Diamond's proposal to raise the rate if possible to avoid it for it injured the city in the estimate of outsiders, for if people are looking for a place to settle one of the first things they do is to look at the rate of taxation. The committee were proposing to pay off $3545 of the whole deficit of $5860, and surely that was a fair proportion. He thought if Ald. Diamond would go back in memory to the time when he was chairman of finance he would recollect that he then contended for a principle diametrically opposite of that which he now insisted on.

Ald. Diamond arose, he said, to reply to the personal references of Ald. Ponton, but the chairman refused to hear him. He said the discussion must be confined to the question at issue, so he subsided.

Ald Diamond's amendment was then put and defeated, no one voting for it but himself. The estimates as presented were then adopted.

The Bell Telephone

The report of the special Committee re the telephone deal, was discussed at some length. Ald Clarke moved that the matter be referred to the by-law committee to prepare a by-law and report to the council. Mr. Williams addressed the council on behalf of the Telephone Co. advocating the acceptance of their offer, recommending as follows : That an agreement be entered into with the Bell Telephone Co. allowing the said company to erect poles higher than forty feet and to have the sole right for a period of ten years from the date of agreement to erect poles or otherwise conduct telephone wires on, under or over any of the streets or lanes of the city that may be mutually agreed upon, the said company agreeing to pay the city $250 per annum in equal quarterly payments and allowing the city the use of the top cross arm on their poles for fire alarm purposes and further agreeing not to increase the charge or fees to patrons beyond that charged and provide efficient telephone service ; and should an electric street railway system be adopted in the city they shall have no claim against the city by reason of such railway system interfering with the working of the telephones.

The report was referred to the solicitor and the by-law committee.

Report of Camp Committee

Your committee appointed to superintend the expenditure of the camp appropriation of $350 beg to report that they have completed their duties in that behalf and after paying all accounts have handed to the city treasurer with the vouchers for the same, the sum of $34 unexpended.

Your committee have received cordial acknowledgements of the city's courtesy extended to the Brigade Camp, from the Major General commanding, the Deputy Adjutant General and all the officers of cavalry and infantry.

Having in view the facts that all the contracts for supplies were let to Belleville citizens and that large sums were expended in the city by the volunteers individually, your committee trust that every effort will be made to secure the site of the proposed permanent camp for Belleville at an early date, for which purpose extensive grounds admirably adapted for the location are now available

W. N PONTON, chairman

The report was received

The Public Works Committee recommended the adoption of the street surveyor's report re the repairing of Front street and to this the council unanimously agreed so the work will be at once proceeded with.

The market committee recommended that the clock machinery be left where it is for the present, and that the tender of Foster & Foster for roofing in the market tower be accepted on condition that the grade of galvanized iron used is satisfactory to the chairman of committee, and that rubber tucking be used round the bolts to make the roof water proof.

The report was adopted.

A communication was read from Alex. Anderson, Toronto, re a fire alarm system which however he did not say how much he wanted for it. The communication was referred to the committee.

Alds. Grills and Hopkins moved that $1,000 be appropriated towards the completion of the Catharine st. drain. After a brief discussion the motion was unceremoniously rejected.

The chairman of the executive was authorized to sign all necessary cheques inclusive of the pay sheet when duly certified, until the council meets again.

Ald. Ponton—That in order to obtain as speedily as possible reports of necessary repairs to sidewalks and roads and to facilitate the city's public work, a telephone be placed in the residence of the city street surveyor, and that the same be kept accessible to all city officials for city business at all at times.

Street Surveyor Hulme complained of the unsatisfactory manner in which the lumber is being delivered. Lumber is not delivered fast enough for him to keep his men to work.

City Solicitor Henderson said there was no contract with the Rathbun Co. so they had no hold on them.

Street Surveyor Hulme said he had a letter from the Rathbun Co., agreeing to supply all lumber as required at the specified price.

The solicitor said if that were so that was equivalent to a contract and the company could be made to do as they agreed.

Ald. Clarke moved that the city solicitor be instructed to at once notify the Rathbun Co. to fulfil their contract at once, that if the lumber required be not supplied within one week the Public works committee be authorized to purchase what lumber is required from some one else, and that the Rathbun Co. be notified that if they do not fulfil their contract they will be held responsible for damages.—Carried.

The much mooted question of the Pinnacle St. siding was again brought forward by a communication from Mr. Graham. He asked that the council reconsider the question, but if they will not do so, he asked that he have permission to put down a private siding across Pinnacle St. into his own yard.

Mr. Graham addressed the council urging that permission be granted him to put down the siding. This would not interfere materially with traffic, and the cars would always stand in his yard.

A long discussion followed and finally the council adopted the motion of Ald. Clarke, to the effect that Ald. Graham shall have permission to build the siding, on condition that he assume all responsibility for any damages arising from the siding, that he shall not leave any car on the street at any time for longer than five minutes at a time, and that the city have the privilege to cancel the right at any time by giving six month's notice.

A discussion took place on the question of a cow inspector. Alds. Diamond and Ponton wanted two inspectors appointed, one on each side of the river. Ald. Ponton said it was a disgrace that cows and horses should be allowed to run at large as they now do, and many complaints are being made on all sides. On account of the topography of the city no one man could properly look after all parts of the city

Ald. Clarke moved that D. T. Rutledge be appointed Inspector till Mr. Craig can efficiently attend to his duties, at the same salary as Mr. Craig has now.

Ald. Diamond moved that Mr. Rutledge be appointed inspector west of the river and Mr. Craig, on the east, at $50 a year each.

Ald. Ponton moved that the two inspectors be appointed by a by-law to be introduced at the next meeting of the council, and that in the meantime the Mayor and street surveyor be authorized to engage a temporary assistant to discharge the duties of cow inspector till it be found that Mr. Craig cannot effectually discharge his duties at present.

Notices of Motion

Ald. Ponton—That in order to secur for the Aldermen copies of by-laws and public documents for personal consideration and perusal before legislating thereon, a type writing machine be obtained for the use of the city solicitor and the city clerk in connection with the public business of their offices.

The necessary by-laws founded on the estimates, for the levying of rates etc., were then introduced pro forma and passed through their various stages.

A number of inquiries were then made and answered and the council adjourned at one o'clock till Sept. 12th.

ALLEGED CONSPIRACY

PATRICK McCAMBRIDGE AND DANIEL SHANNON COMMITTED FOR TRIAL

An Interesting Case Which has Attracted Much Sympathy for the Defendant

Magistrate Flint has rendered the following judgment in the alleged case of conspiracy against Patrick McCambridge and Daniel Ostrom. McCambridge is a respectable Scotch hotel keeper in Frankford and in attempting to break up a gang of notorious thieves gets himself into a serious muddle. The judgment reads :—

The definitions in all the books are not reconcilable. Archibaldi goes very much further than any other author in reference to the point as to what constitutes conspiracy. The question here is, taking all the evidence, does it show a conspiracy as defined by the books.

The evidence shows a statement by a thief as to the party who stole the property and his complicity therein. It shows that an offer was made to Shannon to place stolen property upon Louder's place for a reward of $50 to be paid when the money was made out of Snider, the exact language is "When we make it out of the old man." Here is an offer to Shannon to place stolen property upon Snider for a sum to be made out of old Snider by the two parties conversing. Here is a plot hatched to place stolen property by one of the conspirators, upon the land of another man for money to be extorted from Snider. The solicitation is not enough, there must be a joint conspiracy of at least two, to do the unlawful act. It is said that placing the stolen property on Snider was only a civil trespass, true it was a civil trespass, but it was more, it was placing that property there for the purpose of getting money from Snider by the two conspirators; the money was to be gotton out of Snider before it reached Shannon. There was no other way the money could be gotten out of Snider, but by something to be done in connection with the placing of the goods. Who were to be the parties to the extortion? "We, when we make it out of old Snider." It was a crime to place stolen property on Snider with the intent to have Snider prosecuted as a receiver of stolen property, whether the design was successful prosecution and conviction of Snider, or whether the design was to make money out of Snider. Now looking at what was said ; there was the offer to pay $50 for doing an act, as soon as the money could be got from Snider. That offer would not be sufficient. There is no conspiracy thus far. it is simply an offer. The question now is, can we look farther, and examine as to what was subsequently said or done. Conspiracy is to be considered entirely apart from the acts done, except so far as what was said and done during during pendency of conspiracy. Conspiracy is one thing—punishing for executed act another thing. The evidence is : stolen property is found on Snider by Shannon, or Johnston, Shannon pointing it out—this stolen property I find was recently placed ther , after Jessie Snider's removal, and McCambridge swears out information, and arrests Snider on the Monday following the Sunday when Shannon revealed the crime in McCambridge's house. How far can these facts be looked at to assist the enquiry as to whether there was a conspiracy ? Here I am obliged to draw inferences. It is said that inferences properly deducible, are to be considered facts—granting this to be clear law, I infer that Shannon accepted the offer of McCambridges, and placed these goods on Snider's place, with the intent that money should be extorted from Snider, of which money Shannon was to receive $50, and that it mattered not, whether the charge was brought by one, or both of the conspirators ; the object of the charge was to extort this money, and although the charge was laid by McCambridge, yet it was laid in pursuance of the conspiracy—the word "WE" used by McCambridge, and the postponing of the time for payment to the period whence it would be received by Shannon having extorted from Snider, conveying this idea. One need not go so far as this, if Mabee's evidence is to be considered as worth anything, because Mabee swears that Shannon said, "We have or We've," put it there to McCambridge on his return. I may here state, that I have resolved not to rely upon Mabee's evidence unless where distinctly corroborated, either by facts, or by Rogers and others. I do not believe a considerable portion of Mabee's testimony, the portion of his affidavit denying what is the grievance of the charge here so clearly, and positively, coupled with his aroused lack of memory, where from the nature of the case he must have known whether he ever made statements which affected his criminality. These circumstances, together with the important variances between his evidence and Rogers, convince me it would be very unsafe to rely upon his unsupported evidence. I am of the opinion that I am bound to look at the acts proved, apart from the original solicitation, and to infer from them a corrupt agreement was entered into between McCambridge and Shannon to do an unlawful act. I think Clark's definition covers the ground I take, supported by Archibald, and in a degree by Wright on conspiracy. I think the plot was "hatched." Wright says all evidence of acts done before, or after the agreement, must be included, because they form no part of the charge. That is the case, but it seems to me that I must draw an inference from acts done, during the pendency of the conspiracy. If I am shut by law in this narrow position, that I must just take the offer made, and exclude all evidences of acts done, or statements made, by the conspirators, then I must find there was no conspiracy, only an offer and deft. can go free, but I cannot go far as that, in this case. I may exclude all the facts before and after, and adopt the words of Wright and yet taking Rogers evidence that Shannon said "we have placed it there or it is placed there," in accordance with the definitions I must hold that the conspiracy is made out taking all the evidence into account which I have a right to take. I think the evidence shows an agreement to plant the stuff and to prosecute Snider. The money could not be gotten for Shannon, without the prosecution. The anonymous case Wright 31. Combination for false imprisonment and extortion held not indictable as a conspiracy bring only damage and oppression. This is very strong authority, and if I could see the report, and it bore out the same statement I think deft. would be entitled to his discharge. But the law seems so strongly to be laid down in all the late books, adversely to this decision that I compelled to go with the great current of authority. I confess I cannot understand why a combination to falsely imprison a man with the view to extort money, is not an illegal conspiracy. The note alluded to seems to run counter to all of the text writers and decisions. I wish to repeat I disbelieve most of Mabee's evidence. I do believe that when he allowed Shannon to use the word "WE, have put it there," that if he had not assisted in planting it, he would have denied his complicity then and there, which he did not do.

The trouble in the case is, that so much of the evidence corroborates the evidence of Mabee and there are many circumstances that puzzle one in looking at the facts. I cannot understand why McCambridge should on the next day arrest Shannon, and I cannot understand why I was informed there was no evidence against Shannon when he came before me.

Were I trying this case, I should have very great hesitation indeed, in finding him guilty, but I am simply sitting ministerially, and I am bound to send deft. for trial if a prima facie case is made out. I must find, however, that a prima facie case is made out, notwithstanding the many doubts that the peculiar circumstances surrounding this case have given rise to.

A GOOD MAN GONE

A Well Known and Highly Respected Resident Passes Away

There passed away at ten minutes to two yesterday afternoon a well-known citizen in the person of Angus McFee. For some weeks past the deceased had been confined to his bed with a serious attack of enlargement of the liver. Everything that good nursing and kind attendance could do was done for the sufferer. Possessed of a strong and rugged constitution it was thought that he might recover, but as he daily grew worse all hope was finally given up, and he breathed his last yesterday afternoon.

The deceased was 52 years old. He was born in Glasgow, Scotland and was brought to Canada with his parents when five years of age. The family settled in Galt where the deceased lived during the earlier part of his life. He worked for a time in Buffalo, N. Y., when he come to Belleville in 1860 and soon after started in the jewellery business in about the same site where the present store is located. He boarded for a time with his brother Allan and on the 2nd July 1866, he went to board with Mrs. Furnival with whom he remained until his death. The deceased was a man of sterling character and popular among a wide circle of acquaintances. He was strongly attached to his friends and honorable in all his transactions. In his earlier days he was a lively spirit, and a most graceful dancer. He leaves two brothers, Allan and John. The deceased was a member of the Masonic order under whose auspices the remains will be buried on Wednesday at 3 p. m.

SPORTING WORLD

The well-known sloop Cygnet until now owned by Mr. Thomas McGaw, of Toronto has been sold to go to Buffalo, and it is expected she will leave on Tuesday. Her departure will be that of an old friend. For many seasons she has been a prominent and familiar figure among the fleet, and was the flagship of the old Toronto Yacht Club, when Mr. McGaw was commodore.

A GRACEFUL REPLY

Hon Edward Blake Says a Lot in a Few Words

In reply to his message of congratulation the Hon. Edward Blake has sent the following graceful letter to John G. Frost, president of the West Hastings Reform Club :—

50 Stephens Green,

DUBLIN, 22nd July, '92.

DEAR SIR,—I am highly honored and deeply grateful for the kind feeling which has prompted the cable I have just received from the West Hastings Reform club,

Yours faithfully,
EDWARD BLAKE.

Arrivals From Newfoundland

Six natives of Newfoundland were added to the population of the city last week. Mr. L. Roberts from that far off colony arrived with his family on Thursday last, after nine day's travelling. Mr. Roberts was a teacher in Newfoundland, but desiring to improve his own and his children's prospects, has come here to secure the advantage afforded by Ontario Business College, attached hither by its high reputation. Mr. Roberts himself, and a son and daughter have entered the college.

We noticed the arrivals also, within the last few weeks, of students from Grenada and Barbados, West Indies. Messrs. Robertson & Johnson inform us that 32 provinces, colonies and states have been represented among their students, and their text books have an equally wide demand.

Dairy Notes

J. K. McCargar is attending the Peterboro' cheese board to-day. He will be present at the Campbellford board tonight.

Madoc district have contracted their entire season's make and now find themselves placed at a serious disadvantage in view of the increased demand in England and the consequent higher prices being paid for cheese. There is no alternative, however, for those factories who have sold their season's make. The buyer invariably gets the best of the bargain. If the price goes down they go among the contracted factories and slaughter them with a ruthless hand.

That Outing.

Indications point to a very delightful time at the excursion in aid of the free reading room, to be held on Friday next. This will afford many the opportunity of quiet cool day in the bay, that is almost impossible to have in the ordinary twenty five cents, afternoon sail, and at the same time assist in a most worthy object. The Oddfellows orchestra has been secured, and will also be present at the moonlight.

Selling Them Fast

Those who are slow in buying their light weight clothing, cannot expect to find the same assortment (late in season) to select from. The Oak Hall have been selling them off very lively lately, and the stock is getting low. We had a customer grumble to-day because we had nothing just to suit him. It is not reasonable to suppose that we can carry a full and complete stock right up until the close of the season. We would then have a complete old stock next year to show our customers. The Oak Hall stock is still well assorted considering the lateness of the season. All light goods are now reduced.

DANDRUFF.—If you wish a preparation upon which you can rely for the complete destruction of Dandruff, use Capilline and ou will be satisfied.

SILVER !

The largest shipment of silver plate we have yet received in Belleville will be here in a few days direct from the maker. New and beautiful designs and an immense stock, with the prices for goods made by the most prominent and reliable makers in the world at a less figure than you pay for a washed pewter body to small dealers. This is a simple reason why we do the silver plate trade, and it applies to the crockery, china and glass ware trade in just the same way as you all know so well by this time.

THE REASONS !

GOUGH CAN SELL CHEAPER THAN OTHER DEALERS

FIRST—Because we are the largest Clothiers in Canada, and SECOND, because we are not the supply account of any firm, and consequently are not compelled to handle only one manufacturer's goods, and at whatever prices they have a mind to ask. THIRD—Because we have ample means to buy wherever we like, and no matter how large the stock, whether it is $1,000 or $100,000 worth we are always prepared to pick it up if it is a snap, and FOURTH—Because we sell ten times more goods than any other firm, and consequently can sell on a smaller margin of profit.

Some of our high price friends cannot see anything funny about GOUGH selling so cheap, and call us "Fake" dealers, but when inaugurating this One Price and Low Price System we did so with a determination to

"Hew to the Line ; let the Chips fall where they may !"

And if in fulfilling this mission we are breaking the back bone of our high price oppositionists, we are sorry for them, for we mean them no harm, but claim the right to do our business in a

SQUARE, HONORABLE WAY,

GIVING DOLLAR FOR DOLLAR EVERY TIME.

Yes, we are called "fake" dealers and "low" dealers by our opponents. Well, we freely admit we are low dealers, wallowing in the lowest depths of bed rock prices, while our exalted brethren look down upon us from their high place and go wild because we are capturing their trade, and this is the sequel to their calling us "fake" dealers, etc., but it won't go down, for the name of GOUGH is provincial, and a household word in every family.

Don't forget our

GREAT MIDSUMMER SALE

and we are giving extraordinary cuts all along the line, as we are determined to carry no goods over until next season, but require the room for our Big Fall Stock which will commence to arrive next month.

Thonsands of Overall's only 19c per pair, sold by other dealers before we opened here for 50c, but we compel them now to sell them for 25c, and they are mad.

Discrimination in Freight Rates Alleged —Millers Ask to Be Placed on the Same Basis as Exporters of Grain as Far as Freight Rates Are Concerned.

TORONTO, Aug. 3.—The Dominion Millers met yesterday in the Board of Trade building in very fair force. President Edward Peplow of Peterboro in the chair.

The secretary's report was encouraging. There are now, the report stated, 212 members, an increase of 26 over last year's membership. The passing of the Act of Incorporation was noted with satisfaction, as was the happy termination of the Newfoundland difficulty. The appointment of Mr. D. Plewes as representative in Britain was reported, and the estimate of the wheat crop for the coming year given. It is judged, according to the report, that the surplus for exportation will be over 23,000,000 bushels.

The treasurer's statement showed a surplus of $150, the receipts being $14,660. Since the closing of the books additional expense had been caused by the passing of the Incorporation Act.

The Executive Committee brought in a brief report stating the committee's course with regard to the inspection of wheat and to Mr. D. Plewes' presence at the London Chamber of Commerce and his support of Sir Charles Tupper's resolution.

Discrimination Against Railways.

The Freight Committee brought in a report, in which grave discrimination by the railways against the millers was pointed out and complained of. It was shown that the rate from Port Arthur to Liverpool is 13 cents a bushel, from Port Arthur to London, Ont., eight cents; while wheat that is taken from Port Arthur to Montreal for six cents has to pay eight cents for transference to London. The gist of the report is contained in the following extract:

> Millers should be placed on the same basis as exporters of grain as far as railway freights are concerned, that is, they should be given the same rates plus the terminals, and they should receive the same public notice of those rates as the grain men do.

The report of Mr. Watts, the Central Wheat Buyer, was also read. He reported that 163 millers have patronized the office, and that it has led to a large increase in the association. In the past seven months 910 carloads have been purchased through the office, including 419 cars of Ontario wheat, 466 cars of Manitoba wheat and 25 cars of sundries. In all 2206 carloads have been purchased since the office was first opened. The total earnings have been $6102.64, the total expenses $5089.08, leaving a balance of $1013.56. This will enable the office, if the millers continue their patronage, to reduce the rates by 50 cents per carload.

The Act of Incorporation was read and agreed to, and then the bylaws were agreed to after a long discussion. The meeting then adjourned till the evening.

President Peplow Predicts.

"The first thing," said the President on opening the evening session, "is a matter not down on the program." That thing was the president's address, and the worthy official drew from his bosom a manuscript which embodied his valedictory. It was an historical sketch that the president gave, for he reviewed the increase of the flour duty and the resultant benefits, the buying of wheat by standard and the reconciliation of the farmers to a measure at first bitterly opposed, the institution of the Central Grain Buyer and the advantages gained thereby.

"I mention these things," said Mr. Peplow, looking up over his tilted eyeglasses, "to show how everything the Dominion Millers' Association has tackled has turned out an unqualified success," and great was the applause thereat.

"I think I cannot be accused of egotism," continued the President, returning to his manuscript, "in stating that the Dominion Millers' Association was the means of organizing the great deputation of boards of trade and chambers of commerce that waited upon the Dominion Government urging them to a modus vivendi with the Newfoundland Government, and succeeded in getting the differential duties against Canadian produce removed."

The rest of the report spoke in terms of satisfaction of the Act of Incorporation, and gave a forecast of the future work of the association. The proper adjustment of the duties and railway rates so as to admit of the whole output of wheat being ground in this country was mentioned as a proper subject for agitation and the establishment of an experimental mill suggested.

Who Are the Government?

Then came the election of officers. Mr. McLaughlin of Toronto was unanimously elected president. The other officers are: First vice-president, A. H. Baird, Paris; second vice-president, E. S. Edmondson, Oshawa; treasurer, William Galbraith, Toronto; secretary, Charles B. Watts, Toronto; Executive Committee, J. L. Spink, Toronto; James Goldie, Guelph; J. D. Saunby, London; J. D. Flavelle, Lindsay; I. Warcup, Oakville; W. H. Mulhern, Peterboro; W. Snider, Waterloo; Arbitration Committee, W. H. Meldrum, Peterboro; D. Goldie, Ayr; T. O. Kemp, Seaforth; J. Stark, Paisley; N. Wanger, Ayton; J. C. Vanstone, Bowmanville; R. Noble, Norval.

Mr. Larke on the World's Fair.

While the ballots were being counted, Mr. J. S. Larke gave a brief but clear and concise address regarding the show to be made by millers at the World's Fair. He admitted that the unfriendliness of the United States inclined Canadians to be indisposed to trouble themselves to exhibit; but he pointed out that the Fair cannot be boycotted by Canada, that business men from America, Europe and Asia will be present, and that if Canadian millers fail to make a show the American millers will be greatly pleased and benefited. A display of raw products alone will strengthen the false idea entertained regarding Canada by outsiders. Canadian mills and grain-growing are so numerous that export is needed. Which shall be exported, wheat or flour? A good exhibit of flour will greatly assist in finding a foreign market. It is quality and not quantity, Mr. Larke reminded his hearers, that will tell there, and he gave some hints as to how the exhibit could be made attractive in appearance. Much interest was manifested in the address, which was vigorously applauded.

More Scientific Knowledge Needed.

Mr. T. O. Kemp then read a paper on "How to Arrive at the Milling Value of Wheat." Mr. Kemp first pointed out the necessity of being able to discriminate and estimate the various qualities necessary to a good article. Millers as a rule depend upon experience alone, which is a rough and unscientific way of working. This makes the introduction of a new variety of wheat a very slow and difficult operation. To improve matters in this respect, it was suggested that the experimental farms and agricultural colleges be enabled to make the necessary analysis. In the remainder of the paper Mr. Kemp referred to the necessity of the co-operation of the farmer and the miller, and recommended the attention of the millers to the state of ripeness at which the grain is cut.

This ended the program of the evening, and the Association adjourned till 9 o'clock this morning.

RACE WIRES TAPPED.

Harlem Pool Room Keepers Mulcted on the Saratoga and Gloucester Events.

NEW YORK, Aug. 3.—One of the boldest wire-tapping schemes which has been attempted in several years was successfully put through by a gang of young men on Saturday in this city. As usual pool room keepers were the sufferers.

One of the principal race department circuits of the Western Union Company was "tapped," returns were delayed until bets were made by those in the scheme and then the result was sent by the operators who were at the "tap." Two pool rooms lost so heavily that they appealed to the telegraph company for relief. Just how much the gang made is not known, but one of the persons on the inside says the amount is not less than $2500 and may be $5000.

The men in the scheme included a Brooklyn sporting character, two linemen, an Englishman with some money and the five men with a thorough knowledge of telegraphy. It had been arranged to hold back the returns on seven races, and it was thought if nothing went wrong from $2000 to $5000 would be divided.

It is customary for the Western Union Company to send out "flash" messages when a horse is heavily played at the track just before the racers are started. It was by this means that the men who were to lay the money at the pool rooms were to be advised by the men who were "tapping" the wires as to which horse won.

The men at the "tap" held back the start and a description of the race, and when they received the name of the winner in cipher they sent a "flash" message over the wire to the pool rooms. Four or five minutes later they sent the description of the race.

The operators at the "tap" held back the result in the seven races agreed upon by the members of the gang. These races were the third at Saratoga, won by Miss Belle; the second and fourth at Monmouth Park, won respectively by Sir Walter and Chesapeake; and the second, third, fifth and sixth at Gloucester, won by Richard T., Genevieve, Crocus and Baby.

RAISED OVER 100 FEET.

The City of Owen Sound Raised From the Bottom of Georgian Bay.

DETROIT, Aug. 3.—The successful raising of the Canadian steamer City of Owen Sound from the bottom of Georgian Bay, where the water is 110 feet deep, has caused great interest among marine men. The City of Owen Sound was lost in October, 1887, with a cargo of grain. When it was found that the wreck was in over 100 feet of water it was given up as a total loss. Such it was with all the ordinary appliances of wrecking, but since that time iron pontoons have been invented by William Leslie of Kingston. These pontoons are 46 feet in length and about 10 feet in diameter, being round with cigar-shaped ends. They are divided into three compartments by water-tight bulkheads and are built of heavy steel plates strengthened with longitudinal and cross braces. To prevent undue rolling the pontoons are built with bilge keels and have a well at each end through which chains are brought up and effectively held by coggles. The lifting capacity of each pontoon is 100 tons.

Dozens of good lake boats lie within 100 feet of the surface on the lakes, and if the new invention is the success claimed for it all these craft will be afloat again. Among these wrecks is the large steel steamer Brunswick, which lies in about 90 ft. of water off Dunkirk, N.Y. The wooden steamer Smith Moore is in less than 100 feet of water near Marquette. These are but a few of the valuable boats which can now be raised. The underwriters are the owners of most of these wrecks, but they doubtless will be willing to sell out cheaply, particularly as the boats have been given up for lost these many years.

ELLEN LOMIS' DEATH.

Examination of Mr. Maclean at Goderich To-morrow—Interest in the Case.

GODERICH, Aug. 3.—Writs for criminal libel were issued yesterday at the instance of M. C. Cameron against W. F. Maclean of The Toronto World, Robert J. K. Gore, ex-gardener in Mr. Cameron's employ, and Laura Gordon, formerly a housemaid in his employ. The writs arise out of an article published in The World on Friday, July 29 last, in which affidavits of Gore and Gordon were published together with the statement of Mr. Cameron with a view of inducing the authorities to investigate all the facts leading to the death of Ellen Lomis.

The examination of Laura Gordon takes place to-day in connection with the suit instituted against James Mitchell, proprietor of The Star. J. T. Garrow will appear as counsel for Mr. Cameron, and Mr. Campion for the defendant will have associated with him, it is understood, Mr. Nicholas Murphy, Q.C., of Toronto, who was connected with the former cases.

The preliminary examination in the suits instituted against Messrs. Maclean and Gore and Miss Gordon will take place on Thursday. W. W. Fox, The World reporter who wrote the article of the 29th, has been subpœnaed as a witness in this case.

Nothing has caused such widespread interest and excitement in the town as this case for many a long day, and it is safe to predict that the town hall will be unable to accommodate the throng which will seek admittance at the preliminary examination.

Richard Ten Broeck Dead.

LOUISVILLE, Ky., Aug. 3.—News reached here last night of the death of Richard Ten Broeck at Menlo Park, Col. He gained his earliest racing experiences from Colonel Johnson of Virginia, remembered by sporting men as the Napoleon of the turf, in conjunction with whom he made many ventures. He established a stable of race horses in Havana and later on in Canada, where his horses started nine times without ever once being beaten.

Terribly Mangled.

TAMWORTH, Ont., Aug. 3.—Herbert Brown, aged 23 years, an employe of the Marlbank Cement Works, was almost instantly killed at their works this afternoon. He was caught on a belt, which he had thrown off, and was terribly mangled. When picked up he was quite dead. Deceased was unmarried.

First Electrocution in Clinton Prison.

DANNEMORA, N.Y., Aug. 3.—The first infliction of the death penalty at Clinton Prison by electricity took place yesterday the victim being Joseph, better known as "Cal.," Wood. When the signal was given 1100 volts were driven through the body and the contact was kept on for 15 seconds.

Double Drowning.

SEVERN BRIDGE, Ont., Aug. 3.—A drowning accident occurred on the Severn River this afternoon. The 4-year-old son of William Reaman was playing on a crib at the side of the river, and falling in the water his sister, Mercy, about 16 years old, jumped in to rescue him, and before assistance arrived both were drowned.

Ten Firemen Injured.

LONDON, July 30.—Rallis' large flour and cotton warehouse at Bootle was destroyed by fire last night. The loss is over £30,000. Ten firemen were seriously injured by the fall of a wall.

HEMMED IN BY FLA

GIRLS INJURED JUMPING F BURNING BUILDING.

The Strathroy Knitting Compan tory Catches Fire, a Panic and Scores Leap From the R Loss Will Reach $100,000.

STRATHROY, Aug. 3.—The most loss ever experienced by this town us yesterday in the total de by fire of the Strathroy Knittin pany's factory, storehouses and house, together with the Catholic which stood immediately opposite same street.

The building was a large fo structure about 200 feet long and ing between 200 and 250 hands.

The Fire Appliances Powerl

The fire started in the picker, a revolving steel pointed cylinder, and through the inflammable material b it was surrounded with such rapid within 15 minutes of the first dense volumes of smoke we suing from every one of the open windows that pierced the every side. These smoke-escaping were so many exhausts that they the flames with fury and rendered appliances in the building power contend against the headway made fire.

Caused a Panic.

The picker was situated in the west floor, and the ascending smoke a panic into the upper stories where of the female help was employed. the girls imagined that escape off and made for the windows of th sard roof, throwing themselves fro and sustaining severe injuries.

The prevailing opinion is that h panic not set in all the employes cou escaped without injury.

Roman Cathol c Church Destro

From the factory building the soon spread to the Roman Catholic which faced it on the south side street.

From the first the chances of sav structure were few, as the intens from the burning factory render efforts of the firemen of compar little effect.

At one time the large flouring m acent to the factory, Mr. Richar combe's house, Mr. John Banghart's the Roman Catholic parsonage and buildings within a radius of 500 feet burning structure were looked u doomed, but fortunately the direc the wind favored the escape of these ings or the loss would have been larger than it was.

The insurance on the factory is b $65,000 and $70,000 and the loss proach $100,000.

The church is completely wrecke the loss to the parishioners will not placed by an expenditure of less than There is about $3500 insurance on the ings.

The Injured.

HONOR TO WHOM HONOR IS DUE

October 31st next is the twentieth anniversary of the accession to power of Sir Oliver Mowat as premier of Ontario, and it has been suggested that some fitting recognition of this event should be made. This would certainly be appropriate and timely and it is to be hoped the suggestion will be carried out. Sir Oliver's record has been one that has been without a stain, his own enemies being witness.

The Hamilton Herald, which is distinctly tory in its tendencies, speaks of the veteran premier as follows:

"Twenty years of government with scarce a hint even of scandal or corruption is a record that any man might well be proud of, especially in these days when the very air of government seems tainted. The people not of Ontario alone, but of all Canada, will miss the old man when he is gone and will say nice things about him, but it is surely much better to say these things to him while he is yet alive so that the glow of affection from human hearts which will surround him may warm the cockles of his own. Sir Oliver is nearing the time when in the natural course of events, he must resign the reins of office to other and younger hands, and pass into the land of shadows where the bravest and best men the world has ever known have gone with the weakest and the worst. Those of us who are not hide-bound partizans will agree that it is fitting that some honor should be paid to the old man, and the date suggested is most appropriate. In such a recognition of his long and useful public career the people of Ontario might well go hand in hand ignoring party feeling for the time being, seeing that the Ontario Government has represented us al' Conservatives and Reformers alike. It is natural to suppose that the Reformers will take the initiative in whatever is done, but Conservatives generally, will do a graceful act by assisting in doing honor to a man who has been an honor to Canada and of whom all Canadians should be proud."

SOME ECONOMIC TRUTHS.

In answer to the assertion of Republican papers that free trade means low wages the Louisville Courier-Journal says:

The tariff is a tax; it is the taking away from the laborer a certain portion of the results of his labor.

The tariff is a tax, an obstacle, an embargo. It is a law which increases the price of an article, and so limits the consumption.

Free trade in any article reduces the price, enlarges the consumption, and so creates an increased demand for labor.

As the demand for labor increases the number of the unemployed decreases, and wages are fixed by the unemployed, just as the price of the cotton crop is fixed by the price of the surplus. The reduction in the price of quinine has increased the demand. The reduction in the price of sugar has increased the demand.

The reduction in the price of pig iron from $25 to $17 has increased the demand from 4,100,000 long tons to 8,200,000 long tons.

It takes more men to produce $8000,000 than 4,000,000 tons and the consumption of this extra 4,000,000 tons in house building, in ship building, in city building, also requires a new army of laborers.

Those who are in the habit of taking an appetizer before meals could not do better as well for the effect as for economy's sake, than make use of "Indigenous Bitters." As Indigenous Bitters are slightly laxative, those who suffer from habitual constipation, will derive great benefit, by regularly taking them, as they keep the bowels in good order and in that way aid digestion.

How Mr. W. D. Wentz of Geneva, N.Y., was cured of the severest form of dyspepsia? He says everything he ate seemed like pouring melted lead into his stomache. Hood's Sarsaparilla effected a perfect cure. Full particulars will be sent if you write C. I. Hood & Co., Lowell, Mass.

The highest praise has been won by Hood's Pills for their easy, yet efficent action.

There are more cases of sickness and death from diseased kidneys than from all other diseases combined. It is your own fault if you allow your kidneys to remain in an unhealthy condition when the cure is at hand. Dood's kidney Pills are guaranteed to cure the worst case. It costs but little to give them a trial. They are for sale by all druggists and dealers or by mail on receipt of 50 cts. or 6 boxes for $2.50. Write for book called Kidney Talk.

Pipe Smoke

You may be satisfied with the brands of tobaccos you have been using for years. Grant it; that you are satisfied. As there is always room for improvement, we ask you to try our OLD CHUM PLUG, or CUT smoking tobacco; we believe you will be better satisfied. In any case, a trial won't hurt you. Don't delay upon the order of buying, but buy at once.

As an after dinner pill, to strengthen the stomach, assist digestion, and correct any bilious tendencies, Ayer's pills are considered the best. Being sugar coated, they are as agreeable as any confection, and may be taken by the most delicate.

ELECTRIC BELT
AND APPLIANCE CO.
49 KING ST. W., TORONTO, Ont
G. C. PATTERSON, Mgr for Can.

Electricity, as applied by the Owen Electric Belt and Appliances,

Is now recognized as the greatest boon offered to suffering humanity. It is fast taking the place of drugs in all nervous and rheumatic troubles, and will effect cures in seemingly hopeless cases where every other known means has failed. It is natures remedy, and by its steady, soothing current that is readily felt,

POSITIVELY CURES
THE FOLLOWING:

Rheumatism,	Sexual Weakness,
Sciatica,	Female Complaints,
General Debility,	Impotency,
Lumbago,	Kidney Diseases,
Nervous Diseases,	Liver Complaint,
Dyspepsia,	Lame Back.
Varicocele,	Urinary Diseases,

RHEUMATISM.

It is certainly not pleasant to be compelled to refer to the indisputable fact that medical science has utterly failed to afford relief in rheumatic cases. We venture the assertion that although electricity has only been in use as a remedial agent for a few years, it has cured more cases of Rheumatism than all other means combined. Some of our leading physicians, recognizing this fact, are availing themselves of this most potent of nature's forces.

To Restore Manhood and Womanhood

As man has not yet discovered all of Nature's laws for right living, it follows that everyone has committed more or less errors which have left visible blemishes. To erase these evidences of past errors, there is nothing to equal Electricity as applied by the Owen Electric Body Battery and Suspensory. Rest assured any doctor who would try to accomplish this by any kind of drugs is practising a most dangerous form of charlatanism.

We Challenge the World

to show an Electric Belt where the current is under the control of the patient as completely as this. We can use the same belt on an infant that we would on a giant, by simply reducing the current. Other belts have been in the market for five or ten years longer, but to-day there are more Owen Belts manufactured than all other makes combined.

☞ **Electric Insoles.**—Dr. Owen's Electric Insoles will prevent Rheumatism and cure Chilblains and Cramps in the feet and legs. Price $1, by mail.

Beware of Imitations and Cheap Belts.

☞ Our attention having been attracted to an imitation of the Genuine Owen Electric Belt, that is being peddled through the country from town to town, we desire to warn the public against such.

Our Trade Mark is the portrait of Dr. A. Owen, embossed in gold upon every Belt and Appliance manufactured by The Owen Electric Belt and Appliance Co.

Children Cry for Pitcher's Castoria

A Ballad of Lake Champlain.

'Twas one dark night on Lac Champlain,
An' de win' she'd blow, blow, blow;
When the crew of de wood-scow Jule La Plante
Get scared an' run below.
For de win' she's blow like a hurricane;
Bime-by she's blow some more;
An' de crew buss up on Lac Champlain,
Juss half-mile from de shore.

De cap'n she's walk de front deck;
She's walk de hind deck too;
She's call de crew from up de hol';
She's call de cook also.
Dat cook his name was Rosa,
He's come from Montreal,
Was chamber-maid on a lumber barge
On the big Lachine Canal.

De win' she,s blow from nor' eas' wes',
An' de sous win' she's blow too;
When Rosa say, "Oh, capitan,
Vatever s'all we do?"
De cap'n den she's trow de hank,
But still dat scow she drif';
An' the crew he can't pass on dat shore,
Because he's lose de skiff.

De night vas dark like von black cat,
An' de waves roll high an' fast:
Ven de cap'n take poor Rosa,
An' she lash him to de mast.
Den de cap'n put on de life-preserve,
An' she jump into de lac,
An' say, "Good-by, my Rosa dear:
I go drown for your sake."

Nex' mornin' very hearly,
'Bout half past two, three, four,
De cap'n, cook, and wood-scow
Lay corpses on dat shore.
For de win' she's blow like a hurricane:
Bime-by she's blow some more;
An' de scow buss up on Lac Champlain,
'Bout half-mile from de shore.

Now all you wood-scow sailor-mans
Take warning by dat storm,
An' go an' marry von nice French gril,
An' live on von nice farm.
Den de win' may blow like a hurricane,
An' s'pose she's blow some more,
You von't get drown on Lac Champlain,
So long you stay on shore.

Interested People

Advertising a patent medicine in the peculiar way in which the proprietor of Kemp's Balsam for cough and colds does it is indeed wonderful. He authorized all druggists to give all those who call for it a sample bottle free, that they may try it before purchasing. The large bottles are 50c and $1 We certainly would advise it. It may save you from consumption.

A Double Effect

DEAR SIRS,—I have used Hagyard's Pectoral Balsam for bronchitis and bad cough with the best results, and can highly recommend it to all sufferers.

A Pleasant Herb Drink

The best cure we know of for constipation and headache s the pleasant herb drink called Lane's Family Medicine. It is said to be Oregon grape root, combined with simple herbs, and is made ready for use by pouring boiling water onto the dried roots and herbs. It is remarkably efficacious in all blood disorders and is now the sovereign remedy with ladies for clearing up the complexion. Druggists sell the packages at 50c and $1

For all forms of female weakness Dr. Williams' Pink Pills are an unfailing specific. Mr. Thomas Strachan, Postmaster, Roballion write:—My daughter has been ill for the last four years with female weakness, and had been attended by four of the best doctors in our section. She began the use of Dr. Williams Pink Pills, and two boxes have done her vastly more good than all the medicines she took from those doctors.

What She Said

Mrs. R. Peck, 15th street, New York City, visited Canada last year, and had the good fortune to pick up something which not only suited her, but her neighbors also. Writing the manufacture of Nerviline she says:—"I bought three bottles of Nerviline while in Canada and treated my neighbors to some of it, and all think it the best medicine for internal or external pain they have ever used." Nerviline deserves such commendation, for it is a most powerful, penetrating, and certain remedy for pain of all kinds. Take no substitute.

PAR [illegible] the power of acting specifically upon the diseased organs, stimulating to action the dormant energies of the system, thereby removing disease. In fact, great is the power of the medicine to cleanse and purify that diseases of almost every name and nature are driven from the body. Mr. D. Carswell, Carswell P. O., Ont. writes: "I have tried Parmelee's Pills and find them an excellent medicine, and one that will sell well.

A Cure For Constipation And Headache

Dr. Silas Lane while in the Rocky Mountains discovered a root that when combined with other herbs makes an easy and certain cure for constipation. It is in the form of dry roots and leaves, and is known as Lane's Family Medicine. It will cure sick-headache in one night, For the blood, liver and kidneys, and for clearing up the complexion it does wonders. Druggists sell it at 50 cents a package

Weighed in the balance, but not found wanting. Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure has been weighed in that just balance, the experience of an impartial and intelligent public. Both remedially and pecuniarily it is a success. Its sales constantly increase, testimony in its favor is daily pouring in. The question of its efficacy in Dyspepsia, Liver complaint, Kidney Ailments, and for Blood Impurity is dicided

Now is the time to take a good tonic medicine. Hood's Sarsaparilla possesses the greatest merit, and [illegible]

Cured Female Weakness

Mr. Hugh Caldwell, Clydesdale, Ont., writes:—"My daughter was under the care of doctors for more than a year for female weakness, without getting relief. I then procured Pink Pills and they cured her." All dealers 50 cents a box or 6 boxes for 2.60, or mailed on receipt of price. Dr. Williams' Med. Co., Brockville, Ont., and Schenectady, N. Y.

When Nature Smiles Again

Daniel France, Only 8 Years Old, But He Is a Wonder.

BURLINGTON, N.J., Aug. 3.—Daniel France, a lad less than 8 years old, broke from the jail in this city for the second time on Saturday night.

When the police went to look for him in the morning France was gone. In the corner of the cell lay a small pile of ragged clothing. An investigation showed that the little jail-breaker had divested himself of his clothes, climbed to the barred transom over the door and crawled through an aperture not more than 12 inches square. He then ran to his mother's home in a nude condition, where he was subsequently found by the police hiding under a lounge.

Young France was arrested some time ago for stealing coal from the Pennsylvania Railroad Company and locked in the city prison with a number of boys somewhat older than he. He then crawled through a sinkhole in the floor, dragged his companions after him and escaped by digging his way out under the foundation wall of the jail. He disappeared for a week, and then came back and told Mayor Sitpath he was ready to be locked up again.

Died from Cigaret Smoking.

NEW YORK, Aug. 3.—Emil C. Babel, 25 years old, a waiter, died suddenly at his home, No. 134 West Twenty-seventh-street, yesterday from heart failure.

Babel had been an inveterate cigaret-smoker, often consuming 10 packages a day. He had been in poor health of late and it is supposed that his death was directly due to his excessive smoking.

A Baby Every Year.

NORWICH, Conn., Aug. 3.—Mrs. Jacob Simon of the West Side has just added her fifteenth item to the census statistics of this town, and Jacob is walking up and down the street accepting congratulations. Mrs. Simon, who is not quite 40 years old, was wedded when she was 16. In the past 18 years she has presented Simon with a child a year. Ten of the children are living.

Modjeska's Ranch Keeper Murdered.

LOS ANGELES, Cal., Aug. 3.—A Mexican boy brought the news yesterday to Santa Anna of the murder of a man named McKelvy, who was taking care of Mme. Modjeska's ranch in San Diego Canyon. McKelvy was alone and there are no details. Modjeska generally spends her summer vacation on this ranch, which is beautifully fitted up.

Smoked On a Keg of Powder.

NEW YORK, Aug. 3.—Michael Petaso, 35 years old, employed on the construction of the new piers for the Staten Island Rapid Transit Company at St. George, S.I., sat smoking on a keg of powder in a shanty at that place Sunday night. A spark from his pipe set fire to the powder. Petaso was terribly burned about the head and face.

Shot and Killed His Wife.

SAGINAW, Aug. 3.—Judd Fosdyk shot and instantly killed his wife to-day. He then ran into the woodshed and fired two bullets into his own head. He died shortly afterwards. He also made a futile attempt to kill his mother. The killing is attributed to jealousy.

DON'T WANT PROHIBITION.

It Would Take an Army to Enforce Such a Law in Truro.

TRURO, N.S., Aug. 3.—The Royal Commission met here and sat throughout yesterday, much evidence being presented.

David J. Thomas, Mayor of Truro, stated that the town was now under prohibition law. No licenses are issued, but liquor is illicitly sold in seven hotels and half a dozen shops.

Gardner Clisp, President of Board of Trade, considered drinking was usually greater under each act tried. He opposed prohibition and recommended the license system strictly enforced, which would reduce illicit sales.

William Craig, hat manufacturer, a resident of Truro for 22 years, said the sale of liquor under prohibition was about the same as under license, though not so open. He believed it would take an army to enforce a prohibition law if such were enacted.

Rev. D. S. Fraser of Stewiacke, Convener of the Temperance Committee of the General Assembly of the Presbyterian Church, declared that he believed the selling of liquor was as great a sin as theft. He compared the drinking of wine to the reading of an obscene book, but refused to answer a question as to whether they were equally sinful.

James E. Bigelow, manufacturer of assorted waters and syrups, said that the liquor question was not effectually dealt with by license system. He was opposed to general prohibition, but was not altogether disinterested, on account of his hotel connections.

Dr. J. H. McKay favored use of strong wines as in France and light beers such as lager in the United States. Prohibition of whisky, brandy and rum would have more effect than total prohibition, because as many people demanded liquor wines and beers should be allowed as being not injurious.

Harvey Graham, iron manufacturer, Ferona, swore that in country districts in Pictou, where the Scott Act is officially enforced, he found, when connected with Nova Scotia glass works, that the use of lager by all Americans and Hungarians and wine by Bohemian workmen was as injurious as strong liquors, and made them drunk longer. Some so-called temperance beers also caused drunkenness.

Commission adjourned to meet in Yarmouth on Thursday.

CANADA'S CHARLIE ROSS.

A Montreal Boy Recovered After Eight Years of Absence.

MONTREAL, Aug. 3.—After eight years of absence from home young Willie Dallas returned to the city yesterday from Bellows Falls. On June 24, 1884, St. Jean Baptiste Day, during the celebration, he was in the crowd in St. Lawrence Main-street, St. Jean Baptiste village, near his own door, when two French-Canadians came along, and one of them picking him up carried him to a vehicle. He was taken to Bellows Falls and placed in the primary school, where he remained for four years. After that the men made him work on the farm for three years, and by this time he had almost forgotten Montreal. About a year ago he was sent to work in a hotel in Keene County, N.H., and then it dawned upon him that he would write and try to find his parents. The letter was addressed to St. Jean Baptiste postmaster, and it being about the time of the annexation the missive was lost for a time, as no one assumed to have the right to open it. When it was finally read the lad referred to the fact that he remembered St. Lawrence-street and wanted to know about Mr. Dallas and if he still lived there. There was no difficulty in finding Dallas, senior, and the hearts of the parents were gladdened when tidings came of their son. The youth says he was always well treated and was given a fair education during his four years' schooling.

Boy Killed in the Hayfield.

PICKERING, Ont., Aug. 3.—Yesterday afternoon, while Thomas Wilson and his two sons, who live in the Base-line south of this place, were loading hay, his eldest son, who was loading, slipped and fell behind the horses' heels, causing them to run away. Benjamin, a younger son, 13 years of age, who was working some distance ahead, attempted to stop the team and in so doing was knocked down, stepped on and the wheels passed over his body. He died this morning.

The Incline Railway a Great Success.

HAMILTON, Aug. 3.—Much to the surprise of everyone but the promoters the incline railway up the mountain is likely to turn out a great success. For the first month the company's receipts were $1011 and expenses $250. This upon a capital of $50,000 and the concern only in its infancy augurs well for the shareholders.

No Moulders at Work.

HAMILTON, Aug. 3.—Yesterday the Moulders' Union considered the proposition made by Hugh Sweeney to employ 16 union men at the Laidlaw foundry. There are some provisions which are not satisfactory to the moulders and they have not returned to work. It is likely the stumbling block is that Mr. Laidlaw wants to control the shop and have non-union men employed if he sees fit.

Death of a Young Doctor.

CLINTON, Aug. 3.—The death by inflammation of the bowels after a few days' illness of Dr. A. Williams in Belgrave yesterday was one of the saddest that occurred in this vicinity. The deceased was a son of Dr. Williams of Brampton, and just completed his final examination. He was in his 21st year and only located in Belgrave a few weeks ago.

Fourteen-Year-Old Hero.

WINDSOR, Aug. 3.—Gerald, the 6-year-old son of Andrew Anderson of Amherstburg, fell in the river in 12 feet of water Stanley McDonald, 14 years old, jumped in and rescued him as he was going down the third time. Only a short time ago this young hero saved another child from drowning.

Opening of the Northwest Legislature.

WINNIPEG, Aug. 3.—The Northwest Legislative Assembly opened at Regina yesterday. The Speech from the Throne referred to the great influx of immigration and consequent necessity of opening up and improving the great arteries of travel in the country, and also of the importance of having the Northwest properly represented at the Columbian Exposition.

All through the Provinces the rapid crease of La Grippe, is causing great alarm. A report was received here to-day, of a new development o the disease, which is worse, perhaps than any other. Wm. Hanley of N. Y. City, died in terrible agony after sickness of only four days. His tongue swelled to such an extent as to make it impossible for him to close his jaws o. swallow any food. The report is causing the people in this district to inquire into the noted Grip-cure, recently referred to in so many papers. In Cape Breton the disease has spread very rapidly and with fatal results. D. J. McKillop of L'Archeveque writes Feb. 11th that this cure has been tried in his neighborhood and with such success that all those residing there are obtaining a supply believing it to be the only remedy affording relief and effecting a certain cure. He finished his letter by asking for a large quantity of the Medicine (Dr. Morse's Indian Root Pills) to supply the demands of the community for the relief of LaGrippe.

For You or O

GENTLEMAN,—One of my little girls (aged 4 years) had been troubled with costiveness in its worst form since infancy. We tried different remedies which gave relief while using, but as soon as discontinued she would be worse than before using. She lost her appetite and was growing weak and delicate. A friend of mine who had used B B B with grand results for the same disease advised me to try it, and also the Burdock Pills, which we did. She did not take the contents of one bottle before it relieved her, and not only relieved her but permanently cured her, for she has not been troubled since since, and she is now eight years old

THE FACT

That AYER'S Sarsaparilla CURES OTHERS of Scrofulous Diseases, Eruptions, Boils, Eczema, Liver and Kidney Diseases, Dyspepsia, Rheumatism, and Catarrh should be convincing that the same course of treatment WILL CURE YOU. All that has been said of the wonderful cures effected by the use of

AYER'S Sarsaparilla

during the past fifty years, truthfully applies to-day. It is, in every sense, The Superior Medicine. Its curative properties, strength, effect, and flavor are always the same; and for whatever blood diseases AYER'S Sarsaparilla is taken, they yield to this treatment. When you ask for

AYER'S Sarsaparilla

don't be induced to purchase any of the worthless substitutes, which are mostly mixtures of the cheapest ingredients, contain no sarsaparilla, have no uniform standard of appearance, flavor, or effect, are blood-purifiers in name only, and are offered to you because there is more profit in selling them. Take

AYER'S Sarsaparilla

COLLISION ON THE BAY.

THE STEAMER PRINCESS LOUISE SINKS TO THE BOTTOM.

Being Run into by the tug Rescue—No Lives lost but there Were Some Narrow Escapes—Statement of two passengers on the Ill-fated Vessel

Another collision occurred on the bay last night which resulted in serious loss to property and the narrow escape of several passengers. The passenger boat Princess Louise, owned by Capt Rockwell of Kingston, was yesterday chartered by C. H Gildersleeve, of Kingston to take the Hero's route at Picton to Belleville the latter boat having a moonlight excursion out of Belleville to Trenton. The night was beautiful and as the boat steamed along under a star-lit sky there was mirth on board. Several passengers were on deck admiring the beauty and loveliness of the route as the moon danced her silvery laughter away out on the basin of the deep and was lost to sight amid the tangled wilderness that skirts the "reach." Some of the passengers were singing and all were in gay spirits. In the distance several boats could be seen following each other making a vista of scintillating lights on the water. All at once the boat was seen to change her course and beat to port towards the the Prince Edward shore. The passengers at once felt that something was wrong and as they sprang to their feet there was an awful crash and the Princess Louise recoiled almost on her beams end. There was a panic on board at once and everyone rushed forward to see what had happened. W. A. Hungerford, a commercial traveler of this city, who was on board thus described the scene to an ONTARIO reporter this morning : "We were almost on the spot where the schooner Kate went down last week. It was a few minutes past nine and we were running along under a good head of steam. I was sitting in the bow of the boat before the collision occurred and had gone back to the stern when I noticed our boat making out of her usual course towards the Prince Edward shore. I at once saw that something was wrong and run towards the bow of the boat. When about midway I heard the boats whistling loudly and a second afterwards there was an awful crash. I was thrown backward but regaining myself I rushed into the bow and saw that we had been struck a little forward to beam on the starboard side by the tug Rescue which had in tow the Resolute and two consorts. A large hole was rent in one side and the boat at once commenced to rapidly fill with water and settle in the sea. There was the most intense excitement on board. People were rushing hither and thither. The capt. of the Princess Louise called out to beach her as soon as possible and accordingly her bow was pointed on the Prince Edward shore. The alarm was given that the boat was sinking rapidly and for all hands to save themselves. There was no time to cut the life boats loose. I ran forward with all possible haste and secured several life preservers which I threw to the Women. I had only secured a few when some one called to those on board to jump if they would save their lives. I heard a splash in the water and thinking that some rash lady had leaped into the water I at one jumped in after her, knowing that it would be impossible for her to reach the shore at such a distance. I found that it was a boy belonging to the boat. By this time the water had put the fires out and the engineer, who had remained at his post as long as he could, left the hole in order to save his own life. The boat was now running at rapidly reducing speed, when we felt ourselves beached. Life preservers by this time had been brought into general requisition and some of the male passengers leaped on shore with ropes when all of the passengers were safely conveyed to land. It was a miraculous escape. I have been in some tight places in my time, but this was the closest shave I have had with death. If we had to have gone another twenty-five yards I do not see now how the passengers could have been got safely to shore. As it was there was not a single life lost, and the passengers escaped without any further inconvenience than a serious cold and an involuntary bath. The passengers on board were Miss Yarwood, Belleville ; Miss Cassells, of Toronto ; Miss Redmond, Picton ; Miss Prettie, Collins' Bay ; two ladies, unknown, Deseronto ; Miss McMahon, Picton ; Frank Wills, Belleville and a traveller named T. G. Whitfield. Doc Thompson, purser on the Hero was also on board. The crew was composed of Geo. Sophy, a deck hand ; Geo. Boothe, engineer and James Ford. The engineer especially needs praise as in fact do all the crew for their heroic efforts to save the lives of those on board.

It was only by the coolest nerve and foresight that they were conveyed safely shore and that no more serious results came out of the catastrophe. When the Rescue pitched into us the other boats in tow fell onto her but none of them were damaged to any extent. The people on the Rescue were very kind. The Rescue at once steamed off and came back with a small ferry boat which was run onto the shore when the passengers were able to get onto the tug and were thus safely conveyed to Deseronto where they were taken care of Those passengers going west come up on the early train this morning".

"Where do you think the blame lies ?" asked the reporter

Mr. Hungerford declined to make any statement at present.

It is plainly evident, however, thatthe Princess Louise was wrong in running across the bow of the Rescue.

The engineer lost everything he had on board. Mr. Hungerford and Mr. Whitfield lost all their samples and trunks. There was very little freight on board. A horse and buggy was on board which was being shipped to John Nicholson, liveryman, of this city. The animal with almost human instinct seemed to be alive to its peril, and breaking from its fastenings leaped into the water and swam ashore soon after the collision took place. It was captured by a farmer and put into the stable.

One man fell overboard and was picked up with a pike pole.

The Princess Louise belongs at Kingston. It has no regular route this season but has been open for charter to different points. A few Sunday's ago Capt. Rothwell went out of Kingston with an excursion for the Islands and the clergy of the Limestone city have been creating a great furore in consequence. The matter was being fought by the captain of the boat and much interest had been centered on the question among boatmen.

It is said that Mr. Hungerford went up to Capt Rothwell and told him to beach the boat. Capt. Rothwell has very poor eyesight and can only see a few yards in front of him.

Mr Wills' Statement

J. F. Wills, barrister, of Belleville, who was one of the passengers on the ill-fated steamer, was interviewed by the ONTARIO, and gave a graphic description of the accident, his statements being corroborative of those given above. He says : "We left Picton at 8.30 o'clock, there being about 15 persons on board all told. I had been at the Sandbanks and was on my way home. I had a horse and phaeton on board with me as well as some luggage. The boat took the usual course out of the harbor and when we came to Thompson's Point we could see a tug coming with some boats in tow. It was a bright, moonlight night and we could see the boats a long distance up the bay. The tug and our boat seemed to be heading towards each other, and as they neared each other I went down to the main deck and stood at my horse's head to quiet him as he was timid. As I was in the bow I could see everything that took place. Capt. Rothwell, of the Princess Louise, was at the helm, and instead of going to the starboard side of the tug and passing red to red, he tried to pass to the port side, and to do this he crossed in front of the Rescue, which was going very fast. The tug ran into our starboard side just aft of the fore gangway, piercing into the side and making a large hole. The scene was a wild one. It was as if a hurricane had struck them, the boards flying in all directions and the air filled with dust and debris. Our boat broke loose from the tug almost immediately and the Capt. jingled the bell and forged ahead at full speed towards the shore. At the time of the accident we were about 250 yards from the shore. Engineer Booth stuck bravely to his post to the very last, and deserves great credit for his courage and faithfulness. The boat ran up to the beach and was filling very fast. If the boat had had another 50 yards to go in deep water it would have nndoubtedly gone to the bottom with all on board. At some distance from shore the fires were extinguished and as we reached land the water had reached the main deck. All the passengers behaved very well. One lady got badly frightened and screamed out, but the rest while undoubtedly badly scared and full of intense excitement, remained wonderfully cool and collected. At about the steamer struck shore the life boats were lowered and all were put on board and taken to land, and two or three minutes after the boat listed on the starboard side and now lies two thirds under water. I got my horse on shore after some effort, but the phaeton and all the luggage of the passengers are still on the boat, but they fished up two bags of mail matter before they left. All the passengers and crew were taken to Deseronto by the Rescue, and on my demand the purser paid our railway fare to Belleville.

When asked whom he considezed to blame for the accident he said it was chiefly the fault of the capt. of the Princess Louise. It was a gross piece of carelessness for him to attempt to cross the bow of the other boat. The rule is to pass on the starboard side unless signalled for the other side and such signal was not given soon enough to do any good. The only blame that attaches to the tug was in not whistling soon enough.

Mr. Wills describes the sensation at the time a boat is sinking as a most peculiar one. To feel the boat slowly settling under you, to see the water gradually but surely creeping up the sides of the boat and knowing that in a few minutes it will be under water—that is an experience such as a person never wants to have a second time.

THE MASSEY-HARRIS BINDER.

Some of the Best Features of This Excellent Machine.

On Monday afternoon an interesting test in competition with other binders was made of the Massey-Harris Open End Binder, which was witnessed by a considerable number of farmers, and of which an ONTARIO reporter was an interested spectator. The test, which was made on the farm of H. Hubble, 3rd concession of Sidney, was a thorough one, first in a field of barley badly crinkled, then among some heavy lodged wheat, and lastly in a field of barley and wild peas. It is scarcely necessary to say that the Massey-Harris binder stood the test admirably, amid the openly expressed commendations of the shrewdly critical farmers who stood by. The machine picked up every head of grain no matter how badly lodged, and ejected it in the form of neat and well-bound sheaves, and during the whole test of some hours duration it did not miss a single sheaf. The test was so satisfactory that Mr. Hubble at once purchased the binder, and another farmer who was on the field, was so delighted with it that he ordered one at once, although he had not intended purchasing one this year.

This binder combines all the best patents and latest improvements of the old Harris and Massey binders, which were formerly rivals for the first place among all the binders made in Canada, and the result is a machine which the makers claim cannot be equalled on the continent, and it certainly cannot be surpassed. One test of its excellence is its popularity. Over 12000 machines were made for this season's harvest, and nearly the whole number has already been disposed of. Over fifty have been already sold this season by Lally & Jones, the local agents.

Some of the most valuable features of this binder are the following : The elevator canvas adapts itself automatically to the condition of the grain, a feature found in no other binder. This prevents any clogging. The table canvas is six inches wider than that of any other binder made, it has a steel bar across the top of the canvas slats to facilitate the movement of the grain, and the table is placed very close to the knife. The reel arm is made of hickory and the slat of ash hung on spring steel, so it is almost impossible to break it. The reel lever has four motions forward and backward, and up and down. The knife bar has no projections below the sill, consequently the knife can cut very close to the ground. The drive wheel is 40 inches high and 9 inches in face and thus gives plenty of power. On the wheel is a relief spring which takes all jar off the horse's necks and off the driver on his seat. This also is a feature possessed by no other binder. The binding attachment is what is known as the Stark knotter, has only nine pieces, and is a very simple yet effective piece of mechanism. Sheaves of four different sizes can be made by a slight adjustment of the machinery. The machine binds by weight, so that in green grain the sheaves will be smaller, and in very ripe dry grain larger than the adjusted size. The knotter has a slide of 18 inches, so there can be choking of the grain, the packer reaches to within three inches of the top of the elevator roller and catches all tne grain, while there are three ejection arms, thus completely separating the sheef from the grain. The boxes are all adjustable, the wheels screw off and on so there are no nuts to loose, the rollers are all capped so it is impossible for straw to get wound around them, and the levers are all within easy reach of the driver and perfectly under his control. Another most valuable quality of this binder is its lightness of draft. In the test on Monday it was drawn for some hours by a span of small horses and they scarcely turned a hair. The whole machine is as perfect a piece of mechanism as could possibly be devised, being handsome in appearance, effective in operation and satisfactory in every instance and respect to purchasers, and is a substantial boon to the farmers of Canada, among whom it is decidedly the favorite of all binders.

Children's Reefer Coats.

The most convenient garment you can have for a boy is a nice reefer jacket. They take the place of a light overcoat and look neater. There are a lot of them now used in the city and they were all sold by the Oak Hall Clothing Co. A great many people have an idea when they see a boy with a neat coat or a neat suit that it must have been bought in Toronto or Montreal. Do not suppose anything of the kind, the Oak Hall has at all times the very latest in boy's and children's clothing. You should see these reefer jackets and if you need anything of the kind you will likely buy.

"Pen and Sunlight Sketches."

"Pen and Sunlight Sketches" and "sporting Resorts," are two publications issued by the Grand Trunk railway, designed to afford concise and explicit information to the tourist and sportsman. The first is a very handsome work, beautifully printed, finely illustrated and fit to adorn any parlor table as a work of art. It shows Canada from the Sea to the Huron Lake. It contains suggestions that after reading provokes one to pack a grip sack and buy a ticket, and the reader who has perused it will close the book with a resolve, as soon as possible, to take it for a guide, counsellor and friend in laying out his summer trip. "Sporting Resorts" is written in a different vein, but is a good literary work nevertheless. Its perusal will excite the determination of the angler or hunter to explore the happy hunting grounds so timely portrayed for his information. The different lake regions and river districts have been grouped so as to give in convenient shape a concise sketch of the historical and geographical features of the country. No doubt the local agents of the G. T. R. will fill requests for these publications.

AGONIZING ECZEMA

Awful Suffering. Driven Almost Insane by Doctors. Tried Cuticura. Relief Immediate. Entirely Cured in 4 Months.

I suffered with the dreadful eczema for over six months, during which time I had consulted three doctors, and this tormenting skin disease had grown worse and worse on me in spite of all medical treatment. My condition was unbearable. My legs were swollen, my arms were raw, my face and neck full of eruption, which made me scratch until my whiskers were soaked and pasted with the sickly fluid. I could hardly bear my clothing. When night came I was afraid to go to bed, no sleep would come to relieve me, but the itching would increase. During day time I had no rest, I was all broken up, nervous to the highest degree, and nearly driven to despair. At that time I read about the CUTICURA REMEDIES, intended to try them, and dropped the doctors. *After applying* CUTICURA *I had the first night's rest for several weeks.* Using the CUTICURA, CUTICURA SOAP, and CUTICURA RESOLVENT, with proper judgment, my condition improved slowly but surely day by day, until after three to four months' use of them I was cured. Our minister, Rev. J. G. Perrault, in Mandan, knows me and knows how I suffered. Any one may write to him and he will certify to the truth of this testimonial.

SILVER!

The largest shipment of silver plate we have yet received in Belleville will be here in a few days direct from the maker. New and beautiful designs and an immense stock, with the prices for goods made by the most prominent and reliable makers in the world at a less figure than you pay for a washed pewter body to small dealers. This is a simple reason why we do the silver plate trade, and it applies to the crockery, china and glass ware trade in just the same way as you all know so well by this time.

THE REASONS !
GOUGH CAN SELL CHEAPER THAN OTHER DEALERS

FIRST—Because we are the largest Clothiers in Canada, and SECOND, because we are not the supply account of any firm, and consequently are not compelled to handle only one manufacturer's goods, and at whatever prices they have a mind to ask. THIRD—Because we have ample means to buy wherever we like, and no matter how large the stock, whether it is $1,000 or $100,000 worth we are always prepared to pick it up if it is a snap, and FOURTH—Because we sell ten times more goods than any other firm, and consequently can sell on a smaller margin of profit.

Some of our high price friends cannot see anything funny about GOUGH selling so cheap, and call us "Fake" dealers, but when inaugurating this One Price and Low Price System we did so with a determination to

"Hew to the Line ; let the Chips fall where they may !"

And if in fulfilling this mission we are breaking the back bone of our high price oppositionists, we are sorry for them, for we mean them no harm, but claim the right to do our business in a

SQUARE, HONORABLE WAY,
GIVING DOLLAR FOR DOLLAR EVERY TIME.

Yes, we are called "fake" dealers and "low" dealers by our opponents. Well, we freely admit we are low dealers, wallowing in the lowest depths of bed rock prices, while our exalted brethren look down upon us from their high place and go wild because we are capturing their trade, and this is the sequel to their calling us "fake" dealers, etc., but it won't go down, for the name of GOUGH is provincial, and a household word in every family.

"RED STAR OF WAR."

PLANET MARS NOW WATCHED BY ASTRONOMERS.

The Mammoth Lick Telescope Brings the Red Planet Within a Range of 50,000 Miles—Under Constant Observation For Over Three Weeks.

SAN FRANCISCO, Aug. 4.—Are the people on the planet Mars trying to signal the earth?

That is the question which the work of the Great Lick telescope during the past few days has aroused, as Mars has approached nearer and nearer to the big California instrument, which will to-morrow night have opportunities for observation such as were never known before in the history of astronomy.

The present great stir about Mars is easily explained. To-night he will be in opposition—i.e., the earth will come directly between the ruddy planet and the sun, thus affording an unusually favorable and long coveted opportunity for telescopists to scan his features, to watch his two tiny moons, to detect his ice caps and perhaps to determine whether his so-called "canals" really bear any trace of the workmanship of animated inhabitants.

The path of Mars in his journey around the sun is not a regular curve. So great is its eccentricity that when near perihelion the planet is about 12,000,000 miles nearer the central luminary of our system than when it approaches aphelion. To-night Mars will be near perihelion, and it is only about 35,000,000 miles from the earth—a very short distance for even an ordinary telescope to span.

But the mammoth Lick telescope, magnifying 700 times, brings the red planet to within a range of 50,000 miles, or but a little more than one-fifth of the distance of our own silvery moon.

Moreover, at this period Mars is at one side of the earth, while the sun is at the opposite side, a fact which contributes very considerably to favorable observations of the planet. No equally favorable opportunity for studying Mars will recur till the year 1909.

It will be remembered that Mars only became a subject of extreme importance 15 years ago, when it last approached Earth. At that time not only were its two moons discovered by an American, but wise men in the great observatory at Milan were enabled to map its surface so as to show almost conclusively that human life existed on the planet. The strides which telescope-making has taken during the intervening years have produced the Lick telescope, and this has not only justified the expectations of its makers, but has already added some startling facts to what was already known about the red orb.

Mars has been under constant observation for more than three weeks past at the Lick Observatory. It has grown larger and larger each evening, and to-morrow night a little over an hour after midnight it will reach its maximum size and then begin to again slowly recede for another 15 years.

It is admitted by all astronomers that the physical conditions of the planet as they have become known through the new and improved telescopes of the past 20 years more closely resemble those of the earth than any of the other heavenly bodies. Indeed, there is hardly another planet even remotely resembling the earth in regard to the heat and atmospheric conditions here prevailing. Mars has not only a well-recognized atmosphere of its own, but four seasons of the year, which follow each other as those of the earth, a degree of warmth closely approximating what is known here, a day of a little over 24 hours, north and south poles with ice and snow and every natural condition apparently which should conduce to the existence of animal life.

That is as far as the astronomers will go. Astronomers form one of the most conservative classes of people, and will never admit what has not been proved to exist. To their exact mathematical minds reasoning by analogy and induction are foreign, while all professors of other branches of science reach their broadest and truest conclusions in this manner.

Other scientists, therefore, have taken up the definition of Mars where astronomers lay it down. Scientifically it has been demonstrated in the most conclusive and absolute manner that animal life exists on Mars in a high degree of development. Whether or not the process of natural selection has there advanced so far as Darwin said it has upon the earth, is a question about which some of the most eminent scientists are divided. They have no doubt, however, that the conditions of life on Mars are very closely allied to those of the earth.

With the known age of the planet, its physical formation and the solar advantages it enjoys, as discovered by the astronomers, scientists could not deny that it was inhabited without upsetting to a large degree the foundation upon which their own elaborate story of the creation rests. At this point the work of Schnaparelli, the eminent Milan astronomer, plays a most important part in the observations now being made at the Lick Observatory. After long and careful observation during the last opposition of Mars, 15 years ago, he was enabled to map its surface in a way which went far to strengthen the contention of those scientists who maintained that it was inhabited by a highly civilized race.

His work was in effect to show that thesurface of the planet had been transformed in a manner unknown in any of the other heavenly bodies. There were configurations, as he demonstrated, which, if they were the work of nature, have been repeated nowhere else, not even on the earth, which Mars so closely resembles. Here again the scientists, drawing facts from all sources, putting this and that together, and reasoning by analogy and induction, reached the conclusive belief that the surface of the planet had been altered by human hands.

It followed as a matter of course that the race capable of accomplishing such gigantic results must have reached a stage of civilization in some respects at least superior to that prevailing on earth. The conclusion has thus been arrived at by many of the most eminent men of science that the people of Mars in all probability have perfected the making of telescopes and long ago discovered the exact science of astronomy, and that many conditions of life prevailing upon the earth are known to them.

Such an opportunity as the present one when, as it would present itself to their minds, the earth would be approaching close to their own planet, would be the very chance they would await to try to open communication with the people of the earth.

This may be the explanation of the strange phenomena observed this week at the Lick Observatory. The results thus far obtained have already been so extraordinary as to have made a profound impression upon the practical minds of the astronomers there assembled. Three great lights forming a triangle have been seen in the southwestern limb of the planet. They had never been seen before in any observation.

There was no mistake about these lights. They were seen for four nights in succession, so that it was impossible that they could have been produced by conditions of the Marsian atmosphere or have been optical delusions of any kind. When first seen at the Lick Observatory these lights in a triangle so astonished the astronomers that they believed them to be the effect of light unconnected with the planet. They therefore, with true astronomical caution, waited until the following night before devoting much thought to the lights. On the second night, however, which was even more clear and brilliant than the first, the lights were seen to be there when the great polished lens was turned upon the orb which had stepped to its place in the sky.

For two succeeding evenings after that these lights were observed, burning steadily, brilliantly and effulgently, as if from three mountain tops. It was evident that the lights were placed upon either mountains in Mars or artificial projections or elevations of some kind.

The appearance of three brilliant lights in a triangle upon one of the planets in a manner they are unable to explain raises a presumption at which their minds recoil. A scientist would, when thoroughly convinced of the existence of these lights under such conditions as are known to prevail in Mars, easily glide to the almost irresistible conclusion that they were the work of the men on Mars.

Observed at any other time, there would be apparently no other means of explaining these lights in a way to satisfy common sense. Observed at the present time, when eminent men in science have reached the conclusion that the people on Mars would seize the opportunity to try again to attract the attention of the people on the earth, the three lights of Mars are as significant as the moving lights in the distance were to Columbus on his caravel.

But the three strange lights which have looked down the 36-inch tube of the Lick telescope for four successive nights and astounded the astronomers at the other end are not the only unusual appearances upon the surface of the planet which the great piece of flint glass has revealed. That glass, which cost over $50,000 and took years to select, grind and polish until perfection was attained, has revealed things which other observatories have not noticed during the present opposition.

One huge projection upon the surface of the planet was long ago observed. It was not a mountain, and could not be explained by the astronomers in any ordinary manner and so they called it Fons Juventutis, or Fountain of Youth, although how they could see a fountain at a distance of 35,000,000 miles they did not state. Now, however, as observed through the great Lick telescope, there are on Mars close together two Fountains of Youth. The astronomers have not offered any explanation of this, and they are evidently puzzled, for one Fountain of Youth of the size described by them would be quite enough for that part of the country.

The scientific mind has, however, taken this phenomenon in conjunction with the three strange lights and asks whether it does not seem probable that the Fountain of Youth may itself be a signal to the people of the earth. The people of Mars being able to bring this globe which we call Earth so close to them that they can see forests, fields and cities if, indeed, they cannot actually see people walking in the streets, would be eager to establish communication with us. They may have tried to do this for centuries at each recurring opposition of Mars, or opposition of the Earth, as they would call it, and repeated failures would only stir them to greater efforts.

A Justice Who Gives a Bigamist Time to Get a Divorce.

KINGSTON, N. Y., Aug. 4.—A new precedent in bigamy cases has been laid down by Justice Moses of Deposit. William A. Brown was charged with abduction and bigamy. The accused admitted having another legal wife and child, but said he had not lived with them for some time, that he had good grounds for divorce, and intended to make application for one. Justice Moses kindly adjourned the examination for three months to enable Brown to get a divorce.

A Pittsburg Mill Official Who Claims Victory for the Iron King.

PITTSBURG, Pa., Aug. 4.—Supt Dillon at the Upper Union mills said Tuesday there was no doubt the trouble was at an end so far as the Carnegie firms are concerned. As fast as new men deserted others took their places.

The committees of the locked-out men are still active. Mr. Richard Johnson, the sturdy sentinel at the valley tracks, said yesterday that they were as hopeful as ever.

A Winter in Exile.

SAN FRANCISCO, Cal., Aug. 4.—The closing of Behring Sea against sealers has doomed three white men to a winter in exile far up in the Arctic and possibly to death. A year ago the Mattie Dyer, a sealing schooner from San Francisco, landed three of its crew, Frederick Burns, Jack Posford and a man called Frenchy, on St. Matthew's Island in the most northern part of Behring Sea. A cabin was built for them and they were given stores and fuel enough for nearly a year, and 70 pounds of powder. They were to hunt blue foxes and polar bears, and the Dyer was to take them off in May of this year. The Dyer sailed into port on Sunday, and yesterday Capt. Charles Mocklar declared that by reason of the blockade he had been unable to reach the exiles. It would be too expensive an undertaking, he said, to send a vessel especially to relieve the men. No arrangements have been made for their rescue. Three Indian hunters, who were left on St. Matthew's Island in a similar way a few seasons ago, were devoured by Polar bears.

Struck by a Fender.

OWEN SOUND, Ont., Aug. 4.—A painful accident occurred yesterday at the Peele-street dock. As the steamer Baltic was landing one of the fenders became loose at the top, causing it to fly outwards. It struck a young man named Carl Lynde, who was on the dock, on the head, inflicting a wound which may prove fatal. Lynde had come with an excursion from Meaford, near which place he has been working. He formerly lived in Spadina-avenue, Toronto.

THE DOMINION MILLE

TESTIMONIALS EXCHANGED AS CROP PROSPECTS.

**They Object to Railroad Discrimina
in the Rates on Wheat and Flou
spectively—Canadian Grains and T
Products at the World's Fair.**

TORONTO, Aug. 4.—Yesterday's meetin
the Dominion Millers was a busy one.
routine work was over and the morning
spent in the earnest discussion of va
technical points. It was all through by
and the assemblage broke up with lively
pressions of satisfaction.

Mr. T. O. Kemp's paper of Tuesday
was fully discussed, and it was unanim
agreed that the work of estimating the
ing value of a new variety of wheat is
difficult as matters stand, and that a
tific estimate would materially imp
matters. The following resolution res
from the discussion:

"That the association memorialize th
minion and Ontario Governments at an
day drawing their attention to the a
tages to farmers and millers that wou
sult from some system of testing whe
sample lots as to their milling and pr
tive qualities, which tests the Govern
may be able to carry out in connection
the agricultural colleges and experim
farms."

How Much Does It Cost?

Mr. J. L. Spink then took up the tale
discussed the question of the exact co
the production of flour, and of the l
frequently sustained through a rough-
ready style of work amongst millers. He
a minute estimate of the cost, citing
interesting figures and showing very
ful study and preparation. Two resolu
were passed: the first, moved by Mr.
Spink and seconded by Mr. E. Peplow,
in the opinion of the meeting both the q
tity of wheat needed for a barrel of
and the cost of manufacturing it
hitherto been underestimated by millers
This was supplemented by a motion m
by Mr. W. H. Meldrum and seconded
Mr. E. Mackenzie, to the effect th
takes 4 bushels and 40 pounds of whe
make a barrel of straight roller flour,
that the manufacture costs not less th
cents, exclusive of the cost of the barrel
the packing.

They Object to Discrimination.

The meeting then turned to the discu
of the railroads' discrimination against
ers in their rates on wheat and flou
spectively, and the question was turned
in all its bearings. The great discrimin
made by the railroads, the injustice of it
claims of the millers and the benefits
could confer on the railroads were d
upon with fulness and clearness.

Finally a motion was passed empow
the Executive Committee to take the q
tion up, and to, if necessary, call a sp
meeting of the association to apply to
Government for redress, and to take a
to obtain better marine insurance for m
bers.

Mr. J. S. Larke was gratified by a re
tion pledging the association's help in
ing a good exhibit of Canadian grains
their products to the World's Fair.

Good Crop Prospects.

The proceedings were then brought
close. The new president, Mr.
Laughlin, gave a short address, in w
he told of his visit to the British Mi
Association in Northampton, England,
of the good time enjoyed there. Then
testimonies were exchanged as to crop
pects, man after man giving good re
from their own particular districts.
usual votes of thanks were passed and
association adjourned.

EDITORIAL NOTES.

THE Michigan Supreme Court Judges unanimously declared illegal and unconstitutional a gerrymander bill recently passed by the legislature of that State, and in delivering their judgment they took occasion to severely denounce such measures. They took the ground very strongly that the constitution designed that the vote of one man should have equal weight with that of any other, and any bill that took away that right was ultra vires. This opinion is sound and sensible. The Michigan gerrymander was in no respect worse than and in many respects was not so bad as the two gerrymander bills passed by the tories at Ottawa. The Brantford Expositor suggests that a test case should be made of some of the worst features of the bill passed this year, so that our Judges could place themselves on record on this matter. There is no manner of doubt if some way could be devised by which the question of the constitutionality of this measure could be submitted to the Privy Council that eminent body of jurists would not hesitate long in pronouncing against it, nor be sparing in their language in its condemnation.

The ravages of cholera in Russia are awful, beyond what we in this favored and can possibly imagine. It is stated that over 60,000 persons died from thiis disease in Russia-Caucasus alone during the month of July. These figures do not include the deaths from cholera in Asiatic Russia.

The Imperial Parliament opens to-day. The speaker will be elected, after which the swearing in of the members will begin which will last the rest of the week. The speech from the throne will probably be read on Monday, and then will begin the grand struggle for power, and the first test will be made of the cohesive qualities of Mr. Gladstone's heterogeneous supporters.

What She Said

Mrs. R. Peck, 15th street, New York City, visited Canada last year, and had the good fortune to pick up something which not only suited her, but her neighbors also. Writing the manufacture of Nerviline she says:—"I bought three bottles of Nerviline while in Canada and treated my neighbors to some of it, and all think it the best medicine for internal or external pain they have ever used." Nerviline deserves such commendation, r it is a most powerful, penetrating, and rtain remed y for pain of all kinds. Take substitute.

RAISED NINETY CENTS.

Result of the Anarchist Meeting in New York City.

NEW YORK, Aug. 4.—Nearly 1000 Anarchists were packed into Military Hall, 193 Bowery, last night. Over a score were women. Almost all were dirty. They had met to glorify Bergmann and his unlawful acts. Too much publicity had been given the meeting to permit of very rabid harangues. There were no red flags and no incendiary placards. Dyer D. Lum, who has been arrested a dozen times in Philadelphia for blackmail and such things, and who edited The Alarm, Anarchist Parson's paper in Chicago, begged for quiet. He shouted:

"We do not meet here to condole with the poor workingmen of Homestead, but to glorify the hero who sold his life for the cause."

Joseph Peukert, the leader of the Autonomist, stood up and yelled a disjointed declamation. His voice ran from a whisper to a shout, and he screamed to please the crowd. "Bergmann's heart," he exclaimed, "was in the right spot. His example will be followed by hundreds. It was a noble example."

Emma Goldmann, the toothless queen of the reds, got up, dressed in a cheap blue and white striped gown, wearing eyeglasses and her hair away. She began: "I hope you will all be quiet now. There are detectives here and spies of the police ready to kill the speakers." She did not look frightened, however. "America is no better than Russia," she went on. "It is worse; it is worse; it is choked with sham republicanism. The report of Bergmann's shot will be heard around the world and echo through the ages. His bullet did not kill, but others are being moulded and they will fly with sure aim." Miss Goldman spoke in German and did better than any of the other orators of the evening.

Dr. Merlin, an Italian Anarchist, who edits Solidarity, spoke in broken English. He said it was necessary to combat capital with crime.

Fritz Oerter, who shares the tiny apartment of Miss Goldmann in common with several other reds, stood at the door, hat in hand, and took all the pennies the frowsy hearers had not spent in beer. After all had gone but he and Miss Goldmann, they counted the returns. Ninety-eight cents, including all—bogus, mutilated and foreign coin—was the result. The collection, it had been announced, was for a fund to defend Bergmann.

PASSED FIELDS OF ICE.

Immense Quantities Seen By Capt. Swain in the South Atlantic.

NEW YORK, Aug. 4.—The bark Alice, which arrived at this port yesterday, only 85 days out from Auckland, N.Z., passed immense fields of ice in the South Atlantic.

The Alice left Auckland on May 8 with kauri gum and flax for Arnold, Cheney & Co. Captain Swain reports that she rounded Cape Horn on June 8, and on June 18, in latitude 43 deg. 40 min., longitude 30 degrees, he sighted an iceberg 300 to 400 feet high. The Alice sailed into a field of ice at daylight the following morning. There was a strong northwest wind. The bark sailed for 35 miles with a solid body of ice on the port side. More than 300 bergs were counted on the starboard side at noon of June 19.

The horizon gradually cleared to the north during the afternoon and the vessel apparently got out of the field, but during the night nine large bergs and several small ones were passed, and at daylight Captain Swain found himself again in another solid body of ice that extended on the port side a distance of 40 miles.

The Alice sailed through a channel a half mile to a mile wide.

Captain Swain said yesterday that only once before, 30 years ago, when he was mate of a vessel, had he seen ice in any such quantities.

ORDER OF FORESTERS.

Annual Session of the High Court of the State of New York.

OSWEGO, Aug. 4.—The High Court of the State of New York Independent Order of Foresters is holding its annual session in this city. About a hundred delegates are present. Among the officers in attendance are Dr. Oronhyatekha, Supreme High Chief Ranger; Judge Jacob Stern of Buffalo, High Chief Ranger; Charles R. Fitzgerald of Buffalo, High Secretary; John A. McGilvay of Toronto, Supreme Secretary; H. C. Munson of Perry, N.Y., Grand Lecturer. There are 43 courts in the State. The session will conclude to-morrow. A public meeting was held to-night.

ALICE MITCHELL IN AN ASYLUM.

She Was Allowed to Gather Flowers From Her Victim's Grave.

MEMPHIS, Aug. 4.—Alice Mitchell was taken to the insane asylum at Bolivar, Tenn., yesterday. She expressed a desire to visit Elmwood Cemetery and view the grave of her victim, Freda Ward. Her request was granted, and in company with her father and mother, under guard of Sheriff McLendon, she was driven to the cemetery. She displayed great emotion, and, as she gazed upon the little mound of earth, tears flowed in great profusion.

Before leaving she gathered a handful of flowers from the grave, which she pressed to her bosom and carried away with her.

"August Flower"

For Dyspepsia.

A. Bellanger, Propr., Stove Foundry, Montagny, Quebec, writes: "I have used August Flower for Dyspepsia. It gave me great relief. I recommend it to all Dyspeptics as a very good remedy."

Ed. Bergeron, General Dealer, Lauzon, Levis, Quebec, writes: "I have used August Flower with the best possible results for Dyspepsia."

C. A. Barrington, Engineer and General Smith, Sydney, Australia, writes: "August Flower has effected a complete cure in my case. It acted like a miracle."

Geo. Gates, Corinth, Miss., writes "I consider your August Flower the best remedy in the world for Dyspepsia. I was almost dead with that disease, but used several bottles of August Flower, and now consider myself a well man. I sincerely recommend this medicine to suffering humanity the world over." ©

LEADING LIBERALS HOLD A CONFERENCE WITH GLADSTONE.

The Privy Council Gives Judgment in Favor of the Bishop of Lincoln—Petition Against Return of Davitt and Fullham.

LONDON, Aug. 4.—Mr. Gladstone fully resumed work yesterday. Justin McCarthy and John Dillon called upon the Liberal leader and held a conference with him which lasted an hour. Yesterday afternoon Mr. Gladstone took a drive.

Mr. Gladstone also held a conference with Sir William Vernon Harcourt, Earl Spencer, Mr. John Morley, the Earl of Kimberley, Sir George Otto Travelyan and Mr. Arnold Morley. At this conference the terms of the motion of "no confidence," which is to be presented by the Gladstonians at the opening of Parliament, were arranged.

THEATRE PROGRAMS.

A Manager-Dramatist Fined for Distributing the Bills Free of Charge.

LONDON, Aug. 4.—The trial of the suit of Mr. Payne, the program contractor at the Avenue Theatre, against Mr. Henry Arthur Jones, the dramatist, for breach of contract and libel was decided yesterday. The suit was brought in consequence of the action of Mr. Jones, who, during his recent experience as manager of the Avenue Theatre distributed programs free, thus breaking the contract entered into with Mr. Payne and depriving the latter of the income from the sale of programs. The court decreed that the defendant should pay to Mr. Payne £20 damages for breach of contract and £25 damages for libel in having stigmatized Mr. Payne's action in charging for programs as a most outrageous and indefensible exhibition of a middleman's parasitic spirit.

During the trial Mr. Jones was called to the witness box to testify in his own behalf. He contended that his attack was made upon the fee system and not upon Mr. Payne personally.

RITUALISM SUSTAINED.

Her Majesty's Privy Council Gives Judgment In Favor of Dr. King.

LONDON, Aug. 4.—The Privy Council Tuesday unanimously dismissed on all points the appeal of Mr. Read and others, members of the Church Association, from the judgment of the Archbishop's Court in the case of the Bishop of Lincoln (Dr. King), and upheld that judgment, which declined to inflict any penalty or monition upon the Bishop for alleged ritualistic practices.

AFTER DEAD MEN'S CLOTHES.

Sale of Criminals' Effects in Paris—Large Audience Expected.

PARIS, Aug. 4.—On Monday will begin the sale of criminals' effects seized by the state. The lots include the clothes of the assassin Eyraud, and those of Gabrielle Bompard, as well as the famous trunk. All the dime museum proprietors in the world are on the alert for this sale. America is represented by Sanderson. The Tussauds of London also have an agent here. The contest promises great interest. Large sums will certainly be paid for these sinister relics. Usually these sales are attended by only the lowest class of junkmen. But this time they will draw quite an audience of playwrights, managers and museum proprietors.

INCITING THE PEOPLE.

Distributing Literature Intended to Raise a Row.

ST. PETERSBURG, Aug. 4.—At Nishni-Novgorod the Governor has ordered drivers of the tank carts to sprinkle the streets near the great square with water with disinfectants.

Reports from Charkoff says that the cholera there is still of a mild form, although the mortality is increasing. More deaths are reported from the outskirts than at the centre of population.

In Astrachan the Government has established an orphanage for children whose parents have been carried off by the disease.

In Nishni-Novgorod and Astrachan, inflammatory literature has been distributed in the last few days, apparently for the purpose of inciting the people to a repetition of the riots in the latter city. Two suspects have been arrested in Nishni-Novgorod, and seven in Astrachan.

Disinfection of mail matter has begun systematically in several cities, and the newspapers published warnings to travelers that they can pass with safety through the stricken districts only after sprinkling their baggage and clothing with disinfectants.

North and South Meath Protested.

DUBLIN, Aug. 4.—At a meeting of leading members of the Parnellite party in this city it was agreed that a petition be issued protesting against the return of Mr. Michael Davitt and Mr. Patrick Fullam, anti-Parnellites, to the House of Commons from the north and south divisions of Meath respectively. This action of the Parnellites is taken on the ground that the election of the two men named in the recent campaign was owing to the undue influence exercised by the priests over the electors. A portion of the £2000 necessary to lodge the petition with the proper authorities was subscribed at the meeting.

The Emperor's Yacht Again Beaten.

COWES, Aug. 4.—Emperor William's yacht again suffered defeat yesterday, being beaten in the race for the squadron prizes by the Iverna. In the race for the Australian Cup Prince Henry's yacht Irene was beaten by the Queen Mab.

BLOODY BATTLE EXPECTED.

Legalists Advancing on Barcelona, Where Monagas Is in Force.

TRINIDAD, W.I., Aug. 4.—It is rumored here that the legalist Generals Velutine Morales are marching on Barcelona, and it is expected that news will be received here before long that a bloody battle has been fought between the troops under them and those under General Monaga.

Accuses a Boy of Her Mother's Murder.

NASHVILLE, Tenn., Aug. 4.—Mrs. Hendrix, a poor widow, who has been working on Reed Robinson's farm, near Chester, in Marion County, was found dead in the field a few days ago. Robinson's 14-year-old son reported that the woman met her death by falling across a plow. Yesterday Mrs. Hendrix's 9-year-old daughter told the sheriff that young Robinson had knocked her mother down with a hoe and then, with a hatchet that he ordered the girl to bring to him, pounded the woman's head until she was dead.

All through the Provinces the rapid increase of La Grippe, is causing great alarm. A report was received here to-day, of a new development of the disease, which is worse, perhaps than any other. Wm. Hanley of N. Y. City, died in terrible agony after sickness of only four days. His tongue swelled to such an extent as to make it impossible for him to close his jaws or swallow any food. The report is causing the people in this district to inquire into the noted Grip-cure, recently referred to in so many papers. In Cape Breton the disease has spread very rapidly and with fatal results. D. J. McKillop of L'Archeveque writes Feb. 11th that this cure has been tried in his neighborhood and with such success that all those residing there are obtaining a supply believing it to be the only remedy affording relief and effecting a certain cure. He finished his letter by asking for a large quantity of the Medicine (Dr. Morse's Indian Root Pills) to supply the demands of the community for the relief of LaGrippe.

For You or O

GENTLEMAN,—One of my little girls (aged 4 years) had been troubled with costiveness in its worst form since infancy. We tried different remedies which gave relief while using, but as soon as discontinued she would be worse than before using. She lost her appetite and was growing weak and delicate. A friend of mine who had used B B B with grand results for the same disease advised me to try it, and also the Burdock Pills, which we did. She did not take the contents of one bottle before it relieved her, and not only relieved her but permanently cured her, for she has not been troubled once since, and she is now eight years old

AN ELECTRIC STREET CAR.

Turned out by the Enterprising St. Charles Omnibus Co

The St. Charles Omnibus Co., have to-day completed and shipped the first electric street car ever made in Belleville. An ONTARIO reporter inspected the car and was surprised and delighted with its splendid appearance and completeness of details for comfort and convenience. It is made for the Metropolitan Street R. R. Co., of Toronto and will run to Reservoir Park, Upper Canada College and Mount Pleasant Cemetery. On the outside the car is painted canary and carmine ornamented with gold and silver leaf. The inside is of quartered oak ornamented with excellent taste with landscapes and marine views by Fred Richardson. There are two plate glass mirrors at each end of the car, and colored corrugated glass windows in the clear story. The brass mountings are all of the latest designs of the best American street car trimmings. The car is fitted with an automatic brake, sand boxes, etc. There is a gong on each platform that is rung by foot pressure. At each end is an electric bell, with connections at each post inside the car, so that any passenger can stop the car at any time without moving simply by pressing the button. The car, it is safe to say, is equal to the best made on the continent. Mr. St. Charles has hopes of building up here a big establishment for the production of these cars. He already has an order for six for the Montreal St. Railway Co., and undoubtedly the fine appearance and perfect arrangement of the cars he is now turning out will create a big demand for them in other places.

PARTICULARS OF THE COLLISION

The Tug Rescue Damaged—An Action Will be Ent red

The steamer Princess Louise ran six years between Kingston and and Gananoque for the Thousand Islands steamboat company. She was built by Davis & Son at Wolfe Island in 1879, and rebuilt and lengthened at Parrett's Bay in 1883. It is said that the tug Reliance ran into the Rescue and damaged her very much aft of the cabin The Reliance and Rescue were towing barges. The barges also bunted the tug Reliance and damaged her slightly. The Rescue was able to run back to Deseronto taking the passengers from the sunken Princess Louise. Capt. Donnelly and wreckers have gone up to the Louise and will arrange to lift her. The steamer, it is said, was not insured. An action will be entered by the owner of the Louise.

False Ducks.

The excursion in aid of the Free Reading Room to-morrow will doubtless receive the liberal support the object so well deserves. We do not know of the Association during the three and a half years the room has been open ever asking in any way for public assistance. If the Mechanic's Institute receives an annual grant of $300 how much more should the public library and Free Reading Room merit the practical support of citizens generally for the determination to give to all classes men, women and children without cost, the advantages of a first-class reading room. The outing will be on the bay and lake, the steamer Hero leaving hero leaving here at 9 a. m. remain over for dinner at Glen Island then resuming her run will go ont into the lake around Indian Point and towards the renowned False Ducks returning so as to be home at 7.30 The Oddfellow's orchestra will furnish music for the day as well as the evening moonlight.

SPORTING WORLD

The Cobourg Cricket Club will play East Toronto, Peterboro and Campbellford during the week between August 15 and 20. It is the intention to play Picton and Grafton at Cobourg before that date.

On Monday Myron Mills had his handsome 30 foot yacht launched successfully at Napanee. She sits like a duck on the water, is staunch and tight. He will at once finish rigging her up, and expects to start on a cruise down the bay with a party from Cleveland on the third or fourth of August.

Sporting Ed. Mail:—As the Tilsonburg Baseball Club and the Dukes, of Toronto, intend playing in Toronto on the 15th August, why not let Cobourg in and have a tournament and thus decide the amateur championship of Canada. As Tilsonburg is the best team west of Toronto, the Dukes the best in the city, and Cobourg has not lost a game this year and have the best claim on the Eastern championship, a tournament between the above teams ought to decide the amateur championship of Canada. The Cobourgs are willing to go in if an opportunity is afforded.

Yours truly

Rowdy Boy owned by 3. Curry, of Belleville was placed at a serious dsadvantage. He was sent down on the Varuna. At Northport the latter broke its rudder and when they reached Deseronto it was after three o'clock. In consequence of Rowdy Boy's delay the race was left until the last one on the program. The horse was driven at a good pace from Deseronto, a distance of seven miles, and was not fit for entrance besides having had nothing to eat since 5 a. m. Mr. Curry, however, got $40 and saved his expenses.

TWO INDIAN VOYAGEURS

Who Have Some Pleasant Recollections of Belleville's Youth

This morning two Indians, George Comego and one Jacques. arrived in Belleville in a canoe from Aldersville, near Rice Lake. Comego was born in Trenton in 1812, and spent his youth on Grape Island, removing from there in 1855. To an ONTARIO reporter he said he was well acquainted with this part of the country, and knew Hon. Billa Flint and Wallbridge and Louis Wallbridge and other old settlers of Belleville. He remembered when he and Louis Wallbridge used to try to throw each other into the river—in fun of course. He remembered also that once Mr. Wallbridge threatened to "jug" him for cutting cedar at the Point. The Indian's reply was—"Yaw, I know to much for that. If you want to lose your money go ahead." Comego soon after met Mr. Flint and told him about it and he replied that Comego had a right to cut the wood. Comego belongs to the Massassaga tribe and said that some of the land in these parts, including some in Belleville had never been surrendered by the Indians. The Indian name for Belleville, he says was Saugeen the same word from which the tribe derived its name. Comego will be 80 years old in September but is hale and hearty and full of fun. He has been three times married and has 18 children. He and Jacques intend to go down as far as Ottawa and possibly to Quebec in their canoe.

NOTES ON CURRENT AFFAIRS

How Some of the Aldermen Treat Enterprising Citizens

The Council meeting on Monday night was one of the most important during the year, it being the occasion when the estimates were submitted and the rate struck.

—

The Executive committee seems to have done its work carefully and well, and has succeeded in keeping the rate down to last year's figures, while at the same time providing for all the requirements of the public service and in addition paying off $3,545 of the deficit left as a legacy by previous councils.

—

The only objection taken to the estimates as submitted was by Ald. Diamond. This doughty alderman first insisted that the deficit was not as large as Ald. Walmsley said it was, basing his figures on the auditors' report for last year.

—

According to that report Ald. Diamond was correct, but his contention was effectually refuted by Ald. Walmsley, who read a statement from the auditors to the effect that after their report was presented some unpaid accounts had been sent in, which raised the total deficit to the figure named by Ald. Walmsley, $5860.

—

Ald. Diamond then insisted strongly that it was the duty of this year's council to pay off the whole of the deficit, although to do so would necessitate the increasing of the rate to at least 21 mills.

—

But his contention did not meet with any favor with the aldermen and no one voted for it except himself.

—

Ald. Diamond evidently has the courage of his convictions, but in this instance as in some others his convictions do not seem to have been sound ones. He quite failed to establish his point that the council was legally bound to provide for the whole of that deficit, and he equally failed to establish the reasonableness or justice of his contention.

—

If the council this year pays off two-thirds of the old deficit and does not leave any deficit of its own, it surely is doing all that could be expected, and it is in no wise unjust to ask the next council to pay the other third, inasmuch as the expenditure that caused the deficit will benefit the city next year as much as it did this year.

—

And as Ald. Ponton pointed out, it was most injudicious to increase the rate unless it was absolutely essential to do so, as in this case it was not; for such an increase always produces a bad impression abroad, and has a tendency to discourage people from locating in the city.

—

Ald. Diamond seemed to be in a captious mood during the whole meeting of the council. He objected to nearly everything that was proposed, and kicked in a metaphorical sense so persistently and unnecessarily that some of the aldermen felt very much like returning the compliment in a very literal sense.

—

It is all right to look after the interests of the city—all the aldermen profess to have this as their supreme motive. But some people use this profession as an excuse to render themselves very obnoxious to their fellow-aldermen.

—

Some of these aldermen in fact do protest over much. They proclaim so often and so emphatically their single desire to look only after the interests of the city that they cause many suspicions to arise.

—

They are of course elected by the people for that express purpose, and what need is there therefore for them to so loudly and so often profess their devotion to the city? It almost looks as if they knew something that might raise in the minds of some people doubts as to their singleness of purpose in regard to the interests of the municipality.

—

This was well illustrated in the discussion on the Mr. Graham's request for permission to build a side track into his yard. This request was strongly opposed by several aldermen, and one or two of these did certainly protest over much their desire to guard the rights of the city.

—

Mr. Graham's request seemed a most reasonable one, and should not have raised so much opposition. It should have been at once granted, with of course such conditions as would safeguard the public interests and rights.

—

What encouragement is there for manufacturers to locate here if so ordinary a privilege is denied them as that of securing railway connection with their factories? Competition is now so strong that every method must be employed to keep down expenses, and it certainly is a heavy expense to have to pay for cartage to and from the station in a place where the station is so far from the business centre of the city as it is here.

—

It is doubtful if another city council in the province would have hesitated for one moment to grant such a privilege as was asked for by Mr. Graham. All large manufacturing industries have such private sidings as was asked for in this case.

—

Belleville has always been cursed by the miserable, small minded, contemptibly parsimonious manner of dealing with present or proposed enterprises that has been manifested by past city councils, The council of 1892, or at least some members of it, seem to be actuated by the same old blighting spirit.

—

In fact the impression was unavoidable to anyone listening to the discussion on this petition of Ald. Graham's that some of those that opposed it were actuated by personal animosity towards him, and not out of regard for the interests of the public.

—

One alderman even went so far as to insult Mr. Graham by asking if "every Tom, Dick and Harry" was to be allowed to have a private siding. Mr. Graham is one of our most enterprising citizens, he has built up an industry that gives employment to a good many people of the city, and he proposes to enlarge his works and increase his business if mean-minded aldermen do not succeed in driving him from the city.

—

Every Tom, Dick and Harry, forsooth! This is how citizens are to be addressed by the people's representatives when they come before the council with proper requests couched in courteous terms. Why, Mr. Graham has done more to build up the city and enhance its prosperity in the past twelve months than Ald. Starling has done all his life, or probably ever will do if he lives to be a hundred years old.

—

But fortunately the good sense of the majority prevailed and Mr. Graham's request was granted with some necessary and proper conditions, and those who sought to deny him the small boon he asked have now the satisfaction of knowing that they have done that which will meet with the disapprobation of their constituents while at the same time they have failed in the accomplishment of the designs on which their hearts seemed so set.

The pleasant effect and the perfect safe with which ladies may use the liquid fruit laxative, Syrup of Figs, under all conditions make it their favorite remedy. It is pleasing to the eye and to the taste, gentle, yet effectual in acting on the kidneys, liver and bowels

Rochester Excursion

Take Crossley & Stratton's excursion to Rochester Monday morning Aug. 8th by North King leaving Belleville at 12.30 a.m (midnight) Calling at Rednerville, Trenton Brighton and reaching Charlotte at 7 a. m. Good to return same day or on following Saturday to place of starting. This will give one whole day, or a week in the Flower City, and two dollars buys a ticket.

Special Excursion.

The steamer Hero advertises a special excursion to the 1000 Islands for Wednesday Aug. 10th. Boat leaves Belleville at 6.30 a. m. Fare only 75cts. This will doubtless be the most attractive day excursion of the season.

A neglected cough brings on consumption—the most fatal and prevalent of all physical ills that flesh is heir to. To check the malady in its early stage, before the deadly turbercles develop themselves in the lungs use Dr. Thomas' Eclectric Oil which also annihilates bronchitis, asthma, catarrh, piles, kidney troubles, and soreness of the muscles and joints.

There are more cases of sickness and death from diseased kidneys than from all other diseases combined. It is your own fault if you allow your kidneys to remain in an unhealthy condition when the cure is at hand. Dood's kidney Pills are guaranteed to cure the worst case. It costs but little to give them a trial. They are for sale by all druggists and dealers or by mail on receipt of 50 cts. or 6 boxes for $2.50. Write for book called Kidney Talk.

Mr. A. D. Leonard

Of Utica, N. Y., suffered severely from Liver and Kidney troubles, causing great pain and That Tired Feeling Other medicines failed to do him any good, but so successful and satisfactory was Hood's Sarsaparilla that he has taken no other medicine and is now well. The best known **kidney and liver** remedies are so happily combined with tonics and alteratives in

Hood's Sarsaparilla

that it is an unequalled remedy for all troubles with these important organs, overcomes That Tired Feeling and **makes the weak strong.**

In Hidden Ways.

Strange is it that the sweetest thing
Forever is the shyest;
The sweeter song, the swifter wing,
Ere thou the singer spyest.

The more the fragrance in the rose,
The more it hides a-blushing;
And when with love a maiden glows,
The more her face is flushing.

In depths of night, in gloomy mine,
In wildwood streams—in stories
Of lowly lives, unsung—there shine
The world's divinest glories.

As low arbutus blossoms rest
In modesty unbidden,
So man and nature hide their best,
And God Himself is hidden.
—C. H. Crandall, in Ladies' Home Journal.

Poisoning in India.

Cases of poisoning appear, from the report of the chemical analyser to the Government of Bombay, to be painfully common in India. In the "Kambekar street" case, the son of a wealthy Memon, being dissatisfied with his father's allowances, conspired with the cook to destroy all members of the family who stood in his way. Five persons have actually died of strychnine thus administered, the cook turned Queen's evidence and the murder has been hanged. In Oodeypore a young girl was on the eve of marriage with a man who did not meet the approval of her friends. The friends got over the difficulty by putting arsenic in his food. In Poonah the servant of a European nurse robbed her mistress of some money while she was lying ill. Some people in these circumstances would have sent for the police. The Poonah nurse preferred to put arsenic in the pilferer's soup. In the Kaladgi district a woman applied to a "Mahar" for a charm to stop the quarrelsome habits of her husband. The charm, which was in the form of a white powder, proved perfectly successful. The man died; and so did his dog, who ate the remains of his food, Arsenic, which is obtainable without the slightest difficulty in Bombay, always heads, it is said, the chemical analyzer's list.—London Daily News.

Take the G. O. M. or Abdicate.

Land and Water, an unusually well-informed politico-society journal, says when the Duke of Devonshire visited the Queen Her Majesty said she relied upon his advice to assist her in avoiding the necessity for sending for Mr. Gladstone to form a new Government. The Duke, it is reported, said in reply to Her Majesty, that there was but one alternative for her to adopt: she must either call upon Mr. Gladstone to form a Ministry or she must abdicate the throne.

SILVER!

The largest shipment of silver plate we have yet received in Belleville will be here in a few days direct from the maker. New and beautiful designs and an immense stock, with the prices for goods made by the most prominent and reliable makers in the world at a less figure than you pay for a washed pewter body to small dealers. This is a simple reason why we do the silver plate trade, and it applies to the crockery, china and glass ware trade in just the same way as you all know so well by this time.

THE REASONS!

GOUGH CAN SELL CHEAPER THAN OTHER DEALERS

FIRST—Because we are the largest Clothiers in Canada, and SECOND, because we are not the supply account of any firm, and consequently are not compelled to handle only one manufacturer's goods, and at whatever prices they have a mind to ask. THIRD—Because we have ample means to buy wherever we like, and no matter how large the stock, whether it is $1,000 or $100,000 worth we are always prepared to pick it up if it is a snap, and FOURTH—Because we sell ten times more goods than any other firm, and consequently can sell on a smaller margin of profit.

Some of our high price friends cannot see anything funny about GOUGH selling so cheap, and call us "Fake" dealers, but when inaugurating this One Price and Low Price System we did so with a determination to

"Hew to the Line; let the Chips fall where they may!"

And if in fulfilling this mission we are breaking the back bone of our high price oppositionists, we are sorry for them, for we mean them no harm, but claim the right to do our business in a

SQUARE, HONORABLE WAY,

GIVING DOLLAR FOR DOLLAR EVERY TIME.

Yes, we are called "fake" dealers and "low" dealers by our opponents. Well, we freely admit we are low dealers, wallowing in the lowest depths of bed rock prices, while our exalted brethren look down upon us from their high place and go wild because we are capturing their trade, and this is the sequel to their calling us "fake" dealers, etc., but it won't go down, for the name of GOUGH is provincial, and a household word in every family.

Don't forget our

and we are giving extraordinary cuts all along the line, as we are determined to carry no goods over until next season, but require the room for our Big Fall Stock which will commence to arrive next month.

IMPERIAL PARLIAMENT.

RT. HON. ARTHUR WELLESLEY PEEL ELECTED SPEAKER.

Enthusiastic Reception of Mr. Gladstone —No Grounds for the Petition to Unseat Balfour—Negotiations for Treaty Resumed.

LONDON, Aug. 5.—The new Parliament assembled at 2 o'clock yesterday.

When the House of Lords had assembled with the usual ceremony the Gentleman Usher of the Black Rod summoned the members of the House of Commons to hear the reading of the commission for the new Parliament. Upon their return to the House of Commons the members proceeded to the election of a speaker.

As Joseph Chamberlain, Mr. Balfour and other prominent members entered the chamber they were heartily cheered. Mr. Gladstone appeared shortly after 2 o'clock and was given a wildly enthusiastic reception. The Irish members rose in a body, shrieking and waving their hats and cheering, and they were joined in these demonstrations by the Liberals. The ovation to the Liberal leader lasted several minutes. When Mr. Gladstone had taken his seat he was surrounded by members of the House, irrespective of party, all anxious to congratulate him and shake his hand.

Mr. Gladstone appears to have entirely recovered from his recent indisposition.

The New Speaker.

Sir M. W. Ridley (Conservative), member for the Blackpool Division of Lancashire, moved that the Rt. Hon. Arthur Wellesley Peel, who was Speaker of the last House, be elected Speaker of the new body. The motion was seconded by Mr. Gladstone and carried.

The rising of Mr. Gladstone to second the motion for the re-election of Mr. Peel as Speaker of the House was the signal for renewed cheering by the Opposition.

Mr. Gladstone paid a graceful tribute to Mr. Peel and expressed the hope that no discord would be heard during the vote, and Mr. Peel's introduction into the chair for Speaker.

After the re-election of Mr. Peel had been announced he was conducted to the chair by Mr. Balfour with the usual ceremonies, and addressed the House briefly. An adjournment was then taken until tomorrow.

When Michael Davitt reached the lobby of the House he was given a warm reception by his colleagues. Upon taking his seat upon the Irish benches he was scanned with curiosity by the Conservatives, and whisperings were heard ominous of their intention to contest his right to take the oath.

James Kerr Hardie, Labor representative for the South Division of West Ham, drove into the Palace yard in a wagonet filled with workmen and a fife band playing the Marseillaise. Hardie was dressed in workingmen's clothes and cap, and both his cap and coat were decorated with big rosets. He was greeted with cheers and laughter.

The House was crammed, the members crowding the galleries for want of standing room below. The peers' and strangers' galleries were also filled to overflowing.

Mr. Gladstone on beginning his remarks seconding the motion for Mr. Peel's re-election spoke huskily, but after a few minutes his voice became clear, and before his speech was concluded had regained all its old resonance. The Liberals are congratulating themselves that their chief is in good form.

The New Cabinet.

LONDON, Aug. 5.—The Standard says: "We understand it has been definitely settled that in the new Government Mr. Gladstone will be Premier, the Earl of Rosebery Secretary of State for Foreign Affairs, Sir William Vernon Harcourt Chancellor of the Exchequer and Mr. John Morley Chief Secretary for Ireland. The Ministry will largely consist of members of Mr. Gladstone's last Cabinet. New men will only be introduced where vacancies exist.

Reply To the Speech From the Throne.

LONDON, Aug. 5.—The address in reply to the Speech from the Throne will be moved by Plunket Barton, member of Parliament for the Mid division of Armagh, and will be seconded by Hon. W. H. Cross, member for West Derby.

An Early Division.

LONDON, Aug. 5.—The Liberal whips are arranging with the Government for a division of the House on Tuesday. The Gladstonians will limit the number of speakers, and the McCarthyites with a view to facilitating an early division will put up only one member, probably Mr. Thomas Sexton, to reply to Mr. Balfour. The Parnellites concur in the plans to expedite the division.

The No-Confidence Motion.

LONDON, Aug. 5.—Mr. H. H. Asquith, the member of the House of Commons for the East division of Fifeshire, will move the amendment to the address in reply to the Speech from the Throne, declaring no confidence in the Government, to be presented in the House next week, and Mr. Thomas Burt, the member for Morpeth, will second the motion.

The Unionist Whips.

LONDON, Aug. 5.—At a meeting of the Unionist members of Parliament the Duke of Devonshire announced that as Viscount Wolmer had retired as Unionist whip the duties of that office would devolve upon Mr. Anstruther and Austin Chamberlain.

Morley To Be Chief Secretary.

LONDON, Aug 5.—The Associated Press is authorized to state that Mr. John Morley has agreed to take the position of Chief Secretary for Ireland.

BALFOUR IS ALL RIGHT.

There Are No Grounds for the Petition to Unseat Him.

LONDON, Aug. 5.—The petition which has been filed against the return of the Right Hon. Arthur James Balfour as member of Parliament for the east division of Manchester, which he has represented since 1885, is merely an annoyance to the Government leader, and it is not intended by the Liberals to be anything else. There is no solid ground for the accusation of bribery, or for charging his election agents with treating men to drink in order to obtain votes.

A similar petition has been presented against the return of the chief Liberal whip, Arnold Morley, who received 4861 votes to his Conservative opponent's 4284 in the Eastern division of Nottingham. The charges in this case are equally unfounded. These proceedings are taken on either side by irresponsible local partisans without consulting their leaders, and are simply flashes in the pan.

The Debate On "No Confidence."

The debate on the motion of "no confidence" on the reading of the Speech from the Throne will occupy the whole of next week, so that nothing definite can be done for at least 10 days after Parliament meets. Mr. Balfour's speech explaining the future Conservative program, which is a necessary part of the proceedings, will not in the least affect the issue of the debate, which will be a purely party vote. Balfour knows that perfectly well, and his object in speaking at length any way, beyond the mere presentation of a competitive program, is to give the Unionists a basis of resistance to the proposed or possible measures which will be advanced by the Gladstone Government.

WAR IN INDIA.

Professor Vambery Says It May Result from the Afghan Rebellion.

VIENNA, Aug. 5.—Prof. Vambery has an article in The Neue Freie Presse in which he declares that the Hazara rebellion in Afghanistan is a serious movement due to Russian intrigues. It is probable, he says, that the insurgents are supplied with Russian weapons, and that if the rebellion increases in gravity the Ameer will be obliged to call for English aid, in which event Russia will probably push Ishak Khan, the Czar's protege, to the front as a rival of the Ameer. This view is supported by the fact that a confidential partisan of Ishak Khan is now employed as a police officer in Merv.

Skirmish With Russians and Chinese.

SIMLA, Aug. 5.—The Afghans are skirmishing with both the Russians and Chinese on the Alichur Pamir and have taken a number of Kirghis prisoners. A force of 500 Russians, under command of Col. Yanoff, armed with mountain guns, have reached Aktash.

Goschen's Niece Assaulted.

LONDON, Aug. 5.—A dastardly outrage was committed yesterday near Chiselhurst, Kent. As Miss Woods, daughter of the Vicar of Bickley, and a niece of Right Hon. George J. Goschen, Chancellor of the Exchequer, were walking along the road in the company of a friend, they were approached by two men carrying guns. The men accosted Miss Woods and her friend. Their advances were repulsed and Miss Woods' companion fled and succeeded in escaping, but Miss Woods was assaulted and fired upon, the shot taking effect in her face. She was rendered unconscious by the wound and was found lying in the road in that condition by a searching party.

A man named Manklow, who was acting in a suspicious manner near the spot, was arrested, and despite his protestations that he knew nothing of the crime, he was identified by Miss Woods as one of the two men who assaulted her and her companion and declared positively that he was the man who shot her.

Opening of the Meerwede Canal.

AMSTERDAM, Aug. 5.—The young Queen and her mother, the Queen Regent, opened the first section of the new Meerwede Canal. The canal will be navigable for large vessels from this city to the River Rhine. The day was observed as a public holiday. The Royal party, accompanied by the Cabinet Ministers, steamed through the canal to the Vreeswick lock, where the Queen unveiled a memorial stone.

Discontent In Tangier.

TANGIER, Aug. 5.—The camp of the Imperial troops at Mogoga is daily receiving reinforcements. Much discontent is expressed in Tangier at the prolongation of the contest with the rebels, which is declared to be ruinous to the interests of the European residents of Morroco. Many Spaniards are leaving the country.

TANGIER, Aug. 5.—The Sultan of Morocco has appointed eight delegates to resume the negotiations for a commercial treaty with Sir Charles Euan-Smith, the British Minister to Morocco.

NEIL IDENTIFIED.

As the Man Who Entered the House of Matilda Clover.

LONDON, Aug. 5.—Thomas Neill Cream, the alleged poisoner, was brought up yesterday on remand at the Bow-street Police Court charged with the murder of Matilda Clover on Oct. 21 at 27 Lambeth-road. The evidence showed that a day or two before the prisoner went to Lambeth-road he made the acquaintance in Fleet-street of Elizabeth May and Elizabeth Masters and that he arranged to meet one of them on Oct. 9.

On that day he was seen by two women making the acquaintance of Matilda Clover, and he was seen to enter her house after her. Masters and May waited to see if he would come out, but he did not, and he did not return to his lodgings that night, October 9. On October 20, Lucy Rose, the servant girl at Clover's lodgings, saw Clover enter with a man, whom she described as tall, broad, about 40, with a heavy mustache and wearing a silk hat. That night Clover died in great agony, after stating that a man had given her some "pills."

There the matter rested as far as the facts of the death were concerned, but afterward an extraordinary state of things was disclosed. At the end of October and in November, when no one knew the truth as to the girl's death but the man who poisoned her, the prisoner asked Emily Sleaper, at whose house he lodged, to go around to Lambeth-road to enquire about a girl he knew who he thought had been poisoned, and on Nov. 28 he wrote a blackmailing letter to Dr. Broadbent, in which he definitely stated that Matilda Clover died through being poisoned by strychnine. He was thus giving information which could only be known by the man responsible for her death. In May the body was exhumed, and Dr. Stevenson found that death had occurred through a fatal dose of strychnine.

The principal witness to-day was Elizabeth Masters. At the beginning of October a man accosted her on Ludgate Hill and asked her to take a glass of wine. The witness identified Neill as the man, and also identified him as the associate of Matilda Clover.

The prisoner was remanded until Friday.

Detective Miller Finds a Watch in a Spokane Pawnshop.

VICTORIA, B.C., Aug. 5.—The mystery surrounding the disappearance of Morris Moss took another phase yesterday of a character which alarmed his friends.

From information obtained last night it was understood that Detective Miller had discovered a watch in a pawnbroker's shop in Spokane, which he believed belonged to the missing gentleman, and furthermore that the article in question had been pawned by a stranger a few days previous to the present date.

The identity of the watch will be established at once and the outcome awaited with interest.

MERIT GRACEFULLY ACKNOWLEDGED

IT is seldom indeed that an active politician can so conduct himself, can walk so uprightly and live so purely as to secure the admiration and commendation of his opponents even while yet in public life. Yet it is the glory of the liberal party that they have as leader such a man. Tory papers were loud in praise of Mr. Mackenzie after his death, and of Mr. Blake after his departure from Canada, but Mr Laurier who has compelled compliments from his opponents will still be leader of his party.

For instance the St. John, N. B., Sun, a leading Conservative paper of that Province, spoke as follows of him in a recent issue:—

Mr. Laurier is an ornament to the Canadian House of Commons. He is a perfect gentleman, a refined and polished speaker, and when discussing some matter that appeals to his feelings, an orator. In his personal conduct and in his individual and political transactions Mr. Laurier is admitted by his opponents to be governed by a high sense of propriety, while his kindly and genial disposition makes everbody who knows him a friend."

And the Quebec Chronicle, another Conservative paper, says:—

"The Chronicle is opposed to Mr. Laurier's politics, but it recognizes in him a statesman of the first order, and his presence in the House of Commons establishes the fact that where he sits honesty and incorruption have a place."

These are frank and generous acknowledgements, and it must be with peculiar satisfaction that Mr. Laurier finds his honesty, manliness and ability so gracefully admitted even by his opponents.

The Ladies Delighted.

The pleasant effect and the perfect safe with which ladies may use the liquid fruit laxative, Syrup of Figs, under all conditions make it their favorite remedy. It is pleasing to the eye and to the tase, gentle, yet effectual in acting on the kidneys, liver and bowels

Those who are in the habit of taking an appetizer before meals could not do better as well for the effect as for economy's sake, than make use of "Indigenous Bitters." As Indigenous Bitters are slightly laxative, those who suffer from habitual constipation, will derive great benefit, by regularly taking them, as they keep the bowels in good order and in that way aid digestion.

At no time is man secure from attacks of such painful and dangerous disorders of the stomach as Cholera, Cholera Morbus, Cramps, Diarrhoea, and Dysentery; but these complaints are particularly common during the heated term, when it is doubly dangerous to neglect them. PERRY DAVIS' PAIN KILLER is a remedy that has never failed when tried, and the severest attacks have been cured by it. It leaves no evil effect, and invariably brings relief to the sufferer. Every reputable druggist in the country sells PERRY DAVI'S PAIN KILLER. Large size New bottle, price 25c.

We do not know of any preparation that has caught the public favor in so short a time as Dodd's Kidney Pills, but when we onsider that three-fourths of the Canadian people are afflicted with kidney troubles in some form or other, and that Dodd's Pills are a quick and permanent cure for all these troubles, the large and increasing demand can scarcely be wondered at. Sold by all dealers or by mail on receipt of price, 50 cents per box. Dr. A. L. Smith & Co. Toronto.

There are more cases of sickness and death from diseased kidneys than from all other diseases combined. It is your own fault if you allow your kidneys to remain in an unhealthy condition when the cure is at hand. Dodd's kidney Pills are guaranteed to cure the worst case. It costs but little to give them a trial. They are for sale by all druggists and dealers or by mail on receipt of 50 cts. or 6 boxes for $2.50. Write for book called Kidney Talk.

PLAYED TO THE LUNATICS.

Alice Mitchell Makes Herself at Home in the Asylum.

MEMPHIS, Tenn., Aug. 5.—Deputy Sheriff Perkins, who took Alice Mitchell to the insane asylum at Bolivar Tuesday, says that at every station along the route crowds of curious idlers boarded the car to see the prisoner. Alice, however, took it very coolly, as she subsequently did the parting with her parents.

When the officer left the Asylum Alice was the centre of an admiring group of lunatics, whom she was entertaining with music from the French harp, an instrument on which she performs with remarkable skill.

A Buffalo Boy Drowned.

BRACEBRIDGE, Ont., Aug. 5.—A drowning accident took place at Squaw shute, 8 miles below Bala, Tuesday evening, when Ralph Green of Buffalo, aged 19, was drowned.

Green, in company with his friend, E. W. Eames of Buffalo, were fishing, and they attempted to cross the river above the shute, but the current being too strong, both were carried over the first fall. Young Eames tried to save his companion from going over the second fall, but he was unsuccessful, and managed with difficulty to reach shore.

Green was carried over the second and third falls and drowned.

A Pleasant Herb Drink

The best cure we know of for constipation and headache is the pleasant herb drink called Lane's Family Medicine. It is said to be Oregon grape root, combined with simple herbs, and is made ready for use by pouring boiling water onto the dried roots and herbs. It is remarkably efficacious in all blood disorders and is now the sovereign remedy with ladies for clearing up the complexion. Druggists sell the packages at 50c and $1

For all forms of female weakness Dr. Williams' Pink Pills are an unfailing specific. Mr. Thomas Strachan, Postmaster, Roballion write:—My daughter has been ill for the last four years with female weakness, and had been attended by four of the best doctors in our section. She began the use of Dr. Williams Pink Pills, and two boxes have done her vastly more good than all the medicines she took from those doctors.

What She Said

Mrs. R. Peck, 15th street, New York City, visited Canada last year, and had the good fortune to pick up something which not only suited her, but her neighbors also. Writing the manufacture of Nerviline she says:—"I bought three bottles of Nerviline while in Canada and treated my neighbors to some of it, and all think it the best medicine for internal or external pain they have ever used." Nerviline deserves such commendation, for it is a most powerful, penetrating, and certain remedy for pain of all kinds. Take no substitute.

PAR the power of acting specifically upon the diseased organs, stimulating to action the dormant energies of the system, thereby removing disease. In fact, great is the power of the medicine to cleanse and purify that diseases of almosr every name and nature are driven from the body. Mr. D, Carswell, Carswell P. O., Ont. writes: "I have tried Parmelee's Pills and find them an excellent medicine, and one that will sell well.

A Cure For Constipation And Headache

Dr. Silas Lane while in the Rocky Mountains discovered a root that when combined with other herbs makes an easy and certain cure for constipation. Weighed in the balance, but not found wanting. Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure has been weighed in that just balance, the experience of an impartial and intelligent public. Both remedially and pecuniarily it is a success. Its sales constantly increase, testimony in its favor is daily pouring in. The question of its efficacy in Dyspepsia, Liver complaint, Kidney Ailments, and for Blood Impurity is dicided

Now is the time to take a good tonic medicine. Hood's Sarsaparilla possesses the greatest merit, and popular favo

The highest praise has been won by Hood's Pills for their easy, yet efficent action.

As an after dinner pill, to strengthen the stomach, assist digestion, and correct any bilious tendencies, Ayer's pills are considered the best. Being sugar coated, they are as agreeable as any confection, and may be taken by the most delicate.

How Mr. W.D. Wentz of Geneva, N.Y., was cured of the severest form of dyspepsia? He says everything he ate seemed like pouring melted lead into his stomache. Hood's Sarsaparilla effected a perfect cure. Full particulars will be sent if you write C. I. Hood & Co., Lowell, Mass.

THE SEA SERPENT OUTCLASSED.

An Inland Monster Which Terrified an Illinois Boating Party.

HAVANA, Ill., Aug. 5.—Some young people of this place persist in telling of a frightful experience they had last Sunday afternoon while rowing on Thompson's Lake, near here.

They say they had left the lake proper and were rowing through the flooded district, which is thickly grown up with underbrush. One young man had a revolver and, pointing to a log lying half submerged in the slimy water, asked his companions to note how accurately he would plug the centre of the fallen tree.

At the report of the weapon the supposed log began to move about in an extremely lively manner and soon the waters were white with foam.

To the horror of the boating party, an immense and hideous head reared out of the water. The shape of the head was like that ascribed to the sea serpent, and was surmounted by a scaly hood. The body was covered with enormous scales. The reptile had small, wicked eyes, which glittered fiendishly, and from the hideous mouth long fangs shot out with utmost rapidity.

So frightened were the occupants of the boat that they did not linger to take observations, but rowed for clear water as fast as they could.

The serpent followed the boat some distance, making the most hideous noises, and the atmosphere was filled with a sickening odor.

A farmer living on the Spoon River bottoms is satisfied this snake has been in the high grass in the bottoms. He has often wondered at the wide swath made in the grass and could never account for it.

Other people claim to have seen this snake, and some farmers report loss of stock and poultry.

It is reported that the reptile is the one that escaped from a river menagerie some two years ago.

WAS RICH, BUT GATHERED SLOPS.

His Daughter's Criticisms Made Him Commit Suicide.

DAYTON, O., Aug. 5.—Frederick Kayser, an aged eccentric and wealthy miser, hanged himself yesterday as the result of a quarrel with his daughter. In addition to stocks and bonds, he owns business and farm property here valued at 2$25,000, and has a large estate in Sweden left him by his parents.

For the past 25 years his daily avocation has been the collection of garbage and slops, which he fed to stock on his farm. Despite his wealth he dressed in rags and looked and acted like a distressed mendicant.

His only daughter, a cultured girl, returned recently from a five years' absence in Sweden, where she was studying music. Her efforts to induce her father to clean up and discontinue his slop-gathering incensed the old man so much that he committed suicide.

His wealth, estimated at $500,000, will go to his daughter and her imbecile brother.

A FIGHTING PARSON.

He Takes Off His Coat and Whips a Young Rowdy.

WEST UNION, O., Aug. 5.—At Mahogany, a small town 20 miles from here, a desperate row occurred Sunday night in the Methodist Church. A young man whom the minister had publicly reproved for whispering in church came in with a number of friends and proceeded to create a disturbance. He was warned to leave, but instead of doing so attacked the minister, who threw off his coat and went at the young men. The members of the flock also made war upon the disturbers. The pews and chairs were broken, the windows smashed, women and children hurt and some of them thrown through the doorway. Finally the pastor gained the upper hand of the principal disturber and whipped him soundly. After the rioters had been thrown out the fighting parson, bloody and battered as he was, mounted the pulpit and finished his sermon.

Killed His Daughter's Murderer.

PARIS, Tex., Aug. 5.—At Goodland, in the Choctaw nation, on Tuesday, Martin Holmes was shot and instantly killed by John Bohanon. Holmes married Bohanon's daughter, a pretty Indian girl, about two years ago and the couple quarrelled frequently. On July 6 he shot and killed his wife and then left the country. He was captured and taken back, and Tuesday was taken before Judge Oakes at Goodland. He was sent to jail. As the sheriff was taking him away Bohanon shot Holmes and then escaped. Public opinion is in Bohanon's favor at last accounts. Holmes'. body was lying on the prairies where he was killed and no preparations were being made to bury him.

Killed By a Bull.

PORT HOPE, Aug. 5.—Thomas Hannah went to milk his cows when he was attacked by a large Durham bull and crushed to death by the savage brute. Deceased was 52 years of age and leaves a wife and three small children.

"German Syrup"

G. Gloger, Druggist, Watertown, Wis. This is the opinion of a man who keeps a drug store, sells all medicines, comes in direct contact with the patients and their families, and knows better than anyone else how remedies sell, and what true merit they have. He hears of all the failures and successes, and can therefore judge: "I know of no medicine for Coughs, Sore Throat, or Hoarseness that had done such effective work in my family as Boschee's German Syrup. Last winter a lady called at my store, who was suffering from a very severe cold. She could hardly talk, and I told her about German Syrup and that a few doses would give relief; but she had no confidence in patent medicines. I told her to take a bottle, and if the results were not satisfactory I would make no charge for it. A few days after she called and paid for it, saying that she would never be without it in future as a few doses had given her relief." ●

UNITED STATES NOTES.

MARS SCANNED BY MANY MEN OF SCIENCE.

Killed His Daughter's Murderer—Hugh O'Donnell, the Leader of the Homestead Strikers Said to Be in Toronto—A Sailor's Horrible Death.

SAN FRANCISCO, Aug. 5.—The ruddy planet Mars is still the centre of attraction for astronomers because of the extremely favorable position for telescopic observation which it occupies in the southeastern heavens. The special observations of the planet arranged for this period of its opposition commenced on June 20 and will continue until Sept. 23. We may hear any day now that discoveries of great interest have been made in our celestial neighbor.

As Mars, unlike the moon, does not always present the same side to the earth, but rotates on its axis in a period differing slightly from that of the earth's rotation, the aspect of the planet changes from hour to hour, different parts of its surface appearing at the same hour of successive nights. But doubtless all parts of its surface will come under the closest telescopic scrutiny before the present period of opposition passes away.

On Communicating With Mars.

CHICAGO, Aug. 5.—Prof. Elias Colbert, an astronomer who has made the science a life-long study, said last night: "Mars will be nearest to the earth Saturday next, the distance then being but 35,100,000. The opposition occurs a little earlier, but it will not then be in the most favorable position for study, being too near the earth's moon, which will pass the planet, leaving it a little to the south, about 10 o'clock Sunday night.

"Any signal that might be made by the inhabitants of Mars would have to have a diameter of 9000 yards, or not far from five miles, and the likelihood of their constructing artificial works of such magnitude may be said to be rather a heavy tax upon the credulity of anybody who is asked to believe it.

"If it be difficult for the people of Mars to make anything big enough to be seen through the best telescopes, the difficulties become much greater should the people of the earth attempt to construct signals that could be seen by the inhabitants of Mars. The smallest distance between the earth and Mars at which earth signals could be seen from that planet is about twice the 35,000,000 miles that now separate the two. That is, the diameter of a signal on the earth to be seen from Mars would have to be at least twice the diameter of a signal on Mars that could be seen from the earth, supposing the telescopic power to be equal in the two cases.

"The people of the earth could not hope to construct anything, however vast, that would be recognized by the Martial people unless it were brilliantly lighted up by electricity over the whole area.

"So it will be seen that the riches of a continent would have to be expended on such a work that there might be any reasonable hope of success in signalling to Mars on the supposition that that planet is inhabited by persons as intelligent as the people on the earth."

LOVE LAUGHS AT CONVENT GATES.

A Young Baroness Comes to This Country to Marry Her Lover.

ST. LOUIS, Mo., Aug. 5.—The Baroness Emma de Hodeamont de Neau was married yesterday to Charles S. Reed, the representative of a Chicago piano house. He met her two months ago while he was searching for a boarding-house, and it was a case of instantaneous love.

The Baroness was the subject of diplomatic correspondence between the United States Government and Holland some time ago. Her grandfather was wealthy and Miss De Neau, who was reared in St. Louis convents, was placed in an Ursaline convent at Eysden, Holland, when she was 15. Her correspondence with her grandmother in this country ceased for several years, and it was said that Miss De Neau was imprisoned in the convent. Application was then made to the State Department for an investigation. It was said that a second cousin of Miss DeNeau, Count de Rosamont, 40 years old, had determined to make her marry him or become a nun. The American Consul made enquiries, but in the interval Miss De Neau went to visit relatives and then hurried to America. She is said to be very wealthy.

"I am the only living descendant of the Baron Emanuel de Hodeamont," she said to-day, "and am justly entitled to be called a baroness, but as a true little American I prefer now to be simply Mrs. Charles S. Reed."

Closing of the Annual Session of the High Court.

OSWEGO, N.Y., Aug. 5.—The high court of the Independent Order of Foresters of the State finished its annual session here yesterday by electing Judge Jacob Stern of Buffalo High Chief Ranger and the following officers: Louis P. Tietenberg, H.V.C.R.; Charles R. Fitzgerald, H. C. Sec.; Charles W. Search, W. C. Treas.; A. W. Baylis, M.D., H. C. Physician; O. P. Stockwell, H. C. Coun.; Willam F. Northest and Louis P. Dezengermel, H.A.S.; Rev. H. C. Munson, H.C. Chap.; C. S. Hall, H.J. Sec.; James A. Phillips, M.D., H.G.S.W.; Richard J. Dempsey, H.C.J.W.; C. C. Pierce, H.C.S.B.; George Doxsie, H.C.J.B.; A. K. Hoover, H.C.M.; A. A. Berow, H.C.C.; Peter Fox, H.C.Msn. The next session will be held in Utica in August, 1893.

DECAPITATED.

Murdock Buchannan's Horrible Death at Sarnia, Ont.

PORT HURON, Mich., Aug. 5.—Murdock Buchannan, a sailor on the schooner Cataract, was killed by a freight train yesterday at the Sarnia town station. He was virtually decapitated, and his head was carried over two miles to the tunnel depot before the accident was discovered.

Her Husband Cost Her $25 and Costs.

WATERBURY, Conn., Aug. 5.—Tillie Aplebaum has been awarded $25 and costs in her suit to recover $50 from Mrs. Rose Ehrlich. She acted as a matrimonial agent and was promised $50 for her trouble. She induced John Ehrlich to marry the young woman. She has also commenced suit against Ehrlich for a like amount on the same grounds.

Because "Agitators" Were Removed.

MILWAUKEE, Wis., Aug. 5.—Twenty-five compositors on The Daily Journal struck yesterday because four union men, designated as "agitators" by their employers, were discharged. Their places were filled by fraternity printers and the paper appeared as usual.

Will Pay the Tolls.

OTTAWA, Aug. 5.—It is rumored in political circles here that should the President of the United States impose heavy tolls on Canadian vessels in the Sault Ste. Marie Canal the Dominion Government will pay them and then refer the matter to Britain.

All through the Provinces the rapid increase of La Grippe, is causing great alarm. A report was received here to-day, of a new development of the disease, which is worse, perhaps than any other. Wm. Hanley of N. Y. City, died in terrible agony after sickness of only four days. His tongue swelled to such an extent as to make it impossible for him to close his jaws or swallow any food. The report is causing the people in this district to inquire into the noted Grip-cure, recently referred to in so many papers. In Cape Breton the disease has spread very rapidly and with fatal results, D. J. McKillop of L'Archeveque writes Feb. 11th that this cure has been tried in his neighborhood and with such success that all those residing there are obtaining a supply believing it to be the only remedy affording relief and effecting a certain cure. He finished his letter by asking for a large quantity of the Medicine (Dr. Morse's Indian Root Pills) to supply the demands of the community for the relief of LaGrippe.

For You or O

GENTLEMAN,—One of my little girls (aged 4 years) had been troubled with costiveness in its worst form since infancy. We tried different remedies which gave relief while using, but as soon as discontinued she would be worse than before using. She lost her appetite and was growing weak and delicate. A friend of mine who had used B B B with grand results for the same disease advised me to try it, and also the Burdock Pills, which we did. She did not take the contents of one bottle before it relieved her, and not only relieved her but permanently cured her, for she has not been troubled once since, and she is now eight years old

Advice to Mothers

Mrs. Winslow's Soothing Syrup has been used by millions of mothers for children teething for over fifty years, with perfect success. It relieves the little sufferer at once, produces natural quiet sleep, and freeing the child from pain, and the young cherub wakes as bright as a button.' is pleasant to taste, sooths the child softens the gums, allays pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhoea, whether arising from teething or other causes 25 ct bottle.

A Question

How can we raise more corn to the acher? Why, of course by using Putman's Corn Extractor. Putman's Painless Corn Extractor has given universal satisfaction, for it is safe, sure and painless. Like every article of real merit it has a host of imitators. and we would specially warn the public to guard against these dangerous substitutes offered for the genuine, Putman's Extractor. N. C. MARRIED IN COBOURG

Capt. C H Nicholson is Married to a Cobourg Lady

The marriage of Miss Lillie Victoria Williams, daughter of Mr. and Mrs. M. B. Williams of this town, and Capt. C. Howard Nicholson, the popular master of the steamer North King, was solemnized at Cobourg on Wednesday at 4:30 p.m. The wedding ceremony was performed by the Rev. J. A. Waterworth, pastor of the Cobourg Congregational Church. During the ceremony the bridal party stood under a beautiful bell composed of white hollyhocks. The bride was splendidly costumed in white silk, trimmed with real lace and orange blossoms; she wore the regulation white veil, and bore a lovely bouquet of bridal roses. The bridesmaids were Miss Carrie Williams, sister of the bride, and Miss Maud McKee of Port Hope: they were attired in pretty dresses of crepe de chene, with chiffon trimming, and carried bouquets of nasturtiums. The groom was assisted by Rev. F. H. Taylor of Louisville, N. Y. After the solemn ceremony had been concluded the wedding party sat down to a recherche dejeuner, at which appropriate speeches were made by Messrs R. R. Pringle, C. H. Nicholson, F. H. Nicholson, C. F. Gildersleeve, H. C. Denis, F. H. Taylor, George W. Bickle and Moore Kelly. At 7 o'clock the happy couple took the west bound train amid a shower of rice and best wishes. Capt. Nicholson's many friends in Belleville will join in congratulations and wishes for Mr. and Mrs. Nicholson a long and happy life together.

SIR—While at Rochester recently two or three matters took my attention as of importance to housekeepers. First, coal is selling at retail in Rochester at $5.50 per ton with talk of a rise of $1 this month. Secondly, of fruit. I tried to get reliable information. There are few cherries and no plums. Of peaches there are not enough for home consumption, that is about Gennssee. There were a few apples, but the blight has injured them severely. The crop is, if my informant is correct, far below ours in this country. Responsible men told me they would have to draw on Canada. I am satisfied, although the blight has struck some localities severely, making them look as though a fire had gone through, we show over an average crop of apples of good quality, especially where the trees are sprayed.

G. S. JOHNSON

Valuable Cattle Poisoned

CASTLETON, Aug. 4.—Mr. Jas. Cooney, a farmer living in the tenth concession of Cramahe, had some fine stock poisoned yesterday. In the evening when he went to the pasture field to get his cattle, he found two valuable cows dead, while a third was dying. He at once concluded that they had been poisoned, and on examination of the pasture field found a quantity of rye chop in several places in which there were quantities of Paris green. Mr. Cooney has not the sughtest clue to the perpetrators of the fiendish act. This is the second case of stock poisoning in this township this summer. Some time ago Mr. Winn had some horses poisoned in the same manner.

The Old Veterans

SIR—Up to date Aug 5th, '92, 275 names of veterans and widows residing in Canada and the United States have been signed to the petition at the Anglo American Hotel, Belleville, addressed to her Majesty Queen Victoria. The petition will be mailed to London next week, and laid before the Queen and British Government. Veterans who have not signed this petition or sent in their names will have but a few days to decide. Their claims are in a fair way of being settled, after waiting 55 years, till they are nearly all dead.

Light Weight Clothing.

Any person who thinks business must necessarily be dull during the month of August, should just take a look in at the Oak Hall these days, It would suprise you to see the way they are hustling out the light coats and vests. Men cannot suffer even if Christmas is coming, clothing according to the season is what people must and will have and the Oak Hall is the place to get it. Those who are still suffering with the heat should call, you need not bring much money with you.

Have you Thought of it

For four thousand years or more the world groaned, suffered and fumed about its corns, for their was no positive relief—no certain and painless cure until Dr. Scott Putman gave to the world his great Corn Extractor. Rev. D. O. Crossley of the Tabernacle and Rev. F. B. Stratton of Trenton, announce a grand double trip excursion to the 1000 Islands to take place on Saturday, August 13th and 20th—two Saturdays in succession, returning on following Monday. Those wishing to do so may remain a week and return on second Monday. They have been fortunate in securing the best dates of the season at the park, and will no doubt have a large patronage each date. Tickets only $1.00 on steamer Hero. Boat leaves Belleville at 7 a.m.

Those who are in the habit of taking an appetizer before meals could not do better as well for the effect as for economy's sake, than make use of "Indigenous Bitters." As Indigenous Bitters are slightly laxative, those who sufer from habitual constipation, will derive great benefit, by regularly taking them, as they keep the bowels in good order and in that way aid digestion

NOTES AND COMMENTS

Concerning the City Council and Various Other Matters

The Council decided on Monday night to take a rest after their past arduous labors and therefore adjourns for six weeks. No objection can be taken to this so long as due provision is made for the proper management of the city's affairs during the recess.

Undoubedly aldermen earn a rest if anyone does. The salary attached to their office is not munificent, being exaclly nothing. 'Tis true there is the honor, but that is not overwhelming, and to offset this there is the abuse to which they are subject to, and the constant hectoring they must endure at the hands of those who have axes to grind.

As a matter of fact the position of an alderman is not a particularly desirable one in any case. It entails a lot of hard work and a good deal of worry and anxiety and then there is the ever present consciousness an alderman has that after he has done his best for his constituents some people will be dissatisfied, and will misrepresent his motives and misconstrue his actions.

Yet the affairs of the municipality must be attended to by some one, no matter at what personal sacrifice or annoyance. And the honor, such as it is, that is attached to the position, will always suffice to attract plenty of suitable men to seek for a place at the council board.

The trouble is that it also attracts many unsuitable men, who seek the position for selfish purposes, and unfortunately the electors are not always particular to select the suitable men and reject the unsuitable ones.

But Belleville has this year a fairly good council, take it all in all. There are a few members that might better have been left at home, but not enough to do much harm; while on the other hand there are a number of level-headed men around the board that would do credit as aldermen to any city in the Province.

The worse fault with many of them, even of some of the best ones, is that they will talk too much. Of course it is their privilege to tell all they choose within the limits prescribed by the rules, but some of them talk much more than is necessary.

They seem to think that their work is valued and their efforts appreciated just in proportion to the frequency with which they speak in the council.

But this is no criterion. Some of the worst aldermen speak the oftenest, while some of the best are but little heard. A council should be, and generally is, judged by the amount and quality of the work done, and the wisdom displayed in the expenditure of the city's revenues.

Ald. Mikel was chairman of the Committee of the Whole on Monday night, and he made an excellent one. He rushed the business through with commendable expedition, and the way he brought some of the old members to time fairly made their eyes stick out. His firmness in one instance saved the council the infliction of being obliged to listen to an hour's discussion on an utterly irrelevant matter. He is one of the youngest of our aldermen and bids fair to be one of the best.

Some time ago Ald. Ponton announced his intention of resigning his position as alderman, but has not yet done so, and everyone in Belleville will be glad that he has reconsidered his decision. Ald. Ponton is one of the most intelligent, far-seeing and business-like members of the Council, and probably the best debater. It is always a pleasure to listen to his logical terse, well worded speeches, and he is altogether a valuable servant of the city.

The city lost one of its very best representatives when Ald. Anderson resigned and it can ill-afford to lose another of its best aldermen, as it would if Ald. Ponton had gone out.

We think he made a mistake in the electric street railway matter, and probably he thinks so himself now. But then we are all liable to mistakes—excepting newspaper men—and if he was wrong in this, he is generally right.

Speaking of the street railway, where are those other capitalists who were to build the road if the council would not come to terms with the promoters of the scheme proposed and killed in the council a few months ago?

It was stated positively then that another company would be organized at once and the road built. But since then nothing has been heard of it.

It looks as if that statement was made to induce some of the aldermen to vote for the rejection of the other by-law.

Street Surveyor Hulme is a hustler. The second day after the council decided to regrade Front St., he had his men at work, and the job is well under way. And it looks as if it would be a good one.

Mr. Hulme is not as far-sighted a man as one would suspect. For why? Because he is so fast getting the streets in first-class condition, and doing work of so permanent a character that in two or three years there will be no more need of a street surveyor, and he will then be out of a job.

The genial city clerk Robertson is delighted with Ald. Ponton's notice of motion that a type-writing machine be put in the clerk's office. He assumes that if the motion carries, as it should, the council will also be in duty bound to secure the services of a handsome young lady to run the machine.

And that's what fills him with such pleasant anticipations, for, bachelor though he is, he is nevertheless susceptible to the charms of the fair sex, and he thinks it would be not at all unpleasant to sit opposite to a charming young lady for a few hours every day.

Who knows but that the result will be to reduce by one the number of bachelors in the city? That Ald. Ponton is a shrewd, far-seeing man, and his scheme was a deep one. May it be successful!

Special Excursion.

The steamer Hero advertises a special excursion to the 1000 Islands for Wednesday Aug. 10th. Boat leaves Belleville at 6.30 a. m. Fare only 75cts. This will doubtless be the most attractive day excursion of the season.

A neglected cough brings on consumption—the most fatal and prevalent of all physical ills that flesh is heir to. To check the malady in its early stage, before the deadly turbercles develop themselves in the lungs use Dr. Thomas' Eclectric Oil which also annihilates bronchitis, asthma, catarrh, piles, kidney troubles, and soreness of the muscles and joints.

The crossings which Street Surveyor Hulme has laid down are altogether too low and amount too little less than stumbling blocks on a dark night.

H. Sweet, of Bancroft, to-day brought to the county jail Wm. Sayea for aggravated assault on a man named Cowan. He was fined $84 in default of which he was sent up for three months.

A slight smash-up occurred on the G. T. R. near Birdsalle, on Thursday evening. Several cars were ditched and the west bound passenger train was delayed at Hastings from 7 p. m. till nearly Friday morning.

As a tonic, the Father Mathew Remedy restores to a healthy condition the stomach and liver of the intemperate, which are always out of order, and builds up his nervous system; as an alterative, it makes a new man of him.

A pleasant event came off in St. George's church, Hasting's on Wednesday it being the marriage of Miss Mary Orr, of that town to Mr. Alex Ferguson, of Regina, N. W. T. The bride was assisted by Miss Ferguson, sister of the groom, and Andrew Orr was best man.

The Madoc Review says: "Complaint was laid, yesterday by Chief Huff, against the firm of Sydmer Ross & & Co, merchants, of this village, before Police Magistrate Flint, of Belleville, for keeping open and selling goods after 7 o'clock p. m., contrary to by-law." It is a test case in the village and has aroused a good deal of interest.

John Shea, city bill poster, in the course of a few days, will make an extended circuit of Hastings and Prince Edward counties, stopping at all the principal points where he will bill the Ottawa and the Toronto fairs. Merchants will find this a good opportunity to get their bills posted at city rates. Mr. Shea is one of the most faithful bill posters in Canada and merchants may depend on it that their work will be well done.

Mr. G. Redick writes Mr. Louttit as follows; I feel it my duty both to you and the public that after ten years affliction with that loathsome disease, catarrh, I have found apparently a lasting benefit (Louttit's Catarrh Cure) and to vouch for the same and am willing and desirious to make affidavit. Louttit's Catarrh Cure is for sale wholesale and retail at Geen's Drug Store.

During the ensuing month voters should see that their names are on the voter's list, so as to entitle them to vote at the next provincial or municipal election. A little attention at the proper time will perhaps save dissappointment when polling-day comes. Carefully scan the lists and see that your name has been properly entered. If not you can appeal to the Judge and have it correctly entered.

The famous Detroit yacht, the City of the Straits, has been sold, and the association which formerly owned and raced her have offered the handsome silver ship won by her as a perpetual challenge trophy. Competition is open to Canadian or American sloop yachts measuring from 34 to 46 feet on the water line, and is intended to be a sort of international yachting trophy similar to the America's Cup, and the Fisher Cup now held by the Nora of Belleville.

"The Columbian"—a commodious hotel to be erected in the vicinity of the far-famed Lake on the Mountain, will be opened to the public next May. Broad southern piazzas, lighted by electricity, possessing all the desirable modern conveniences, with almost matchless bay, and woodland scenery, in full view, all combined will no doubt make "The Columbian" a great favorite with tourists.

The steamer Princess Louise is in bad shape and the wrecking of her will be a difficult job. To-day the Donnelly wrecking company sent up pumps and apparatus for the purpose of getting the boat out of her present condition Capt. Bothwell handled the boat well after the collision and beached her in a safe way. The crew acted bravely.

The report of the Inland Revenue department relative to gas inspections and tests shows the average illuminating power of the Belleville gas to have been 20.94 candles, the standard being 16. This is above the average of most of the cities and towns of the province. In three tests sulphuretted hydrogen was found, which was oftener than in any other place, it being entirely absent in all but four cities and towns in Canada. The report says: "The Belleville gas inspection office was thoroughly overhauled, a new meter-power was set up, the photometer repaired and everything in connection with the office fitted up in first-class style." The total expenditure for this office was $2944.61, and the total receipts $1,300.02.

The report of the Minister of Inland Revenue on adulteration of food shows the alarming extent to which this adulteration is carried on. Out of 41 samples of coffee analyzed, 32 were adulterated; out of 18 samplees of drugs, 12 were adulterated, out of 30 samples of lard, 21 were adulterated; out of 30 samples of mustard 25 were adulterated; out of 53 samples of pepper, 28 were adulterated; and 8 doubtful; out of 10 of vienegar 8 were adulterated and 2 doubtful; of 76 samples of tea analyxed, all were genuine; of 252 samples of sugar, but 14 were adulterated; 242 samples of milk, 49 were adulterated, and 44 doubtful; out of 179 samples of liquor, 13 were adulterated and 11 doubtful: out of 934 samples analyzed, altogether, 301 or over 20 per-cent were found adulterated, and 65, or 7 per cent more were doubtful.

The Ladies Delighted.

The pleasant effect and the perfect safe with which ladies may use the liquid fruit laxative, Syrup of Figs, under all conditions make it their favorite remedy. It is pleasing to the eye and to the taste, gentle, yet effectual in acting on the kidneys, liver and bowels.

Children Cry for Pitcher's Castoria.

Aristocracy and Good Looks.

As a matter of fact, there is scarcely any connection between aristocracy, even democratic aristocracy, and a good profile. The more complete the system of caste, the more absolutely it is dissevered from anything relating to external appearance. The social inferior looks up to the superior, as one of Dickens' "reverential wives" looks up to her husband, with a reverence not impaired by any loneliness of features. Rufus Choate said to Chief Justice Shaw of Massachusetts, who was one of the plainest of men: "I feel toward him as the South Sea Islander feels toward his idol; he sees that he is ugly, but he knows that he is great." The most striking case perhaps of this complete reversal of judgment under the influence of caste is to be found in these two tribes described by the author of "Two Happy Years in Ceylon," the Rock Veddahs and Rodiyas. The Rock Veddahs are stunted, hideous and filthy; they live in secluded caves and holes; they eat bats and rats, and make their scanty clothing from the bark of trees; but the Singhalese regard them as of the very highest caste, and it would be no disgrace for a woman of good social position to marry a Rock Veddah. On the other hand, the very greatest disgrace that could be inflicted upon such a woman would be to marry her to a Rodiya, although these last are a race distinguished for beauty, at least in youth, and gentle and innocent by nature. The Rodiyas cannot enter a temple or a village; they are forbidden to tell th soil or draw water from a well; they cannot build a house or divide a burden into two bundles; their shadows must not fall on a stream lest it be polluted; no member of another caste may touch them without disgrace; yet anyone may shoot them without blame. All this is supposed to be in consequence of the act of an ancestor 2,000 years ago, who inveigled a king into eating human flesh. As a consequence the beautiful race is at the foot of the social scale, the ugly and the repulsive at the top. Yet which of us has not encountered in ordinary society the representatives of the Rodiyas and the Rock Veddahs?—T. W. Higgson, in Harper's Bazar.

Good-Bye to the Locomotive.

"I tell you the locomotive must go."

As information, not opinion, is usually the basis of the speaker's remark, his hearer, to continue the conversation, drawled out:

"Oh, yes, and I suppose the railways must go along with it."

"No," was the answer. "You will smile, but I tell you that the trolley system of electricity will supersede the locomotive. I believe that this new road from Parry Sound to Ottawa will be operated by the trolley. More than that I believe that before three years the trolley will be used exclusively on the Grand Trunk between Toronto and Hamilton. Trains will then run every hour, the public will have a better service and the company will pocket the large difference between the cost of electricity and steam."—Telegram.

The Rattlesnake's Signal.

The rattlesnake's rattle is like the sound which would be produced by the rattling of a number of peas in a paper bag. This represents the slightness of the sound. We are accustomed to pictorial representations in which the reptile is made to look very angry and energetic, the tail erect in a manner to suggest a loud alarm. Accordingly when one hears it for the first time one is surprised to find the noise so slight. The sound, instead of being a rattle, is rather a tinkle, and perhaps it has a rather more metallic character than the notion of the shaking of peas in a paper bag would represent. But slight as the sound is, the person who has never met one of these reptiles before, and who, without seeing the snake, hears for the first time among mountain rocks or prairie grass its delicate yet wonderful distinct warning, knows instantly who and what his neighbor is.—Quarterly Review.

Mr. Robert W. Denvir

An Exempt Fireman of Jackson Engine Co., Long Island City, N. Y., says that at Christmas, 1890, he could only take a smell of dinner, as he was in a fearful condition from **Dyspepsia.** The next summer he went to Europe for his health, but came home uncured. In the fall he decided upon a thorough trial of

Hood's Sarsaparilla

And by Christmas had a hearty appetite, healthy digestion, and was perfectly well. His cure was due wholly to Hood's Sarsaparilla.

HOOD'S PILLS cure liver ills, constipation, billousness, jaundice, and sick headache. Try them.

CRUSTS AND SCALES

Hair and Eyebrows Fell Off. Doctor and Many Remedies No Benefit. Entirely Cured and Hair Restored by Cuticura.

My wife has been troubled for years with dry crusts and scales on her head and eyebrows. After seeming to lie dormant for years in her system, it broke out over a year ago in all its fury. Her hair came out in big patches, her eyebrows all fell off, and she presented a pitiable condition. We tried almost everything, but she continued to get worse. Then we tried one of our best physicians, but all to no purpose. Finally my wife believed that the CUTICURA REMEDIES would cure her. After she had used nine boxes of CUTICURA, and about a dozen cakes of CUTICURA SOAP, and four bottles of CUTICURA RESOLVENT, she was cured entirely. Her hair came on again, and to-day she has as fine a head of black curly hair and as smooth skin as any lady in Allentown. Her eyebrows are heavier than they ever were, her scalp is free from dandruff, and her health is excellent. Now for the benefit of those suffering with same disease, or to those who may doubt the truthfulness of this statement, write me, inclosing a stamp, and I will cheerfully answer. I am sure that the CUTICURA REMEDIES cured my wife, for she used nothing else during the four or five months she used them.

SILVER!

The largest shipment of silver plate we have yet received in Belleville will be here in a few days direct from the maker. New and beautiful designs and an immense stock, with the prices for goods made by the most prominent and reliable makers in the world at a less figure than you pay for a washed pewter body to small dealers. This is a simple reason why we do the silver plate trade, and it applies to the crockery, china and glass ware trade in just the same way as you all know so well by this time.

W. J. REID & CO'S

THE REASONS!

GOUGH CAN SELL CHEAPER THAN OTHER DEALERS

FIRST—Because we are the largest Clothiers in Canada, and SECOND, because we are not the supply account of any firm, and consequently are not compelled to handle only one manufacturer's goods, and at whatever prices they have a mind to ask. THIRD—Because we have ample means to buy wherever we like, and no matter how large the stock, whether it is $1,000 or $100,000 worth we are always prepared to pick it up if it is a snap, and FOURTH—Because we sell ten times more goods than any other firm, and consequently can sell on a smaller margin of profit.

Some of our high price friends cannot see anything funny about GOUGH selling so cheap, and call us "Fake" dealers, but when inaugurating this One Price and Low Price System we did so with a determination to

"Hew to the Line; let the Chips fall where they may!"

And if in fulfilling this mission we are breaking the back bone of our high price oppositionists, we are sorry for them, for we mean them no harm, but claim the right to do our business in a

SQUARE, HONORABLE WAY,

GIVING DOLLAR FOR DOLLAR EVERY TIME.

Yes, we are called "fake" dealers and "low" dealers by our opponents. Well, we freely admit we are low dealers, wallowing in the lowest depths of bed rock prices, while our exalted brethren look down upon us from their high place and go wild because we are capturing their trade, and this is the sequel to their calling us "fake" dealers, etc., but it won't go down, for the name of GOUGH is provincial, and a household word in every family.

Don't forget our

GREAT MIDSUMMER SALE

and we are giving extraordinary cuts all along the line, as we are determined to carry no goods over until next season, but require the room for our Big Fall Stock which will commence to arrive next month.

Thousands of Overall's only 19c per pair, sold by other dealers before we opened here for 50c, but we compel them now to sell them for 25c, and they are mad.

EDWARD BLAKE'S SPEECH

TEXT OF HIS ADDRESS BEFORE THE EIGHTY CLUB.

The Member for South Longford Says He Believes Ireland is on the Eve of Realizing the Result That Mr. Parnell Fought for.

LONDON, Aug. 6.—The Eighty Club entertained Hon. Edward Blake at dinner Thursday. Prof. James Bryce presided, Mr. Blake occupying the position on his right hand.

In the introductory speech which Prof. Bryce, who is member for the South division of Aberdeen, delivered he said that although the Liberal majority was small it was full of fighting spirit. The one main object of the Liberal party was the attainment of Home Rule for Ireland. Therefore the Liberals welcomed a new and powerful ally in the person of Hon. Edward Blake, who brought from Canada a keen intelligence, a large experience as a statesman and a sound judgment, which would be valuable aids in the solution of the Irish problems.

Mr. Blake, in responding to the remarks of Mr. Bryce, recalled the fact that the last time he was present at the Eighty Club, the occasion being a dinner in 1888, he sat beside Mr. Charles Stewart Parnell, who, he said, was a leader of men who compelled rather than conciliated the admiration of the masses. Despite all drawbacks he would retain a great place in history. He referred to Mr. Parnell's confidence in the good faith of his Liberal allies and his sincerity in his adherence to moderate constitutional courses.

He believed that Ireland was on the eve of realizing the results that Mr. Parnell fought for. The combined efforts of the Liberal sections were certain to attain the common objects they had in view. It was well that each of the allied forces recognizes the conditions under which the other is constituted. The Irish party was created and maintained for a definite object under a strict system of discipline allowing only a limited latitude. Experience had shown the truth of the assertion that the Irish interests in the Imperial Parliament required a limited system. The parliamentary weapons forged under Mr. Parnell's leadership had such weight, solidity, temper and keenness and had wrought such great things for Ireland that the Liberals had taken up the Irish cause in an honorable and cordial alliance, creating a friendly feeling between the Irish and British democracies. The might of Mr. Parnell's weapons may have been lessened, but even now they were fully adequate for the original purpose for which they were intended. He hoped that the Irish minority would ultimately see that the tactics of the majority were sound. Every one had the interests of Ireland at heart and desired the passage of an effective home rule bill. It might not be that every detail of the measure would be exactly what some Irishmen would like, but, as Mr. Parnell had once said, any sound measure would be cheerfully accepted.

If they worked with a desire to make a success of a substantial measure it would give them a field for action in Ireland which would produce so great a feeling of contentment in that country that there would be neither time nor inclination for captious criticism or factious agitation.

The Canadian Interest.

Mr. Blake also said that the Canadians had a material interest in the settlement of the Irish question. Like the people of every English-speaking nation they had been troubled about the matter of Home Rule. But they were actuated with a nobler spirit than that of self-interest. They remembered the American revolutionary struggle for home rule and the development of home rule in the Canadian possessions, and sympathized with the condition of a nation of fellow-subjects entitled to and refused self-government. England tried the experiment a century ago of giving Canada sole self-government without the essential condition that the executive should be responsible to and therefore controlled by the people. That was done under the fear that they were incapable of self-government and the belief that the mojority being of the same race and creed would use the power thus obtained to oppress the so-called loyal minority. But the system caused gross abuses, discontent and agitation, and on the advice of an able commissioner, the Government, in 1841, gave a fuller measure of Home Rule, which largely secured the contentment and affection of the Canadians.

Since then the blemishes contained in the measure have been removed as experience guided.

The capital error was the legislative union of Upper and Lower Canada, which failed to extinguish the French national feeling and broke down after 25 years' trial when the federal union was substituted. The results fully justified the advocates of Home Rule. The hostility, jealousy and opposition of the two provinces have disappeared. Doubtless the constitution of Canada had a seamy side. He belonged to the party numbering half the population and which for 20 years had been the opposition, and he believed the policy of the Government was wrong and injurious. Yet the attachment to Home Rule was not confined to the dominant party. The minority had rather be misgoverned at home for the moment than well governed from abroad. [Cheers.] They had a powerful Orange party and bigoted Catholics and Protestants, but the sober, settled thought of the people proved the general adhesion to the principle of civil and religious liberty and equal rights. Minorities throughout the world were apt to be suspicious and exacting. He himself believed that the duty of the majority included the moral obligation to give the minority, not a grudging measure of strict justice, but a full, overflowing measure. This was the principle he had expounded to Irish meetings with enthusiastic acceptance.

Ireland's Imperial Interests.

He was convinced that the respect, loyalty and affection of the mass of the Canadians toward the United Kingdom owed their vitality and their strength to the concession of home rule. [Cheers.] The difficulties in the case of Canada did not exist in Ireland. Ireland had great imperial interests in common with England. While she could not claim to participate in the decisions of England's local affairs she would be unworthy of herself if she did not take a share in the imperial affairs. Therefore she strongly opposed the exclusion of Irish members from Westminster, which was indefensible in principle and dangerous in tendency. He rejoiced that it had been eliminated from the present Home Rule proposals, and that the supremacy of the Imperial Parliament would continue, because while it was hoped that the Imperial Parliament would not unnecessarily meddle with decisions of the Irish Parliament, yet in the highly improbable case of ultra vires legislation being proposed prejudicial to the general interests, Great Britain could always exercise plenary parliamentary authority and might insert executive powers of reservation and disallowance in case of such emergencies. He hoped the Home Rule bill would embrace a final settlement of the land question.

There were also great British social, labor and electoral questions which he thought might be grappled with during the lifetime of the present Parliament. When the Home Rule bill was launched and moving steadily along he would welcome the progress in its wake of other pressing legislation which would give the masses of Ireland, through their representatives in Parliament, an opportunity to show their sympathy with the just demands of the British people. [Cheers.]

Mr. Morton, M.P., in proposing Mr. Blake's health, said the granting of home rule to Canada had changed it from a rebellious dependency to a loyal colony.

Mr. Blake, acknowledging the hearty manner in which the toast of his health had been honored, said that he had left home almost at a moment's notice. In coming across the Atlantic to do what he could for the pacification and conciliation of Ireland he had severed the ties of a lifetime. The kindness that he had experienced since coming amongst them, however, and the generous treatment that had been everywhere accorded him went far to compensate him for the loss sustained. The banquet was a very successful and enjoyable one.

The Pall Mall Gazette says the statement of Canada's experiences as a Canadian argument for Home Rule was a most important contribution to the subject. Mr. Blake's remarks on the relation of Home Rule to other political questions were the voice of common sense.

The Daily News says that Blake's grasp of the situation was firm and thorough.

The Star says that the speech more than fulfilled the expectation of an authoritative review of the inner working of Home Rule.

The Times, however, makes a severe criticism and says that Mr. Blake has no real acquaintance with the problem he purported to treat of. At the best he was but humorous in his speech.

When Mr. Blake was referring to a possible rejection of the bill by the House of Lords, he quoted the proverb: "It is time enough to bid the devil good morning when you meet him."

He is a Leader of the Irish Party.

NEW YORK, Aug. 6.—The Times' London special says there is a consensus of disquieting rumors that Gladstone is not as young in mind as in body and that he sets his foot down resolutely against the movement to introduce new blood into the Cabinet. Everybody is full of the story that he insists on having the whole old band of fossils once more about him, saying he is now too old to learn how to use new toots.

The Irish party had a meeting in the historic committee room No. 15, looked itself over, and was very well pleased with itself.

The new Committee of Control contains all the old members—McCarthy, Healy, the two O'Connors, Sexton, Dillon and O'Brien, with the exception of Davitt in place of William Abraham, who is not a member of the new House, and David Sheehy, retired to make room for Edward Blake. It will be his own fault if, thus splendidly started, he does not make a mark in the House.

Blake Read His Speech.

LONDON, Aug. 6.—Blake's address at the Eighty Club dinner Thursday was the chief subject of political comment in the papers yesterday. Some surprise is felt that Mr. Blake follows his manuscript so closely, but the subject matter of the speech was warmly praised by the audience and heartily recognized by the Liberal press.

TRADE GOSSIP.

Business is of Customary Moderate Volume Without Special Activity.

NEW YORK, Aug. 6.—Special telegrams to Bradstreet's show that at most commercial centres general trade is of customary moderate volume without special activity, though there are some exceptions.

Advices from the Province of Quebec indicate that the results of six months' business there have been on the whole disappointing. Harvest products, however, are good and the outlook is bright.

In Ontario wholesale trade is fairly active with some lines improving.

The wheat yield there will probably not equal earlier estimates.

Bank clearings at Halifax, Montreal, Toronto and Hamilton equal $19,170,000 this week, a decrease from the previous week's total of less than 2 per cent. The first three cities named report bank clearings of $18,446,000 this week, a decrease of nearly 2¼ per cent. from last week, but an increase of fully 11 per cent. as compared with the total the first week in August, 1891.

There were 16 business failures in the Dominion of Canada this week as compared with 22 last week and 28 in the like week a year ago.

Died from Heart Disease.

KINGSTON, Aug. 6.—The Rev. James Godfrey, who was in the Church of England for 40 years, died suddenly yesterday from heart disease. He retired in 1884. In 1870 fire ravaged the Ottawa district. He rode 20 miles through the flaming country to his family. His house was destroyed, and with his family he laid in a furrow all night. He never recovered from the nervous shock.

Minnetonka Regatta.

WINNIPEG, Man., Aug. 6.—Races were rowed Thursday in Internationol regatta at Lake Minnetonka, crews of St. Paul, Minneapolis, Duluth and Winnipeg entering. First race, junior fours—Winnipeg won by 10 lengths. Second race, senior singles—Fox of Winnipeg won easily. Third race, junior double—St. Paul 1, Minneapolis 2, Winnipeg 3, Duluth 4.

Toronto Cricketers Defeated.

LONDON, Ont., Aug. 6.—The London Asylum cricketers easily defeated the Torontos in the match played on the asylum grounds here yesterday. Only one innings each was played, the game being called on account of rain. Toronto made 71 in their innings. The asylum made 186 runs with no wickets down.

On Hamilton's Bicycle Track.

HAMILTON, Aug. 6.—The entry list of the bicycle races closed Thursday, and to the list already published may be added Jaffray, McQuillan and Doll of the Toronto Wanderers.

Skerritt's ankle has again gone back on him as a result of exertion in the club road race on Wednesday night. He will not be able to compete on Monday in anything except possibly the quarter mile dash.

Wells is riding better every day and is in grand shape. He is sure to capture his share of firsts against all comers.

Palmer is suffering from nausea, which comes on after riding. He is, however, so full of grit that he may be depended upon to ride to the finish every time.

Zimmerman will probably arrive on Sunday morning if he makes connections at Niagara Falls.

Two Tourists Fall Over a Precipice.

WHAT CAUSED THE DEATH WILLIAM CHAPMAN?

The Northwest School Bill—Sent Money to His Mother—The Reco Made it a Tie—A Jockey Scalped Prairie Crops.

TORONTO, Aug. 6.—The death of Willi Chapman of Thornhill has been investigat and the verdict of the coroner's jury is th he died from injuries received by a f cause of fall unknown.

Coroner Orr presided at the inqu which was held at Skardon's Hotel yesterd afternoon, and County Crown Attorn Dewart did all the questioning. High Co stable Jones looked after the jury, and eve thing was carried out with despatch.

The following is a true story of the wh affair, as gleaned from the evidence of half-dozen witnesses who were sworn:

The deceased, William Chapman, was hard drinker, and has several relative Thornhill who are all highly respectab On Friday night last he called at Skard Hotel at 8.30 and again at 10 o'clo On the occasion of his last visit he was c siderably under the influence of liquor, was given several more drinks. Towa 11 o'clock Skardon, wanting to close house, told Chapman and another m named Edward Parkinson to go home.

The two men went out accompanied the proprietor, who wished to close shutters. When they had walked into street Chapman and Parkinson began wrestle with each other, and both fell w Chapman on top. The only onlookers w Skardon, William Henry Wright, hostler, and Mrs. Parkinson, who had co to the hotel to fetch her husband home.

After the wrestlers had both regained th feet, Chapman threatened to kick Skard and the latter replying said, "I'm damned you will." Just at this moment, so th witnesses said, Chapman staggered and f like a log on the hard road. The bystand thought that he was simply drunk, and cordingly carried him into the driv shed, where he had often lain befo and left him there for the night. N morning he was found in the same positi apparently not having moved, and he w taken into the hotel and well cared for u Dr. Langstaff arrived. The doctor after little deliberation came to the conclus that he was suffering from concussion of t brain, but could not benefit him, and witho becoming conscious he died at 5.30 on M day afternoon. His friends at Thornh would have nothing to do with him and was buried at the public expense.

What the Post Mortem Showed.

The post mortem examination showed th death had been caused from con cussion the brain. The skull had been badly fr tured, there being a clean split from a po just above the left ear down to almost base of the frontal bone. There was also contusion near the inner corner of the l eye, at the extremity of the fracture. D Langstaff and Ferguson were of the opini that the fracture had been caused by a f

Acting on this evidence the jury broug in a verdict as given above; but there discrepancies which yet cause considera talk among the villagers, and which some future time may be more fully plained. In the first place, although th witnesses saw deceased fall in front Skardon's Hotel, yet none of them saw blow struck. Now, supposing no blow h been struck, which, despite the eviden is not certain, how did Chapm receive the mark on the in side of his eye? It is hardly r sonable to suppose that a backward f would have caused it. In the second pl the doctors who performed the post mort removed only the upper part of the sk cap, and did not trace the fracture down the point near the eye. This point may ha been the beginning of the fracture, and t split discovered by the doctors may ha been only a secondary fracture radiati from the principal one, such as is seen wh a window is broken by a stone.

The case will probably rest at least f some time, for the Crown will not take a further action until some more conclusi evidence is brough forth.

PRAIRIE CROPS.

The Yield of Grain in Some Districts W Be Even Better Than Last Year.

WINNIPEG, Aug. 6.—As August advan the feeling regarding the safety of the cro grows more intense, and Manitoba farm and business men will be on the anxio seat for the next month until all is saf harvested. The weather still remains that could be desired, and will hasten t ripening of the grain.

A despatch from McGregor, an impo ant shipping point in the Brandon distri says: Crops in this locality are looking e cellent, and are equally as promising as la year, some claim even more so.

Few estimates as to the yield per acre various districts have as yet been hear but from 15 to 25 bushels per acre may put as a safe limit, should hail or frost n interfere, with higher yields in the distric where an abundance of moisture fell duri the early growing months.

EDITORIAL NOTES.

Archdeacon Farrer is a prolific writer, and all he produces is of the best quality; and he has lately furnished a fresh contribution on a profound topic. It consists of a series of sermons on the Ten Commandments, entitled "A voice from Sinai," and in these he thinks we have the 'eternal basis of the moral law."

After an introduction of thirty pages he discusses, in his usual earnest way of appeal and remonstrance, "The Ten Words," "The Law is Our Tutor," and "The Manner of Keeping the Commandments." Next, he devotes sermons on the Commandments in order, and concludes with some appropriate remarks on "Thou shalt not," the negative form in which the Commandments are imposed as a moral law, and a brief note on the second commandment, touching the nature and character of God, as "a jealous God," and the visiting of the parents' sins on their children. The sermons were listened to in Westminster Abbey by crowded congregations when as we are told, "the number of young men who were content to stand for hours in the transepts of the Abpey in order to hear them was unusually large and attentive." Taken as a whole, it is an admirable volume. The book is published by Thos. Whittaker, New York, and is an excellent sample of the printer's art.

By the retirement of J. W. Bengough from Grip, Canadian journalism will suffer a distinct and irreparable loss. Bengough is in the opinion of no less an authority than W.T. Stead one of the very best cartoonist living and the estimation in which his work is held is seen in the last issue of the Review of Reviews where out of seven reproductions from the comic papers three are from Bengough. Canada's cartoonist's retirement is due to a question of salary, and it seems too bad that such a matter as this should deprive this country of the services of such an able journalist and inimitable cartoonist. It is said Ben gough will go to England to reside.

1000 Island Excursion

Rev. D. O. Crossley of the Tabernacle and Rev. F. B. Stratton of Trenton, announce a grand double trip excursion to the 1000 Islands to take place on Saturday, August 13th and 20th—two Saturdays in succession, returning on following Monday. Those wishing to do so may remain a week and return on second Monday. They have been fortunate in securing the best dates of the season at the park, and will no doubt have a large patronage each date. Tickets only $1.00 on steamer Hero. Boat leaves Belleville at 7 a.m.

Those who are in the habit of taking an appetizer before meals could not do better as well for the effect as for economy's sake, than make use of "Indigenous Bitters." As Indigenous Bitters are slightly laxative, those who suffer from habitual constipation, will derive great benefit, by regularly taking them, as they keep the bowels in good order and in that way aid digestion

At no time is man secure from attacs of such painful and dangerous disorders o the stomach as Cholera, Cholera Morbus, Cramps, Diarrhoea, and Dysentery; but these complaints are particularly common during the heated term, when it is doubly dangerous to neglect them. PERRY DAVIS' PAIN KILLER is a remedy that has never failed when tried, and the severest attacks have been cured by it. It leaves no evil effect, and invariably brings relief to the sufferer. Every reputable druggist in the country sells PERRY DAVI'S PAIN KILLER. Large size New bottle, price 25c.

We do not know of any preparation that has caught the public favor in so short a time as Dodd's Kidney Pills, but when we onsider that three-fourths of the Canadian people are afflicted with kidney troubles in some form or other, and that Dodd's Pills are a quick and permanent cure for all these troubles, the large and increasing demand can scarcely be wondered at. Sold by all dealers or by mail on receipt of price, 50 cents per box, Dr. A. L. Smith & Co. Toronto.

There are more cases of sickness and death from diseased kidneys than from all other diseases combined. It is your own fault if you allow your kidneys to remain in an unhealthy condition when the cure is at hand. Dodd's kidney Pills are guaranteed to cure the worst case. HE IS "PRE-EMINENT."

DR. TALMAGE SPEAKS OF HIM THAT IS ABOVE ALL.

Christ the Over-Topping Figure of All Time—The Alpha and Omega, the First and the Last—"Above All."

LONDON, July 31.—Since his return from Russia, Dr. Talmage has been literally flooded with invitations to address congregations and lyceums on the subject of his journey to the land of the Czar. During the week he has been preaching in the leading Scottish cities. His arrangements for next week include services at Newcastle and Sunderland, and thereafter he goes to the Isle of Man for a few days. The sermon selected for this week is entitled "Preeminent," the text being, John 3, 31, "He that cometh from above is above all."

The most conspicuous character of history steps out upon the platform. The finger which, diamonded with light, pointed down to him from the Bethlehem sky, was only a ratification of the finger of prophecy, the finger of genealogy, the finger of chronology, the finger of events—all five fingers pointing in one direction. Christ is the overtopping figure of all time. He is the vox humana in all music, the gracefulest line in all sculpture, the most exquisite mingling of lights and shades in all painting, the acme of all climaxes, the dome of all cathedralled grandeur, and the peroration of all splendid language.

The Greek alphabet is made up of twenty-four letters, and when Christ compared Himself to the first letter and the last letter, the alpha and omega, He appropriated to Himself all the splendors that you can spell out either with these two letters and all letters between them. "I am Alpha and Omega, the beginning and the end, the first and the last." Or, if you prefer the words of the text, "above all."

First, Christ must be above all else in our preaching. There are so many books on homiletics scattered through the world that all laymen, as well as all clergymen, have made up their minds what sermons ought to be. That sermon is most effectual which most pointedly puts forth Christ as the pardon of all sin and the correction of all evil, individual, social, political, national. There is no reason why we should ring the endless changes on a few phrases. There are those who think that if an exhortation or a discourse have frequent mention of justification, sanctification, covenant of works and covenant of grace, that therefore it must be profoundly evangelical, while they are suspicious of a discourse which presents the same truth, but under different phraseology. Now, I say there is nothing in all the opulent realm of Anglo-Saxonism or all the word treasures that we inherited from the Latin and the Greek and the Indo-European, but we have a right to marshal it in religious discussion. Christ sets the example. His illustrations were from the grass, the flowers, the spittle, the salve, the barnyard fowl, the crystals of salt as well as from the seas and the stars; and we do not propose in our Sabbath School teaching and in our pulpit address to be put on the limits.

I know that there is a great deal said in our day against words, as though they were nothing. They may be misused, but they have an imperial power. They are the bridge between soul and soul, between Almighty God and the human race. What did God write upon the tables of stones? Words. What did Christ utter on Mount Olivet? Words. Out of what did Christ strike the spark for the illumination of the universe? Out of words. "Let there be light," and light was.

When we come to set forth the love of Christ we are going to take the tenderest phraseology wherever we find it, and if it has never been used in that direction before, all the more shall we use it. When we come to speak of the glory of Christ, the Conqueror, we are going to draw our similes from triumphal arch and oratorio and everything grand and stupendous. The French navy have eighteen flags by which they make signals; but those eighteen flags they can put into sixty-six thousand different combinations. And I have to tell you that these standards of the Cross may be lifted into combinations infinite and varieties everlasting. And let me say to young men who are after a while going to preach Jesus Christ, you will have the largest liberty and unlimited resource. You only have to present Christ in your own way.

Jonathan Edwards preached Christ in the severest argument ever penned, and John Bunyan preached Christ in the sublimest allegory ever composed. Edward Payson, sick and exhausted, leaned up against the side of the pulpit and wept out his discourse, while George Whitefield, with the manner and the voice and the start of an actor, overwhelmed his auditory. It would have been a different thing if Jonathan Edwards had tried to write and dreamed about the pilgrim's progress to the celestial city, or John Bunyan had attempted an essay on the human will. Brighter than the light, fresher than the fountains, deeper than the seas are all these Gospel themes. Oh, what a Gospel to preach! Christ over all in it. His birth, His suffering, His miracles, His parables, His sweat, His tears, His blood, His atonement, His intercession—what glorious themes! Do we exercise faith? Christ is its object. Do we have love? It fastens on Jesus. Have we a fondness for the church? It is because Christ died for it. Have we a hope of heaven? It is because Jesus went ahead, the herald and the forerunner.

"Oh, my sins, my sins," said Martin Luther to Staupitz, "my sins, my sins!" The fact is, that the brawny German student had found a Latin Bible that had made him quake, and nothing else ever did make him quake; and when he found how, through Christ, he was pardoned and saved, he wrote to a friend, saying: "Come over and join us, great and awful sinners saved by the grace of God. You seem to be only a slender sinner, and you don't much extol the mercy of God; but we who have been such very awful sinners praise His grace the more now that we have been redeemed." Can it be that you are so desperately egotistical that you feel yourself in first-rate spiritual trim, and that from the root of the hair to the tip of the toe you are scarless and immaculate? What you need is a looking-glass, and here it is in the Bible. Poor, and wretched, and miserable, and blind, and naked from the crown of the head to the sole of the foot, full of wounds and putrefying sores. No health in us. And then take the fact that Christ gathered up all the notes against us and paid them, and then offered us the receipt.

And how much we need Him in our sorrows! We are independent of circumstances if we have His grace. Why, He made Paul sing in the dungeon, and under that grace St. John from desolate Patmos heard the blast of the apocalyptic trumpets. After all other candles have been snuffed out, this is the light that gets brighter and brighter and brighter unto the perfect day; and after, under the hard hoofs of calamity, all the pools of wordly enjoyment, have been trampled into deep mire, at the foot of the eternal rock, the Christian, from cups of granite, lily rimmed and vine covered, puts out the thirst of his soul.

Again, I remark, that Christ is above all in dying alleviations. I have not any sympathy with the morbidity abroad about our demise. The Emperor of Constantinople arranged that on the day of his coronation the stonemason should come and consult him about his tombstone that after a while he would need. And there are men who are monomaniacal on the subject of departure from this life by death, and the more they think of it the less they are prepared to go. This is an unmanliness not worthy of you, not worthy of me.

After all, there are only two styles of departure, the death of the righteous and the death of the wicked, and we all want to die the former. God grant that when that hour comes you may be at home! You want the hand of your kindred in your hand. You want your children to surround you. You want the light on your pillow from eyes that have long reflected your love. You want the room still. You do not want any curious strangers standing around watching you. You want your kindred from afar to hear your last prayer. I think that is the wish of all of us. But is that all? Can earthly friends hold us when the billows of death come up to the girdle? Can human voice charm open heaven's gate? Can human hands pilot us through the narrows of death into heaven's harbor? Can an earthly friendship shield us from the arrows of death and in the hour when Satan shall practice upon us his infernal archery? No, no, no, no! Alas! poor soul, if that is all. Better die in the wilderness, far from tree shadow and from fountain, alone, vultures circling through the air waiting for our body, unknown to men, and to have no burial, if only Christ could say through the solitudes, "I will never leave thee, I will never forsake thee." From that pillow of stone a ladder would soar heavenward, angels coming and going; and across the solitude and the barrenness would come the sweet notes of heavenly minstrelsy.

Dr. Taylor, condemned to burn at the stake, on his way thither, broke away from the guardsmen and went bounding and leaping and jumping toward the fire, glad to go to Jesus and to die for Him. Sir Charles Hare, in his last moment, had such rapturous vision that he cried: "Upward, upward, upward!" And so great was the peace of one of Christ's disciples that he put his fingers upon the pulse in his wrist and counted it and observed it; and so great was his placidity that after a while he said, "stopped," and his life had ended here to begin in Heaven. But grander than that was the testimony of the worn-out first missionary, when, in the Mamartine dungeon, he cried: "I am now ready to be offered, and the time of my departure is at hand; I have fought the good fight, I have finished my course, I have kept the faith; henceforth there is laid up for me a crown of righteousness, which the Lord, the righteous Judge, will give me in that day, and not to me only, but to all them that love His appearing."

America consumed in Great Britain last year were obtained from Canada, and it will be noted that our apples sold 7s a barrel higher than those from the United States. The highest price paid for apples in England last year—33s—was in April. The old country cheese markets are pulling up again and Canadian cheese is making more money abroad. The cable has been steadily advancing, and the factories realizing the fact that the situation is daily getting stronger, are very firm. The London Grocer, July 23rd. reports:—"American has been steady, with a fair business passing at 43s to 45s for both colored and white, and for Canadian at 45s to 47s. The late large arrivals are going into consumption, and the prospects are for a healthy trade at the moderate prices. Fully 100,000 boxes have arrived

dancers go up and down to the sound of trumpeters will be the sepulchre through whose rifts the holy light of Heaven streameth. God will watch you. He will send His angels to guard your slumbering ground, until, at Christ's behest, they shall roll away the stone.

So also, Christ is above all in heaven. The Bible distinctly says that Christ is the chief theme of the celestial ascription, all the thrones facing His throne, all the palms waved before His face, all the crowns down at His feet. Cherubim to cherubim, seraphim to seraphim, redeemed spirit to redeemed spirit shall recite the Saviour's earthly sacrifice.

Stand on some high hill of heaven, and in all the radiant sweep the most glorious object will be Jesus. Myriads gazing on the scars of His suffering, in silence first, afterwards breaking forth into acclamation. The martyrs, all the purer for the flame through which they passed, will say: "This is Jesus for Whom we died." The apostles, all the happier for the shipwreck and the scourging through which they went, will say: "This is the Jesus Whom we preached at Corinth, and at Cappadocia, and at Antioch, and at Jerusalem." Little children dressed in white will say: "This is the Jesus who took us in His arms and blessed us, and when the storms of the world were too cold and loud brought us into this beautiful place. The multitudes of the bereft will say:—"This is the Jesus who comforted us when our heart broke." Many who had wandered clear off from God and plunged into vagabondism, but were saved by grace, will says: "This is the Jesus who pardoned us. We were lost on the mountains, and He brought us home. We were guilty, and he made us white as snow. Mercy boundless, grace unparalleled." And then, after each one has recited his peculiar deliverances and peculiar mercies, recited them as by solo, all the voices will come together in a great chorus, which shall make the arches echo and re-echo with the eternal reverberation of gladness and peace and triumph.

A Servian Song.

"Mother, a dear little lad
  Alone through the night is creeping
He has lost his way and is sad;
  I hear him bitterly weeping.
I know he is coming to me,
  Go to the door and see."
"Daughter, woman's undoing
  Is to be won without wooing.
When she meets her lover half-way
  He holds her favor light
As the cup he drains by day
  Or the lamp he burns by night."
"Mother, no more,
  But open the door;
I have his heart, he mine;
  He must be housed and fed,
I will give him kisses for wine
  And my eyes shall light him to bed!"

Smiles.

Advertising a patent medicine in the peculiar way in which the proprietor of Kemp's Balsam for cough and colds does it is indeed wonderful. He authorized all druggists to give all those who call for it a sample bottle free, that they may try it before purchasing. The large bottles are 50c and $1. We certainly would advise a trial. It may save you from consumption.

A Pleasant Herb Drink

The best cure we know of for constipation and headache is the pleasant herb drink called Lane's Family Medicine. It is said to be Oregon grape root, combined with simple herbs, and is made ready for use by pouring boiling water onto the dried roots and herbs. It is remarkably efficacious in all blood disorders and is now the sovereign remedy with ladies for clearing up the complexion. Druggists sell the packages at 50c and $1.

For all forms of female weakness Dr. Williams' Pink Pills are an unfailing specific. Mr. Thomas Strachan, Postmaster, Roballion writes:- My daughter has been ill for the last four years with female weakness, and had been attended by four of the best doctors in our section. She began the use of Dr. Williams Pink Pills, and two boxes have done her vastly more good than all the medicines she took from those doctors.

What She Said

Mrs. R. Peck, 15th street, New York City, visited Canada last year, and had the good fortune to pick up something which not only suited her, but her neighbors also. Writing the manufacture of Nerviline she says:—"I bought three bottles of Nerviline while in Canada and treated my neighbors to some of it, and all think it the best medicine for internal or external pain they have ever used." Nerviline deserves such commendation, for it is a most powerful, penetrating, and certain remedy for pain of all kinds. Take no substitute.

PAR [illegible] the power of acting specifically upon the diseased organs, stimulating to action the dormant energies of the system, thereby removing disease. In fact, so great is the power of this medicine to cleanse and purify that diseases of almost every name and nature are driven from the body. Mr. D. Carswell, Carswell P. O., Ont., writes: "I have tried Parmelee's Pills and find them an excellent medicine, and one that will sell well.

A Cure For Constipation And Headache

Dr. Silas Lane while in the Rocky Mountains discovered a root that when combined with other herbs makes an easy and certain cure for constipation. It is in the form of dry roots and leaves, and is known as Lane's Family Medicine. It will cure sick headache in one night, For the blood, liver and kidneys, and for clearing up the complexion it does wonders. Druggists sell it at 50 cents a package

Weighed in the balance, but not found wanting. Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure has been weighed in that just balance, the experience of an impartial and intelligent public. The highest praise has been won by Hood's Pills for their easy, yet efficent action.

As an after dinner pill, to strengthen the stomach, assist digestion, and correct any bilious tendencies, Ayer's pills are considered the best. Being sugar coated, they are as agreeable as any confection, and may be taken by the most delicate.

How Mr. W. D. Wentz of Geneva, N.Y., was cured of the severest form of dyspepsia? He says everything he ate seemed like pouring melted lead into his stomache. Hood's Sarsaparilla effected a perfect cure. Full particulars will be sent if you write C. Hood & Co., Lowell, Mass.

DEAR SIRS,—I have used Hagyard's Pectoral Balsam for bronchitis and bad cough with the best results, and can highly recomend it to all sufferers.

MORLEY CHIEF SECRETARY.

Conference Between the Irish Leaders and Mr. Gladstone.

LONDON, Aug. 6.—The series of conferences between the leaders of the Irish party and Mr. Gladstone has definitely resulted in such a degree of mutual confidence as promises to expedite greatly the advent of Home Rule in Ireland. The acceptance by Mr. John Morley of the post of Chief Secretary for Ireland was a point upon which the chief of the McCarthyite faction laid considerable stress.

Mr. Morley only agreed to accept the secretaryship when it was represented to him by Mr. Gladstone that no other Minister would so fully command the support of Irish members of Parliament.

In an interview yesterday John Dillon expressed the satisfaction of the Irish party at the prospect of Mr. Morley's holding the post during the critical period in the progress of the Home Rule Bill.

Referring to the reports printed in some of the English papers that certain Irish members might take office under Mr. Morley, Mr. Dillon said that such a thing was next to impossible. No member of the party, he declared, would dare to accept a place under an English Government. "We are pledged," he added, "to accept no post except under a purely Irish administration, when we get it, and any man violating that rule would be expelled from the party."

When asked whether he could communicate what modification Mr. Gladstone had made in his Home Rule Bill Mr. Dillon replied he was not at liberty to say anything except the bill was likely to be one that Mr. Parnell would have accepted, adding, "We will not take anything less. Mr. Gladstone knows that our position in the matter is definite and inflexible. He has pledged himself to place Home Rule in front of all other measures and to keep it there until it is passed. I believe we can rely upon his intention to do so."

"When do you expect Mr. Gladstone to introduce the Home Rule bill?"

"As soon as the House reassembles in January or early in February. We do not expect an autumn session. The House is likely to adjourn next Friday."

The proceedings of Parliament yesterday were of a routine nature and devoted to swearing in of members and choosing of seats.

Sir William Vernon Harcourt said in convention yesterday that they intended to bring in a home rule bill which will make the Tories shiver.

The Times says: Mr. Balfour regards the capture of five seats from the Nationalists as one of the most significant features of the election. In his speech on the address he will give special prominence to the attitude of Ulster in regard to Home Rule. It is stated that the Queen's speech will be of unusual brevity, and that the greater part of it will be devoted to foreign affairs.

Sixty-six McCarthyites met Thursday and re-elected Justin McCarthy as sessional chairman, Mr. Deasey, Sir T. Esmond, Mr. Malloy and Dr. Tanner as whips, and Arthur O'Connor and Donald Sullivan as secretaries. Mr. McCarthy was re-elected as a mere figurehead to keep differences in abeyance, The McCarthyites will sit on the Opposition side of the House, though they will co-operate with the Gladstonians on the Home Rule bill.

To Contest Newcastle-on-Tyne.

LONDON, Aug. 6.—The Newcastle Unionists have selected a wealthy London merchant, Mr. Ralli, to contest the seat against Mr. Morley. Mr. Ralli has consented to run.

THEY BLAME A MOSQUITO.

But Peter Kenny's Death was Really Caused by Blood Poisoning.

NEW YORK, Aug. 6.—Peter Kenny, a laborer, 69 years old, died in Bellevue Hospital yesterday of what he and his family believed to be a mosquito bite.

The physicians, however, set down the trouble as cellulitis of the face and say it was simply a case of blood poisoning, brought on in some unknown manner. They say that the abscess may have started from a mosquito or other insect bite, into which some poisonous matter was introduced, probably by a scratch from a finger nail, but that it could not have come from a mosquito bite alone. The mosquito's bill, they declare, is not large enough to carry poisonous or putrid matter on which he may have been feeding, and the pestiferous insect has no means of injecting anything of that sort into anybody whom he may afterward attach. His bill has simply a suction pump action.

TRAIN ROBBERS' RICH HAUL.

Dynamite Splinters the Express Car and $20,000 Is Secured.

FRESNO, Cal., Aug. 6.—The fifth train robbery in the San Joaquin Valley in three years occurred early yesterday near the small station of Collis, 15 miles from here. There were two robbers and their methods of procedure were precisely the same as in previous cases, except that they were not molested by any passenger.

After rapidly splintering the express car with dynamite they cleaned up about $20,000, jumped into a wagon and struck off across the plains.

Although detectives were on their trail in a few hours there are small prospects of capturing them.

"German Syrup"

J. C. Davis, Rector of St. James Episcopal Church, Eufaula, Ala.: "My son has been badly afflicted with a fearful and threatening cough for several months, and after trying several prescriptions from physicians which failed to relieve him, he has been perfectly restored by the use of two bottles of Boschee's German Syrup. I can recommend it without hesitation." Chronic severe, deep-seated coughs like this are as severe tests as a remedy can be subjected to. It is for these long-standing cases that Boschee's German Syrup is made a specialty. Many others afflicted as this lad was, will do well to make a note of this.

THE THREE FATES

BY

F MARION CRAWFORD is an excellent book. The plot is sufficiently interesting without being too intricate. A number of pretty situations and startling denouements are admirably sketched by the author.

The young writer who is the hero of the play, meets with his three fates, the first he loves, but she destroys her own happiness by refusing him, the second loves him, and her mother's intrigues to catch him are only made unsuccessful by the discovery of a deceit she has practised, and finally his third appears on the scene.

This is one of the finest novels placed before the reading public for some time, and its popularity will grow with the more thoughtful class of readers, and the wisdom of the writer, and the beauty of his characters will be appreciated years hence perhaps more than now. At

ACROSS THE ATLANTIC.

NEWFOUNDLAND'S DISTRESS LOAN OF £750,000.

Lord Salisbury Promises to Support It Should It Come up in Parliament—Verdict Against the British Government in the Baird Case.

LONDON, Aug. 6.—In view of the present critical political situation Lord Salisbury has declined to legislate in favor of a distress loan of £750,000 for Newfoundland, but he promises to support the measure if it is introduced in Parliament.

The celebrated case of Baird v Walker has been settled at last by a victory for Newfoundland. It arose out of the closing in 1890 of lobster factories on the French shore, owned by James Baird, by Sir Baldwin Walker, captain of H.M.S. Emerald, acting by instructions under the modus vivendi arrangement. Baird contended that the factories were in operation before the modus vivendi was concluded, and took an action against the captain in the Newfoundland Supreme Court, claiming $2500 damages. The court unanimously upheld his claim, and the British Government, which upheld Walker, appealed to the Imperial Privy Council. It delivered judgment in London affirming the former decision, and Baird now makes the British Government disgorge the sum claimed, besides costs, which are enormous.

DUKE AND PLEBEIAN.

An Incident in England Showing That Republicanism Is Waking Up.

LONDON, Aug. 6.—Lord Chief Justice Coleridge delivered judgment yesterday regarding right of way in an action in which the plaintiff, a workingman, sued the Duke of Rutland because of the latter's gamekeeper stopping traffic on a highway while they were driving grouse. His Lordship in his deliverance said that the days of high-handed interference with the rights of the people had passed and that if the Duke could not conduct his shootings without meddling with the right of the public to use the highway he must select other places to hold his battues.

The evidence given during the trial of the suit showed that the gamekeepers knocked the plaintiff down on the highway and that when the plaintiff complained of this treatment to the Duke's son, Lord Edward Manners, the latter replied:

"Go to the devil. If you are shot your life will be on your own head."

This, the Lord Chief Justice said, could not be tolerated from any person, Duke or other.

Lord Edward Manners, interposing at this point in the remarks of the Lord Chief Justice, said that His Lordship's words seemed to hold him (Lord Edward) up as a prospective murderer.

To this His Lordship replied:

"I only said what I considered it my duty to say."

Pago-Pago Harbor Seized By a British Man-of-War.

SAN FRANCISCO, Cal., Aug. 6.—The steamer Mariposa arrived last evening from Australia, and in addition to details of the British occupation of Johnston Islands brought intelligence that a British man-of-war has seized Pago-Pago harbor, to be used as a coaling station by the English Government. This has created considerable talk in San Francisco. The steamer Alameda, which sailed for Sydney via Samoa on July 15, took an officer of the United States navy, Lieut. John H. Coffin, whose destination was Apia. His duty was to put the United States coaling station at Pago-Pago in order and to appoint officers and men to take charge of it. Before leaving he stated that the United States was going to keep a large supply of coal there and make a regular naval station of the place. The Evening Star of Auckland, New Zealand, says Pago-Pago Harbor was formerly used by the Americans as a coaling station, but with the loss of their ships in Apia in the 1889 hurricane it has been discontinued.

In 1875 a Samoan envoy made a visit to the United States, and the grant to the United States of the exclusive privilege of establishing a naval station at Pago-Pago was confirmed. In 1876 the coaling station established there in 1872 by Commander Meade was formally inspected by Special Agent Steinburger.

Bourinot on the School Question.

OTTAWA, Aug. 6.—Dr. Bourinot, the distinguished Clerk of the Dominion House of Commons, referring to the decision of the Privy Council in the Manitoba school question, said yesterday that a decision of the highest court of the empire, which declares that no rights have been interfered with, leaves no room for another appeal or for remedial legislation, since in law and in fact it is declared that there is nothing to remedy.

SHILOH'S CONSUMPTION CURE.

This GREAT COUGH CURE, this successful CONSUMPTION CURE, is without a parallel in the history of medicine. All druggists are authorized to sell it on a positive guarantee, a test that no other cure can successfully stand. If you have a Cough, Sore Throat, or Bronchitis, use it, for it will cure you. If your child has the Croup, or Whooping Cough, use it promptly, and relief is sure. If you dread that insidious disease CONSUMPTION, *don't fail* to use it, it will cure you or cost nothing. Ask your Druggist for SHILOH'S CURE, Price 10 cts., 50 cts. and $1.00.

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

All through the Provinces the rapid increase of La Grippe, is causing great alarm. A report was received here to-day, of a new development of the disease, which is worse, perhaps than any other. Wm. Hanley of N. Y. City, died in terrible agony after sickness of only four days. His tongue swelled to such an extent as to make it impossible for him to close his jaws or swallow any food. The report is causing the people in this district to inquire into the noted Grip-cure, recently referred to in so many papers. In Cape Breton the disease has spread very rapidly and with fatal results, D. J. McKillop of L'Archeveque writes Feb. 11th that this cure has been tried in his neighborhood and with such success that all those residing there are obtaining a supply believing it to be the only remedy affording relief and effecting a certain cure. He finished his letter by asking for a large quantity of the Medicine (Dr. Morse's Indian Root Pills) to supply the demands of the community for the relief of LaGrippe.

For You or O

GENTLEMAN,—One of my little girls (aged 4 years) had been troubled with costiveness in its worst form since infancy. We tried different remedies which gave relief while using, but as soon as discontinued she would be worse than before using. She lost her appetite and was growing weak and delicate. A friend of mine who had used B B B with grand results for the same disease advised me to try it, and also the Burdock Pills, which we did. She did not take the contents of one bottle before it relieved her, and not only relieved her but permanently cured her, for she has not been troubled once since, and she is now eight years old

Diseases of The Liver

Parmelee's Pills possess the power of acting specifically upon the deceased organs, stimulating to action the dormant energies of the system, thereby removing disease. In fact, so great is the power of this medicine to cleanse and purify that disease of almost every name and nature are driven from the body. Mr. D. Carswell, Carswell, P. O., writes I have tried Parmelee's Pills and find them an excellent medicine,

The "Myrtle Navy" brand of smoking tobacco has stood the test for over twenty years, and during that time it has lost no friends and gained scores of thousands This lengthened experience shows that is no mere passing fashion which has gained it the approval of the public, but its superocity in the essential qualities which make a first-class tobacco.

Advice to Mothers

Mrs. Winslow's Soothing Syrup has been used by millions of mothers for children teething for over fifty years, with perfect success. It relieves the little sufferer at once, produces natural, quiet sleep, and freeing the child from pain, and the young cherub wakes as bright as a button.' is pleasant to taste, soothes the child softens the gums, allays pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhoea, whether arising from teething or other causes 25 cts a bottle.

A Question

How can we raise more corn to the acher? Why, of course by using Putman's Corn Extractor. Putman's Painless Corn Extractor has given universal satisfaction, for it is safe, sure and painless. Like every article of real merit it has a host of imitators, and we would specially warn the public to guard against these dangerous substitutes offered for the genuine, Putman's Extractor. N. Rev William Hollinshed

Pastor of the Presbyterian church of Sparta, N. J., voluntarily writes strongly in favor of Hood's Sarsaparilla. He says: "Nothing I know of will cleanse the blood stimulate the liver, or clean the stomach like this remedy. I know of scores and scores who have been cured by it."

Increase Your Weight

If you are losing flesh and blood, commence at once using Miller's Emulsion of Cod Liver Oil, which is far ahead of all other preparations of the kind in existence By taking Miller's Emulsion people gain from 5 to 10 lbs. by the time the first bottle is consumed. It is the greatest blessing of the century to all in delicate health for who suffer with coughs, colds and ailments that tend to consumption. Remember, Miller's Emulsion contains he consituents in wheat.

WH CAMPBELL

A Friend

Wishes to speak through the *Register* of the beneficial results he has received from a regular use of **Ayer's Pills.** He says: "I was feeling sick and tired and my stomach seemed all out of order. I tried a number of remedies, but none seemed to give me relief until I was induced to try the old reliable Ayer's Pills. I have taken only one box, but I feel like a new man. I think they are the most pleasant and easy to take of anything I ever used, being so finely sugar-coated that even a child will take them. I urge upon all who are

In Need

of a laxative to try Ayer's Pills."—Boothbay (Me.) *Register.*

"Between the ages of five and fifteen, I was troubled with a kind of salt-rheum, or eruption, chiefly confined to the legs, and especially to the bend of the knee above the calf. Here, running sores formed which would scab over, but would break immediately on moving the leg. My mother tried everything she could think of, but all was without avail. Although a child, I read in the papers about the beneficial effects of Ayer's Pills, and persuaded my mother to let me try them. With no great faith in the result, she procured

Ayer's Pills

and I began to use them, and soon noticed an improvement. Encouraged by this, I kept on till I took two boxes, when the sores disappeared and have never troubled me since."—H. Chipman, Real Estate Agent, Roanoke, Va.

"I suffered for years from stomach and kidney troubles, causing very severe pains in various parts of the body. None of the remedies I tried afforded me any relief until I began taking Ayer's Pills, and was cured."—Wm. Goddard, Notary Public, Five Lakes, Mich.

FAST SAILING.

The Carmana runs From Cobourg to Toronto in Five Hours.

A telegram received from T. S. Carman yesterday afternoon states that the run with his private yacht Carmana was made from Cobourg to Toronto in exactly five hours. The distance between these ports is seventy miles by water. Mr. Carman left Cobourg at 1.30 with one of the mail boats and both steamed into Toronto bay together. This is remarkably fast sailing on the lake in a small boat, being an average of fourteen miles an hour. Mr. Carman states that the party is having a delightful time. They will make a tour of Lake Ontario before returning home. The papers along the route have contained extended notices of the Carmana. Mr. Carman says the boat behaves beautifully in lake water.

Cobourg Post: "On Sunday last the beautiful steam yacht Carmana, of Belleville, called at Cobourg. She had a number of ladies and gentlemen on board. The Carmana is the property of Mr. T. S. Carman, of the Belleville ONTARIO, and is ample proof of the prosperous state of that gentleman's financial standing."

The Mail to-day says:—"The steam yacht Carmana, owned by Mr. T. S. Carman, of the Daily Ontario, Belleville, arrived from that port yesterday afternoon with a pleasure party on board. The Carmana left Belleville about three o'clock on Thursday afternoon and arrived in Cobourg Friday morning. The party, is is expected, will leave Toronto for Hamilton to-day."

The Globe has this item to-day:—"The handsome steam launch Carmana of Belleville came into Toronto harbor at 3 p.m. yesterday and landed the holiday party that she had on board at the Church street slip. The Carmana is the property of Mr. T. S. Carman, publisher of The Daily ONTARIO of Belleville, and cost that gentleman a tidy sum of money to build three years ago. She is built on lines conductive to speed and she has verified the anticipations of her designer by covering fifteen knots an hour. The interior arrangements affords every convenience, and her furnishings are luxurious. She is under the command of Capt. Duesbury. The party on board who propose to enjoy a three-weeks' cruise about Lake Ontario, is composed of Mr. Garman and his family and Miss Mackenzie of Toronto. They left for Hamilton en route to St. Catharines in the evening."

A DELIGHTFUL TRIP.

If You Would be Happy Take the Hero to Kingston and Return

For a one days' outing on the beautiful Bay of Quinte there is no better trip than that of the Hero to Kingston and return. The boat leaves Belleville at six o'clock in the morning, when the air is beautifully cool and refreshing. When the boat has got fairly under way the pleasant music of the breakfast bell greets your ear and it is not necessary to state that by this time you have found a famished appetite. The courtesy of Capt. Gilbert Johnston is contagious and you find yourself saying that you never felt more at peace with the world than under present circumstances. Doc Thompson is the genial purser and the travelling public will greatly regret that he leaves the boat at the end of this season and enters the practice of medicine in the States. Kingston is reached at 1.30, after you have had dinner. Two hours in the Limestone city and you are ready to leave for home which is reached at the seasonable hour of 11 p.m. There is no finer trip in the world, and there is no more popular or attentive captain than Gilbert Johnston.

THE SYLVESTER STEEL BINDER

Some of Its Many Excellent Features and Satisfactory Work

In the binder competition that took place last Monday on the farm of Mr. Hubble, Sidney, the Sylvester Light Steel Binder, one of the contestants, also came off with flying colors. The test made was a severe one, in heavy lodged wheat and among barley tangled with wild peas, but this favorite binder picked everything up beautifully, and did such good work that it also was sold on the field and an offer made for another one, and the farmers present expressed great admiration of its splendid work.

This excellent machine is manufactured by the Sylvester Bros. of Lindsay, and is admitted to be without a superior on the market. The main frame and all the shafting is made of steel while malleable iron is used exclusively in all parts where there is any strain. One of the distinguishing characteristics of this binder is its simpleness of construction. It contains some fifty fewer pieces then the machines in competition with it, twenty less wearing points than in any other machine made, and any farmer can readily understand that this is a great advantage, so long as the effectiveness of the machine is not lessened, as it is not in this case. Moreover, the fewer pieces in the machine the easier it is to understand and control and less liable to get out of order. In this machine also the butting board is done away with the same object being attained in another way. This is important, as the gear in connection with the butter is more apt to get out of order than any other on the machine. All the levers in this machine including that for raising the outside end of the table, are entirely under the control of the driver from his seat. In most other machines the driver has to leave his seat in order to raise the table. The Sylvester binder has both a chain and a gear driver but the latter is considered the better of the two as it makes a steadier motion. This gear has two pinions, and thus possesses an advantage over any other binder made. It has also a wider cut than the machine in competition, and is of so light a draft that it can be run easily all day with two horses. This binder has an entirely new reeling device. The Sprocket wheels and chains have been abandoned and the driving is now done with gearing. The binder part of the machine is reversed. The gearing is on the back part to balance the machine perfectly taking all weight off the horse's necks. The Appleby knotter is used, which the manufacturers have found to be the best made. The whole machine is remarkably durable, efficient and satisfactory, and in numerous severe competitions it has held its own with the best machines made on this continent. The agents here is the Walker Company. While the machine is constructed in Lindsay the Walker Company make all the repairs, and this is of great advantage to the farmers in this vicinity as they never have to wait till repairs can be shipped from distant towns. The Walker Co. have sold about thirty of their machines this season, and could have sold over twenty more if they had had them. At least that many orders have been given that could not be filled and those giving them prefer waiting till next year for them rather then take any other Machine. It is also greatly to the credit of this binder that of all the machines set up this year not one has required any repairs or further assistance from the agents to make it run properly, and not one complaint has been made by purchasers.

MORE ABOUT THE LOUISE

HER CAPTAIN DID WONDERS AND IS UNJUSTLY BLAMED.

Capt. Donnelly Finds Her Splendidly Beached—Capt. Johnston of the Hero Thinks Landsmen Should not Expose Their Ignorance.

The Kingston News, of Friday, says: Capt. T. Donnelly, of the Connelly Wrecking Company visited the sunken steamer Princess Louise yesterday and completed arrangements for the raising of the boat. He says Capt. Rothwell did remarkable work after the collision on Tuesday night, and beached the Princess on the choicest spot on the Prince Edward shore. She is now lying on her side beneath a cliff eighty feet high, having been worked into that position before the captain left the helm. Capt. Skillen, who was in charge of the tug Rescue, also says the captain of the Princess did good work after the accident. The tug let go her barges and went to render assistance, but Capt. Rothwell stated that he would get to the shore all right, and the passengers and crew would be landed safely. The Rescue was damaged to the extent of about $250. Capt. Skillen had only charge of the Rescue for the day. He is commander of the steamer Deseronto.

While Captain Donnelly was making preparations for the work on the Princess, Captain Duetta of the capsized schooner Kate, came along in skiff and informed the wrecker that himself and four men had been working at the schooner since the accident, had made little or no headway, and had finally decided to abandon the boat. When the Kate capsized Capt. Donnelly sent his driver to the scene recover the body of Sailor Salmon at an expense to himself of about $30. He then made an offer to Captain Duetta to raise the schooner, but it was not accepted, the owner stating that he was a poor man and unable to bear the expense. Captain Donnelly, under the circumstances, advised him the best way was to proceed with the work himself, but his efforts seemed to have proved fruitless. Yesterday Capt Duetta and the company came to an arrangement, and Captain Donnelly contracted to raise the Kate and place her in the Picton dry dock.

The Donnelly wrecking Company have sent wrecking appliances and men to raise the passenger steamer Golden Eye sunk on Rice Lake, Near Peterboro'.

Captain Donnelly expects to have the Princess Louise and Kate docked by Monday next.

Capt. Johnston, of the steamer Hero was seen by a representative of the News yesterday, and requested to give his opinion as to the collison near Picton. He said he was not on board of the ill-fated Princess Louise at the time, but Mr. Thompson, purser of the Hero, was, and he had learned from him all the facts of the case, which were that Capt. Rothwell, who was at the wheel at the time, thought he was following the Rescue, not meeting her, and intending to pass her, thought he had plenty of time and room to do so. This was the cause of the whole affair.

A HAPPY EVENT

Henry Farnham Fairman United in Marriage to Miss Gertie Anderson

Henry Farnham, son of the county roads and bridges inspector, was married to Miss Gertie Anderson, daughter of E. H. Anderson, of Thurlow, on Thursday evening last, by Rev. M. W. Maclean, M. A., pastor of St. Andrew's church, this city. Only a few friends were present to witness the interesting event. The happy couple come in for a good deal of hearty congratulation from all sides. The bride is well liked by a large circle of friends while the groom is one of the most popular young men in Thurlow.

BETHEL HALL.—Mr. Richard Irving is expected to preach in Bethel Hall to-morrow evening. Seats free. All cordially invited.

The excursion under the auspices of the Young People's Society, of Bridge St. Methodist church was a very enjoyable one to those present, but was not a success in point of numbers. The rain at night completely spoiled the moonlight.

C. A. Ostrom returned from Frankford yesterday where he spent a couple of weeks fishing on the Trent river. Yesterday he caught over fifty beautiful black bass, several of which he brought home and distributed among his friends.

Notice is hereby given that any person hereafter having in their possession a beadle bitch belonging to W. Deshane will be prosecuted. The dog is highly prized by its owner, who will spare no expense for its recovery.

On Tuesday next, August 9th, the Brotherhood of Locomotive Engineers and the Brotherhood of Locomotive Firemen will hold a grand union pic-nic and moonlight excursion. The picnic will be to Massassaga Park per steamer Rocket, boat to leave Rathbun's wharf at 9.30 a. m. and 1.30 p. m. At the Park there will be dancing and games, for particulars see small bills. The moonlight will be down the Bay, and there will be dancing on board. Oddfellow's orchestra both afternoon and evening. Tickets for day or evening 25 cents, children 10 cts.

Designation Service in St Androws Church

SHOT WHILE MAKING AN ARREST

The Courageous Action of Constable Spencer

Last week County Constable D. A. Spencer went out to Athol to arrest a young man named Geddes Dainard. Dainard has been giving trouble in the neighborhood of his home for some time. He was recently confined for several months in the county jail. Since his discharge he has made himself so obnoxious that it was found necessary to again place him in confinement. He had been threatening to shoot people. On Thursday Spencer was unable to find the man and he went out again on Friday. Accompanied by Earle Williams, he succeeded in coming in sight of Dainard in the neighborhood of the little bridge near W. V. Spencer's farm. Dainard was about a hundred yards distant and walked towards the approaching constable. He had a revolver in one hand and a knife in the other. Spencer had handcuffs in his pocket and was armed also, and held his cocked revolver in one hand behind his back. Dainard warned Spencer to go home and threatened to kill him, but the constable walk steadily on until within a few feet of Dainard when the latter fired off his revolver. The constable felt the sting of the bullet in his leg and quickly brought his revolver to bear on his desperate antagonist, and aiming to shoot the revolver out of the lunatic's hand, he fired. The ball was well aimed and entered between the thumb and fore-finger. Dainard's hand dropped but he kept hold of the revolver. Spencer now had the drop on the young man and told him that if he raised the revolver he would shoot him. The young man kept backing away and the constable followed him until Dainard backed right into the arms o Mr. Williams who wrapped his arms around Dainard. The latter tried to get his revolver round to shoot Williams but before he could manage it, Spencer seized him and took away the revolver and knife and snapped on the handcuffs. Spencer was found to have been struck in the thigh by the bullet from Dainard's revolver and the wound bled freely. The injured limb was bandaged and Spencer and Williams conveyed their prisoner to Picton and lodged him in the county jail. Then Spencer drove to Dr. Platt's office where he waited for some time for the doctor to arrive. The ball was extracted with some difficulty and the wound was dressed and the constable walked to his conveyance and was driven home.

DIED OF SMALLPOX.

A Popular Bellevillian Dies in Manitoba

A telegram to friends in this city last week conveyed the sad intelligence of the death of Mr. Stewart Sills, an old Madoc boy at Morden Manitoba, on the 26th July a victim of that fell disease, small-pox. The daily papers state that his was the only case in that place. The deceased was carrying on a drygoods business and the dispatch says his stock and building was ordered to be burned by order of the authorities, in order to prevent a possible spread of the disease. Stewart was married to a Miss Langman in this city some nine or ten years ago, who with her mother and relatives are thus sadly bereaved

ZELMA CHALLENGES YAMA.

According to expectation the owners of Zelma have very properly decided not to allow matters with Yama to remain in the present unsatisfactory state. They have sent a challenge to the latter to sail a match race some time during the present month. The conditions as to place and course have not been mentioned, but will be settled according to mutual convenience.

ZELMA IS AFTER THE FISHER CUP.

The Mail to-day says:—As the owner of Norah refused to acknowledge Zelma's sail over for the Fisher cup, and the Rochester sloop Onward failed to take it at the recent match, Mr. Dick has decided to cut the matter short by sending another challenge for Zelma, naming September 17th as the day for the race.

Crops in Ontario.

A Toronto despatch says: "Business men find great encouragement in the reports of the magnificent harvest now in progress all over the Province. Of reports from 28 counties, 11 indicated that the wheat crop was quite up to last year, ten were to the effect that the average yield would be better than that in 1891, and seven intimated that the crop was remarkably heavy, or the best ever obtained, while one report contained the pleasing intelligence that the yield so much exceeded expectations that the farmers' barns would not hold more than half of it. From these and other reports received by the wholesale trade here, it seems but reasonable to conclude that we shall have this year in Ontario the best crop of wheat in the history of the Province. The hay crop, which now appears to be pretty well harvested in most localities, was probably never heavier. The oat crop is a fair average in most sections, and heavier than last year in some important sections."

Wisconsin Boy Who is Only 19 Arrested For Bigamy.

BRANDON, Wis., Aug. 6.—Not often does it occur that a young man not yet of age commits bigamy, yet Edward Nest, only 19, has been arrested here on that charge. On July 21 he was married to Edith Abel of the town of Spring Vale, and on the following day he eloped with and married Miss Gertrude Cole of the same town. The runaways were overtaken at Grand Rapids and brought to this place. Nest's victims are both young daughters of farmers.

CRUSTS AND SCALES

Hair and Eyebrows Fell Off. Doctor and Many Remedies No Benefit. Entirely Cured and Hair Restored by Cuticura.

My wife has been troubled for years with dry crusts and scales on her head and eyebrows. After seeming to lie dormant for years in her system, it broke out over a year ago in all its fury. Her hair came out in big patches, her eyebrows all fell off, and she presented a pitiable condition. We tried almost everything, but she continued to get worse. Then we tried one of our best physicians, but all to no purpose. Finally my wife believed that the CUTICURA REMEDIES would cure her. After she had used nine boxes of CUTICURA, and about a dozen cakes of CUTICURA SOAP, and four bottles of CUTICURA RESOLVENT, she was cured entirely. Her hair came on again, and to-day she has as fine a head of black curly hair and as smooth skin as any lady in Allentown. Her eyebrows are heavier than they ever were, her scalp is free from dandruff, and her health is excellent. Now for the benefit of those suffering with same disease or to those who may doubt the truthfulness of this statement, write me, inclosing a stamp, and I will cheerfully answer. I am sure that the CUTICURA REMEDIES cured my wife, for she used nothing else during the four or five months she used them.

SILVER!

The largest shipment of silver plate we have yet received in Belleville will be here in a few days direct from the maker. New and beautiful designs and an immense stock, with the prices for goods made by the most prominent and reliable makers in the world at a less figure than you pay for a washed pewter body to small dealers. This is a simple reason why we do the silver plate trade, and it applies to the crockery, china and glass ware trade in just the same way as you all know so well by this time.

W. J. REID & CO'S

THE REASONS!

GOUGH CAN SELL CHEAPER THAN OTHER DEALERS

FIRST—Because we are the largest Clothiers in Canada, and SECOND, because we are not the supply account of any firm, and consequently are not compelled to handle only one manufacturer's goods, and at whatever prices they have a mind to ask. THIRD—Because we have ample means to buy wherever we like, and no matter how large the stock, whether it is $1,000 or $100,000 worth we are always prepared to pick it up if it is a snap, and FOURTH—Because we sell ten times more goods than any other firm, and consequently can sell on a smaller margin of profit.

Some of our high price friends cannot see anything funny about GOUGH selling so cheap, and call us "Fake" dealers, but when inaugurating this One Price and Low Price System we did so with a determination to

"Hew to the Line; let the Chips fall where they may!"

And if in fulfilling this mission we are breaking the back bone of our high-price oppositionists, we are sorry for them, for we mean them no harm, but claim the right to do our business in a

SQUARE, HONORABLE WAY,

GIVING DOLLAR FOR DOLLAR EVERY TIME.

Yes, we are called "fake" dealers and "low" dealers by our opponents. Well, we freely admit we are low dealers, wallowing in the lowest depths of bed rock prices, while our exalted brethren look down upon us from their high place and go wild because we are capturing their trade, and this is the sequel to their calling us "fake" dealers, etc., but it won't go down, for the name of GOUGH is provincial, and a household word in every family.

Don't forget our

IMPERIAL PARLIAMENT.

THE COMMONS ENGAGED IN SWEARING IN MEMBERS.

The House Will Embark in Debate On the Address To-Day—Rumors of An Estrangement Between Mr. Gladstone and Sir W. Vernon Harcourt.

LONDON, Aug. 8.—The Commons were Friday and Saturday engaged upon the ceremony of swearing in members. To-day the House will embark in debate on the address. Mr. Gladstone is anxious to make this as short as possible and to try the issue in the division lobby. Accordingly the whips on both sides have arranged for a division to be taken on Tuesday.

It is growing daily clearer that the time is not long enough. If the Liberals are content with the practical blessing of a majority, and do not care for speech-making, the Ministerialists take another view. They are determined to show the ungrateful country how ill-advised it was in getting rid of Lord Salisbury. Tuesday is still talked of in official circles as the day of division, but it is pretty certain that the Government will live over Thursday.

One personal incident arose in connection with the action of Mr. Keir Hardie, who poses as the labor representative, and is working to defeat Mr. John Morley when he offers himself for re-election at Newcastle Mr. Hardie came down to the House on Thursday in a waggonet, accompanied by some friends playing a brass band. The waggonet was adorned with a photograph of Mr. Hardie. Friday he approached the table to take the oath, wearing a sort of tweed traveling cap. The day has gone by when members of Parliament are required to wear top hats. Mr. Broadhurst hit on a happy medium. He used to come down to the House in a stiff billycock, as became a man who had been a working mason within the precincts of the House. It is not permitted to any man to cross the floor of the House of Commons with his head covered. The Speaker sternly called Mr. Hardie to order, and after a moment's hesitation he removed his cap. A little later he made peace with himself for this weakness by struggling at the table with Mr. Howard Vincent for a copy of the New Testament on which to swear.

A new feature in the ceremony was the sight of scores of members making affirmation instead of taking the oath. This, thanks to the Oaths Act passed four years ago by Mr. Bradlaugh, is now optional. Formerly the privilege of affirming was restricted to Quakers. Among those who affirmed was Naoroji, the Parsee, elected for Finsbury. He is the person whose political fortune Lord Salisbury made by alluding to him as a "black man." He does not turn out to be anything like so black as the Premier painted him, his color differing little from that of the average Englishman.

Estrangement Among the Leaders.

Rumors are current of an estrangement between Mr. Gladstone and Sir Vernon Harcourt and of resentment on the part of Mr. Gladstone toward Mr. Labouchere. The first is based on stories about Sir Vernon Harcourt attempting to oust his chief, landing him in the House of Lords, while he looked after affairs in the Commons. It is quite true that Sir Vernon Harcourt took up his residence in town promptly on the conclusion of the general election placing Liberals in power, and also that he had an interview at a private house with various members of the advanced wing of the party; but the story is merely one of the spiteful inventions constantly floated in disparagement of Sir Vernon Harcourt. He has been one of Mr. Gladstone's most powerful assistants during the long contest in Opposition and remains his loyal lieutenant. There is more foundation in the story about Mr. Labouchere. That astute politician has openly declared in favor of postponing Home Rule till certain planks in the British Radical program are nailed down. Mr. Gladstone is furious at the suggestion, it is said. But this again is evidently a mere rumor. The line taken by Mr. Labouchere has imperilled his chances of having office offered him.

Sir Charles Dilke has quietly taken his place in the Commons. He has selected a seat below the gangway, corresponding with that he occupied before he came into his baronetcy, and had made his mark in politics. He has Mr. Labouchere for an immediate companion, and he may be expected to play a prominent part in debate. His reception by old friends was exceedingly cordial. This demonstration was doubtless intended to mark the feeling of disgust created in the public mind by the constant howling of Mr. Stead at Sir Charles Dilke's heels. It was to that well-moaning but not very wise person that Sir Charles largely owed his overwhelming majority in the Forest of Dean.

Mr. Blake, who comes over from Canada to join the Irish parliamentary party, was very well received. The Eighty Club entertained him at dinner on Thursday night. He delivered a long speech, chiefly dealing with Home Rule. It was an able and enthusiastic essay, but the members had gathered to hear a speech, and were rather disappointed to find Mr. Blake reading by the hour from closely-written manuscript. Happily this is not permitted in the Commons, and Mr. Blake, thrown on his resources of extemporaneous oratory, may justify his Canadian reputation.

THE QUEEN'S SPEECH.

It Intimates That Parliament Has Not Met for the Transaction of Business.

LONDON, Aug. 8.—The Queen's speech as communicated to the chiefs of the Ministerial and Opposition parties is the briefest speech from the Throne ever yet read in Parliament. It formally intimates that Parliament has not met for the transaction of business.

It contains no reference to prospective legislation and is almost silent in regard to foreign affairs and Ireland. The Queen simply says that no immediate work can be expected of the members so soon after the labors of the last session and the fatigues of the general election.

HARDIE, THE LABOR MAN.

He Kept His Hat On and Wears the Garb Of a Workingman.

LONDON, Aug. 8.—The action of Kier Hardie, one of the newly elected labor members of parliament, in keeping his cap on while taking the oath, until ordered by the speaker to doff it, and in wearing the garb of a workingman while in the house, has disgusted the Liberals as well as the Conservatives. It has afforded a fruitful text for sneering Commons on the part of the Tories in regard to the make-up of a new majority. The St. James Gazette in commenting on it says: "Hardie has proven by his conduct since he issued from obscurity that he is a charlatan and an offensive sort of a person in every way. He is likely to do a good deal of harm to the cause he misrepresents. John Burns, meanwhile, goes about his business in a common sense and honest manner, and by this course he deserves the honor that has come to him in being raised to a higher sphere of usefulness.

COMMUNICATING WITH MARS.

The Flashing of a Beam of Sunlight From a Series of Mirrors.

LONDON, Aug. 8.—Francis Galton, F.R.S., F.G.S., chairman of the committee in charge of the Kew Observatory, has written a letter to The Times relative to a scheme for establishing communication between Mars and the earth. Mr. Galton declares that a beam of sunlight reflected through a hole one-tenth of an inch square in a plate in front of a mirror would be just as distinctly seen as a faint glint at a distance of ten miles. The amount of fog and haze which a beam of light would traverse between the earth and Mars, when the latter is high above the horizon, Mr. Galton says, could not exceed that along an earthly 10-mile base. Therefore, the same proportion between the size of the mirror and the distance holding true, it follows that the flash from many mirrors simultaneously, whose aggregate width was 15 yards and whose aggregate length, to allow for slope, was say 25 yards, would be visible on Mars if seen through a telescope like that at the Lick observatory in California; and the inhabitants, if they have eyes and fairly good telescopes, would speculate concerning the beam and would wish to answer.

SHOT DEAD IN A BALLROOM.

It Cost a Prince His Life to Dance With Another Man's Girl.

MOSCOW, Aug. 8.—At a grand ball arranged by the officers corps of the Czar's Body Hussars at the Casino, First Lieut. Ivan Rattovitch suddenly stepped into the middle of the ball room, drew a pistol from his dolman, took deliberate aim and shot Prince Nicholas Susslovitch, a brother officer. Prince Nicholas was waltzing with the lieutenant's fiancee.

The Prince, who received the bullet in the heart, fell dead instantly, dragging his partner with him to the ground. The assassin, amid wild excitement, stepped over the body of his comrade, raised his affianced's head by the air and then blew his own brains out.

All this happened in less than 30 seconds. So quickly was the shots fired that interference was impossible. The cries of the terrified women first gave the alarm to those in other parts of the hall.

Medical assistance was at once procured, but was of no avail in the case of Prince Susslovitch and Ivan Rattovitch.

The young lady was with difficulty dragged from the death grip of her murdered partner. She is lying at the point of death.

The murder has created great excitement in Russia's upper circles, where all parties concerned were well known.

Believed to Be the Work of Parnellites.

DUBLIN, Aug. 8. — Some miscreants placed an iron box filled with gunpowder outside the public room of a hotel in Rathkeal, County of Limerick, and, after igniting the fuse attached to the box made their escape. In a few seconds there was an explosion which smashed the windows of the room and wrecked the furniture. Several persons in the room were thrown to the floor and sustained slight injuries, but no one was seriously hurt. The outrage is believed to have been perpetrated by Parnellites as an act of revenge against the hotelkeeper, who is a vigorous supporter of the McCarthyite faction.

Will Not Oppose Gladstone.

LONDON, Aug. 8.—At a meeting of Unionists held in Midlothian Saturday it was decided not to oppose Mr. Gladstone when he comes before the people for re-election on accepting office.

The Sultan's Troops Repulsed.

LONDON, Aug. 8.—A despatch to The Times from Taugier says: Fifteen hundred of the Sultan's troops with two field pieces and 500 tribesmen advanced Saturday to the Anghera hills, where they were repulsed by the rebels. They then retreated to within three miles of Tangier. A detachment of cavalry which attempted to charge the rebels was also repulsed. The whole force retreated to camp in the evening, having lost 15 killed and wounded.

The Meteor Wins.

LONDON, Aug. 8.—The Meteor, Emperor William's yacht, won first prize in the Southampton Yacht Club races yesterday, beating her old rival the Iverna by six minutes. The Meteor took the lead at the start and maintained the position throughout the race.

Sir Richard's Narrow Escape—International Exhibition of Postage Stamps—An Oakland Butcher's Death—Fire at Petrolea.

HALIFAX, Aug. 8.—Frank Stewart Dickie, until very recently a reporter on the Toronto press, committed suicide Saturday. Dickie has of late been employed in the civil service at Ottawa, and accompanied the cricket team from the capital to the Halifax tournament.

Deceased was 27 years of age, and was a son of Senator Dickie of Amherst and brother of Arthur R. Dickie, M.P. for Cumberland.

SIR RICHARD'S NARROW ESCAPE.

His Skiff Upset by a Squall in the St. Lawrence—Rescued After Half an Hour's Exposure.

KINGSTON, Aug. 8.—On Saturday about noon Sir Richard Cartwright left the city in a skiff to row to his country house on the banks of the St. Lawrence, a few miles down. When rounding Point Frederick he was caught in a terrific squall, which was accompanied by hail and torrents of rain. His boat was capsized and Sir Richard thrown out.

The accident was witnessed by men of "A" Battery at the barracks, and Major Drury and Captain Gaudet hurried to the rescue. Sir Richard clung to the overturned boat tenaciously and was in the water nearly half an hour, the storm beating fiercely about him.

The Canada Western Road.

VICTORIA, B.C., Aug. 8.—Theodore Davie, Premier of British Columbia, entertained Frank Bakeman, Judge Blackman and Colonel Kane of Chicago at a dinner, given on account of the successful conclusion reached between Bakeman and his associates and by the Government for building the Canada Western Railway. This road will extend from Victoria to Seymour Narrows, on Vancouver Island, crossing to the mainland by a bridge or ferry. Surveys have been made for the Canadian Pacific by way of Bute Inlet to the eastern boundary of the province, at Yellow Head Pass, Rocky Mountains, there to connect with the line now being built through the Canadian Northwest. The Government has already subsidized the road with 20,000 acres a mile. It is also understood that the Government has agreed to aid in the construction by means of guaranteeing interest. Victoria will also aid the scheme.

Died in the Doctor's Office.

BARRIE, Aug. 8.—Samuel Corbett, living near Oro Station, came to town to attend the funeral of his little grandchild. He took dinner in the home of his daughter whose child had died, and after, on his complaining of a pain in the head, was taken by a son to the office of Dr. W. A. Ross, intending to join the procession on its way westward to the cemetery. But the funeral cortege had scarcely covered a quarter of a mile when a messenger from the physician threw the already saddened group into intense grief by the announcement that the aged grandfather had died in the doctor's office. The deceased was between 60 and 70 years of age.

Petition Against the Pontiac Member Filed.

OTTAWA, Aug. 8.—A petition against the return of Mr. John Bryson, M.P. for Pontiac, was filed with the registrar of the Supreme Court at Aylmer Saturday by Mr. F. X. Chouquet, Q.C., of Montreal. The petitioner is Mr. M. J. McLean, farmer, of Leitchfield, and the principal charges are based upon the promises made by Mr. Bryson and his agents with respect to the railway bonus. All the members of the Government are made parties to the petition.

Exhibition of Postage Stamps.

OTTAWA, Aug. 8.—The Postoffice Department has been informed that an international exhibition of postage stamps will be opened on Sept. 15, at Paris. EDITORIAL NOTES.

The Toronto Telegram says:—"Give the Grits the advantage of power and three months at the Ottawa archives, with investigators of their own choosing, and the Conservatives would go the way of Mercier." This hits the nail right on the head. There is no doubt at all that if all were known that might be known nothing could save the Tory government. They have tried strenuously for the past few years to hide evil deeds, but enough has been revealed, after desperate efforts on the part of the Liberals and after equally desperate efforts at concealment on the part of the ministry to have ruined a government in any other country but Canada. Were all to be revealed Mr. Mercier's evil deeds would be virtue and probity compared with what would be exposed at Ottawa.

It is claimed, on good authority, that in the coming campaign there will be 45,000 Canadian voters in New York State alone. In the New England States there will be two or three times that many Canadian voters, in Michigan about 20,000 and in the Western States over one hundred thousand. As each vote represents five or six of a population and as there are scores of thousands of Canadians on the other side who have not become naturalized and therefore cannot vote, the total number of Canadians in the States may be mated. And the process of expatriation still goes on with ever decreasing rapidity.

1000 Island Excursion

Rev. D. O. Crossley of the Tabernacle and Rev. F. B. Stratton of Trenton, announce a grand double trip excursion to the 1000 Islands to take place on Saturday, August 13th and 20th—two Saturdays in succession, returning on following Monday. Those wishing to do so may remain a week and return on second Monday. They have been fortunate in securing the best dates of the season at the park, and will no doubt have a large patronage each date. Tickets only $1.00 on steamer Hero. Boat leaves Belleville at 7 a.m.

Those who are in the habit of taking an appetizer before meals could not do better as well for the effect as for economy's sake, than make use of "Indigenous Bitters." As Indigenous Bitters are slightly laxative, those who suffer from habitual constipation, will derive great benefit, by regularly taking them, as they keep the bowels in good order and in that way aid digestion

At no time is man secure from attacks of such painful and dangerous disorders of the stomach as Cholera, Cholera Morbus, Cramps, Diarrhoea, and Dysentery; but these complaints are particularly common during the heated term, when it is doubly dangerous to neglect them. PERRY DAVIS' PAIN KILLER is a remedy that has never failed when tried, and the severest attacks have been cured by it. It leaves no evil effect, and invariably brings relief to the sufferer. Every reputable druggist in the country sells PERRY DAVIS' PAIN KILLER. Large size New bottle, price 25c.

We do not know of any preparation that has caught the public favor in so short a time as Dodd's Kidney Pills, but when we consider that three-fourths of the Canadian people are afflicted with kidney troubles in some form or other, and that Dodd's Pills are a quick and permanent cure for all these troubles, the large and increasing demand can scarcely be wondered at. Sold by all dealers or by mail on receipt of price, 50 cents per box. Dr. A. L. Smith & Co. Toronto.

There are more cases of sickness and death from diseased kidneys than from all other diseases combined. It is your own fault if you allow your kidneys to remain in an unhealthy condition when the cure is at hand. Dodd's kidney Pills are guaranteed to cure the worst case. It costs but little to give them a trial. They are for sale by all druggists and dealers or by mail on receipt of 50 cts. or 6 boxes for $2.50. Write for book called Kidney Talk.

Rafts of Sawlogs From Canada.

WASHINGTON, Aug. 8.—The United States commercial agent at Waubaushene, Ontario, recently raised the question whether rafts of sawlogs shipped from Canada across the lakes to the United States being exempt from duty are subject to the requirements of certified invoices. In response to the question Acting Secretary Nettleton has informed the Secretary of State that under the provisions of section 4 of the act of June 10, 1890, no merchandise exceeding $100 in value except personal baggage can be admitted to entry without a duly authenticated invoice or a bond for the production of such invoice.

Advertising a patent medicine in the peculiar way in which the proprieter of Kemp's Balsam for cough and colds does it is indeed wonderful. He authorized all druggists to give all those who call for it a sample bottle free, that they may try it before purchasing. The large bottles are 50c and $1 We certainly would advise it may save you from consumption

A Pleasant Herb Drink

The best cure we know of for constipation and headache is the pleasant herb drink called Lane's Family Medicine. It is said to be Oregon grape root, combined with simple herbs, and is made ready for use by pouring boiling water onto the dried roots and herbs. It is remarkably efficacious in all blood disorders and now the sovereign remedy with ladies for clearing up the complexion. Druggists sell the package at 50c and $1

For all forms of female weakness Dr. Williams' Pink Pills are an unfailing specific. Mr. Thomas Strachan, Postmaster, Roballion write:—My daughter has been ill for the last four years with female weakness, and had been attended by four of the best doctors in our section. She began the use of Dr Williams Pink Pills, and two boxes have done her vastly more good than all the medicines she took from those doctors.

What She Said

Mrs. R. Peck, 15th street, New York City, visited Canada last year, and had the good fortune to pick up something which not only suited her, but her neighbors also. Writing the manufacture of Nerviline she says:—"I bought three bottles of Nerviline while in Canada and treated my neighbors to some of it, and all think it the best medicine for internal or external pain they have ever used." Nerviline deserves such commendation, for it is a most powerful, penetrating, and certain remedy for pain of all kinds. Take no substitute.

In fact, great is the power of the medicine to cleanse and purify that diseases of almost every name and nature are driven from the body. Mr. D. Carswell, Carswell P. O., Ont. writes: "I have tried Parmelee's Pills and find them an excellent medicine, and one that will sell well.

A Cure For Constipation And Headache

Dr. Silas Lane while in the Rocky Mountains discovered a root that when combined with other herbs makes an easy and certain cure for constipation. It is in the form of dry roots and leaves, and is known as Lane's Family Medicine. It will cure sick headache in one night, For the blood, liver and kidneys, and for clearing up the complexion it does wonders. Druggists sell it at 50 cents a package

The highest praise has been won by Hood's Pills for their easy, yet efficent action.

As an after dinner pill, to strengthen the stomach, assist digestion, and correct any bilious tendencies, Ayer's pills are considered the best. Being sugar coated, they are as agreeable as any confection, and may be taken by the most delicate.

How Mr. W. D. Wentz of Geneva, N.Y., was cured of the severest form of dyspepsia? He says everything he ate seemed like pouring melted lead into his stomache. Hood's Sarsaparilla effected a perfect cure. Full particulars will be sent if you write C. Hood & Co., Lowell, Mass.

TRAIN ROBBERS' RICH HAUL.

Dynamite Splinters the Express Car and $20,000 is Secured.

FRESNO, Cal., Aug. 8.—The fifth train robbery in the San Joaquin Valley in three years occurred early Friday near the small station of Collis, 15 miles from here. There were two robbers, and their methods of procedure were precisely the same as in previous cases, except that they were not molested by and passenger.

After rapidly splintering the express car with dynamite they cleaned up about $20,000, jumped into a wagon and struck off across the plains.

Although detectives were on their trail in a few hours there are small prospects of capturing them.

They selected one of the loneliest spots on the line, and showed such knowledge of the country and that there is no doubt they belong near Fresno.

As the train was pulling out of Collis just after midnight the engineer and fireman were startled by the appearance of two men on the tender.

The strangers were armed with shotguns and quickly covered the trainmen, at the same time telling them to obey orders.

When the train passed Rolendo station the engineer was ordered to stop and the fireman was ordered to touch off with a lighted cigar the fuse of a dynamite cartridge which the robbers placed on the piston of the driving-wheel on the left side of the locomotive.

The fireman hesitated, but under the persuasion of a shotgun touched the fuse. The explosion was terrific, breaking the piston rod and disabling the engine.

The engineer was ordered to get off and walk up the track while they proceeded to bombard the door of the express car with dynamite cartridges. About eight cartridges were used and the door was torn to splinters. Big holes were knocked in the sides of the car and the floor was smashed into kindling-wood. Then the pair, masked and completely disguised, entered the express car, covering Louis Roberts, the messenger, with shotguns and ordered him to open the Wells Fargo safe.

Roberts set about doing this, but he was so excited and nervous that he forgot the combination. He so informed his captors, and one of them struck him a heavy blow on the head with a gun and threatened to kill him if he did not immediately open the safe.

This action strengthened the messenger's memory, and with trembling hands he opened the strong box and they took out all the sacks of coin.

When the desperadoes exploded the first cartridge on the engine the passengers poked their heads out of the windows to see what was up.

Their curiosity was amply satisfied when one of the robbers fired a pistol twice along the row of windows. There was a panic, and the passengers made a wild scramble under the seats.

The explosions of the bombs against the express car rocked and shook the train with the violence of an earthquake.

A window in front of the passenger coach immediately behind the express car was shattered to pieces. For 25 minutes the train was held, but only one passenger attempted to interfere with the robbers, and as he was armed only with a small revolver he soon retired.

The safe contained three bags of coin, each containing $5000. These the robbers compelled the engineer and firemen to carry to a wagon which they had hitched by the side of the track. When the coin was thrown under the seat the masked men jumped in and rode off.

THE PAGO-PAGO INCIDENT.

Great Britain Only Exercising Her Rights Under the Treaty.

WASHINGTON, Aug. 8.—Very little interest is displayed in official circles in regard to the report that Great Britain has arranged to establish a coaling station in the harbor of Pago-Pago, Samoa, for the simple reason that such a course of action is in strict accord with the terms of a treaty concluded between Great Britain and Samoa in 1879, and does not interfere with or impair the rights or interests of the United States in any respect. Section 8 of the British Treaty provides that Great Britain may establish a coaling station anywhere on the shores of a Samoa harbor, except at Apia, which is a neutral harbor, at Saluafala, which was previously ceded to Germany, or at that part of the harbor of Pago-Pago, which may be selected by the Government of the United States under its treaty.

A WOMAN THE CAUSE.

A Fugitive Murderer Kills one Deputy and Wounds Another.

PITTSBURG, Pa., Aug 8.—The capture of the fugitive murderer Martin Reed at Noblestown this evening for sensationalism rivals anything since J. Wilkes Booth died in ignominy for the assassination of President Lincoln.

The murderer Reed stayed in an icehouse until it was shattered with nitro-glycerine and set afire; placed a pistol to his forehead and took his own life, perishing miserably in the ruins. He broke jail, was tracked for eleven weeks over three counties and when brought to bay shot Deputy Cole of McDonald through the heart and seriously wounded Deputy Sheriff Orr of Washington in the shoulder with a shot from a Winchester rifle.

THE THREE FATES

BY

F MARION CRAWFORD is an excellent book, The plot is sufficiently interesting without being too intricate. A number of pretty situations and startling denouements are admirably sketched by the author.

The young writer who is the hero of the play, meets with his three fates, the first he loves, but she destroys her own happiness by refusing him, the second loves him, and her mother's intrigues to catch him are only made unsuccessful by the discovery of a deceit she has practised, and finally his third appears on the scene.

This is one of the finest novels placed before the reading public for some time, and its popularity will grow with the more thoughtful class of readers, and the wisdom of the writer, and the beauty of his characters will be appreciated years hence perhaps more than now. At

POSTMASTERS DIRECTED TO SEIZE CONTRABAND MUSIC.

A Fugitive Kills a Deputy and Seriously Wounds Another—Rafts of Saw Logs from Canada—The Pago-Pago Island Incident.

BUFFALO, Aug. 8.—About a year ago the Postoffice Department sent out notices to postmasters warning them to be on the lookout for contraband music, and directing them to seize it and forward it to Washington. Since then a considerable amount has been seized at the Buffalo postoffice.

A large number of Canadian firms make a habit of seizing upon new publications and reprinting them, and as they have no copyright to pay they are enabled to sell them very much cheaper than the rightful publisher can.

About 75 packages, each containing about half a dozen sheets of music printed by Canadian publishers, are now at the Buffalo postoffice, having been spotted and seized, and will be sent to Washington next week.

Some Facts Furnished by the Leader of the Revolutionists.

EL PASO, Texas, Aug. 8.—The Times contains an interview with General Luis Sandoval, in which the revolutionary leader scouts the idea of Texas deputy Marshals arresting Garza. The most important feature of the interview is a discussion of the financial condition of Mexico. He says the actual condition of the country is one of financial embarrassment.

General Diaz's lack of knowledge of governing the country has led to this crisis. He mortgaged the future of Mexico for $30,000,000 to build railroads and these roads by exorbitant rates have killed the prosperity of the country. The national treasury has no money to pay the interest on the railroad bonds for the coming year, and to cover this it is proposed to float a loan of $20,000,000. Destitution is universal.

The demoralization in the official atmosphere is such that last week Senor Romero, recently nominated Minister of the Treasury, declared officially that $4,000,000 per annum might have been economized during the seven years Gen. Diaz has been in power.

If the $20,000,000 loan can not be floated nothing is left but to take the money by force from the National banks to pay the outstanding foreign debts. The State of Zacatecas has already reached this stage, and is forcing a loan from the people.

UNCLE SAM'S PICTURE GALLERY.

Comprises the "Photos" of Nearly All the Chinese in the Country.

NEW YORK, Aug. 8.—It is hardly to be supposed that the United States Government has entered into collusion with the photographers of the big cities where our Chinese friend and brother doth mostly congregate to boom the picture taking industry, but the act of Congress recently enacted relating to the Chinese will have that effect.

Under its provisions every Mongolian, heathen or otherwise who wishes to remain in this country must have at least three cabinet photographs taken of himself and then make a present of them to the Government for purposes of identification.

General Kerwin, Collector of Inland Revenue, has been given the job of collecting the presentments of the Chinamen in this district, and he is already at work getting his big photograph album fixed up. The Chinamen will have to go to the collector's office in person and register at the same time they present their pictures.

The pictures have to be good ones, the collector says, and Coney Island bathing suit misfits won't go. Neither will the pictures of late lamented Chinamen go.

It should be understood that members of the Chinese elite or creme de la creme who may come to or be in this country are not affected by the new act. The regulations apply only to "lat-wero," to those who work regularly "for hire."

TOADSTOOLS KILLED HER.

May Stillwell Ate Them for Mushrooms While Out Huckleberrying.

KENT, O., Aug. 8.—May, the 15-year-old daughter of Byron Stillwell, made a mistake Saturday which cost her her life. The girl's parents live near Brimfield, in the lower part of the county. She went out to gather huckleberries and saw something she mistook for mushrooms. They turned out to be toadstools.

In about an hour after eating them she was taken sick and hurried home. A physician was sent for, but she was dead before he arrived.

Forged Deeds to $1,000,000 Worth of Property.

CHICAGO, Aug. 8.—A local paper says: "Title deeds have been forged covering half a section of land valued at from $750,000 to $1,000,000 in this city belonging to Mrs. Pettie R. Green. The property is situated between 59th and 63rd-streets, west of Western-avenue. The forged deeds are still in the hands of the forgers, as far as known. An attempt to borrow money on them led to an expose of the swindle.

Every Available Means of Transport Overtaxed.

DENVER, Cal., Aug. 8.—It is estimated that by Tuesday next 200,000 strangers will have arrived in Denver to attend the grand conclave of the Knights Templars or to witness the evolutions of the Knights. The crowds are so great that the railroads have been forced to put windows into baggage and box cars, turning them into passenger coaches. In lieu of seats settees are put in, taken from depots. Even work train cars have been cleaned up and used.

Wheat Shippers Object.

DULUTH, Minn., Aug. 8.—There is opposition here among the heaviest wheat shippers and vessel brokers to the imposition of tolls on Canadian boats in passing through the Soo Canal, in order to force the Dominion to discontinue discrimination against American ships passing through the Welland Canal. It will knock vesselmen, so they claim, out of a large amount of business and will cripple heavy wheat exporters by removing Canadian competition for carrying business. It is probable the President will be memoralized either to defer action or at least give interested parties due notice before imposing tolls as provided in the bill lately passed in Congress.

SHILOH'S CONSUMPTION CURE.

This GREAT COUGH CURE, this successful CONSUMPTION CURE, is without a parallel in the history of medicine. All druggists are authorized to sell it on a positive guarantee, a test that no other cure can successfully stand. If you have a Cough, Sore Throat, or Bronchitis, use it, for it will cure you. If your child has the Croup, or Whooping Cough, use it promptly, and relief is sure. If you dread that insidious disease CONSUMPTION, *don't fail* to use it, it will cure you or cost nothing. Ask your Druggist for SHILOH'S CURE, Price 10 cts., 50 cts. and $1.00.

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

All through the Provinces the rapid increase of La Grippe, is causing great alarm. A report was received here to-day, of a new development of the disease, which is worse, perhaps than any other. Wm. Hanley of N. Y. City, died in terrible agony after sickness of only four days. His tongue swelled to such an extent as to make it impossible for him to close his jaws or swallow any food. The report is causing the people in this district to inquire into the noted Grip-cure, recently referred to in so many papers. In Cape Breton the disease has spread very rapidly and with fatal results, D. J. McKillop of L'Archeveque writes Feb. 11th that this cure has been tried in his neighborhood and with such success that all those residing there are obtaining a supply believing it to be the only remedy affording relief and effecting a certain cure. He finished his letter by asking for a large quantity of the Medicine (Dr. Morse's Indian Root Pills) to supply the demands of the community for the relief of LaGrippe.

For You or O

GENTLEMAN,—One of my little girls (aged 4 years) had been troubled with costiveness in its worst form since infancy. We tried different remedies which gave relief while using, but as soon as discontinued she would be worse than before using. She lost her appetite and was growing weak and delicate. A friend of mine who had used B B B with grand results for the same disease advised me to try it, and also the Burdock Pills, which we did. She did not take the contents of one bottle before it relieved her, and not only relieved her but permanently cured her, for she has not been troubled since since, and she is now eight years old

Diseases of The Liver

Parmelee's Pills possess the power of acting specifically upon the deceased organs, stimulating to action the dormant energies of the system, thereby removing disease. In fact, so great is the power of this medicine to cleanse and purify that disease of almost every name and nature are driven from the body. Mr. D. Carswell, Carswell, P. O., writes I have tried Parmelee's Pills and find them an excellent medicine.

The "Myrtle Navy" brand of smoking tobacco has stood the test for over twenty years, and during that time it has lost no friends and gained scores of thousands This lengthened experience shows that is no mere passing fashion which has gained it the approval of the public, but its superiority in the essential qualities which make a first-class tobacco.

Advice to Mothers

Mrs. Winslow's Soothing Syrup has been used by millions of mothers for children teething for over fifty years, with perfect success. It relieves the little sufferer at once, produces natural, quiet sleep, and freeing the child from pain, and the young cherub wakes as bright as a button. It is pleasant to taste, sooths the child softens the gums, allays pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhoea, whether arising from teething or other causes 25 cents a bottle.

A Question

How can we raise more corn to the acher? Why, of course by using Putman's Corn Extractor. Putnam's Painless Corn Extractor has given universal satisfaction, for it is safe, sure and painless. Like every article of real merit it has a host of imitators, and we would specially warn the public to guard against these dangerous substitutes offered for the genuine, Putman's Extractor. N. A Friend

Wishes to speak through the *Register* of the beneficial results he has received from a regular use of **Ayer's Pills.** He says: "I was feeling sick and tired and my stomach seemed all out of order. I tried a number of remedies, but none seemed to give me relief until I was induced to try the old reliable Ayer's Pills. I have taken only one box, but I feel like a new man. I think they are the most pleasant and easy to take of anything I ever used, being so finely sugar-coated that even a child will take them. I urge upon all who are

In Need

of a laxative to try Ayer's Pills."—Boothbay (Me.) *Register.*

"Between the ages of five and fifteen, I was troubled with a kind of salt-rheum, or eruption, chiefly confined to the legs, and especially to the bend of the knee above the calf. Here, running sores formed which would scab over, but would break immediately on moving the leg. My mother tried everything she could think of, but all was without avail. Although a child, I read in the papers about the beneficial effects of Ayer's Pills, and persuaded my mother to let me try them. With no great faith in the result, she procured

Ayer's Pills

and I began to use them, and soon noticed an improvement. Encouraged by this, I kept on till I took two boxes, when the sores disappeared and have never troubled me since."—H. Chipman, Real Estate Agent, Roanoke, Va.

"I suffered for years from stomach and kidney troubles, causing very severe pains in various parts of the body. None of the remedies I tried afforded me any relief until I began taking Ayer's Pills, and was cured."—Wm. Goddard, Notary Public, Five Lakes, Mich.

SPORTING WORLD

The Fisher Cup.

Mr Davis, of Rochester, N. Y., part owner of the yacht Onward, was introduced to a reporter of the ONTARIO at the Queen's Hotel this morning. The Onward has been supplied with a new top mast and sailed for Rochester shortly before noon in splendid trim. When asked if she would make another effort to get the Fisher cup from the Norah Mr. Davis said the secretary of the Rochester Yacht Club had already put in a challenge to John Bell, Q C., to which they had not yet received an answer. The date had not been settled upon.

"You seem to stand a very good show for the cup, judging from your position in the last race when your top mast was carried away," said the reporter.

"Well, I don't know," replied Mr. Davis, "we do not claim to have a particularly fast yacht, although we would like to have the honor of carrying the cup back into American waters."

The Whig of Saturday says:—"The sailing yacht Norah arrived here on Thursday from Belleville. She will receive new sails and rigging from Oldrive & Horn and be generally improved. Her owner, Mr. Bell, expects a challenge from the Rochester yacht club for a race for the Fisher cup which he holds. He intends to have his yacht in good shape for the race."

In view of the fact that the well-known sailer Atlanta is becoming impatient for a trial for the cup, and the Choctaw, Zelma and Cinderella are waiting in the back ground for a go at the cup some interesting sailing may be expected within the next few months. Mr. Bell, however, does not intend to relinquish his hold on the cup, which has been an object of international strife for years, without a hard fight and it is learned from the best authority that he will spare neither time nor money to keep the cup in Belleville. Yachting men in the city of the bay will be glad to learn this as there is no man better able to defend the cup than Mr. Bell.

Frank Wills sailed to Deseronto yesterday in his skiff in two hours and a half. He left Belleville at 11 a. m. and stopped at the park for half an hour and reached Deseronto at 2 p. m. He made the return trip in 4½ hours.

James Ketcheson, the well-known proprietor of the Windsor Hotel and manager of the Belleville driving park, stated to a reporter to-day that a meeting in all likelihood would be held here on August 30 and 31st when an effort will be made to attract a large number of horses to Belleville.

Last evening their arrived at Belleville three Toronto yachts, and stayed here for the night. One of these was a steam yacht, the "Abeonia," owned by A. E. Gooderham, of Toronto. This is a very fine boat and fitted up handsomely. It had on board besides the crew only Mr. Gooderham and his family. The other two yachts were the Oriole, owned by G. Gooderham, and the Aileen, owned by R. Myles, both of Toronto. In addition to Mr. Myles family the Aileen had on board Messrs. McGee and Boddy, of Toronto, and the Oriole carried, besides Mr. Gooderham's family, John Taylor, of Montreal, Mr. and Mrs W Beatty, and Mr McMurray, of Toronto. All these yachts left this morning on their way to Alexandria Bay.

It looks odd to see the old country papers referring to Hon Dominick Edward Blake. That is the full title of "our Edward," though most Canadians are not aware of the fact.

Kingston News:—Miss Thora Tracy has gone for a few weeks visit to friends in Belleville, Her sister Miss Tracy has returned from Belleville from two weeks' visit with her uncle, Dr. Tracy of that city.

The pulpit of Bridge Street Methodist church was occupied last evening by Rev. H E F Ostrom, pastor of Trinity Methodist church, of Nailwauke. Mr Ostrom is a son of the late Henry Ostrom, of Huntingdon. His youth was spent in Belleville and he received his education here. In 1882 he was called to the ministry and four years ago went to the States and was called to the pastorate of the church above mentioned. In his sermon last night he gave evidence of rare eloquence and ability.

Dr. Rockwell, mayor of Cleveland, is in the city. He is a large dealer in real estate and mining stock, and just returned from a trip to Mexico. He was formerly located in Frankford, and is a native of Fredericksburg. A few years ago Dr. Rockwell, while a brilliant man in his profession, was only an obscure village physician. The extended field afforded across the border has done much toward elevating Canadians to the front rank of the brilliant men of the world And yet the Editor of the Intelligencer will continue to publish lengthy extracts from letters written by one Frank Saulter, who recently located in Iowa, and who publicly derides the country, while privately writing to friends that he is greatly pleased with the States and advises his friends to seek a home across the border.

A Place for Poet Campbell.

An Ottawa correspondent says: The friends of the Poet of the Lakes, whose endeavors last session to have him transfered from his place as extra clerk in the Department af Railways and Canals to a permanent position on the staff of the library of Parliament, were not successful, have reason to thank Mr. J. C. Patterson, Secretary of State, who has given Mr. Campbell a position in the records branch of his Department. The difficulties in the way of Mr. Campbell's appointment to the library staff were explained in the senate last session by Sir. John Abbott during the discussion which came when that proposal was made by the joint committee of both Houses on the library of Parliament. Mr. Campbell will enter upon his new duties to-morrow. He has had heretofore a dollar and half per day as his wages. In the department of the Secretary of State he will begin with a salary of $900 per year.

"Oh, if I had only taken this medicine earlier in my life, what years of sufferin it would have saved me!" was the exclamation of one who had been cured o rheumatism by the use of Ayers Sarsaparilla. Scores of such cases are on record.

A TERRIFIC GALE.

THE ELLA ROSS AT THE MERCY OF THE WINDS,

But She Comes Safely Through—An Exciting Experience to all on Board—Some Ludicious Rescues.

The passengers on board the steamer Ella Ross on Saturday afternoon had an experience they will never forget. It was the occasion of the regular Saturday afternoon excursion, the Ella Ross taking the place of the Rocket for the day. There were about three hundred excursionists on board and all went merry as a marriage bell until after Northport had been passed. It was noticed at that place that the clouds were lowering and a storm seemed to be brewing, but no one imagined what was in store for them. About half a mile out from Northport the gale struck the boat, There was little warning of its approach. First a few drops of rain fell, and then suddenly, relentlessly, almost irresistibly the storm swooped down upon the vessel, tossing it about like a stick of wood. As the rain began to fall the ladies and children crowded into the cabin and so did not at first realize the full violence of the hurricane. But those on deck experienced its awful fury as it whistled and roared and howled about the boat, and the rain descended like great sheets of water. The pilot exerted his utmost endeavors to head the boat to the wind, but without avail. She lay with her broadside exposed to the full power of the blast and was blown over till the lower deck was almost submerged in the water. Suddenly a panic seized those on board. It was started by an elderly and intelligent citizen who should have known better, but he suddenly seemed to become overwhelmed with a paroxysm of fear He seized a lot of life-preservers and having put one on himself he distributed the others among the passengers telling them the boat would go down and urging everybody to put them on. The panic spread and women and children ran shrieking around the boat thus increasing the danger and adding to the intense excitement that prevailed. Scores of people put on the life preservers, while some of the women were so frightened that they fainted away. All over the boat men and women could be seen on their knees praying to heaven to save them, and some who had seldom ever prayed before did pray most feverently on this occasion. The gentleman who first started the panic was also the first, it it is said, to take to his knees and send forth his petition for protection.

But there there was really little or no danger all the time. The boat, under the force of the wind, careened over to an extent somewhat alarming to landsmen, but there was no danger of it capsizing. The crew behaved well. They went among the passengers telling them there was no danger, exhorting them to be calm and taking the life preservers from those who would give them up. The storm did not last long and soon the boat was on its way to Deseronto none the worse for its rough experience but with a lot of badly demoralized passengers on board.

Laughable incidents were to be seen in abundance during the panic. One of the most noticeable of these was the appearance of an old lady who sat on the deck with a life preserver fastened around her feet.

O this poor human nature! As soon as the storm was over some of those who were so frightened they could scarcely speak and were acting like madmen, began to laugh at the storm, to say they knew there was no danger and that they were not at all frightened.

Some men prayed on this occasion that had seldom ever prayed before—and it is to be feared that, the danger over, it will be a long time before they will pray again.

Sid Vandervoort, was at the park when the storm came down and he said he could see the Ella Ross. He says it seemed as if two winds from opposite directions came together and struck the vessel with all their combined force.

The strength of the wind can be imagined when it is stated that those on the deck were blown with irresistible force against the railing of the boat. It was impossible for anyone to stand on the deck without holding on to something.

Some of the passengers lost their hats and overcoats. When the wind got hold of anything it had to go.

A curious feature about the storm was that it was not felt at all either in Belleville or Deseronto. It wrought destruction however, where it struck. Hail fell in torrents and it is said whole fields of grain were completely thrashed out.

A large number of the passengers got off at Deseronto and came home on the train. They said they bad had enough of the water for that day.

One of the passengers had taken possession of as many life preservers as he could carry and knelt down to pray with them all in his arms. When he was asked to give some of them up he entreated those making the request to go away and leave him alone.

DROWNED AT NAPANEE

Napanee. Aug. 6.—A young man named James Keys was drowned this afternoon in the river off one of the mud barges of the dredge Nipissing. The accident was caused by the shaft slipping out, and he fell overboard in front of the scow while it was running. He never came to the surface, and the body has not yet been found.

Quality of Belleville Gas

In Friday's issue of the ONTARIO appeared a statement regarding the quality of Belleville gas as taken from the last report of the Inland Revenue department, which was received a few days ago, in which it was stated that sulphuretted hydrogen had been detected three times. Mr. Hall, the genial and enterprising manager of the gas works calls our attention to the fact that the figures we gave were for the period previous to the time when the present lessee took possession. Mr. Pearson took possession in May 1891. The ONTARIO has had a chance to inspect the gas inspector's report for the twelve months ending the first of May last and was pleased to see that sulphuretted hydrogen was entirely absent during that period, and undoubtedly will be in future. The candle power is also higher now, having been 21.46 the first six months and 21.44 the second six months. But few towns or cities in Ontario have as good a quality of gas as has Belleville now.

In Our Favor

Judged by the standard of other stores prices, we (Oak Hall) haven't much difficulty in bringing the people to give a verdict in our favor. A reader of advertisements would expect from the way in which some stores talk about their size and purchasing facilities that they were unconquerable. If you wished us to give ocular demonstrations of how far they are off, we could do so in short order. It makes all the difference in the world to you consumers, who buys for the store you trade at. We take no second place for keen buying, and every day the conviction is being forced home on the people of this city and county that for clothing bargains the great Oak Hall is bound to be on top.

COMMERCIAL COLUMN

The Apple Crop in Canada—Condition of the Cheese Market.

The Globe's summary of the State of Trade speaks as follows of the apple crop:—

There will probably be a good yield of peaches in the Niagara district, but not many anywhere else in this Province. Cherries are scarce, and plums will be a short crop. It is rather early to give any accurate information of the apple crop, but so far the prospects can be said to be fair. The export trade in apples has grown to considerable dimensions in the past few years, and it is one of much importance to the grower on this side, particularly if he is fortunate enough to secure the services of some reliable firm in England to handle his fruit. There was a good deal of money made out of Canadian apples last year, but while the best price paid in the old country markets for Canada apples was higher than in the previous year, the average price obtained was high. This was on account of the large export trade of last year. In 1891-2 the number of barrels of apples exported from Canada to England exceeded by over three times the number exported in 1890-1.

The total number of barrels of Canada apples imported into Great Britain during the past five years and the total apples imported during the same periods from Canada and the United States were as follows:—

	From Canada	Total into Gt. Britain
1887-88..........	375,000	629,000
1888 89.....	841,125	1,435,222
1889-90.........	424,111	650,000
1890-91....... ..	263,058	451,000
1891-92	977,861	1,450,000

It will be seen from these figures that over 67 per cent. of the apples from America consumed in Great Britain last year were obtained from Canada, and it will be noted that our apples sold 7s a barrel higher than those from the United States. The highest price paid for apples in England last year—33s—was in April.

The old country cheese markets are pulling up again and Canadian cheese is making more money abroad. The cable has been steadily advancing, and the factories realizing the fact that the situation is daily getting stronger, are very firm. The London Grocer, July 23rd. reports:—"American has been steady, with a fair business passing at 43s to 45s for both colored and white, and for Canadian at 45s to 47s. The late large arrivals are going into consumption, and the prospects are for a healthy trade at the moderate prices. Fully 100,000 boxes have arrived in London during the past week, which tends to check free purchases, and buyers do not care to hold stocks of any great amount." At the Cheshire, Eng., monthly cheese fair, says the same journal, "there was a pitch of about sixty tons, which was a little below the pitch at the corresponding fair of last year. A much heavier pitch had been expected, owing to the very unfavorable weather prevailing for harvesting work. Prices were:—Common, 40s to 48s; medium, 49s to 54s; good Cheshire, 55s to 60s, one lot only reaching 62s. Although the above prices are not very encouraging to makers, they compare favorably with last year's."

The total exports of cheese from Canada last week amounted to 83,798, against 66,097 for the same week last year. The total exports this year to date amount to 645,941 against 523,500 for the same time last year.

Next Month's Great Presbyterian Gatherings

The Presbyterians throughout Canada and more particularly of Toronto, are actively engaged in completing preparations for the Pan Presbyterian council, which will hold its session in Toronto, beginning on September next. It is expected that there will be in attendance at least 1,000 delegates representing the church throughout the world. Rev. Dr. Caven, moderator of The General Assembly of Canada, will preside. Many questions of vital interest to Presbyterians will be discussed, such as prohibition, the labor question, the ministry, and, in all probability the council will consider seriously the advisability of adopting a consensual creed, or one which may be agreed upon by all the churches. This has proved a burning question in the United States, where for some time the northern church has been of the opinion that the adoption of a less rigid creed then the Westminister confession would be in the interest of religion. It is probable, however, that Calvinism will remain intact, notwithstanding that certain words may be eliminated which to the unlearned prove confusing.

CLIMATE AND FOOD.

The Two Things Which Make Nations Just What They Are.

In the structure of his teeth and the organs of digestion, man more closely resembles his nearer relatives of the ape and monkey tribe, who are vegetarians, than he does his more distant relations, the carnivora. Yet there are differences of structure which clearly separate him from the former as well as the latter class, and which justify us in ranking him as omniverous, and adaptable in his dietetic habits to varying conditions of climatic and social environment. If any argument is needed for further scientific rebuttal of the extreme vegetarian view it may be found in the universal experience of the race. The further back we go in human history, the nearer we approach, apparently, not a condition of pure vegetarianism, but on the contrary a more general and universal use of animal food.

Men were hunters and fishermen before they adopted a pastoral or agricultural life, living almost exclusively upon the products of the chase and the resources of the sea. In the ancient "kitchen middens" of Europe and America, mingled with the shells and bones of fish, we find animal and sometimes even human bones, on which the marks of human teeth clearly reveal the uses to which they were put. And if we assume before this stage of human evolution a social or unsocial state, when men lived exclusively on the products of the soil, an assumption which has no warrant in the accessible testimony of archeology or history, we must imagine the condition of man then to have been similar to that of the Digger Indian, or certain of the hill tribes of Hindostan, who rank among the lowest extant specimens of the human race.

Looking at this question from the climatic standpoint, we find in the tropical regions a predominance, but not an exclusive prevalence of the vegetarian habit, while in the Arctic regions the native races resort almost entirely to the use of animal food. In neither of these regions do we find the human race in its highest perfection. Civilization received its primary impulse and has achieved its most notable success in the temperate zone, and among races which are neither exclusively vegetarian nor exclusively carnivorous in their habits.

The modern American and European, as is well known, is a descendant of one or more branches of the ancient Aryan or Indo-European stock. It so happens that one branch of this stock which early separated from its European cousins and travelled southward to people the mountains and plains of India, through streets of climatic and religious influences because as nearly exclusively vegetarian in its habits as any large section of the human race has ever been, and has remained so for centuries. Here, then, is an opportunity for comparison.

The effect of the vegetarian habit, superadded to climatic conditions, has been to develop a race notable indeed for some of its intellectual traits, but inferior in size, lacking in physical stamina and energy of character, whose millions of people easily fell a prey, first to the Mohammedan and afterwards to the English, whose commercial enterprise for centuries has proved inferior to that of the small competing race of the Parsees—their nearer blood relations—and which has shown itself lacking in those essential traits which characterize our modern, progressive civilization. The great and successful men of all ages have been those who have not departed too widely from the mixed diet which has long constituted the habit of the races which have peopled the temperate regions of the earth. —Dr. Janes in Food.

Canada After Another Century.

Before I close I wish to drop a thought into the future, as men drop pebbles into deep wells to see what echo they return. I wish to try to conceive the destiny of this country towards the close of the twentieth century, whose threshold we have almost reached. As I have stood on the boundless prairies of the West I seemed, with Whittier:

To hear the tread of pioneers
Of nations yet to be,
The first low wash of waves, where yet
Shall roll a human sea.

I behold in my mind's eye a score of provinces, each large enough for an old world empire, stretching from sea to sea. I doubt not that the child is yet living who shall lay his hand on the child's head who shall see 100,000,000 of people living on the broad and fertile area of our great Northwest—a great, free and happy people, dwelling in peace and prosperity from the folds of that red cross banner which is the symbol of liberty for the oppressed in every clime. Not merely one Pacific Railway, but half a dozen shall stretch across the continent, uniting the Occident and the Orient, along which shall throb the pulses of commerce. Great cities renowned as marts of trade throughout the world shall stand thick along these highways of the nations. The church and school house, those pioneers of civilization, shall crown every hill. If that future is to be ours, out of the past and present it must grow. If that goodly structure is to be realized we must lay broad and deep and sure and stable its foundation in those principles of integrity and righteousness which are the sure defence of nations. These shall be the pledge of the permanence of our institutions, these shall be the corner-stone of our national greatness. We owe much to the God-fearing men who a century ago laid the foundations of this commonwealth. We must build thereon in the same spirit of reverence for God's laws by which they were characterized. It is our proud boast that nowhere on earth is the Sabbath Day so honored as in this land; nowhere is the sanctity of the family so maintained. There have not been, I believe, 100 divorces in 100 years in this broad Dominion. Nowhere is there a public press of purer character or of higher moral tone. Without undue self-laudation we may say of our country, "Happy is the people whose God is the Lord; yea, happy is the people that is in such a case."—Rev. Dr. Withrow in his address in 'The Pilgrim Fathers of Upper Canada."

THE REASONS!
GOUGH CAN SELL CHEAPER THAN OTHER DEALERS
FIRST—Because we are the largest Clothiers in Canada, and SECOND, because we are not the supply account of any firm, and consequently are not compelled to handle only one manufacturer's goods, and at whatever prices they have a mind to ask. THIRD—Because we have ample means to buy wherever we like, and no matter how large the stock, whether it is $1,000 or $100,000 worth we are always prepared to pick it up if it is a snap, and FOURTH—Because we sell ten times more goods than any other firm, and consequently can sell on a smaller margin of profit.
Some of our high price friends cannot see anything funny about GOUGH selling so cheap, and call us "Fake" dealers, but when inaugurating this One Price and Low Price System we did so with a determination to
"Hew to the Line; let the Chips fall where they may!"
And if in fulfilling this mission we are breaking the back bone of our high price oppositionists, we are sorry for them, for we mean them no harm, but claim the right to do our business in a
SQUARE, HONORABLE WAY,
GIVING DOLLAR FOR DOLLAR EVERY TIME.
Yes, we are called "fake" dealers and "low" dealers by our opponents. Well, we freely admit we are low dealers, wallowing in the lowest depths of bed rock prices, while our exalted brethren look down upon us from their high place and go wild because we are capturing their trade, and this is the sequel to their calling us "fake" dealers, etc., but it won't go down, for the name of GOUGH is provincial, and a household word in every family.
Don't forget our

THE COBDEN CLUB ON LORD SALISBURY'S HASTINGS SPEECH.

The Hearing in the Case of Thomas Neill Resumed Yesterday—A Bishop Murdered on a Train—Abandoned Their Patients—Forty-five Lives Lost.

LONDON, Aug. 9.—The annual report of the Cobden Club, which was submitted at a meeting held on Saturday, was devoted principally to Lord Salisbury's Hastings speech. It is impossible, the report said, not to lament the effect of Lord Salisbury's language on those central European countries having high protective tariffs, countries which were hanging out signals of distress at the very moment Lord Salisbury hoisted the protection flag. But this is not all. The speech will have a baneful effect upon free trade in the United States. Referring to the proposals of the United Empire Trade League and the proposals of the Canadian Legislature the report declared they were not worthy of this country. It considered the whole trade of Canada as a trifle compared with the trade of Great Britain and the United States, which would be endangered by the proposal of Sir Charles Tupper.

With regard to the tariff question in the United States the report observed that many competent critics doubted whether the competition of the United States in the neutral markets of the world under a regime of free trade would not injure the manufactures of the United Kingdom more than free intercourse between the United States and Great Britain would benefit them.

THE NEILL TRIAL.

The Hearing in the Case of Thomas Neill Resumed Yesterday.

LONDON, Aug. 9.—The hearing in the case of Thomas Neill, who is under indictment for the wilful murder of Matilda Clover by administering strychnine, was resumed in the Bow-street Police Court yesterday. Sir John Bridge, the presiding magistrate, decided to admit evidence regarding the deaths of the Marsh, Shrivel and Donworth girls, all three of whom were killed in a manner similar to that by which the Clover girl met her death. When this decision was announced the prosecution called to the stand Dr. Stevenson, Government analyst, who examined the stomachs of the Marsh, Shrivel and Clover girls. He testified he had found stychnine in the organs he had examined, and this poison was the undoubted cause of death.

Constance Longford, a friend of Ellen Donworth, testified she saw a man with a strange look in his eyes with Ellen Donworth on the night of Oct. 7. She saw Neill at Bow-street, but failed to identify him as this man. Neill removed his glasses and witness was asked if she now recognized him. She stated positively that he was not the man.

The court then adjourned until today.

Withdrew On the First Summons.

ST. PETERSBURG, Aug. 9.—Advices received here yesterday from Tashkend, a town of Asiatic Russia in Syra-Darya, are to the effect that the Chinese troops, who recently occupied various posts in the Pamirs, withdrew on the first summons from the Russian expedition commanded by Col. Yanoff, consisting of a force of 500 men armed with mountain guns.

A Bishop Murdered on a Train.

ROME, Aug. 9.—On the arrival of the train from Florence at Foligno yesterday the Bishop of Foligno was found lying dead in one of the carriages, with several wounds on his head. The police have arrested the suspected murderer.

Abandoned Their Patients.

VIENNA, Aug. 9.—A despatch to The Neue Freie Presse from Lemberg says that along the railway between Kursk, Charkoff and Azoff a great number of physicians have abandoned their patients and fled on account of the prevalence of cholera.

Regarded in Berlin As Incredible.

LONDON, Aug. 9.—The Berlin correspondent of The Standard declares that the renewed reports to the effect that Chancellor von Caprivi is to resign and that he is to be succeeded by Count von Hatzfeldt are regarded in Berlin as absolutely incredible.

Forty-Five Lives Lost.

LONDON, Aug. 9.—A dispatch from Helsingfors, Finland, announces that a terrible marine disaster has occurred near there. A pleasure steamer was run down outside the harbor and forty-five lives were lost.

A Prominent Protestant Dead.

BRUSSELS, Aug. 9.—Pastor Rochr-dieu of the Protestant Evangelical Church died yesterday. He was president of the Synod of united Protestant churches.

11 Killed and 32 Injured.

ROME, Aug. 9.—A mortar charged with dynamite was exploded on Sunday near St. Alfonso's Church during a religious fete. Eleven persons were killed and 32 others injured.

DECLINED TO ISSUE WARRANTS.

An Unsuccessful Attempt to Arrest the Members of the XIII Band.

CHICAGO, Aug. 9.—An unsuccessful attempt was made yesterday by the Chicago Musical Union to secure the arrest of the members of the famous 13th Battalion Band of Hamilton, Ont., as it passed through this city en route to Denver, on allegation that it had come into this country in violation of the alien labor law. It was stated that it was under no contract to play for any commandery in this country, and was merely in attendance on the Hamilton Commandery. United States Commissioner Hoyne declined to issue the warrants on this ground, and for the further reason that musicians are "artists" and exempt from the operation of the law.

Mr. Cady's Queer Monument.

CENTRAL VILLAGE, Conn., Aug. 9.—Gordon Cady, the veteran dancing master and farmer, has erected a uniquely-inscribed monument on his lot in Evergreen Cemetery. On one side is carved a violin and bow, with the words "All ready, Mr. Cady," above and "At rest" below. On another side is the figure of a cow (Mr. Cady's favorite Jersey), with the inscription: "Rosa—Record, 2 lbs. 15 ozs. butter from 13 qts., 1 day's milk."

Five Hundred in Cash Lost.

Two Tourists Fall Over a Precipice.

VIENNA, July 30.—Two tourists climbing the Raxalpe yesterday slipped on a boulder-strewn slope and fell over a precipice. Their bodies were found, still roped together, at the bottom of the precipice.

THROWN OUT OF A SYNAGOGUE.

Nathaniel Friedman Indiscreetly Preached Christ Crucified.

ST. PAUL, Minn., Aug. 9.—During the progress of the service in the Jewish synagogue yesterday a stranger who the worshippers supposed to be a rabbi, arose and began to preach in the Hebrew tongue. He spoke well and the audience was much interested in him.

Suddenly he began to preach Christ crucified. A match dropped into a can of powder could not have created a greater commotion. Instantly the congregation was on its feet demanding that the man be put out of the house. The man continued to preach Christ as though talking to the most appreciative Christian audience, and a moment later everybody made a rush for him at once. He attempted to defend himself but was knocked down, and after his head was well thumped on the floor, he was dragged and thrown out of the synagog. Then the stranger took the hint and concluded that he was not wanted there.

It seems that the stranger was a converted Polish Hebrew named Nathaniel Friedman, who lives at No. 626 Lawson-street. He claims that he was invited there by a prominent member of the congregation, and told that he might preach a short sermon.

Friedman says he will bring suit against the congregation to recover damages for his injuries. He is not seriously hurt, but has some big bumps on his head.

RACE FEUD IN LOUISIANA.

The Murder of Judge Long has Created a Bad State of Affairs.

NEW ORLEANS, Aug. 9.—The shooting of Judge Henry Long from ambush a few nights ago at Kenneville, just above New Orleans, has aroused great bitterness there. The whole trouble is attributed to political emnity and has resulted in a race feud. The parish officers who have been working up the case against the assassins, have made a number of arrests. On the other hand, a number of negroes and white men who are in sympathy with those who attacked Judge Long have held meetings, and are said to have formed a plot to force a number of white residents out of the place. It is said they had threatened to burn down several stores and residences. The situation finally began to look serious and an affidavit was sworn out against several of the negroes for making threats. The warrants were placed in the hands of the sheriff and a number of negroes in the neighboring parish of St. Charles were locked up in jail. The population of that town is almost exclusively colored. Some of the arrested negroes have given valuable information as to the shooting. Reports to the effect that the prisoners are to be lynched are in circulation.

OVER THE PRECIPICE.

The Horses Ran Away and the Whole Family Were Killed.

GUTHRIE, O.T., Aug. 9.—A whole family consisting of a man and wife and four children names unknown were killed Monday. The family had been in this city buying provisions and while returning to their claim their team ran away and went over the precipice.

Divorced at 82.

DETROIT, Aug. 9.—Jacob Claus, aged 82, was granted a divorce from his wife, aged 76. They were married 14 years ago, but the bride tired of the groom soon after the honeymoon. He was so feeble he had to be carried into the witness box and so deaf the lawyers used ear trumpets. His wife laughed so heartily over the result of the trial that she fell from her crutches to the court room floor. She said their married life had been a complete fizzle.

Raisins Killed Her.

BRIDGEPORT, Conn., Aug. 9.—Fredericka Corman, aged 18, is dead from eating too many raisins. The girl suffered from peritonitis and an operation was performed, when it was found that a large quantity of raisin seeds had collected in her stomach. She had been in the habit of eating freely of raisin cake.

WELLS WINS THE RACE.

Carman and Palmer Beaten In the 10 Mile Race at Hamilton.

HAMILTON, Aug. 9.—Probably the best field of racers that ever lined up before a grand stand in Canada were present at the annual meet of the Hamilton Bicycle Club yesterday. The weather was clear. As it was Hamilton's Civic Holiday there was a very large attendance, about 8000 being present.

The races were a splendid success from every point of view. Among the contestants were: Zimmerman, the world beater; Hyslop, Canada's half mile champion; Wells, the one and five-mile champion, and Carman, the three mile champion, and the spectators were not disappointed in their expectation of seeing some records broken.

The Canadian half-mile record of 1.13 4-5, held by W. Hyslop, was lowered to 1.12 2-5 by Zimmerman. The same rider succeeded in lowering the Canadian quarter-mile record of 39 1-5, held by G. M. Wells, down to 36 seconds. In all the open events Zimmerman beat all other competitors, but was pushed hard at times by Hyslop and Wells of Toronto, W. S. Campbell of Springfield, Mass., and C. H. Callahan of the Press C. C. Buffalo.

In the 2-mile lap race a time limit of 5 minutes 30 seconds was made so as to prevent the contestants from lagging till the last lap, but the winning time was only 5.49, therefore no race was allowed.

The track is one-quarter of a mile of solid asphalt. The results:

FIRST RACE, novice, 2 miles—W. Nichol, Hamilton, 1; A. McMahon, Kingston, 2; Charles Bews, Hamilton, 3. Time 5.42. Aikens of Hamilton, Smith of Toronto, Gullett and Stevenson of Toronto, and Hitchcock of Sarnia also started.

SECOND RACE, ¼ mile dash, open—A. A. Zimmerman, New York, 1; W. S. Campbell, Springfield, Mass., 2; G. M. Wells, Wanderers, 3. Time 1.12 2-5. C. H. Callahan, Press Club, Buffalo, and Hyslop of Toronto also started.

THIRD RACE, 1 mile, 2.45 class—D. Nasmith, Toronto, 1; R. B. Griffith, Hamilton, 2; S. Hitchcock, Sarnia, 3. Time 2.41 1-5. J. G. Gould, Hamilton, Gullett, Toronto, and McQuillan and Doll, Wanderers, also started.

FOURTH RACE, 1 mile, open A. A. Zimmerman 1; C. H. Callahan, Press, Buffalo, 2; G. M. Wells, Wanderers, Toronto, 3. Time 2.42 2-5. Palmer, Hamilton, and Hyslop and Carman, Toronto, also started. The racers did not exert themselves until the last lap in this race, which accounts for slow time.

FIFTH RACE, ¼ mile dash in heats, best 2 in 3—A. A. Zimmerman 1; W. Hyslop, Toronto, 2; E. O. Sliter, Kingston, 3. Best time .36.

SIXTH RACE, mile, 3-minute class—R. B. Griffith, Hamilton, 1; D. Nasmith, Toronto, 2; Hitchcock, Sarnia, 3. Time 2.43 1-5.

SEVENTH RACE, 2-mile lap race, open—A. A. Zimmerman, 1; C. H. Callahan, Press, Buffalo, 2. Time 5.49.

EIGHTH RACE, 3 mile open—W. S. Campbell, Springfield, 1; C. H. Callahan, Press, Buffalo, 2 Time 8.51.

NINTH RACE, special 10-mile invitation race for a diamond ring—between A. W. Palmer, Hamilton, G. M. Wells, Wanderers, and W. M. Carman, Toronto. Much interest was taken in this race and there was considerable betting done among members of the three clubs. The contestants kept well together until the last half mile, when Wells made a beautiful spurt and passed the line a winner by 40 feet, W. M. Carman 2, A. W. Palmer 3. Time 30 11 3-5.

A CONDUCTOR KILLED.

In a Collision on the Quebec and La St. John Railway.

QUEBEC, Aug. 9.—On Saturday night fatal accident occurred on the Lake S John Railway. The mixed train fro Riviere la Pierre, on the Lake St. Joh Railway, became detached north of Qu bec, near Charlesbourg, when the engin and a number of freight cars procee down grade at a rapid speed. Two d tached passenger cars followed. On th platform of the front one stood Conducto James Norton with his hands on th brake.

There was a terrific collision, so much s that all the passengers were knocked fro their seats. Two of them, named Henry Smith, aged 21 years, native of Quebec, and private secretary to C. A. Scott, manage of Laurentian Railway, and Alfred Pru neau, laborer, of Levis, had their head knocked through the panel work and badly cut. The first car of the front train collided, was raised in the air, and landed on the platform, where Conductor Norton was standing, knocking his body through the car, and pinning his legs. It took half an hour to extricate him. When rescued both the unfortunate man's legs were broken and he suffered internal injuries. He was brought to the city in the first-class car and taken to the Hotel Dieu Hospital, where he died at 2.30 o'clock Sunday morning. He had only been married four weeks.

THE CHILD SAVED.

But the Mother's Life Lost in the Attempt.

TORONTO, Aug. 9.—Another drowning accident occurred at Island Park yesterday, in which a mother lost her life while endeavoring to save her child. Mrs. W. J. Moore took the children over to the Island to spend the afternoon in the Park. While the children were playing near the edge of the deep lagoon that runs through the Park one of them fell in. The mother became frantic and jumped in after the little one to save it. But she became a victim and sank, while a man near by managed to pull the child out.

Fell from a Raft.

LANARK, Ont., Aug. 9.—Monday afternoon Johnnie Wilson, 9 years of age, son of Thomas Wilson, jr., was drowned in the River Clyde here. In company with his sister Agnes, Grace Wright and Willie Cooper, all about 10 years of age, he was playing on a small raft on the river when the raft capsized and Wilson was drowned. The other children were rescued.

A Toronto Boy Drowned.

PORT DALHOUSIE, Ont., Aug. 9.—While playing near lock 1, Old Canal, Monday afternoon Johnnie Long, the only son of Mrs. Long of Toronto, aged 8 years, accidentally fell into the canal and before help could reach him he was drowned.

A Three-Year-Old Drowned.

MITCHELL, Ont., Aug. 9.—A 3-year-old child of Mr. R. T. Couch was drowned in the Thames River last evening about 5 o'clock.

$200,000 FIRE IN VICTORIA.

Plant of the National Tramway and Electric Light Company Destroyed.

VICTORIA, B.C., Aug. 9.—A supposed incendiary fire broke out yesterday morning in the upper shops of the National Tramway and Electric Light Company which quickly spread to the power house adjoining, and in two hours the whole plant, valued at $200,000, was completely destroyed. The insurance does not exceed $50,000.

The flying embers started another fire in the Icelandic settlement, and some private residences were destroyed. Loss $10,000.

Two Boys Burned to Death.

KINCARDINE, Aug. 9.—Monday morning about 5 o'clock Mrs. Young, wife of Robert Young, living on lot 35, concession 5, Greenock, started a fire in the kitchen stove and then went out to the barn. In some unaccountable manner the kitchen took fire, and the flames and smoke soon ascended by the staircase upstairs. The eldest boy, aged 21 years, escaped and ran to the barn for a ladder. On breaking the window and attempting to enter the smoke and flames drove him back, and two boys, Thomas, aged 16, and George, aged 12, were burned to death.

A $5000 Fire in Cardinal.

CARDINAL, Ont., Aug. 9.—A fire, which originated in the stable of Henry Hunter, spread to the stables of W. M. Dillon and Cavanaugh Bros.' store, completely destroying them. Loss is about $5000, partially insured.

An Old Sailor's End.

EDITORIAL NOTES.

The Halifax Herald, conservative, speaks as follows of the Ottawa government's management of the Intercolonial Railway :—The time-table of the I. C. R. is in itself sufficient to condemn the I. C. R. management for incompetence, and as for the freight department there is not a merchant in the city who has not frequently been irritated beyond measure by its utter lack of business principles.

The rise in coal is inducing a large number of manufacturing industries in Canada and the States to use crude oil for fuel. In an experiment made in Detroit a few days ago it was shown that crude oil is a cheaper fuel than coal. Eight boilers placed side by side were heated four by oil and four by coal, all doing equal work. At the close of the day it was found that $40.06 of oil had been used, and $62.06 worth of coal. It is possible that the extensive adoption of oil for fuel would break the coal combine, or at least reduce the price to reasonable limits 'Tis a consummation devoutly to be wished.

One of those epigrammatic sentences, for the utterance of which Grover Cleveland is famous, is as follows : "Our public life can no more be higher and purer than the life of the people than a stream can rise above its fountain, or be purer than the stream from which it has its source." If this be true, and it doubtless is, what a powerful indictment it is of the people of Canada ! The misdeeds of the government at Ottawa have made our name to be heard with reprobation all over the world, yet the electorate in scores of constituencies have condoned the wrong doing and reinstated the men who have brought disgrace on their country. The only inference is that those who so voted are no better than those for whom they voted—but this is a hard thing to say when we see a Rykert and a Langevin and a Caron re-elected after their misdeeds have been exposed.

1000 Island Excursion

Rev. D. O. Crossley of the Tabernacle and Rev. F. B. Stratton of Trenton, announce a grand double trip excursion to the 1000 Islands to take place on Saturday, August 13th and 20th—two Saturdays in succession, returning on following Monday. Those wishing to do so may remain a week and return on second Monday. They have been fortunate in securing the best dates of the season at the park, and will no doubt have a large patronage each date. Tickets only $1.00 on steamer Hero. Boat leaves Belleville at 7 a.m.

Those who are in the habit of taking an appetizer before meals could not do better as well for the effect as for economy's sake, than make use of "Indigenous Bitters." As Indigenous Bitters are slightly laxative, those who suffer from habitual constipation, will derive great benefit, by regularly taking them, as they keep the bowels in good order and in that way aid digestion

At no time is man secure from attacks of such painful and dangerous disorders of the stomach as Cholera, Cholera Morbus, Cramps, Diarrhoea, and Dysentery; but these complaints are particularly common during the heated term, when it is doubly dangerous to neglect them. PERRY DAVIS' PAIN KILLER is a remedy that has never failed when tried, and the severest attacks have been cured by it. It leaves no evil effect, and invariably brings relief to the sufferer. Every reputable druggist in the country sells PERRY DAVI'S PAIN KILLER. Large size New bottle, price 25c.

We do not know of any preparation that has caught the public favor in so short a time as Dodd's Kidney Pills, but when we consider that three-fourths of the Canadian people are afflicted with kidney troubles in some form or other, and that Dodd's Pills are a quick and permanent cure for all these troubles, the large and increasing demand can scarcely be wondered at. Sold by all dealers or by mail on receipt of price, 50 cents per box. Dr. A. L. Smith & Co. Toronto.

There are more cases of sickness and death from diseased kidneys than from all other diseases combined. It is your own fault if you allow your kidneys to remain in an unhealthy condition when the cure is at hand. Dood's kidney Pills are guaranteed to cure the worst case. It costs but little to give them a trial. They are for sale by all druggists and dealers or by mail on receipt of 50 cts. or, 6 boxes for $2.50. Write for book called Kidney Talk.

A neglected cough brings on consumption—the most fatal and prevalent of all physical ills that flesh is heir to. To check the malady in its early stage, before the deadly turbercles develop themselves in the lungs use Dr. Thomas' Eclectric Oil which also annihilates bronchitis, asthma, catarrh, piles, kidney troubles, and soreness of the muscles and joints.

The Bijou Theatre Saved.

BALTIMORE, Aug. 9.—Fire broke out in Chaterton & Co.'s furniture factory, 13 South Frederick-street, yesterday. The flames secured a good start before the engines arrived and spread to Green & Co.'s Hope brass works and Openheimer's solder factory as well as to Fleishman's building. The total loss is $200,000, including $20,000 on furniture in the Chaterton building.

The old Bijou Theatre on the opposite side of the street caught fire from the intense heat. The hose was turned on it several times and it was saved.

A Tragedy in a Night Gown.

GUTHRIE, O. T., Aug. 9.—Kate Patterson of Crescent City at midnight secured a double-barrelled shot gun, walked in her night clothes to her lover's house, called him out and shot at him. Thinking she had killed him, she placed the muzzle of the gun in her mouth and with one of her bare feet pulled the trigger, her brains being blown out. Her lover was unharmed. Jealousy was the cause.

Advertising a patent medicine in the peculiar way in which the proprietor of Kemp's Balsam for cough and colds does it is indeed wonderful, He authorized all druggists to give all those who call for it a sample bottle free, that they may try it before purchasing. The large bottles are 50c and $1 We certainly would advise . It may save you from consumption.

A Pleasant Herb Drink

The best cure we know of for constipation and headache is the pleasant herb drink called Lane's Family Medicine. It is said to be Oregon grape root, combined with simple herbs, and is made ready for use by pouring boiling water onto the dried roots and herbs. It is remarkably efficacious in all blood disorders and now the sovereign remedy with ladies for clearing up the complexion. Druggists sell the packages at 50c and $1

For all forms of female weakness Dr. Williams' Pink Pills are an unfailing specific. Mr. Thomas Strachan, Postmaster, Roballion writes :—My daughter has been ill for the last four years with female weakness, and had been attended by four of the best doctors in our section. She began the use of Dr Williams Pink Pills, and two boxes have done her vastly more good than all the medicines she took from those doctors.

What She Said

Mrs. R. Peck, 15th street, New York City, visited Canada last year, and had the good fortune to pick up something which not only suited her, but her neighbors also. Writing the manufacturer of Nerviline she says:—"I bought three bottles of Nerviline while in Canada and treated my neighbors to some of it, and all think it the best medicine for internal or external pain they have ever used." Nerviline deserves such commendation, for it is a most powerful, penetrating, and certain remedy for pain of all kinds. Take no substitute.

PAR [illegible] the power of acting specifically upon the diseased organs, stimulating to action the dormant energies of the system thereby removing disease. In fact, great is the power of the medicine to cleanse and purify that diseases of almost every name and nature are driven from the body. Mr. D. Carswell, Carswell P. O., Ont. writes: "I have tried Parmelee's Pills and find them an excellent medicine and one that will sell well.

A Cure For Constipation And Headache

Dr. Silas Lane while in the Rocky Mountains discovered a root that when combined with other herbs makes an easy and certain cure for constipation. It is in the form of dry roots and leaves, and is known as Lane's Family Medicine. It will cure sick headache in one night, For the blood, liver and kidneys, and for clearing up the complexion it does wonders. Druggists sell it at 50 cents a package

Weighed in the balance, but not found wanting. Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure has been weighed in that just balance, the experience of an impartial and intelligent public. Both remedially and pecuniarily it is a success. Its sales constantly increase, testimony in its favor is daily pouring in. The question of its efficacy in Dyspepsia, Liver complaint, Kidney Ailments, and for Blood Impurity is decided

Now is the time to take a good tonic medicine. Hood's Sarsaparilla possesses the greatest merit, and [illegible]

The highest praise has been won by Hood's Pills for their easy, yet efficient action.

As an after dinner pill, to strengthen the stomach, assist digestion, and correct any bilious tendencies, Ayer's pills are considered the best. Being sugar coated, they are as agreeable as any confection, and may be taken by the most delicate.

How Mr. W. D. Wentz of Geneva, N.Y., was cured of the severest form of dyspepsia? He says everything he ate seemed like pouring melted lead into his stomach. Hood's Sarsaparilla effected a perfect cure. Full particulars will be sent if you write C. I. Hood & Co., Lowell, Mass.

DEAR SIRS,—I have used Hagyard's Pectoral Balsam for bronchitis and bad cough with the best results, and can highly recommend it to all sufferers.

ITALIANS VS. NEGROES.

A Bloody Fight Between the Two Races at Orange, N.J.

ORANGE, N.J., Aug. 9.—A race war between negroes and Italians broke out here last night and one man was seriously stabbed and 20 others injured with clubs, brick bats and stones. The trouble arose through a dispute between a negro and Italian. The men began to fight in Frank Matt's saloon, and on being put out continued the fight on the street. The negro was beaten and his friends came to his rescue, and the Italians started in to help their countryman. About 600 men and women were engaged and a brisk fight took place. Stones, sticks and bricks flew thick and by the time the police reserves arrived twenty persons had been seriously injured. The police force, for some time, could make no impression on the crowd. When the combatants were finally separated they quickly dispersed and no arrests were made. Daniel Tucker, one of the negroes, was found later with a bad stab wound in the neck and medical attention had to be summoned. A force of police is now guarding the street and endeavoring to prevent a recurrence of the trouble.

HE TREATED THEM TO DEATH.

Dr. Cole Gave His Friends Carbolic Acid Instead of Whisky.

CHICAGO, Aug. 9.—In the belief that they were drinking whisky C. S. Ingram, Louis Brunig and Dr. Vincent Cole swallowed enough carbolic acid yesterday to kill a dozen men. Ingram is dead, Dr. Cole is dying and Brunig is still in agony.

The three men are prominent residents of East Chicago. Dr. Cole invited them into his office to take a drink of good whisky. It was very dark in the room and the doctor poured out three liberal drinks from a bottle which he took from his surgical case. The bottle contained carbolic acid.

HAS NOT BEEN WITHDRAWN.

That's the Reason Official Information Has Not Yet Been Received.

WASHINGTON, Aug. 9.—Official information of the action of the Canadian authorities in withdrawing the rebate from vessels arriving at Montreal from the lakes by way of St. Lawrence River has not yet been received at the State Department, consequently no official expression of opinion as to the subject can be had, although it is quietly intimated that the Canadian action if such as reported will doubtless be accepted by the President as throwing all source of complaint on the score of discrimination, and absolving him from the necessity of issuing a retaliatory proclamation.

RESURRECTION IN A MORGUE.

An Attendant Badly Scared by a Supposed Corpse.

CINCINNATI, Aug. 9.—About noon Monday a man was carried into the Morgue, to all appearances dead, a victim of the heat. He was placed in a cooling box, washed and prepared for identification, covered with ice and a sheet spread over the rigid face. Henry Brunstrop went about his work as usual, when, some time later, glancing through the half open door of the dead room, a sight met his gaze that almost froze the blood in his veins.

There, slowly rising, with the sheet still clinging to him and the ice sliding off to the bottom of the box with metallic clicks, was the "corpse" so recently prepared for the grave. Recovering himself Brunstrop hastily called Superintendent Shaw, and they assisted the man, now clearly alive, to the adjoining room. A patrol wagon took the revived man to the hospital. He was Henry Klass, who had been overcome by heat and pronounced dead by his fellow laborers. Klass died at the hospital.

A Scythe Blade Thrust Into His Abdomen as He Climbed In a Window.

RALEIGH, N.C., Aug. 9.—A young man named Myatt was engaged to marry a young woman in Gaston County, but her parents forbade him the house.

The girl's father discovered a few days ago that Myatt was making secret visits to her at night, entering the house through a window, and prepared a savage trap.

The father sharpened a scythe blade and so arranged it that when Myatt crawled in through the window the blade inflicted an ugly wound in the abdomen.

Suffering intensely from the wound Myatt had to walk four miles before he could get surgical aid.

Riotous Negroes and Militiamen.

SPRINGFIELD, Ill., Aug. 9.—This town is much excited over a riot which occurred between members of the 4th Infantry, now in camp here, and a crowd of negroes. The militiamen say they have been greatly annoyed by colored loafers, and yesterday they tossed one of them in a blanket. Last night a number of soldiers were attacked at a merry-go-round and badly beaten. About midnight a crowd of soldiers forced the guard line and came into the city determined to punish the negroes for the attack on their comrades. They were meeting with success in their undertaking, when the police took a hand in the matter, arrested four soldiers, who were fined to-day by a justice. The military authorities are holding their men within camp lines, and the police are watching the negroes to prevent further trouble.

THE THREE FATES
BY
F MARION CRAWFORD is an excellent book. The plot is sufficiently interesting without being too intricate. A number of pretty situations and startling denouements are admirably sketched by the author.
The young writer who is the hero of the play, meets with his three fates, the first he loves, but she destroys her own happiness by refusing him, the second loves him, and her mother's intrigues to catch him are only made unsuccessful by the discovery of a deceit she has practised, and finally his third appears on the scene.
This is one of the finest novels placed before the reading public for some time, and its popularity will grow with the more thoughtful class of readers, and the wisdom of the writer, and the beauty of his characters will be appreciated years hence perhaps more than now. At

IMPERIAL PARLIAMENT.

THE NO-CONFIDENCE MOTION GREETED WITH LOUD CHEERS.

The Right Hon. George J. Goschen Hoped the House Would at Last Hear Something Definite About Home Rule—A Petition Against Redmond.

LONDON, Aug 9.—The formal organization of the House of Commons was completed last week, and yesterday when the House met the members were summoned to the House of Lords where the Speech from the Throne opening the session of the 25th Imperial Parliament of Queen Victoria was read. The speech informed Her Majesty's Lords and gentlemen that by command of Her Majesty the present Parliament has been assembled in obedience to the terms of Her Majesty's proclamation of June 28, by which the late Parliament was dissolved.

Previous to that dissolution, the speech added, the business of the session was completed, therefore it is not necessary for Parliament to continue its session at an unusual period of the year for the transaction of financial or legislative business. Her Majesty expressed the hope that when Parliament meets again at the customary season it will direct attention to measures of social and domestic improvements, and that it will continue to advance in the path of useful and beneficial legislation, which has been judiciously followed at previous sessions.

Both Houses Took a Recess.

The commissioners bearing the Queen's speech entered the House of Lords at 2 o'clock and took their seats on the long bench in front of the throne. A few ladies occupied seats on the lower Opposition benches. Only 40 members of the House of Lords were present. The usual notice to the House of Commons was given and soon the Speaker, attended by a handful of the members of the lower House, was ushered into the chamber of the Peers to listen to the reading of the speech. After the speech was read both Houses took a recess until 4 o'clock.

A Petition Against Redmond.

Mr. Gladstone arrived in London Monday morning. His health has greatly improved. He held a brief conference with the Liberal leaders during the day.

A petition has been lodged against the return of William Redmond, Parnellite, who was elected by a majority of 446 votes in the East division of County Clare, defeating J. R. Cox, anti-Parnellite, who had represented the division since 1885.

No-Confidence Motion.

Before the opening of the debate on the address in reply to the Speech from the Throne Mr. Gladstone entered the House and took the usual oath administered to members. He was the recipient of hearty cheers from his supporters.

Neither the speech of Mr. Barton, in moving the address, nor that of Mr. Cross, who seconded the address, attracted any attention. The House was listless until Mr. Herbert Henry Asquith, Gladstonian member for the East Division of Fifeshire, rose to move the amendment, declaring that the House had no confidence in the Government. He was greeted with loud and prolonged cheering by the Liberals.

Mr. Asquith declared that Parliament had met for the obsequies of a dead majority. The House ought not to dally over a practical question, but should as speedily as possible place in power a government representing the decision of the country as expressed at the polls.

Mr. Thomas Burt, Gladstonian member for Morpeth, secretary of Northumberland Miners' Mutual Association, seconded the no-confidence amendment. He contended that the question of Home Rule for Ireland must dominate all other questions to which the Liberal party was pledged.

The Right Hon. George J. Goschen, Chancellor of the Exchequer, said he hoped the House would at last hear something definite about Home Rule. Mr. Gladstone, he declared, could no longer shirk explaining his Home Rule scheme, nor could Sir William Vernon Harcourt evade unpleasant questions by going out of the House instead of responding to them.

The Irish Party's Wants.

Justin McCarthy said that the Irish party expected that coercion would cease when the Liberals came into power. If the Liberal Government's Home Rule Bill did not satisfy the people of Ireland there would be an end of it. He believed in the sincerity of the Liberal assurances that Home Rule Bill would be kept in the front of their legislation. The Irish party also wanted an early measure of relief for evicted tenants, and an inquiry into the cases of Irish prisoners wrongfully convicted of offences against the crown. They further desired that the term of imprisonment of other Irish prisoners be shortened.

A Convict Cremates Himself.

PHILADELPHIA, Aug. 9.—Overwhelmed with the thought of the cheerless future before him, James Rodan, a convict in the Eastern Penitentiary, known in prison as "A, 6074," committed suicide yesterday afternoon in the most tragic manner. He set fire to his mattress and bedding, and sitting down deliberately in the midst of the flames, drew a keen-edged knife across his throat. The cries of the desperate man attracted the attention of his keeper, but before the latter could reach him he had sustained such severl injuries that he died in the prison hospital a few hours later. Rodan was a native of Ireland, having been born in Londonderry 32 years ago, and the greater part of his life had been divided between following the sea and tramping through the country. He was arrested in Chester County for house-breaking, larceny and carrying concealed deadly weapons, and three true bills were found against him on Oct. 26, 1891. He arrived at the Eastern Penitentiary on Nov. 2, 1891, to serve his sentence of two years and nine months, which would have expired on May 26, 1891.

Fierce Sandstorm in Arizona.

PHOENIX, Ariz., Aug. 9. — A terrific storm of sand raged here for a half hour. Awnings, signs, sheds, stables and a few houses were blown down. The chimney at the asylum blew down, breaking through two floors. The walls of the building were badly cracked. In Tempo everything loose was overturned. Two Indians, squaw and buck were killed by lightning, and another squaw was badly burned. No other lives were lost, as far as known. Many trees were blown down.

A Dynamite Cartridge in a Wheat Sheaf.

OGDEN, Utah, Aug. 9.—While Charles Hadlock was threshing wheat near here yesterday a sheaf in which a dynamite cartridge had been concealed was fed into the separator. The result was an explosion, which tore the machine to pieces and threw the threshers in all directions. It is thought that two of them, whose names have not been learned, are fatally injured. There is no clue to the perpetrators of the deed.

All through the Provinces the rapid crease of La Grippe, is causing great alarm. A report was received here to-day, of a new development o the disease, which is worse, perhaps than any other. Wm. Hanley of N. Y. City, died in terrible agony after sickness of only four days, His tongue swelled to such an extent as to make it impossible for him to close his jaws or swallow any food. The report is causing the people in this district to inquire into the noted Grip-cure, recently referred to in so many papers. In Cape Breton the disease has spread very rapidly and with fatal results, D. J. McKillop of L'Archeveque writes Feb. 11th that this cure has been tried in his neighborhood and with such success that all those residing there are obtaining a supply believing it to be the only remedy affording relief and effecting a certain cure. He finished his letter by asking for a large quantity of the Medicine (Dr. Morse's Indian Root Pills) to supply the demands of the community for the relief of LaGrippe.

For You or O

GENTLEMAN,—One of my little girls (aged 4 years) had been troubled with costiveness in its worst form since infancy. We tried different remedies which gave relief while using, but as soon as discontinued she would be worse than before using. She lost her appetite and was growing weak and delicate. A friend of mine who had used B B B with grand results for the same disease advised me to try it, and also the Burdock Pills, which we did. She did not take the contents f one bottle before it relieved her, and ot only relieved her but permanently ured her, for she has not been troubled nce since, and she is now eight years old

A Question

How can we raise more corn t the acher ? Why, of course by using Putman's Corn Extractor. Putman's Painless Corn Extractor has given universal satisfaction, for it is safe, sure and painless. Like every article of real merit it has a host of imitators, and we would specially warn the public to guard against these dangerous substitutes offered for the genuine, Putman's Extractor. N. A Friend

Wishes to speak through the *Register* of the beneficial results he has received from a regular use of **Ayer's Pills.** He says: "I was feeling sick and tired and my stomach seemed all out of order. I tried a number of remedies, but none seemed to give me relief until I was induced to try the old reliable Ayer's Pills. I have taken only one box, but I feel like a new man. I think they are the most pleasant and easy to take of anything I ever used, being so finely sugar-coated that even a child will take them. I urge upon all who are

In Need

of a laxative to try Ayer's Pills."—Boothbay (Me.) *Register.*

"Between the ages of five and fifteen, I was troubled with a kind of salt-rheum, or eruption, chiefly confined to the legs, and especially to the bend of the knee above the calf. Here, running sores formed which would scab over, but would break immediately on moving the leg. My mother tried everything she could think of, but all was without avail. Although a child, I read in the papers about the beneficial effects of Ayer's Pills, and persuaded my mother to let me try them. With no great faith in the result, she procured

Ayer's Pills

and I began to use them, and soon noticed an improvement. Encouraged by this, I kept on till I took two boxes, when the sores disappeared and have never troubled me since."—H. Chipman, Real Estate Agent, Roanoke, Va.

"I suffered for years from stomach and kidney troubles, causing very severe pains in various parts of the body. None of the remedies I tried afforded me any relief until I began taking Ayer's Pills, and was cured."—Wm. Goddard, Notary Public, Five Lakes, Mich.

AN UNFORTUNATE ACCIDENT

Two Rigs Collide and a Horse i Killed

An unfortunate collision of two rigs took place on the corner of Queen and John streets. Miss Taylor, daughter of John Taylor, John St. was driving with a lady friend in a dog cart, and as she was turning at the corner of the two streets her rig collided with a rig driven by Mr. and Mrs. Bateman. The shaft of Mr. Bateman's cart penetrated the breast of Miss Taylor's horse with fatal effect, for it died a few minutes after. It wes a valuable animal, and had but recently been purchased by Mr. Taylor. Its death was caused by the severance of an artery. Miss Taylor was thrown against the horse by the shock and her friend thrown from the rig, as were also Mr. and Mrs. Bateman, but fortunately no one sustained any serious injury. The affair was purely an accident. Miss Taylor, when she saw Mr. Bateman coming, turned to the right, while Mr. Bateman, seeing that Miss Taylor was on the south side of the street, supposed she would keep to that side and so turned to the left. Both horses were going at a good rate of speed and could not be checked in time to avoid the collision. It was quite dark at the corner and a rig could not be seen till close at hand. The gas was not lit till after the accident. This is not as it should be. Whoever has charge of lighting the gas should have had the lamp lit much sooner, as it was then pitch dark. Had this been done the accident would doubtless not have taken place. Public officials can thus easily see how some neglect on their part may endanger life and property.

PASSED PEACEFULLY AWAY

A Touching Tribute to the Memory of Sister Mary Syncleta

There died in Hamilton July 26th, 1892 a lady well known and much loved by many in Belleville, in religion Sister Mary Synclètta, daughter of Stephen Wade of this city. She was educated in the Convent here where she endeared herself to all with whom she came in contact, but left about eleven years ago for Hamilton Loretto Convent. The Catholic Record, of the 6th inst, has the following beautiful and touching tribute to her memory.

This week, for the first time since its foundation here, "Mount St Mary" is enshrouded in a cloud of sorrow and sadness. Over twenty seven years have passed since the little band of sisters first began their good work there, and in all that time nothing has happened to mar the quiet happiness that rested over the place. Just as carefully as the good nuns cultivated and trained the hearts and minds of those placed in their care, the gardener watched and cultivated flowers, vine and trees, so that it seems like an earthly Eden, as one comes in from the dust and tumult of the city—the home-like convent, surrounded by sweet flowers, cool walks and shady trees, where the birds chant their Matin and Vesper hymns.

God comes chosen to you there,
Back of every rose leaf
He is hiding—and the air
Thrills with calls to holy prayer:
Earth grows far and heaven near.

Such perhaps has been the thought of more then one of the many friends—pupils and guests—who have come and gone since it first knew the dear name Loretto. But another guest lately came—one who had never entered there before—an uninvited, though not unexpected one;—but instead of sharing the happiness and carrying away fond memories of it, he left a sorrow and sadness there which can never be effaced. Outwardly things are the same, The birds, flowers and grounds seem even brighter; but as the lips must often smile to hide heart rent with sorrow, so Nature smiles there, to hide the darkened silent convent. But, ah! she cannot lessen the grief that dwells within: nor could she ward off the thief who came and ruthlessly broke one of the fairest flowers that bloomed in that garden of souls. Alas no! grim death heeds not youth, beauty or grief, but finds sway at all seasons and homes, alike to cloister, palace and hut. And it was he that came and bore away the soul of Sister Mary Syncleta, one of the youngest and dearest of that little community.

For some time she struggled bravely against disease, but consumption at last claimed his victim. During her illness her patience and resignation in all her sufferings was surely a lesson that should not soon be forgotten by us. All the day and night following her death the nun's chanted prayers in the darkened, draped chapel; and the altars, which we have often watched her little hands so fondly and beautifully decorating, wore mourning for her while she slept her last sleep at its foot.

A solemn Requiem Mass was celebrated in the chapel on Tuesday morning at 9 o'clock by Rev Father McEvay, assisted by Father Brady and Father Hinchey. His Lordship Bishop Dowling was also present. After the "Libera" was chanted the casket was placed in the hearse, and followed to Rock Bay cemetery by the mourners—nuns, a number pupils and the pall-bearers (who where Messrs Wm. Kavanagh, Thos. Walsh, J. Morin, Henry Arland, J. Ronan, J. P. Holden.) The services at the grave were performed by Father McEvay, assised by Fathers Brady and Kehoe, and the mortal remains of our dear Sister were left to their long last rest in the shade of the little chapel.

Oh! it was hard to come away and leave her there alone! Hard to think that we shall never see her sweet face, or hear her soft voice in Loretto's halls again! Yes it seems hard and cruel that she we love so well should be snatched away in the first bloom of womanhood; but "she had done her bidding here, and her life

Though all too short its course and quickly run
Was full and glorious as the orbed sun."

While still very young she bid good bye to parents, home and native city, and gave to God her life service and love, and now He has taken her to her home in heaven where He, her spouse, her great reward shall be.

Like all earth's fairest flowers,
She left us, oh, too soon
And in deep and heartfelt sorrow,
We gathered round her tomb,
Would we call her back again
To this dark vale of tears,
To cheer us with her gentle smile
As oft in by-gone years?
Our deeply loving, sorrowing hearts
Will promptly answer. "yes."
But Religion softly whispers,
"Her home is 'mid the blest."
Then sleep on, dearest Sister,
In your low and narrow bed,
While soft winds chant your requiem
Will deep earnest prayers be said.
Oh! ask our sweet Mother
To take us to her care
And take us to our home on high
To meet you, darling, there.

A BLAZE AT ROSSMORE

A House Belonging to Peter Moon Reduced to Ashes

A house occupied by Peter Moon at Rossmore was destroyed by fire at noon yesterday while the occupants were from home. It is supposed the fire originated from a spark from the stove, a fire having been left in the stove when Mr. Moon left in the morning. Had it not been for the persistent energy of P. Lafferty, brakesman on the C. P. R. at Havelock, who was visiting a brother at the Point, the Methodist Church would also have fallen a victim to the flames. His brother was slightly scalded while attempting to remove a pot of hot water from the stove. The Contents of the house on which there was no insurance were also completely consumed. It is said the housewas insured for $500 which would no doubt cover the loss. This is the third time that house has been reduced to ashes.

Just So.

We are unconquerable and the fact we are selling fivetimes more clothing than any other house in Belleville considering that we have only been here five months, proves it. Yes! Gough's trade is phenomenal, but it can't be otherwise. Our wonderful facilities for buying and manufacturing enables us to sell goods as cheap as other houses can buy them. "Gough must sell cheap," you hear from everyone and if you ask them why? they answer "because his competitors admit that he has forced them to drop their prices 50 % in order to do any business at all" Keen buyers indeed. Well enough said.

Special Excursion.

The steamer Hero advertises a special excursion to the 1000 Islands for Wednesday Aug. 10th. Boat leaves Belleville at 6.30 a. m. Fare only 75cts. This will doubtless be the most attractive day excursion of the season.

Moonlight Excursion

The Steamer Hero will take a moonlight excursion to Trenton and return on Monday evening next, Aug. 15th. One hour given in Trenton. Only 25cts. Orchestra on board, Boat leaves Belleville at 8 p.m.

EARLY CLOSING BY-LAW.

IMPORTANT JUDGMENT IN THE CASE OF HUFF Vs. SYDMER ROSS.

The Defendant Prosecuted for Opening his Store After Seven O'clock, but he Comes off Victorious.

This morning Police Magistrate Flint gave judgment in the case of Huff vs. Sydmer Ross, of Madoc. This case has aroused wide-spread interest in all this district and the judgment is an important one. The facts, briefly narrated are these: The village council of Madoc passed a by-law in accordance with the Ontario Statutes, enacting that all places of business should be closed at seven o'clock in the evening. Mr. Ross was strenuously opposed to this enactment and declared that it could not prevent him keeping open after seven. On the day when the by-law came into operation his proceedings was watched with interest by the people of the village. Ross was shrewd enough to obey the exact letter of the law yet to evade its intent. He closed his store at seven o'clock, but opened it again a few minutes after. Action under the by-law was at once instituted against him by constable Huff, with the result given below. Cross, of Madoc, acted for the plaintiff while O'Flynn & Campbell conducted the case for the defendant with commendable skill and merited success. They will at once move to have the by-law quashed on the ground that it is ultra vires. The judgment reads as follows:—

Informations have been sworn out before me charging defendant with violation of the provisions of by-law No. 93 of the village of Madoc being a by-law to regulate the closing of general dry goods, clothing and boot and shoe shops in the village of Madoc passed on the 18th day of July A. D., 1892.

Clause 1 of the by-law reads as follows: "On and after Tuesday the twenty-sixth day of July A. D., 1892, all the general dry goods clothing and boot and shoe shops situate within the municipality of the village of Madoc shall be closed every evening in the week except Saturdays throughout the year at the hour of seven o'clock p.m."

The act of 1889 amends the act of 1888 and the amended act sub section 2 of sec. 4 of act of 1889 enacts as follows:—"Any local council may by by-law require that during the whole or any part or parts of the year all or any class or classes of shops within the municipality shall be closed and remain closed on each or any day of the week at and during any time or hours between seven of the clock in the afternoon of any day and five o'clock in the forenoon of the next following day."

"The latter part of sub sec. 3 of act of 1888 states that the council shall within one month after the receipt or presentation of such application pass a by-law giving effect to the said application and requiring all shops within the municipality belonging to the class or classes specified in the application to be closed during the period of the year and at the times and hours mentioned in that behalf in the application."

In my view an objection has been taken which is fatal to these cases.

The amended act made a very great change in the act of 1888 by striking out the words "continuously after the time and hour fixed or appointed in that behalf by the by-law," and inserting in lieu thereof in sub-section 2 "during any time or hours between seven of the clock in the afternoon of any day and five o'clock in the forenoon of the next following day." The operative clause in the by-law recited above directs that the classes of shops therein mentioned shall be closed every evening in the week except Saturday throughout the year at the hour of seven o'clock p.m. The word "closed" in the act means "not open for the serving of any customer."

It seems clear that the council had the power by by-law to close shops during any time between seven p.m. of any day and five o'clock in the forenoon of the next following day.

What has the council done in the exercise of their power? They have directed that the shops be closed every evening in the week except Saturday throughout the year at the hour of 7 p.m.

They have not provided and directed by their by-law that the shops shall be closed at any later hour than 7 o'clock.

A shop keeper affected by the by-law may be fined if he does not close his shop at seven but if he chooses to open it after that hour I cannot find anything in the by-law to prevent him doing so.

I cannot read into the by-law what is not therein contained. I cannot make law. The by-law should have declared that the shops should be closed at seven and remain closed from that hour until five o'clock the following morning.

The Statute gave the council power to say that the shops should be closed any time between 7 p m., and 5 o'clock the following morning but the by-law does not state any time that the shops shall be closed between seven and five next morning.

The evidence in both cases showed that the alleged violation of the by-law took place about eight p.m. or 8.30. p.m.

By sub sec. 3 the council had the power to require shops to be closed during the period of the year and at the times and hours mentioned in the application.

The application asked the council to pass a by-law to enforce the closing of shops at 7 p.m., each evening except Saturday in accordance with act of 188?.

The council did grant the prayer of the application and did pass a by-law closing shops at seven each evening, but neither application nor by-law provided what should be done after 7 p. m.

It is very questionable indeed whether the council having before them the application could go beyond the prayer of the application.

By sub sec. 3 the by-law should declare the times and hours during which the shops should be closed "mentioned in that behalf in the application."

Clearly the hours are not mentioned in this by-law during which the shops shall be closed.

Holding therefore that convictions in these cases cannot be made under the evidence it is unnecessary to consider the other objections taken.

The by-law is not workable and will I presume be rescinded or amended; considering the form of application I question the advisibility of amendment.

The cases are therefore dismissed with costs. I have no alternative as regards costs, because defendants have done no act which I can hold as wrongful under the by-law and therefore they are entitled to their costs.

Applying the principles of common sense, I persume I could discover the intention of applicants and council, but I should require apt and suitable words in the by-law before I could give effect to that intention.

NOTICE TO MARINERS

Lights on the Bay of Quinte Bridge and Potters Island

The last issue of the Canada Gazette contains the following notice to mariners on the Bay of Quinte:—A highway bridge having been constructed across the Bay of Quinte, immediately west of Belleville, vessels will require to be cautious in approaching the draw both by day and night. The centre pier of the swing span is 195 feet from the south or Prince Edward County side of the bridge, and there is a channel 100 feet wide both north and south of this central pier, either of which can be used by vessels. The bridge is straight, and runs N. ½ W. (N. 13° 30' W. true), and S. ½ E.

Lat. N. 44° 8' 30"
Long. W. 77° 22' 35"

The following lights have been established for the guidance of Mariners at the pivot or draw span of the said bridge:—One fixed white light shown from a lens lantern hoisted 18 feet above the level of the Bay, at the south of the southern opening. When the draw is closed against navigation a red light, elevated 18 feet above the water, will show at each end of the draw span, or close to the two fixed white lights above described, and showing both up and down the Bay. When the draw is open two green lights at an elevation of 18 feet above the water will be visible from each end of the draw span, facing east and west, indicating the position of the rest piers. There will then appear to vessel approaching from either direction when the draw is open, two green lights flanked by two white lights in a line north and south.

All these lights should be visible a distance of three miles in clear weather, both up and down the Bay.

This notice affects Admiralty charts Nos. 797 and 1152, and the substance of it should be entered in the Canadian List of Lights and Fog Signals next after the number 169a.

II MAST LIGHT ON POTTERS ISLAND

A mast temporarily established by the Government of Canada on the outer point of Potter's Island, opposite Nigger Island, on the south shore of the Bay of Quinte, in the County of Prince Edward and Province of Ontario, was put in operation on the 22nd ultimo.

Lat. N. 44° 6' 5"
Long. W. 77° 29' 30"

The light is fixed white and shown from a tubular lantern hoisted to the top of a mast 20 feet high, standing on the shore on the most northerly part of the low point locally known as Potter's Island. The light is elevated 22 feet above the water level, and should be visible 9 miles from all points of approach seaward.

It is intended to guide to the narrow channel between Nigger Island and the south shore from the Bay of Quinte Bridge on the east, and from the east entrance of the Murray Canal on the west.

This notice affects Admiralty charts Nos. 767 and 1152, and the substance of it should be entered in the Canadian List of Lights and Fog Signals next after the Bay of Quinte bridge lights.

A SAD CALAMITY

A YOUNG VICTIM OF SATURDAY'S TORNADO.

Charles Parrott Fatally Injured Near Northport by a Tree Falling on him

The tornado on the bay on Saturday afternoon last seems to have resulted more seriously than was at first supposed. On Big Island the damage done was widespread. Everywhere in the district visited by the tornado trees were cracked off like pipe stems while the grain was literally beaten into the ground. Charles Parrott, son of George Parrott, of Napanee, formerly of Belleville was camping at Manhattan with his uncle Fred Parrott, about a mile below Northport. When the storm came on the men were in the tent which was lifted off the ground by the wind. Charles Parrott who is about seventeen years of age, ran out and attempted to hold it in its place when a huge basswood tree near him was broken off and hurled against him with terrific force. The unfortunate man was pinned to the ground and when his uncle ran toward him he found his nephew unconscious. The victims right leg was broken while the left leg was badly fractured. The tree was lifted off the boy and aid summoned and as soon as possible he was conveyed to the home of his uncle Charles Peck, where Drs. Crine and Moore, of Demorestville were called. Along the road towards the house huge trees had fallen and the sufferer was only got to his uncle's in a democrat with the greatest difficulty. The men had frequently to lift it over the fallen trees. The boy is still unconscious and is supposed to be fatally injured internally. The doctors last night gave up all hope of his recovery. The young man was a smart and intelligent boy and well liked. His friends are greatly moved over the sad calamity.

A STRANGE YACHT

It Drops Into Belleville Harbor and Goes Away at at an Early Hour

A yacht which was emblazoned with the name Lurline, N. Y. sailed into the harbor yesterday and after procuring a stock of provisions left again at an early hour this morning, steaming up the bay. The yacht is built on the principles of a sailing yacht, propelled by steam and looks as if she could stand a good sea. The gentleman who owns the yacht is only known as major and is connected with the U. S. militia. He had on board a crew, who seemed born to obey. Although a reporter visited the yacht twice last night and approached several members of the crew from the major down, they would tell nothing about the yacht and said their business was to keep a close mouth. The yacht is one of the most magnificent and luxurious that ever plowed the blue waters of Quinte bay. The family were living on board in apparently all the ease and comfort that money could buy. Several small brass cannons looked out from the decks which were kept in perfect order. The brass mountings everywhere to be seen lent elegance to the floating palace. A steam yacht and two life boats were suspended from the sides. The boat was being piloted up the bay by a Kingston man who refused to give any particulars of the strange visitor, or whether bent on business or pleasure. If it is from New York it must have come around Nova Scotia. It is said that the "major" is taking a quite survey of Canadian waters, which information will be used to the advantage of the United States militia.

LITERARY NOTES.

A Pretty Surprise.

A beautifully illustrated and charmingly bound edition of Longfellow's "Evangeline," the most popular long poem ever published by an American author, and one of the most famous poems in the language to be had at about the cost of "a dish of ice cream," ought to prove a popular surprise! Such a book is just issued from the publishing house of John B. Alden. New York, and is certainly one of the most remarkable products of his famous "literary revolution"—handsome type numerous and excellent illustrations, very fine and heavy paper, gilt edges, remarkably beautiful cloth binding, with gilt title and ornaments. No illustrated edition of this work has ever before been published at less cost than $$1.50, and that is about what you might "guess" the price of this to be, but it isn't—Alden sells it for 19 cents! plus 6 cents for postage, if by mail. His idea is that a good book is his best advertisement, and that by putting out such a pretty one as this at a nominal price, he will make the pleasant acquaintance of a vast number of people. Alden's publications are not sold by dealers, but only direct: catalogue, over 100 pages, a literary curiosity in its way, is sent for a 2-cent stamp. Address, John B. Alden, Publisher, 57 Rose St., New York.

Just the Same

Thosepeople who imagine that you can get goods just as cheap in one store as you can in another should take a note of this instance. A lady on Saturday last was induced by reading an advertisement to go to a store for a pair of overalls for her husband, the cheapest shown her were 50 cents, she was not satisfied, and came to the Oak Hall, where she was shown overalls for 25 cents. "Just the same as the other store wanted 50 cents for," she exclaimed. It is just the same in all goods, if you will make a comparison you will be astonished how much cheaper than other stores the Oak Hall are selling clothing.

THE REASONS!

GOUGH CAN SELL CHEAPER THAN OTHER DEALERS

FIRST—Because we are the largest Clothiers in Canada, and SECOND, because we are not the supply account of any firm, and consequently are not compelled to handle only one manufacturer's goods, and at whatever prices they have a mind to ask. THIRD—Because we have ample means to buy wherever we like, and no matter how large the stock, whether it is $1,000 or $100,000 worth we are always prepared to pick it up if it is a snap, and FOURTH—Because we sell ten times more goods than any other firm, and consequently can sell on a smaller margin of profit.

Some of our high price friends cannot see anything funny about GOUGH selling so cheap, and call us "Fake" dealers, but when inaugurating this One Price and Low Price System we did so with a determination to

"Hew to the Line; let the Chips fall where they may!"

And if in fulfilling this mission we are breaking the back bone of our high price oppositionists, we are sorry for them, for we mean them no harm, but claim the right to do our business in a

SQUARE, HONORABLE WAY,

GIVING DOLLAR FOR DOLLAR EVERY TIME.

Yes, we are called "fake" dealers and "low" dealers by our opponents. Well, we freely admit we are low dealers, wallowing in the lowest depths of bed rock prices, while our exalted brethren look down upon us from their high place and go wild because we are capturing their trade, and this is the sequel to their calling us "fake" dealers, etc., but it won't go down, for the name of GOUGH is provincial, and a household word in every family.

IMPELLED NEILL TO TALK ABOUT THE MURDERS.

The Unfortunate Women Seek to Catch a Glimpse of the Man Who Emulated "Jack the Ripper" in His Hostility to Their Class.

LONDON, Aug. 10.—The strange interest in the Neill poisoning case is stuffing the little court in Bow-street, which is crowded to the doors.

All yesterday unfortunate women with tired faces tried to force their way into the room to look at the man who made it a mission to destroy them and their class.

Hundreds who came late and who were turned away loitered about the door and street, hoping to catch a glimpse of the man who added a new terror to the uncertainty of their daily life.

"I hope they'll hang him," was the general expression.

Neill looked bad and very nervous. He kept fumbling with his hands and made notes on paper. He was pale and wiped the perspiration from his forehead every few minutes.

There is no reason why he should not have gone on poisoning hundreds of women indefinitely, as it would have been almost impossible to detect him, his method was so cunningly perfect.

But he could not keep from talking.

Mrs. Armstrong, where Neill had photographs taken, and where Neill often called thereafter, told how she mentioned before him that her house was watched.

They went next door to get a drink, when Neill spoke to her about one of the men in the bar and asked her if that was one of those who had been watching the house.

She said she could not see.

Neill then said: "Whoever poisoned those girls in Stamford-street ought to be hanged."

Up to that time nothing had been said about Stamford-street at all.

He said: "Yes, the man that did the murder ought to be hanged."

She said: "Did you know the girls, doctor?"

He replied: "Yes, I knew them well. They used to solicit up on the bridge of an evening."

All through this case the evidence shows how impossible it was for him to keep quiet about the murder.

A strange force impelled him to talk and write about it.

George Rich, coachman to Countess Russell, swore to a letter the Countess had received, in which the anonymous writer said that her husband had poisoned a girl named Matilda Clover at No. 27 South Lambeth-road, and if she would meet him he could prove it. Then she could get a divorce.

Neill had no reason for writing such a letter, nothing to gain by it, but it shows the fatality.

Laura Sabatin, who was engaged to be married to Neill, and others gave their testimony as previously published, and Neill was taken back to prison.

Petition Against Return of Davitt.

LONDON, Aug. 10.—A petition has been filed against the return of Michael Davitt, recently elected member of Parliament for North Meath, by Davitt's defeated opponent, Pierce Mahoney.

Wales and the Home Rule Bill.

LONDON, Aug. 10.—The Welsh members of Parliament have decided to support the Home Rule bill provided Gladstone gives Welsh disestablishment the next place on the program.

A Disgraceful Bull Fight.

PARIS, Aug. 10.—News has just been received here of a disgraceful bull fight in the town of Nites. Six horses were disembowelled and two bulls killed amid the enthusiastic applause of 20,000 people.

New Prussian Minister of Interior.

BERLIN, Aug. 10.—It is stated that Count Von Eulenberg, President of the Prussian Council of Ministers, will succeed Herr Herrfurth as Prussian Minister of the Interior.

Ghastly Trophies for the Sultan.

TANGIER, Aug. 10.—The Sultan's troops have brought here three prisoners captured yesterday in an engagement with the rebellious tribesmen. The heads of three rebels who were slain in battle were cut off and the ghastly trophies of victory sent to the Sultan. The situation is still threatening. Reinforcements are expected daily, but notwithstanding this the alarm among the foreigners resident here is increasing.

California Fruit Sales in London.

LONDON, Aug. 10.—The auction sale of California fruit brought to England by the steamer Majestic, the first consignment of such fruit to be shipped to this country, was concluded yesterday. Bartlett pears sold for from 7s 3d to 7s 6d per box. Crawford peaches brought from 5s 9d to 6s 9d per box.

New Coal Fields.

LONDON, Aug. 10.—A new coal field with an ascertained area of one thousand acres has been discovered at Ashton-under-Lyne, Lancashire. Coal was already pleutiful in that vicinity.

Mexican Revolutionists Again Active.

RIO GRANDE CITY, Tex., Aug. 10.—The Mexican refugees on this side of the border are again on the warpath and are endeavoring to work up another revolutionary movement against Mexico. General Lorenzo Garcia, who commands the Northern Military Zone of Mexico, with headquarters at Meier, received word that a band of revolutionists had opened a recruiting station and established their rendezvous at the Jabaline ranch, below this city. General Garcia at once telegraphed the information to General Frank Wheaton, commanding the Military Department of Texas, and the latter ordered Second Lieutenant George L. Laughorne of the 3rd Cavalry, stationed here at Fort Ringgold, to proceed with a detachment of 30 men from Troops A and C immediately to the scene of the reported revolutionary gathering. The troops left here two days ago and nothing has since been heard from them. It looks as though the Mexican revolutionists along the Rio Grande border have entered upon their second winter campaign against Mexico. United States Marshal Paul Frick and his posse are still searching for Catarina Garza northwest of here.

A Poison Snake In the Cabbage.

LEXINGTON, Ky., Aug. 10.—J. H. McIntyre's family of four and the colored cook of Buena Vista, ate cabbage for dinner and died shortly afterward. Upon investigation it was found that a poisonous snake had been cooked with the cabbage.

Smuggled Chinamen Captured.

PORT TOWNSEND, Wash., Aug. 10.—Yesterday afternoon a sloop from Victoria landed a dozen Chinese near Point Wilson and hastily sailed away. The customs officers arrested four of the Chinese and are now on the trail of the others.

Two Tourists Fall Over a Precipice.

VIENNA, July 30.—Two tourists climbing the Raxalpeyestotdayslipped on a boulder-strewn slope and fell over a precipice. Their bodies were found, still roped together, at the bottom of the precipice.

IT WAS WAR TO DEATH.

Miners Rescue a Comrade Who Was Wanted for Criminal Assault.

PETERSBURG, Ind., Aug. 10.—A bloody tragedy is reported from Winslow, this county. Miss Read, the daughter of a respected farmer, was assaulted by one Barnes, a coal miner. Sheriff Stillwell arrested Barnes in McCoy's saloon, when he was at once set upon by a dozen drunken miners, who demanded the release of Barnes.

This was refused and a general fight ensued with knives, razors, billiard cues, etc.

Bartley Stinson, one of the miners, was cut literally to pieces, one gash being on the breast near the heart, about eight inches long, another gash longer and uglier in the chest and abdomen and still another on the back, extending beneath the arm and down the side.

His brother, Pete Stinson, had his throat cut, the gash being about six inches long and very deep, with a deep wound on his breast and one arm about half severed. Both men are fatally wounded.

Lavi Read, brother to the young lady assaulted, who was assistinfi the sheriff, was stabbed in three places and is badly hurt.

Several others were more or less hurt in the melee, but their names are unknown. The sheriff came out with a few painful bruises. No arrests as yet have been made.

A WELL-DIGGER'S BRAINY AIDE.

He Drops a Spade Down a 30-foot Wall on the Head of His Employer.

CINCINNATI, O., Aug. 10.—"Hey, Schneider, send me down a spade," shouted up B. W. Schriechter from the bottom of a 30-foot well on Walnut Hill to his assistant Joseph Schneider, who was in the yard above him. Schneider had just been hired on probation by the well-digger, and he answered with an alacrity which he hoped would secure the job. He took the spade he was using and, leaning over the pit, cried: "Look out! Here comes!" and let it drop.

"Did you get it?" he asked, peering into the hole. But no answer came. Schneider lowered himself into the well to see whether or not the spade reached there all right, and found Schriechter lying unconscious with a long bleeding gash on his head inflicted by the spade, which will probably prove fatal. He managed to bring Schriechter forth and ran away.

READING'S PLAN OF FREEZE-OUT.

Old Employes Have Had Their Wages Cut to Starvation Rates.

HARTFORD, Conn., Aug. 10.—Ever since the Philadelphia and Reading Railroad got control of the Central New England and Western there has been trouble with the men working on the road. Sectionmen have left the road on account of a reduction of wages from $1.50 to $1.25 per day, and the men generally have been dissatisfied and discontented.

On Saturday 35 of the 65 employes in the car shops were discharged without warning. Some of the men had worked for the road twenty years. This seems to imply a determination to centralize all the work of this division in Philadelphia. New sectionmen are being put on, and the men who have left say that there will be trouble.

Watching American Fishermen.

HALIFAX, Aug. 10.—The cruiser Curlew has been sent to sea under sealed orders, undoubtedly to watch American fishermen in the Bay of Fundy where poaching is reported. At present the Kingfisher is the only cruiser on the coast. She was ordered to watch the American fleet at St. John, but a heavy fog set in and barricaded her in St. Mary's Bay several days. Meanwhile the fishermen are reported to have made big hauls.

Crushed between Two Vessels.

PORTSMOUTH, N.H., Aug. 10.—While the schooner Charlotte was getting under way this morning she drifted across the bow of a collier. Two of the Charlotte's crew, Charles Bushnell of Cohasset and William J. Carroll of Boston went into a small boat between the vessels to keep them from fouling. The vessels unexpectedly came together with considerable force, smashing the boat and crushing Carroll to death. Bushnell was forced under water and drowned.

History of a Hungarian Bigamist.

LYNN, Mass., Aug. 10.—John Francis Vadnai, alias Philip Weiss, the Boston artist under arrest for bigamy, was admitted to bail to-day for his appearance Saturday. From the Consulate at Buda-Pesth, Hungary, the police have received a history of Vadnai, showing his marriages to Emma Berger of Buda-Pesth and to an actress, Nagy, the daughter of a hackney-coach driver, before he married Miss Slocum of this city.

OUR MANUFACTURING INDUSTRIES.

The Ottawa government resorts to some strange methods to fortify their position in the country, and one of these is the issuing of false statements and incorrect statistics. Bulletin No. 12 of the census of Canada has just been issued, and is devoted to figures giving the condition of the manufacturing industries of Canada. According to this the number of manufacturing establishments reported in 1881 was 8,338, and in 1891, 14,774, an increase of 76 per cent. Now this looks like a most satisfactory record, but a little examination will show that it is utterly unreliable The bulletin itself admits that it has been "found necessary to analyze the original census returns of 1881, in as much as the published volumes only give manufacturers of 1880—81 for such cities as constituted electoral districts by themselves. In some cases it was found difficult to obtain an exact inventory of the manufactories, because the village returns were merged in the township returns." This admission alone shows that the comparison is not a reliable one, inasmuch as care was not taken in 1881 to obtain exact statistics as to our industrial establishments, consequently the number of those reported for that year was pretty certain to have been underestimated.

But if underestimated in 1881 they have been grossly exaggerated for 1891, as a careful examination of the figures will show. For purposes of this examination we will take Belleville as being familiar to all of our readers. According to the bulletin just issued Belleville in 1881 had 132 manufacturing establishments, in 1891, 195, an increase of 63. In 1881 the capital invested was $641,375, in 1891, $609,575; number of hands employed in 1881, 964, in 1891, 1072; wages paid in 1881, $264,840, in 1891, $313,685; cost of material in 1881, $540,768, in 1891, $531,400; value at factory of products in 1881, $1,091,208, in 1891, $1,204,095.

Now everybody in Belleville knows that these figures cannot be correct, much as we all could wish they were. To say that there are now 195 manufacturing industries in Belleville, or that there are now 63 more than in 1881 is to talk rubbish that can deceive no one here, whatever it may do abroad. It would be interesting indeed to have the census enumerators go around and point out 195 establishments in Belleville that could fairly be classed as manufacturing industries.

In March of last year the ONTARIO printed a list of 58 manufacturing industries that were in existence in 1881, but that had gone out of existence since that time. Add this to the 63 more industries that the census bulletin says existed here in 1891 than in 1881, and we have a total of 121 new industries that must have been established here during the past 10 years, if the census figures be correct. But every citizen of Belleville knows there have not been one quarter of that many established in that decade.

How then were the figures obtained? In 1885 the government appointed commissioners to investigate into and report on the condition of our manufacturing industries. That commission included in their report barbers, butchers, sawfilers, undertakers, dentists under the head of manufacturers, and so made up a marvelous total. It was doubtless by some such method as this that the census enumerators made out that Belleville has now 195 manufacturing establishments.

The absurdity and evident falsity of those returns have been noted and commented on by the press in Brockville, St. Thomas, Barrie, Smith's Falls and numerous other places and already the figures given are utterly discredited by the public. To prove that they are reliable it must be shown that the same kind of establishment were included in the returns for both 1881 and 1891, and this it would be impossible to do.

In an able article on this subject the Montreal Herald concludes as follows:

"Some explanation on this head must be given if the commissioners are to escape a charge of cooking the figures in order to suit. The industrial census was apparently taken in order to exalt the N. P., and to that end considerable latitude seems to have been allowed in the definition of an industrial establishment. It would be interesting to have a clear detail, say of Barrie or Brockville, showing exactly what establishments there are, and giving names to those places that are so far nameless, in order that the public may know whether barbers and lawyers and doctors are pressed in to swell up the number of those who follow the N. P. whereover he goeth."

The nature of the statistics given, and the changes alleged to have been made the last ten years very much resemble the statistics of an old soldier, who totalled up his achievement thus: Battles, 7; wounds, 6; children, 8 — total 21.

A neglected cough brings on consumption — the most fatal and prevalent of all physical ills that flesh is heir to. To check the malady in its early stage, before the deadly turbercles develop themselves in the lungs use Dr. Thomas' Eclectric Oil which also annihilates bronchitis, asthma, catarrh, piles, kidney troubles, and soreness of the muscles and joints.

Annual Session of the Grand Lodge of the Y.M.P.B.A.

OWEN SOUND, Ont., Aug. 10.—The 12th annual session of the M. W. Grand Lodge of the Young Men's Protestant Benevolent Association was opened here Tuesday at 2 p.m., T. H. Wooster, Grand Master, in the chair.

The question of organizing female lodges under the jurisdiction of the Grand Lodge was discussed at full length, but action was deferred until to-morrow. A motion to change the regalia by abolishing the peaked cap was defeated.

Scores of Barns Blown Down.

LONDON, Ont., Aug. 10.—A bad cyclone occurred about 4 o'clock yesterday, extending across the G. T. R. lines between Dumfries and about four miles east of Paris. All telegraph lines, both on highway and railways, are completely prostrated. The majority of poles for 15 miles between Dumfries and Princeton are down. Scores of shanties and barns were blown down or struck by lightning. No. 13 Pacific express lost about 40 minutes running slow through the district, the track in a couple of places being covered by a foot of water. So far as learned up to the present no fatalities have occurred.

Thunderstorm at Penetanguishene.

PENETANGUISHENE, Aug. 10.—The worst thunderstorm within the recollection of the oldest inhabitant passed over here Tuesday morning. The electric fluid set fire to the central telephone office, which is situated in Sneath & Co.'s block. Considerable damage was done to the goods in Sneath's store. A large quantity of live stock was killed.

A Pleasant Herb Drink

The best cure we know of for constipation and headache is the pleasant herb drink called Lane's Family Medicine. It is said to be Oregon grape root, combined with simple herbs, and is made ready for use by pouring boiling water onto the dried roots and herbs. It is remarkably efficacious in all blood disorders and is now the sovereign remedy with ladies for clearing up the complexion. Druggists sell the package at 50c and $1

For all forms of female weakness Dr. Williams' Pink Pills are an unfailing specific. Mr. Thomas Strachan, Postmaster, Roballion writes:—My daughter has been ill for the last four years with female weakness, and had been attended by four of the best doctors in our section. She began the use of Dr Williams Pink Pills, and two boxes have done her vastly more good than all the medicines she took from those doctors.

What She Said

Mrs. R. Peck, 15th street, New York City, visited Canada last year, and had the good fortune to pick up something which not only suited her, but her neighbors also. Writing the manufacturer of Nerviline she says:—"I bought three bottles of Nerviline while in Canada and treated my neighbors to some of it, and all think it the best medicine for internal or external pain they have ever used." Nerviline deserves such commendation, for it is a most powerful, penetrating, and certain remedy for pain of all kinds. Take no substitute.

A Cure For Constipation And Headach

Dr. Silas Lane while in the Rocky Mountains discovered a root that when combined with other herbs makes an easy and certain cure for constipation. It is in the form of dry roots and leaves, and is known as Lane's Family Medicine. It will cure sick headache in one night, For the blood, liver and kidneys, and for clearing up the complexion it does wonders. Druggists sell it at 50 cents a package

The highest praise has been won by Hood's Pills for their easy, yet efficent action.

As an after dinner pill, to strengthen the stomach, assist digestion, and correct any bilious tendencies, Ayer's pills are considered the best. Being sugar coated, they are as agreeable as any confection, and may be taken by the most delicate.

How Mr. W. D. Wentz of Geneva, N. Y, was cured of the severest form of dyspepsia? He says everything he ate seemed like pouring melted lead into his stomach. Hood's Sarsaparilla effected a perfect cure. Full particulars will be sent if you write C. Hood & Co., Lowell, Mass.

CONVENTION OF ELECTRICIANS IN THE QUEEN CITY.

The Goderich Libel Suit—Death of Dr. Edward H. Leger, M.P. for Kent County—Session of the Grand Lodge of Y.M.P.B.A.

TORONTO, Aug. 10.—The annual convention of Wizard Edison's illuminating companies was opened at the Rossin House yesterday morning.

The standing committees of the association were called upon for reports, and from these reports several discussions of practical subjects resulted. These included the importance of high insulation in the interior of buildings and the improvement of safety fuses.

Mr. J. H. McClement raised some interesting questions relative to the possibility of operating electric railway systems from lighting stations, and during the discussion Mr. William Lloyd Garrison, the famous reformer of Boston, was called upon and gave in an exceedingly interesting manner some results of his pioneer incandescent light experience at Brockton, Mass.

By invitation of the association Mr. M. J. Sullivan, for several years official stenographer of the association, and now publisher of The Street Railway Gazette of Chicago, read a paper entitled "The Central Station and Street Railways." Mr. Sullivan's paper showed that there are today no less than 400 street railroads in America using electricity, involving an industry of $400,000,000.

His paper also showed that it was economical to operate as small a number of cars as two, with the electric current, as has been demonstrated by experience. He advocated the consolidation of street railways with the electric lighting stations in order to effect a more economical line of operation.

An interesting and valuable paper, illustrated by statistical tables and diagrams, was read by Mr. J. H. Vail on "The Application of New Apparatus and High Economy Engines in Central Stations to Secure Greater Commercial Efficiency and Economy of Coal."

Among the notables present were: Samuel Insul, the late general manager of the united Edison interests, and now president of the Chicago Edison Company, and L. Stieringer, electrical engineer of the World's Fair.

Goderich Libel Suit.

GODERICH, Aug. 10.—The town hall held a sweltering crowd yesterday afternoon when the magistrate resumed hearing the charge of criminal libel and conspiracy against W. F. Maclean of The Toronto World by M. C. Cameron. Mr. Garrow appeared for the prosecution, Mr. Murphy for the defence. There was a great deal of cross-firing between the two Q.C.'s After the cross-examination of Reporter Fox Mr. Murphy asked that the warrant under which Mr. Maclean was arrested be produced and impounded, notwithstanding Mr. Cameron's advice to the constables at the last court not to do so.

Thereupon a sensation was caused by Mr. Garrow saying that he used to amend the information by striking out the charge of conspiracy, and also the names of Laura Gordon, who was an invalid, and Richard Gore, who could not be found, and making it a simple charge of criminal libel against Mr. Maclean.

DEATH OF DR. LEGER.

The Popular Member for Kent County, N.B., Succumbs to Consumption.

MONCTON, N.B., Aug. 10.—Dr. Edward H. Leger, M.P. for Kent County, died at his home at Grand Ligne, at 4 a.m, yesterday. Deceased was first returned to Parliament at the by-election in 1890, to fill the vacancy caused by the elevation of Mr. P. A. Landry to a County Court judgeship. Parliament dissolved before the session, but Dr. Leger was again successful at the general election He sat one session and went to Ottawa at the beginning of last session, but was unable to take his seat. The dread disease, consumption, had taken a firm hold of him, and he returned to New Brunswick in June to settle up his affairs and die. Deceased was only 27 years and 15 days old, and was very popular. He graduated M.D. at the Detroit, Mich., Medical College, in 1888.

THE ORDER IN THE EAST.

The I.O.F. to Be Registered Among the Fraternal Societies in Great Britain.

BARRIE, Ont., Aug. 10.—About 300 delegates attended the 15th annual session of the High Court of I.O.F. here yesterday.

Dr. Orohnyatekha reported that in a few days the order would be registered among the fraternal societies in Great Britain, and that $10,000 would then be deposited with the British Government and officers sent from Canada to Introduce the order in the east.

A motion was introduced that created considerable discussion, it was relative to holding the High Court sessions at three or four central points in Toronto, Hamilton, London or Ottawa. The motion was defeated.

"German Syrup"

Croup. We have selected two or three lines from letters freshly received from parents who have given German Syrup to their children in the emergencies of Croup. You will credit these, because they come from good, substantial people, happy in finding what so many families lack—a medicine containing no evil drug, which mother can administer with confidence to the little ones in their most critical hours, safe and sure that it will carry them through.

ED. L. WILLITS, of Alma, Neb. I give it to my children when troubled with Croup and never saw any preparation act like it. It is simply miraculous.

MRS. JAS. W. KIRK, Daughters' College, Harrodsburg, Ky. I have depended upon it in attacks of Croup with my little daughter, and find it an invaluable remedy.

Fully one-half of our customers are mothers who use Boschee's German Syrup among their children. A medicine to be successful with the little folks must be a treatment for the sudden and terrible foes of childhood, whooping cough, croup, diphtheria and the dangerous inflammations of delicate throats and lungs.

THE THREE FATES

BY

F MARION CRAWFORD is an excellent book, The plot is sufficiently interesting without being too intricate. A number of pretty situations and startling denouements are admirably sketched by the author.

The young writer who is the hero of the play, meets with his three fates, the first he loves, but she destroys her own happiness by refusing him, the second loves him, and her mother's intrigues to catch him are only made unsuccessful by the discovery of a deceit she has practised, and finally his third appears on the scene.

This is one of the finest novels placed before the reading public for some time, and its popularity will grow with the more thoughtful class of readers, and the wisdom of the writer, and the beauty of his characters will be appreciated years hence perhaps more than now. At

DR. WILLIAMS' PINK PILLS FOR PALE PEOPLE

ARE NOT a Purgative Medicine. They are a BLOOD BUILDER, TONIC and RECONSTRUCTOR, as they supply in a condensed form the substances actually needed to enrich the Blood, curing all diseases coming from POOR and WATERY BLOOD, or from VITIATED HUMORS in the BLOOD, and also invigorate and BUILD UP the BLOOD and SYSTEM, when broken down by overwork, mental worry, disease, excesses and indiscretions. They have a SPECIFIC ACTION on the SEXUAL SYSTEM of both men and women, restoring LOST VIGOR and correcting all IRREGULARITIES and SUPPRESSIONS.

EVERY MAN Who finds his mental faculties dull or failing, or his physical powers flagging, should take these PILLS. They will restore his lost energies, both physical and mental.

EVERY WOMAN should take them. They cure all suppressions and irregularities, which inevitably entail sickness when neglected.

YOUNG MEN should take these PILLS. They will cure the results of youthful bad habits, and strengthen the system.

YOUNG WOMEN should take them. These PILLS will make them regular.

RESULT OF DRINKING.

A Terrible Tragedy at Fluvanna, on Lake Chautauqua.

JAMESTOWN, N.Y., Aug. 10.—A terrible murder and suicide was enacted last evening at the hotel at Fluvanna, three miles above this city, on the lake.

Patsy Dowd of Dunkirk was out driving with a couple of disreputable women from this city. It seems they had some words and Dowd hit one of the women in the mouth, drawing blood. This occurred a short distance above Fluvanna. They drove to the hotel and all got out and went in.

A young man named George Hass and some companions were there, and as one of the women, whose name was Nina Fahey, had blood on her face, Hass asked her what was the matter. She told him that Dowd had hit her in the face.

Dowd and the women then entered the parlor and closed the door.

Dowd drew a revolver and Hass and his companions threw beer bottles at him. He fired and Hass fell dead with a bullet in his heart. Dowd then left the hotel and the police from this city were sent for.

Dowd returned in a few minutes and seeing what he had done turned the revolver toward his heart and fired four shots into his body. He died in a short time.

TRAIN ROBBERS BAULKED.

A Texas Train Flagged Just in Time to Prevent a "Hold Up."

PARIS, Tex., Aug. 10.—As the southbound Texas and St. Louis Express approached the Winslow Tunnel yesterday it was flagged by a watchman, who notified the conductor 10 or 12 armed men had rented a house near there about three hours before and made particular inquiries about the train.

The conductor then backed the train to Winslow. As the train started back, three men who got on board the train at Winslow jumped off and disappeared in the thicket.

The superintendent at Fort Smith was notified, and a strong force of deputy marshals went down and guarded the train through.

When the train first left Winslow station a shot was fired on the mountain side near by, another near the tunnel and a third from the top of the ridge over the tunnel.

It is supposed these shots were signals for the gang at the west end that the train was coming, as it was found that preparations had been made for a "hold-up" at a high trestle near the west end.

It is thought the men lying in wait were the Dalton gang.

SHERIDAN, THE "INVINCIBLE."

Probably Fatally Hurt by Being Jammed Against a Gate.

CHICAGO, Aug. 10.—P. J. Sheridan, the "Invincible," who was charged by the British Government with the Phœnix Park murders, and whom it tried to extradite from France, and then from this country, was crushed between a vehicle and a gate in his ranch, eight miles south of Monte Vista, Colorado, and is probably fatally hurt.

Conference With the Secretary of State.

WASHINGTON, Aug. 10.—Various representatives from the lake ports of the United States, including Duluth, Cleveland, Oswego and Ogdensburg, held a conference with the Secretary of State respecting terms in which the proclamation of the President should be issued under the joint resolution of Congress relative to the discriminating Canadian canal tolls, should it become necessary to issue the proclamation by reason of the failure of the Canadian Government to relieve American commerce from such discrimination.

A Horse Attacks Two Ladies.

NYACK, N.Y., Aug. 10.—While driving here to-day Mrs. T. H. Story and her sister, Miss Cartwright of New York, guests at the Tappan Zee hotel, met with a strange and quite a serious accident. A horse ridden by Edmund Polhemus of Brooklyn jumped into the carriage, almost wrecking the vehicle and throwing both ladies to the hard macadamized road. They were carried into a house near by and attended by Dr. Polhemus. Both were bruised and shocked, and the horse's teeth made an ugly gash on Mrs. Story's forehead. The ladies are now resting comfortably at the Tappan Zee.

Fell Five Stories, But She Was a Baby.

NEW YORK, Aug. 10.—Annie Hiddleton, 18 months old, whose parents live on the top floor of the five-story building, No. 53 Catharine-street, was playing last evening on the fire escape, when she fell to the ground.

When examined by a physician it was found that the little one was damaged only to the extent of a broken right leg. She was cared for at home.

Killed By Five Hundred Volts.

PORT HURON, Mich., Aug. 10.—Newton Talbot, a lineman employed by the City Electric Company, was almost instantly killed at 9 o'clock Tuesday morning. He was working on the trolley wire at the time and came in contact with a guy wire. He was rescued almost instantly, but he did not live. The short duration of the contact and the fact that the current is only 500 volts causes considerable surprise that he should have been killed.

Mrs. Croft Hid the Wine.

PITTSBURG, Pa., Aug. 10.—Arthur Croft, a tinner, swallowed five ounces of carbolic acid yesterday in mistake for wine and died in great agony this morning. Mrs. Croft had secreted the wine from her husband, and in seaching for it Croft came across the carbolic acid bottle and drank from it without looking.

Cheering Gladstone From New Zealand.

WELLINGTON, N.Z., Aug. 10.—Sir George Grey, Premier of New Zealand, and thirty members of the Legislature yesterday wired the following message to Mr. Gladstone: "Faint not from old age. Be steadfast to the end."

Three Moons in Mars.

WASHINGTON, D.C., Aug. 10.—Mars has perhaps a third moon. Prof. Hall, the discoverer of Dimos and Phobos, the satellites, believes it not unlikely that there is still one more.

Killed by Lightning.

BARRIE, Ont., Aug. 10.—Mr. James Anderton, the well-known proprietor of the Fairview Brewery, took shelter in a barn on his farm during the storm last evening. The barn was struck by lightning and burned to the ground, and it is thought Mr. Anderton received a shock and was unable to escape from the burning building.

All through the Provinces the rapid crease of La Grippe, is causing great alarm. A report was received here to-day, of a new development o the disease, which is worse, perhaps than any other. Wm. Hanley of N. Y. City, died in terrible agony after sickness of only four days. His tongue swelled to such an extent as to make it impossible for him to close his jaws or swallow any food. The report is causing the people in this district to recur to the noted Grip-cure, recently referred to in so many papers. In Cape Breton the disease has proad very rapidly and with fatal results, D. J. McKillop of L'Archeveque writes Feb. 11th that this cure has been tried in his neighborhood and with such success that all those residing there are obtaining a supply believing it to be the only remedy affording reliefand effecting a certain cure. He finished his letter by asking for a large quantity of the Medicine (Dr. Morse's Indian Root Pills) to supply the demands of the community for the relief of LaGrippe.

For You or O

GENTLEMAN,—One of my little girls (aged 4 years) had been troubled with costiveness in its worst form since infancy. We tried different remedies which gave relief while using, but as soon as discontinued she would be worse than before using. She lost her appetite and was growing weak and delicate. A friend of mine who had used B B B with grand results for the same disease advised me to try it, and also the Burdock Pills, which we did. She did not take the contents of one bottle before it relieved her, and not only relieved her but permanently cured her, for she has not been troubled since since, and she is now eight years old

Advice to Mothers

Mrs. Winslow's Soothing Syrup has been used by millions of mothers for children teething for over fifty years, with perfect success. It relieves the little sufferer at once, produces natural, quiet sleep, and freeing the child from pain, and the young cherub wakes as bright as a button.' It is pleasant to taste, sooths the child softens the gums, allays pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhoea, whether arising from teething or other causes 25 cts a bottle.

A Question

How can we raise more corn to the acher? Why, of course by using Putman's Corn Extractor. Putman's Painless Corn Extractor has given universal satisfaction, for it is safe, sure and painless. Like every article of real merit it has a host of imitators, and we would specially warn the public to guard against these dangerous substitutes offered for the genuine, Putman's Extractor. N. C. Rev William Hollinshed

Pastor of the Presbyterian church of Sparta, N. J., voluntarily writes strongly in favor of Hood's Sarsaparilla. He says "Nothing I know of will cleanse the blood stimulate the liver, or clean the stomach like this remedy. I know of scores and cores who have been cured by it."

Increase Your Weight

If you are losing flesh and blood, commence at once using Miller's Emulsion of Cod Liver Oil, which is far ahead of all other preparations of the kind in existence By taking Miller's Emulsion people gain from 5 to 10 lbs. by the time the first bottle is consumed. It is the greatest blessing of the century to all in delicate health for who suffer with couchs, colds and ailments that tend to consumption. Remember, Miller's Emulsion contains the consituents in wheat.

A Friend

Wishes to speak through the *Register* of the beneficial results he has received from a regular use of **Ayer's Pills.** He says: "I was feeling sick and tired and my stomach seemed all out of order. I tried a number of remedies, but none seemed to give me relief until I was induced to try the old reliable Ayer's Pills. I have taken only one box, but I feel like a new man. I think they are the most pleasant and easy to take of anything I ever used, being so finely sugar-coated that even a child will take them. I urge upon all who are

In Need

of a laxative to try Ayer's Pills."—Boothbay (Me.) *Register.*

"Between the ages of five and fifteen, I was troubled with a kind of salt-rheum, or eruption, chiefly confined to the legs, and especially to the bend of the knee above the calf. Here, running sores formed which would scab over, but would break immediately on moving the leg. My mother tried everything she could think of, but all was without avail. Although a child, I read in the papers about the beneficial effects of Ayer's Pills, and persuaded my mother to let me try them. With no great faith in the result, she procured

Ayer's Pills

and I began to use them, and soon noticed an improvement. Encouraged by this, I kept on till I took two boxes, when the sores disappeared and have never troubled me since."—H. Chipman, Real Estate Agent, Roanoke, Va.

"I suffered for years from stomach and kidney troubles, causing very severe pains in various parts of the body. None of the remedies I tried afforded me any relief until I began taking Ayer's Pills, and was cured."—Wm. Goddard, Notary Public, Five Lakes, Mich.

The diocese of Kingston contributed $1-935 to home rule fund; $65 will be subscribed to make it $2,000 which will be forwarded to Ireland by Archbishop Cleary.

The Donnelly Salvage and Wrecking Co. did some quick work on the schooner Kate, sunk near Thompson's Point. They commenced to raise her Sunday noon, and Monday morning towed her into the Picton harbor. They are now engaged raising the Princess Louise.

The board of education met last night and appointed W. Knight of Cranbrook, Huron County, Mathematical master out of nine applicants at a salary of $800 a year. He was telegraphed of the decision of the board to-day. Several small accounts were read and passed.

Probably the best "hail story" yet is one regarding a well-known Front street merchant. It is said that he took out several bushel baskets and gathered in enough ice to last him several days, so that he might cut down his ice bill.

Mr. Hall called on the ONTARIO to explain why the lamp at the corner of John and Queen streets was not lighted on Monday night. His contract with the city calls for the lighting of the lamps 275 nights in the year, leaving 90 nights in which they were not to be lit. The committee fixed on the four nights previous to full moon and four nights after as the ones when the lamps should not be lit. Monday night was the first night after full moon, so this explains why the lamp was not shining.

Hail fell this morning in Sidney and in the city about six o'clock this morning which did widespread damage. It was not felt in Thurlow. Several farmers suffered considerable damage to their crops, and the spectacle can be seen this morning of farmers turning their cattle into their grain.

A noble specimen of the Gruscanadensis (Sand Hill Crane) was shot by Mr. Douglas, supervisor at the D & D Institution, this morning on the shore just south of the Institution. The bird measures across it's outstretched pinions five feet four inches, and in pendant position, from tip of the bill to the toes, four feet eight inches. A Kingston taxidermist will exercise his vocation in restoring to it a like appearance.

A very exciting race took place between the North King and Bon Voyage besween Alexandria Bay and Round Island on Sunday evening. The latter boat had a good lead, but the King gradually overhauled her and for some time both steamers ploughed along side by side. At last they ran so close to one another that they touched and friends shook hands across deck railings. The Bon Voyage held back at Round Island, as she had to make the dock there.

The Dominion of Canada has been allotted 80,000 square feet of space in addition to the large allottment already made in England. The space is divided as follows: Forestry, 4,000; Horticulture, 8,000; Mines, 10,000; Machinery, 11,471; Transportation, 15,000; Manufactures, 15,000; Liberal Arts, 5,000. No space has as yet been assigned for the large agricultural and live stock displays.

The dates of the horse races in Belleville have been changed from August 30 and 31st to the 31st and Sept. 1st. James Ketcheson the manager of the Park Association is now engaged in soliciting subscriptions. Every effort will be made to have a successful meeting. It is proposed to advertise the races very extensively throughout the province and there will no doubt be a large number of horsemen attracted to the city.

We do not know of any preparation that has caught the public favor in so short a time as Dodd's Kidney Pills, but when we onsider that three-fourths of the Canadianpeople are afflicted with kidney troubles in some form or other, and that Dodd's Pills are a quick and permanent cure for all these troubles, the large and increasing demand can scarcely be wondered at. Sold by all dealers or by mail on receipt of price, 50 cents per box. Dr. A. L. Smith & Co. Toronto.

There are more cases of sickness and death from diseased kidneys than from all other diseases combined. It is your own fault if you allow your kidneys to remain in an unhealthy condition when the cure is at hand. Dood's kidney Pills are guaranteed to cure the worst case. It costs but little to give them a trial. They are for sale by all druggists and dealers or by mail on receipt of 50 cts. or 6 boxes for $2.50. Write for book called Kidney Talk.

THE UNION PIC-NIC.

It Began Well, but Rain Interfered in the Afternoon.

The Brotherhood of Locomotive Engineers and the Brotherhood of Locomotive Firemen were in hard luck yesterday. It was the day for the grand union pic-nic of the two societies. From early morning the weather looked threatening, but no rain fell in the forenoon, and towards noon the sky cleared and everything bid fair for a beautiful day. But the weather now-a-days is a mighty uncertain thing, and ere night fell it demonstrated how little dependence could be placed on it.

The first boat went over in the morning and carried a large number of picnicers, and at 10.30 the games began. The entries were numerous and the various events well-contested and until noon the fun was fast and furious. A halt was then made for dinner and for the other boat, which was to come at 1.40. It arrived in due time with a large crowd on board, but just as the games were about to be renewed down came the rain in a torrent. From this time till late at night it fell at frequent intervals. After a shower was over an effort would be made to go on with the games, but scarcely were they begun before the rain would again begin to fall, scattering the spectators in all directions and preventing further progress. The afternoon was completely spoiled, the crowd was wet and disappointed, and in the evening they went home, dodging between showers, but most of them getting more or less of a drenching.

It was a great disappointment to all concerned. The energetic committee had worked hard to make the affair a success, their arrangements were complete in every detail, a fine programme of sports was assured, but they could not foresee or control the weather, which is the arbiter of the success of all public demonstrations.

About half of the games came off, however, and some of the contestants were made happy with their well-won prizes. The tug-of-war created the most interest. It was keenly contested, but after a hard pull the muscle of the firemen prevailed and pulled the rag across the mark. P. C Morton won the quoit match with ease while the fat man's race was won by T. Collins, George Teale and T. Brown dividing the second prize between them.

The moonlight advertised for the evening did not go out on account of the rain.

The committee who had charge of the day's program was composed of P. Acton, G. Teale, T. M Donald, J. Casey, G. Collins, T. Brown, H. Lavoie, T. Daly, W. Andrews, N. Snell, L. Rogers, T. Sheehan and V. Wensley, J. Kain was chairman of the committee, W. C. Logue, secretary, and Geo. Teale, chairman of the games committee.

THE POPULAR QUEEN'S.

Is Being Refitted and Refurnished Throughout at Considerable Expense.

Extensive repairs are being made to the interior of the Queen's Hotel, the popular holstery. Already five hundred dollars have been put into new furnishings until the hotel has been made in every respect one of the leading houses in Canada. The rooms have been papered, carpeted and calsomined throughout. Several valuable oil paintings have been added to the bridal chambers, while the woodwork has been repainted, draperies and curtains added to the larger rooms and in several rooms old furniture has been replaced by new goods. The popular Power Bros. have been able to work up a large trade by their geniality and attention to the comfort of their guests.

Ask Your Friends

Who have taken Hood's Sarsaparilla what they think of it, and the replies will be positive in its favor. One has been cured of indigestion and dyspepsia, another finds it indispensable for sick headache, others report remarkable cures of scrofula, salt rheum and other blood diseases, still others will tell you that it overcomes "that tired felling," and so on. Truly, the best advertising which Hood's Sarsaparilla receives is the hearty endorsement of the army of friends it has won by its positive medicinal merit.

FOXBORO NEWS

We have had several changes in real estate here this summer. B. Foster has moved in his fine residence which he built last spring. Some times when the other fellow is away from home his neighbors take the advantage and trade pumps and then they are compelled to trade back.

Well, our summer boarders are here as usual to spend vacation.

The Ladies Aid Society of the south church are booming the ice cream parlor every Saturday evening with grand success. They have on hand now about $250 The intend holding a fruit festival about the middle of September. They are bound to buy the brick for a new church, and when the ladies say they will they mean it

Our canvas Painters are here for a short time.

Our Foxboro band is getting in good shape again and practice every Monday evening. Mr. S Westover, the leader says he will bring the boys to the front where they once were.

The farmers ar complaining about too much rain just now. Our weather prophet says we will have a good deal of rain in this change of the moon, but the next will be dry unless the wind is from south or south west at time of change, and we have found him generally correct.

The threshing machines are at work, but wheat is not turning out as well as other years. It seems to be very light on account of rust.

It seems that the Patrons of Industry have left our village. Are they dead or moved away to find a hall to meet in. They must have got too much salt last spring, and dried up for want of funds. Mr. Elsha Phillips has been confined to his house for the last two months on account of ill health, but Dr. Faulkner thinks he can bring him out again with good care.

Messers J. J. B. Flint, P. J. Anderson and Mr. Lake, spent a day here fishing on the Moira river and no doubt can now tell a fishing story.

MADOC NOTES.

J. R. Orr and Alex. Morris left on Monday for Windsor to attend the meeting of the Grand Lodge of I.O.O.F.

The threshers started out this week. Farmers report excellent crops. During the last six weeks there has been ten thousand dollars paid to Madoc farmers for hogs. There has also been large shipments of cattle and lands, the only thing being a drag on the market is horses.

Wednesday is our civic holiday. The Methodists have an excursion to Campbellford that day.

Mr. L Wise, an old German resident of this town leaves shortly for a trip to Germany. He has many friends here.

A Big Difference

The proverbial difference between chalk and cheese is not more pronounced than the difference between what some stores show in clothing and what the Oak Hall show. We are interested enough in having top values to find out one way and another just how to buy goods right. It is perfectly natural for a store that advertises at all to shout "better values," "best values," but it is another thing quite to be able to back up the statement. The Oak Hall are always on the qui vive to catch up every new idea that tends to make clothing wear better, fit better and give better all round satisfaction than it's possible to get elsewhere.

There was not a very large number of boxes boarded on Tuesday, but the prices offered were good. The advance in the price of cheese is a gratifying one to patrons of the factories, and still further increases are looked for.

At the Campbellford cheese board meeting yesterday the ruling price was 9¾.

1000 Island Excursion

Rev. D. O. Crossley of the Tabernacle and Rev. F. B. Stratton of Trenton, announce a grand double trip excursion to the 1000 Islands to take place on Saturday, August 13th and 20th—two Saturdays in succession, returning on following Monday. Those wishing to do so may remain a week and return on second Monday. They have been fortunate in securing the best dates of the season at the park, and will no doubt have a large patronage each date. Tickets only $1.00 on steamer Hero. Boat leaves Belleville at 7 a.m.

What Stronger Proof

Is needed of the merit of Hood's Sarsparilla than the hundreds of letters continually coming in telling of marvellous cures it has effected after all other remedies had failed? Truly, Hood's Sarsaparilla possesses peculiar curative power unknown to other medicines.

CRIMINAL ASSAULT.

A Man Attempts to Ravish a 11 Year old Girl.

A week ago last Saturday night a deck hand on the Empress of India made a dastardly assault on the eleven-year-old daughter of George Altpeter, 184 River street, Toronto. Mr. Altpeter was taking a trip to Rochester with his family, and during the night his daughter went out of the cabin in search of a drink of water. Her father happened to be strolling about at that time, and hearing a child crying for help ran to its assistance and found it was his daughter. The assailant made good his escape at the time, and it was alleged that he jumped on board the Carmona and succeeded in returning to Toronto. The father reported the matter to the police, and one Plunkins was arrested yesterday in Picton on the charge and taken to Toronto by Detective Black.

SPORTING WORLD

A young woman, Francis Milfred, has arrived in Chicago from Missouri, anxious to become a jockey. She knows how to handle a horse and once won a race at her home county fair. She declares she has no wish to work a typewriter or call "cash," and sees no reason why this industry should not be open to women. She says she weighs just 110 pounds and could train down if necessary. If Chicago rejects her services she proposes to go further east.

SKULLS AND SHELLS.

The Grand Trunk Picnic at the Park yesterday was an unqualified success. The sporting events was the feature of the day and the Grand Trunkers know how to conduct them to the satisfaction of all. In the two mile shell race Edward Keton took first money, John Weir second and Thos. Power third. The latter was handicapped by the breaking of his stretcher.

The half mile skiff race was won by Edward Keton, Bert Campbell second. Mr. Ormand's steam yacht got first money in his class over a two mile course with Moria second. It was a contest of coal against coal-oil the former having the best fuel.

How They Look Best.

An artist's rule as to color is: Choose carefully only those tints of which a duplicate may be found in the hair, the eyes or the complexion. A woman with blue grey eyes and a thin, neutral-tinted complexion it never more becomingly dressed than in the blue shades in which grey is mixed, for in these complexions there is a certain delicate blueness. A brunette is never so exquiste as in cream color, for she has reproduced the tinting of her skin in her dress. Put the same dress on a colorless blonde and she will be far from charming, while in grey she would be quite the reverse.

The reason is plain. In the blonde's sallowness there are tints of grey, and in the dark woman's pallor there are always yellowish tones, the same as predominate in the cream-colored dress. Women who have rather florid complexions look well in various shades of plum and heliotrope, also in certain shades of dove-grey, for to a trained eye this color has a tinge of pink which harmonizes with the flesh of the face. Blondes look fairer and younger in dead black, like that of wool goods or velvet, while brunettes require the sheen of satin or gloss of silk in order to wear black to advantage.

The Statue of Sir John.

Sir C. S. Gzowski writes from London to Mr. T. C. Patteson that he had just inspected Onslow Ford's model of the statue of Sir John Macdonald, which it is proposed to erect at Toronto, and was accompanied by Lord Lorne, who expressed the highest approval of the work. Lord Lorne has taken the warmest interest in Mr, Ford's efforts to obtain a satisfactory likeness, and Sir Casimir will bring over the model with him on the Parisian, sailing 18th inst. The Canadian sculptors who have been invited by Mr. O'Brein to submit models to the committee will doubtless also be on hand with the results of their industry and ability, so that early in September at the latest, a choice may be expected, and the work given out for execution.—Empire,

Too Profitable a Fire.

The following is a copy of a letter from a town in New Hampshire received at the office of the Hartford Fire Insurance Company one day last week: "I enclose $100 in this letter which I want paid to the Hartford Fire Insurance Company of Hartford. I though I got more insurance than my right." Enclosed was a $100 bill of the First National Bank of Concord, N.H. The writing is identified as similiar to two previous communications received by the company, including, respectfully, $50 and $100, making a total of $250 already received from this one source. It is evident that some beneficiary of the Hartford received more than his due, and he is endeavoring to quiet his conscience by returning in instalments the amount overpaid. Several thousand dollars have been received by the Hartford under similar circumstances.

A Woman Who Works a Farm.

Minnesota boasts of one of the most successful woman farmers. She is Miss Sarah Pollard, and she owns half a section of land in Polk county, where she works without any help except in harvest season. She is a young woman of many accomplishments and left a comfortable home in the East to take up her agricultural career. She does her own ploughing, seeding, and harrowing, and operates her entire farm without assistance or counsel. When she is engaged in her active occupations she wears a short skirt falling just below the knees and knee breeches to match it.

Romance Dispelled.

The "Joe Howe" Memorial.

A memorial to "Joe Howe" is to be erected in Victoria Park, near Truro, N. S. Howe is considered by many persons to be the greatest statesman and orator of a Province which is noted as a breeding ground for public men. In his earlier years he fought many battles for Liberalism and liberty in Nova Scotia. Toward the end of his career he was noted as a bitter opponent of Tupper and the scheme of Confederation; but when the deed was done he accepted the situation and entered Dominion the Cabinet. The Truro Guardian says that Mr. Howe was one of the finest specimens of an almost extinct race of statesmen, and that politics in those days were higher and nobler principles than those that too often prevail to-day. "In the present degenerate days, when public men are often found corrupt and mercenary, and making use of their public positions of trust to promote their own interests and get rich at the public expense, it is a relief to turn back for a moment to other and happier days in our own little Province and to reflect that Mr. Howe, whatever his failings may have been, was never guilty of anything so low and vulgar as plundering the public chest, but that he gave the country the full benefit of his magnificent talents and services for a comparative pittance as regards salary, and died a poor man."—Globe.

THE REASONS!

GOUGH CAN SELL CHEAPER THAN OTHER DEALERS

FIRST—Because we are the largest Clothiers in Canada, and SECOND, because we are not the supply account of any firm, and consequently are not compelled to handle only one manufacturer's goods, and at whatever prices they have a mind to ask. THIRD—Because we have ample means to buy wherever we like, and no matter how large the stock, whether it is $1,000 or $100,000 worth we are always prepared to pick it up if it is a snap, and FOURTH—Because we sell ten times more goods than any other firm, and consequently can sell on a smaller margin of profit.

Some of our high price friends cannot see anything funny about GOUGH selling so cheap, and call us "Fake" dealers, but when inaugurating this One Price and Low Price System we did so with a determination to

"Hew to the Line; let the Chips fall where they may!"

And if in fulfilling this mission we are breaking the back bone of our high price oppositionists, we are sorry for them, for we mean them no harm, but claim the right to do our business in a

SQUARE, HONORABLE WAY,

GIVING DOLLAR FOR DOLLAR EVERY TIME.

Yes, we are called "fake" dealers and "low" dealers by our opponents. Well, we freely admit we are low dealers, wallowing in the lowest depths of bed rock prices, while our exalted brethren look down upon us from their high place and go wild because we are capturing their trade, and this is the sequel to their calling us "fake" dealers, etc., but it won't go down, for the name of GOUGH is provincial, and a household word in every family.

Don't forget our

and we are giving extraordinary cuts all along the line, as we are determined to carry no goods over until next season, but require the room for our Big Fall Stock which will commence to arrive next month.

REGRETS.
The proprietor of our store regrets his inability to wait on more customers owing to deafness. Besides the business is now so large as to demand his attention in other ways. The Millinery, Mantle and Dress Making departments require much attention. And the office needs almost constant attendance, and commercial travellers are buzzing around like mosquitoes. So if customers are not waited on in part by our proprietor they will understand the reasons.

UNITED STATES NOTES.

THE $20,000,000 TRAIN ARRIVES SAFELY IN NEW YORK.

Guarded by Well-Armed Men—The Big Coin Shipment Treated as a Registered Letter by the Postoffice Department.

NEW YORK, Aug. 11.—The undertaking of the railway postal service to transport safely $20,000,000 in gold from the Sub-Treasury in San Francisco to the Sub-Treasury in this city has been successfuly accomplished, the vast treasure now being locked up in the massive vaults in Wall-street.

The shipment was the largest of the kind ever attempted for anything like the distance involved, and the precautions taken for its safe transport were of an extraordinary character, making robbery practically out of the question. The treasure cars themselves were of steel and supposed to be bomb proof. Half a hundred and more trusty guards were aboard the train, each armed to the teeth, and arrangements had been made whereby the authorities of the postal service were informed by telegraph of the location of the train every quarter or half hour of the total time consumed in the journey.

The train left the metropolis of the Pacific slope at 6.30 o'clock on Thursday night and made the fastest run that has yet been made between that city and New York, covering the distance in 107 hours.

The train was in charge of Captain James E. White of the railway service, with 57 assistants.

The train consisted of five cars, one private car directly behind the engine, where, through the observation end a guard was kept day and night over the engineer and fireman; one mail and three express cars. In each car was an officer of the railway mail service and ten guards, each of whom carried a Colt revolver and a carbine.

The $20,000,000 was packed in wooden boxes, sealed and registered, and equally divided among the four cars. The guards slept upon these boxes, and not for a single moment were they left unguarded.

TO FERRY CARS 60 MILES.

Bold Move of Railroad Men to Cross Lake Michigan.

DETROIT, Mich., Aug. 11.—Preparation is being made, and the experiment will be tested during this fall and winter to deal shipping interests of the great lakes one of the severest blows that that industry has yet received from the railroads. Apart from the package freight carried by the swift steamships, there is hardly anything for vessels to take from Lake Erie to Lakes Michigan and Superior excepting coal. It is at this traffic that the railroads are now casting their eyes, and an attempt to gather it in is now being prepared for. At the yard of the Craig Shipbuilding Company in Toledo there are under construction two huge and peculiarly-shaped hulls. They are 260 feet long, 52 feet beam and 19 feet deep and will cost when completed about $180,000 each. They are for the Toledo, Ann Arbor and North Michigan Railroad and will both be completed this fall. Each of the steamers will be fitted with four tracks and will be capable of carrying 24 cars. They will be operated between Frankfort, Mich., and Kewanee, Wis., a route that is 60 miles long and can be covered in six hours. The projectors of the scheme figure that cars can be taken across at a cost of $2 each, against a present cost of $7, when bulk is broken. This refers to the handling of general merchandise. But it is the coal business that the best results are looked for.

ONTARIO'S NEW LAKE LINE.

It Will Have Steamers in Commission Between Duluth and Oswego.

NEW YORK, Aug 11.—Before another season the New York, Ontario and Western Railway will probably have a through line of its own to Duluth and the Northwest. The company has been considering the plan for several years. President T. P. Fowler, General Manager J. E Childs, General Freight Agent J. C. Anderson and other officials of the road are out of the city on an inspection tour. About this time they are measuring the Welland Canal with a tape line to find out what draught of steamers will go through.

The Ontario and Western has extensive wharves at Oswego and it has done considerable business in connection with the Ogdensburg Transportation Company, but it has no regular line and the purpose is to establish such a service. It is calculated that one of the existing steamer lines can be induced to make Oswego its regular terminus in case enough freight both west and east bound is guaranteed.

This will be the first effort of the Ontario and Western to participate in the lake and rail traffic. In some respects it has an advantage over its competitors. It has the shortest rail line from the lakes to tidewater and it can therefore haul freight somewhat more cheaply.

This new move of the Ontario and Western will give it a much better opportunity to secure Northwestern business.

MANKIND WERE MONKEYS.

A German Commits Suicide, Having Found Life to Be a Nightmare.

NEW YORK, Aug. 11.—Before Phillip Kraus of 315 Manger-street, Williamsburg, leaped into Newton Creek he had written the following letter in German, which was found in one of his pockets:

"I don't see the reason why I should be amongst animals and monkeys. You are nothing but birds, rats, nightmares and vermin. I want to know what God had against me to make me live amongst such animals as these. You are nothing but d——d tramps and cratans.

"I do not want my wife to die. I want her to dry up as a mummy and live forever. She promised to be faithful to me and was not. I wish her anathema, and I will follow her and her children day and night forever and ever. I pray God to give me the right when my soul goes before Him to do so. Now good-bye, for you will get money." The suicide's life was insured for $5000.

Bound, Robbed and Maltreated.

NEW YORK, Aug. 11.—Chilian advices report that a band of 15 bandits recently made a descent on the San Juan del Parai estate near Santiago, operated by Jose Miquel Velasco. Velasco was shot and killed in the presence of his family and his body mutilated and robbed. Mrs. Velasco seizing one of her children sought refuge in another room, while Velasco's sister with two other children fled to the yard. Mrs. Velasco was soon caught, bound, gagged, robbed and maltreated.

Took Embalming Fluid and Died.

WILLIAMSBURG, Aug. 11.—Michael Ferris, 32 years old, died at St. Catharine's Hospital last evening from the effects of drinking embalming fluid in mistake for neat water.

Two Tourists Fall Over a Precipice.

VIENNA, July 30.—Two tourists climbing the Raxalpeyestotday slipped on a boulder-strewn slope and fell over a precipice. Their bodies were found, still roped together, at the bottom of the precipice.

A SERIES OF TRAGEDIES.

Followed in St Louis a Mother's Wholesale Malediction.

ST. LOUIS, Aug. 11.—This city was thrown into a state of great excitement shortly before noon yesterday by the news that Hon. James C. Normile, judge of the Criminal Court, had committed suicide at his boarding house, No. 1422 Washington-avenue. Judge Normile returned to his boarding house at 10 o'clock this morning after a short visit to the business portion of the city. On entering he requested his landlady to come to his room in an hour, stating that he felt unwell and might be seriously ill at that time. The judge retired to his room, and when it was visited by the landlady at 11 o'clock she found him lying dead on the bed. On a small table was an empty phial, which had evidently contained acid of a deadly character.

Lawyers Broke His Heart.

Some time ago The Post-Dispatch of this city severely criticised the judicial administration of Judge Normile, and recently the judge brought suit for libel against that paper in the sum of $400,000. Yesterday depositions were being taken in the proceedings and Judge Normile was subjected to a severe examination as to his antecedents, life and rulings. It is believed that the examination preyed heavily on his mind.

Persecuted By a Paper.

The following note was found in a diary on the person of Judge Normile and had evidently been written this morning:

For more than a year the atrocious libelers of The Post-Dispatch have had me on the rack. They have almost unfitted me from performing my judicial duties and made life little less than a protracted torture. For the past week I have slept little. I concluded to go to the office and kill Florence White, managing editor of The Post-Dispatch, but I have just this morning abandoned this purpose, as I shrink from taking human life, especially while being a judge. I cannot fight this paper in the courts. The law is slow, and it would be more than a year probably before I could get the damage case brought to trial. I crave rest, which also I must seek in the grave, upon whose brink I pencil these closing lines.

A MOTHER'S CURSE.

Judge James C. Normile was prosecuting attorney in the famous trial of Walter Lennox-Maxwell, alias Brooks, who was convicted and executed for the murder of his friend and benefactor, C. Arthur Preller, at the Southern Hotel eight years ago. Preller was killed and his body placed in a trunk, where it was discovered several days after the murderer had flown. He was arrested at Aukland, New Zealand, and brought back. His father and mother came from England, where Brooks, sr., is a school master, and made a heroic effort to save him. Failing, they remained till after the execution. Mrs. Brooks was convinced of her son's innocence, and it was said at the time in St. Louis that she cursed the trial judge, the prosecuting attorney, and lastly Governor Morehouse, who refused to interfere.

Judge Van Wagoner failed of a re-election, Governor Morehouse committed suicide in a fit of delirium less than a year ago, and now the prosecutor, Normile, has died by his own hands.

MURDERED HER CHILDREN.

A Woman Gave Her 4-Weeks-Old Babe Poisoned Milk.

MANKATO, Minn., Aug. 11.—At Eagle Lake, a village six miles from this city, Mrs. Martha Koster has murdered her two little children. Sunday morning the woman fed milk poisoned with Rough on Rats to her four weeks' old babe and the child died Monday afternoon. The funeral was in progress yesterday when Constable Minor heard reports that all was not right and suspended the services.

Last evening Mrs. Coster took her only other child, aged 2 years, and after trying unsuccessfully to drown him in a basin of water, carried him to the farm of Joseph Richards, where she tossed him down a 70-foot well, drowning him.

Returning to the village she told Druggist Cook what she had done and then tried to drown herself in Lake Madison, but was prevented. She was arrested and was prevented from committing suicide in the jail by close watching.

THE BARK WENT DOWN.

Collision Between the Saale and a Norwegian Bark.

SOUTHAMPTON, Aug. 11.—Capt. Richter of the North German Lloyd steamer Saale from New York, Aug. 2, for Bremen which arrived at Southampton yesterday reports that at 7 o'clock on the evening of Aug. 4 during a thick fog the steamer came into collision with and sank the Norwegian bark Tordenskjold, Captain Ellertsen, which sailed from Dublin July 3 for New York. The bark went down soon after being struck, but the Saale succeeded in rescuing Captain Ellertsen and his entire crew of 18 men. The Saale received no damage.

THE ODDS ARE 4 TO 5.

Steve Brodie Makes the Market—Betting on Sullivan v. Corbett.

NEW YORK, Aug. 11.—Steve Brodie expects to find a small fortune on Sept. 7. He will bet a lot of money on Sullivan. Brodie called at The World last night and waved a certified check for $1000 in the air.

"I want to bet this against $800," he said, "and the sooner one of Corbett's friends comes along with the necessary the better I'll like it."

Then he dived down in his coat pocket and drew forth a letter which he was anxious to have published. It read:

I want to bet $1000 to $800 or $2000 to $1600 that Sullivan will whip Corbett. There is a splendid opportunity for all these Corbett men to get my good, hard money. Knowing that old John L. will be on Sept. 8 what he is to-day, the champion of champions, I remain the public's obedient servant, STEVE BRODIE.

P.S.—I may be a Jonah in some respects, but here's an air-tight cinch. S. B.

Fatally Injured by a Falling Tree.

BELLEVILLE, Aug. 11.—Charles Parrott, 17 years of age, son of George Parrott of Napanee, was camping on Manhattan with his uncle and during Saturday's storm the tent was lifted off the ground by the wind. Charles Parrott ran out and attempted to hold it in its place when a huge basswood tree near him was broken off and hurled against him with terrific force. His right leg was broken, while the left leg was badly fractured. The boy is still unconscious and is supposed to be fatally injured internally.

Took All His Stock and Implements.

WINNIPEG, Aug. 11.—J. Moore, farmer, living near Morris, has been absent from his farm for a few days. He returned yesterday to find that his wife had eloped with another farmer and taken all stock and implements.

TRIED TO POISON HERSELF.

A Jealous Woman Who Took a Dose o Sulphate of Zinc.

HAMILTON, Aug. 11.—Early yesterda a man, greatly excited, rushed in Dr Baugh's house and told him that his wife Mrs. Clarkson, who lives in Cannon-street between Steven and Ashley-streets, ha tried to poison herself. The doctor wen with the man and found his wife suffering great pain. She admitted that she had taken a large dose of sulphate of zinc which she had purchased at a drug store. Dr. Baugh used a pump and succeeded in improving the woman's condition.

Mrs. Clarkson is about 24 years old. She got jealous because her husband was with some other woman. She became desperate when he did not come home last night and took the poison. Clarkson found her in a dangerous condition when he returned home in the morning.

I.O.O.F. GRAND LODGE.

The Thirty-Eighth Session Opened at Windsor Yesterday.

WINDSOR, Aug. 11.—The Grand Lodge of Ontario, I.O.O.F., opened its 38th annual meeting yesterday. The report of the Grand Master showed the order to be in a very prosperous condition. During the past 12 months seven new lodges have been instituted and one resuscitated.

The grand treasurer's report shows that there are 237 lodges in the order, five having been added this year. The membership is 18,390, showing a net increase of 683. There was paid out for relief during 1891 $65,293.84, of which $63,568.17 was for sick benefits and $11,842.67 to widows. The current expenses were $76,166.49, making a total expenditure of $141,460.33. The receipts amounted to $170,454.09, made up as follows: Initiations, $30,057.65; dues and reinstatements, $102,439.72; other sources, $37,956.72. The assets of the order amount to $747,004.04

THE LAW OF EVOLUTION.

The promulgation of the Darwinian theory marked a distinct epoch in the history of science. When first propounded this theory was met on the one hand with sycophantic adulation by some small men of science, and on the other hand by bitter denunciation from hundreds of theologians and others, many of whom did not consider it at all necessary to study Darwin's works before uttering their protests. But time has moderated fulsome praise and obliterated unreasoning denunciation and it is now admitted by the best scholars and theologians that the Darwinian theory in a somewhat modified form is the law of development of animal life, and such modifications of the original theory are accepted by Darwin's disciples as necessary. The acceptance of this theory does not in any sense weaken the faith in the Bible or in a Divine Creator —it simply shows that in the realm of animal life He works by law rather than by edict as he does in the cosmical realm. Evolution is in fact a universal law of nature, a method of God's working. The earth was evolved through long æons till it became habitable, all the stars in space have attained their present condition in obedience to this law, every individual man is evolved from the embryo to the fully-matured personality, our civilization, and even our christianity have attained their present status in accord with this same principle.

But few people have an intelligent idea of what the Darwinian theory really is, but there is now under preparation a popular, but reliable exposition of that theory by George John Romanes, M. A., LL. D., F. R. S. The first volume has been published and deals with "The Darwinian Theory" itself. The next volume will discuss questions relating to this theory that have arisen since Darwin's time. Prof. Romanes is well qualified for this work, occupying as he does an authoritative position in the scientific world, and his work will undoubtedly command a large patronage. The books are published by The Open Court Publishing Co. of Chicago, and are well-printed, intelligently and handsomely illustrated, and neatly bound.

EDITORIAL NOTES.

Next May Lord Stanley's term of office as Governor-general of Canada will expire, and Mr. Gladstone will probably have the appointment of his successor. In that event it is thought not unlikely that the Earl of Aberdeen will get the place. Lord Aberdeen has frequently visited Canada and is much in love with the country, and his appointment would not only give satisfaction to Canada, but doubtless be pleasing to himself.

Provincial lieutenant-governorships will become vacant as follows:

In Quebec, October, 1892.
In Manitoba, July, 1893.
In British Columbia, now due.
In P. E. Island, September, 1894.
In N. W. T., July, 1893.

The Ontario Governorship has been but recently filled.

During the season of navigation in 1891 there passed through the Murray Canal steam vessels of a total of 134,537 tons and of sailing vessels of 13,094 tons, the tolls collected being $281.12. The number of passengers carried was 16,651, for whom $197.02 of tolls was collected. The number of tons of freight carried was $11,742, tolls collected $670.05. On the Trent Valley Canals for the same date the tonnage of vessels was 52,576, tolls $317.42, passengers 9,547, tolls $88.85. freight carried 20,839 tolls $651.73.

What Stronger Proof

Is needed of the merit of Hood's Sarsparilla than the hundreds of letters continually coming in telling of marvellous cures it has effected after all other remedies had failed? Truly, Hood's Sarsaparilla possesses peculiar curative power unknown to other medicines.

Hood's Pills cures Constipation by restoring the peristaltic action of the alimentary canal. They are the best family cathartic.

The merit of Hoods Sarsaparilla is not accidental but is the result of careful study and experiment by educated pharmacists.

Earthquake in Germany.

BERLIN, Aug. 11.—This morning an earthquake was felt at Ems, Coblenz, Valend, Nassau and Niederlahnstein. The movement lasted for ten seconds. At Niederlahnstein the shock was so severe that a number of chimneys were thrown down and the people were in great fear of their lives. The school house at this place was damaged and the scholars were panic-stricken. At Coblenz the people precipitately left their dwellings and made their way to open spaces.

A large number of the house at Ems were badly shaken.

May Attack the City.

TANGIER, Aug. 11.—Two thousand of the Sultan's troops made two attacks upon the rebellious Angherite tribesmen yesterday and were each time driven back in great disorder. Orders were finally given for the troops to retreat, and the force in a badly disorganized condition made their way to the camp at Tangier. It is feared the tribesmen may attack the city.

The Moorish soldiers Fare Badly.

TANGIER, Aug. 11. — The Moorish soldiers fared very badly in their engagements with the rebels, 100 of their number being either killed or badly wounded. The Angherites, on the other hand, suffered but few casualties.

Forepaugh Struck By a Cyclone.

COHOES, N.Y., Aug. 11.—Forepaugh's circus tent is a wreck, it having been struck by a cyclone just as the people had left the afternoon performance. Several canvas men were slightly injured. The performers, who were dressing themselves, were drenched. It will take several days to put things in shape.

Advertising a patent medicine in the peculiar way in which the proprietor of Kemp's Balsam for cough and colds does it is indeed wonderful, He authorized all druggists to give all those who call for it a sample bottle free, that they may try it before purchasing. The large bottles are 50c and $1 We certainly would advise it. It may save you from consumption.

A Pleasant Herb Drink

The best cure we know of for constipation and headache is the pleasant herb drink called Lane's Family Medicine. It is said to be Oregon grape root, combined with simple herbs, and is made ready for use by pouring boiling water onto the dried roots and herbs. It is remarkably efficacious in all blood disorders and is now the sovereign remedy with ladies for clearing up the complexion. Druggists sell the packages at 50c and $1

For all forms of female weakness Dr. Williams' Pink Pills are an unfailing specific. Mr. Thomas Strachan, Postmaster, Roballion write :- My daughter has been ill for the last four years with female weakness, and had been attended by four of the best doctors in our section. She began the use of Dr. Williams Pink Pills, and two boxes have done her vastly more good than all the medicines she took from those doctors.

What She Said

Mrs. R. Peck, 15th street, New York City, visited Canada last year, and had the good fortune to pick up something which not only suited her, but her neighbors also. Writing the manufacture of Nerviline she says:—"I bought three bottles of Nerviline while in Canada and treated my neighbors to some of it, and all think it the best medicine for internal or external pain they have ever used." Nerviline deserves such commendation, for it is a most powerful, penetrating, and certain remedy for pain of all kinds. Take no substitute.

PAR the power of acting specifically upon the diseased organs, stimulating to action the dormant energies of the system thereby removing disease. In fact, great is the power of the medicine to cleanse and purify that diseases of almost every name and nature are driven from the body. Mr. D. Carswell, Carswell P. O., Ont. writes: "I have tried Parmelee's Pills and find them an excellent medicine, and one that will sell well.

A Cure For Constipation And Headache

Dr. Silas Lane while in the Rocky Mountains discovered a root that when combined with other herbs makes an easy and certain cure for constipation. It is in the form of dry roots and leaves, and is known as Lane's Family Medicine. It will cure sick headache in one night, For the blood, liver and kidneys, and for clearing up the complexion it does wonders. Druggists sell it at 50 cents a package

Weighed in the balance, but not found wanting. Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure has been weighed in that just balance, the experience of an impartial and intelligent public. Both remedially and pecuniarily it is a success. Its sales constantly increase, testimony in its favor is daily pouring in. The question of its efficacy in Dyspepsia, Liver complaint, Kidney Ailments, and for Blood Impurity is decided Now is the time to take a good tonic medicine. Hood's Sarsaparilla possesses the greatest merit, and popular favor

Cured Female Weakness

Mr. Hugh Caldwell, Clydesdale, Ont., writes:—"My daughter was under the care of doctors for more than a year for female weakness, without getting relief. I then procured Pink Pills and they cured her." All dealers 50 cents a box or 6 boxes for 2.00, or mailed on receipt of price. Dr. Williams' Med. Co., Brockville, Ont., and Schenectady, N. Y.

The highest praise has been won by Hood's Pills for their easy, yet efficent action.

As an after dinner pill, to strengthen the stomach, assist digestion, and correct any bilious tendencies, Ayer's pills are considered the best. Being sugar coated, they are as agreeable as any confection, and may be taken by the most delicate.

How Mr. W. D. Wentz of Geneva, N.Y., was cured of the severest form of dyspepsia? He says every thing he ate seemed like pouring melted lead into his stomache. Hood's Sarsaparilla effected a perfect cure. Full particulars will be sent if you write C. I. Hood & Co., Lowell, Mass.

DEAR SIRS,—I have used Hagyard's Pectoral Balsam for bronchitis and bad cough with the best results, and can highly recommend it to all sufferers.

ACROSS THE ATLANTIC.

GLADSTONE TO GO TO OSBORNE FOR THE FOURTH TIME.

Lord Salisbury Is Expected at Osborne House to Tender the Resignation of the Present Government—Egan the Invincible.

LONDON, Aug. 11.—Mr. Gladstone yesterday received a communication from General Ponsonby, private secretary to the Queen, announcing that arrangements were being made for his reception on Friday at Osborne House, the Queen's residence on the Isle of Wright, whither Mr. Gladstone will proceed on a summons from Her Majesty.

Lord Salisbury is expected at Osborne House to-day to tender the resignation of the present Government upon the adoption by the House of Commons of the "no confidence" amendment to the address in reply to the Queen's Speech.

Egan, the Invincible.

The first matter taken up in the House of Commons was the case of Egan, the Invincible, who was sentenced for imprisonment under the Crimes Act. Mr. Timothy Harrington, member for the Harbor division of Dublin, asked a question concerning the release of Egan, to which the Right Hon. Henry Matthews, the Home Secretary, replied that he had again considered the case, but could not hold out hopes of Egan's speedy release.

Getting Out of Uganda.

Mr. J. W. Lowther, Parliamentary Secretary of the Foreign Office, announced that the British East African Company had instructed its officers to leave Uganda by Dec. 31. He added that Captain Lugard, in command of the company's forces in Uganda, had consented to a division of territory, it being provided that the armed French Catholics should stay in a specified locality, though Uganda itself should be free to all religions.

The Ministry Will Resign on Friday

LONDON, Aug. 11.—Contrary to expectation the political duel in the House of Commons did not culminate to-night in a division on the motion of "no confidence." The motion will come to vote probably early in to-day's proceedings, and the Ministry will resign on Friday.

No Curb on the Enemies of the Church.

ROME, Aug. 11.—The anti-clerical demonstrations in this city have alarmed the Vatican and the Pope is about to send a note to Catholic states stating that the Italian Government puts no curb on the enemies of the church and that he is more a prisoner than ever before. The Vatican has granted 5000 lire for the establishment of new missions in Upper Egypt.

PLEASURE BOAT RUN DOWN.

A Midnight Struggle for Life—Ninety Persons Reported Missing.

ST. PETERSBURG, Aug. 11.—The pleasure steamer reported Monday as having been run down outside of Helsingfors was named the Ajax.

The captain of the Ajax, instead of following the rule and passing the outgoing steamer going to port, caused his helm to be put hard down and attempted to cross the bow of the Runeberg. Before the latter could alter her course she struck the Ajax and crushed into the latter's rotten timbers.

All discipline was lost and the crew made a rush for the boats, but there was no time to cast them loose. for in a minute after she was struck the Ajax sank. As soon as possible the engines of the Runeberg were reversed, and she went astern at full speed until she grounded near the scene of the collision. Those on board of her threw overboard life buoys, boxes, chairs, tables, in fact anything that would float and help to support the strugglers in the water. At the same time her boats were lowered and pulled back to the scene of the accident.

The night was so dark that it was almost impossible to distinguish objects half a boat length away. The boatmen were guided in their work of rescue by the frantic shrieks for help that could be heard coming out of the darkness. The first report of the accident stated that 45 persons were lost, but later details show that the number was much greater. Ninety persons are reported to be missing, and of this number the bodies of 35 have been recovered.

LEFT DEAD IN THE FIELD.

The French Commence Hostilities on the Dahomeyans.

PARIS, Aug. 11.—The French forces have begun hostilities against the Dahomeyans. The towns of Whydah, Abomey and Kalavy have been bombarded.

The guns of the fort at Kotonou aided two despatch boats to sweep the flat country around Kotonou. The expedition inland will start from Porto Novo. The French soldiers are now burning villages seven miles in the interior. They found the Dahomeyans lying in ambush for them, and in the fight which ensued between the two forces the French loss was two killed and 10 wounded. The Dahomeyans suffered heavily, many of their warriors being left lying dead on the field of battle.

"August Flower"

For two years I suffered terribly with stomach trouble, and was for all that time under treatment by a physician. He finally, after trying everything, said stomach was about worn out, and that I would have to cease eating solid food for a time at least. I was so weak that I could not work. Finally on the recommendation of a friend who had used your preparations with beneficial results, I procured a bottle of August Flower, and commenced using it. It seemed to do me good at once. I gained in strength and flesh rapidly; my appetite became good, and I suffered no bad effects from what I ate. I feel now like a new man, and consider that August Flower has entirely cured me of Dyspepsia in its worst form. JAMES E. DEDERICK, Saugerties, New York.

THE THREE FATES

BY

F MARION CRAWFORD is an excellent book. The plot is sufficiently interesting without being too intricate. A number of pretty situations and startling denouements are admirably sketched by the author.

The young writer who is the hero of the play, meets with his three fates, the first he loves, but she destroys her own happiness by refusing him, the second loves him, and her mother's intrigues to catch him are only made unsuccessful by the discovery of a deceit she has practised, and finally his third appears on the scene.

This is one of the finest novels placed before the reading public for some time, and its popularity will grow with the more thoughtful class of readers, and the wisdom of the writer, and the beauty of his characters will be appreciated years hence perhaps more than now. At

are NOT a Purgative Medicine. They are a BLOOD BUILDER, TONIC and RECONSTRUCTOR, as they supply in a condensed form the substances actually needed to enrich the Blood, curing all diseases coming from POOR and WATERY BLOOD, or from VITIATED HUMORS in the BLOOD, and also invigorate and BUILD UP the BLOOD and SYSTEM, when broken down by overwork, mental worry, disease, excesses and indiscretions. They have a SPECIFIC ACTION on the SEXUAL SYSTEM of both men and women, restoring LOST VIGOR and correcting all IRREGULARITIES and SUPPRESSIONS.

EVERY MAN Who finds his mental faculties dull or failing, or his physical powers flagging, should take these PILLS. They will restore his lost energies, both physical and mental.

EVERY WOMAN should take them. They cure all suppressions and irregularities, which inevitably entail sickness when neglected.

YOUNG MEN should take these PILLS. They will cure the results of youthful bad habits, and strengthen the system.

YOUNG WOMEN should take them. These PILLS will make them regular.

A WIFE'S REVENGE.

Mrs. Welch Attacks Her Husband With An Ax.

NEW YORK, Aug. 11.—David Welch, a laborer, who resides at Tipperary Corners, New Dorp, S.I., was attacked by his wife with an ax yesterday morning while he was lying awake in his bed.

Mrs. Nary Welch has been acting strangely for some time, her mental condition being the result, it is supposed, of the frequent quarrels between the pair. When Mrs. Welch entered the room, waving the ax in such a threatening manner, her husband thought it was time to make his escape, but not before he had received several violent blows on the head and on the arms and back.

Fortunately the ax was old and very blunt, or the blows might have resulted fatally.

Welch's cries of "murder" brought several neighbors to the scene, who succeeded in disarming the frantic woman. Welch was removed to Smith's infirmary at New Brighton, where his wounds, although serious, were pronounced not necessarily fatal.

Mrs. Welch was arrested by Policeman Kane and taken before Justice Kumann at Stapleton. He held the woman on the charge of assault in the first degree. She was committed to police headquarters, where she will be examined to-day by Police Surgeon John L. Feeney. If found insane she will be committed to an asylum. The Welches have four small children, who have been taken charge of by Father Burns of St. Patrick's Church at Richmond, of which the Welches are members.

A GIRL BURGLAR.

Thirteen-Year-Old Rosie Sullivan Accused of Theft.

NEW YORK, Aug. 12.—Is 13-year-old Rosie Sullivan a thief? This question excites Sergeant McCarty, of the First Precinct, Brooklyn, also Martin Haggerty and Mrs. Paula Smykowski. It seems likely that Rosie does not only take what does not belong to her, but that she prevaricates. The girl, who is quite pretty, lives with her father, in Plymouth street. She is motherless.

Rosie met Mrs. Smykowski of No. 71 Hudson avenue and went to the woman's house with a companion. They were well received, and in the course of the visit viewed her jewelry.

There was in the collection seven finger rings, a gold watch, two silver watches, a pair of diamond earrings, a pair of gold bracelets, two gold sleeve buttons, three gold chains and two fancy gold pins. These all vanished on Saturday last during the visit.

When Rosie was arrested she at first denied ever having met Mrs. Smykowski before, but finally she took this back and confessed to Detective Noonan that she had robbed her with the aid of her friend, who is still at large.

Justice Haggerty tried to get Rosie to give the desired information yesterday, but Rosie had experienced another change and stoutly denied that she knew of any other girl or that she herself had been engaged in a robbery. She was given in charge of the Society for the Prevention of Cruelty to Children pending examination on the charge of burglary.

SHOT HIMSELF IN A ROWBOAT.

Despondent August Forst Cut Short the Life He Wearied Of.

NEW YORK, Aug. 11.—August Forst, residing on Bogart-street, Williamsburg, was found dead in a rowboat in Jamaica Bay yesterday. He had shot himself in the head and had been dead several days. His revolver, with one chamber discharged, lay in the bottom of the boat.

His brother-in-law, who took charge of the body, said he had been out of work for some time and had become despondent. He had attempted suicide a couple of weeks ago.

DR. COLES TIRED OF LIFE.

So He Blew Out His Brains to End His Troubles.

ST. LOUIS, Aug. 11.—Dr. Coles, resident medical examiner for the New York Mutual Life Insurance Company, committed suicide yesterday by shooting.

A Coaching Party's Narrow Escape.

NEWPORT, Aug. 11.—H. Astor Carey's coach, Aquidneck, came very near meeting with a bad accident. The leaders started to run and soon the coach was going at headlong speed. The horses ran the coach into an electric light pole, demolishing the dashboard. No one was injured with the exception of F. M. Ware, who has a badly sprained arm. Mrs. Eugene Kelly, jr., was occupying the box seat and had a very narrow escape.

Shot in a Fight Over Cards.

NORWICH, Conn., Aug. 11.—In a fight over a game of cards in the Portuguese lodging house, formerly known as the Thames Hotel yesterday, Manuel Ago shot Manuel Pichero three times with a revolver, one bullet entering under the eye, another the side and the third the shoulder.

Ago is locked up awaiting the result of Pichero's wounds, which are probably fatal.

A Crazy Disciple of M. Lecocq.

PROVIDENCE, Aug. 11.—Claiming to be a detective, responsible not to the ordinary authorities, but with a commission signed and sealed by divine command, Frederick Gunston attempted to execute an invisible warrant on George W. Seymour and F. W. Bucklin of South Norwalk, Conn. He took them to the central station, where he lodged a charge against them of being connected with murder. The officer in charge had the detective locked up. He was examined and pronounced insane.

Two Killed by Lightning.

BERLIN, Ont., Aug. 11.—During the thunderstorm yesterday afternoon two farmers named Simon Moyer and Allan Eby, living near Freeport, were struck by lightning and instantly killed. They were out in the field plowing when rain came on and they sought shelter under a tree.

An Old Man Killed.

TAVISTOCK, Ont., Aug. 11.—During the thunderstorm yesterday, Dingwall McKay, aged 70 years, a farmer living in the township of East Zorra, about three miles from this place, was struck and instantly killed. He was in the act of closing his gate when the accident occurred. A son, who was a short distance off, discovered his father lying on the ground, but the old man never spoke. Death was instantaneous.

Lightning Causes $85,000 Damage.

RUTLAND, Vt., Aug. 11.—The works of the Harris Manufacturing Co. were struck by lightning and partly burned. Loss about $75,000. The Central Vermont buildings and storehouse alongside were destroyed. Loss $10,000.

Inherited Nearly a Million.

WINNIPEG, Aug. 11.—William Erasmus, a Prince Albert farmer, has received notice from England that his family are inheritors of $750,000.

All through the Provinces the rapid increase of La Grippe, is causing great alarm. A report was received here to-day, of a new development of the disease, which is worse, perhaps than any other. Wm. Hanley of N. Y. City, died in terrible agony after sickness of only four days, His tongue swelled to such an extent as to make it impossible for him to close his jaws or swallow any food. The report is causing the people in this district to resort to the noted Grip-cure, recently referred to in so many papers. In Cape Breton the disease has spread very rapidly and with fatal results, D. J. McKillop of L'Archeveque writes Feb. 11th that this cure has been tried in his neighborhood and with such success that all those residing there are obtaining a supply believing it to be the only remedy affording relief and effecting a certain cure. He finished his letter by asking for a large quantity of the Medicine (Dr. Morse's Indian Root Pills) to supply the demands of the community for the relief of LaGrippe.

For You or O

GENTLEMAN,—One of my little girls (aged 4 years) had been troubled with costiveness in its worst form since infancy. We tried different remedies which gave relief while using, but as soon as discontinued she would be worse than before using. She lost her appetite and was growing weak and delicate. A friend of mine who had used B B B with grand results for the same disease advised me to try it, and also the Burdock Pills, which we did. She did not take the contents of one bottle before it relieved her, and not only relieved her but permanently cured her, for she has not been troubled since, and she is now eight years old

It relieves the little sufferer at once, produces natural quiet sleep, and freeing the child from pain, and the young cherub wakes as bright as a button.' is pleasant to taste, sooths the child softens the gums, allays pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhoea, whether arising from teething or other causes 25 cts bottle.

A Question

How can we raise more corn to the acher? Why, of course by using Putman's Corn Extractor. Putnam's Painless Corn Extractor has given universal satisfaction, for it is safe, sure and painless. Like every article of real merit it has a host of imitators, and we would specially warn the public to guard against these dangerous substitutes offered for the genuine, Putman's Extractor. N. C. A Friend

Wishes to speak through the *Register* of the beneficial results he has received from a regular use of **Ayer's Pills.** He says: "I was feeling sick and tired and my stomach seemed all out of order. I tried a number of remedies, but none seemed to give me relief until I was induced to try the old reliable Ayer's Pills. I have taken only one box, but I feel like a new man. I think they are the most pleasant and easy to take of anything I ever used, being so finely sugar-coated that even a child will take them. I urge upon all who are

In Need

of a laxative to try Ayer's Pills."—Boothbay (Me.) *Register.*

"Between the ages of five and fifteen, I was troubled with a kind of salt-rheum, or eruption, chiefly confined to the legs, and especially to the bend of the knee above the calf. Here, running sores formed which would scab over, but would break immediately on moving the leg. My mother tried everything she could think of, but all was without avail. Although a child, I read in the papers about the beneficial effects of Ayer's Pills, and persuaded my mother to let me try them. With no great faith in the result, she procured

Ayer's Pills

and I began to use them, and soon noticed an improvement. Encouraged by this, I kept on till I took two boxes, when the sores disappeared and have never troubled me since."—H. Chipman, Real Estate Agent, Roanoke, Va.

"I suffered for years from stomach and kidney troubles, causing very severe pains in various parts of the body. None of the remedies I tried afforded me any relief until I began taking Ayer's Pills, and was cured."—Wm. Goddard, Notary Public, Five Lakes, Mich.

The steamer Queen of the Isles has found the route between Belleville and Presqu'Ile an unprofitable investment and has been taken off the bay. She has been taken to Toronto by Capt. Reide.

The Queen's Printer announces that the Ontario Statutes for last session will be ready for distribution about the second week of August. Four hundred and 500 pages is usually considered a large volumn, but the forthcoming one will be about 1,000 pages, the largest ever issued by the Province.

Since July 1 the limits of size for packets of patterns or samples of merchandise sent by post to all countries in the postal union are extended and are as follows: 12 inches in length, 8 in. in width and 4 in. in depth. For packets made up in the form of rolls the length limit is 12 in. and the diameter 6 in.

Last Wednesday night Thomas Hannah, lot No. 33, 6th concession of the township of Hamilton, Northumberland county, went to milk his cows, when he was attacked by a large Durham bull and crushed to death by the savage brute. Dr. Clemesha was called, but the man was dead before he reached him. Deceased was 52 years of age, and leaves a wife and three small children.

On Friday evening last Mr. Thomas Western, of Cobourg, was taken with cramps, and arose to procure something to relieve the pain. By some mistake he got hold of a bottle of Paris-green and took a dose. Immediately after taking the poisonous draught he discovered his mistake, when a messenger was despatched for Dr. Waters. The action of the doctor was prompt, and the life of the patient saved. He is recovering very nicely.

DANCED WITH PRINCE OF WALES

Mrs Thayer Makes an extended Tour of the World

Mrs Alice Grover Thayer, of Toronto, has arrived in Colborne, her girlhood home, after having made the circuit of this little planet earth, having gone in company with her husband and son westward across the North American continent and the Pacific to Japan. They spent some weeks in Japan, China, India, Palestine, Egypt and Europe, the tour occupying a year. Mrs Thayer has brought home many curiosities and beautiful things from the wonderful lands of her sojourning. We suppose the simple fact that she had danced with the Prince of Wales, the future King of England and Emperor of India when he was in America, would make her an object of interest to the natives of India and Egypt.

GOLD IN NORTH HASTINGS

Experts From the States Looking at the Mines at Marmora

Two mining experts, Mr. Foster, of Colorado, and Mr. Gillen, of Montana, are now investigating Canada gold mines at Marmora, Ont., with intention of proceeding to Nova Scotia from there. They represent Mr. J G Haggin, late of Haggin & Tevin, bankers, of San Francisco, and perhaps the most successful miners in the United States, and owing to the Anaconda mine of Montana, which yields $1,000 per day profit. The attraction which Canadian gold ores now afford arises from the successful treatment of ores at Marmora and elsewhere by the new process of gold extractions by the Crawford mill, the North American control of which is in the hands of Erastus Wiman.

A BRUTAL ASSAULT

Interesting Items From a Bancroft Correspondent

This place was visited with a thunder storm of unusual violence and duration commencing about 9:30 p.m. on Monday the 8th and continuing until 4 a.m. on Tuesday, about two inches of rain falling at intervals during that time.

Visitors to our lakes are now in full enjoyment of the season the trout fishing being excellent.

On Monday August the first, William Say was committed to jail for three months on a charge of aggravated assault on Frederick Cowen. It was shown at the trial that the assailant had on iron or other metal knuckles, that inflicted a severe scalp wound showing on his person as though he had been scalped by the Indians of old. The case was brought before Police Magistrate Cleak, was fully proven by the evidence and admitted by the defendant. The offence took place near Bark Lake at the extreme north east part of the county, and the neighborhood although several respectable families reside therein, has a bad reputation for lawlessness and immorality. In the present case the attack was sudden and unprovoked, but former ill feeling appears to have existed between the parties, and prisoner stated he was determined to have his revenge, as the distance, forty miles, was too great to seek a magistrate. Prisoner elected to be tried summarily and the justice in giving his decision stated that he considered it to be his duty to impose a rather severe sentence in the case as such extreme proceedings could not be tolerated in a civilized community, and he wished it to be so understood. The sentence was that he should pay a fine of thirty dollars which with the expenses amounting to thirty five dollars more, in all sixty-five dollars must be paid forthwith, or committal for three months with hard labor.

Considerable difficulty was offered in the arrest, which was made by P. C. Thomas Stanyer; and it could only be effected on the Sunday morning, as the men was working in the county of Renfrew, but he usually visited his family on Saturday. P. C. after knocking at the door of his residence asked for his man; no reply was made, but he slipped in and sat down near the entry and near the stairway, after having placed his assistant at the opposite door of the house. A consultation was held up stairs, and presently a cautious footstep was heard descending. P. C. Stanyer allowed his man to come down which which he did with a rush when near the bottom stair, and made for the bush. Tom is an athlete, and a good run is quite in his way, and as he did not want to be incommoded with the women and others present, he gave the man grace for a short distance, then followed in chase. He soon made up the lost distance and ordered his man to stop. He looked around at the P. C., but kept on full speed; the constable then fired in the air, whereupon the man fell on his knees and begged for quarter, when he was ordered to throw up his hands which he did and the bracelets having been adjusted the P. C. took from his person a revolver fully charged. On returning to the house with him he called for his assistant who immediately came round, but on his appearance, one of the women brought out another pistol and pointed at this man who was the real complainant in this case, and would undoubtedly have fired point black had not her sister with better judgment seized her arm and removed the weapon. These officials in the back country have frequently run great risks and none of them are too well paid.

IN "LE NID" CAMP

Some of the Delights of Life in the Tent

Six years ago a company of young gentleman residing in Toronto banded together to spend their summer vacation. They wanted to camp somewhere, but were not very particular where. After making full inquiries they decided upon coming to the Bay of Quinte and in a few weeks their tents were pitched upon Ruttan's Point half a mile north east of Glen Island then known as Davy's Island. A huge banner with "Le Nid" emblazoned upon it was unfolded to the breeze and has continued to wave from that pleasant spot for four weeks every summer since. Amoung the party were Mr. Horace, A. Yeomans now Dr. Yeomans of Deseronto, Mr. W. S. Hunting now practising law in Napanee and several others most of whom were studying for some profession. They are again on their old ground having come together from different points and are now revelling in the joys of camp life. When the roll was called this year the following answered to their names:—C. J. T, Gould, attorney, Baltimore, Md.; N. Rogers Bayley, correspondent New York World, Baltimore. Md.; W. S. Huntingdon, barrister, Napanee; C. W. Warner, student, Napanee; D. Hovey, barrister, Toronto; C. Fissenden, professor, Peterboro'; F. Bryers, Insurance, Toronto and editor of "Cycling"; J. Kunahan, Insurance, Toronto; H. G Snelgrove, editor, Cobourg; W. J Drope, teacher, Peterboro'; E. C. S. Huycke, barrister, Cobourg; J. W. McElroy; merchant, Ottawa; F. M. Radford, merchant, Napanee; B. Harshaw, bank clerk, Napanee; C. C. James, Dep. Min. Agriculture, Toronto; D. Walsh, Excise Office Toronto; M.R. Allison, barrister, Picton.

It can easily be imagined that such a company meeting only once a year have a grand reunion when they do come together. They employ no servants but apportion the work among themselves. Mr. Huntington of Napanee is the president of the camp and has associated with him an executive council who divide the labors of camp into several departments viz. cooks, dish washers, milk and mail carriers, wood cutters, stewards and waiters. The motto of the camp is "Sans Souci sans Peur sans ceremonie et sans Reproche" and they have a suitable crest designed by a member of the party. A mail bag of their own brings from Napanee a daily supply of papers. Tents are set apart for sleeping, dining, writing, dressing and cooking. The members of Camp "Le Nid" have done considerable to popularize the Bay of Quinte district as a pleasant summer resort, and they pride themselves in having a plain unostentatious, yet ideal camp. They do not devote themselves to any particular pastime, but seem content to let time bring its own appropriate amusement. One member of the party is an amateur photographer and has sometimes at the expense of the others secured several good views illustrating the different phases of camp life as well as several very pretty bits of scenery along the bay. These or a few of them will in due course appear in the Saturday Globe. Some are given to rowing and spend a good portion of their time at Glen Island which under the excellent management of Mr. Dingman has become famous as a pleasant resort, or they seek amusement at Glenora in trying to solve the mysterious problem of the Lake on the Mountain. There are a few Waltons among the party who paddle up and down the bay for "Lunge" or try to convert perch into black bass with very little success. Target practice, quoits, chess, checkers and cards each receive their share of attention. This season has been particularly favorable to campers. The reports of the excessive hot weather in the cities have rendered the cool breezes of bay much more appreciable and what little rain has fallen has generally selected the night time for its operations. How many thousands there are in our cities racking there brains to devise some simple method of spending their vacation. How few really know how healthful, pleasant and yet simple, camp life is. If those who are in search of summer pastime were given a few pointers on camp life and were aware of the remarkable facilities that the shores of the Bay of Quinte possess for campers the bay would soon be the most popular in Canada and every point and cove would be studded with tents, Then would follow the summer hotels and the surrounding country would reap the benefit of their proximity to such a beautiful and attractive sheet of water.

LE NID

A Big Storm in the North

A fearful thunder and rain storm passed over this part; it lasting from 11 o'clock Monday night to 2 o'clock Tuesday morning. In that time there was over six inches of rain fell, (as shown by a milk can which had no water in it the evening before.) The roads in some parts were rendered impassable by the washouts. The only casualty heard from so far is the new frame barn and granary belonging to Mr. Thos. Caldwell of the township of Chandos. He also lost three fine young horses, two sets of double harness, two pair of sleighs and over twenty tons of hay, besides other farm implements that were inside the building.

Be Consistent

The consistent attitude is the best. Some stores in their advertisements lay claim to be beyond competition. When a store or store manager gets swell head big enough for that, the deluge is not far off. The Oak Hall recognize competition, and would not probably be so wide awake if it were "out of the question." But, candidly speaking, we seldom expect our prices to be lowered on account of swell head stores, who are enormously gone on their own shape. When you want clothing look in every store in Belleville and you will come to the conclusion that the old Oak Hall are the leaders in their line.

The Ladies Delighted.

The pleasant effect and the perfect safe with which ladies may use the liquid fru laxative, Syrup of Figs, under all condi tions make it their favorite remedy. It is pleasing to the eye and to the tase, gentle, yet effectual in acting on the kidneys, liver nd bowels

Pipe Smokers

You may be satisfied with the brands of tobaccos you have been using for years. Grant it; that you are satisfied. As there is always room for improvement, we ask you to try our OLD CHUM PLUG, or CUT smoking tobacco; we believe you will be better satisfied. In any case, a trial won't hurt you. Don't delay upon the order of buying, but buy at once.

Have you Thought of it

For four thousand years or more the world groaned, suffered and fumed about its corns, for their was no positive relief—no certain and painless cure until Dr. Scott Putman gave to the world his great Corn Extractor. If there is suffering now it is a result of carelessness, for the remedy is at hand. Try Putman's Corn Extractor. It is sure painless, and prompt. Beware of substitutes. N. C. CHAS. OCKERMAN DEAD.

THE VICTIM OF THE WINDSOR FIRE PASSES AWAY

A Well-known Theatrical Man Falls Before the Curtain of Death—Nursed Through a Trying Siege by a Devoted Wife

Charles D. Ockerman the well known theatrical man, who was so fatally burned at the Windsor Hotel on the night of July 27th succumbed to his injuries at 2:35p.m. to-day at the home of his father Dunham Ockerman on Everett street. There was a general feeling of genuine regret expressed throughout the city when the sad news was given out at a late hour this afternoon. It was too much to say that his recovery was expected yet his wife and friends clung to the fact that while there was life there was hope. When he was rescued from an awful death in the flames by his gallant wife and the nature of his injuries became known, it was felt by people who had experience in such cases that he could not recover. For a time it was thought that a strong physique would pull the victim through, and instead of getting worse it was though all along that he was getting better. It was seen to-day by his physicians that the patient's doom was sealed, and he passed away peacefully this afternoon.

The deceased was a well known theatrical man and musician who had but few equals on the bass viol or horn in Canada. He was born in Belleville on December 11th, 1853, and after securing a fair education at the old grammar school went into the office of Dr. Ralyea, where he mastered the art of dentistry. Always having a strong liking for the stage it was natural for him to drift away from his profession and follow a vocation more congenial to his tastes. In the course of years he travelled all over Canada and the United States, with the best companies—sometimes as an actor, but oftener in the capacity of a musician. At Charleston, S C., he met Miss Frances Brazeal, who had made a reputation behind the footlights. It was a case of love at first sight and they were united in marriage. The union was destitute of issue and soon the couple went back together to follow their fortunes on the stage For some time past Mr. Ockerman had remained in Belleville and at the time of the fire was boarding at the Windsor house. Throughout his illness he was tenderly nursed by a kind and affectionate wife, who was ever at his bedside and did everything that human hands could do to fan into light the last remaining spark of life. The remains will be buried to-morrow afternoon in the cemetery at 4.30.

ALBERT COLLEGE.

Some Important Changes in the Teaching Staff.

Albert College will re-open on Tuesday Sept. 6th, specially equipped and with a very large attendance. Miss Ella Gardiner, B. A., who has so efficiently filled the position of Preceptress and Professor of modern languages for the past seven years is at present in Germany and will enter upon her duties in the college on the first of January. Her work in modern languages will be supplied by Mr. H. W. Kennedy, B. A. gold medalist in modern languages and examiner in Germany of Victoria University. Mr. N. L. Massey B. A., gold medalist in mathematics of Victoria University and for the past five years mathematical master in the Morrisburg Collegiate Institute, has received the appointment of mathematical master. Mr. E. R. Doxsee, B. A., Prince of Wales silver medalist and silver medalist in classics of Victoria University of the class of '92, has received the appointment of classical master. He has had valuable experience as a public school teacher.

John Shea, city bill poster, in the course of a few days, will make an extended circuit of Hastings and Prince Edward counties, stopping at all the principal points where he will bill the Ottawa and the Toronto fairs. Merchants will find this a good opportunity to get their bills posted at city rates. Mr. Shea is one of the most faithful bill posters in Canada and merchants may depend on it that their work will be well done.

Mr. G. Redick writes Mr. Louttit as follows; I feel it my duty both to you and the public that after ten years affliction with that loathsome disease, catarrh, I have found apparently a lasting benefit (Louttit's Catarrh Cure) and to vouch for the same and am willing and desirious to make affidavit. Louttit's Catarrh Cure is for sale wholesale and retail at Geen's Drug Store.

Those who are in the habit of taking an appetizer before meals could not do better as well for the effect as for economy's sake, than make use of "Indigenous Bitters." As Indigenous Bitters are slightly laxative, those who suffer from habitual constipation, will derive great benefit, by regularly taking them, as they keep the bowels in good order and in that way aid digestion

The dates of the horse races in Belleville have been changed from August 30 and 31st to the 31st and Sept. 1st. James Ketcheson the manager of the Park Association is now engaged in soliciting subscriptions. Every effort will be made to have a successful meeting. It is proposed to advertise the races very extensively throughout the province and there will no doubt be a large number of horsemen attracted to the city.

There are more cases of sickness and death from diseased kidneys than from all other diseases combined. It is your own fault if you allow your kidneys to remain in an unhealthy condition when the cure is at hand. Dood's kidney Pills are guaranteed to cure the worst case. It costs but little to give them a trial. They are for sale by all druggists and dealers or by mail on receipt of 50 cts. or 6 boxes for $2.50. Write for book called Kidney Talk.

SPORTING WORLD.

Hanlan went to Rochester yesterday afternoon to make arrangements for the rowing of the double-scull race between Gaudaur and Hosmer and O'Connor and himself at Ontario Beach.

A friendly contest was played yesterday between Picton and Napanee C. C. on the grounds of the Picton C. C., resulting in a victory for the home team by 4 runs. Maybee's 45. Barker's 24. Hart's 19 and Wilson's 16 were the principal scores.

The Peterboro baseball club have received a challenge from Mr Robert Colling, manager of the Belleville baseball club, asking for a game there on August 18th, our civic holiday. The boys will probably accompany the Oddfellows excursion to Belleville on that day.—Examiner.

The I.X.L., baseball nine defeated the Stars at Trenton yesterday by a score of 10 to 4. Gibson and Canning were the battery for Belleville. The Bellevilles' play the Princess street nine, of Kingston, at Watertown on Wednesday Aug. 17th, the occasion of the Oddfellows band excursion from Kingston and Belleville to that city.

The Belleville correspondent, of the Empire who happens to be the yachting crank of our local contemporary says in reference to the Fisher cup: "Talk about the Atalanta as eager to challenge is nonsense, as she cannot be ready for a month or six weeks." Strange enough everything is nonsense in the estimation of the brainy correspondent of the Empire if it does not happen to emenate from that source, yet the fact remains that the Atlanta is anxious for a race for the Fisher cup and as soon as she is got into shape will put in a challenge. And it is safe to say that if Mr Bell does not carry the race by another fluke the cup will sail away from Belleville.

SULLIVAN AT FIGHTING WEIGHT.

Canoe Place Ind, Aug. 10—As told in the Sun last week, Trainer Phil Casey expected to have Sullivan down to weight at which he will fight Corbett. 210 pounds by Monday. Casey could have accomplished the feat handily if it had been necessary, but there was no need for a hurry up process, so that important event did not occur until to-day.

The big fellow arose somewhat more cheerful this morning than usual. He was well aware that he had but a few pounds to take off, when the severest part of his training would be finished. He took his twelve mile spin over the uneven and sandy hills of Shinnecock with Jack Ashton and Billy Morgan, and the morning was one of the hottest experienced here this season. When the trio returned they were bathed in perspiration. Casey was ready to work on the big fellow.

After breakfast was over he rested for a couple of hours, and then went a punching the bag, skipping the rope, and throwing the leather ball to Ashton and Morgan. When this was concluded he went back to the cottage, and shortly after 12 o'clock sat down to dinner. In the afternoon he took another long run on the road, came back, took a swim, and then stepped upon the scales in the gymnasium. He weighed exactly 210 pounds, and everybody present at the time had a cheerful expression.

Four weeks from to-morrow night Sullivan and Corbett will meet face to face in the ring at New Orleans.

Cleopatra.

What was her inner character? A voluptuous woman of the East, say the Romans, eager to enchain any master of a Roman army by the foulest arts; but the Roman oligarchy not only hated but dreaded Cleopatra. To them she was not only Asia incarnate, but the representative of that "regal" sway, that rule by volition instead of by traditional order, which, with their statesmanlike instinct, they saw the triumphant aristocrat whom their system tended to produce would ultimately desire. They cursed her as the greatest of Asiatic harlots, whereas she was a Greek, and much more like Mary Stuart as her enemies have painted her, a woman unscrupulous in gratifying her fancies, careless even of murder when needful—Cleopatra murdered her brother-husband, just as Mary murdered her cousin-husband—but who used her charms chiefly as instruments to attain her ends, which were, first of all, the empire of the east, which her ancestors had striven for generations to acquire—and very nearly acquired—and to defeat the half-civilized and headless Roman power, which she hated with the hatred of a monarch and despised with the contempt of a true Greek.

Who were these barbarians that they should conquer men who were polished when they were savages? She always selected the same lover, the head of the invading Roman army, and always used him to help her in founding, as she hoped, the Empire of the East. Her attractive power was probably not her beauty. Her coins do not reveal a beautiful woman, but a broad-browed, thoughtful queen, and Plutarch, in describing her, evidently speaks on the authority of men whose fathers had studied her face. He says:

"Her actual beauty, it is said, was not in itself so remarkable that none could be compared with her, or that no one could see her without being struck by it, but the contact of her presence, if you lived with her, was irresistible; the attraction of her person, joining with the charm of her conversation, and the character that attended all she said or did, was something bewitching. It was a pleasure merely to hear the sound of her voice with which, like an instrument of many strings, she could pass from one language to another; so that there were few of the barbarian nations that she answered by an interpreter; to most of them she spoke herself, as to the Ethiopians, Troglodytes, Hebrews, Arabians, Syrians, Medes, Parthians and many others, whose language she had learned."—The Spectator.

A LAMP

That will illuminate the world.

Our order for this fall's stock of lamps has gone to the factory. We'll have some lamps for less money than you ever saw before.

We'll have a great special lamp opening.

If you are saving a dollar or two for a lamp, keep till we announce our great display of these new season's goods.

We'll do in the LAMPS as in CROCKERY, Silver, Fruit Jars, etc., and that is, lead all these less experienced would-be crockery dealers by selling goods at just what they have to pay for them, and that's why the public deal at our store.

W. J. REID & CO'S

Crystal Hall - - - Rous' Old Stand

THE REASONS!

GOUGH CAN SELL CHEAPER THAN OTHER DEALERS

FIRST—Because we are the largest Clothiers in Canada, and SECOND, because we are not the supply account of any firm, and consequently are not compelled to handle only one manufacturer's goods, and at whatever prices they have a mind to ask. THIRD—Because we have ample means to buy wherever we like, and no matter how large the stock, whether it is $1,000 or $100,000 worth we are always prepared to pick it up if it is a snap, and FOURTH—Because we sell ten times more goods than any other firm, and consequently can sell on a smaller margin of profit.

Some of our high price friends cannot see anything funny about GOUGH selling so cheap, and call us "Fake" dealers, but when inaugurating this One Price and Low Price System we did so with a determination to

"Hew to the Line; let the Chips fall where they may!"

And if in fulfilling this mission we are breaking the back bone of our high price oppositionists, we are sorry for them, for we mean them no harm, but claim the right to do our business in a

SQUARE, HONORABLE WAY,

GIVING DOLLAR FOR DOLLAR EVERY TIME.

Yes, we are called "fake" dealers and "low" dealers by our opponents. Well, we freely admit we are low dealers, wallowing in the lowest depths of bed rock prices, while our exalted brethren look down upon us from their high place and go without the cause we are capturing their trade, and this is the sequel to their calling us "fake" dealers, etc., but it won't go down, for the name of GOUGH is provincial, and a household word in every family.

Don't forget our

and we are giving extraordinary cuts all along the line, as we are determined to carry no goods over until next season, but require the room for our Big Fall Stock which will commence to arrive next month.

Thousands of Overalls only 19c per pair, sold by other dealers before we opened here for 50c, but we compel them now to sell them for 25c, and they are mad.

UNITED CANADA ON ROMAN CATHOLIC RIGHTS.

French Cabinet Ministers Said to Want School Lands set Apart For Separate School Purposes—Funds For Nationalists.

OTTAWA, Aug. 12.—It is reported in political circles that the French members of the Cabinet are in favor of making some arrangements whereby a portion of the school lands in Manitoba shall be set apart for separate school purposes. Thus the loss of the former separate school taxes which Greenway has diverted to the public schools might be made up. This cannot be done without changing the existing law in regard to the administration of these lands. The present act would have to be amended. Even then, some authorities hold, it is difficult to see how the Dominion could dictate to the province in respect to the expenditure of the money derived from these lands since the question of education is purely one of a provincial character and wholly within the rights of the province to deal with it.

The school lands of Manitoba and the Northwest are held in trust by the Dominion Government for the province for educational purposes. Sections 11 and 29 of each block of land are set apart for this object. This is about one-twentieth of the whole province and territories.

It is provided that these school lands shall be sold by public auction and the proceeds go to education. The Dominion Government, in the first instance, sends a valuator to value the lands so as to get an estimate of their true worth. When a good opportunity of disposing of them presents itself, and when the money is required, certain sections are put up for auction. If the price offered is a fair one they are sold and if not they are withdrawn until their proper market value is reached. The money derived from sales of those lands is invested in Dominion securities, and the interest, after deducting the cost of management, goes to the province or the territories, as the case may be, for general school purposes. The act says it shall be expended "towards the support of public schools therein, and the money so paid shall be distributed for the purpose by the Government of such province or territory as is deemed expedient." The law on this point seems plain, and the Dominion Government do not handle one dollar of the money nor do they exercise any control over its expenditure beyond being simply trustees of the land, as is pointed out. Still, however, it is considered likely that legislation will be offered to divert some portion of these lands in Manitoba to assist Catholic schools.

United Canada published yesterday in its leading article entitled, "Minorities will be Protected," says that since the last issue of United Canada we have had the assurance of those high in councils of the state that the rights of the Catholic minority in Manitoba would be protected.

LEANED AGAINST THE GANGWAY.

Sad Fate of a Young Man on the Macassa at Hamilton.

TORONTO, Aug. 12.—As the Macassa was leaving Hamilton yesterday at 10.45 a.m. a lad named Harry Brothers, aged 17, who was employed as cook's assistant, was accidentally drowned. He was about to empty a pail and leaned against the gangway, which had not yet been secured. It gave way and he fell in and was drowned, not coming to the surface at all. After some search the body was found and it was brought in by the Modjeska last night on her last trip.

PITCH-IN AT PORT CREDIT.

A Regular Freight Goes Into a Special Which is Shunting.

PORT CREDIT, Aug. 12.—An accident occurred on the Toronto branch of the Grand Trunk Railway yesterday which delayed traffic for hours and resulted in the destruction of considerable property. While a special freight was engaged in shunting at Port Credit a regular midnight freight, in charge of Conductor Kays, pitched into the special. Both Driver Williams and the fireman escaped without injury, and none of the train hands on the special were injured. Driver Williams' engine was considerably damaged and seven cars were wrecked.

CANAL TOLLS.

Montreal Corn Exchange Thinks the Question Safe With the Government.

MONTREAL, Aug. 12.—The Montreal Corn Exchange Association met yesterday to take action in regard to the Dominion Government's proposal to abolish the rebate on grain coming down the St. Lawrence canals. The meeting was a perfect fizzle.

The committee of the association submitted a resolution to the meeting protesting against the withdrawal of the rebate this season, as all contracts have been made on this basis, and any interference would result in a serious loss to the trade.

A discussion ensued, many of the members attacking the United States Government for what they called it high-handed proceedings

After a good deal of talk Hugh McLennan of the Montreal Transportation Company moved that the resolution be laid on the table and that the matter be left to the Government.

Mr. McLennan's amendment carried.

Two More Bodies Found.

WIARTON, Ont., Aug. 12.—Two more bodies of those who lost their lives in the furious storm which prevailed on July 20 were recovered from the bay yesterday. They were those of Mrs. Currie and her daughter. The bodies of Stevens and wife still remain to be found.

Drowned as they slept.

MONTREAL, Aug. 12.—A peculiar drowning fatality occurred early yesterday in the Lachine Canal in this city. The tug William Paul was docked for the night in the basin with three men on board. The engineer left the escape valve open and during the night the water flowed into the tug, drowning the three men as they slept. The craft also sank. The names of the drowned are: Alfred Beauchamp, aged 30; Alexander Ratell, aged 14; Henri Larosse, aged 15. This morning the tug was floated and the three dead bodies were recovered.

Two Men Cut to Pieces.

PORT ARTHUR, Aug. 12.—A party of Germans who had been engaged in Montreal to work on the railroad here were sent out on a hand car. They did not heed the warning given them as they passed a gang of men to look out for an engine which was in the neighborhood. They were on a trestle about five miles this side of Schrieber when the engine came upon the unfortunate men. Two of the men were cut to pieces and four injured very seriously.

OPIUN THROWN OVERBOARD.

But It Was in Barrels and Meant to Be Picked Up by Smugglers.

WASHINGTON, Aug. 12.—The United States district attorney at Portland, Ore., has been directed to libel the British steamer Wilmington and prosecute with vigor such of her officers as were concerned in the recent attempt to smuggle opium into this country.

According to reports received at the Treasury Department this vessel has been engaged for some time in smuggling opium into the United States from Victoria, B.C., where there is a large establishment devoted, so it is said, to the preparation of the drug for the American market.

The method of smuggling was to pack the opium into barrels with some light material and throw the barrels into the Columbia River about 30 miles below Portland, where they were secured by confederates in waiting and taken into the interior for shipment to the eastern market.

The authorities have been watching this vessel for some time. They captured five barrels thrown overboard on her last trip, and in this way secured good evidence of her operations.

SLEEPWALKER'S FATE.

He Sewed Up His Feet With a Rusty Needle.

READING, Pa., Aug. 12.—A remarkable story of somnambulistic adventure comes from Ridgewood, a sanitarium three miles below this city. Joseph R. Tomlinson, a drummer for a grocery house in Milwaukee, took up his quarters there last Wednesday. He told Dr. Stewart, the proprietor, that he was a somnambulist.

Shortly after midnight Friday piercing cries were heard coming from Tomlinson's room. The doctor found that while under the influence of medicine Tomlinson imagined that his great toes had been severed. He had secured a rusty needle and with this he began to sew his toe together. He had already sewed his right foot full of stitches, and was beginning on the left when the pain became so great that he was awakened. Dr. Stewart removed the stitches, but the wounds were so severe that blood poisoning set in and he will die.

SAYS HE HYPNOTIZED HER BOY.

A Young Man Spirited Away From Home by an Evangelist.

BALTIMORE, Aug. 12.—James M. Holden, a beardless youth of 18 years, of Providence, R.I., was arrested here yesterday at his mother's request.

She claims that he had been spirited away by Rev. Henry E. Howland, an evangelist, about a year ago and has since been traveling with him over the United States. She says he hypnotized her boy.

About a month ago they came to Woodbury, a suburb of Baltimore, and went to housekeeping. They drew immense crowds and lived well.

Howland left the town immediately after learning of the boy's capture in a borrowed carriage.

He has a wife and child in Providence.

Mrs. Holden wants her boy to return with her and he will probably consent.

DE COBAIN MUST NOT EXHORT.

The Brooklyn Gospel Tent Pastor no Longer Welcomes Him.

NEW YORK, Aug. 12.—Edward DeCobain, who was expelled from Parliament on serious charges, did not exhort at the Gospel tent erected by a few of the earnest brethren and sisters of the Fourth-Avenue Methodist Episcopal Church, Brooklyn, last night.

It was expected that he would take part in the services, but the publication of the fact that a person against whom grave charges were pending had been called upon to officiate in the name of the Methodist Episcopal Church had caused the pastor of the Fourth-Avenue Church to assert his authority, and Mr. De Cobain did not put in an appearance, to the great disappointment of a considerable audience.

A Big Safe Trust.

CINCINNATI, Aug. 12.—The success of the Herring-Hall-Marvin safe consodliation has impelled Eastern capitalists to seek to form a still greater company. The new corporation will have $5,000,000 capital stock and will comprise the Damon Company of Boston, the Eclipse of Baltimore, the York of York, Pa., the Barnes of Pittsburg, the National of Cleveland, the Standard of Detroit, the Diebold of Canton, the Mosler, the McNeale & Urban and Moster, Babman & Co., all of Hamilton, O.

To Lead the Fleet of Ocean Liners.

PHILADELPHIA, Pa., Aug. 12.—The announcement that the Cramps have signed contracts for the big ships of the Inman Line was a little premature. The Cramps will build the ships, but the signing of the contracts has been delayed by the extended absence in Europe of President Griscom of the Inman Line.

The Cramps are confident that they can build speedier vessels than the City of Paris, City of New York, Teutonic, Majestic or any of the other fast liners now struggling to smash records.

Death Caused by a Bee's Sting.

WALTON, N.Y., Aug. 12.—As Mrs. Bury, an elderly lady living on the banks of the Delaware, about two miles from this place, was walking in her garden yesterday she was stung on the temple by a bee. Feeling nothing more than a sharp pain she entered the house, when her condition was at once discovered to be serious and medical assistance was summoned, while the usual remedies were applied. In spite of these she sank rapidly and died within 30 minutes.

Water Route from Buffalo to Chicago.

CHICAGO, Aug. 12.—A Cleveland syndicate has taken the initial steps toward the operation of an all-water route from Buffalo to Chicago by the purchase of the passenger steamers City of Mackinac and City of Alpena from the Detroit and Cleveland Steam Navigation Company.

Dynamite in a Threshing Machine.

PARKERSBURG, W. Va., Aug. 12.—A steam thresher, operating on Thomas Faulty's farm, near Elizabeth, was blown to pieces this afternoon. Samuel Booth and another man were fatally and three others seriously hurt. Dynamite had been placed in the machine, it is believed, to kill the operatives.

He Will Never Touch Powder Again.

COLUMBUS, Ind., Aug. 12.—Enoch Ledraw, a farmer of Washington, had a can of powder to blast rock in a well. His 11-year-old son begged for some to blow up a stump with, but was refused. Determined to test the quality of the powder the lad sprinkled some on top of the can and touched a match to it. A violent explosion followed. The boy was fatally injured and a barn burned to the ground.

A Murderer's Escape.

BALLSTON, N. Y., Aug. 12.—Martin Foy, jr., the Guttenburg race tout, who was confined in the Saratoga county jail here for the murder of Henrietta Wilson at Saratoga last May, escaped at 5.30 o'clock yesterday.

Ten Firemen Injured.

LONDON, July 30.—Rallis' large flour and cotton warehouse at Bootle was destroyed by fire last night. The loss is over £30,000. Ten firemen were seriously injured by the fall of a wall.

EDITORIAL NOTES.

It seems to be about "which and t'other" as to whether Canada or the United States can manifest the smallest and meanest spirit in their dealings with others. Many comments have been made on the attempt to prevent the Hamilton band to fill an engagement to play at Chicago and Denver on the ground that such an engagement violated the alien labor law; and certainly it would be difficult to too severely condemn such an action. But now we read that a Canadian customs officer has distinguished himself by assessing a Buffalo Sunday School picnic party $9.60 on the ice cream they took into Canada as part of their lunch. It would be difficult to decide which of these two acts was the more contemptible. The people of these two countries ties are actuated by the most friendly feeling towards each other, but the Governments and their officials seem to delight in acts the petty meanness of which would not be credible were not the proof so convincing. In this case, however, the Canadians seem to have surpassed their neighbors, since they accomplished their contemptible act while the latter did not.

Hon. G. W. Ross, Minister of Education, has issued the following circular to inspectors and teachers:—"I beg to call your attention to the propriety of having suitable exercises in our schools on the 12th of October to commemorate the four hundredth anniversary of the discovery of America. For this purpose teachers are recommended to make whatever arrangements they may find most convenient for bringing to the notice of their pupils such an important historical event. I would suggest that on the afternoon of that day, so far as time may allow there might be suitable songs and recitations by the pupils, a sketch of the life of Columbus might be read, and advantage might be taken of the occasion for having short addresses, dealing with the progress of civilization since the discovery of this continent. Exercises of this kind could be made very interesting and should exert a good influence on the youth of the country."

In the last 50 years the debt of France has multiplied twice; Austria, eight times; Spain, eleven times; Russia sixteen times Sit down and reflect on this fact—just in proportion as these nations have gone into debt have the hardships of their respective peoples been increased. It is harder far for an honest man to make a living in either Spain or Russia to-day than it is for him to obtain a comfortable sustenance in France. Unless national debts are incurred in profitable schemes for national development, they are certain to be oppressive.

What Stronger Proof

Is needed of the merit of Hood's Sarsparilla than the hundreds of letters continually coming in telling of marvellous cures it has effected after all other remedies had failed? Truly, Hood's Sarsaparilla possesses peculiar curative power unknown to other medicines.

Hood's Pills cures Constipation by restoring the peristaltic action of the alimentary canal. They are the best family cathartic.

The merit of Hoods Sarsaparilla is not accidental but is the result of careful study and experiment by educated pharmacists.

SEVEN PERSONS KILLED.

The Crowd Refused To Disperse and the Troops Fired Upon Them.

CONSTANTINOPLE, Aug. 12.—A despatch from Trebizond states that on Aug. 5 a serious disturbance occurred at Platana, seven miles west of Trebizond. The trouble arose from the enforcement of the sanitary regulations adopted by the Turkish officials to prevent the spread of cholera. Nearly 1500 persons were detained at the lazaretto and they attempted to break through the sanitary corridor. The local authorities were powerless to handle the crowd, and a battalion of troops was hastily summoned. The crowd refused to disperse and the troops fired upon them. At the first volley seven persons were killed. The people then turned and fled panic-stricken to the lazaretto.

Mexican Brigands Make a Big Haul of Silver Sulphides.

DURANGO, Mex., Aug. 12.—The mail courier from Mazatlan brings information of a bold and successful robbery committed by a band of brigands near Culiacan, in the State of Sinaloa.

A train of 10 burros was on the way from the Yedras mines to Culiacan, loaded with $50,000 worth of silver sulphides in boxes for export.

It was guarded by 20 men, who were attacked in camp by 15 bandits. Three of the guards were killed and the others were overpowered and bound hand and foot. They were left in that condition by the brigands, who drove the mules with their precious loads into the deep recesses of the Sierra Madre mountains.

A company of Government troops has gone in pursuit of the robbers.

What She Said

Mrs. R. Peck, 15th street, New York City, visited Canada last year, and had the good fortune to pick up something which not only suited her, but her neighbors also. Writing the manufacture of Nerviline she says:—"I bought three bottles of Nerviline while in Canada and treated my neighbors to some of it, and all think it the best medicine for internal or external pain they have ever used." Nerviline deserves such commendation, r it is a most powerful, penetrating, and rtain remedy for pain of all kinds. Take sub stitute.

"I SHALL DIE TO-NIGHT."

A Man on Trial for Murder Accurately Predicts His Own Death.

MARSHALL, N.C., Aug. 12.—"I shall die to-night," said W. H. Shelton to the sheriff, who was conducting him from the court house to the jail.

Shelton was on trial for the murder of Grant Tweed some months ago, whisky and a woman having much to do with the homicide. During the day the state had put on the stand three eye-witnesses of the killing and Shelton, who had heart disease, was much affected by their testimony.

It was while on the way to prison, after court had adjourned for the day, that he told the sheriff he would die that night. He asked that he might be put into a comfortable room instead of a cell and his wife might visit him. His requests were granted.

As he predicted, Shelton was taken ill during the night, and although a physician exhausted his medical skill in trying to relieve him he died about 2 o'clock. Shelton was a robust-looking man and seemed in perfect health when the trial began.

Important Business Transacted by the Oddfellows at Windsor.

WINDSOR, Aug. 12.—At the session of the Grand Lodge I.O.O.F. yesterday it was decided that the mileage rate be five cents per mile one way and $2 per diem. Bro. Auld of Amherstburg was appointed Grand Lodge secretary, Bro. J. A. Young of Thamesford assistant secretary, Bro. Thomas Hillier of Windsor grand messenger.

These officers of the Grand Lodge were elected: Grand master, Rev. Bro. T. W. Jolliffe; deputy grand master, Bro. Joseph Oliver; grand representative, Bro. Henry Robertson; grand secretary, Bro. J. B. King; grand treasurer, Bro. William Badenach; grand warden, Bro. W. H. Hoyle.

The report of the Special Committee on districts was adopted, the Grand Lodge making some important changes.

Mayor Fleming of Windsor tendered the members of the Grand Lodge a reception at his residence this evening.

TO MEET IN NOVEMBER.

The Date Said to Be Finally Settled Upon Session Liable to Be a Stormy One.

QUEBEC, Aug. 12.—It has been decided by the Provincial Government that the Legislature will be called together in the early part of November. The session will in all probability be much more stormy than the last, principally on account of the measures of taxation which have created such universal discontent all over the province. The latent discord existing between the two well-defined parties in the ministry will probably break out during the session or before it if Lieut.-Governor Angers is replaced at the expiration of his term of office in October next. Nothing is known here as to his successor, and it is thought in certain quarters that without being formally confirmed in a second term of office he will be allowed to continue in the enjoyment of his present functions until matters have been settled so as to avoid an open rupture between the ministers. These gentlemen are meanwhile enjoying their vacation and traveling over the country in separate groups.

ST. JOHN, N.B., Aug. 12.—Negotiations were practically closed yesterday for the purchase by E. W. Wilson of New York of the Joggins coal mines for $160,000, Wilson to pay $60,000 down.

The present output of the mines is 300 or 400 tons daily, which may easily be increased to 700.

The Intercolonial Railway has contracted for 60,000 tons for this season.

The assent of the stockholders will close the sale in the course of a few weeks.

"German Syrup"

The majority of well-read physicians now believe that Consumption is a germ disease. In other words, instead of being in the constitution itself it is caused by innumerable small creatures living in the lungs having no business there and eating them away as caterpillars do the leaves of trees.

A Germ Disease. The phlegm that is coughed up is those parts of the lungs which have been gnawed off and destroyed. These little bacilli, as the germs are called, are too small to be seen with the naked eye, but they are very much alive just the same, and enter the body in our food, in the air we breathe, and through the pores of the skin. Thence they get into the blood and finally arrive at the lungs where they fasten and increase with frightful rapidity. Then German Syrup comes in, loosens them, kills them, expels them, heals the places they leave, and so nourish and soothe that, in a short time consumptives become germ-proof and well.

THE THREE FATES

BY

F MARION CRAWFORD is an excellent book, The plot sufficiently interesting without being too intricate. A number of pretty situations and startling denouements are admirably sketched by the author.

The young writer who is the hero of the play, meets with his three fates, the first he loves, but she destroys her own happiness by refusing him, the second loves him, and her mother's intrigues to catch him are only made unsuccessful by the discovery of a deceit she has practised, and finally his third appears on the scene.

This is one of the finest novels placed before the reading public for some time, and its popularity will grow with the more thoughtful class of readers, and the wisdom of the writer, and the beauty of his characters will be appreciated years hence perhaps more than now. At

IMPERIAL PARLIAMENT.

SALISBURY'S GOVERNMENT DEFEATED BY 40 MAJORITY.

In a House of 660 Members 350 Voted Against the Unionists—Salisbury Will at Once Tender the Resignation of His Ministry.

LONDON, Aug. 12.—A division took place in the House of Commons last night on the motion of Mr. Asquith (Gladstonian) of "No-Confidence" in the Government and was carried by a vote of 350 to 310.

THE NO-CONFIDENCE DEBATE.

Speeches by Joseph Chamberlain and Other Members—An Immense Audience.

LONDON, Aug. 12.—The House was packed when Parliament assembled yesterday afternoon. Every seat was taken and crowds were standing on the floor and in the gangways.

Among the distinguished spectators were the Earl of Cadogan, Lord Knutsford, the Prince of Teck, the Duke of Devonshire, Prince Hatzfeldt, the German Ambassador, Minister Lincoln and other members of the diplomatic corps.

Happy Over Victory.

When Mr. Gladstone entered he was cheered enthusiastically. Mr. Joseph Chamberlain, who wore an orchid, in addition to his usual garb, was also cheered as he went to his seat, and more or less applause greeted each notable from his partisans. Members were generally good-humored, the Conservatives looking reconciled to defeat and the Liberals happy over victory.

The Right Hon. James W. Lowther stated, in reply to a question, that the document torn up by Sir Charles Euan-Smith, British Minister at Morocco, in presence of the Sultan, was the draft of a treaty which the Sultan desired to have signed. This is a vindication of the statement made by the correspondent in Morocco of the Central News Agency and the United Press, whose splendid work in giving to the world the thrilling circumstances of the British mission to that country has excited the envy of other news associations.

The Right Hon. Joseph Chamberlain arose to speak on the motion of "no-confidence."

Mr. Alpheus C. Morton, Liberal, of Peterborough, objected to Mr. Chamberlain being allowed to speak on the ground that he had already spoken the previous evening.

The Speaker overruled the objection, whereupon Mr. Chamberlain proceeded with his remarks. He bitterly commented on the tactics employed to prevent him from speaking, and said that it was an early sample of the petty and malignant treatment to be meted out to the Liberal-Unionists. Continuing, Mr. Chamberlain said: Mr. Gladstone was civilly answered; Irish members were treated in a similar way, but remarks by Unionists were regarded as irrelevant and impudent.

After this outbreak, which the Liberal-Unionists showed some signs of applauding and to which the Irish members listened with grim satisfaction, Mr. Chamberlain launched out against the incoming Government. He said that the policy and composition of the incoming Government were unknown; foreign troubles were looming up in Italy and in Egypt, and if ever a foreign policy was needed that would command the respect of the world it was now. He trusted that Lord Rosebery would be called to the Foreign Office. The people trusted Lord Rosebery. Why? Because his views were utterly opposed to the views of Mr. Gladstone and Mr. Morley.

Mr. Chaplin, President of the Board of Agriculture, then rose to speak, but was treated with such a storm of shouts of "Divide, divide," that his voice was inaudible.

Mr. Chaplin complained that such a reception had never before been accorded a responsible minister.

The Speaker then rose to put the question on Mr. Asquith's motion and was answered with a thunderous volume of ayes and noes from the respective sides of the House.

The strangers having withdrawn from the precincts of the chamber the Speaker repeated the usual formula of putting the question and was again greeted with sustained and vehement replies.

The House divided at midnight.

When Mr. Gladstone returned from the lobby the whole Liberal party rose and cheered him.

The tellers appeared at 12.25 a.m. with the paper containing the numbers showing the result of the division, and handed the paper to Arnold Morley, the Liberal whip.

This was the signal for a volley of Liberal cheers and Irish shouts of "Mitchelstown," "Down with Balfourism," etc., and it was some time before Mr. Morley was able to announce the figures.

The result announced was: For the motion, 350; against the motion, 310.

Then there was a fresh display of enthusiasm. The noise having subsided, Mr. Balfour and the whole body of Conservatives rose and, amid prolonged acclaims, Mr. Balfour moved that the House adjourn until Thursday next.

The motion was agreed to.

The Cabinet has been summoned to meet at noon on Friday, and Lord Salisbury will leave at 1 p.m. for Osborne House.

After formally resigning Lord Salisbury will remain at Osborne House for the night.

Mr. Gladstone will see the Queen on Saturday.

The representative of the Associated Press learns definitely that Sir William Vernon-Harcourt has accepted the post of Chancellor of the Exchequer in the new Cabinet.

Mr. Gladstone has cooled toward his former favorite, Mr. Fowler, owing to the latter's want of energy during the electoral period.

Petition Against Timothy Healy.

LONDON, Aug. 12.—Mr. P. Callan, Parnellite, who was defeated in the northern division of Louth by Mr. Timothy Healy, anti-Parnellite, has lodged a petition against the election of Mr. Healy on the ground that voters were intimidated by the priests.

Rejected the Offer.

PARIS, Aug. 12.—Edward Parker Deacon had an offer of release from prison on condition that he would leave France forthwith, never to return. Mr. Deacon refused to accept the offer.

Cholera Diminishing.

ST. PETERSBURG, Aug. 12.—The official reports in regard to the cholera epidemic say that the disease is diminishing in Samara and Saratoff and the Don districts.

Eight Miners Killed.

PARIS, Aug. 12.—In a pit at Besseges, Department of Gard, to-day eight miners were ascending in a cage when the cable broke and all were dashed to the bottom and killed.

All through the Provinces the rapid increase of La Grippe, is causing great alarm. A report was received here to-day, of a new development of the disease, which is worse, perhaps than any other. Wm. Hanley of N. Y. City, died in terrible agony after sickness of only four days. His tongue swelled to such an extent as to make it impossible for him to close his jaws or swallow any food. The report is causing the people in this district to inquire into the noted Grip-cure, recently referred to in so many papers. In Cape Breton the disease has spread very rapidly and with fatal results, D. J. McKillop of L'Archeveque writes Feb. 11th that this cure has been tried in his neighborhood and with such success that all those residing there are obtaining a supply believing it to be the only remedy affording relief and effecting a certain cure. He finished his letter by asking for a large quantity of the Medicine (Dr. Morse's Indian Root Pills) to supply the demands of the community for the relief of LaGrippe.

For You or O

GENTLEMAN,—One of my little girls (aged 4 years) had been troubled with costiveness in its worst form since infancy. We tried different remedies which gave relief while using, but as soon as discontinued she would be worse than before using. She lost her appetite and was growing weak and delicate. A friend of mine who had used B B B with grand results for the same disease advised me to try it, and also the Burdock Pills, which we did. She did not take the contents of one bottle before it relieved her, and not only relieved her but permanently cured her, for she has not been troubled since since, and she is now eight years old.

Advice to Mothers

Mrs. Winslow's Soothing Syrup has been used by millions of mothers for children teething for over fifty years, with perfect success. It relieves the little sufferer at once, produces natural, quiet sleep, and freeing the child from pain, and the young cherub wakes as bright as a button.' It is pleasant to taste, sooths the child, softens the gums, allays pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhoea, whether arising from teething or other causes 25 cts a bottle.

A Question

How can we raise more corn than the acher? Why, of course by using Putman's Corn Extractor. Putnam's Painless Corn Extractor has given universal satisfaction, for it is safe, sure and painless. Like every article of real merit it has a host of imitators, and we would specially warn the public to guard against these dangerous substitutes offered for the genuine, Putman's Extractor. N. C. A Friend

Wishes to speak through the *Register* of the beneficial results he has received from a regular use of **Ayer's Pills.** He says: "I was feeling sick and tired and my stomach seemed all out of order. I tried a number of remedies, but none seemed to give me relief until I was induced to try the old reliable Ayer's Pills. I have taken only one box, but I feel like a new man. I think they are the most pleasant and easy to take of anything I ever used, being so finely sugar-coated that even a child will take them. I urge upon all who are

In Need

of a laxative to try Ayer's Pills."—Boothbay (Me.) *Register.*

"Between the ages of five and fifteen, I was troubled with a kind of salt-rheum, or eruption, chiefly confined to the legs, and especially to the bend of the knee above the calf. Here, running sores formed which would scab over, but would break immediately on moving the leg. My mother tried everything she could think of, but all was without avail. Although a child, I read in the papers about the beneficial effects of Ayer's Pills, and persuaded my mother to let me try them. With no great faith in the result, she procured

Ayer's Pills

and I began to use them, and soon noticed an improvement. Encouraged by this, I kept on till I took two boxes, when the sores disappeared and have never troubled me since."—H. Chipman, Real Estate Agent, Roanoke, Va.

"I suffered for years from stomach and kidney troubles, causing very severe pains in various parts of the body. None of the remedies I tried afforded me any relief until I began taking Ayer's Pills, and was cured."—Wm. Goddard, Notary Public, Five Lakes, Mich.

The St. Thomas church Sunday school excursion yesterday was a very successful one a large number taking advantage of it. The excursionists stayed for two hours at Glenora and then proceeded to Adolphustown where an hour was spent in viewing the many interesting and historic objects to be there seen. Service was also conducted in the church there by Rev. Canon Burke and Rev. A. L. Geen.

The usual improvements and renovations have been carefully conducted at the Institution for the deaf during the vacation, some of the changes being quite extensive. This yearly attention to the requirements of the school is imperative, and receives the earnest consideration of the officials. Where so many persons reside for nine months of the year in one building, the vast majority being children, the wear and tear of all things more yielding than iron or stone is something to wonder at. It is also necessary to provide for the health of the inmates as far as possible by removing whatever becomes objectionable, and supplying sanitary needs generally. The institution will be in good condition for the opening session next month.

Mr. J. A. McMunty, Toronto, deputy provincial councillor of the Great Order of Chosen Friends is at the Huffman House, and will to-night institute and install the officers of the new Bay of Quinte Council No. 47 in the Sons of England Hall. This Order has more than than 57,000 members in Canada and the United States. Erom the large list of citizens' names on petition for charter there is a very bright prospects for this order having a large membership at an early day in this city.

The largest boat ever built on or for fresh water will soon be under construction at West Bay City Mich. The contract for it was closed a few days ago. It will be 360 feet keel and 45 feet wide. Her extreme length will be nearly 400 feet, and she will carry on 16 feet of water not less than 4,500 tons dead weight. This is said to be much more than the average cargo of salt water steamers, and for the same draught is without precedent. When projected improvements in canals are completed she will carry over 6,000 tons. She will have a speed of over thirteen miles an hour, and will be ready for service next spring.

Whig :—Mrs. Crysdale, formerly a resident of Belleville, was around the streets and through the hotels selling War Crys this morning. Entering a saloon she walked up to the bar when a young man was in the act of drinking a glass of beer. She pleaded with the fellow to dash the cup to the floor and said that if it had not been for drink her husband would be alive to-day. She said he was killed in Belleville some six weeks ago by falling from a house in course of erection. "I don't think my husband had more than one glass of liquor that day," said she, "but that one glass was the cause of his death. He was under the fumes of the liquor and unable to extricate himself."

Light Overcoats

It is almost as necessary to have a light weight overcoat as it is to have an undercoat. In the very warmest weather sudden changes come and you are very liable to take cold unless you have a proper garment to slip on. The Oak Hall are prepared at all seasons of the year to supply these necessary garments at prices running from $5 to $12. Those gentlemen who intend doing any travelling the Oak Hall especially invite you to call and examine their stock of light overcoats.

Ask Your Friends

Who have taken Hood's Sarsaparilla what they think of it, and the replies will be positive in its favor. One has been cured of indigestion and dyspepsia, another finds it indispensable for sick headache, others report remarkable cures of scrofula, salt rheum and other blood diseases, till others will tell you that it overcomes "that tired feeling," and so on. Truly, the best advertising which Hood's Sarsaparilla receives is the hearty endorsement of the army of friends it has won by its medicinal merit.

NOTES AND COMMENTS.

More About the Council—The Early Closing Question.

In these comments a few days ago some remarks were made complimentary to the city council, and bespeaking for our aldermen more consideration than they usually receive from the public. Those remarks met with the approval of all sensible and reasonable people, but some of the other kind of people disapproved of what was said.

This latter class think that nothing good should ever be spoken concerning aldermen. Why they take such a view it is hard to say—unless it be that they themselves have aspired to a seat at the council board and been rejected, and now desire to give vent to their disappointment by abusing those who succeeded?

Our remarks on this subject did no more than justice. Aldermen are subject to a good deal of indiscriminate and unmerited abuse, yet as a matter of fact they deserve the hearty support and sincere gratitude of the people, so long as they do their duty faithfully and conscientiously, as most of them do.

Doubtless what they do will not meet with the approbation of everybody; that is but natural, inasmuch as people differ in opinion on every possible subject. But if they are conscientious, and have done that which they think for the best, then let due credit be given them for their efforts and the motives that actuated them even though the wisdom of their action may be open to criticism.

For the services these men render are disinterested and valuable. The proper discharge of the duties of an alderman necessitates a good deal of sacrifice of time and convenience, and for all the work done and the anxiety and worry undergone no pecuniary remuneration whatsoever is received. In fact most of the aldermen not only give freely of their time and expend their best efforts for the city without any reward, but they are also considerably out of pocket at the end of the year.

Then let due credit be given for these gratuitous and self-sacrificing efforts, and let aldermen be treated as men should be who are doing all they can and doing what they think best for the welfare of the city.

In this column there has been no hesitation in criticising the actions of the council, or of any member thereof, whenever it was thought criticism was called for, but commendation has also been expressed with equal freedom whenever it seemed to be merited. To both praise and criticism, when expressed with due moderation and in a proper spirit, no right-minded alderman has taken or will take any exception.

A reference was made recently in this column to our electric st. railway, and the question asked where were the local capitalists who, it was stated by an alderman in the council, were prepared to build the road if the other company did not do so.

The facts are these. A local capitalist, a perfectly reliable man, did make the offer in good faith, and was prepared then, and still is, to carry out his project.

But the projector of the rejected scheme still holds the charter of the road, and until that charter is made over or cancelled nothing can be done, so the matter lies in abeyance for the time being. But the prospects are yet good, very good, that before this time next year the people of Belleville will see an electric street railway under construction on their streets.

The recent prosecution of a Madoc merchant for keeping his store open after seven o'clock has aroused a good deal of interest and P. M. Flint's able and exhaustive judgment on the case, which appeared a few days ago in the ONTARIO was apparently in accord not only with the literal wording of the clumsily drawn by-law, but in accordance also with justice and equity.

Any by-law requiring that all stores must be closed at any stated time is tyrannical and unjust, and such as should not be on the statute books in such an enlightened country as this ; and the Ontario statute, by which such by-laws are authorized, is unworthy of the wisdom of the able and intelligent body of men that compose the legislature of this Province.

There can be little doubt that such a law is ulta vires, as it interferes with the undoubted right of every individual to do what he likes with his own property on his own premises so long as he does not in any way violate the rights of others.

What possible right has a village council or any other legislative body to say that the owner of a store shall not, if he so choose, keep his store open for business after seven o'clock, since by so doing he does not in any conceivable way interfere with the rights or privileges of any other individual?

If a law were enacted forbidding any merchant to keep employes at work after seven o'clock it would be a different matter for then the rights of others come into question. But to say that the proprietor himself cannot keep open after seven or after ten or all night if he chooses is to deprive him of his just rights and to interfere with the fundamental principles of civil liberty.

INTERESTING SERVICES.

DESIGNATION OF DR. AGNES TURNBULL TO THE MISSION FIELD

Eloquent Addresses by Ministers She is Presented With a Bible and Bible Dictionary.

Much interest has been aroused in the city over the designation of Dr. Agnes Turnbull to the mission field in Central India, which event took place last night in St. Andrew's Presbyterian church. Miss Turnbull is the daughter of Rev. John Turnbull, formerly Presbyterian minister at Melrose, now doing mission work in Nova Scotia. In anticipation of this work she took a full medical course in Kingston, graduating this year, and at once prepared to depart on her heroic and self-sacrificing mission.

Yesterday afternoon a reception in her honor was held in the basement of St. Andrews church by the W. F. M. S. auxiliaries of that church and John St. church, when she was presented with an address and Fairburn's Imperial Bible Dictionary.

At the designation service in the evening there was a large and deeply interested audience present, the largest ever seen at a missionary meeting in the church. Some 35 were present from Deseronto and 14 from Trenton. Mr. Cassels, of Toronto, convenor of the Foreign Mission committee, presided and music was provided by the united choirs of the two Presbyterian churches. After a few introductory words a chapter was read by Rev. Mr Wilkins, of Trenton, and prayer offered by Rev Mr. Craig of Deseronto.

Rev. E. N. Baker was the first speaker, and he made an eloquent and timely plea for the organic union of the evangelical churches, which were already one in heart. Christ's prayer "That they may be one" should be fulfilled by the church to day. These divisions among christians constitute one of the worst hinderances to missionary work. We in this land can see how such differences are compatible with faith in one Lord, and with oneness of heart and aim, but in heathen lands these differences are hard to explain or to be understood, and no wonder many shrewd and intelligent Hindus and Japs hesitate to accept a religion concerning which there seems to be so much difference of opinion among christians. Then this division among christians is very costly. In many villages and towns of 2000 or less inhabitants there are five or six churches to maintain and that many ministers to support. Contrast this with China where there is but one missionary to nearly eight hundred thousand people. One or two churches could do the work in the village or town, and the money spent in the support of the other churches should be used to send the other ministers as missionaries to foreign lands. He was pleased to be present at that meeting because the presence of all denominations there seemed to show a tendency towards the future organic union of the churches. Another significant feature of the meeting was that it was met to designate a woman missionary. Christianity had liberated woman and put her on a plane of equality with man, and it was seemly now that woman should carry this religion of liberty and equality to her enslaved sisters in other lands. He congratulated the Presbyterian church on the grand missionary work it was doing, he congratulated Dr. Turnbull on the grand privilege she enjoys of carrying the gospel to foreign lands. Some say the days of heroism are past, but it is not so. It is easy to be a Christian or to preach the gospel in this land, but to convey the gospel to the heart of India or Africa or China requires as devoted, as self-sacrificing, as heroic a spirit as was ever manifested by the apostles of old.

Rev. J. L. George spoke next. He referred to the heroic deeds of Hastings and Clive and Wellesley and Campbell in India. Hundreds had gone there for purposes of conquest or ambition or of gain—all for selfish purposes. How much nobler the heroism and motive of the missionaries who went there and worked amid danger and discouragement, not for selfish ends, but to carry the gospel to those who sit in darkness. And now they begin to see the result of their efforts, for the fruits of their labor are becoming manifest and for India can now be seen a bright future.

The chairman, Mr. Cassels, then spoke of the object of the meeting that night. About four years ago Miss Turnbull had expressed a desire to become a missionary and had made application to the committee. It was felt however, that it would be much better if she could be sent out as a fully equipped medical missionary, so she attended the women's medical school at Kingston, from which she recently graduated, and in accordance with her desire she had been appointed to the mission field in Central India. The opportunities for work there are illimitable, for it is utterly impossible, for male missionaries to do any work among the women in that land, forty million of whom are shut up in Zananas and wholly inaccessible to men. So if the gospel is to be carried to those women it must be carried by women. He appealed to the church to send out more of these devoted workers. All of them had as much responsibility in this matter as Dr. Turnbull ; and if she and others will forsake home and friends and all the comforts of life in this land, will lay their lives on the altar, surely those who stayed at home should at least give abundantly in support of this cause. On behalf of the missionary committee he bade Dr. Turnbull God-speed in her work. They would follow her with their earnest prayers that she might be faithful and mightily successful.

He then read a letter of greeting from Mrs. Harvey, secretary of the W F M S.

Rev. J. Turnbull spoke briefly. He said he had come from Cape Sable in Nova Scotia to be present at this meeting and intended to accompany his daughter to Scotland on her way to India. It was no light or easy thing for them to give up their daughter to this work, but she had long felt a desire to go to the mission field, and they were ready and willing to make the sacrifice, rejoicing that she was accounted worthy of this work.

Rev. M. W. McLean said such a meeting as this was a mighty evidence of the power of God in the human heart. Here they saw a young lady who might have passed a happy and useful life among her friends, surrounded by all the comforts and joys of life in such a land as this, yet willing to give it all up for Christ. She has gone through a severe course of study and is now about to go to this far distant land, to endure toil and fatigue and discouragement to face danger, perhaps even death, all for the love of God, all for the sake of preaching the gospel to the heathen. Surely a religion that will induce anyone to make such a sacrifice as this and to count it all joy, must be a glorious reality. This also is a beautiful and powerful object lesson of the great truth taught by Christ, that the only true worship is that of self-sacrifice. Every British subject as he travels or sojourns in foreign lands, has behind him the whole power of the British Empire for his protection. Dr. Turnbull, as she goes forth in the name of Him who has called her, has all the power of the Eternal God to guard and shield her amid all dangers May the lesson taught that night be taken to the heart of all of them. She is giving herself—what are we giving?

At the close of the meeting Dr. Turnbull took her place at the door where her many friends bade her farewell.

OBSERVATIONS BY THE WAY

What a Valued Contributor Noticed in his Peregrinations

Are all the dogs usually seen on the streets of Belleville authorized by law to gambol and gush at their canine pleasure? We have frequently counted a dozen within a radius of a few yards, all of them performing similar acts with a regularity and precision that must make a powerful impression somewhere. These dogs constitute the most abominable nusiance that can be found in the city. They are, too, sometimes more than a nusiance, in the presence of children of all ages. It is difficult to discover what benefit most of them can be to those who must pay $1 or more to insure their existence. There should be no mercy shown in administering the law in this case.

Last Sunday forenoon a young man was seen walking up West Moira street staggering drunk. Those who saw him in such a condition and at such a time naturally wondered where he got the liquor that made him drunk. Somebody must have violated the law, "in such cases made and provided."

Do horses come under the provisions of the "Cow by-law?" If so, how is it that so many vagrant equines are permitted to make nocturnal transgressions in the city? Have we an inspector who draws a salary of $100 a year, and is seldom seen in the haunts of men and beasts? Belleville is becoming an interesting place in many ways.

"Dogs That are Hurt Always Howl"

And the way some of the two penny half-penny would-be-clothiers are howling every night proves conclusively just how much Gough is hurting them. That "we are consistent" it is true. We advertise to sell cheap and we do sell cheap, but if any one can recognize "consistency" in a firm that sold goods at 50 per cent more before we opened here than they do to-day then we don't understand the meaning of the word "consistency." That we are beyond "such competition" it is equally true and it is just because they can't compete that they now become mud throwers Well when it comes to throwing mud count Gough out. What we have to say we say fearlessly because it is the truth, and when we say we are in a position to sell these howling clothiers as cheap as they can or do buy from any wholesale house in Canada, we stand prepared to prove it or forfeit $500. And now if this howler thinks we can't, let him come out like a man and accept this challenge and put up, or shut up, for it is our first and will be our last time to notice such small fry.

TOWN TALK

"Oh, if I had only taken this medicine earlier in my life, what years of suffering it would have saved me!" was the exclamation of one who had been cured of rheumatism by the use of Ayers Sarsaparilla. Scores of such cases are on record.

As a tonic, the Father Mathew Remedy restores to a healthy condition the stomach and liver of the intemperate, which are always out of order, and builds up his nervous system; as an alterative, it makes a new man of him.

Mr. G. Redick writes Mr. Louttit as follows ; I feel it my duty both to you and the public that after ten years affliction with that loathsome disease, catarrh, I have found apparently a lasting benefit (Louttit's Catarrh Cure) and to vouch for the same and am willing and desirious to make affidavit. Louttit's Catarrh Cure is for sale wholesale and retail at Geen's Drug Store.

Those who are in the habit of taking an appetizer before meals could not do better as well for the effect as for economy's sake, than make use of "Indigenous Bitters." As Indigenous Bitters are slightly [illegible], those who suffer from habitual constipation, will derive great benefit, by regularly taking them, as they keep the bowels in good order [illegible] that way aid digestion

There are more cases of sickness and death from diseased kidneys than from all other diseases combined. It is your own fault if you allow your kidneys to remain in an unhealthy condition when the cure is at hand. Dood's kidney Pills are guaranteed to cure the worst case. It costs but little to give them a trial. They are for sale by all druggists and dealers or by mail on receipt of 50 cts, or 6 boxes for $2.50. Write for book called Kidney Talk.

We do not know of any preparation that has caught the public favor in so short a time as Dodd's Kidney Pills, but when we consider that three-fourths of the Canadian people are afflicted with kidney troubles in some form or other, and that Dodd's Pills are a quick and permanent cure for all these troubles, the large and increasing demand can scarcely be wondered at. PERSONAL PARAGRAPHS.

Mr. John White, of Belleville, ex-M.P. for Hastings, was at the Hall yesterday. —Montreal Herald.

The Grand Rapids,(Mich)Eagle says:—"A very pleasant fete was given last night on Henry street in honor of Mrs. George Brown and Miss Abraham of Belleville, Ont. sisters of Mrs J. T. Barker of 85 Henry street. The party was given by Madame R.C. Hatheway, I. Collier and others, and the lawns in front of the four houses were very brilliant, made so by Chinese and Japanese lanterns. The little rain made the grass damp, but the roomy verandas were utilized and a good time was enjoyed. Cards and social converse helped to pass away the evening and light refreshments were served. Then there was music and songs and the entire evening was voted an unqualified success. Mrs. Brown and Miss Abrahams leave on Saturday to visit another sister in Montague, and Mrs Parker joins them later."

No smoker who has ever used the Myrtle Navy tobacco for, say a month, ever relinquishes it for any other brand. Its flavor is rich and full, and it never burns the tongue or parches the palate. It is, in fact, the ne plus ultra of smoking tobacco.

Matches and Pins.

Matches and pins being among the most common things in daily use, it is seldom that any thought is bestowed upon them. Matches that are ignited by friction were first made in 1829, before which time they were made to catch fire from a spark struck from flint or steel—a very inconvenient method. It is hard to say how many millions of matches are made in a day, but when the number of people that use them is reckoned, the total sum is appalling. Probably in the city of New York alone over twenty million matches are used every twenty-four hours. But matches are such little things that nobody ever seems to think of them. From an ordinary three-inch plank 186,000 matches may be made, yet even at this rate the lumber used in the match business attains enormous proportions.

Pins are mentioned as far back as 1483, but not until the beginning of this century were they manufactured by machinery. The old way of making each pin by hand must have been very tedious, and it is not likely that people were so careless with them then, as they were much more expensive than now. It has often been wondered what becomes of the pins that are lost, but it is hard to say. There are fourteen distinct operations in making a pin, and lots of trouble attached to the process. Pins are made of brass, and then tinned and blanched, and millions of them are manufactured daily. As a pin can be used more than once, the number used does not equal that of matches, but still miles upon miles of wires are used annually in their manufacture. Like matches, they are little things and not thought much of ; but when you need a pin or a match, and there is none to be found, then you realize what an important part they play in daily life.

If you have a cough or cold do not neglect it; many without a trace of that hereditary disease have drifted into a consumptive grave by neglecting what was only a slight cold. Had they used Bickle's Anti-Consumtive Syrup before it was too late their lives would have been spared. Mr. A. W. Levy Mitchell, writes. "I think Bickel's Anti-Consumptive Syrup the best preparation on the market for coughs and severe colds. About six years ago I caught severe cold which settled on my lungs, and for three months I had a cought. I had a physician attending me, but gradually grew worse until I was on the verge of Consumption, and had given up hopes of being cured, when I was induced to try Bickel's Syrup. Before I had taken one bottle I found myself greatly relieved, and by the time I had finished the second bottle I was completely cured. I always recomend it for severe colds and consumption."

A LAMP

That will illuminate the world.

Our order for this fall's stock of lamps has gone to the factory. We'll have more lamps for less money than you ever saw before.

We'll have a great special lamp opening.

If you are saving a dollar or two for a lamp, keep it till we announce our great display of these new season's goods

We'll do in the LAMPS as in CROCKERY, Silver, Fruit Jars, etc, and that is, lead all these inexperienced would-be crockery dealers by selling goods at just what they have to pay for them, and that's why the public deal at our store.

THE REASONS!

GOUGH CAN SELL CHEAPER THAN OTHER DEALERS

FIRST—Because we are the largest Clothiers in Canada, and SECOND, because we are not the supply account of any firm, and consequently are not compelled to handle only one manufacturer's goods, and at whatever prices they have a mind to ask. THIRD—Because we have ample means to buy wherever we like, and no matter how large the stock, whether it is $1,000 or $100,000 worth we are always prepared to pick it up if it is a snap, and FOURTH—Because we sell ten times more goods than any other firm, and consequently can sell on a smaller margin of profit.

Some of our high price friends cannot see anything funny about GOUGH selling so cheap, and call us "Fake" dealers, but when inaugurating this One Price and Low Price System we did so with a determination to

"Hew to the Line ; let the Chips fall where they may!"

And if in fulfilling this mission we are breaking the back bone of our high price oppositionists, we are sorry for them, for we mean them no harm, but claim the right to do our business in a

SQUARE, HONORABLE WAY,

GIVING DOLLAR FOR DOLLAR EVERY TIME.

Yes, we are called "fake" dealers and "low" dealers by our opponents. Well, we freely admit we are low dealers, wallowing in the lowest depths of bed rock prices, while our exalted brethren look down upon us from their high place and go wild because we are capturing their trade, and this is the sequel to their calling us "fake" dealers, etc., but it won't go down, for the name of GOUGH is provincial, and a household word in every family.

Don't forget our

GREAT MIDSUMMER SALE

and we are giving extraordinary cuts all along the line, as we are determined to carry no goods over until next season, but require the room for our Big Fall Stock which will commence to arrive next month.

Thousands of Overall's only 19c per pair, sold by other dealers before we opened here for 50c, but we compel them now to sell them for 25c, and they are mad.

IMPERIAL PARLIAMENT.

MR. GLADSTONE WILL GO TO OSBORNE HOUSE.

Gladstone Maintains Absolute Silence on Proposed Appointments — Discussed the Disposition of the Cabinet with His Chief Advisers

LONDON, Aug. 13.—Mr. Gladstone will go to Osborne House on Monday with a complete list of the next cabinet to submit to the Queen, but in pursuance of constitutional usage he maintains absolute silence on proposed appointments.

The New Cabinet.

It has been impossible to conceal the arrangements made for Sir William Vernon Harcourt at the Exchequer, and for Mr. John Morley as Irish Secretary, but Mr. Gladstone's intentions regarding other Ministers are not known, even to some definitely appointed members of his Ministry. He has received queries of aspirants for office and has discussed the disposition of the Cabinet with his chief advisers without definitely communicating to anyone his final selections. Being a punctilious observer of official precedent, he will not formally offer a place to anyone until he has actually received the Queen's command to form a ministry. Surmises are rife regarding new Ministerial combinations.

Among the most striking reports finding credence in official legal quarters is one to the effect that Lord Herschell will become Governor-General of India; that Lord Chief Justice Coleridge will become Lord Chancellor, and that Sir Charles Russell will become Lord Chief Justice. Lord Herschell's appointment will cause a shudder of apprehension throughout the country in view of the critical position of Indian-Russian relations.

Until Tuesday, when Mr. Gladstone returns from Osborne House, the exact composition of the Cabinet will remain unknown.

The Queen will have an unusually exciting time during her conferences with Mr. Gladstone over the nominations. The names of the group re-entering the Cabinet she knows, but most of the new set she dreads knowing. It is known in the court circle that it is fear regarding the personnel of the Gladstone Ministry that mainly induced the Queen to consult the Duke of Devonshire during his visit to Osborne House just concluded as to whether it was possible for him to reunite with Mr. Gladstone and sweeten the Liberal ministry by taking office himself. Another source of the Queen's disquietude is the change in the Royal household appointments, inevitable on Mr. Gladstone's accession to power.

Changes in the Royal Household.

While the Liberal ranks included the old Whig families changes in the Royal household mattered little to the Queen. One duchess succeeded another as mistress of the robes and ladies of the bedchamber could easily be recruited from the Whig aristocracy. But now Mr. Gladstone has small choice and will find it exceedingly difficult to get personages agreeable to the Queen to fill the great court offices.

The House of Commons will resume business on Thursday next mainly to issue writs for the re-election of ministers. Most of the members of the House have already left town and intend not to return till the opening of the session in January. Neither Mr. Gladstone nor his leading colleagues will appear in the House on Thursday. The prorogation of Parliament is expected to take place on Aug. 22.

GLADSTONE'S MAJORITY.

Criticisms From the London Press—Their Task Hopeless.

LONDON, Aug. 13.—The Post says: A sight more earnest or impressive than yesterday's scene in Parliament has rarely been witnessed within the walls of St. Stephen's. Although defeated, the Unionists will re-assemble undiminished in numbers and unfailing in resolution. Gladstone will have to deal with the strongest and most united minority that ever assembled in Parliament.

Gladstonians' Task Hopeless.

The Times says: No Government that remained in office for six years has enjoyed the same measure of success as the Government just defeated. Blunders and disasters there are none to lay to the charge of the Unionist Ministry; so comes to an end a Ministry which has performed work the value of which has not been destroyed by the temporary triumphs of a system of pandering to the greed and passion of the masses, that outdoes the most extravagant flights of Aristophanic satire. It is impossible to assume that the vote of "No-Confidence" in Salisbury is equivalent to a declaration of confidence in Gladstone. When the Government meets Parliament in January it may turn out on the first trial of strength that Gladstone never had a real majority and never possessed the confidence of the House at all. The Gladstonians' task is as hopeless as that of surveying the circle. The course of separatism is upon them; they have the fear of the malady of disintegration against which the Unionists are secure.

Voted Against Balfour.

The Standard says: It is the hopelessness of keeping the Irish members in temper that must weigh upon Gladstone's spirits most. They voted last night against Balfour, but it may be the only occasion on which they will enter the same lobby with Balfour's successor.

The Chronicle says: The single effective point that Chamberlain made in his speech was that Gladstone will hold office for six months without defining his policy. Had an autumn session been conceded, as we advised, Mr. Chamberlain must have cut from his speech all of its most damaging passages. Until the new Ministry meets the House next session, no man dare say it is seated firmly enough to govern the country with authority and vigor. Until Gladstone brings his Home Rule measure forward it would be idle to ignore the fact that his majority is heterogeneous.

Final Adoption Inevitable.

The Pall Mall Gazette says: Gladstone's triumph is Parnell's also. Twenty years ago Parnell had not even entered Parliament; before he died he had converted nine out of ten Irishmen against revolutionary methods. The effect of the division is irrevocable. Difficulties and delays in Home Rule there may be, but its final adoption is now inevitable.

The St. James' Gazette, under the caption, "Leaping Into Darkness," says: The Government was ejected by a majority simply going it blind for the Grand Old Man and a half understood idea. If disaster results in increased taxation, malignant bickerings with France, a disgraceful retreat from Egypt, an open breach with Russia in Central Asia and renewed outrages and rioting in Ireland, the country has itself to thank.

The members of the Cabinet met at noon yesterday and formally agreed to resign. Most of the Ministers will leave town.

REBATE OF CANAL TOLLS.

IT WILL BE DECIDED UPON BY THE CABINET.

The Meeting to be Held at Sir John Abbott's Residence in Montreal—It is Generally Conceded that the Rebate Will be Abolished by the Government.

OTTAWA, Aug. 13.—The Evening Journal learned on excellent authority Friday that an order in council has been passed and forwarded to the Governor-General for signature abolishing the rebate on canal tolls.

This, as already fully explained, means that all vessels using the Welland Canal, whether destined for Montreal or American ports, will pay the old tolls of 20 cents per ton of cargo. The vessels destined for Montreal will no longer get a rebate of 18 cents.

The order in question is expected to be returned signed to-day and if the Government is disposed to abide by its decision it will be made public in Government press to-morrow.

The Journal's informant who is certainly in the confidence of the Government states that the trouble which arose in regard to the proposed change in Montreal may require some further consideration on the part of the Government.

It is said that one or two members of the administration feel that the abolition of canal tolls altogether would be the best way of settling the whole matter, but that would mean a loss of $300,000 revenue annually.

Meeting of the Dominion Cabinet.

MONTREAL, Que., Aug. 13.—For the first time in many years the Dominion Cabinet are to hold a meeting in Montreal this morning.

The meeting is held here for the convenience of the Premier and some of his colleagues and to settle questions in which Montreal is largely interested. It is said the questions to be considered are the canal tolls, harbor improvement and the changes suggested in the Customs Department.

Those expected to attend are Sir John Abbott, Sir John Thompson and Sir A. P. Caron, the Hon. Messrs. Chapleau, Ouimet, Tupper, Carling and Dewdney.

It is stated that the order in council abolishing the rebate on canal tolls has been passed, but awaits Lord Stanley's sanction.

A WIFE'S LETTERS BETRAYED HIM.

Epistolatory Wooing Responsible for Edward Allan's Detention.

TORONTO, Aug. 13.—Detectives Cuddy and Black have for several days past noticed a man acting rather suspiciously around the Union Station and yesterday they concluded to arrest him. On searching him letters were found in his possession addressed to "Edward Allen." They were signed by his wife and in them he was told to address his letters to "Bernice Whalen, 122 St. Antoine-street, Detroit." In these letters his wife upbraided him for remaining in Canada, saying that he would be surely be caught. They further warned him that if he stayed in Toronto he would certainly be betrayed to the Montreal police, which would end very disastrously to him.

On being questioned about these letters Allen said that in 1885 he had got into difficulty with a woman named Stephens in Montreal. At that time he was living at 460 St. Urban-street, and left Montreal to avoid the unpleasant notoriety that would follow. This is a very unlikely story, for seven years have elapsed since that time, and he could not now be arrested for any such offence.

On his person were found several articles which led the detectives to believe that he was a sneak thief.

The prisoner speaks with an English accent. He is 5 feet 4 inches in height, and has light hair, smooth face and sandy complexion. He will be detained here until inquiries are made in Montreal.

NOMINATION OF OFFICERS.

Last Day's Work of the Grand Lodge I.O.O.F.

WINDSOR, Ont., Aug. 13.—Grand Master Fitzpatrick presided at the opening of the last day's work of Grand Lodge I.O.O.F.

The Grand Master called for nominations for Grand Lodge officers under Grand Lodge bylaw 15.

The nominations were as follows: For Grand Master Rep. Robertson nominated Bro. Joseph Oliver of Toronto; for Deputy Grand Master, Rep. John Welsh nominated Bro. W. H. Miner of St. Thomas, Rep. G. Thompson nominated Bro. J. A. Young, Thamesford; Rep. G. H. McGill nominated Bro. Henry White, Port Hope; Rep. John Jewell nominated John W. Gibson, Blenheim; Bro. A. B. Hurrill was nominated for International Bridge; Rep. Edgar nominated Bro. William Bushell, Windsor; Rep. R. J. Stewart nominated Bro. J. B. Ferris, Campbellford; Rep. Young nominated Bro. William Arnor, Hamilton; Rep. Robins nominated Bro. Bradshaw, Dundas; Rep. McFaul nominated Bro. S. K. Binkley, of Niagara Falls secretary, and Bro. J. B. King of Toronto Grand Treasurer. Rep. Ormiston nominated Bro. William Badenach of Toronto as Grand Representative.

The following Past Grand Masters were nominated: R. W. Bell of Peterboro, P. E. Fitzpatrick of Hamilton, W. H. Cole of Brockville, J. B. McIntyre of St. Catharines.

These nominations will be referred to the subordinate lodges for election by ballot of all Past Grands in good standing in their several lodges.

NEWFOUNDLAND GRATEFUL.

he Gives Thanks for Succor, and Will Rebuild St. John's Fire-Swept Quarter.

ST. JOHN'S, Nfld., Aug. 13.—The special session of the Newfoundland Legislature called to consider questions arising out of the recent fire was opened Friday by Chief Justice Carter, acting governor.

His speech contained, besides references to the fire, expressions of thanks to the people of Great Britain, Canada and the United States for their generous contributions and of Newfoundland's heartfelt gratitude for the aid so promptly rendered.

Special mention was made in this connection of Halifax, which led the van in relief movements.

Measures for the rebuilding of the burned portion of the city, the relaying of streets therein and the erection of new public buildings were promised, and the necessity of a bill on the land question was strongly urged.

Four Men Killed and Twelve Injured.

HIGHBRIDGE, N.J., Aug. 13.—One of the buildings of the Edison Concentrating Works at Ogden collapsed, four men were killed and 12 others seriously injured.

Ten Firemen Injured.

LONDON, July 30.—Rallis' large flour and cotton warehouse at Bootle was destroyed by fire last night. The loss is over £30,000. Ten firemen were seriously injured by the fall of a wall.

THE HEARING IN THE CASE OF NE RESUMED YESTERDAY.

The Pamir Question—Lord Rosebery W Not Join the New Cabinet—Russ Troops are Moved to the Afghan F tier.

LONDON, Aug. 13.--The hearing in case of Thomas Neill, indicted for the ful murder of Matilda Clover, was resum before Sir John Bridge in the Bow-str Police Court yesterday. The usual crow curious spectators was present. Consta Conley testified that he saw a man clo resembling the prisoner leaving the ho No. 18 Stamford-street, where resided Al Marsh and Emma Shrivell, who met th deaths in a manner similar to that of Clover girl. This was shortly before Marsh and Shrivell girls were found agony on the floor of the house, were taken therefrom to the St. Thom Hospital.

Mr. Birch of the manuscript departm ot the British Museum testified that in opinion the letter sent to F. R. Smith, of the late William Henry Smith, accus him of the murder of Ellen Dentworth, in the handwriting of Neill. Mr. Bi also gave it as his opinion that the lett to the Dentworth girl and to the other tims found in their rooms after death w also in the handwriting of the accused. T water marks on the paper also tallied w those on the paper that was admitte used by Neill.

Mr. Birch was a witness before the P nell Commission a few years ago and he severely cross examined yesterday regardi the evidence he gave upon that occasi He said he had formed a mistaken opin then.

Neill greatly enjoyed the examination Birch, and when the witness was forced confess that he could be mistaken in opinion of handwritings he laughed heartily that he rocked backward and f ward in the chair.

PARLIAMENTARY NOTES.

A Question About the McKinley Bi British Columbia Loan.

LONDON, Aug. 13.—In the House Commons yesterday, Mr. J. W. The Right Hon. Sir John Gorst, Fnanc Secretary to the Treasury, stated that loan had yet been advanced to Briti Columbia. The object of the loan referr to by Sir John is to aid in paying for proposed fort works and other defences be constructed at Victoria, B. C.

20 AGENTS KILLED.

Arab Tribes on the Upper Congo A in Insurrection.

BRUSSELS, Aug. 13.—The Independen Belge says: Twenty agents of the Katan company have been killed or captured Arabs on the Upper Congo River. T steamer Beernaert, which was taking goo up the river, was seized and the factories we razed. Whole tribes on the western ba of the river are in insurrection. The Ar northwest of Naingive have gone down t Lulaba River and captured the station Ribariba, killing the whites employed the The stations on the Upper Lomasis ha also been destroyed. The Arabs at Stanl Falls and Isango, who have hitherto be loyal, are showing hostility. The Con state authorities are sending reinforceme to the various points threatened by t Arabs.

Uprising Not Due to Local Arabs.

BRUSSELS, Aug. 13.—Reports from t Congo country agree in stating that t troubles are not due to an uprising of lo Arabs but to an invasion of the Nyang regions by bands of Tanganyika Arabs.

EDITORIAL NOTES.

GLADSTONE will have lots of burning questions on hand to settle when he assumes office. Russia is again threatening the northern frontier of India; a quarrel with Morocco has begun; there is a dispute with Venezuala about the Guiana boundary, and a very serious difference of opinion with Argentina in regard to the ownership of the Falkland Islands; and lastly there is the dispute with France about the Newfoundland fisheries and with the United States over the Behring Sea matter, and the complications arising out of the seizure of a United States coaling station by a British war vessel. Salisbury has been much lauded for the vigor and success of his foreign policy, but it looks as if his administration was chiefly marked by his success in getting into embroglios with other countries and then handing them down to his successor for settlement.

The question as to whether or not wholesale bribery can be indulged in with impunity will be tested in the Pontiac election case, in which all the members of the Dominion Government have been made respondents. Mr. Bryson and his agents are charged with soliciting and obtaining votes on the express promise that they would be able to get the Dominion Government to pay over a railway bonus which had been denied the constituency when it was represented by a liberal.

The Erie, Pa., Herald talks sense when it says:

The man who asks for a protective bounty should be compelled to state what he wants it for, and exactly how much he needs. If he will not tell he should not have any. If he says he wants it for the benefit of labor, and if Congress decides that it has a right to authorize the tax for the purpose specified, it logically follows that Congress has an equal right to see that labor gets the tax money that is asked and voted for its benefit. If Congress has a right to put $20 a ton tax on iron for the benefit of labor, it has a right to see that labor gets every cent of that $20.

THE GLORIOUS MARCH.

THE WORLD CANNOT KEEP APACE WITH THE CHURCH.

"Fair as the Moon, Clear as the Sun, and Terrible as an Army With Banners."

LONDON, August 7.—The week, like others that have preceded it since the beginning of Rev. Dr. Talmage's foreign preaching tour, has been a very busy one. Indeed, since July 24th, when he preached in the English and American Church in Berlin, while en route from Russia to Scotland, Dr. Talmage can scarcely be said to have had a moment's leisure. Services have been held at Edinburgh, Inverness, Aberdeen, Dundee, Glascow, Newcastle and Sunderland. The sermon for this week is entitled, "The Glorious March," the text being from Solomon's Song, 6:10: "Fair as the moon, clear as the sun, and terrible as an army with banner."

The fragrance of spikenard, the flash of jewels, the fruitfulness of orchards the luxuriance of gardens, the beauty of Heshbon fish-pools, the dew of the night, and the splendor of the morning—all contribute to the richness of Solomon's style when he comes to speak of the glory of the Church. In contrast with his eulogium of the Church, look at the denunciatory things that are said in our day in regard to it. If one stockholder become a cheat, does that destroy the whole company? If one soldier be a coward, does that condemn the whole army? And yet there are many in this day so unphilosophic, so illogical, so dishonest, and so unfair as to denounce the entire Church of God because there are here and there bad men belonging to it. There are those who say that the Church of God is not up to the spirit of the day in which we live; but I have to tell you that notwithstanding all the swift wheels, and the flying shuttles, and the lightning communications, the world has never yet been able to keep up with the Church. As high as God is above man, so high is the Church of God—higher than all human institutions. From her lamp the best discoveries of the world have been lighted. The best of our inventors have believed in the Christian religion—the Fultons, the Morses, the Whitneys, the Perrys and the Livingstones. She has owned the best of the telescopes and the Leyden jars; and while infidelity and atheism have gone blindfolded among the most startling discoveries that were about to be developed, the earth and the air and the sea have made quick and magnificent responses to Christain philosophers.

The world will not be up to the Church of Christ until the day when all merchandise has become honest merchandise, and all governments have become free governments, and all nations evangelized nations, and the last deaf ear of spiritual death shall be broken open by the million-voiced shout of nations born in a day. The Church that Nebuchadnezzar tried to burn in the furnace, and Darius to tear to pieces with the lions, and Lord Claverhouse to cut with the sword, has gone on, wading the floods and enduring the fire, until the deepest barbarian, and the fiercest cruelties, and the blackest superstitions have been compelled to look to the East, crying, "Who is she that looketh forth as the morning, fair as the moon, clear as the sun, and terrible as any army with banners?"

Yet there are people who are ashamed to belong to the Church of Christ, and if you ask them whether they are in such associations, they say, "Yes, I sometimes attend the Church;" instead of realizing the fact that there is no honor compared with the honor of being a member of the Church of God, I look back with joy to the most honored moment of my life, when in the old country meeting-house the minister of Christ announced my name as a follower of the Lord.

You who are floating about in the world, seeking for better associations, why do you not join yourself to some of the churches? An old sea-captain was riding in the cars toward Philadelphia and a young man sat down beside him. He said, "Young man, where are you going?" "I am going to Philadelphia to live," replied the young man. "Have you letters of introduction?" asked the old captain. "Yes," said the young man; and he pulled some of them out. "Well," said the old sea-captain, "haven't you a church certificate?" "Oh, yes," replied the young man; "I didn't suppose you would want to look at that." "Yes," said the sea-captain, "I want to see that." As soon as you get to Philadelphia, present it to some Christian church. I am an old sailor, and I have been up and down in the world, and it's my rule, as soon as I get into port to fasten my ship fore and aft to the wharf, although it may cost a little wharfage, rather than have my ship out in the stream floating hither and thither with the tide."

O, men and women, by the tides of frivolity and worldliness swept this way and swept that way, seeking for associations and for satisfactions for the immortal soul, come into the church of Jesus Christ. Lash fast to her. She is the pillar and the ground of truth. I propose to speak of the three-fold glory of the church, as it is described in the text:

First, "Fair as the moon." God, who has determined that everything shall be beautiful in its season, has not left the night without charm. The moon rules the night. The stars are only set as gems in her tiara. Sometimes before the sun has gone down the moon mounts her throne, but it is after nightfall that she sways her undisputed sceptre over island and continent, river and sea. Under her shining the plainest maple leaves become shivering silver, the lakes from shore to shore look like shining mirrors, and the ocean under her glance with great tides comes up panting upon the beach, mingling, as it were, foam and fire.

Under the witchery of the moon, the awful steeps lose their ruggedness, and the chasms their terror. The poor man blesses God for throwing so cheap a light through the broken window-pane of his cabin, and to the sick it seems like a light from the other shore that bounds this great deep of human pain and woe. If the sun be like a song, full and loud and poured forth from brazen instruments that fill heaven and earth with harmony, the moon is plaintive and sad, standing beneath the throne of God, sending up her soft, sweet voice of praise, while the stars listen and the sea! No mother ever more lovingly watched a sick cradle than this pale watch of the sky bends over the weary, heart-sick, slumbering earth, singing to it silvery music, while it is rocked in the cradle of the spheres.

Now, says my text, "Who is she, fair as the moon?" Our answer is the Church. Like the moon, she is a borrowed light. She gathers up the glory of a Saviour's sufferings, a Saviour's death, a Saviour's resurrection, a Saviour's ascension, and pours that light on palace and dungeon, on squalid heathenism and elaborate scepticism, on widow's tears and martyr's robe of flame, on weeping penitence and loud-mouthed scorn.

She is the only institution to-day that gives any light to our world. Into her portal the poor come and get the sympathy of a once pillowless Christ, the bereaved come and see the bottle in which God saves all our tears, and the captives come, and on the sharp corners of her altars dash off their chains, and the thirsty come and put their cup under the "Rock of Ages," which pours forth from its smitten side living water, from under the throne of God and the Lamb. Blessed the bell that calls her worshippers to prayer. Blessed the water in which her members are baptized. Blessed the wine that glows in her sacramental cups. Blessed the songs on which her devotions travel up and the angels of God travel down.

As the moon goes through the midst of the roaring storm clouds unflushed and unharmed, and comes out calm and beautiful on the other side, so the Church of God has gone through all the storms of this world's persecution and come out uninjured, no worse for the fact that Robespierre cursed it, and Voltaire caricatured it, and Tom Paine sneered at it, and all the forces of darkness have bombarded it. Not like some baleful comet shooting across the sky, scattering terror and dismay among the nations, but above the long howling night of the world's wretchedness the Christian Church has made her mild way, "Fair as the moon."

I take a step further in my subject—"Clear as the sun." After a season of storm or fog, how you are thrilled when the sun comes out at noonday! The mists travel up hill above hill, mountain above mountain, until they are sky lost. The forests are full of chirp and buzz and song; honey-makers on the log, bird's beak pounding the bark, the chatter of the squirrel on the rail, the call of a hawk out of the clear sky, make you thankful for the sunshine which makes all the world so busy and so glad. The same sun which in the morning kindled conflagrations among the castles of cloud, stoops down to paint the lily white, and the buttercup yellow, and the forget-me-not blue.

What can resist the sun? Light for voyager on the deep; light for shepherds guarding the flocks afield; light for the poor who have no lamps to burn; light for the downcast and the weary; light for aching eyes and burning brain and consuming captive; light for the smooth brow of childhood and the dim vision of the octogenarian; light for queen's coronet and sewing girl's needle. "Let there be light.

Now, says my text, "Who is she that looketh forth clear as the sun?" Our answer is, the Church. You have been going along the road before daybreak, and on one side you thought you saw a lion, and on the other side you thought you saw a goblin of the darkness, but when the sun came out you found these were harmless apparitions. And it is the great mission of the Church of Jesus Christ to come forth "clear as the sun," to illumine all earthly darkness, to explain, as far as possible, all mystery, and to make the world radiant in its brightness; and that which you thought was an aroused lion is found out to be a slumbering lamb, and the sepulchre gates of your dead turn out to be the opening gates of Heaven; and that which you supposed was a flaming sword to keep you out of paradise, is an angel of light to beckon you in.

The lamps on her altars will cast their glow on your darkest pathway, and cheer you until far beyond the need of lantern or lighthouse, you are safely anchored within the veil. O, sun of the Church! shine on until there is no sorrow to soothe, no tears to wipe away, no shackles to break, no more souls to be redeemed. Ten thousand hands of sin have attempted to extinguish the lamps on her altars, but they are quenchless; and to silence her pulpits, but the thunder would leap and the lightning would flame.

The Church of God will yet come to full meridian, and in that day all the mountains of the world will be sacred mountains touched with the glory of Calvary, and all streams will flow by the mount of God like cool Siloam, and all lakes be radiant with Gospel memories like Gennesaret, and all islands of the sea be crowned with apocalyptic vision like Patmos, and all cities be sacred as Jerusalem, and all gardens luxuriant as Paradise, with God walking in the cool of the day. Then the chorals of grace will drown out all the anthems of earth. Then the throne of Christ will overtop all earthly authority. Then the crown of Jesus will outflame all other coronets. Sin destroyed. Death dead. Hell defeated. The Church triumphant. All the darkness of sin, all the darkness of trouble, all the darknesses of earthly mystery, hieing themselves to their dens. "Clear as the sun! clear as the sun!"

Further, "Terrible as an army with banners." I take one more step in this subject and say that if you were placed for the defence of a feeble town, and a great army were seen coming over the hills with flying ensigns, then you would be able to get some idea of the terror that will strike the hearts of the enemies of God when the Church at last marches on like "an army with banners."

You know there is nothing that excites a soldier's enthusiasm so much as an old flag. Many a man almost dead, catching a glimpse of the national ensign, has sprung to his feet, and started again into the battle. Now, my friends, I don't want you to think of the Church of Jesus Christ as a defeated institution, as the victim of infidel sarcasm, something to be kicked and cuffed and trampled on through all the ages of the world. It is "an army with banners." It has an inscription and colors such as never stirred the hearts of any earthly soldiery. We have our banner of recruit and on it is inscribed, "Who is on the Lord's side?" Our banner of defiance, and on it is inscribed, "The gates of hell shall not prevail against us." Our banner of triumph, and on it is inscribed, "Victory through our Lord Jesus Christ!" and we mean to plant that banner on every hill-top and wave it at the gate of heaven.

With Christ to lead us we need not fear. I will not underate the enemy. They are a tremendous host. They come on with acutest strategy. Their weapons by all the inhabitants of darkness have been forged in furnaces of everlasting fire. We contend not with flesh and blood, but with principalities and powers and spiritual wickedness in high places; but if God be for us, who can be against us? Come on, ye troops of the Lord! Fall into line! Close up the ranks! On, through burning sands and over frozen mountain-tops, until the whole earth surrenders to God. He made it; He redeemed it! He shall have it. They shall not be trampled with hoofs, they shall not be cut with sabres, they shall not be crushed with wheels, they shall not be cloven with battle-axes, but the marching and the onset and the victory will be none the less decisive for that.

With Christ to lead us, and heaven to look down upon us, and angels to guard us, and martyr spirits to bend from their thrones, and the voice of God to bid us forward into the combat, our enemies shall fly like chaff in the whirlwind, and all the towers of heaven ring because the day is ours. I divide this army with banners into two wings—the American wing and the European wing. The American wing will march on across the wilds of the West, over the tablelands, and come to the ocean, no more stopped by the Pacific than the Israelites were stopped by the Red Sea, marching on until the remaining walls of China will fall before this army with banners, and cold Siberia will be turned to the warm heart of Christ, and over lofty Himalayan peaks shall go this army with banners until it halts at Palestine.

The European wing will march out to meet it, and Spanish superstition shall be overcome and French infidelity shall be conquered; and over the Alps with more than Hannibal's courage, shall march that army with bnaners, and up through the snows of Russia, vaster in multitude than the hosts that followed Napoleon into the conflict. And Hungary and Poland, by the blood of their patriots and by the blood of Christ, shall at last be free. And crossing into Asia, the law shall again be proclaimed on Sinai, and Christ in the person of His ministers, will again preach on Olivet, and pray in Gethsemane, and exhibit His love on Calvary and then the army will halt in front of the other wing, the twain having conquered all the earth for God.

History tells us that one day the armies of Xerxes shouted all at once, and the vociferation was so mighty that the birds flying through the air dropped as though they were dead. Oh, what a shout of triumph when the armies of earth and all the armies of heaven shall celebrate the victory of our King—all at once and all together: "Hallelujah! for the Lord God omnipotent reigneth. Hallelujah! for the kingdoms of this world have become the kingdoms of our Lord Jesus Christ."

When the Prussian army came back from their war they were received in 1866 at the gates of Berlin, and a choir stood above the gates and as the first regiment advanced and came to the gates, the choir, in music, asked them what right they had to enter there. And then the first regiment, in song, replied, telling over the stories of their conflicts and their victories. Then they marched on, and all the city was full of gladness and triumph. But oh, the greater joy when the army with banners shall come up to the gates of our king!

It will be choir to choir, music to music, hosanna to hosanna, hallelujah to hallelujah. Lift up your heads, ye everlasting gates, and let them come in. Then will be spread the banquet of eternal victory, and the unfallen ones of heaven will sit at it, and all the ransomed of earth will come in and celebrate the jubilee, with unfading garlands on their brow telling of earthly conquests. All the walls of that celestial mansion will be aglitter with shields won in victorious battle, and adorned with the banners of God that were carried in front of the host. Harp shall tell to harp the heroism in which the conquerors won their palm, and the Church that day will sit queen at the banquet. Her wanderings over, her victories gained. Christ shall rise up to introduce her to all the nations of heaven; and as she pulls aside her veil and looks up into the face of her Lord the King, Christ shall exclaim, "This is she that looketh forth as the morning, fair as the moon, clear as the sun, and terrible as an army with banners!"

What She Said

Mrs. R. Peck, 15th street, New York City, visited Canada last year, and had the good fortune to pick up something which not only suited her, but her neighbors also. Writing the manufacture of Nerviline she says:—"I bought three bottles of Nerviline while in Canada and treated my neighbors to some of it, and all think it the best medicine for internal or external pain they have ever used." Nerviline deserves such commendation, for it is a most powerful, penetrating, and certain remedy for pain of all kinds. Take no substitute.

ONTARIO AT THE WORLD'S FAIR.

Particulars of the Progress Made in Collecting Exhibits.

Most encouraging results are being obtained by Mr. Nicholas Awrey, M. P. P., Ontario's commissioner to the World's Fair, in his canvass for exhibits throughout the Province. To a representative of the press Mr. Awrey gave some interesting particulars of the work he is engaged in. The exhibit of timber promises to be the finest Ontario has ever attempted. During the last week no less than 600 letters have been sent out from Mr. Awrey's office to the principal timber men of the Province, inviting their co-operation in making the exhibit worthy of the Province. The length of the samples of timber will be 42 inches, and these will be shown in sections, a slab being taken off to show the grain, and a portion of the side hollowed out to show the heart of the wood. The lower end will be highly polished, as a sample of their excellence for the manufacture of furniture, while another portion again will have an imitation of the leaves of the tree carved upon it. Samples of timber suitable for masts of ships and specimens of every kind of lumber from scantlings and planks to shingles and laths will also find a place in the timber exhibit. Walnut, cherry, black birch and other hard woods used for veneering will be shown, together with softer varieties used in the manufacture of pulp. Doors and sashes will also be included.

Live stock of all kinds will perhaps be one of the most important of the exhibits of Ontario. Already Mr. Awrey has received applications for five times more space than he will be able to allot. Every animal shown will have to be registered in the stock books of either Canada, England or the United States.

Great efforts are being made to secure a really representative exhibit of the minerals of Ontario, and from present indications these hopes will be realized, the number of exhibits already promised being double as many as were shown at the centennial or Cincinnati exhibitions. One exhibit of nickel received is expected to astonish the world. It is no less than two tons in weight and is a magnificent specimen. Granite and marble will be shown in quantities never before attempted, while all will be of the highest quality. Granite monuments are promised which will rival anything ever imported from Scotland. Colored marbles will be shown chiefly in ornamental mantels, and no trouble or expense will be spared to make the display a credit to the Province. Ten of the best men that can be obtained are now collecting samples of minerals throughout Ontario.

A novel plan has been hit upon for the exhibits of fruits. As the great fair opens before the crop of '93 will be ready, specimens of this season will have to be shown, and these will be preserved in huge glass jars of acids. Sixteen hundred of these jars have been procured, and some of them are sufficiently large to show plums and grapes in clusters on boughs, portions of which will be put. Apples will be kept over the winter in Chicago, cold storage having already been secured there by Mr. Awrey. When next year's crop is ripe fresh samples will be sent over by express and shown on plates and in baskets.

In her exhibit of bees and honey Ontario expects to lead the world, the replies already received promising an exhibit larger than any single country has hitherto shown. Altogether Commissioner Awrey is extremely pleased with the result of his labors, and is confident that Ontario, at least, will not be behind in her exhibit.

Among the most attractive features of the World's Columbian Exposition will be the bench show which will be held in connection with the fair from June 12 to 17, 1893. There are many fine specimens of the canine species on this side of the line, and it is desirable that a creditable showing should be made by Canadian kennels.

Mr. Blake Will be Leader.

We believe that Hon. Mr. Blake would be precisely, the right man for the position. Michael Davitt will be a formidable presence in our camp, but him on whom we set the highest value is Edward Blake. The very fact of his having been solicited to come from Canada to help us shows that he is something out of the common, and that his alliance is of weight. We want no dictator. We have done with that. The safety of our position has been imperilled by yielding too much power into the grasp of one fallible personage. But it is necessary that there should be some controlling spirit who would carry out the plan of action devised in consultation with his comrades. This Edward Blake may be the predestined tactician of the campaign, and we shall explain why we so consider him. He is mature yet robust, in the mellow prime of manhood. Of discriminating judgment and sound readiness of speech, he is accustomed to meet the manœuvres and check the chicanery of professional politicians; has been the leader of the Opposition in the Home-Ruled Canada, and is qualified to rebut fantastic theory by plain practical experience. He is bound by no ties of faction—Parnellite and McCarthyite (to use once again the unpleasant shibboleths of feud) are one to him. He is gifted with intellect, and has a social standing, and is that most acceptable of Irishmen in the crisis—a liberal-minded Protestant.—London, Eng., Universe (Catholic).

"German Syrup"

The majority of well-read physicians now believe that Consumption is a germ disease. In other words, instead of being in the constitution itself it is caused by innumerable small creatures living in the lungs having no business there and eating them away as caterpillars do the leaves of trees. The phlegm that is coughed up is those parts of the lungs which have been gnawed off and destroyed. These little bacilli, as the germs are called, are too small to be seen with the naked eye, but they are very much alive just the same, and enter the body in our food, in the air we breathe, and through the pores of the skin. Thence they get into the blood and finally arrive at the lungs where they fasten and increase with frightful rapidity. Then German Syrup comes in, loosens them, kills them, expels them, heals the places they leave, and so nourish and soothe that, in a short time consumptives become germ-proof and well.

THE THREE FATES

BY

F MARION CRAWFORD is an excellent book. The plot sufficiently interesting without being too intricate. A number of pretty situations and startling denouements are admirably sketched by the author.

The young writer who is the hero of the play, meets with his three fates, the first he loves, but she destroys her own happiness by refusing him, the second loves him, and her mother's intrigues to catch him are only made unsuccessful by the discovery of a deceit she has practised, and finally his third appears on the scene.

This is one of the finest novels placed before the reading public for some time, and its popularity will grow with the more thoughtful class of readers, and the wisdom of the writer, and the beauty of his characters will be appreciated years hence perhaps more than now. At

SUFFOCATED BY SULPHUR GAS.

A Caledonia Man Smothered In a Natural Gas Well.

CALEDONIA, Ont., Aug. 13.—A fatal accident occurred here yesterday at the natural gas well being sunk by Carmody Bros. A few days ago a flow of sulphur water was struck, interfering with the work. Yesterday morning one of the hands named Fitzgerald went down in the pit at the mouth of the well, which is about eight feet in depth, to enlarge the hole in the casing to allow the water to escape more quickly. He had been down but a very short time when the men at the top noticed something wrong with him. James Dennis, another one of the workmen, immediately went down to his assistance but had no sooner got down when he himself called to be pulled up. Another man with a noosed rope went down and slipped it over Fitzgerald's legs, but could do nothing more and had to be drawn up himself, so deadly was the sulphur gas. Fitzgerald had to be drawn up by a hook, no one being able to remain long enough below to do anything. He was quite dead when taken out, having been down only about seven or eight minutes. Dennis had still some life in him and after about three hours' working with him he regained consciousness.

BURIED BENEATH THE RUINS.

A Building In Course of Erection Collapses, Burying 20 Men.

OGDEN, N.J., Aug. 13.—A building which was being erected here fell yesterday, burying 20 men beneath the ruins. One dead man and four fatally injured have already been taken from the ruins and the work of digging out the remainder is still going on. The accident occurred by the sudden giving way of a derrick causing the entire structure of massive wooden beams and timbers to collapse. But few of the workmen employed on the building escaped.

There was great excitement and a big crowd of men employed in other factories stopped work and the search for the bodies under the wreck of the collapsed building was immediately begun. The first victim taken out was an Italian workman. He was dead, his body being terribly mangled. Soon after three others were discovered and were removed in a dying condition.

Up to a late hour to-night 12 men had been taken from the ruins, all seriously and four fatally wounded. There are hundreds of men at the ruins and the work of rescue is being pushed forward.

TRADE GOSSIP.

Only a Fair Volume of General Trade Which is Seasonable.

NEW YORK, Aug. 13.—Special telegrams to Bradstreet's show only a fair volume of general trade during August, which is seasonable.

Special telegrams from leading Canadian cities indicate a moderate volume of general trade, less relatively in Ontario than last week, but with no perceptible change in Quebec.

The proposed abolition of the rebate on grain en route through Canadian canals unsettles freights. The outlook is for a fair autumn trade.

Bank clearings at Halifax, Montreal, Toronto and Hamilton aggregate $20,726,000 this week, a gain of 8 per cent., omitting the total for the city last named owing to lack of comparative totals. The total for the week is $20,042,000, an increase of nearly 9 per cent. over last week's aggregate, but a gain of 28 per cent. compared with the like week in 1891.

There have been 23 business failures in Canada this week, against 16 last week and 27 in the like week a year ago.

THE FISH CAUGHT THE BOY.

How a Big Bass Yanked the Lad Off a High Bridge.

POTTSTOWN, Pa., Aug. 13.—The danger of small boys fishing for big game was illustrated yesterday by John Keim, a lad of 13 years. He stood on the Schuylkill River Bridge, and in attempting to land a five-pound bass he was pulled over the railing and into the water, 35 feet below. Friends pulled him out and found his leg broken, but he got the fish.

RATTLESNAKE'S FATAL BITE.

A Boy Bitten Twice Dies in Five Hours.

LEWISTON, Pa., Aug. 13.—Edgar Smith, a lad who lived at Yeagertown, this county, and ten other boys went on the mountain to gather huckleberries. A large rattlesnake bit young Smith twice. His companions ran home to bring aid and when found again the unfortunate boy was unconscious. He died five hours after being bitten.

"IT WAS ALL FOR LOVE."

A Young Canadian Girl Committed Suicide by Taking Morphine.

SPRINGFIELD, Aug. 13.—A young Canadian girl committed suicide yesterday morning by taking morphine. A scrawled note requested that her mother, Mrs. R. Allen of Dundas, Ont., be notified that "it was all for love."

CREMATED THE MORTGAGE.

The Ceremony Jubilantly Performed in a Methodist Church.

LANCASTER, Pa., Aug. 13.—A large congregation in St. Paul's Methodist Church last night watched with curious interest the cremation of a $1000 mortgage. The mortgage had been canceled by money raised by the pastor, and the detested paper was publicly burned before the altar.

FAIR COINS COME HIGH.

A Bid of $4,000,000 Already Made for the $2,500,000 in Souvenirs.

CHICAGO, Ill., Aug. 13.—The treasurer of the World's Fair yesterday received a bid of $4,000,000 for the $2,500,000 in souvenir half dollars voted by Congress. The bidder is Leo A. Alton of this city. Bids of $150 for the first of the souvenir coins minted have also been made.

A Young Woman Accidentally Shot.

BELVIDERE, N.J., Aug. 13.—Samuel Love, a young New Yorker, who is staying at the farm house of William Bowers, near Delaware Station, Warren County, accidentally shot Lizzie Albert who was employed in Mr. Bowers' family. Young Love was handling a revolver when it was accidentally discharged. The bullet entered the woman's face, near the nose, and is believed to have lodged near the brain. It is thought that she will die. The young man surrendered to the authorities.

The Behring Sea Case.

All through the Provinces the rapid increase of La Grippe, is causing great alarm. A report was received here to-day, of a new development of the disease, which is worse, perhaps than any other. Wm. Hanley of N. Y. City, died in terrible agony after sickness of only four days. His tongue swelled to such an extent as to make it impossible for him to close his jaws or swallow any food. The report is causing the people in this district to inquire into the noted Grip-cure, recently referred to in so many papers. In Cape Breton the disease has spread very rapidly and with fatal results. D. J. McKillop of L'Archeveque writes Feb. 11th that this cure has been tried in his neighborhood and with such success that all those residing there are obtaining a supply believing it to be the only remedy affording relief and effecting a certain cure. He finished his letter by asking for a large quantity of the Medicine (Dr. Morse's Indian Root Pills) to supply the demands of the community for the relief of LaGrippe.

For You or O

GENTLEMAN,—One of my little girls (aged 4 years) had been troubled with costiveness in its worst form since infancy. We tried different remedies which gave relief while using, but as soon as discontinued she would be worse than before using. She lost her appetite and was growing weak and delicate. A friend of mine who had used B B B with grand results for the same disease advised me to try it, and also the Burdock Pills, which we did. She did not take the contents of one bottle before it relieved her, and not only relieved her but permanently cured her, for she has not been troubled once since, and she is now eight years old

Picton, June 25, 1892.

Cures Others

Will cure You, is a true statement of the action of AYER'S Sarsaparilla, when taken for diseases originating in impure blood; but, while this assertion is true of AYER'S Sarsaparilla, as thousands can attest, it cannot be truthfully applied to other preparations, which unprincipled dealers will recommend, and try to impose upon you, as "just as good as Ayer's." Take **Ayer's** Sarsaparilla and **Ayer's** only, if you need a blood-purifier and would be benefited permanently. This medicine, for nearly fifty years, has enjoyed a reputation, and made a record for cures, that has never been equalled by other preparations. AYER'S Sarsaparilla eradicates the taint of hereditary scrofula and other blood diseases from the system, and it has, deservedly, the confidence of the people.

AYER'S Sarsaparilla

"I cannot forbear to express my joy at the relief I have obtained from the use of AYER'S Sarsaparilla. I was afflicted with kidney troubles for about six months, suffering greatly with pains in the small of my back. In addition to this, my body was covered with pimply eruptions. The remedies prescribed failed to help me. I then began to take AYER'S Sarsaparilla, and, in a short time, the pains ceased and the pimples disappeared. I advise every young man or woman, in case of sickness resulting from impure blood, no matter how long standing the case may be, to take AYER'S Sarsaparilla."—H. L. Jarmann, 53 William st., New York City.

Thomas Stewart, who has purchased the coal business of the old established Downey Co., is laying in an immense stock of black diamonds for the coming season. He has a fleet of seven vessels carrying coal from Oswego to Belleville and Napanee. The Downey Co. merited and enjoyed the confidence and respect of the people of Belleville for their enterprise and square dealing, and in Mr. Stewart they will have a worthy successor. His well known probity and business ability will doubtless ensure for the same liberal share of public patronage enjoyed by the Downey Co.

The Campbellford Herald says:—Mr. H. H. Pollock, the veteran frog catcher of the Front Bridge, informed us on on Saturday last, that he is catching and skinning and packing for shipment to New York, two barrels of frog meat every week. The Americans who are the principal consumers of this article of diet, pay 50 cents per pound at the present time, and when it is served up in small quantities at the hotels and restaurants, it is quite possible that $1 per pound is realized therefrom. Mr. Pollock catches the green croakers in the Moira and Salmon rivers, and makes his shipments from Shannonville, Tweed, Arden and Madoc.

H. Peterson, well known fruit grower, Port Colborne, has issued his annual circular giving an estimate of the apple crop in Canada for 1892. He estimates that Ontario has ten per cent. more than last year, but the apples are not so good a quality, many being spotted. In Nova Scotia the crop will be twenty per cent. larger than in 1891. With the exception of the New England States, where the crop is larger and of better quality than last year, the various states of the American union show light crops, New York having but one-quarter to three-eighths of a crop, while Ohio, Michigan, Southern Illinois and Missouri will all have light crops.

According to a reliable American exchange the Richelieu & Ontario Navigation Company will inaugurate a new plan of running the Toronto-Montreal route next season. They intend to run new lake steamers with state room accomodations from Toronto through to Prescott, and there transfer passengers on observation steamers to shoot the rapids. The old line boats—Corsican, Spartan, Algerian and Passport—will be rebuilt, all the state rooms will be taken out, so that they will have observation decks. It is intended to run these boats and the new Columbian next year from Prescott to Montreal

British papers state that an engineer living in Glasgow has lately completed, after nineteen years' experimenting, a device for steam engines by which all steam is returned back to the boiler, after doing its work in the cylinders. In several cases it is said he has installed this engine, and it is at work with extraordinary results. In one case in a textile factory, the engine with his device is doing as much work with one ton of coal as it formerly did with ten tons. The problem of how to make use of the vast amount of steam everywhere blown off into the air after doing certain work, has long occupied engineers, and its thorough solution would be worth many millions of dollars in many ways.

We Buy And Sell Cheap.

We claim to buy as cheap as any store in Canada. We claim to sell as cheap as any store in Canada. We believe it is conceded that the Oak Hall clothing house do more business to the square foot of space than any other store of the kind in Belleville. Our business record has never been marred by a single misstep. Hence it is common sense to assume that this is the kind of a store manufacturers and wholesale merchants are looking for. Don't be misled by talk. Cash buyers should be keen judges, and the Oak Hall want to be judged, not so much by what they say as by what they do.

The Mourning Custom

A lady writer in the North American Review says of the customary mourning garments: "The custom is outworn; it is an anachronism in the nineteenth century. It is unchristian: it clouds the spiritual significance of the resurrection with the ever present expression of temporal loss. It is cruel; it forces helpless and innocent people into action which entails privation and unnecessary suffering. It is untruthful; it makes false outward show of changes in sentiment. It is essentially vulgar, for it presses private affairs upon public notice; it thrusts claims of fashion and frivolity upon a time which most greatly moves the heights and depths of being, and it forces its superficial worldliness into the fiercest throes that can ever rend human nature. Why then, do we still wear mourning?

ORDER OF CHOSEN FRIENDS

A Council Instituted Last Night by the Deputy Grand Councillor

The first council of the order of Chosen Friends was instituted last evening in Sons of England Hall by the Deputy Grand Councillor Friend J. Arthur McMintry with a large number of representative gentlemen as charter members. After the Charter Members had been duly obligated the following Friends were installed by the Deputy Grand Councillor as the officers for the current term:

Friends J W Minor, P C; W Hawthorn C; J H Mills, V C; C Ashley, Secy; T H Brough, Ass. Sec.; Geo W Walker, Treas.; Geo H Brown, Prelate; D A Weese, Marshall; A Wallace, Warden; E T Cherry, Grand; Homer Christi, Sentry; W A Appleby, Organist; F E Redick, Solicitor; E M Cook, Medical Examiner.

After the officers had been duly installed the Deputy Grand Councillor declared the council duly instituted with all power and privileges as such and to be known and hailed as the Bay of Quinte Council No 47 of the Order of Chosen Friends.

On motion the Council stands adjourned for one week and in the meantime applicants are to be received as charter members.

THE PICTON SHOOTING AFFRAY

Constable Spencer Still Confined to his Bed

The Picton Times:—"Constable Spencer is still confined to his bed from the effects of his wound and is very weak. The wound is doing as well as could be expected. The doctor in attendance gave Mr. Spencer leave to get out of bed on Monday, but the attempt to arise resulted in a failure. Mr. Spencer stood the extraction of the ball with remarkable fortitude. At latest accounts the doctor had not been able to extract the ball from Dainard's arm. The warrant for the arrest of Dainard was issued by Mr. S. D. Crandall whose life Dainard had threatened. The people of the neighborhood where Dainard lived are reported to be very much relieved over the arrest. There was a great deal of apprehension felt for the safety of life and property while he was at liberty. His own family shared in the relief as they were very much afraid of him."

AN UNFAITHFUL BRIDEGROOM.

He Disappears on the Night Fixed for his Wedding Ceremony.

Tuesday night was the date fixed for the marriage of John Miller, for some time driver of the delivery wagon for Geo. Ritchie & Co., to a handsome and highly respected young lady named Miss Thrasher residing near the village of Stirling, with whom he had for some time been engaged. The invitations were printed and sent, and all preparations carefully discussed and fully made, and on the eventful evening the prospective bride arrayed herself in her wedding clothes, and together with her friends and the invited guests, were ready for the ceremony to begin—but alas the bridegroom did not put in an appearance. As the hour for the ceremony drew near the bride became anxious, and as the time arrived and still he did not come her anxiety gave way to dismay and dismay to angry despair. After waiting till long after the hour the guests departed muttering imprecations against the unfaithful bridegroom, and filed with sympathy for the bride who was the heart-broken victim of this man's perfidy. The father drove into Belleville next morning to learn the cause of the young man's absence, and found that he had left for parts unknown. The young lady feels her embarrassing condition and public humilation very deeply. It is stated that Millar is engaged to another lady, which, if true, would account for his desertion of the other lady, who is well known in Belleville and is a graduate of Albert College.

TRAVELLING.—A prudent person leaving on a voyage never fails to put into her trunk a bottle of Persian Lotion, the most agreeable and reliable article for the toilet that druggists sell under the name of Persian Lotion.

DANDRUFF.—If you wish a preparation upon which you can rely for the complete destruction of Dandruff, use Capilline and ou will be satisfied.

"Oh, if I had only taken this medicine earlier in my life, what years of sufferin t would have saved me!" was the exclamation of one who had been cured o rheumatism by the use of Ayers Sarsaparla. Scores of such cases are on record.

As a tonic, the Father Mathew Remedy restores to a healthy condition the stomach and liver of the intemperate, which are always out of order, and builds up his nervous system; as an alterative, it makes a new man of him.

Mr. G. Redick writes Mr. Louttit as follows; I feel it my duty both to you and the public that after ten years affliction with that loathsome disease, catarrh, I have found apparently a lasting benefit (Louttit's Catarrh Cure) and to vouch for the same and am willing and desirious to make affidavit. Louttit's Catarrh Cure is for sale wholesale and retail at Geen's Drug Store.

Those who are in the habit of taking an appetizer before meals could not do better as well for the effect as for economy's sake, than make use of "Indigenous Bitters." As Indigenous Bitters are slightly laxative, those who suffer from habitual constipation, will derive great benefit, by regularly taking them, as they keep the bowels in good order and in that way aid digestion

There are more cases of sickness and death from diseased Ridneys than from all other diseases combined. It is your own fault if you allow your kidneys to remain in an unhealthy condition when the cure is at hand. Dood's kidney Pills are guaranteed to cure the worst case. It costs but little to give them a trial. They are for sale by all druggists and dealers or by mail on receipt of 50 cts. or 6 boxes for $2.50. Write for book called Kidney Talk.

We do not know of any preparation that has caught the public favor in so short a time as Dodd's Kidney Pills, but when we consider that three-fourths of the Canadian people are afflicted with kidney troubles in some form or other, and that Dodd's Pills are a quick and permanent cure for all these troubles, the large and increasing demand can scarcely be wondered at. Sold by all dealers or by mail on receipt of price, 50 cents per box, Dr. A. L. Smith & Co. Toronto.

No smoker who has ever used the Myrtle Navy tobacco for, say a month, ever relinquishes it for any othes brand. Its flavor is rich and full, and it never burns the tongue or parches the palate. It is, in fact, the ne plus ultra of smoking tobacco.

A neglected cough brings on consumption—the most fatal and prevalent of all physical ills that flesh is heir to. To check the malady in its early stage, before the deadly turbercles develop themselves in the lungs use Dr. Thomas' Eclectric Oil which also annihilates bronchitis, asthma, catarrh, piles, kidney troubles, and soreness of the muscles and joints.

At no time is man secure from attacks of such painful and dangerous disorders of the stomach as Cholera, Cholera Morbus, Cramps, Diarrhoea, and Dysentery; but these complaints are particularly common during the heated term, when it is doubly dangerous to neglect them. PERRY DAVIS' PAIN KILLER is a remedy that has never failed when tried, and the severest attacks have been cured by it. It leaves no evil effect, and invariably brings relief to the sufferer. Every reputable druggist in the country sells PERRY DAVIS'S PAIN KILLER

Pipe Smokers

You may be satisfied with the brands of tobaccos you have been using for years. Grant it; that you are satisfied. As there is always room for improvement, we ask you to try our OLD CHUM PLUG, or CUT smoking tobacco; we believe you will be better satisfied. In any case, a trial won't hurt you. Don't delay upon the order of buying, but buy at once.

Have you Thought of It

For four thousand years or more the world groaned, suffered and fumed about its corns, for their was no positive relief—no certain and painless cure until Dr. Scott Putman gave to the world his great Corn Extractor. If there is suffering now it is a result of carelessness, for the remedy is at hand. Try Putman's Corn Extractor. It is sure painless, and prompt. Beware of substitutes. N. C. LITERARY NOTES.

"City Festivals" is a beautifully bound book of 161 pages, well illustrated, and printed in clear type, on good paper, containing poems of Will Carleton the poet, the author of "Betsy and I are Out," "Farm Ballads" etc., (Harper Bros., New York.) The simple style of the poems is well calculated to reach the heart of all who read them. Several pieces are especially worthy of comment, among them "Our Unseen Guests," where all the depared heroes are being wellcomed one by one to a "Nation's Festival," each being described so vividly as to be easily recognized; and "The Festival of Family Reunion," describing the meeting of the different members of a family in heaven, "Love's Metropolis," with their aged mother, who is the last to arrive. She finds them all in a "Grand Old Mansion," the counterpart of the one they live in on earth. One of the most pleasing and popular of all poets is Will Carlton and this new volume will be heartily welcome.d

Ask Your Friends

Who have taken Hood's Sarsaparilla what they think of it, and the replies will be positive in its favor. One has been cured of indigestion and dyspepsia, another finds it indispensable for sick headache, others report remarkable cures of scrofula, salt rheum and other blood diseases, still others will tell you that it overcomes "that tired feelin; and so on. Truly, the best advertising which Hood's Sarsaparilla receives is the hearty endorsement of the army of friends it has won by its positive medicinal merit.

BAD ECZEMA ON BABY

Head one Solid Sore. Itching Awful. Had to Tie His Hands to Cradle. Cured by Cuticura.

Our little boy broke out on his head with a bad form of eczema, when he was four months old. We tried three doctors, but they did not help him. We then used your three CUTICURA REMEDIES, and after using them eleven weeks exactly according to directions, he began to steadily improve, and after the use of them for seven months his head was entirely well. When we began using it his head was a solid sore from the crown to his eyebrows. It was also all over his ears, most of his face, and small places on different parts of his body. There were sixteen weeks that we had to keep his hands tied to the cradle and hold them when he was taken up; and had to keep mittens tied on his hands to keep his finger-nails out of the sores, as he would scratch if he could in any way get his hands loose. We know your CUTICURA REMEDIES cured him. We feel safe in recommending them to others.

Mr. Chas. N. Hauer

Of Frederick, Md., suffered terribly for over ten years with abscesses and running sores on his left leg. He wasted away, grew weak and thin, and was obliged to use a cane and crutch. Everything which could be thought of was done without good result, until he began taking

Hood's Sarsaparilla

which effected a perfect cure. Mr. Hauer is now in the best of health. Full particulars of his case will be sent all who address

A PROLIFIC SOURCE OF DISEASE.—trifling indiscretion in diet may lay the foundation of confirmed dyspepsia, and there is no fact in medical science more positively ascertained or more authoritatively asserted than that dyspepsia is the parent of a host of bodily ills, not the least of which is contamination of the blood and the maladies of which that is the direct consequence. Their original cause is however thoroughly eradicated from the system by Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure, a medicine which only requires regularity and persistence in it use to cure dyspepsia and many other ills that arise from it. No deleterious mineral ingredient is contained in it, and though its action is thorough in cases of costiveness it never produces griping pains in the abdominal region, or weakens the bowels like a violent purgative. It invigorates the system through the medium of the increased digestive and assimilative activity which it promotes and is also a most efficient remedy for kidney disease scrofulous and all diseases of the blood female weakness, &c., &c Price $1.00 Sample bottle 10 cents. Ask for Northrup & Lymans Vegetable Discovery and Dyspeptic Cure. The wrapper bears a facsmile of their signature. Sold by all medicine dealers.

If you have a cough or cold do not neglect it; many without a trace of that hereditary disease have drifted into a consumptive grave by neglecting what was only a slight cold. Had the used Bickle's Anti-Consumtive Syrup before it was too late their lives would have been spared. Mr. A. W. Levy Mitchell, writes. "I think Bickel's Anti-Consumptive Syrup the best preparation on the market for coughs and severe colds. About six years ago I caught a severe cold which settled on my lungs, and for three months I had a cought. I had a physician attending me, but gradually grew worse until I was on the verge of Consumption, and had given up hopes of being cured, when I was induced to try Bickel's Syrup. Before I had taken one bottle I found myself greatly relieved, and by the time I had finished the second bottle I was completely cured. I always recomend it for severe colds and consumption."

THE REASONS!

GOUGH CAN SELL CHEAPER THAN OTHER DEALERS

FIRST—Because we are the largest Clothiers in Canada, and SECOND, because we are not the supply account of any firm, and consequently are not compelled to handle only one manufacturer's goods, and at whatever prices they have a mind to ask. THIRD—Because we have ample means to buy wherever we like, and no matter how large the stock, whether it is $1,000 or $100,000 worth we are always prepared to pick it up if it is a snap, and FOURTH—Because we sell ten times more goods than any other firm, and consequently can sell on a smaller margin of profit.

Some of our high price friends cannot see anything funny about GOUGH selling so cheap, and call us "Fake" dealers, but when inaugurating this One Price and Low Price System we did so with a determination to

"Hew to the Line; let the Chips fall where they may!"

And if in fulfilling this mission we are breaking the back bone of our high price oppositionists, we are sorry for them, for we mean them no harm, but claim the right to do our business in a

SQUARE, HONORABLE WAY,

GIVING DOLLAR FOR DOLLAR EVERY TIME.

Yes, we are called "fake" dealers and "low" dealers by our opponents. Well, we freely admit we are low dealers, wallowing in the lowest depths of bed rock prices, while our exalted brethren look down upon us from their high place and go wild because we are capturing their trade, and this is the sequel to their calling us "fake" dealers, etc., but it won't go down, for the name of GOUGH is provincial, and a household word in every family.

Don't forget our

GREAT MIDSUMMER SALE

Still Continues

and we are giving extraordinary cuts all along the line, as we are determined to carry no goods over until next season, but require the room for our Big Fall Stock which will commence to arrive next month.

Thonsands of Overall's only 19c per pair, sold by other dealers before we opened here for 50c, but we compel them now to sell them for 25c, and they are mad.

LORD ROSEBERRY DECLINES TO BE FOREIGN SECRETARY.

Ill-Health Alleged to be the Cause—Gladstone Has Numerous Conferences With Probabable Members of His Cabinet—Notes and Essays of the Situation.

LONDON, Aug. 15.—Mr. Gladstone after attending church Saturday resumed his reception and his conferences with intended colleagues. He held a conference of two hours' duration with Sir Willliam Vernon Harcourt, Lord Spencer, Lord Kimberley, Mr. John Morley and Mr. H. Campbell-Bannerman. The absence of Lord Rosebery on this occasion is regarded as significant. He went to his country seat yesterday.

THE SALISBURY MINISTRY.

Gossip About Mr. Gladstone's Appointments—Will Labouchere Receive One.

LONDON, Aug. 15.—Lord Salisbury returned from Osborne Saturday, having handed the seals of office to his reluctant mistress. Mr. Gladstone will follow with one visit, probably two, a necessity that fastens the public attention somewhat discontentedly on the situation.

Beyond the facts that Lord Rosebery will be Foreign Secretary, Sir William Harcourt Chancellor of the Exchequer and Mr. John Morley Irish Secretary, nothing yet is settled with respect to the formation of the new ministry.

Next to the appointment of Lord Rosebery the question that excites the largest measure of interest in the public mind is whether Mr. Labouchere will get anything, and if so, what. It is pretty certain Mr. Labouchere will have an office offered to him, even of Cabinet rank, some gossips say. What is more uncertain is whether he will accept it.

To Mr. Labouchre acceptance would involve large sacrifices. He would have to abandon the agreeable position he now fills of farceur and of free lance in the House of Commons. Moreover, he would have to give up the proprietorship and editorship of Truth, an interesting journal which brings him in £13,000 a year, and the unrivalled opportunity of saying things. This matter has, I believe, been discussed from a business point of view, and it is suggested that the journal might be transferred temporarily to other proprietorship. But Truth is Labouchere; the nomenclature is exchangeable, and with his piquant personality and ready pen withdrawn the property would be seriously, even permanently, injured.

Mr. Chamberlain has increased his parliamentary reputation by his speech on the no-confidence vote. He had a magnificent audience, the House being full to the utmost limits in anticipation of a division. So great was the pressure that the Speaker authorized chairs being set forth in the lines flanking the benches, a thing seen only once in parliamentary history, when Mr. Gladstone explained the provisions of the Home Rule Bill in 1886. Mr. Chamberlain's main object in his speech was to show that Mr. Gladstone's majority held within it seeds of inevitable disruption, and that the only chance of salvation for him and the Liberal party was to go over to the dissentient Liberals.

The division was in some respects the most remarkable recorded in history. Of 670 members composing the House, only three were absent. Of these, two had paired and one was in Australia, he being paired off with the Speaker, who ranks as a Dissentient Liberal. This left the Gladstonian majority at its precise number of 40, established at the general election. This total of the poll does not appear on the face of the figures, which show only 660 voting, but two seats are vacant, and the four tellers and the Speaker do not appear in the division lists. So urgent was the whip on both sides that sick men, at the peril of their life, came down to vote. One was brought in the personal charge of his doctor, who, although it was midsummer, had a fire lit in one of the committee rooms, and there tended his patient till the division bell rang.

HER CARGO ON FIRE.

Foundering of Another British Steamer—No Lives Lost.

LONDON, Aug. 15.—The British steamer Empress of Japan, Captain Lee, from Hong Kong by way of Yokohama, for Vancouver, has returned to Takodadi, with her cargo on fire. The flames have been quenched. Part of her cargo was discharged in a slightly damaged condition. All her passengers are well.

The British steamer Elpitna, 462 tons, trading in the Levant, has foundered at sea. Her passengers and crew were rescued by a passing vessel, and have been landed at Tripoli.

The British steamer Mendelssohn, Captain Sawyer, from Liverpool for Montreal, is ashore near Portoferry, County Down, Ireland. She is badly damaged, and lies dry at low water.

The Inman Steamship Company.

SOUTHAMPTON, Aug. 15.—Yesterday the authorities of the town and the Southampton Harbor Board agreed, if the Inman Steamship Co. promise to move their line to that port for 10 years, to deepen the channel so that their vessels can go up to their locks at any time. The cost of deepening the channel will be $60,000.

Attempted Murder.

BERLIN, Ont., Aug. 15.—A bold attempt at robbery and murder was perpetrated on one of the oldest citizens. It appears that about 2 o'clock yesterday morning, Moses Erb, residing in King-street, heard rapping at the door, and thinking it might be some one in distress, or a friend, proceeded to dress himself. But while so doing he heard a noise seemingly in the house. He was on his way to make search when he was pounced upon by two men, one of them using his revolver with terrible effect over the head of Mr. Erb, who soon became prostrated and fell to the floor where he was kept. Mrs. Erb tried to make her way to the nearest neighbor's to raise the alarm, but was met by one of the gang, who threatened her with death were she to make any noise. Mrs. Erb retraced her steps and before closing the door gave a loud shout for help, which had the desired effect, and attracted the attention of neighbors and the scamps scattered.

The Ameer Avoids Meeting Gen. Roberts.

SIMLA, Aug. 15.—The Ameer of Afghanistan writes that he is pleased with the selection of General Roberts to visit him on a mission, but that owing to the rebellion among the Hazaras his hands are full and he is unable to name a time or place for meeting the British representative. As for the Hazaras, the Ameer writes that he will starve them out this winter. The Ameer's decision is held to be tantamount to the collapse of the mission. His altered attitude is due to the prospect of Mr. Gladstone being in power.

Two Tourists Fall Over a Precipice.

VIENNA, July 30.—Two tourists climbing the Raxalpeyeatotdayslipped on a boulder-strewn slope and fell over a precipice. Their bodies were found, still roped together, at the bottom of the precipice.

SWITCHMEN STRIKE.

Employes of Three Roads Go Out—Grievances of the Men.

BUFFALO, N.Y., Aug. 15.—The switchmen employed on the New York, Lake Erie and Western, the Lehigh Valley, or Reading, and the Buffalo Creek Railroad are on strike. Their object is virtually to obtain higher wages, although the question of the 10-hour day is involved. The decisive action was taken at a meeting of th. local organization of the Switchmen's Mutual Aid Association of North America, held Saturday. The outcome was that the union men employed upon the three roads mentioned decided to go out on strike at 12 o'clock midnight. The switchmen are those employed to couple cars, make up and send out trains and in a general way perform the work around the yards and are not those who turn the switches. The strike was fully sanctioned by Grand Master Sweeney. About 200 men thus far are out. The men demand that their pay be $65 a month for night switchmen, $70 a month for night conductors, $60 a month for day switchmen and $65 for day conductors; 26 days of 10 hours each to constitute a month's work. They also demand that all time over 10 hours be paid for at the rate of 25 cents an hour for night switchmen, 27 cents for night conductors, 23 cents for day switchmen and 25 cents for day conductors. It is claimed that the roads against which the strike was ordered were only paying 21 and 22½ and 19 and 21 cents for night and day work respectively.

A SERIOUS MATTER.

Riot and Incendiarism Mark Its Tidal Wave.

BUFFALO, Aug. 15.—There is no further disguising the fact that the strike of the Erie and Lehigh Valley switchmen is a serious matter. Riot and incendiarism mark its tidal wave.

Property belonging to the railroad companies has been destroyed by incendiary fires, men engaged in the peaceful performance of their duties in the companies' service have been assaulted and sent to the hospitals, the movement of trains has been seriously interfered with and the lives of innocent persons who were in no way connected with the strike and had not even heard of it have been endangered by the derailment of a passenger train on one of the roads.

Incendiary fires broke out Saturday morning simultaneously in the Lehigh Valley yards. Eighteen or 20 freight cars filled with wool, cotton, hay and various other merchandise, two passenger coaches and two watchmen's houses were burned

The strikers, or their sympathizes, have pulled pins, turned switches and driven off crews. Three men are at the hospital, badly hurt. One was assaulted at 3 o'clock this morning, two others at 11, and another at 3 this afternoon.

One of the most cowardly things done was the throwing of switches under passenger train No. 17 at William-street at 7.30 o'clock last night. Two passenger coaches were thrown from the track, but the conductor does not think anybody was hurt, though many were badly frightened.

The strikers say they are determined to win the fight, and they assert the roads are losing heavily by not having men to perform the work of the strikers.

$50,000 TO RESIGN.

Chicago's Gamblers Are Filling the City With Thugs.

CHICAGO, Aug. 15.—The gamblers who are behind the Garfield Park race track are carrying out their threats made a year ago. They said then that unless Chief of Police McClaughry and the Republican administration in general kept their hands off the gamblers they would fill the city with thugs and all kinds of toughs. The present increase of crime tends to show that they are carrying out their threats to the letter.

Indirectly Major McClaughry was offered $150,000 a year if he would not interfere with gambling as it then existed. This money was not to be given as a bribe, nor was it to go into the Major's own pockets, but it was to be used to employ detectives for the police department. The answer the gamblers got was an intimation that the city could pay for its own detectives, and would enter into no agreement, covert or otherwise, with the enemies of law and order.

Then the Hankins-McDonald crowd made Major McClaughry another and more tempting offer. This time it came direct, and there was no concealment about it. The man who made the offer is as close to the heads of the gamblers' trust as John Condon is, and he assured the chief that he spoke for them authoritatively.

Major McClaughry was offered a cool $30,000 in cash if he would resign as chief of police of Chicago.

The offer was flatly refused.

The bid was raised to $50,000, and another refusal was given.

Threatened to Fill the City With Toughs.

"Then I am told to tell you," said the man who had made the offer, "that if you attempt to run this city with any of your puritanical notions, we will fill the town with thugs and thieves, and make the administration a laughing stock." Or words to that effect.

Ever since that time the gamblers have done at every opportunity whatever they could to malign and harass Major McClaughry.

What the gamblers will resort to next to wreck their vengeance can not be predicted.

"They made one threat which they thought they could easily carry out, because of their establishment on the West Side where thugs are graduated, given their diplomas and turned loose on the town; but I do not think they will succeed," is how the Chief puts it.

This attack on Chief McClaughry is not the only attack the Garfield Park gamblers have made on officials connected with the present administration. They threatened Stephen A. Douglas, when he was City Prosecuting Attorney, and made official life so miserable for him that he was forced to resign.

At present matters stand in a condition very dangerous for Chicago.

EDITORIAL NOTES.

The Columbian Fair managers are in luck. The United States Congress has voted them $2,500,000, to be given in the form of souvenir half-dollars to be minted with a design specially prepared for the occasion. These coins bid fair to be in great demand by coin collectors and the general public and already the managers have been offered $4,000,000 in cash for the $2,500,000 of coins. Probably the coins will yet be disposed of at double their face value, which sum would place the fair on a most satisfactory financial footing.

The Hamilton Spectator gives its intelligent readers the following fair sample of protectionist logic:—"Fool free trade organs assert that the tariff causes smuggling. They might also argue that a certain law causes murder. If it were not against the law there would be no such a crime as murder." Murder would be equally wrong and reprehensible whether human laws declared it a crime or not, and would meet punishment even if no law against it existed. But what is now termed smuggling and punished as a crime would be but for the tariff law, open, honest, laudable commerce. That is why these tariff laws demoralize the people and confuse their ideas of right and wrong. It is hard to convince them that what is in itself praiseworthy can be made a moral offence by a mere act of parliament. Hence we find people whom no consideration would induce to commit other crimes having no scruples in passing goods through without paying the duty if they can do so without detection; and we don't much blame them. The free interchange of commodities is something the government has no right to interfere with, since by so doing they are interfering with a fundamental right inherit in citizenship in a free country.

The last commission which went through the country was the Labor Commission. It took whole reams of evidence and printed several volumes each as large as the Encyclopedia Britannica, but nothing has happened since. The commission was appointed and the evidence was taken to carry a troublesome question over a rather awkward period. It served the purpose admirably. The Prohibition Commission was appointed for somewhat similar reasons. No doubt the committee will do its work faithfully—then?

No smoker who has ever used the Myrtle Navy tobacco for, say a month, ever relinquishes it for any other brand. Its flavor is rich and full, and it never burns the tongue or parches the palate. It is, in fact, the ne plus ultra of smoking tobacco.

A neglected cough brings on consumption—the most fatal and prevalent of all physical ills that flesh is heir to. To check the malady in its early stage, before the deadly turbercles develop themselves in the lungs use Dr. Thomas' Eclectric Oil which also annihilates bronchitis, asthma, catarrh, piles, kidney troubles, and soreness of the muscles and joints.

At no time is man secure from attacks of such painful and dangerous disorders of the stomach as Cholera, Cholera Morbus, Cramps, Diarrhoea, and Dysentery; but these complaints are particularly common during the heated term, when it is doubly dangerous to neglect them. PERRY DAVIS' PAIN KILLER is a remedy that has never failed when tried, and the severest attacks have been cured by it. It leaves no evil effect, invariably brings relief to the sufferer. Every reputable druggist in the country sells PERRY DAVIS'S PAIN KILLER

A Pleasant Herb Drink

The best cure we know of for constipation and headache is the pleasant herb drink called Lane's Family Medicine. It is said to be Oregon grape root, combined with simple herbs, and is made ready for use by pouring boiling water onto the dried roots and herbs. It is remarkably efficacious in all blood disorders and is now the sovereign remedy with ladies for clearing up the complexion. Druggists sell the packages at 50c and $1

For all forms of female weakness Dr. Williams' Pink Pills are an unfailing specific. Mr. Thomas Strachan, Postmaster, Roballion write:—My daughter has been ill for the last four years with female weakness, and had been attended by four of the best doctors in our section. She began the use of Dr Williams Pink Pills, and two boxes have done her vastly more good than all the medicines she took from those doctors.

What She Said

Mrs. R. Peck, 15th street, New York City, visited Canada last year, and had the good fortune to pick up something which not only suited her, but her neighbors also. Writing the manufacture of Nerviline she says;—"I bought three bottles of Nerviline while in Canada and treated my neighbors to some of it, and all think it the best medicine for internal or external pain they have ever used." Nerviline deserves such commendation, for it is a most powerful, penetrating, and certain remedy for pain of all kinds. Take no substitute.

A Cure For Constipation And Headache

Dr. Silas Lane while in the Rocky Mountains discovered a root that when combined with other herbs makes an easy and certain cure for constipation. It is in the form of dry roots and leaves, and is known as Lane's Family Medicine. It will cure sick-headache in one night, For the blood, liver and kidneys, and for clearing up the complexion it does wonders. Druggists sell it at 50 cents a package

Weighed in the balance, but not found wanting. Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure has been weighed in that just balance, the experience of an impartial and intelligent public. Both remedially and pecuniarily it is a success. Its sales constantly increase, testimony in its favor is daily pouring in. The question of its efficacy in Dyspepsia, Liver complaint, Kidney Ailments, and for Blood Impurity is decided.

Now is the time to take a good tonic medicine. Hood's Sarsaparilla possesses the greatest merit, and [illegible] popular favor

Cured Female Weakness

Mr. Hugh Caldwell, Clydesdale, Ont., writes:—"My daughter was under the care of doctors for more than a year for female weakness, without getting relief. I then procured Pink Pills and they cured her." All dealers 50 cents a box or 6 boxes for 2.60, or mailed on receipt of price. Dr. Williams' Med. Co., Brockville, Ont., and Schenectady, N. Y.

The highest praise has been won by Hood's Pills for their easy, yet efficent action.

As an after dinner pill, to strengthen the stomach, assist digestion, and correct any bilious tendencies, Ayer's pills are considered the best. Being sugar coated, they are as agreeable as any confection, and may be taken by the most delicate.

How Mr. W.D. Wentz of Geneva, N.Y., was cured of the severest form of dyspepsia? He says everything he ate seemed like pouring melted lead into his stomach. Hood's Sarsaparilla effected a perfect cure. Full particulars will be sent if you write C. I. Hood & Co., Lowell, Mass.

THE REBATE ABOLISHED

IMPORTANT MEETING OF THE CABINET AT MONTREAL.

Official Announcement by the Premier That the Existing System Will Be Terminated at the End of the Present Season.

MONTREAL, Aug. 15.—The fact that Montreal was temporarily the seat of Government on Saturday for the third time since the burning of the Parliament buildings in 1849 attracted unusual attention to the deliberations of the meeting of the Cabinet in this city, outside of the important nature of the subjects under discussion. The reason that Montreal was thus honored was simply on account of its central position. Sir John Thompson and Messrs. Tupper and Chapleau were in the east, and thus this city was most convenient for them, as well as for the Premier, while the excellent railroad facilities between this city and Ottawa rendered it easy to summon the remaining members of the Cabinet to be present.

Early on Saturday morning the residence of Sir John J. C. Abbott in Sherbrooke-street became a focus of attraction for newspaper men. Every variety of reporter, and many who could only claim the flimsiest kind of connection with the press, rang the bell and were told that no information could be given to them. As each Minister came up he was eagerly buttonholed and cross-examined until he secured the friendly shelter of the front door, but no information could be elicited, and a very crest-fallen body of newspaper men filed slowly away to try their luck later on. At a little after 10 o'clock the meeting was called to order by the Premier, there being then present Hon. Mackenzie Bowell, Minister of Militia and Defence; Hon. John Costigan, Minister of Inland Revenue; Hon. J. A. Chapleau, Minister of Customs; Hon. George H. Foster, Minister of Finance; Hon. C. H. Tupper, Minister of Marine and Fisheries; Sir Adolphe Caron, Postmaster-General; Hon. John Haggart, Minister of Railways and Canals; Hon. Edgar Dewdney, Minister of the Interior; Sir John Thompson, Minister of Justice; Hon. John Carling, Minister of Agriculture, and Hon. A. Ouimet, Minister of Public Works.

With the exception of a brief interval for luncheon the cabinet sat steadily until about a quarter past four, when the following official statement of the position of the Government upon the canal tolls question was imparted by the Premier.

Rebates to Be Abolished.

Sir John Abbott said that, in pursuance of the views of the Government as to the temporary character of the existing order-in-council respecting the rebate on canal tolls, and of its future policy, the existing system would be terminated at the end of the present season, and that to prevent a continuance of the misunderstanding which appears to prevail in the United States on this subject, an assurance to that effect would be sent to the Government at Washington. The numerous contracts and engagements which have been entered into for the present season under the existing canal regulations render it practically impossible to make an earlier change on account of the injury which would inevitably thus be caused to individual interests.

Later in the evening two other members of the Cabinet were questioned on the subject, and one of them stated that it was the intention of the Government to hold a conference with the United States authorities in Washington during the coming winter to discuss the whole question of railways and inland navigation.

The Quarantine Works.

Hon. John Carling stated in reply to a reporter that the Government had decided to go ahead vigorously with the quarantine works at Grosse Isle and Victoria, B.C., so as to give the most perfect possible protection against the importation of disease. The Department of Public Works is now preparing plans for the work to be done, and a sum of $250,000 will be expended in completely refitting and extending existing appliances at both points.

Saturday Hon. Mr. Foster left for St. John, N.B., and Sir John Thompson for St. Andrews in the same province. Hon. Mr. Dewdney and Hon. Mr. Tupper leave to-morrow morning for Ottawa.

Found In An Ice Chest Into Which They Had Crawled In Play.

LANSING, Mich., Aug. 15.—Earl A. Price and Arthur Kurtz, each 8 years old, were found dead yesterday in an ice-chest. They had evidently crawled into it in play and had been smothered. They were missed early in the morning and searchers had been looking for them all over the city. A faithful spaniel whined around the ice chest and gave the clue.

It Took Two Trains to Kill Him.

SCRANTON, Pa., Aug. 15.—Timothy Harrington, a Lehigh Valley engineer, while sitting in the cab of his engine at Coxton Saturday was hurled from his seat by another train backing against his. He landed upon the rails of another track, and before he could recover himself another freight train ran over and killed him.

"August Flower"

I had been troubled five months with Dyspepsia. The doctors told me it was chronic. I had a fullness after eating and a heavy load in the pit of my stomach. I suffered frequently from a Water Brash of clear matter. Sometimes a deathly Sickness at the Stomach would overtake me. Then again I would have the terrible pains of Wind Colic. At such times I would try to belch and could not. I was working then for Thomas McHenry, Druggist, Cor. Irwin and Western Ave., Allegheny City, Pa., in whose employ I had been for seven years. Finally I used August Flower, and after using just one bottle for two weeks, was entirely relieved of all the trouble. I can now eat things I dared not touch before. I would like to refer you to Mr. McHenry, for whom I worked, who knows all about my condition, and from whom I bought the medicine. I live with my wife and family at 39 James St., Allegheny City, Pa. THE THREE FATES

BY

F MARION CRAWFORD is an excellent book. The plot is sufficiently interesting without being too intricate. A number of pretty situations and startling denouements are admirably sketched by the author.

The young writer who is the hero of the play, meets with his three fates, the first he loves, but she destroys her own happiness by refusing him, the second loves him, and her mother's intrigues to catch him are only made unsuccessful by the discovery of a deceit she has practised, and finally his third appears on the scene.

This is one of the finest novels placed before the reading public for some time, and its popularity will grow with the more thoughtful class of readers, and the wisdom of the writer, and the beauty of his characters will be appreciated years hence perhaps more than now. At

BLAKE IS MEDIATOR.

The Canadian Member for Longford and the Irish Section.

LONDON, Aug. 15.—It is stated on good authority that there will be a meeting of the Irish sections on Tuesday, at which another effort will be made to compose the differences between the rival parties. Mr. Blake, the Canadian member of Parliament for Longford, has brought about the meeting, but it is not generally believed that an agreement will result.

Rebel Villages Burned.

LONDON, Aug 15.—A dispatch to The Times, from Tangier, says that the Sultan's troops who were driven back upon Tangier a few days ago by the rebel Anghera tribesmen have been reinforced by the Mesmoda tribesmen. On Saturday morning the combined forces moved forward into the Anghera district. They met with no opposition. Two deserted Angherite villages through which the Sultan's forces passed were set on fire and destroyed. After burning the villages and setting fire to the bushes in which the enemy might find a hiding place, the troops returned to Tangier. None of the rebels were met with. One report current is that the Angheras have fled, having disagreed among themselves.

His Health Is Bad.

LONDON, Aug. 15.—Mr. T. P. O'Connor, writing in his paper, The Sunday Sun, declares that the sole reason why Lord Rosebery hesitates to enter the new cabinet is that his health is bad; that he has suffered from insomnia since the death of his wife. "The talk of a difference of policy between Mr. Gladstone and Lord Rosebery," adds Mr. O'Connor, "is all moonshine. Mr. Fowler and Mr. Asquith will be among the new men."

Uneasiness in Financial Circles.

LONDON, Aug. 15.—Discount was a shade firmer the past week at 1 for three months and ½ for short. The continuous fall in silver causes uneasiness in financial circles besides the fall endangering business relations with the east and loss through investment in silver countries is becoming serious. On the Stock Exchange business remained very quiet throughout the week.

Cholera Returns.

ST. PETERSBURG, Aug. 15.—The cholera returns from the whole of Russia for the 11th inst. show a large increase in the number of new cases as well as in the mortality. There were reported 9177 new cases and 5000 deaths.

Dynamite Outrage in Ostend.

OSTEND, Aug. 15.—While a number of persons were in the Cafe du Prince Albert a dynamite cartridge exploded under one of the windows. The cafe was wrecked, the windows shattered, the tables broken and plate and glass smashed and hurled about the room. Several persons were wounded by the flying missiles and three were fatally injured. It is thought the perpetrators were Anarchists and committed the outrage in revenge for the severe penalties recently imposed on Belgian Anarchists.

Gladstone's Replies Unsatisfactory.

DUBLIN, Aug. 15.—A monster amnesty meeting was held in Phœnix Park Saturday, the attendance numbering fully 10,000. Pierce Mahony, Parnellite, who was defeated for parliament in the north division of County Meath by Michael Davitt, presided. In his speech at the meeting Mr. Mahony demanded the release of all political prisoners, even supposing them guilty. Mr. Redmond and others who addressed the meeting declared that Mr. Gladstone's replies to questions on this subject were unsatisfactory and reminded their hearers of Sir William Vernon Harcourt's opposition to amnesty.

European Bands for the Fair.

MUNICH, Aug. 15.—The Bavarian Minister of War has refused to allow Bavarian military bands to give concerts in Chicago next year. The Prussian Minister of War gave a similar decision some time ago. Negotiations are said to be pending for concerts at the fair by a royal regimental band from Saxony. The band of the Brunswick Hussars, which at one time considered a proposition to go to the Fair, has given an unfavorable answer.

France Bribed Moorish Ministers.

LONDON, Aug. 15.—The Tangier correspondent of The Times says: "News received here from Fez is to the effect that the Moorish ministers who prevented the Sultan from concluding the treaty with England, each received £2000 from an agent of the French Government. The Sultan has become ill as a result of the worry attending the affair."

Police Withdrawn in Ireland.

LONDON, Aug. 15.—The Dublin Gazette announces that Mayo, Leitrim, West Meath and portions of Tipperary have ceased to be disturbed districts, and that the extra police are therefore withdrawn. The London Daily News commenting on this announcement asks how it is that this decision coincides with the fall of the government. "The Conservatives," it suggests, "may desire to bequeath a little to their successors, else why were the police not removed earlier."

Frau Wagner Doesn't Like Chicago.

BERLIN, Aug. 15.—Frau Wagner refuses to permit the performance of "Parsifal" in Chicago during the Columbian exposition.

PARIS, Aug. 1 .—The Marquis Breteuil, a member of the Chamber of Deputies, and a prominent Monarchical leader, has retired from politics, owing to the action of the press in withdrawing its support of the French Royalists.

Anti-Slavery Men Caused the Trouble.

BRUSSELS, Aug 15.—M. Wanters, General Secretary of the Commercial Companies of the Congo, attributes the reported revolt to anti-slavery agents levying taxes on Arab caravans. Congo state officials here believe the reports are exaggerated.

An Immense Field of Icebergs.

LONDON, Aug. 15.—The Bark Grant, which arrived at Falmouth from Portland, Oragon, traversed a remarkable field of icebergs from midnight June 16 to the following evening, in latitude 44 30 south longitude 38 west, extending as far as the eye could reach east and west. On June 19 she passed an immense iceberg, probably 280 feet high. Some of the icebergs were earth-colored and might be mistaken for islands. They are right in the track of homeward bound ships rounding Cape Horn.

Sir Arthur's Opera Almost Finished.

LONDON, Aug. 15.—Sir Authur Sullivan has finished, with the exception of the overture and a couple of songs, the score of his new opera, upon which he has been engaged for some time and which is intended for production in D'Oyly Carte's Savoy Theatre. This opera will go into rehearsal Monday. Much time and care will be expended in presenting the work. This latest effort is a more serious work than "The Yeoman of the Guard," but has occasional comedy scenes.

All through the Provinces the rapid crease of La Grippe, is causing great alarm. A report was received here to-day, of a new development o the disease, which is worse, perhaps than any other. Wm. Hanley of N. Y. City, died in terrible agony after sickness of only four days. His tongue swelled to such an extent as to make it impossible for him to close his jaws or swallow any food. The report is causing the people in this district to want o into the noted Grip-cure, recently referred to in so many papers. In Cape Breton the disease has pread very rapidly and with fatal results, D. J. McKillop of L'Archeveque writes Feb. 11th that this cure has been tried in his neighborhood and with such success that all those residing there are obtaining a supply believing it to be the only remedy affording relief and effecting a certain cure. He finished his letter by asking for a large quantity of the Medicine (Dr. Morse's Indian Root Pills) to supply the demands of the community for the relief of LaGrippe.

For You r O

GENTLEMAN,—One of my ttle girls (aged 4 years) had been troubled with costiveness in its worst form since infancy. We tried different remedies which gave relief while using, but as soon as discontinued she would be worse than before using. She lost her appetite and was growing weak and delicate. A friend of mine who had used B B B with grand results for the same disease advised me to try it, and also the Burdock Pills, which we did. She did not take the contents f one bottle before it relieved her, and ot only relieved her but permanently ured her, for she has not been troubled nce since, and she is now eight years old

THE OWEN ELECTRIC BELT

PAT. AUG. 16. 87.

AND APPLIANCE CO.

49 KING ST. W., TORONTO, Ont

G. C. PATTERSON, Mgr. for Can.

Electricity, as applied by the Owen Electric Belt and Appliances,

Is now recognized as the greatest boon offered to suffering humanity. It is fast taking the place of drugs in all nervous and rheumatic troubles, and will effect cures in seemingly hopeless cases where every other known means has failed. It is natures remedy, and by its steady, soothing current that is readily felt,

POSITIVELY CURES

THE FOLLOWING:

Rheumatism,	Sexual Weakness.
Sciatica,	Female Complaints,
General Debility,	Impotency,
Lumbago,	Kidney Diseases,
Nervous Diseases,	Liver Complaint,
Dyspepsia,	Lame Back,
Varicocele,	Urinary Diseases.

RHEUMATISM.

It is certainly not pleasant to be compelled to refer to the indisputable fact that medical science has utterly failed to afford relief in rheumatic cases. We venture the assertion that although electricity has only been in use as a remedial agent for a few years, it has cured more cases of Rheumatism than all other means combined. Some of our leading physicians, recognizing this fact, are availing themselves of this most potent of nature's forces.

To Restore Manhood and Womanhood

As man has not yet discovered all of Nature's laws for right living, it follows that everyone has committed more or less errors which have left visible blemishes. To erase these evidences of past errors, there is nothing to equal Electricity as applied by the Owen Electric Body Battery and Suspensory. Rest assured any doctor who would try to accomplish this by any kind of drugs is practising a most dangerous form of charlatanism.

We Challenge the World

to show an Electric Belt where the current is under the control of the patient as completely as this. We can use the same belt on an infant that we would on a giant, by simply reducing the current. Other belts have been in the market for five or ten years longer, but to-day there are more Owen Belts manufactured than all other makes combined.

☞ **Electric Insoles.**—Dr. Owen's Electric Insoles will prevent Rheumatism and cure Chilblains and Cramps in the feet and legs. Price $1, by mail.

Beware of Imitations and Cheap Belts.

☞ Our attention having been attracted to an imitation of the Genuine Owen Electric Belt, that is being peddled through the country from town to town, we desire to warn the public against such.

Our Trade Mark is the portrait of Dr. A. Owen, embossed in gold upon every Belt and Appliance manufactured by The Owen Electric Belt and Appliance Co.

☞ Send for Illustrated Catalogue of Information, Testimonials, etc.

Cures Others

Will cure You, is a true statement of the action of AYER'S Sarsaparilla, when taken for diseases originating in impure blood; but, while this assertion is true of AYER'S Sarsaparilla, as thousands can attest, it cannot be truthfully applied to other preparations, which unprincipled dealers will recommend, and try to impose upon you, as "just as good as Ayer's." Take **Ayer's** Sarsaparilla and **Ayer's** only, if you need a blood-purifier and would be benefited permanently. This medicine, for nearly fifty years, has enjoyed a reputation, and made a record for cures, that has never been equalled by other preparations. AYER'S Sarsaparilla eradicates the taint of hereditary scrofula and other blood diseases from the system, and it has, deservedly, the confidence of the people.

AYER'S Sarsaparilla

"I cannot forbear to express my joy at the relief I have obtained from the use of AYER'S Sarsaparilla. I was afflicted with kidney troubles for about six months, suffering greatly with pains in the small of my back. In addition to this, my body was covered with pimply eruptions. The remedies prescribed failed to help me. I then began to take AYER'S Sarsaparilla, and, in a short time, the pains ceased and the pimples disappeared. I advise every young man or woman, in case of sickness resulting from impure blood, no matter how long standing the case may be, to take AYER'S Sarsaparilla."—H. L. Jarmann, 33 William st., New York City.

Mr. James Connolly, of Waite Island while driving from Marysville to his home was killed by the accidental discharge of a gun, which slipped from the seat where he had placed it.

Revs. Crossley & Stratton's excursion to the Thousand Islands on Saturday was a great success, over three hundred people accompanying the party. Every arrangement had been made for the comfort of the excursionists, who were all delighted with their trip.

There was nothing done at the annual meeting of the East Riding Reform Association's meeting at Warkworth on Friday last, an adjournment having taken place until a definite announcement is made concerning the proposed general gathering in Toronto.

Mrs Cochrane, Hotel street one of Belleville's wealthiest citizens and now in her 83rd year, last week received a copy of her nephew's address from the throne, Hon. Joseph Royal, Lt. Governor of the N. W. T. Mrs. Cochrane, although now eighty is still active and a remarkably shrewd business woman.

If you want a lovely odor in your rooms cut off branches of the Norway spruce and arrange them in a large jug well filled with water. In a few days tender, pale green branches feather out, soft and cool to the touch and giving the delightful health giving odor.

United States census figures show that in 1890 there were in that country under sentence for homicidal crime 7,351 persons. Of these 6,958 were males and 393 females. The census also shows that there were 75,924 men under arrest charged with statuable offences in 1890, while the whole number of women so situated was only 6,405. Women is in more ways than one the better half.

The Queen's Birthday will not always be a public holiday in Canada. When Victoria ceases to reign and the Prince of Wales ascends to the throne the King's Birthday will take it place. That is to say it will be a State holiday, just as the 24th of May is, but it will not be much of a holiday among the general public. The anniversary of the Prince's birth falls on November 9th, too late in the season for outdoor recreation, and, as far as Canada is concerned, too near Thanksgiving day to be very generally observed.

An intelligent Toronto man, who is generally pretty sure of his facts, said recently to a reporter:—"I tell you the locomotive must go. You will smile but I tell you that the trolley system of electricity will supersede the locomotive. I believe that this new road from ParrySound to Ottawa will be operated by the trolley. More than that I believe that before three years the trolley will be used exclusively on the Grand Trunk between Toronto and Hamilton. Trains will than run every hour, the public will have a better service and the company will pocket the large difference between the cost of electricity and steam."

The great event of our civic holiday will be the I. O. O.F. band excursion to Kingston and Watertown. The Hero has been engaged to carry the party as far as Kingston whence the Maud will take them to Watertown. Those who wish to do so can go to Kingston only and back the same or the next day. Return tickets to Kingston 75 cents, to Watertown $2.00. The band will furnish plenty of excellent music, and this excursion should, and undoubtly will be the great attraction of the day.

A PATRIOTIC CANADIAN

R Matheson Speaks up Manfully for his Country

The ONTARIO is indebted to R. Matheson for a copy of the Colorado Springs Gazette containing a report of the seventh annual conference of the superintendents and principals of D. & D. Institutions which assembled there on the 9th., and in which the talented and genial superintendent of the institute here took an active part. Mr. Matheson is a true Canadian patriot and was not afraid to speak up for his country. In replying to the address of welcome, the Gazette says:—

"Mr. Matheson of Ontario, Canada, was the next speaker. He spoke patriotically for Canada, and the work which it was doing for its deaf. He remarked that people of the United States had a great opinion of their country and of themselves, but that Canada was larger than her neighbor, although she does not have so many people. Mr. Matheson spoke of the absence of the British flag in the decorations of the hall, and said that next time he came to a conference he was going to bring a little flag of his own. He commended the beauty of the building and the enterprise of Colorado, and told how pleased he was with the reception accorded him and the party."

The rebuke administered was well-deserved. Canadians would not think of holding a convention of any kind at which Americans were expected to be present without complimenting their guests by including one or more American flags among the decorations.

TERRIBLY SCALDED

A Little Girl Meets With a Severe Accident

Last week while Miss Winnie Moore, eldest daughter of Mr. Samuel Moore, of Napanee was cooking some meat, her mother being ill and confined to her room, she attempted to lift the pot off the stove as it was boiling over, and in so doing spilled some of the boiling grease on her feet. The grease made its way down her boot tops and severely scalded the young child, so much so that Dr. Ward had to be summoned.

SPORTING WORLD.

The yacht Iolanthe returned to the city on Saturday after a pleasant cruise among the islands.

Rowdy Boy, the well-known trotting horse owned by S. Curry has gone lame. Its owner does not think it is serious.

James Ketcheson, Geo. Thomas, S. Curry and John Johnston left to-night for Toronto to attend the Woodbine meeting which commences to-day.

Under the new law woodcock may not be shot until Sept. 15. In fact, with the exception of ducks, which may be shot Sept. 1, no game bird can legally be killed in Ontario until Sept. 15. The law is a wise one, and as it is intended to enforce it rigidly, wise people will obey it.

Local horseman are enthusiastic over the coming meeting here on July 31st and Sept. 1st. Manager James Ketcheson stated to a reporter today that there would no doubt be a large number of entries. The program will be issued to-night.

The yacht club house project referred to the other day in these columns seems to have come to a standstill, but it is hoped that this apathy will not long continue. A plan for the house has been prepared by Gillen & Gillen of Kingston that meets with the commendation of all who have inspected it, and every prominent yachtsman in the city who has been spoken to on the matter expresses hearty approval of the project and his intention to do all he can to help it along. All that is requisite now seems to be for some one to take hold of the matter and push it along.

One Price to All

The Oak Hall Clothing Co. have always worked on the principle that one man's dollar was just as good as another, and therefore do a strictly one price business. We know there are still a few people who like to get a dollar thrown off, but they seem to forget that any house that would throw a dollar off the price would put two dollars on. Make no mistake, a strictly one price house cannot have a high price, if they did they could not do business at all. The Oak Hall is positively the only one price clothing house in Belleville.

Saturday's Globe contains an illustrated article re the first Methodist churches in Upper Canada, with views of the old Adolphustown church—the first built, 100 years ago—also of Conger's, near Picton, now the oldest one in use in Canada, and Switzer's in Ernestown, so well known and torn down last winter. None of these views had ever been published before. T W Casey, of Napanee, took a good deal of pains in preparing he article. The facts and figures are correct and some facts were never published before.

Mr. G. A DELIGHTFUL TRIP.

The Carmana Party Meet With a Hearty Reception

T. S. Carman and party returned from a tour on Lake Ontario on the Carmana yesterday afternoon after a most delightful sail which was not marred by accident or mishap. After visiting all the principal cities on the lake they left Charlotte yesterday morning for their home trip. The run was made from Charlotte to Mr. Carman's private dock in six hours and thirty three minutes, although a heavy sea was encountered during most of the trip. It might be stated that the trip was made without any extra effort on the part of the engineer. It is a pleasant thing to be able to leave Belleville at 4 o'clock in the afternoon and get into Charlotte shortly after sun down.

The different yacht clubs on the lake gave the party the freedom of their clubs. In Rochester the Carmana was admired and visited by a large number of yachtsmen.

HELP FOR ST JOHN'S

Liberal Collections Yesterday for Rebuilding the Methodist College there

Rev C Story, chaplain of the Methodist college, St John's, Nfld., preached yesterday morning in Bridge St Methodist church. This college was burned in the great conflagration there, and nearly all who could otherwise be depended on to rebuild it are also burned out, so it was found necessary to appeal to the Canadian conferences for aid. The importance, almost the necessity for such a college can be seen from the fact that there are no public schools on that island, each denomination being obliged to educate its own people if it is done at all. Rev. Mr. Story was sent to Canada to ask for aid, and this the first place in Ontario that he visited. The response in Bridge street church yesterday was a most liberal one, $311 being given which will, be augmented by further subscriptions by some who were not present yesterday. Mr. Story hopes to raise $20,000 in Ontario, and in this he will doubtless succeed, judging from the start made yesterday.

THE BURNING OF ST. JOHN'S N. F. JULY, 8th 1892.

The alarm is given--the bell rings out,
Fire! Fire! Fire! becomes the shout;
Clear the way for the noble brigade
Which hastens on--quite undismayed,
To battle with the raging flame,
And once more for themselves get fame.

Alas! alas! when arrived on the scene,
Unable to cope with the fire is the stream;
On rushes the flame, with a deafening roar
Causing ruin and destruction, as never before,
With terror depicted on every face
Men, women and children run from place to place.

To stay the mad element all effort is vain,
Still on it sweeps from hill to plain;
Like a roaring lion—seeking all to devour
Making many hearts sad in that terrible hour,
For your lives—For your lives, hear the awful cry,
Our city is going and someone may die

Cathedrals, churches, houses it spares none'
Over all, "The destroyer" the victory has won,
And not till naught is left in its swathe
Is it appeased of its terrible wrath;
Leaving fifteen thousand without a home
For food and shelter—knowing not where to roam.

Oh! the wild shrieks of anguish and despair,
The moanings and groanings that rent the air
As they gaze on the homes they once held so dear,
So ruthlessly taken in this '92 year.
Oh! city of St. John's—now in ashes lying
For thee many hearts in foreign lands are crying.

Over the wires speeds the sad news of conflagration,
Stirring sympathies of hearts all over the nation
Help is coming! Help is coming! say the wires in return,
Causing every heart with gratitude to burn,
Help for the destitute—food and shelter too,
Fast as steam and sail can carry and a noble crew,

Farewell—our noble city—from those who dwell
Now in foreign lands—who loved thee well;
Ne'er again shall we behold thee, as in childhood's days,
But fond memories of thee shall linger as we gaze
In fancy back upon thee as thou wert in olden days.

Fatal Accident on the Southern Pacific.

GALVESTON, Tex., Aug. 13.—As the Southern Pacific fast freight was going through a deep cut near the bridge which spans the Sabine River, the caboose left the track, having been thrown off by a floating tie. Recent rains had swollen the river until it overflowed and filled the cut with water. Several cars were pulled from the track by the cabbose. One of them knocked down one span of the bridge over the river. Frank Leonard, a brakeman of Plains, Pa., was killed and six were wounded. The cabbose fell 40 feet to the bed of the river and was shattered into fragments. It is thought that three of the wounded will die.

Floods Doing Great Damage in Spain.

MADRID, Aug. 13.—Heavy storms are sweeping over Spain and are doing an immense amount of damage. The rain is falling in torrents, and is destroying the grape and olive crops. Much damage has been done by the rivers overflowing their banks, and in some places the low lands adjacent to the rivers resemble huge lakes. In Huesca the Isuela River is out of its banks. The flood has already carried away thirty houses, and it is feared further damage will be done.

Collision Between Afghans and Russians.

SIMLA, Aug. 12.—Another collision has occurred on the Nezalash Pamir between Afghans and Russians.

Consolidation of European Peace.

ST. PETERSBURG, Aug. 12.—The Novosti welcomes Gladstone's advent to power as a happy augury of the consolidation of European peace.

Fell From His Bicycle Dead.

BAR HARBOR, Me., Aug. 13.—While riding a bicycle yesterday near Waymanlane Charles Werz reeled and fell to the road dead. Heart disease, superinduced by the heat and over-exertion, was the cause

A Young Montrealer Murdered.

MONTREAL, Aug. 13.—Two young Canadians of Montreal, stonemasons by trade, left for Whitehall for the purpose of securing work. They were unaware of the fact that a strike in that line of business was then on there. As they were walking along the road towards a building where they intended to work they were suddenly met by a number of men, who assailed them at once. One of the young Montrealers ran for his life, but the other was shot through the head and his body thrown into a swamp.

Dragged to Death.

KINGSTON, Aug. 13.—James Perrigo, 12-year-old son of Andrew Perrigo, Round Lake, was taking one of the horses to water. The little fellow twisted the halter strap about his wrist, when suddenly the horse got frightened and sprang back, drawing the boy from his feet. The horse then dashed off, dragging the boy along the ground. After running about five acres the halter broke, and when the child was picked up it was found that he was dead, his skull having been fractured.

VICTIM OF CIDER DRINKING.

Mrs. Nicholas O'Brien Murdered by Her Husband at Litchfield, Conn.

NEW HAVEN, Conn., Aug. 13.—Nicholas O'Brien, who lived with his wife and two children in a dilapidated farm house two miles from Litchfield, in the Milton-road, came home drunk late Tuesday night. He grabbed his wife by her hair, kicked and beat her and drove her outdoors. There he kicked and pounded her again, choked her till she was nearly insensible and pushed her into the weeds by the roadside.

Two hours later Mrs. O'Brien was found covered with mud and blood and in a dying condition. She died soon after, and her husband has been arrested for murder.

Six years ago when O'Brien married Miss Katie Heron of Litchfield he was industrious and sober. He formed a taste for hard cider, the tipple of the neighborhood, and notwithstanding his wife's warnings became a hard drinker. His crime is the sixth murder caused by cider drinking in Litchfield County during the last 10 years.

A DOUBLE MURDER.

Two Chinamen Killed by a Brother Celestial at Rivers' Inlet, B.C.

VICTORIA, B.C., Aug. 13.—A murder was committed at Rivers' Inlet, B.C., by a Chinaman named Wing, employed at Shotbolt's cannery, and his victims were two brother Celestials employed in the cannery. The murderer had been accused by his companions of stealing $600 from the company's safe. They threatened to tell the manager.

While the Chinamen, 16 or 17 in number, were at breakfast one of the white men engaged at the cannery came in to see one of the Chinamen. Wing evidently thought that the Chinamen were about to tell the white man that they suspected him (Wing) of having robbed the safe, for he immediately opened fire on them with a Winchester repeating rifle. Two of the Chinamen were killed outright and three others were wounded.

The murderer and the bodies of his victims will be brought to Victoria.

CHRYSLER CONVICTED.

The Man Who Swindled School Teachers Found Guilty.

SIMCOE, Ont., Aug. 13.—The Sellarville Schoolmaster Chrysler, who swindled school teachers in various parts of Ontario by inserting an advertisement in The Globe offering engagements to any and all parties answering his advertisement, was Friday convicted of fraud. Sentence was deferred pending the decision of the courts as to other cases.

A GOLD CURE THAT'S GILT.

A Western Whisky Remedy Declared to be Worthless.

COUNCIL BLUFFS, Iowa, Aug., 13.—A rival to the gold cure, the French League Safety Cure Co., of Sioux City, has been declared bogus by U.S. Commissioner F. M. Hunter and C. C. Cook of this city. The two were induced to invest $10,000 in it, which they have now brought suit to recover. They say the remedy is only a common treatment known to all physicians, is not very efficacious and contains dangerous ingredients.

The Monetary Conference.

LONDON, Aug. 13.—Arrangements for the meeting of the International Monetary Conference are progressing. The selection of Dresden finds approval among the English delegates. In regard to the personnel of the English representatives Mr. Currie is the strongest man appointed. He has no tendency whatever towards bi-metallism. On the contrary, he is sound for a single standard. His appointment has special significance for the American Government, as meaning that his influence will overrule any inclination of his co-delegates towards an arrangement satisfying America. Of the other delegates Sir C. W. Fremantle is a mono-metallist, Sir W. H. Houldsworth and Gen. Strachey are bi-metallists,

Mr. Chas. N. Hauer

Of Frederick, Md., suffered terribly for over ten years with abscesses and running sores on his left leg. He wasted away, grew weak and thin, and was obliged to use a cane and crutch. Everything which could be thought of was done without good result, until he began taking

Hood's Sarsaparilla

which effected a perfect cure. Mr. Hauer is now in the best of health. Full particulars of his case will be sent all who address
C. I. HOOD & Co., Lowell, Mass.

HOOD'S PILLS are the best after-dinner Pills, assist digestion, cure headache and biliousness.

A PROLIFIC SOURCE OF DISEASE.—A trifling indiscretion in diet may lay the foundation of confirmed dyspepsia, and there is no fact in medical science more positively ascertained or more authoritatively asserted than that dyspepsia is the parent of a host of bodily ills, not the least of which is contamination of the blood and the maladies of which that is the direct consequence. Their original cause is however thoroughly eradicated from the system by Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure, a medicine which only requires regularity and persistence in it use to cure dyspepsia and many other ills that arise from it. No deteleriour mineral ingredient is contained in it, and though its act on is thorough in cases of costiveness it never produces griping pains in the abdominal region, or weakens the bowels like a violent purgative. It invigorates the system through the medium of the increased digestive and assimilative activity which it promotes and is also a most efficient remedy for kidney disease scrofulous and all diseases of the blood femole weakness, &c., &c Price $1.00 Sample bottle 10 cents. Ask for Northrup & Lyman's Vegetable Discovery and Dyspeptic Cure. The wrapper bears a fac-smile of their signature. Sold by all medicine dealers.

If you have a cough or cold do not neglect it; many without a trace of that hereditary disease have drifted into a consumptive grave by neglecting what was only a slight cold. Had the used Bickle's Anti-Consumptive Syrup before it was too late their lives would have been spared. Mr. A. W. Levy Mitchell, writes. "I think Bickel's Anti-Consumptive Syrup the best preparation on the market for coughs and severe colds. About six years ago I caught a severe cold which settled on my lungs, and for three months I had a cought. I had a physician attending me, but gradually grew worse until I was on the verge of Consumption, and had given up hodes of being cured, when I was induced to try Bickel's Syrup. Before I had taken one bottle I found myself greatly relieved, and by the time I had finished the second bottle I was completely cured. I always recomend it for severe colds and consumption."

A LAMP

That will illuminate the world.

Our order for this fall's stock of lamps has gone to the factory. We'll have more lamps for less money than you ever saw before.

We'll have a great special lamp opening.

If you are saving a dollar or two for a lamp, keep it till we announce our great display of these new season's goods

We'll do in the LAMPS as in CROCKERY, Silver, Fruit Jars, etc, and that is, lead all these inexperienced would-be crockery dealers by selling goods at just what they have to pay for them, and that's why the public deal at our store.

THE REASONS!

GOUGH CAN SELL CHEAPER THAN OTHER DEALERS

FIRST—Because we are the largest Clothiers in Canada, and SECOND, because we are not the supply account of any firm, and consequently are not compelled to handle only one manufacturer's goods, and at whatever prices they have a mind to ask. THIRD—Because we have ample means to buy wherever we like, and no matter how large the stock, whether it is $1,000 or $100,000 worth we are always prepared to pick it up if it is a snap, and FOURTH—Because we sell ten times more goods than any other firm, and consequently can sell on a smaller margin of profit.

Some of our high price friends cannot see anything funny about GOUGH selling so cheap, and call us "Fake" dealers, but when inaugurating this One Price and Low Price System we did so with a determination to

"Hew to the Line; let the Chips fall where they may!"

And if in fulfilling this mission we are breaking the back bone of our high price oppositionists, we are sorry for them, for we mean them no harm, but claim the right to do our business in a

SQUARE, HONORABLE WAY,

GIVING DOLLAR FOR DOLLAR EVERY TIME.

Yes, we are called "fake" dealers and "low" dealers by our opponents. Well, we freely admit we are low dealers, wallowing in the lowest depths of bed rock prices, while our exalted brethren look down upon us from their high place and go wild because we are capturing their trade, and this is the sequel to their calling us "fake" dealers, etc., but it won't go down, for the name of GOUGH is provincial, and a household word in every family.

Don't forget our

GREAT MIDSUMMER SALE

Still Continues

and we are giving extraordinary cuts all along the line, as we are determined to carry no goods over until next season, but require the room for our Big Fall Stock which will commence to arrive next month.

Thousands of Overall's only 19c per pair, sold by other dealers before we opened here for 50c, but we compel them now to sell them for 25c, and they are mad.

TAR AND FEATHERING CASE AT MATTAWA.

The Victim Dragged from His House and, After the Outrage, Ridden on a Rail —He Will Call Upon the Authorities to Prosecute His Assailants, Some of Whom He Can Identify.

OTTAWA, Aug. 16.—Great excitement prevailed in the village of Mattawa on Friday evening last, when a man named Mados Fournier, the keeper of an alleged disorderly house, was taken from his domicile by a number of men and after being treated to a coat of tar and feathers was ridden on a rail through the village streets. After a great deal of amusement had been taken out of the unfortunate Frenchman's antics on the rough rail some of the more law-loving citizens rescued the man and brought him to the lock-up for safe keeping. The victim of the outrage threatens to take legal proceedings against his tormentors, many of whom he identified.

DROWNINGS OF A DAY.

A West Indian Loses His Life in Lake Rosseau.

BRACEBRIDGE, Aug. 16.—A drowning accident occurred on Lake Rosseau this morning by which Percy Holwell of Jamaica, West Indies, a bright youth of 17 years, met his death.

He was a pupil of Upper Canada College, and with three other boys was camping on Lake Rosseau for the past three weeks. He was sitting on the stern of a boat, where he was seized with a fainting fit and fell into the water. The other young lads bravely jumped in to the rescue, but were unable to hold on to him in his death struggles. Before 10 minutes the body was recovered. Dr. Gullen did everything to restore life, but without avail. The body will arrive in Toronto at 5.30 Tuesday morning.

Got Beyond His Depth.

ST. CATHARINES, Aug. 16.—George Nesbitt, son of William Nesbitt, pressman at The Standard office, was drowned in the Old Welland Canal this afternoon. The little fellow was wading in after water lilies, when he got beyond his depth. The body was recovered shortly afterwards.

Fatality in Lake Simcoe.

NEWMARKET, Ont., Aug. 16.—Yesterday afternoon about 5 o'clock Mr. Frank Wilson, wife and child were returning home on the Maskelonge River on Lake Simcoe, near Jersey, from a visit to relatives, when the boat was upset, and Mrs. Wilson and child were drowned in about 5 feet of water. The child who was drowned was deaf and dumb.

Drowned at the Soo.

WINNIPEG, Aug. 16.—Alexander Wylie of Sault Ste. Marie was accidentally drowned at Alexander, Manitoba, yesterday.

THE FALL RIVER MURDER.

Popular Feeling Turns in Favor of Miss Borden.

FALL RIVER, Mass., Aug. 16.—After the dead bodies of Mr. and Mrs. Borden were found in the old homestead suspicion fastened on Miss Lizzie Borden, the eldest daughter, who had not lived on friendly terms with her step-mother. The reaction has set in and to-day the popular feeling is noticeably quiet. There is very little violent discussion going on in the streets, and what few cases were seen were the outgrowth of hard expressions against the imprisoned girl. Three days ago it was the popular cry that Miss Lizzie was a criminal. To-day, although the District Attorney and Judge have passed their opinions on the evidence, there are many thoughtful and influential men, who believe a trial will substantiate Miss Borden's protestations of innocence.

There is now but one policeman at the Borden homestead and he is doing patrol duty on the street to prevent curious people from annoying the family. The police have recommenced their regular patrol duty and only three men are hunting up further evidence of the murder.

The city marshal said this morning that he was confident that the evidence to be submitted at the hearing on the 22nd inst. would be strong enough to warrant the holding of Miss Borden for the grand jury.

That body will not convene until November, and the time of the special session of the Superior Court that must be held will be decided on afterward. While direct police surveillance has been removed from Mr. Morse and Miss Sullivan yet their whole connection with the case will be gone over by the police again within the next few days and they will not be far away should the police need them. There will not be a great many witnesses summoned for the preliminary hearing unless the present plans are changed. The proceedings will be open to reporters.

The Marshal again denies the statements made editorially and otherwise in many papers to the effect that no search was made until after the funeral. A search was made during the afternoon of the day of the murder, and Miss Lizzie's room was searched thoroughly as other portions of the building. Police inquiry is being made again into the details of a mysterious robbery, which took place at the Borden homestead about a year ago. A lady's watch and several articles of jewelry were taken from a dressing case in one of the upper rooms, and to this day the police have been unable to trace the thief.

Lizzie Borden in Prison.

TAUNTON, Mass., Aug. 16.—Miss Borden passed a comfortable night and yesterday was cheerful to an unusual degree, brought about, no doubt, by the prospect of a visit from her sister. Mr. Jennings and Miss Emma Borden came up this morning, and the former, after a brief conversation, went away, leaving Emma in the cell with her sister.

They conversed in low tones for some time but there were no tears, no complainings, and the whole affair had the appearance of a simple, ordinary, everyday visit between friends. During part of the time Lizzie was occupied with sewing which she had brought with her. It is understood that under no circumstances will she open her mouth, and Mr. Jennings, her counsel, will do all the talking necessary.

Ottawa's Ex-Clerk Dead.

OTTAWA, Aug. 16.—W. Pitman Lett, ex-city clerk, aged 74, died yesterday. He had been ailing for some time and retired from the active discharge of his duties about a year ago. There will be a public funeral on Wednesday.

The Minister Approves.

OTTAWA, Aug. 16.—Hon. Mackenzie Bowell stated yesterday that he is in hearty accord with the views of Gen. Herbert respecting the reorganization of the militia.

Lord Rosebery Will Not Join.

LONDON, Aug. 13.—The Daily Telegraph says: "It is understood that Lord Rosebery will not join the new Cabinet. Should this prove true Lord Kimberley will probably accept the Foreign portfolio with the leadership of the House."

THE CANAL DISPUTE.

The Press Approves the Government's Action.

OTTAWA, Aug. 16.—The Citizen, the Government organ, commenting editorially upon the decision of the Government to continue the canal rebate system for the remainder of the season, says: "The Government's action in this matter will certainly commend itself to all who looked to them to adopt a policy in line with their persistent but dignified efforts in the past to secure a permanent settlement of this question, and we congratulate the administration upon a decision so completely in accord with the principles we confidently felt would prevail in council when we said: 'It will be for them to decide to-day what line of immediate action will be most likely to promote the permanent settlement of the whole question of international traffic. And in arriving at a conclusion the Government will doubtless be found to have been swayed neither by the injudicious outbursts of well-meaning enthusiasts nor the silly ramblings of those whose ill-concealed aim it is to render an honest and honorable settlement of the question impossible.'"

Feeling in Washington.

DETROIT, Mich., Aug. 16.—A Washington special yesterday says: "No official information has been received at the State Department with regard to the alleged proposition which the Canadian Government will submit to the United States with regard to the matter of canal tolls now in dispute between the two countries. It is not, however, believed here in Washington that the vessel interests of the country will be satisfied with the proposed remission of rebates at the close of the present season. No word has as yet been received from President Harrison as to the proclamation he is to issue, and it is supposed that he will not write it until Canada has stated her position in the matter."

Montreal Opinion.

MONTREAL, Aug. 16.—The Witness states: "It is to be hoped that the Government has not, in coming to this decision, taken anything for granted concerning the views of the American Government, which are apt to be anything but conciliatory just before a Presidential election. The American Government certainly ought to be satisfied with the decision of our Government."

The Star comments thus: "The announcement that the Government will not withdraw this season the rebate on grain passing through the Welland Canal for Canadian ports will give our industries a new sense of security, for if the Government had yielded one right to force it might have to yield another. When one retires before threats there is no limit to his possible retreat. As for next session, that will take care of itself, and the Presidential election will be over then."

A Hamilton View.

The Hamilton Times says: "It is nonsense to say that Canada must continue to the United States the privilege of floating timber and lumber down the St. John River, while the consideration for which that privilege was granted is withdrawn. It is nonsense to say that United States vessels must continue to enjoy the privilege of navigating the Ottawa River and its canals, while the Canadian vessels are excluded from the Champlain Canal and Hudson River. It is nonsense to say that a United States vessel may carry lumber from Ottawa to New York and coal from Hudson to Ottawa, while a Canadian vessel may do neither. It is nonsense to say that New York may make her canals free of tolls and exclude Canadian vessels from them, while Canada may not grant a rebate of tolls on exported grain to Canadian and United States vessels alike. It is certain that if the Dominion Government has conveyed an intimation to Washington of its willingness to discuss the canal question that intimation carries with it no sacrifice of Canadian interests."

TORONTO TOPICS.

TORONTO, Aug. 16.—Albert Parker, arrested on a charge of abducting the 14-year-old daughter of James Leamey of Wood township, has returned to the city, having been acquitted of the charge. The only testimony given was that the Leamey girl had left for Gravenhurst the same day as Parker left, but no trace of the girl has since been discovered.

Robert Jones, aged 69, a traveler for Stone & Wellington, residing at 41 Borden-street, was around as usual yesterday morning apparently in the best of health Shortly after 10 o'clock he complained of a pain in the chest. A mustard plaster was prepared, but a few minutes after it had been placed on his chest he expired. The attending physician said rheumatism of the heart caused death.

Deceased came here from Cobourg 15 years ago. He leaves a widow, one son and four daughters.

A Toronto citizen who arrived here from Marine City yesterday reports that a steam yacht, known as the Joker, was run down in the River St. Clair just below Marine City by the Susquehanna of the Anchor Line, and Edward Warden, son of the U.S. Consul at Dresden, Ont., was drowned.

There were no lights on the Joker at all except the small one in the engine room. From this circumstance, and from the fact that there were many mysterious boxes on the steam yacht, a strong suspicion is entertained that the Joker was making a clandestine run from Canada into the United States with dutiable goods, when the expedition came to an untimely end.

At St. Joseph's Convent yesterday morning these young ladies received the holy habit of the congregation of the Sisters of St. Joseph: Miss Tallon of Cornwall, in religion Sister Paulina; Miss Mullan of Oshawa, [illegible]ligion Sister Vincent; Miss McKernon, in religion Sister St. Catharine; Miss Whelan, Toronto, in religion Sister Perpetua; Miss Henry, Toronto, in religion Sister Ludina.

These sisters, having fulfilled their term of two years' novitiate, were permitted to make their final vows: Sister Francis, Sister St. Felix, Sister Clara, Sister St. Joseph, Sister St. Rock.

The electric car service was inaugurated in the city yesterday, when the new cars conveyed a large number of invited guests to Rosedale where luncheon was provided.

Alexander Lahre, better known as Aleck, the life-saver, died in New York yesterday. He was born in Toronto, Canada, in 1846. He has saved no less than 22 lives since he moved to New York. He won the life-saving medal and a handsome testimonial from the ferry companies.

Michael Wooden, a laborer employed on the Dundas-street bridges, was struck by a falling timber about 4 o'clock yesterday afternoon and received injuries which will probably terminate in his death. He was taken to his home in Ossington-avenue and Dr. McConnell summoned, when it was found that his skull was fractured. Dundas-street bridge is furnishing more than its quota of accidents these days.

Aground in the Rapids.

COTEAU LANDING, Aug. 16.—In running the Cedar Rapids the chain of the rudder of the steamer Columbian broke and the steamer went aground at the Conacs Island, bout one mile below the Cedars. All the passengers were sent ashore at St. Timothe and it is reported that no one was hurt.

The Meteor Wins Again.

LONDON, Aug. 13.—The Meteor, Emperor William's yacht, won a match around the Isle of Wight yesterday by 47 seconds, after an exciting finish Queen Mab was second and Iverna third.

The Sheriff Unable to Meet the T ened Trouble, So the Militi Called Out—All Quiet at 1 O' But Extended Trouble Is Expect

BUFFALO, Aug. 16.—The striking s men renewed their lawless work y day and the burning of cars cont There are fifty freight cars now on fi tween Lancaster and Cheektowaga nothing can be done to save them, as are outside the city line and engines c be got to them. There are probably cars between Buffalo and Lancaster, an less something is done to stay the pr of the flames they will all be destr The sheriff is swearing in a large fo deputies and the police departmen swearing in specials. Everything is dead standstill on the Erie and L yards to-day. Upwards of 100 cars already been burned.

Frank Sweeney, Grand Master o Switchmen's Mutual Aid Association, is here, said yesterday that he had al taken official action in the way of dis aging lawless acts, and would do so at to-night's meeting, which he th would be a large one. He said: strike has spread to Waverly and will bably spread to Hornellsville and Brad where the switchmen are dissatisfied has not spread to any other road Buffalo. We have come to an agree with the W.N.Y. & P. on a 10-hour and will have no trouble with that A conference with the general superint ent of the B., R. & P. has been arra for to-day. He is coming here and pect that a settlement on the 10-hour will be made."

Mr. Sweeney further said that the and Lehigh switchmen here had not treated in such a way as to keep then good humor. Their advances had spurned by those in high authority.

Switch Lights Stolen.

BUFFALO, Aug. 16.—A little befo o'clock Monday morning Erie car No. 38 loaded with lumber, was set on fire at Western New York and Pennsylvania road shops. But little damage was before the fire department put the fire At the same time all the switch light the Erie between Smith-street and Western New York and Pennsylvania get were stolen. It was then impossibl tell how the switches were set.

The Trouble Growing Worse.

BUFFALO, Aug. 16.—President McL of the Lehigh Valley Railroad has offe a reward of $5000 for the apprehensio any person or persons inciting the r here. At this writing the trouble is gr ing worse. Conductor Neville, who injured yesterday, is dead, and his assail is unknown. There are nearly a score injured people at the hospitals, and th institutions have been advised by the po to be ready for any emergency which m arise during the night.

The Strike May Extend.

NEW YORK, Aug. 16.—The strike of switchmen and train hands of the Leh Valley and Erie Railroads at Buffalo m extend to the yards at the various railro in Jersey City. The men complain th are required to work from 12 to 15 hour day, and they want to be paid extra every hour they work over 10 hours a d They also want an advance in wages. Th are 2800 men employed in the Jersey C yards.

Traffic Goes On.

PHILADELPHIA, Aug. 16.—The swit men's strike on the Lehigh Valley Railw while viewed with seriousness by the Re ing management, occasions no appreh sion as to the outcome. Men in numb more than sufficient to fill the places of t strikers have been secured, they say, a thus far there has been no absolute sto page of traffic and none of the perishab freight has been stopped.

No Riot But the Militia Is Ready.

BUFFALO, N.Y., Aug. 16.—No distu bance is reported up to 12.30 a.m. at t Cheektowaga yards except the burning one car at 8.30 p.m. The 74th regime and 65th regiment are assembled at the armories ready to move at a moment notice. There has been nothing approac ing a riot, although large crowds a strung out throughout the neighborhood.

The 65th Regiment has been sent Cheektowaga to guard the Lehigh Valle and Erie yards. The 74th Regiment h been sent to protect the New York Centr and West Shore properties, it being feare that the switchmen on these roads may g out to-night.

Fighting Contract Labor.

CHATTANOOGA, Tenn., Aug. 16.—Earl yesterday 500 miners met at Whitewell a few miles from Inman, where 250 convict were at work in the iron mines of the Ten nessee Coal, Iron and Railway Company and proceeded in a body toward Inman on a train on which there were some 40 un armed men going to Inman to increase the guards at the stockade. The miners would not let the train proceed, and held the guards. About 150 of the miners took charge of the guards, while the remainder, about four hundred, went forward to the stockade determined to burn the barrier and turn the convicts over to the guards, put them all on a train and send them out of the country. The telegraph wires have been cot, but it is supposed the miners carried out their program.

Threatened Strike in Paris.

PARIS, Aug. 16.—Five thousand of the Parisian cabmen met yesterday, and the speakers advocated a general strike. No definite resolutions were adopted.

Sabred to Death.

MEMPHIS, Aug. 16.—J. D. Tolbert, a plantation superintendent, was attacked by a gang of drunken negroes near the Second-street bridge late last night and fatally slashed with sabers. The murder was without provocation. The affair has created great excitement and a large posse followed the murderers into the country whither they fled.

Fell From a Scaffold.

OTTAWA, Aug. 16.—George Hepinstall of this city met with a terrible accident at Bearbrook Crossing on Saturday and died yesterday morning from the injuries sustained. He missed his footing on a scaffold and went tumbling head-first to the ground, a distance of 25 or 30 feet. He was picked up unconscious. He died yesterday morning.

No smoker who has ever used the Myrtle Navy tobacco for, say a month, ever relinquishes it for any other brand. Its flavor is rich and full, and it never burns the tongue or parches the palate. It is, in fact, the ne plus ultra of smoking tobacco.

A neglected cough brings on consumption—the most fatal and prevalent of all physical ills that flesh is heir to. To check the malady in its early stage, before the deadly turbercles develop themselves in the lungs use Dr. Thomas' Eclectric Oil which also annihilates bronchitis, asthma, catarrh, piles, kidney troubles, and soreness of the muscles and joints.

At no time is man secure from attacks of such painful and dangerous disorders of the stomach as Cholera, Cholera Morbus, Cramps, Diarrhoea, and Dysentery; but these complaints are particularly common during the heated term, when it is doubly dangerous to neglect them. PERRY DAVIS' PAIN KILLER is a remedy that has never failed when tried, and the severest attacks have been cured by it. It leaves no evil effect, invariably brings relief to the sufferer. Every reputable druggist in the country sells PERRY DAVIS PAIN KILLER

EXCITED IMPERIALISTS.

The Napoleonic Fete at Paris Gives Them Opportunity.

PARIS, Aug. 16.—Monday was the anniversary of the Napoleonic fete day, and the occasion was celebrated by a great banquet, which was attended by 500 supporters of an imperial regime.

M. Eugenand, a member of the Chamber of Deputies, presided. He made a speech in which he attacked the Jewish financiers and the plutocracy. Amid cries of "Vive L'Empire," "Abas Les Juifs" those present adopted a resolution declaring that the Imperialists at the elections would vote only for candidates who demanded the election of the President by a plebiscite.

BURNED THEIR CAPTIVE.

Palmy Days of Italian Brigandage Recalled by a Crime.

ROME, Aug. 16.—Information has been received by the police of this city of the murder of the rich landed proprietor, Billotti, who fell a victim to the prevailing insecurity of the public highways.

It appears that Billotti has been captured by brigands, who sent a messenger to the family demanding a ransom of 500,000 francs for the release of their relative.

The messenger being detained longer than the brigands anticipated, the robbers feared that Billotti's family put the police on their track and resolved to execute the threat contained in the letter demanding ransom, wherein they had announced their intention of burning Billotti alive in case his relatives should turn traitors.

The brigands carried Billotti to an isolated spot in the mountains and burned him.

When the messenger returned with the money he found only the unfortunate man's charred remains.

Advertising a patent medicine in the peculiar way in which the proprietor of Kemp's Balsam for cough and colds does it is indeed wonderful, He authorized all druggists to give all those who call for it a sample bottle free, that they may try it before purchasing. The large bottles are 50c and $1 We certainly would advise a trial. It may save you from consumption.

A Pleasant Herb Drink

The best cure we know of for constipation and headache is the pleasant herb drink called Lane's Family Medicine. It is said to be Oregon grape root, combined with simple herbs, and is made ready for use by pouring boiling water onto the dried roots and herbs. It is remarkably efficacious in all blood disorders and is now the sovereign remedy with ladies for clearing up the complexion. Druggists sell the packages at 50c and $1

For all forms of female weakness Dr. Williams' Pink Pills are an unfailing specific. Mr. Thomas Strachan, Postmaster, Roballion write : - My daughter has been ill for the last four years with female weakness, and had been attended by four of the best doctors in our section. She began the use of Dr Williams Pink Pills, and two boxes have done her vastly more good than all the medicines she took from those doctors.

What She Said

Mrs. R. Peck, 15th street, New York City, visited Canada last year, and had the good fortune to pick up something which not only suited her, but her neighbors also. Writing the manufacturer of Nerviline she says:—"I bought three bottles of Nerviline while in Canada and treated my neighbors to some of it, and all think it the best medicine for internal or external pain they have ever used." Nerviline deserves such commendation, for it is a most powerful, penetrating, and certain remedy for pain of all kinds. Take no substitute.

A Cure For Constipation And Headache

Dr. Silas Lane while in the Rocky Mountains discovered a root that when combined with other herbs makes an easy and certain cure for constipation. It is in the form of dry roots and leaves, and is known as Lane's Family Medicine. It will cure sick headache in one night, For the blood, liver and kidneys, and for clearing up the complexion it does wonders. Druggists sell it at 50 cents a package

The highest praise has been won by Hood's Pills for their easy, yet efficent action.

As an after dinner pill, to strengthen the stomach, assist digestion, and correct any bilious tendencies, Ayer's pills are considered the best. Being sugar coated, they are as agreeable as any confection, and may be taken by the most delicate.

How Mr. W.D. Wentz of Geneva, N.Y., was cured of the severest form of dyspepsia? He says everything he ate seemed like pouring melted lead into his stomache. Hood's Sarsaparilla effected a perfect cure. Full particulars will be sent if you write C. Hood & Co., Lowell, Mass.

ANOTHER FORECAST OF THE NEW CABINET.

Gladstone Himself to Be Privy Seal and First Lord of the Treasury—He is Said to be in Fine Health and Spirits—The Report Denied That Morley Will be Raised to the Peerage.

LONDON, Aug. 16.—Mr. Gladstone, accompanied by Sir Algernon Edward West, left Carleton Gardens at noon Monday en route for Osborne House, Isle of Wight, to lay before Her Majesty the names of those who will compose the cabinet and to carry out the old custom which requires that the statesman summoned to form a government shall kiss the hand of the sovereign.

Notwithstanding the persistent rumors as to his physical condition, Mr. Gladstone looked remarkably sprightly. To judge from his appearances he did not look upon the journey to Osborne House in the light of a severe task ; on the contrary, his every appearance indicated that it was a pleasure jaunt for him. A considerable number of persons had gathered about the doorway of the house in Carleton Gardens, and when the Liberal leader appeared looking fresh and smiling he was the recipient of hearty cheers. Entering his carriage he was at once driven to Waterloo station, where a small crowd, including a few notable men, were gathered to see him. Arrived at the station, Mr. Gladstone took his seat in a first-class saloon car. Here he extracted a tuberose from a small box and carefully pinned it in a buttonhole of his coat. As the train pulled out of the station the crowd cheered Mr. Gladstone, who responded by lifting his hat and bowing.

Cabinet Forecasts.

LONDON, Aug. 16.—The News announces that Earl Rosebery will be Foreign Secretary, Baron Herschell, Lord Chancellor; Sir William Vernon Harcourt, Chancellor of the Exchequer; Herbert H. Asquith, Home Secretary; Right Hon. Henry H. Fowler, President of the Local Government Board Rt. Hon. H. Campbell-Bannerman, Secretary for War; Earl Spencer, First Lord of the Admiralty; Rt. Hon. John Morley, Chief Secretary for Ireland; Rt. Hon. A. J. Mundella, President of the Board of Trade; Sir Charles Russell, Attorney-General; John Rigby, Solicitor-General; Right Hon. Samuel Walker, Lord Chancellor of Ireland; Mr. Macdermott, Attorney-General for Ireland; Right Hon. Edward P. C. Majoribanks, Patronage Secretary; Alexander Asher, Solicitor-General for Scotland, and Right Hon. J. D. Balfour, Lord Advocate.

Messrs. Bryce and Acland will also have seats in the cabinet, while the Marquis of Ripon, Earl Kimberley and Sir George Trevelyan will undoubtedly be members.

The Earl of Aberdeen is mentioned to succeed Lord Stanley as Governor-General of Canada.

Mr. Gladstone's Offices.

LONDON, Aug. 16.—Mr. Gladstone will take the office of Privy Seal as well as that of First Lord of the Treasury. Lord Brassey will be Viceroy of Ireland.

No Truth in the Report.

LONDON, Aug. 16.—There is no truth in the report that Arnold Morley will be raised to the peerage.

Lord Kimberley Couldn't Explain.

LONDON, Aug. 16.—In the House of Lords yesterday Lord Salisbury stated that the Cabinet had presented its resignation, which had been accepted by the Queen. His Lordship then asked Lord Kimberley, as the leader of the Liberal peers, to explain to the House the foreign and domestic policy of the incoming Government. Lord Kimberley replied that he (Lord Kimberley) was not yet a member of the Cabinet and could not, therefore, consider himself authorized to reply to the query of the noble Earl. Lords Connemara and Edinburgh took their seats after the usual oath, and the House adjourned until Thursday.

THE MARCH OF THE CHOLERA.

Frightful Ravages by the Plague in the Country of the Shah.

SIMLA, Aug. 16.—In consequence of the dread prevailing in Teheran, the capital of Persia, over the invasion of cholera, the Shah has taken up his residence at a camp at El-Burz, 24 miles from Teheran.

In the city there is an alarming increase in the number of cholera cases reported daily, and the deaths average 300. A few days ago the average number of deaths was 60. The American Protestant missionaries have many cholera patients at their hospital. They are doing incalculable good. All the railway and tramway traffic has stopped and the bazars have been closed. Nearly all the residents who have been able to do so have fled the city. Almost all the victims of the dread disease are from the lower classes.

At Tabriz, the capital of the Province of Azerbaijan, in Northern Persia, cholera is raging with the most fatal effect. The city contains about 175,000 inhabitants, and they are dying at a frightful rate. Every day the deaths amount to several hundred and the disease shows no sign of diminution in its violence.

"August Flower"

I had been troubled five months with Dyspepsia. The doctors told me it was chronic. I had a fullness after eating and a heavy load in the pit of my stomach. I suffered frequently from a Water Brash of clear matter. Sometimes a deathly Sickness at the Stomach would overtake me. Then again I would have the terrible pains of Wind Colic. At such times I would try to belch and could not. I was working then for Thomas McHenry, Druggist, Cor. Irwin and Western Ave., Allegheny City, Pa., in whose employ I had been for seven years. Finally I used August Flower, and after using just one bottle for two weeks, was entirely relieved of all the trouble. I can now eat things I dared not touch before. I would like to refer you to Mr. McHenry, for whom I worked, who knows all about my condition, and from whom I bought the medicine. I live with my wife and family at 39 James St., Allegheny City, Pa. THE THREE FATES

BY

F MARION CRAWFORD is an excellent book, The plot sufficiently interesting without being too intricate. A number of pretty situations and startling denouements are admirably sketched by the author.

The young writer who is the hero of the play, meets with his three fates, the first he loves, but she destroys her own happiness by refusing him, the second loves him, and her mother's intrigues to catch him are only made unsuccessful by the discovery of a deceit she has practised, and finally his third appears on the scene.

This is one of the finest novels placed before the reading public for some time, and its popularity will grow with the more thoughtful class of readers, and the wisdom of the writer, and the beauty of his characters will be appreciated years hence perhaps more than now. At

A STEAMSHIP WRECKED.

The Thracian Cast Away on the Isle of Man.

LONDON, Aug. 16.—A large steamer named the Thracian, the building of which has just been completed at Glasgow, and which was being towed to Liverpool, has been lost off the Isle of Man. The crew of 17 men went down with the steamer.

Everything went well until last night when the wind freshened and in a short time was blowing a gale. The Thracian was proceeding light, and as the sea increased she pitched and rolled heavily. The strain on the towing hawsers was tremendous, and finally they parted. By this time the sea was so high that it was impossible to get other lines from the towboats to the steamer and it was equally impossible for any attempt to be made to rescue the crew.

The captain's wife was also on board the vessel. The six children of the captain and his wife were awaiting their arrival on the landing stage at Liverpool when the news of the disaster was broken to them. They were stunned by the announcement.

French and Belgian Miners Fight.

PARIS, Aug. 16.—For some time past trouble has existed among the French miners in the Pas de Calais district, owing to the employment of Belgian miners. The trouble culminated yesterday in a pitched battle between a number of Frenchmen and the Belgians. Revolvers were drawn and shots exchanged. Several men on both sides were injured. The gendarmes were promptly on the scene and succeeded in restoring order.

The Invasion of the Pamir.

BERLIN, Aug. 17.—According to reliable diplomatic information received here, China has addressed strong representations to Russia protesting against the occupation of the Pamir country by the Russians as a breach of the treaty of Livadia, which fixes the frontier 100 miles north of Aktash, where the Russians are encamped.

The governor of Chinese Turkestan has sent troops to protect the frontier.

The British Grain Trade.

LONDON, Aug. 16.—The Mark Lane Express in its weekly review of the British grain trade says: English wheats are in large supply and prices show an average fall of 6d. The existing reserves are estimated at 860,000 quarters. The weather favors the harvest. The wheat crop is now expected to reach 8,250,000 quarters, which will be about 500,000 quarters under the yield of 1891. Barley promises an average yield of better quality than usual. Oats will yield 10 per cent. below the average.

RUN DOWN IN A RACE!

Horses and Jockeys Have a Fall at Gloucester.

GLOUCESTER, N.J., Aug. 16.—An accident which may result in two deaths occurred yesterday on the Gloucester track in the first race. The event was four and a half furlongs, and there were eleven starters. As the horses were rounding the turn entering into the home stretch Sir Jim was in the lead with Hurryaway, the favorite, running second. The others were closely bunched behind. Suddenly Hurryaway stumbled and fell and a half-dozen other horses and their jockeys fell in a heap like so many ten-pins. The animals, strange to say, were not injured, but picked themselves up and scampered away.

The jockeys with the exception of Pfankuchen, who rode Cavalier, were lying all over the track insensible, and Moore, the colored rider of Joe B., soon revived, but the other riders are mostly in a critical condition. They are Herton, who roke Patrick; Brooker, the ride of Catherine, and McGloan of Hurryaway, Cleary of Wild Fire colt and Morrissey, who was mounted upon Come On.

Cleary is the worst hurt of the lot. The colt tread upon his face and disfigured him fearfully. He is delirious in a local hotel, and had to be put in a straight jacket.

HOISTED THE IRISH FLAG.

Hibernians in Hamilton Won't Carry a Union Jack.

HAMILTON, Aug. 15.—The Ancient Order of Hibernians of this city, in company with three visiting lodges from Toronto, had a procession yesterday, and the fact that the British flag had no place in the parade is causing considerable talk, and more particularly because an Irish flag was prominent at the head of the line. Rev. Father McEvay, who was asked to explain the omission, said that it was purely accidental. The evening papers devoted considerable space to discussion of the incident. Constable Campaign is said to have stepped out to a flag-bearer who bore a big green banner at the head of the procession, telling him to take it down and substitute a Union Jack for it.

According to the bystanders several of the processionists rushed up and said, "You and the Union Jack be damned," raising and waving at the same time a small American flag which one of the party carried. Being alone Campaign was powerless to interfere further.

Ate a Man's Liver.

SAN FRANCISCO, Aug. 16.—A famous pirate was beheaded at Hortan, China, recently, and a letter received in this city gives the following details of the execution. The condemned man was presented with a face towel, 400 coppers, a little parasol, and a lantern for his use on his way to the next world. This curious continuation of an old superstitious custom is to show the fellow-feeling of the judge for the condemned, since it is not he but the law of the land that has passed the sentence of death.

After the pirate's head was struck off the executioner and his assistants cut open the victim's headless body and tore out the liver. This was divided on the spot among the executioners, who devoured it, the liver of a decapitated man being regarded as a remedy against being visited by the spirit of the departed, as well as efficacious as medicine in case of consumption.

Crushed to Death.

CENTRALIA, Ont., Aug. 16.—A sad accident occurred yesterday, resulting in the death of a boy, the only son of Samuel Calfas, who recently came here from Iowa. The little fellow was playing around his father's hay rack when the horses started, catching him in the spokes of the hind wheels and crushing him against the inside of the rack. He lived but a few moments.

All through the Provinces the rapid increase of La Grippe, is causing great alarm. A report was received here to-day, of a new development of the disease, which is worse, perhaps than any other. Wm. Hanley of N. Y. City, died in terrible agony after sickness of only four days. His tongue swelled to such an extent as to make it impossible for him to close his jaws or swallow any food. The report is causing the people in this district to resort to the noted Grip-cure, recently referred to in so many papers. In Cape Breton the disease has spread very rapidly and with fatal results. D. J. McKillop of L'Archeveque writes Feb. 11th that this cure has been tried in his neighborhood and with such success that all those residing there are obtaining a supply believing it to be the only remedy affording relief and effecting a certain cure. He finished his letter by asking for a large quantity of the Medicine (Dr. Morse's Indian Root Pills) to supply the demands of the community for the relief of LaGrippe.

For You r O

GENTLEMAN,—One of my little girls (aged 4 years) had been troubled with costiveness in its worst form since infancy. We tried different remedies which gave relief while using, but as soon as discontinued she would be worse than before using. She lost her appetite and was growing weak and delicate. A friend of mine who had used B B B with grand results for the same disease advised me to try it, and also the Burdock Pills, which we did. She did not take the contents of one bottle before it relieved her, and not only relieved her but permanently cured her, for she has not been troubled since since, and she is now eight years old

RHEUMATISM.

It is certainly not pleasant to be compelled to refer to the indisputable fact that medical science has utterly failed to afford relief in rheumatic cases. We venture the assertion that although electricity has only been in use as a remedial agent for a few years, it has cured more cases of Rheumatism than all other means combined. Some of our leading physicians, recognizing this fact, are availing themselves of this most potent of nature's forces.

To Restore Manhood and Womanhood

As man has not yet discovered all of Nature's laws for right living, it follows that everyone has committed more or less errors which have left visible blemishes. To erase these evidences of past errors, there is nothing to equal Electricity as applied by the Owen Electric Body Battery and Suspensory. Rest assured any doctor who would try to accomplish this by any kind of drugs is practising a most dangerous form of charlatanism.

We Challenge the World

to show an Electric Belt where the current is under the control of the patient as completely as this. We can use the same belt on an infant that we would on a giant, by simply reducing the current. Other belts have been in the market for five or ten years longer, but to-day there are more Owen Belts manufactured than all other makes combined.

☞ Electric Insoles.—Dr. Owen's Electric Insoles will prevent Rheumatism and cure Chilblains and Cramps in the feet and legs. Price $1, by mail.

Beware of Imitations and Cheap Belts.

☞ Our attention having been attracted to an imitation of the Genuine Owen Electric Belt, that is being peddled through the country from town to town, we desire to warn the public against such.

Our Trade Mark is the portrait of Dr. A. Owen, embossed in gold upon every Belt and Appliance manufactured by The Owen Electric Belt and Appliance Co.

Cures Others

Will cure You, is a true statement of the action of AYER'S Sarsaparilla, when taken for diseases originating in impure blood; but, while this assertion is true of AYER'S Sarsaparilla, as thousands can attest, it cannot be truthfully applied to other preparations, which unprincipled dealers will recommend, and try to impose upon you, as "just as good as Ayer's." Take Ayer's Sarsaparilla and Ayer's only, if you need a blood-purifier and would be benefited permanently. This medicine, for nearly fifty years, has enjoyed a reputation, and made a record for cures, that has never been equalled by other preparations. AYER'S Sarsaparilla eradicates the taint of hereditary scrofula and other blood diseases from the system, and it has, deservedly, the confidence of the people.

AYER'S
Sarsaparilla

"I cannot forbear to express my joy at the relief I have obtained from the use of AYER'S Sarsaparilla. I was afflicted with kidney troubles for about six months, suffering greatly with pains in the small of my back. In addition to this, my body was covered with pimply eruptions. The remedies prescribed failed to help me. I then began to take AYER'S Sarsaparilla, and, in a short time, the pains ceased and the pimples disappeared. I advise every young man or woman, in case of sickness resulting from impure blood, no matter how long standing the case may be, to take AYER'S Sarsaparilla."—H. L. Jarmann, 33 William st., New York City.

A CHATHAM MIRACLE

DR CARL VERRINDER'S VICISSITUDES OF TORTURE AND OF HEALTH

He Survives Them all, and Recounts His Wonderful Deliverances From Poverty and Death and His Restoration to Prosperity and Vigor of Mind and Body—Good Words for the A O U W

Chatham Planet

In a Raleigh street residence there lives with wife and one child—a little ten year old daughter—a musician known throughout Ontario, if not the whole Dominion, as a prince among pianists, organists and choir masters—a veritable maestro and "Wizard of the Ivory Keys," and no one who has ever listened to his manipulation of the great organ in the Park Street Methodist Church, or heard him evoke "magic music's mystic melody" from the magnificent Decker Grand in his own drawing room but will declare that his eminence is well deserved and his peers can be but few among the professors of Divine Art. The door plate bears the following inscription.

CONSERVATORY OF MUSIC

DR CARL LEO VERRINDER,

Director

To sit, as did a Planet reporter a few days ago, in a very atmosphere of sweet harmony, created by Dr. Verrinder's magician-like touch was an experience that might well be envied, and one calculated to inspire the most sentimental reveries. But sentimental moods finally vanish and leave one facing the sober and practical side of life. The music ceased and the conversation took a turn leading to the real object of the reporter's call.

"There are stories abroad," said the newspaper man, "regarding some extraordinary deliverances from death, which you have met with recently, doctor. Would you object to stating what foundation there is for them, and, if any, furnish me with true facts for publication." Dr. Verrinder shrugged his shoulders and laughed. "I have not," he replied, "been given to seeking newspaper notoriety, and at fifty five years of age it is not likely I shall begin, and yet," said the professor after thinking a moment and consulting Mrs. Verrinder, "perhaps it is best that I should give you the circumstances for use in The Planet. The story of my rescue from the grave might fittingly be prefaced by a little of my early history. We resided in England, where though I was a professor of music, I was not dependant on my art, as I had acquired a competance. My wife was an heiress having £50,000 in her own right. Through the rascality of a broker she was robbed almost of all her fortune, while by the Bank of Glasgow failure, my money vanished forever. It became necessary for me then to return to my profession in order to live. I do not speak of it boastingly, but I stood well among the musicians of that day in the old land. My fees were a guinea a lesson and it was no uncommon thing for me to give twenty in a day. We came to America, landing in Quebec, where I anticipated getting engagement as organist in the cathedral, but was disappointed Subsequently we moved to St Catharines, in which city I procured an organ and choir and soon had a large clientele. Later in order as I thought to better my fortune, I took up my residence in London, first filling an engagement with a Methodist church and afterwards accepting the position of organist in St. Peter's Cathedral. In those cities I made many warm friends, and their tributes and gifts I shall ever retain as among the most precious of my possessions. It was while living in London and pursuing my art with much earnestness and labor that I received a stroke of paralysis. "Perhaps,"—here the speaker rose and stretching himself to his full height, thus displaying his well built and well-nourished frame—"I do not look like a paralytic. But the truth is I have had three strokes —yes, sir, first, second, and third, and they say the third is fatal, ninety-nine times out of one hundred. Yet here you see before you a three-stroke victim, and a man who feels, both in body and mind, as vigorous as he ever did in his life. My ultimate cure I attribute to my testing the virtues of a medicine whose praise I shall never cease sounding as long as I live, and which I shall always recommend to suffering humanity as I am now constantly doing, while I know of a case and can reach the ear of the patient. After removing to Chatham I had not been long here when my health further began to give way. Gradually I noted the change. I felt it first and most strongly in a stomach affection which produced constant and distressing nausea. It grew worse and worse, I myself attributed it to bad water poisoning my system. One doctor said it was catarrh of the stomach. Another pronounced it diabetes, still another a different diagnosis. I kept on doctoring, but getting no relief. I tried one medicine after another, but it was no use. Grippe attacked me adding to my pain, discomfort and weakness. At last I took to my bed and it seemed that I was never going to get well. Nothing of a nourishing nature would remain on my stomach. No drugs seemed to have a counter-acting influence on the disease which was dragging me down to death. My wife would sit at my bedside and moisten my lips with diluted spirits which was all that could be done to relieve me. Besides three local doctors who gave me up, I had doctors from London and Kingston whose skill I believed in and to whom I paid heavy fees, but without receiving any help or encouragement. It is true that a stomach pump operation afforded me temporary relief, but yet I felt that my peculiar case needed some special and particular compound or remedial agent which I knew not of. But, at last thank God, I discovered it. I had been for eighteen months a miserable wreck, unable to work, unable to eat or sleep properly. My means were becoming exhausted. My poor wife was worn out in body and spirit. Suddenly the deliverer came! Pink Pills! Yes sir! Pink Pills—God bless their inventor or discoverer!—have rescued me from the jaws of death and miraculously made me what you see me to-day, hearty, happy with a splendid appetite, a clear brain, a capacity to work and an ability to sleep sound and refreshing sleep—a boon that only a man who has experienced the terrors of insomnia can rightly appreciate. Bear in mind, my friend, I am no wild enthusiast over the supposed merits of this medicine. I have tested the merits of Pink Pills and am ready to take oath to their efficacy. No one could shake my faith in them; because what a man has thoroughly proved in his own experience and what he has bad confirmed in experience of others—I have prescribed the pills to other sick persons and know what extraordinary good they have effected in their cases he ought to be convinced is so, I shall tell you how I came to try them A fellow member of the A. O. U. W., the brethern of which order had been more than kind to me dusing my illness, recommended Pink Pills. I knew nothing about what they were or what they could accomplish. In fact, I am rather a sceptic on what are termed "proprietory remedies." But I started to take Pink Pills for Pale People, made by the Dr. Williams' Medicine Co., Brockville. From the very first, one at a dose, I began to mend, and before I had taken more than a box or two I knew that I had found the right remedy and that to Pink Pills I owed my life. In nine months I have taken twelve boxes—just six dollars worth. Think of it, my friend! Hundreds of dollars for other treatment, and only six dollars for what has made a man of me and set me again on the highway of health and prosperity. There is some subtle, life-giving principle in Pink Pills which I do not attempt to fathom. I only know like the blind man of old "once I was blind; now I can see!" God, in the mystery of his providence, directed my brother of the A.O.U.W. to me. I to it. I live and rejoice in my health and strength. I have no physical malady, saving a slight stiffness in my leg due to grippe. I feel as well as in my palmiest days. My prospects are good. All this I gratefully attribute to the virtues of Pink Pills for Pale People, "and now my story is done!" as the nursery ballad runs. If anybody should ask confirmation of this tale of mine let him write to me and I shall cheerfully furnish it. The Pink Pills were my rescuer and I'll be their friend and advocate while I live!"

The reporter finally took his leave of Dr. Verrinder, but not without the professor entertaining him to another piano treat, a symphony played with faultless execution and soulful interpretation of the composer's thought.

Calling upon Messrs. A E Pilkey & Co., the well known druggists, the reporter ascertained Dr. Williams' Pink Pills have an enormous sale in Chatham, and that from all quarters come glowing reports of the excellent results following their use. In fact Dr. William's Pink Pills are recognized as one of the greatest modern medicines—a perfect blood builder and nerve restorer—curing such diseases as rheumatism, neuralgia, partial paralysis, locomoter ataxia, St. Vitus dance, nervous headache, nervous prostration and the tired feeling resulting therefrom, diseases depending upon humors in the blood, such as scrofula, chronic erysipelas, etc Pink Pills restore pale and sallow complexions to the glow of health, and are a specific for all the troubles peculiar to the female sex, while in the case of men they effect a radical cure in all cases arising from mental worry, overwork or excesses of whatever nature.

These pills are manufactured by the Dr. Williams' Medicine Company, Brockville, Ont., and Schenectady, N.Y., and are sold in boxes (never in loose form by the dozen or hundred and the public are cautioned against numerous imitations sold in this shape) at 50 cents a box, or six boxes for $2.50, and may be had of all druggists or direct by mail from Dr. Williams' Medicine Company from either address. The price at which these pills are sold make a course of treatment comparatively inexpensive as compared with other remedies or medical treatment.

Louttit's Catarrh Cure is for sale wholesale and retail at Geen's Drug Store.

Those who are in the habit of taking an appetizer before meals could not do better as well for the effect as for economy's sake, than make use of "Indigenous Bitters." As Indigenous Bitters are slightly laxative, those who suffer from habitual constipation, will derive great benefit, by regularly taking them, as they keep the bowels in good order and in that way aid digestion

When you want your cistern pumps and waterpipes repaired send to Deacon and Doyle.

There are more cases of sickness and death from diseased kidneys than from all other diseases combined. It is your own fault if you allow your kidneys to remain in an unhealthy condition when the cure is at hand. Dood's kidney Pills are guaranteed to cure the worst case. It costs but little to give them a trial. They are for sale by all druggists and dealers or by mail on receipt of 50 cts. or 6 boxes for $2.50. Write for book called Kidney Talk.

We do not know of any preparation that has caught the public favor in so short a time as Dodd's Kidney Pills, but when we consider that three-fourths of the Canadian people are afflicted with kidney troubles in some form or other, and that Dodd's Pills are a quick and permanent cure for all these troubles, the large and increasing demand can scarcely be wondered at. Sold by all dealers or by mail on receipt of price, 50 cents per box. Dr. A. L. Smith & Co. Toronto.

BELLEVILLE'S CIVIC HOLIDAY.

A Few Attractions Which Citizens May Take in

To-morrow is Belleville's Civic Holiday. The Oddfellow's and Military band will run an excursion to Kingston and Watertown. The Hero leaves Belleville at 7 a. m. arriving at Kingston at 2.45 and Watertown at 6.14. Returning will leave Watertown at 8.40 a. m. on the following morning.

A private party has chartered the Nellie Cuthbert for the day. Leaving Belleville at 8 a. m, they will stop at the Park and Deseronto for a few minutes, when they will take dinner at Glen Island, view Lake-on-the-Mountain and put into Picton for a few hours. The party will return to the city at 10 p. m.

A large contingent of excursionists are expected from Campbellford, Peterboro and Stirling from which points excursions are run to the city. At the Park in the afternoon the Star nine of Trenton and the I X L's of Belleville will face the bat when an interesting game of baseball may be expected.

These are the only attractions for Belleville civic holiday and those who do not take these in will probably go fishing.

One of Our Greatest Industries

Cheese making is one of Canada's greatest industries. While in other respects our industrial progress may have been slow, in this particular direction it has been simply phenomenal. The trade has grown from almost nothing twenty years ago, until to-day there are over 1,500 factories in Ontario and Quebec alone, and the value of the finished product exported for the whole Dominion is valued at close on ten million dollars per annum. Cheese is the one article, indeed, in which the exports of Canada exceed those of the United States.

It is important, then, that our cheese exhibit at Chicago should be the best that Canadian skill can produce. It is, of course, impossible to expect a demand for this article in the United States no matter how good the display may be. But purchasers will be there from France, from Germany, from Belgium, in fact from every civilized nation in the world. And it is upon these that it is desirable to produce a favorable impression in order that the demand for our dairy products in other foreign countries may soon be as great as in the Mother Land itself.

CANADIAN CHEESE IN ENGLAND

A. P. Reid Gets a Gold Medal for his big Cheddars

Canadian cheese took a high standing at the recent exhibit at Liverpool, carrying off all the medals and the leading prizes in every department, and the English papers speak in highest terms of the exhibit from this country. Hastings county had its share of the honors also, the cheese made by A.P. Reid at the Ashley factory taking one of the medals. The Canadian Gazette, of London, England, says:

"Special mention must be made of the large cheddars, some of them nearly 500lbs each, made expressly by Mr. A P Reid. These were much admired by distinguished visitors and many merchants." In a letter to Mr. Reid Messrs. Marples, Jones & Co., who had charge of his exhibit, speak in high terms of his cheese and ask for his season's output at a premium on the highest market price. This speaks well of the quality of the cheese made in this factory, which is among the best in the province.

A BUNCH WOOD BOAT

A Writer Strongly Condemns the Foresters

DEAR SIR—I quite agree with your article in last night's ONTARIO in reference to the Ella Ross. I think it a crying shame that the Government should allow such a tub on fresh water, when it will not stand the slightest sea I am even more surprised that the Foresters should charter such a boat for their annual excursion, thus imperilling the lives of women and children. Even without a heavy sea this "bunch wood boat" as you very properly call it, is not a fit and proper conveyance. If the boat took fire like the ill-fated Quinte, which also burned bunch wood, what escape would there be for the lives of those on board? I was on the Ella Ross when she encountered a slight storm in the bay and those on board will not soon forget their experiences. Women and children crying and praying for their lives which were only saved by a miracle. I most strongly condemn the action of the Foresters in chartering such a boat and I will be one who will certainly not be on board at their excursion.

Quoit Challenge

Fred Claus, the crack quoit player of the Belleville quoit club has challenged Wm. Todd, of the Royal quoit club, Kingston, to pitch for a $100 on a date to be fixed later. Twenty dollar forfeit is required, best two out of three, 41 points. Stakes held by Fred Abraham, of the ONTARIO.

Shannonville Assault Case.

D. L. Brown, J. P., gave judgment in the assault case of Vivian vs. Hall Saturday. The Magistrate found that there was evidence of two assaults by Hall before he was struck and as he was not on trial before the offence convicted him of assault on Albert Vivian on the night of July 28th at Shannonville and fined him $1 and costs. W. C. Mikel for Vivian and P. J. M. Anderson for Hall.

Received To-day

While some firms are only beginning to think about fall clothing, the Oak Hall are a little more active. We received to-day our second large shipment from the firm of W. E. Sanford & Co., of Hamilton, amounting to over $3000. Those who wish to buy clothing now can have the pick of the very newest fall patterns. Others stores will be showing new goods in about three months. Remember the fact, that the Oak Hall is the only firm in Belleville that can get Sanford's celebrated clothing.

EXCITED IMPERIALISTS.

The Napoleonic Fete at Paris Gives Them Opportunity.

PARIS, Aug. 16.—Monday was the anniversary of the Napoleonic fete day, and the occasion was celebrated by a great banquet, which was attended by 500 supporters of an imperial regime.

M. Eugenand, a member of the Chamber of Deputies, presided. He made a speech in which he attacked the Jewish financiers and the plutocracy. Amid cries of "Vive L'Empire," "Abas Les Jeuifs" those present adopted a resolution declaring that the Imperialists at the elections would vote only for candidates who demanded the election of the President by a plebiscite.

BURNED THEIR CAPTIVE.

Palmy Days of Italian Brigandage Recalled by a Crime.

ROME, Aug. 16.—Information has been received by the police of this city of the murder of the rich landed proprietor, Billotti, who fell a victim to the prevailing insecurity of the public highways.

It appears that Billotti has been captured by brigands, who sent a messenger to the family demanding a ransom of 500,000 francs for the release of their relative.

The messenger being detained longer than the brigands anticipated, the robbers feared that Billotti's family put the police on their track and resolved to execute the threat contained in the letter demanding ransom, wherein they had announced their intention of burning Billotti alive in case his relatives should turn traitors.

The brigands carried Billotti to an isolated spot in the mountains and burned him.

When the messenger returned with the money he found only the unfortunate man's charred remains.

The Oddfellow's Band excursion to Kingston and Watertown to-morrow will be the leading attraction of the day. Excursionists can stop at Kingston and return the same day, or go to Watertown returning the next day. Return fare to Kingston 75c, to Watertown $2.00. The Hero will carry the party to Kingston and the Maud from Kingston to Watertown. Music by the band on board. This will be a delightful trip and will be largely patronized.

A PROLIFIC SOURCE OF DISEASE.—trifling indiscretion in diet may lay the foundation of confirmed dyspepsia, and there is no fact in medical science more positively ascertained or more authoritatively asserted than that dyspepsia is the parent of a host of bodily ills, not the least of which is contamination of the blood and the maladies of which that is the direct consequence. Their original cause is however thoroughly eradicated from the system by Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure, a medicine which only requires regularity and persistence in it use to cure dyspepsia and many other ills that arise from it. No deteleriouss mineral ingredient is contained in it, and though its action is thorough in cases of costiveness it never produces griping pains in the abdominal region, or weakens the bowels like a violent purgative. It invigorates the system through the medium of the increased digestive and assimilative activity which it promotes and is also a most efficient remedy for kidney disease scrofulous and all diseases of the blood female weakness, &c., &c Price $1.00 Sample bottle 10 cents. Ask for Northrup & Lyman's Vegetable Discovery and Dyspeptic Cure. The wrapper bears a fac-simile of their signature. Sold by all medicine dealers.

If you have a cough or cold do not neglect it; many without a trace of that hereditary disease have drifted into a consumptive grave by neglecting what was only a slight cold. Had the used Bickle's Anti-Consumptive Syrup before it was too late their lives would have been spared. Mr. A. W. Levy Mitchell, writes. "I think Bickel's Anti-Consumptive Syrup the best preparation on the market for coughs and severe colds. About six years ago I caught a severe cold which settled on my lungs, and for three months I had a cought. I had a physician attending me, but gradually grew worse until I was on the verge of Consumption, and had given up hodes of being cured, when I was induced to try Bickel's Syrup. Before I had taken one bottle I found myself greatly relieved, and by the time I had finished the second bottle I was completely cured. I always recomend it for severe colds and consumption."

GLADSTONE'S HARD JOB

HE IS MEETING WITH TROUBLE IN HIS OWN PARTY.

The Scotch Said to be Displeased and Mr. Labouchere Ditto—The Irish Will Insist That Home Rule be the First Measure for Action and, as Soon as Possible.

MONTREAL, Aug. 19.—For some weeks past many rumors have been current as to the state of health of Sir John Caldwell Abbott. Some of them have been of a most alarmist character, and these received some sort of confirmation from the calling of last Saturday's Cabinet Council in this city. Moreover, his appearance was not such as to give the idea that he was robust for his years. He did not appear to have fully recovered from the sudden attack of illness with which he was seized at Ottawa some ten or twelve days since. It was then given out by the ministerial papers that his faintness was due to overwork, while as a matter of fact Sir John had only just returned from a fortnight's fishing trip on the Lower St. Lawrence and he had only spent some four hours in his office.

If this is not sufficient to confirm the stories of the Premier's ill-health, they may be put down as substantially true when taken in connection with the fact that Sir John will early next week leave on a tour to the Pacific coast. He will go in the private car of President Van Horne, which has been placed at his disposal, and he will thus travel in the utmost comfort.

The trip will, however, have more significance than a mere jaunt for the benefit of the Premier's health, for it is currently reported that his visit to the coast is to be taken at the request of the Imperial Government that a report upon the condition of the Esquimalt fortifications may be made by some minister of eminence.

MANITOBA'S CROPS.

They Will Exceed That of Last and Several Previous Years.

WINNIPEG, Aug. 19. — The Canadian Pacific Telegraph Company received reports on the commencement of harvesting in Manitoba and the Northwest. While the growth of the straw is not so enormous as that of last year, the quality of the grain is excellent and the quantity of No. 1 hard will greatly exceed that of last and several previous years. All reports state that not the slightest damage has been done by hail or frost, and total expected yield is very good, that of wheat being estimated at 20 to 40 bushels per acre. Oats from 40 to 60 and barley from 30 to 40. A good start has been made in harvesting. In some localities it commenced last week, and this week it is general except in the most northerly districts, where it will be ready for next week. A very short continuance of the present favorable weather will ensure vast quantities of the very best wheat and a crop that will astonish skeptics in the East. Farmers all over the country are delighted with the bright prospect and those who are now harvesting their first crop in this country are enthusiastic.

The good effects of the magnificent crops are being felt in business and money is reported easier in Winnipeg and elsewhere now than it has been for several years.

THE BORDEN TRAGEDY.

A Man Accuses Himself as the Murderer.

FALL RIVER, Mass, Aug. 19.—Charles H. Peckham of Central Village, Westport, Mass., walked into the Central Police station yesterday and said to Assistant Marshal Fleet: "Well, Mr. Marshal, I killed Mr. and Mrs. Andrew J. Borden, and I have come from home to give myself up. I went over the back fence and through the rear door of the Borden house two weeks ago to-day and killed both of these people out of pure love for blood. I went out of the rear door and over the back fence and walked over the New Bedford-road home. I'm the murderer and I want to be locked up." The marshal took the man to the cell room and searched him. He found a pocket-book with a few recipes in it and also unearthed some official communications from the Russian bureau at Washington.

Peckham is 62 years of age, about five feet eight inches tall, and has a thin gray beard. He says he leases a farm from Edmund Davis. The police have started to hunt up his relatives and friends.

JENNIE TABOR CONFESSES.

She Lied a False Information Against Her Lover.

HUDSON, Mich., Aug. 19.—Jennie Tabor, the young woman dynamiter, who tried to blow up her brother and sister to obtain their money, and who is an admitted burglar, made a final confession this morning to the sheriff. When the girl was accused of burglary she declared that her lover, Charles Meyers, had forced her at the point of a revolver to go to a neighbor's house and rob them. On her word Meyers was arrested and locked up, although he strongly asserted his innocence. To day the sheriff went to Jennie's home with a search warrant. She led him to her bedroom and revealed many of the articles sought. Then she admitted that in implicating Meyers she had lied. He will be released at once. She also admitted that some of the money stolen was used to buy the dynamite to blow up her brother and sister, and that Meyers knew nothing of that scheme.

Fire at Ridgetown.

RIDGETOWN, Aug. 19.—At 12 o'clock last night fire started in the rear of Long's large drygoods store in the Livingstone block. By the energetic work of the fire brigade it was quickly subdued, but not before Mr. Long's large stock was completely ruined by fire, smoke and water. P. Bawden's stock of drugs next door to Long's was badly damaged by water and smoke. J. W. Coyne's dental parlors above Long's store and lodge rooms in third flat were also badly damaged. Long's loss will be heavy, as will Mr. Bawden's. Insurance unknown at present.

The Scott Act Sustained.

DANVILLE, Que., Aug. 19.—Voting for the repeal of the Scott Act in Drummond county took place yesterday. Following are the results so far as heard from: Drummondville, St. Germain, St. Cyrille, West and East Wyckham and St. Guillaume, six pools, give 676 majority against the act, Ulverton, French Village, Kingsey Falls, three polls, give 241 majority for the act, making as far as heard from 435 majority against the repeal of the Scott Act.

Pinkertons on Guard.

ELMIRA, Aug. 19.—The Reading Company brought 300 men to Sayre, the majority of them being coal and iron police and Pinkerton men. A number of freight handlers and other men were also brought, but only a small number of them consented to do any switching, and they very soon quit. The company has succeeded in moving several coal trains and several freights. They were guarded by armed police and were not molested by the strikers.

Lord Rosebery Will Not Join.

LONDON, Aug. 13.—The Daily Telegraph says: "It is understood that Lord Rosebery will not join the new Cabinet. Should this prove true Lord Kimberley will probably accept the Foreign portfolio with the leadership of the House."

THE WAR ON CONVICT CAMPS.

The Miners and the Soldiery Have an Encounter.

KNOXVILLE, Aug. 19.—Yesterday afternoon the court house bell rang the riot call. The excitement is intense. At 2 o'clock yesterday the wires were cut at Coal Creek and newspaper men and railroad men knew that the last step was about to be taken, and shortly thereafter The Journal received a bulletin that an attack had been made on Camp Anderson, and from news now obtainable that attack must have been a feeler as no casualties were reported. In a short time another attack was made and then a third. In the last the Gatling guns were brought to bear upon the miners with deadly effect and many were killed and wounded.

At 6 o'clock last evening the alarming news was brought in that Capt. Anderson had been captured and was held a prisoner with a guard to prevent a hotheaded mob hanging him. The details of the reported capture are not yet known, but it is said that it to some extent disheartened the militia. They are, however, fighting with desperation, as they know that capture will be followed by the death of all at the hands of the infuriated mob. Reinforcements are hurrying forward, but they are few in number, though brave fighters. At 8 p.m. Gen. Carnes and the West Tennessee troops have not yet arrived and it is feared that that little band that left Knoxville this afternoon will be butchered before help can reach it.

TORONTO TOPICS.

TORONTO, Aug. 19.—Lieutenant MacMahon of the Royal Grenadiers and a son of Justice MacMahon some time ago received an appointment in the permanent corps, to qualify for which he entered "C" School of Infantry for the stipulated term. In the meantime he did not sever his connection with the Grenadiers, nor, it is said, did he even notify his superior officers of his appointment. And while they may have had private cognizance of the fact they had no official knowledge of the same. Consequently Lieut. MacMahon was no more exempt from the call of duty than any other officer of the regiment. The Lieutenant, however, thought otherwise. In the course of events his turn came to do duty at the ranges and he was apprised of the fact. But the lieutenant failed to respond to his country's call to duty. When Lieut. MacMahon was approached for neglect of duty he stood on his dignity as an officer in Her Majesty's regular army, and as such was exempt from the decrees of the militia force. The superior officers of the Grenadiers termed his replies not only insufficient cause for his absence from duty, but furthermore considered them impertinent, and proceeded to test their authority in a manner unusual in the ranks of the militia. An order was issued for his arrest on a charge of insubordination, and in the early part of the week he was deprived of his sword and his liberty. In the meantime General Herbert, commander-in-chief of the forces in Canada, was apprised of the matter, and he further added to the severity of the punishment by ordering the insubordinate officer to join his company in the regular forces within 48 hours after his release. This company, it is understood, is the one stationed at St. John, Quebec. Lieutenant MacMahon's term of imprisonment at the New Fort was finished yesterday, and now he will have to march in double quick time to be at his new duties in the time stipulated.

G. W. Ross, Minister of Education, will leave in the first week of September on a six months' leave of absence. His health is such that rest is imperative, and the hon. gentleman has taken the wise course of a prolonged holiday. His many friends hope and trust that he will return greatly improved. It is understood that Hon. J. M. Gibson, Provincial Secretary, will be acting minister during his absence.

James Baskerville entered the butcher shop of F. J. Vise, at 417 Parliament-street, and began making playful remarks about the butcher's meat. Mr. Vise responded by making a feint at the bill poster with a knife, which he was using at the time, but Mr. Baskerville apparently not being able to see the point in this joke threw out his left hand to avoid the blow, and received a wound across the back of the hand which severed the tendons and which may disable the hand entirely. As a result of the play Messrs. Du Vernet & Jones, acting for Baskerville, have issued a writ claiming from Vise the sum of $1000 damages.

Captain Crawford of the Hamilton steamer Macassa appeared in yesterday's Police Court charged with allowing the steamer to carry more than the authorized number of passengers. Two policemen testified that they counted 130 passengers more than the boat is allowed to carry, it being licensed for 539. A fine of $50 and costs was imposed.

The C.P.R. train from the west which reached the city last night at 9.05 o'clock brought Isaac McCann, a quarryman, employed by Mr. Myers of the Forks of the Credit, the train having picked him up near that place. McCann was lying beside the track in a helpless condition, his left leg being fractured, as was his right shoulder blade. He also had several wounds on his head.

The man was under the influence of liquor, and was unable to explain how he received his injuries. An ambulance met the train and conveyed him to the hospital.

On Sunday evening last Frank Wilson, residing in the town of Newmarket, returned home and informed his neighbors that while crossing Little Black River in a boat with his wife and child the boat capsized and Mrs. Wilson and the child were drowned, and that he escaped with great difficulty. The family had been visiting friends near Jersey, and it was while on the return journey that the alleged accident occurred.

At the place where Wilson described the accident to have happened the stream is so narrow that it can be jumped across with a pole. Wilson was also known to have been an expert swimmer. These facts roused suspicion in the minds of some of the townspeople that Wilson had not made any strenuous efforts to save his wife and child, and when the woman's body was recovered and a large bruise found thereon, the opinion grew that an inquest should be held to enquire into the facts, inasmuch as the bruise looked as if it might have been caused by a blow from an oar.

Accordingly Dr. Cook, the coroner, subpœnaed a jury and an inquest was held yesterday near the scene of the drowning, Crown Attorney Dewart of Toronto attending on behalf of the prosecution.

As a result of the inquest the jury returned a verdict of manslaughter and Wilson was placed under arrest and brought to jail.

Riots in Russia.

LONDON, Aug. 19.—A dispatch to The Times from St. Petersburg says: Serious riots have occurred in the small manufacturing town of Hughesofka on the sea of Azof, where thousands of hands are employed in extensive iron works, collieries and rolling mills of the new Russia Company founded by the late John Hughes. Many buildings have been destroyed and it is reported that several Cossacks have been killed. The Governor of Taganrog has started for the scene with troops, and reinforcements have also left Ekaterinoslad. It is thought that the riots are due to the cholera epidemic.

EDITORIAL NOTES.

The London publisher of Dickens' works says that the sale of the great novelist's works was four times as large in 1891 as it was in 1870, the year of Dickens' death. The world never grows weary of reading the works of this master novelist whose infinite variety, keen analysis of human nature, and biting satires on the follies and sins of his day, age cannot wither nor custom stale.

The last speech made in defence of the Salisbury government on the night of its defeat was made by Mr. Chaplin, and a wretched attempt it was. The house was tired of the debate and a winding up speech was not required. Poor Chaplin went floundering into the Serbonian bog of old speeches, extracts from blue books, the rakings and scrapings of the political dust heap. The new members, who had never seen him before, pursued him with jeers, jibes and mocking laughter. His portly figure, tub-thumbing style of oratory and dreary excursion beginning "What did Mr. Gladstone do in 1885?" sent them into fits of mirth. In the midst of all Dr. Tanner walked down the floor of the House with a large glass of water in his hand and cooly deposited it in front of Mr. Chaplin—the most impudent thing ever done in the House of Commons. The Speaker could not interfere—there was no breach of order—and yet it was the most insulting act that has ever been perpetrated. The point of the insult is not stated. It might have been simply an intimation to Mr. Chaplin that he had better "soak his head" or a gentle insinuation that perhaps a water beverage would improve his style of oratory.

The Halifax Chronicle publishes an expose of the fishery bounty frauds in Nova Scotia, which show some of the methods by which the government bought votes for its supporters: In one section where about 60 fishing boats could come in under the act, no less than 170 boats drew bounties. It has been ascertained that in the vicinity of Grand Harrows ten persons who never lived in the county drew bounties, that three persons who have been dead for some years drew bounties, and that bounties were drawn in the names of four persons who never applied for or received them. Peter McNeil drew bounties, though the only person of that name is a boy ten years of age, and the bounty was drawn in the name of Alex. McNeil, who left the country five years ago. An investigation was ordered in May last into these scandals, and a day was actually fixed, and people summoned to attend the fishery court, by Mr. Bertram, fishery overseer for Cape Breton. On receipt of a telegram from somewhere the investigation was summarily dropped, and John R. MacDonald, M. P. for Victoria, hurried down from Ottawa to fix up things. A hole-and-corner meeting was held and strenuous efforts made to hush up the scandal. The Chronicle's investigation has let in some light on the affair which will create a sensation. There is said to more to follow.

For all forms of emale weakness Dr. Williams' Pink Pills are an unfailing specific. Mr. Thomas Strachan, Postmaster, Roballion write :- My daughter has been ill for the last four years with female weakness, and had been attended by four of the best doctors in our section. She began the use of Dr Williams Pink Pills, and two boxes have done her vastly more good than all the medicines she took from those doctors.

What She Said

Mrs. R. Peck, 15th street, New York City, visited Canada last year, and had the good fortune to pick up something which not only suited her, but her neighbors also. Writing the manufacture of Nerviline she says:—"I bought three bottles of Nerviline while in Canada and treated my neighbors to some of it, and all think it the best medicine for internal or external pain they have ever used." Nerviline deserves such commendation, r it is a most powerful, penetrating, and rtain remedy for pain of all kinds. Take sub stitute.

A Cure For Constipation And Headach

Dr. Silas Lane while in the Rocky Mountains discovered a root that when combined with other herbs makes an easy and certain cure for constipation. It is in the form of dry roots and leaves, and is known as Lane's Family Medicine. It l cure sick headache in one night, For he blood, liver and kidneys, and for clearing up the complexion it does wonders. Druggists sell it at 50 cents a package

Weighed in the balance, but not found wanting. Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure has been weighed in that just balance, the experience of an impartial and intelligent public. Both remedially and pecuniarily it is a success. Its sales constantly increase, testimony in its favor is daily pouring in. The question of its efficacy in Dyspepsia, Liver complaint, Kidney Ailments, and for Blood Impurity is dicided Now is the time to take a good toni dicine. The highest praise has been won by Hood's Pills for their easy, yet efficent action.

As an after dinner pill, to strengthen the stomach, assist digestion, and correct any bilious tendencies, Ayer's pills are considered the best. Being sugar coated, they are as agreeable as any confection, and may be taken by the most delicate.

How Mr. W.D. Wentz of Geneva, N.Y., was cured of the severest form of dyspepsia? He says everything he ate seemed like pouring melted lead into his stomache. Hood's Sarsaparilla effected a perfect cure. Full particulars will be sent if you write C Hood & Co., Lowell, Mass.

NIAGARA ELECTRIC RAILWAY.

It Will Not Be Under the Control of the Canadian Pacific.

HAMILTON, Aug. 19.—In regard to the report published in the Toronto papers to the effect that the C.P.R. has secured control of the tramway along the Niagara River Mr. William Hendrie, who is interested, was asked concerning it and promptly gave it an unqualified denial.

"It is a story manufactured out of whole cloth," he said, "and manufactured in Montreal, too. That road is an electric railway. Our charter does not give us the right to use locomotives on it, and we do not want to if it did. We are going to run our cars into the Grand Trunk Station, into the Michigan Central station and into the C.P.R. station, doing business with all, but remaining absolutely independent of each. The fact that Mr. Osler has a large interest in the road does not connect it with the C.P.R. My interest is as large or larger than his and the road will remain independent. It is our intention to do all the passenger business we can without concerning ourselves about other lines. You can give the statement the strongest denial possible, on my authority."

This disposes of another of the wild rumors that have been started regarding the intentions of the C.P.R. in the Niagara peninsula.

He Drew the Gun Towards Him.

CAMPBELLFORD, Ont., Aug. 19.—Yesterday while spending the day at Kemp's Pond, 10 miles from here, Mr. H. Palmer, bookkeeper and traveler for R. J. Eley of this place, was instantly killed by the accidental discharge of his gun, which he was pulling out of the boat, muzzle towards him. The charge entered the right groin and caused immediate death. The deceased, who was 43 years of age, was a member of the Sons of England and Canadian Order of Foresters, both of which societies will attend the funeral, held here to-morrow at 4 p.m. His death has cast a gloom over the town, where he was well and favorably known. A wife and four small children survive him.

Suicide Near Port Hope.

PORT HOPE, Aug. 19.—Yesterday Dr. Corbett held an inquest on the body of Cornelius Coghlin of Port Granby, who died on Monday last from the effects of a dose of paris green mixed for him by his wife. The evidence showed that the deceased was laboring under a grievous and painful disease and was out his mind. Mrs. Coghlin is also mentally deficient and she mixed a dose of paris green and put it beside his bed. The old man drank this dose and shortly afterwards died. The jury returned a verdict in accordance with these facts and found that the woman was not accountable for her act.

Singular Blunder.

MONTREAL, Aug. 19.—In the extradition case relating to the Marks murder a singular blunder has been committed in the indicting of the warrant. The warrant is made out against the two men, Blanc and Harris, for a murder committed on July 18. The actual time of the crime was March 18, and on July 18 both prisoners were under lock and key.

The prisoners' counsel will want it explained how these men could commit the murder while they were in jail, and legal complications may arise from the error.

Nova Scotia Crops.

HALIFAX, N.S., Aug. 19.—The Nova Scotia Government's crop report, issued yesterday, shows that the hay crop is from 3 to 20 per cent. over the average in 12 counties and under the average in six counties, or for the whole province 2 per cent. more than the average. Wet weather interfered with the root crop early in the spring, but that will be an average. The prospects for fruit crops are not bright. Pasturage is good and live stock satisfactory.

Senator Stevens' Successor.

MONTREAL, Aug. 19.—It is stated that one of the items of business decided at the recent Cabinet Council in Montreal was the appointment to the Senate of Hon. George B. Baker, M.P. for Missisquoi, who will replace the late Hon. G. G. Stevens. The appointment, however, has not yet been officially made public. Mr. Baker's elevation to the Senate will necessitate a bye-election in Missisquoi county.

Van Horne Going to Europe.

MONTREAL, Aug. 19.—President Van Horne will leave this day week for England. It is said that his mission is, in the main, to confer with the Barrow Furness Ship Building Company with a view to the establishment of the proposed fast line of Atlantic steamers. Mr. Van Horne is also said to have been recently in conference with Premier Abbott on this same question.

The Reciprocity Convention.

WINNIPEG, Aug. 19.—The agent of the reciprocity convention shortly to be held in Dakota has succeeded in inducing the Winnipeg Board of Trade to send delegates, and has now gone west to secure the attendance of delegates from other places in Manitoba and the Northwest Territories.

Robert Strachan, barrister of Edmonton and formerly of Winnipeg, died suddenly yesterday.

"German Syrup"

A Throat and Lung Specialty.

Those who have not used Boschee's German Syrup for some severe and chronic trouble of the Throat and Lungs can hardly appreciate what a truly wonderful medicine it is. The delicious sensations of healing, easing, clearing, strength-gathering and recovering are unknown joys. For German Syrup we do not ask easy cases. Sugar and water may smooth a throat or stop a tickling—for a while. This is as far as the ordinary cough medicine goes. Boschee's German Syrup is a discovery, a great Throat and Lung Specialty. Where for years there have been sensitiveness, pain, coughing, spitting, hemorrhage, voice failure, weakness, slipping down hill, where doctors and medicine and advice have been swallowed and followed to the gulf of despair, where there is the sickening conviction that all is over and the end is inevitable, there we place German Syrup. It cures. You are a live man yet if you take it. ●

THE THREE FATES

BY

F MARION CRAWFORD is an excellent book, The plot sufficiently interesting without being too intricate. A number of pretty situations and startling denouements are admirably sketched by the author.

The young writer who is the hero of the play, meets with his three fates, the first he loves, but she destroys her own happiness by refusing him, the second loves him, and her mother's intrigues to catch him are only made unsuccessful by the discovery of a deceit she has practised, and finally his third appears on the scene.

This is one of the finest novels placed before the reading public for some time, and its popularity will grow with the more thoughtful class of readers, and the wisdom of the writer, and the beauty of his characters will be appreciated years hence perhaps more than now. At

THE PREMIER'S HEALTH.

HIS FRIENDS ANXIOUSLY CONCERNED ABOUT IT.

He is About to Make a Journey to the Pacific Coast, and While Away Will Collect Information for the Imperial Authorities Regarding Defences for Canada.

LONDON, Aug. 19.—The Scotch Liberal members are dissatisfied at the appointment of Sir George O. Trevelyan as Secretary of Scotland, as he opposed the policy of the majority on the question of local taxation in Scotland. The Scotch Radicals, it is said, will join the English malcontents in Parliament.

The following from Truth, Labouchere's paper, is regarded as a threat: "If the electors find that the ministers, who owe their existence to a Radical triumph, are not prepared to use the weapons placed in their hands, then the people must properly decline to trust them, and will justly say there is no great difference, except in words, between the parties."

The Pall Mall Gazette says: "It looks as though Mr. Bryce, in accepting the Chancellorship of the Duchy of Lancaster, had consented to become maid-of-all-work to the Cabinet."

The resolutions adopted at the meeting of Irish societies held at Ogden Grove, Chicago, on Monday last, are being used by the Unionists to embarrass the Liberals.

The Times says that one of the principal problems of the Separatists is the treatment of so-called political prisoners. It is probable, The Times adds, that the Clericals, including Messrs. Dillon and Davitt, would readily acquiesce in a postponement of the subject did the decision rest with them, but the feeling in patriotic circles on both sides of the Atlantic is too strong. This feeling affords the Parnellites a dangerous instrument with which they will keep prodding the Clericals.

It regards the meeting at Ogden Grove as proof that dynamiting is still alive, and concludes; "Among the convicts now in jail are men who were despatched to Great Britain by O'Donovan Rossa himself since his release. Are they to be sent back to enlist fresh recruits who will be hailed as heroes in America?"

Sir Algernon Borthwick has refused the peerage which was offered him on condition that he transfer his seat (South Kensington) to Rt. Hon. C. T. Ritchie, who was defeated in the St. George's Division in the general election.

Labouchere's Feeler.

LONDON, Aug. 19.—The European edition of The Herald says: The "feeler" thrown out by Mr. Labouchere with a view to the shelving of "Home Rule" has quickly produced a response. The Parnellites declared themselves first. They protested that the proposition was base and cowardly and that they would have nothing to do with it. The anti-Parnellites had no choice but to follow suit. They have told the Irish people for years that "Home Rule" is the one thing needful for them. To turn round suddenly now and declare that it may be postponed indefinitely is a little too much of a good thing.

So Mr. T. P. O'Connor speaks out plainly. He declares that his party must and will have "home rule" first. They "have no choice in the matter." The Irish party will not be trifled with. Let Mr. Gladstone try any hocus-pocus and the Irish contingent will turn upon him at once. What must happen then we all know. Mr. Gladstone will only be a tenant at will. At any moment he will be liable to "eviction" without compensation. The Irish know how to work the machine. Before the "Old Man" knows where he is he may find himself bundled out into the road.

We have never envied him his position and it daily grows more unpromising. Before he has laid his hands upon the reins he finds the coach pretty nearly upset. If he were wise he would decline to form a Ministry under existing circumstances. Why incur all this humiliation for a few months of office? Is it worth while? To us who stand outside it does not seem so. But Mr. Gladstone regards the matter from a different point of view. So let him mount the tight rope and begin his perilous walk across Niagara.

A SEVERE EARTHQUAKE.

The Shock at Milford-Haven, in Wales, Lasted Twelve Seconds.

LONDON, Aug. 19.—A severe earthquake shock was felt in various sections of England, Wales and Scotland yesterday. Crockery and glassware were broken.

At Milford-Haven, Wales, the first movement lasted 12 seconds, At 10 a.m. another shock was felt which lasted 5 seconds. The last shock resembled an explosion and consternation prevailed among the people. Many houses oscillated violently.

HIS MOTHER'S MURDERER.

He Was Suffering from the D. T.'s When He Did the Deed.

CARLSBAD, Aug. 19.—Young Crocker, who murdered his mother yesterday, was suffering from delirium tremens when he committed the deed. He had been watched for several days.

Just before the murder, however, he seemed to be so much quieter that his mother relaxed her vigilance and sent the servant out. In Mrs. Crocker's pocket was found £2000.

Mrs. Crocker was a resident of New York and not Chicago, as stated. She was a very charitable woman and was constantly making contributions to help the poor. Those who knew her well say that she was aware that her son's mind was affected. She had told some of them that one night some years ago she awoke to find him standing over her with a knife in his hand. He was about to plunge it into her bosom when she shrieked and he dropped the knife and fled from the room. She always refused to put him in an asylum.

Death of Countess Li.

LONDON, Aug. 19.—The Standard's Shanghai correspondent says:

"Countess Li, wife of Li-Hung-Chang, died at Tientsin on the 3rd inst. She was attended by an English physician and an American lady doctor. She was one of the most remarkable women of the day. She had the greatest influence at court and was a trusty adviser of the Dowager Empress."

Decorated by the Queen.

LONDON, Aug. 19.—The Queen has conferred the decoration of Companion of the Order of St. Michael and St. George upon Mr. Ashley Froude, secretary of the British Behring Sea Commission. Her Majesty has also made Sir John Pender, chairman of the Globe, Eastern and Eastern Extension Telegraph Companies, a Knight Grand Cross of the Order of St. Michael and St. George, the highest branch of the order. He was formerly a knight commander of the order.

All through the Provinces the rapid crease of La Grippe, is causing great alarm. A report was received here to-day, of a new development o the disease, which is worse, perhaps than any other. Wm. Hanley of N. Y. City, died in terrible agony after sickness of only four days. His tongue swelled to such an extent as to make it impossible for him to close his jaws or swallow any food. The report is causing the people in this district to resort into the noted Grip-cure, recently referred to in so many papers. In Cape Breton the disease has pread very rapidly and with fatal results. D. J. McKillop of L'Archeveque writes Feb. 11th that this cure has been tried in his neighborhood and with such success that all those residing there are obtaining a supply believing it to be the only remedy affording relief and effecting a certain cure. He finished his letter by asking for a large quantity of the Medicine (Dr. Morse's Indian Root Pills) to supply the demands of the community for the relief of LaGrippe.

For You r O

GENTLEMAN,—One of my ttle girls (aged 4 years) had been troubled with costiveness in its worst form since infancy. We tried different remedies which gave relief while using, but as soon as discontinued she would be worse than before using. She lost her appetite and was growing weak and delicate. A friend of mine who had used B B B with grand results for the same disease advised me to try it, and also the Burdock Pills, which we did. She did not take the contents f on bottle before it relieved her, and ot only relieved her but permanently ured her, for she has not been troubled nce since, and she is now eight years old

Cures Others

Will cure You, is a true statement of the action of AYER'S Sarsaparilla, when taken for diseases originating in impure blood; but, while this assertion is true of AYER'S Sarsaparilla, as thousands can attest, it cannot be truthfully applied to other preparations, which unprincipled dealers will recommend, and try to impose upon you, as "just as good as Ayer's." Take Ayer's Sarsaparilla and Ayer's only, if you need a blood-purifier and would be benefited permanently. This medicine, for nearly fifty years, has enjoyed a reputation, and made a record for cures, that has never been equalled by other preparations. AYER'S Sarsaparilla eradicates the taint of hereditary scrofula and other blood diseases from the system, and it has, deservedly, the confidence of the people.

AYER'S Sarsaparilla

"I cannot forbear to express my joy at the relief I have obtained from the use of AYER'S Sarsaparilla. I was afflicted with kidney troubles for about six months, suffering greatly with pains in the small of my back. In addition to this, my body was covered with pimply eruptions. The remedies prescribed failed to help me. I then began to take AYER'S Sarsaparilla, and, in a short time, the pains ceased and the pimples disappeared. I advise every young man or woman, in case of sickness resulting from impure blood, no matter how long standing the case may be, to take AYER'S Sarsaparilla."—H. L. Jarmann, 33 William st., New York City.

What Stronger Proof

Is needed of the merit of Hood's Sarsparilla than the hundreds of letters continually coming in telling of marvellous cures it has effected after all other remedies had failed? Truly, Hood's Sarsaparilla possesses peculiar curative power unknown to other medicines.

DISAPPOINTED HEIRS.

THEY HAD VISIONS OF UNLIMITED WEALTH IN ENGLAND

A West Belleville Family Rudely Taken in by a Vile Swindler—He Leaves the City When the day Comes to Settle up

There is a sadly disappointed family living in West Belleville. Some time ago an imposter came to them and told them that a large fortune awaited them in England and that he was the authorized agent to wind up the estate. He brought along with him an extended plan of the property with the deeds and other necessary papers. On the strength of a good story well told the family, embracing an extended connection in Belleville and New York, were prevailed upon to advance certain sums of money and in all had given up considerable cash. On a certain day recently it was definitely fixed that the heirs should assemble in Belleville where it was mutually agreed that the fortune should be fairly and equally divided. The New York heirs were present and with the other heads of the families started down street at an appointed hour to meet the English attorney who was to hand them over the key to their unexpected windfall. Hopes which had been built high in the heavens, however, were doomed to a sudden and crushing fall. There was no agent there and as the hour for the meeting had long since passed, the disappointed heirs dispersed, going in different directions and vowing eternal vengeance against the cunning Englishman should they again set their eyes on him. It is not known how many more fortune hunters in Belleville were on the same string.

The Province of Quebec Lottery

At the drawing of the 3rd August, the capital prize, $15,000, was drawn by Mr. W. C. Cattanach, physician, of Dalhousie Mills, Ontario. Mr. Cattanach took tickets in this lottery for two years and had not as yet won the smallest prize. This time he wins the $15,000.00, moreover two other small prizes of $5.00 with the very same ticket.

The list of winning numbers reached him on the 4th; on the 5th he started on his journey and presented himself at the lottery's office at half past two o'clock in the afternoon with his ticket, and he was paid at once which the following certificate proves.

THE TRIP TO WATERTOWN

The Oddfellows are Accorded a Splendid Reception in That City

The Watertown excursionists returned home last night tired but happy, and they spoke to-day in enthusiastic terms of their reception in that city. As noted yesterday they went on the Hero to Kingston and as the Maud had a broken shaft they took the Pierpont from that city to Cape Vincent. Here they were met by Dr. Howard, of Watertown and escorted to that city, arriving about 6.30. All the city had come down to the depot to meet them, the station and yard being crowded with a cheering multitude. The Oddfellows were taken first to the spacious and beautiful lodge room where the band deposited their instruments and they then put up at the Woodruff House. This is a splendid hostelry and mine host C. A. Hungerford was assiduous in his efforts for the comfort of his Canadian guests. After supper vehicles were found awaiting them and the visitors were treated to a drive around the city. They were surprised and delighted at the evidences of thrift and prosperity everywhere displayed, and especially with the many fine residences and splendid church edifices. They were then conducted to the music hall where a banquet was served, and at which all the notables of the city were present. Noble Grand Ulham, of Jefferson Union lodge, presided with grace and tact. The Hall was beautifully decorated with flowers, flags and bunting. The Union Jack occupied the place of honor at the end of the hall, flanked on each side by the Stars and Stripes. Over the stage was another large Union Jack. The first toast was "The Queen of Great Britain and the President of the United States,' which was drank with enthusiasm. It was replied to by Senator Hannibal Smith in a most eloquent speech, in which he spoke in glowing words of her Majesty and of the greatness and power of the British Empire, which he believed was destined to rule the world. It was a noble tribute to our Queen and Country. J P G Newton spoke on behalf of the Belleville brethern, and then proposed the health of the Watertown lodges, replied to Bro. Wm Howard, Frank Phillips Noble Grand of Watertown City Lodge, and the chairman. The Belleville Band furnished the music and were the recipients of many warm compliments on all sides. The festivities ended at three o'clock and at eight next morning the visitors left for home. They were treated in the most handsome and hospitable manner by the Watertown people, who vied with each other in their kindly efforts to make their visitors enjoy themselves Politicians may rant about the hostility of the two countries, but in heart the people are one. Among those who were especially prominent in their efforts at entertainment, besides those already mentioned, were C C Herrick, Dr Howard D Helliker, Dr. H H Smith and Wm Howard.

Steamer Rocket makes the trip of the season, leaving Belleville at 10 a. m. Thursday, August 25th, via Upper Gap to Salmon Bay, Wellington and Sandbanks. Direct passage by Water. Tickets Limited to 400. Fare 50c. For Particulars see posters.

BELLEVILLE VICTORIOUS

THE LOCAL NINE DO UP THE PETERBORO BALL CLUB.

An Interesting Game Watched by Several Hundred Spectators—The Belleville Club Sustain Their Reputation

About three hundred base-ball enthusiasts assembled at the Exhibition Park yesterday afternoon to see the Mapleleafs walk away from the crack Peterboro' nine. At the start the Leafs secured a good lead which they kept throughout the game. The local boys demonstrated their ability to hit by pounding McCabe steadily from start to finish although they were somewhat aided by the loose fielding of the Peterboro team. The chief features of the game were the fielding of Downs and Thompson, the stick work of Byrne and Strobel and the clever work of Bradford in the box. The latter struck out twelve men and held the visitors down to a few scattered hits. McCabe, who is a one armed man put up a strong game. The leafs have arranged games with Cobourg Kingston and Watertown and expect to hold their own with all three.

SPORTING WORLD.

The Trenton and Deseronto horse races will be held the first week in September.

Geo Leavens, the well known dog fancier, yesterday had the misfortune to loose a valuable cocker spaniel.

The yacht Onward will sail for Bay of Quinte from Rochester next Tuesday for another try for the Fisher cup.

The Quinte lacrosse club is again in practice. They expect to have several more games before the close of the season.

Mr W B Palmer, Woodstock, will judge spaniels at the Ottawa dog show, and Mr. Andrew Laidlaw will judge the same classes at the Kingston show.

The Peterboro'. lacrosse club asked the Kingston team to give them a match yesterday in Belleville, but as usual the Limestone players found an excuse for declining.

The members of West End Quoit Club say that if the Royal Club cannot find a man amongst them to meet Claus of Belleville, they are ready to furnish one of their club who will pitch the Belleville man for love or money.—Kingston News.

A Kingston man who travels a good deal says that the prevailing opinion of the Kingston Lacrosse Club is that it is very slow. They talk quite a lot in the press, but never seem anxious to back up their words. This, however, is a wrong impression, as the Kingston boys are always open for engagements.—Kingston News. Of course they are, but they always take care to make their terms such as they know will not be accepted. What the Kingston traveller heard exactly sets forth the situation.

Whig:—"Yesterday J. E. Hutcheson and two gentlemen from the United States fished in the vicinity of the Brothers Islands, and caught fifty black bass. He never before saw such large shoals of bass as were now about the Brothers' Island On a sand bar covered by only ten feet of water there are, at times, thousands of fish which can be caught readily with a fly."

Mr. Gooderham, of Toronto, is now building a magnificent new steel frame steamyacht in which to go to the World's Columbian Exposition. Numbers of yachts for this purpose are being constructed all over the North American continent. There will be a regular place and position assigned to each one during their stay at Chicago while the fair is being held.

FOR THE MISSION FIELD

Rev. T. N. Scott to be Ordained in Belleville Sept. 1st

At a special meeting of the Kingston Presbytery held in Kingston on Tuesday. T. B. Scott a recent graduate of the theological college here, also a graduate in medicine, under appointment as a missionary to Ceylon under the board of foreign missions, was present and asked to be ordained by the presbytery, expressing a preference to be set apart in John street church, Belleville, where he had just professed faith in Christ. As this was a special meeting no formal appointment could be made, but it was agreed to ask the moderator to summon a special meeting for the purpose of ordination, to be held in Belleville on September 1st, and the following provisions and arrangements were made. Rev. Mr. McEachren to preach, and Rev. Mr. Houston to address the newly ordained missionary. It was left to Rev Mr. George, pastor of John street church, to get Prof. Maclennan or some other member of the board of foreign missions or others to speak to the people on the occasion. The presbytery then adjourned.

KILLED BY A HORSE

A Young Victim Jirked Into Eternity in a Jiffy

On Friday evening last a 12-year old son of Mr. Andrew Perrigo, of Round Lake was taking a horse to pasture. On his way he sat on a log to eat a carrot at the same time fastening the halter shank around his wrist. The horse became frightened and ran away dragging the little boy after him and pitching him in the air; on being thrown up he came down with such force that his skull was fractured against a stone. On being found by his mother, who was a witness of the sickening spectacle, all his clothing was torn off and life was extinct. The funeral obsequies were performed at Round Lake Sunday, Rev. Father Borremans, of Eganville officiating.

Petitions in Favor of the old Vets' Claims Coming in Fast

Petitions to be laid before the Queen and British Parliament, in the interest of the surviving veterans and widows of the Canadian rebellion of 1837-8-9, residing in the United States and Canada, have been received by me from London, Lucan and other sections of Ontario and will be mailed to the British Government this week. 570 names of veterans are signed to the several petitions. About 30 per cent. of those alive a year ago, whose names I had registered, have died since. 50 per cent. of those now living will likely pass away during the coming year.

For four thousand years or more the world groaned, suffered and fumed about its corns, for their was no positive relief—no certain and painless cure until Dr. Scott Putman gave to the world his great Corn Extractor. If there is suffering now it is a result of carelessness, for the remedy is at hand. Try Putman's Corn Extractor. It is sure painless, and prompt. Beware of substitutes. N. C. The Cool Man

The cool man is inspired by his superior merits. His head is borne erectly, his chest is thrust out proudly, his stride is victorious, and his entire manner is condescendingly gracious. He has the air of owning the earth. He does not puff and pant and snort, clumsilly mop his brow with his forefinger, made into a crook, pluck viciously at part of his clothes sticking to his body, scowl at every one he meets, or cast a maniacal leer in the direction of the friend who salutes him. He is chipper and gay and springy. He smiles affably in the face of the world, nods familiarly to the thermometer, and comments cheerfully upon the pleasant weather. He envies no one, is at enmity with no one. He is happy and contented. All as the result of buying a light coat and vest at the Oak Hall and keeping cool.

HOOD'S PILLS cure Habitual Constipation by restoring peristaltic action of the alimentary canal.

A PROLIFIC SOURCE OF DISEAE.—trifling indiscretion in diet may lay the foundation of confirmed dyspepsia, and there is no fact in medical science more positively ascertained or more authoritatively asserted than that dyspepsia is the parent of a host of bodily ills, not the least of which is contamination of the blood and the maladies of which that is the direct consequence. Their original cause is however thoroughly eradicated from the system by Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure, a medicine which only requires regularity and persistence in it use to cure dyspepsia and many other ills that arise from it. No detelerious mineral ingredient is contained in it, and though its action is thorough in cases of costiveness it never produces griping pains in the abdominal region, or weakens the bowels like a violent purgative. It invigorates the system through the medium of the increased digestive and assimilative activity which it promotes and is also a most efficient remedy for kidney disease scrofulous and all diseases of the blood femole weakness, &c., &c Price $1.00 Sample bottle 10 cents. Ask for Northrup & Lyman's Vegetable Discovery and Dyspeptic Cure. The wrapper bears a fac-smile of their signature. Sold by all medicine dealers.

If you have a cough or cold do not neglect it; many without a trace of that hereditary disease have drifted into a consumptive grave by neglecting what was only a slight cold. Had the used Bickle's Anti-Consumptive Syrup before it was too late their lives would have been spared. Mr. A. W. Levy Mitchell, writes. "I think Bickel's Anti-Consumptive Syrup the best preparation on the market for coughs and severe colds. About six years ago I caught a severe cold which settled on my lungs, and for three months I had a cought. I had a physician attending me, but gradually grew worse until I was on the verge of Consumption, and had given up hopes of being cured, when I was induced to try Bickel's Syrup. Before I had taken one bottle I found myself greatly relieved, and by the time I had finished the second bottle I was completely cured. I always recommend it for severe colds and consumption."

SWITCHMEN STILL OUT.

THE COMPANIES CLAIM TO HAVE PLENTY OF MEN.

The Strikers Say That the Men Will Not Work When the Time Comes and That the Companies Are Deceived—To-Day Will Test the Dispute Either One Way or the Other.

BUFFALO, N.Y., Aug. 20.—Unless new complications are developed before morning in the switchmen's strike, which closes its first week with midnight last night, the public may fairly measure the accuracy of the statements made by the affected companies of the movement of freight, which shall be accomplished to-day. Each of the companies has definitely stated and repeated that they had at hand enough men to replace all the strikers and to handle all their freight if protection should be assured to the new switchmen.

The 4th Brigade of 2000 men was placed on duty, but the railroad officials held that 2000 men were not sufficient to protect their new employes in the movement of traffic on the 600 miles of yard tracks which lie within this city and vicinity. Hence 5000 more troops were ordered and are here. Their assignment to duty at all points where the tied-up companies feel there might be danger has been going forward to-day. Last night every command has been placed. Every militia man will be picketed in the morning and under these conditions, which meet all the demands of the roads, their officials must to-morrow be held to practical demonstration that their reiterated claims of abundant help have been well founded.

Careful enquiry through the strike districts has demonstrated beyond reasonable doubt to Associated Press correspondents that the companies have at hand the men they have claimed. During the afternoon and night there have, to be sure, been circulating rumors and statements from the men who are out in effect that many of the men being held in readiness by the companies are now being restrained of their liberty. An accompanying statement from the same sources is that the men were employed in the east to work on western roads and they did not know until their arrival here that their service here was to be on the tied up roads.

In the Central yards personal observation of the men who are waiting leads to conclusions opposed to the strikers. The statements that the new men are restrained of their liberty, the Lake Shore road—one of the Central's western feeders—has enough men in its yards last night to man the usual number of switching engines. They arrived Thursday night and will undoubtedly be put at work in the morning. The Erie yesterday moved five trains with ten switching crews, and have in quarters more than the number of men formerly employed in sending out the Erie's daily quota of 20 trains east bound. The Central Road is last night moving freight in its yards for the first time since the strike began. The Lehigh road has in one of its round houses men sufficient, the officials assert, to move its traffic under protection dan the Nickle Plate, the last road tied up, is possibly the only one of these affected which may not have secured new help. To-day will be the test day. The claims of the companies will be verified on the assertions of the strikers will be proven true. If the roads are not absolutely crippled the volume of traffic moved to-day must prove that fact. Then it becomes only a question how long the militia shall be maintained in the yards; or how soon the strikers concede their course to be hopeless.

THE G.T.R. AFFECTED.

They Have Refused to Handle Freight For Tied-Up Roads.

BUFFALO, Aug. 20.—Mutterings have been heard all day among the Grand Trunk switchmen who crossed the International bridge with trains of freight for eastern connections. Most of the men are Canadians and all of them live at Fort Erie or Victoria on the Canadian side, or at Amogaria, one mile in the interior, where the yards and round houses of the company are located.

An incident occurred early this morning that serves to show the temper of the Grand Trunk switchmen. A New York Central engine with a crew of non-union men was attempting to move a train of live stock from Black Rock to East Buffalo. The movement was quickly noticed by the switchmen in the Lackawanna yard, and the news spread like wildfire all over Black Rock. It was at the time when the shop employes were on their way to work, and almost instantly men began to mass at the Amherst-street crossing. The green switchmen on the stock train became excited and the train was obliged to stop on the crossing while a clumsy novice was attempting to turn a switch to let it pass on the east bound track. Just as the wheels began to move a lusty Grand Trunk switchman rushed out of the throng and turning to one of the Erie strikers asked in an excited voice: "Shall I cut her for them, Pat?"

The crowd cheered and cried, "Go on, go, pull the pins, cut her in a dozen places."

But the striker slowly advanced and shook his head. Placing one hand on the Canadian's shoulder and pointing significantly across the river to where the smoke of a dozen engines raised the Amagara yards, he said: "no Jack, not here, there is no place for you to work. See that you do it when the time comes. 150 cars of Erie freight are standing in the Grand Trunk yards at Victoria and Amagara. The company received them, but the switchmen refused point blank to handle one of them. In marked contrast with usual arbitratary description of the great Canadian system the refusal was received by the officials in silence and no attempt was made to force the switchmen to handle the freight. The significance of this action on the part of the Trunk men cannot be ever estimated, as it shows that they are thoroughly organized and in accord with the American Federation. They seem to have no hesitancy in forcing an issue and there can be little doubt that they are ready to meet it at a moment's warning. The property interests of the Grand Trunk and Michigan Central at Victoria and Amagara are very large. The former corporation owns a large ice-house, where cars of fresh meat are re-iced. Should the acts of violence that characterized the outbreak of the strike on the Lehigh and Erie at East Buffalo be repeated in the Canadian yards great destruction of property would follow, as there is no means whatever of coping with the fire.

It is by no means improbable that within a few days the waters of the Niagara River at this point may reflect the red coats of the Canadian Grenadiers on one side and the blue uniforms of the New York State Guards on the other.

How Toronto Railroads Feel.

All day yesterday there was a good deal of excitement in Grand Trunk circles over the report that employes would be required to move cars from Buffalo in place of the men who are now on strike there.

Last night a reporter of The World visited the Esplanade and had a quiet chat with two or three of the trainmen there. Said number one, "The Grand Trunk is no fool and is not likely to precipitate trouble by taking part in a funeral in which they have no interests. We were all notified to-day that Mr. Arthur of the Brotherhood of Locomotive Engineers had gone over there to see what could be done. Personally I do not think he can have much influence. But we all know him and have confidence in him and whatever he may say will carry weight with it."

Another railroader, a man who has been 25 years in the service, said: "There have been all sorts of yarns flying round, but I take no stock in any of them. The Grand Trunk knows too much to meddle with what don't belong to it and I don't think it will. But see here, if it were foolish enough to go into this thing it would be making a terrible mistaken. We all sympathize with the Buffalo boys and no action of ours shall in any way put them to extra trouble or difficulty. They are railroaders and so are we, and no one knows it better than the Grand Trunk. Fair play is bonny play, and we propose to have bonny play at all costs.

A Big Bill for Erie County.

BUFFALO, Aug. 20.—Erie county is now largely interested in the railroad strike, being called upon to foot a bill of nearly $20,000 a day to protect the property of the railroads. It is estimated that in all 8000 of the National Guard have been called to Buffalo at an average expense of about $2.50 per day per capita. In addition we may have to pay damages for property destroyed and for the deportation of workmen who profess to have been lured here by false representation.

The men are angry at the action of the state and county in calling out so many troops and incurring, so they say, a needless expense to benefit one of the parties—and that the richer of the two—without compelling them to submit the questions in dispute to arbitration.

The massing here of the troops for the protection of the railroad property and its imported non-union workmen is the trump card played by the roads. They say they can soon end the strike if they have all the protection they need.

Vice-President Webb Sanguine.

BUFFALO, Aug. 20. — Vice-President Webb of the New York Central thinks the backbone of the strike is broken. His men, of course, are not of his opinion, and there is ample room for a diversity of views. The men say the battle is as yet beginning, and that it will include firemen, trainmen, engineers and conductors, as necessity may require, until victory is won. The switchmen profess to be able to hold out for a month or two at least, while the companies say: "We can stand it if they can." From a union standpoint the present strike differs from that of two years ago in that it has been regularly called and fanctioned by the grand master. This strike will be a duel to the death between organized labor and its sworn foes.

The Union's View.

CHICAGO, Aug. 20.—Grand Secretary Simsrot of the switchmen's union said last night: "As long as the situation in Buffalo remains in its present shape there will be no general strike ordered along the entire lines of the affected roads. Even in case the companies should succeed in raising the blockade at Buffalo with non-union men no strike will be ordered in Chicago until it is decided upon at a mass meeting of all the local unions. From present indications I am inclined to think there will be no necessity for such a move, as I think the railroad companies see that the spirit manifested by other organizations of railroad employes is in favor of the strikers, and that the companies will make the concessions asked before they will precipitate a general strike of all the organizations."

Referring in this connection to the concessions asked of the railway companies Mr. Simsrot said: "Anyone would naturally think to read the interviews with the officials of the railroads that the switchmen were making demands which, if conceded, would wreck their companies. Nothing, however, is further from the truth. The switchmen are asking 27 cents per hour as a maximum rate of wages and that for men who work at night. The day men are only asking 26 cents per hour. Now a comparison of these wages with those received by almost any class of skilled mechanics will, I think, demonstrate the justice of such demands."

The distribution of the grand officers of the organization indicates that arrangements are being made for a long and determined fight. Vice-Grand Master Downey has taken up quarters in New York city, and Mills W. Barrett, grand organizer, has been ordered to Cleveland to prepare for the expected battle there.

THE BORDEN TRAGEDY.

A New Theory for Solving the Fall River Mystery.

FALL RIVER, Mass., Aug. 20.—The Government is getting its evidence in shape for presentation next Monday. At 9 o'clock yesterday all the policemen employed on the case held a consultation at police headquarters.

It has been learned from reliable authority the State will attempt to prove that Miss Lizzie's motive in committing the crime, if she is guilty, was to gain the estate: that the family had recently been in discussion relative to the making of a will, and that Mr. Borden had already taken preliminary steps in that direction by having commenced to take an inventory of his property. At this family consultation he informed his daughters that it was his intention to draw a will in favor of his wife, because she had been to him a faithful and devoted companion, and to them a true and loving mother, and that in view of these facts he felt that she deserved more at his hands than a widow's dower.

To this declaration of Mr. Borden the state will attempt to prove that the daughters were opposed, and that to it is due the estrangement which is known to have existed among the members of the household. It is thought that this important piece of testimony can be supplied by John V. Morse and Emma Borden.

Inspector Hathaway of the New Bedford police has been at work on this part of the testimony for several days. He has found out much to strengthen the Government case, and to-night the feeling in police circles is stronger than ever that Lizzie is guilty.

A BRITISH CRITICISM OF SIR CHARLES TUPPER

The Statist, the leading financial journal of Great Britain, has the following criticism of Sir Charles Tupper's article in the Fortnightly:

Sir Charles Tupper pleads for preferential tariffs in favor of the colonies as a means of bringing about Imperial federation. Colonial statesmen ought to understand that pleading of this kind is utterly useless. No British Government would venture to make such a proposal, and, if it did, no House of Commons likely to be elected in our time would adopt it. We will go further and say that, if the proposal were adopted, it would not benefit the colonies as Sir Charles believes. Any one who will take the trouble to read the article will see, indeed, that Sir Charles misunderstands completely the meaning of the advantages of international trade. For example, he tells us that in 1890 the United Kingdom took from the United States ninety-seven millions sterling worth of their products without the imposition of a farthing of duty. On the other hand, the United States took from the United Kingdom only thirty-two millions worth; and he seems to think that this proves our policy to be utterly wrong. Does he really suppose, then, that we buy from the United States out of sheer friendship? Is it not clear that our purchases from that country are made because the United States can sell to us more advantageously than any other country? And, on the other hand, is it not clear that the United States are injuring not us but themselves in restricting their purchases from this country? They are making their own people buy dear home manufactures when they could have good and cheap manufactures from us.

EDITORIAL NOTES.

THE binder twine combine have been making strenuous efforts to prevent the Ontario Government from putting into effect their decision to have twine made in the Central prison, but it is not likely the combinesters will succeed. If this industry is established in the Central it will have the effect of making the prisoners earn their living while there, and of relieving the farmers of the burden of the twine monopoly that now keeps up the price very considerably above the price at which it can be profitably made and sold.

THE losses and accidents in the recent British naval manœuvres were so numerous and serious that the administration became alarmed and ordered their cessation. This does not speak well for the condition of the British fleet. If these vessels cannot be controlled in the time of peace what would happen amid the excitement of war? The Salisbury Government seems not only to have embroiled the country in disputes with half the nations on earth, but to have also mismanaged the fleet and left the country without efficient naval protection. Salisbury was evidently not such a howling success as his admirers assert, and half of Gladstone's work will consist in rectifying his predecessor's mistakes.

DR. TALMAGE IN EUROPE.

A SERMON ON THE EFFICACY OF USEFUL SUFFERING.

What King can Summon so M[illegible] Subjects as Christ?—Eloquent Dis[illegible] he

Text: "It Behoved Christ [illegible]

LONDON, Aug. 16.—Rev. [illegible]'s European preaching tour is [illegible] a close. During the week he [illegible] reached three or four times in different cities, following out the programme already announced, and everywhere meeting large and enthusiastic audiences. This week he speaks at Leeds, Bradford, Sheffield and Derby. The subject chosen for to-day is "Useful Suffering," the text taken being Luke 24:46, "It behoved Christ to suffer."

There have been scholars who have ventured the assertion that the pains of our Lord were unnecessary. Indeed, it was a shocking waste of tears and blood and agony, unless some great end were to be reached. If men can prove that no good result comes of it, then the character of God is impeached, and the universe must stand abhorrent and denunciatory at the fact that the Father allowed the butchery of His only begotten Son. We all admire the brave six hundred men described by Tennyson as dashing into the conflict, when they knew they must die and knew at the same time that "some one had blunder'd;" but we are abhorrent of the man who made the blunder, and who caused the sacrifice of those brave men for no use. But I shall show you, if the Lord will help me, this morning, that for good reasons Christ went through the torture. In other words, "It behoved Christ to suffer."

1. In the first place I remark, that Christ's lacerations were necessary, because man's rescue was an impossibility except by the payment of some great sacrifice. Outraged law had thundered against iniquity. Man must die unless a substitute can intercept that death. Let Gabriel step forth. He refuses. Let Michael, the Archangel, step forth. He refuses. No Roman citizen, no Athenian no Corinthian, no reformer, no angel volunteered. Christ, then bared His heart to the pang. He paid for our redemption in tears and blood, and wounded feet, and scourged shoulders, and torn brow. "It is done." Heaven and earth heard the snap of the prison bar. Sinai ceased to quake with wrath the moment that Calvary began to rock in crucifixion. Christ had suffered. "Oh!" says some man, "I don't like this doctrine of substitution; let every man bear his own burdens, and weep his own tears and fight his own battles." Why, my brother, there is vicarious suffering all over the world. Do not your parents suffer for you? Do you not suffer sometimes for your children; Did not Grace Darling suffer for the drowning sailors. Vicarious suffering on all sides! But how insignificant compared with this scene of vicarious suffering.

Was it for crimes that I had done
He groaned upon the tree?
Amazing pity, grace unknown,
And love beyond degree.

Christ must suffer to pay the price of our redemption.

But I must remark again: The sufferings of Christ were necessary in order that the world's sympathies might be roused. Men are won to the right and good through their sympathies. The world must feel aright before it can act aright. So the cross was allowed to be lifted that the world's sympathies might be aroused. Men who have been obdurated by the cruelties they have enacted, by the massacre they have inflicted, by the horrors of which they have been guilty, have become little children in the presence of this dying Saviour. What the sword could not do, what Juggernauts could not subdue, the wounded hand of Christ has accomplished. There are this moment millions of people held under the spell of that one sacrifice. The hammers that struck the spikes into the Cross have broken the rocky heart of the world. Nothing but the agonies of a Saviour's death-throe could rouse the world's sympathies.

I remark again: "It behoved Christ to suffer," that the strength and persistence of the divine love might be demonstrated. Was it the applause of the world that induced Christ on that crusade from heaven? Why, all the universe was at His feet. Could the conquest of this insignificant planet have paid Him for His career of pain, if it had been a mere matter of applause? All the honors of heaven surging at His feet. Would your Queen give up her throne that she might rule a miserable tribe in Africa? Would the Lord Jesus Christ, on the throne of the universe, come down to our plant if it were a mere matter of applause and acclamation? Nor was it an expedition undertaken for the accumulation of vast wealth. What could all the harvests and the diamonds of our little world do for Him whose are the glories of infinitude and eternity? Nor was it an experiment—an attempt to show what He could do with the hard-hearted race. He who wheels the stars in their courses and holds the pillars of the universe on the tips of his fingers needed to make no experiment to find what he could do. Oh! I will tell you, my friends, what it was. It was undisguised, unlimited, all-conquering, all-consuming, infinite, eternal, omnipotent love, that opened the gate, that started the star in the East, with finger of light pointing down to the manger; that arrayed the Christmas choir above Bethlehem, that opened the stable door where Christ was born, that lifted him on the Cross, Love thirsty at the well. Love at the sick man's couch. Love at the cripple's crutch. Love sweating in the garden. Love dying on the Cross. Love wrapped in the grave. You cannot mistake it. The blindest eye must see it. The hardest heart must feel it. The deafest ear must hear it. Parable and miracle, wayside talk and seaside interview, all the scenes of his life, all the suffering of his death, proving beyond controversy that for our ingrate earth God yearned with stupendous, inextinguishable love.

But I remark again: "It behoved Christ to suffer" that the nature of human guilt might be demonstrated. There is not a common-sense man in the house to-day that will not admit that the machinery of society is out of gear, that the human mind and the human heart are disorganized, that something ought to be done, and done right away for its repair and readjustment. But the height, and depth, and length, and breadth, and hate, and recklessness, and infernal energy of the human heart for sin would not have been demonstrated if against the holy and innocent One of the Cross it had not been hurled in one bolt of fire. Christ was not the first man that had been put to death. There had been many before Him put to death; but they had their whims, their bodies, their sins, their inconsistencies. But when the mob outside of Jerusalem howled at the Son of God, it was hate against goodness, it was blasphemy against virtue, it was earth against heaven. What was in that innocent and loving face of Christ that excited the vituperation and the contumely and scorn of men? If He had bantered them to come on, if He had laughed them into derision, if He had denounced them as the vagabonds that they were, we could understand their ferocity; but it was against inoffensiveness that they brandished their spears, and shook their fists and ground their teeth, and howled, and scoffed, and jeered, and mocked. What evil had He done? None. Whose eyesight had He put out? None; but He had given vision to the blind. Whose child had He slain? None; but He restored the dead damsel to her mother? What law had He broken? None; but He had inculcated obedience of government. What foul plot had He enacted against the happiness of the race? None; He had come to save a world. The only cruelty He ever enacted was to heal the sick. The only ostentation He ever displayed was to sit with publicans and sinners, and wash the disciples' feet. The only selfishness He ever exhibited was to give His life for His enemies. And yet, all the wrath of the world surged against His holy heart. Hear the red-hot scorn of the world hissing in the pools of a Saviour's blood! And standing there to-day, let us see what an unreasonable, loathsome, hateful, blasting, damning thing is the iniquity of the human heart. Unloosed, what will not sin do? It will scale any height, it will fathom the very depth of hell, it will revel in all lasciviousness. There is no blasphemy it will not utter, there are no cruelties on which it will not gorge itself. It will wallow in filth, it will breathe the air of charnel houses of corruption, and call them aroma; it will quaff the blood of immortal souls and call it nectar. When sin murdered Christ on the Cross, it showed what it would do with the Lord God Almighty if it could get at him. The prophet had declared—I think it was Jeremiah—had declared centuries before the truth, but not until sin shot out its forked tongue at the crucifixion and tossed its sting into the soul of a martyred Jesus was it illustrated, that "the heart is deceitful above all things, and desperately wicked."

Again: "It behooved Christ to suffer," that our affections might be excited Christward. Why, sirs, the behavior of our Lord has stirred the affections of all those who have ever heard of it. It has hung the art-galleries of the world with such pictures as Ghirlandajo's "Worship of the Magi;" Giotto's "Baptism of Christ;" Holman Hunt's "Christ in the Temple;" Tintoret's "Agony in the Garden;" Angelo's "Crucifixion;" and it has called out Handel's "Messiah," and rung sweetest chimes in Young's "Night Thoughts," and filled the psalmody of the world with the penitential notes of sorrow and the hosannas of Christian triumph. Show me any other King who has so many subjects. What is the most potent name to-day in the United States, France, in England, in Scotland, in Ireland? Jesus. Other kings have had many subjects, but where is the king who has so many admiring subjects as Christ? Show me a regiment of a thousand men in their army, and I will show you a battalion of ten thousand men in Christ's army.

Show me in history where one man has given his property and his life for anyone else, and I will show you in history hundred and thousand of men who have cheerfully died that Christ might reign. Aye, there are a hundred men in this house, who, if need were, would step out and die for Jesus. Their faith may now seem to be faint, and sometimes they may be inconsistent; but let the fires of martyrdom be kindled, throw them into the pit, cover them with poisonous serpents, pound them, flail them, crush them, and I will tell you what their last cry would be; "Come, Lord Jesus, come quickly!"

Oh, yes! the Lord Jesus has won the affections of many of us. There are some of us who can say this morning, "Lord Jesus, my light and my song; my hope for time, my expectation for eternity." Altogether lovely thou art. My soul is ravished with the vision. Thou art mine. Come, let me clasp thee. Come life, come death, come scorn and pain, come whirlwind and darkness, Lord Jesus, I cannot give thee up. I have heard thy voice. I have seen thy bleeding side. Lord Jesus, if I had some garland plucked from heavenly gardens, I would wreathe it for thy brow. If I had some gem worthy of the place, I would set in thy crown. If I had seraphic harp, I would strike it in thy praise. But I come lost and ruined and undone, to throw myself at thy feet.

No price I bring:
Simply to Thy cross I cling.

Thou knowest all things. Thou knowest that I love thee.

But I remark again: "It behoved Christ to suffer" that the world might learn how to suffer. Sometimes people suffer because they cannot help themselves; but Christ had in his hands all the weapons to punish his enemies, and yet in quiescence he endured all outrage. He might have hurled the rocks of Golgotha upon his pursuers, he might have cleft the earth until it swallowed up his assailants; He might have called in reinforcement or taken any thunderbolt from the armory of God Omnipotent, and hurled it seething and fiery among His foes; but He answered not again.

O my hearer! has there ever been in the history of the world such an example of enduring patience as we find in the Cross? Some of you suffer physical distresses, some of you have long-life ailments, and they make you fretful. Sometimes you think that God has given you a cup too deep and too brimming. Sometimes you see the world laughing and romping on the highways of life, and you look out of the window while seated in invalid's chair.

I want to show you this morning one who had worse pains in the head than you have ever had whose back was scourged, who was wounded in the hands and wounded in the feet, and suffered all over, and I want that example to make you say, "Father, not my will, but thine be done." You never have had any bodily pain, and you will never have any bodily pain that equalled Christ's torture. "It behoved Christ to suffer," that he might show you how physically to suffer.

Some of you are persecuted. There are those who hate you. They criticise you. They would be glad to see you stumble and fall. They have done unaccountable meanness toward you. Sometimes you feel angry. You feel as if you would like to retort. Stop! Look at the closed lips, look at the still hand, look at the beautiful demeanor of your Lord. Struck, not striking back again. Oh! if you could only appreciate what He endured in the way of persecution, you never would complain of persecution. The words of Christ would be your words: "Father, if it be possible, let this cup pass from me; but if not thy will be done." "It behoved Christ to suffer" persecution, that He might show you how to endure persecution.

Some of you are bereft. It is no random remark, because there is hardly a family here that has not passed under the shadow. You have been bereft. Your house is a different place from what it used to be. The same furniture, the same books, the same pictures, but there has been a voice hushed there. The face that used to light up the whole dwelling has vanished. The pattering of the other feet does not break up the loneliness. The wave has gone over your soul, and you have sometimes thought what you would tell him when he comes back; but then the thought has flashed upon you, he will never come back! Ah! my brother, my sister, Christ has sounded all that depth. Jesus of the bereft soul is here to-day. Behold him! He knows what it is to weep at the tomb. It seems to me that if all storms of the world's sorrow were compressed into one sob, and that sob were uttered to two words: "Jesus wept."

I close my sermon with a doxology: "Blessing, and glory, and honor, and power be unto him that sitteth upon the throne, and unto the Lamb, forever. Amen, and Amen!"

Advertising a patent medicine in the peculiar way in which the proprietor of Kemp's Balsam for cough and colds does it is indeed wonderful. He authorized all druggists to give all those who call for it a sample bottle free, that they may try it before purchasing. The large bottles are 50c and $1. We certainly would advise. It may save you from consumption.

A Pleasant Herb Drink

The best cure we know of for constipation and headache is the pleasant herb drink called Lane's Family Medicine. It is said to be Oregon grape root, combined with simple herbs, and is made ready for use by pouring boiling water onto the dried roots and herbs. It is remarkably efficacious in all blood disorders and is now the sovereign remedy with ladies for clearing up the complexion. Druggists sell the package at 50c and $1.

For all forms of female weakness Dr. Williams' Pink Pills are an unfailing specific. Mr. Thomas Strachan, Postmaster, Roballion write: "My daughter has been ill for the last four years with female weakness, and had been attended by four of the best doctors in our section. She began the use of Dr Williams Pink Pills, and two boxes have done her vastly more good than all the medicines she took from those doctors.

What She Said

Mrs. R. Peck, 15th street, New York City, visited Canada last year, and had the good fortune to pick up something which not only suited her, but her neighbors also. Writing the manufacture of Nerviline she says:—"I bought three bottles of Nerviline while in Canada and treated my neighbors to some of it, and all think it the best medicine for internal or external pain they have ever used." Nerviline deserves such commendation, for it is a most powerful, penetrating, and certain remedy for pain of all kinds. Take no substitute.

PAR[illegible] the power of acting specifically upon the diseased organs, stimulating [illegible] the dormant energies of the system thereby removing disease. In fact, great is the power of the medicine to cleanse and purify that diseases of almost every name and nature are driven from the body. Mr. D. Carswell, Carswell P. O., Ont. writes: "I have tried Parmelee's Pills and find them an excellent medicine, and one that will sell well.

A Cure For Constipation And Headach

Dr. Silas Lane while in the Rocky Mountains discovered a root that when combined with other herbs makes an easy and certain cure for constipation. It is in the form of dry roots and leaves, and is known as Lane's Family Medicine. It will cure sick headache in one night. For the blood, liver and kidneys, and for clearing up the complexion it does wonders. Druggists sell it at 50 cents a package.

Weighed in the balance, but not found wanting. Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure has been weighed in that just balance, the experience of an impartial and intelligent public. Both remedially and pecuniarily it is a success. Its sales constantly increase, testimony in its favor is daily pouring in. The question of its efficacy in Dyspepsia, Liver complaint, Kidney Ailments, and for Blood Impurity is decided.

Now is the time to take a good tonic medicine. Hood's Sarsaparilla possesses the greatest merit, and [illegible] popular favor.

Cured Female Weakness

Mr. Hugh Caldwell, Clydesdale, Ont., writes:—"My daughter was under the care of doctors for more than a year for female weakness, without getting relief. I then procured Pink Pills and they cured her." All dealers 50 cents a box or 6 boxes for 2.60, or mailed on receipt of price. Dr. Williams' Med. Co., Brockville, Ont., and Schenectady, N. Y.

The highest praise has been won by Hood's Pills for their easy, yet efficent action.

As an after dinner pill, to strengthen the stomach, assist digestion, and correct any bilious tendencies, Ayer's pills are considered the best. Being sugar coated, they are as agreeable as any confection, and may be taken by the most delicate.

How Mr. W. D. Wentz of Geneva, N.Y., was cured of the severest form of dyspepsia? He says everything he ate seemed like pouring melted lead into his stomache. Hood's Sarsaparilla effected a perfect cure. Full particulars will be sent if you write C Hood & Co., Lowell, Mass.

the minor offices have been given to suckling young patricians, in order to qualify them to take the places of the old gang when the latter are too old for service.

"The appointments of Mr Asquith (Home Secretary), Mr. Acland (Vice-President of the Council of Education) and Mr. Arnold Morley (Postmaster-General) are regarded almost as insults by the Radicals. None of these gentlemen, with the exception of Mr. Arnold Morley, has ever taken a prominent part in the business of the House.

"These appointments are looked upon as little Gladstonian caprices, and the prospect is not regarded as favorable by the Liberal wire-pullers.

"Mr. Gladstone is really far less strong than he is reported to be by his friends, and bets are freely made that his Ministry will not last beyond next midsummer.

"In the composition of his Cabinet he has scarcely consulted his political lieutenants, and the Premiership is now practically a commission, the Commissioners being Mrs. Gladstone, their daughter, Mrs. Drew; their son Herbert, Mr. Arnold Morley and Sir Algernon West, with the result that the Administration is entirely composed of the old gang and their spawn."

THEY DIED OF FRIGHT.

Lamentable Scenes in the Cholera Districts of Russia.

ST. PETERSBURG, Aug 20.—The horrors of a frightful storm have been added to the misery and suffering caused by the cholera at Nijni Novgorod. The storm was one of the most frightful that has visited that region. It came sweeping over the town with a force and fury that many buildings were unable to resist. The cholera hospital was full of patients, many of them in a dying condition. As they heard the roar of the hurricane some of them actually died of fright. The terrible noise of the approaching storm was soon followed by the storm itself, which crushed in a large part of the cholera hospital like an eggshell, hurling the beds and wooden walls into a mass of ruin. From the debris came the shrieks and groans of the victims, a number of whom died while the work of rescue was going on.

Other buildings were also crushed, and the tents of the traders who had remained, notwithstanding the cholera, were scattered with their contents in all directions. The wretched people of Novgorod have had all the courage driven out of them by this latest visitation, and many of the superstitious declared that the Almighty had determined to destroy the city on account of the wickedness of the people. Those who could fly have deserted the place, while the people who remain can be seen in crowds at the shrines and in the churches, praying for the mercy of heaven.

Muley-Hassan's Chief Eunuch.

LONDON, Aug. 20.—A letter from Fez reports that the Sultan's chief eunuch, Bubilai, recently killed a little negro slave by slowly pouring boiling water over the child'd head. This child is the fifth slave murdered in this way.

Although the Moors are accustomed to cruelty, an appeal was made to the Sultan to punish Bubilai, but the Sultan declined to do so on account of the high market value of the eunuch.

The Vera Cruz offered to supply provisions, but Captain Andrews declared that he did not want anything. Captain Andrews reported that all was well with him and his craft.

"German Syrup"

A Throat and Lung Specialty.

Those who have not used Boschee's German Syrup for some severe and chronic trouble of the Throat and Lungs can hardly appreciate what a truly wonderful medicine it is. The delicious sensations of healing, easing, clearing, strength-gathering and recovering are unknown joys. For German Syrup we do not ask easy cases. Sugar and water may smooth a throat or stop a tickling—for a while. This is as far as the ordinary cough medicine goes. Boschee's German Syrup is a discovery, a great Throat and Lung Specialty. Where for years there have been sensitiveness, pain, coughing, spitting, hemorrhage, voice failure, weakness, slipping down hill, where doctors and medicine and advice have been swallowed and followed to the gulf of despair, where there is the sickening conviction that all is over and end is inevitable, there we [illegible] German Syrup. OLD ENGLAND DECLINES

TO DISCUSS ANY CHANGE OF MONETARY SYSTEM.

The International Conference Will Be Held, But the British Representatives Will Be Instructed to Decline to Discuss a Silver Standard.

LONDON, Aug. 20.—The Associated Press has high authority to state that the new Government will not interfere with the completed arrangements for the International Monetary Conference. No powers were vested in the delegates appointed by the Conservative Government to assent to anything that might be proposed at the conference without prior consultation with the treasury. The instructions given the delegates are exactly similar to those given the British delegates to the Paris conference in 1881.

They are charged to decline to discuss any proposals entailing an alteration of the monetary system of England, but they are authorized to consider proposals whereby India might join an influential league of states for fixing the ratio of silver. In official circles here the question is asked whether these instructions are likely to lead to any such practical results as will induce the United States Government to proceed with the conference.

Sir William Vernon Harcourt, the new Chancellor of the Exchequer, does not interest himself in the matter, and if the Washington authorities want to enlarge the basis open to the British delegates for discussion they ought to try to influence Mr. Gladstone, who has an open mind on the subject somewhat modified by views formed since 1881.

TO ROB HOTEL GUESTS.

Scheme of a Gang of Bell Boys Who Recently Went to New York.

NEW YORK, Aug. 20.—Ward Detectives Carey and Dourigan of the Mercer street station think they have discovered a scheme on the part of a gang of Western hotel boys to plunder guests of New York hostleries.

One alleged member of the gang, John Davis, has been arrested on suspicion of complicity in a $250 robbery at the New York Hotel, Broadway and Washington-place.

Davis, who is 18 years old, came to this city from St. Louis two months ago with five companions about his age. All had been bell boys in western hotels. Davis, the police say, admits that they came here to plunder hotels.

The plan, as the detectives tell it, was for some of the boys to get positions in hotels here and leave the doors of guests' rooms open, so the others might enter and plunder them.

Davis was the first to get a position at the New York Hotel. Two of his companions, the police say, hung around the place and Friday afternoon, when he was sent to the room of Major John Menger, a lawyer from Halifax, N.S., he left the door open. The room was stripped of the Major's wardrobe, jewelry and papers, the value of which was about $250.

When the detectives were notified of the robbery on Saturday they found that Davis had been discharged for drunkenness, and Monday afternoon, when they found him asleep in Madison-square Park, they arrested him. A handkerchief belonging to Major Menger, the police say, was found on him, whereupon he told of his scheme.

Davis said his companions were in a furnished room at No. 410 East Twentieth-street, kept by Mrs. Barnett, and that most of the stolen goods had been pawned at Stone's in Third-avenue, near Twenty-third-street. About $175 worth of plunder was recovered at the latter place, the police say.

When the detectives arrived at the room mentioned by Davis they found that the youths had gone with $100 worth of Mrs. Barnett's property.

Davis was remanded in Jefferson Market Police Court yesterday and also on Tuesday.

A FORGER SENT BACK.

Goldschmidt Handed Over to the American Authorities.

MONTREAL, Aug. 20.—Carl Goldschmidt, the Brooklyn-New York forger, who was arrested by the Canadian Secret Service officers at the demand of the United States Secretary of State, will leave here for New York in charge of a Deputy United States Marshal. Word was received yesterday by Mr. C. Doucet, deputy clerk of the crown, from Quebec that the Dominion Government had decided to surrender him at once. This is the first case where the United States Government has had a prisoner arrested in Canada by Canadian officers, and afterwards were represented at the extradition proceedings by the United States Consul General here. Before this the different state officers have always handled their own cases with the assistance of local consuls.

TORONTO TOPICS.

TORONTO, Aug. 20.—Detective Murray arrived in the city last evening with John A. Chrysler, who was convicted before Judge Robb at Simcoe a few days ago on a charge of fraud. Chrysler has turned Queen's evidence, and at the examination of Lawyer E. W. Kelly before the Police Magistrate on Tuesday next will tell what he claims to be the true story of the conspiracy to defraud the school teachers by means of an advertisement inserted in The Globe, offering a big salary to a tutor to travel for two years.

The Attorney-General's department have been requested to send a Government detective to Tilsonburg to inquire into a mysterious poisoning case in that town. For the past year some unknown scoundrel has been in the habit of scattering poison on the various streets and hundreds of valuable dogs and domestic animals have had their existence summarily terminated. A Citizens' Committee was formed to act in conjunction with the local police force and large rewards were offered by both the Town Council and by private individuals for the discovery of the culprit, but without the slightest light being thrown on the affair. The poisoner has been more than usually active of late, and as a result the Attorney-General has been appealed to. A detective will be sent to Tilsonburg in a few days.

William Ferns, a blacksmith at Vanatter, near Orangeville, came to Toronto six weeks ago and married a Queen City widow named Mrs. Greggs. They returned to Vanatter and started housekeeping, but their domestic bliss was short-lived. The other day Mrs. Ferns and her two incumbrances by a former husband packed up and deserted the bridegroom. She is now in Toronto and Ferns would like to get her address.

All through the Provinces the rapid ease of La Grippe, is causing great alarm. A report was received here to-day, of a new development of the disease, which is worse, perhaps than any other. Wm. Hanley of N. Y. City, died in terrible agony after sickness of only four days. His tongue swelled to such an extent as to make it impossible for him to close his jaws or swallow any food. The report is causing the people in this district to inquire into the noted Grip-cure, recently referred to in so many papers. In Cape Breton the disease has spread very rapidly and with fatal results, D. J. McKillop of L'Archeveque writes Feb. 11th that this cure has been tried in his neighborhood and with such success that all those residing there are obtaining a supply believing it to be the only remedy affording relief and effecting a certain cure. He finished his letter by asking for a large quantity of the Medicine (Dr. Morse's Indian Root Pills) to supply the demands of the community for the relief of LaGrippe.

For You r O

GENTLEMAN,—One of my little girls (aged 4 years) had been troubled with costiveness in its worst form since infancy. We tried different remedies which gave relief while using, but as soon as discontinued she would be worse than before using. She lost her appetite and was growing weak and delicate. A friend of mine who had used B B B with grand results for the same disease advised me to try it, and also the Burdock Pills, which we did. She did not take the contents of one bottle before it relieved her, and not only relieved her but permanently cured her, for she has not been troubled once since, and she is now eight years old

The "Myrtle Navy" brand of smoking tobacco has stood the test for over twenty years, and during that time it has lost no friends and gained scores of thousands This lengthened experience shows that is no mere passing fashion which has gained it the approval of the public, but its superiority in the essential qualities which make a first-class tobacco.

Advice to Mothers

Mrs. Winslow's Soothing Syrup has been used by millions of mothers for children teething for over fifty years, with perfect success. It relieves the little sufferer at once, produces natural, quiet sleep, and freeing the child from pain, and the young cherub wakes as bright as a button. It is pleasant to taste, soothes the child softens the gums, allays pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhoea, whether arising from teething or other causes 25 cts bottle.

A Question

How can we raise more corn on the acher? Why, of course by using Putman's Corn Extractor. Putnam's Painless Corn Extractor has given universal satisfaction, for it is safe, sure and painless. Like every article of real merit it has a host of imitators, and we would specially warn the public to guard against these dangerous substitutes offered for the genuine, Putman's Extractor. N. C. ONTARIO'S RAILWAY HUB.

Toronto the Centre of a Large Railway and Steamboat Business

A great modern city, like an octopus, gains strength only as its grasping powers increase. Those tentacles of steel, which, reaching out from Toronto in every direction draw men and merchandise to the city, have much to do with her prosperity. They do not, of course, produce prosperity and growth without other effort, but they are the foundation without which no effort could build up a great commercial community. The builders of Toronto knew this. If you look at the map of Ontario you will find that the great railway trunk lines of the Province radicate from Toronto like spokes from the hub of a wheel. This was not accomplished without expenditure of time and treasure. The city still pays the interest of the great grants made in the early days of railway building.

In the matter of steamship accommodation, which prior to the coming of the railways formed the principal mode of travel and for a time gave way before the latter, there has been a marked advance of late. To Hamilton, Grimsby, St. Catharines, Niagara, Wilson Park, Rochester, Chicago, Kingston and Montreal steamers ply steadily and form to lakeward the spokes of the wheel. Some of them are antiquated, it is true, but others are the very best product of the Clyde and of our own shipbuilders. The fleet is one to be proud of, and is so well patronized that there will doubtless be a steady increase in its efficiency.

But it is in local transportation that the greatest advances have been made of late and are still being made. In most American cities where the population is spread over a vast area compared with that occupied by European cities, the problem of local transportation is a pressing one. Toronto is one of the most wide-spread of them all, according to population, and the street railway traffic alone is almost equal to that of Vienna, the Austrian capital, with the population of a million. It was but natural, therefore, during the past few years while the city doubled in population, that the facilities of local transportation should also be greatly increased. The railways have established suburban trains for the more distant sections, and of this the most notable example is the Belt Line, operated by the Grand Trunk, which will open for traffic to-morrow, with special cars suitable for the traffic. The two loop lines run clear around the most populous portions of the suburbs, and the trains are scheduled to stop at no less than 40 stations. For very many years this service, running east and west along the Esplanade, so near the business center, will render an elevated railway or any similar monstrosity unnecessary. The conversion of the street railway to electricity, at a cost of millions of dollars, now going on, will furnish the citizens in the central portions all the rapid transit needed. Some of the routes established by Mr. Everett are apart from business interests, and, regarded solely from the tourist's point of view, exceedingly convenient. The belt line of the street railway, the cars of which as they pass round by Sherbourne, King, Spadina and Bloor are always crowded with visitors to the city, give one as fair an idea of Toronto as can be had in one hour spent in any other way. The efforts of the city car company have given an impetus to suburban electric transit. The newly-opened Toronto and Mimico Electric Railway, which winds along the lake shore past the Humber to Mimico, has already, it is said, secured a paying traffic, and will do much to popularise the beautiful Humber valley. Then there is the railway being put into shape from Toronto Junction to the city by way of Davenport. The Metropolitan, on Yonge street, are credited with a wish to greatly extend their tracks along the northern highway. It will thus be seen that within a few months the city will have a complete system of local transportation that would put to shame those of many old and well-established communities. One thing we lack—an Island railway. In conversation lately, Mr. Everett said he did not care to undertake the construction of a railway by Bathurst street and along the western sand bar to the Island, on the ground that it would not pay. He instanced the Coney Island road and some others as terrible examples. We feel confident that he is wrong, and that when he does make application for an Island franchise, as it is to be hoped he will, he will find the road but little less remunerative than the Belt Line. Toronto has done much during the past few years to prepare for a great future, and in no department more than in that of local transportation.—Toronto Globe.

SEASONABLE TOPICS

Various Matters in Which Everybody is Interested

It would be very interesting and instructive if your esteemed correspondent "W. J. S." would explain the principles of his theory that the refracted rays from the looking glass bring to view the two satellites of Mars. So many have tried his experiment and whether the result of optical illusion or not there certainly are the two attendant lights visible on either side of the planet. But several gentlemen whose scientific knowledge cannot be doubted object to this simplicity of solution, and deny that anything but the most powerful telescope can bring to the sense of sight the Moons of Mars. Is the appearance in the mirror phenomenal while Mars is in opposition, or is it simply a reduplication of the Planet itself? The power of refraction in making visible the spoon in the bottom of the opaque jar filled with water is of course known to every beginner, but the application of the same principle to the galaxy above wherein the

> "Infinite meadows of Heaven
> Blossom the lovely stars the sweet forget-nots of the Angels."

is novel at least to many. However the simple hint of "W. J. S." has given rise to more than conjectures and inquiry and has expanded and multiplied knowledge of that firmament and universe in which we are but one little world yet full of life and full of limitless possibilities as the power of knowledge grows from more to more. To all interested in "Mars" I would recommend for pleasant pastime "Mr. Stranger's Sealed Packet" by Hugh MacColl, published in the Red Letter Series. It is a piece of very clever imaginative realism and is quite fascinating in its simple narrative of exciting events and its description of manners and morals in the Planet Mars as witnessed and participated in by a terrestrial visitor. One cannot after reading shake off the impression of reality it leaves for many a day, although in literary style it does not equal the best.

While suggesting one book you may perhaps allow me space to recommend another of an entirely different kind and broader in its scope. To lovers of biographies, who are lovers of humanity, the "Life of Dr. George Wilson" of Edinburg by the late Sir Daniel Wilson, his brother, cannot fail to give pleasure and profit. Lovingly but not obtrusively the young Professor's life with its pathetic ending, surrounded by his students and his laboratory works, is depicted by a masterly hand and the letters of the heroic sufferer full of humor and of human nature are vividly interesting. What a singular coincidence it was that last week the three oldest men connected with the University of Toronto all died within the same 24 hours, the honoured President, Sir Daniel Wilson, the faithful Beadle and Armourer Sergeant McKimm and the Architect W. G. Storm whose work has been the admiration of both Canadians and visiting travellers for many years. Many graduates from all parts of Canada would have attended the funeral of the late Sir Daniel Wilson as a last mark of respect to his memory, had not arrangements for his interment been made so hurriedly in Toronto, but whether there or here we can unite in offering our tribute of loving remembrance and high esteem to the memory of one, who as a professor and as President wielded an incalculable though gentle influence for the good and the true over all with whom he came in personal contact. Dying in harness and in ripe and venerable old age he was an example of

> "How far the Gulf-stream of our life can flow
> Into the arctic regions of our lives."

CULLERS EXAMINATIONS

List of Successful Candidates Under Ontario Culler's Act

The following is a list of the successful candidates at the examinations for cullers' licenses held at Belleville under the Ontario Cullers Act, by the Department of Crown Lands on the 14th July last. The amination consisted in a series of questions bearing upon the culling and measurement of sawlogs, and of practical tests in the way of actual measurement and culling of logs provided for the purpose. The successful candidates are entitled to licenses authorizing them to cull and measure sawlogs cut upon Crown lands in Ontario:—

Misrepresentation.

There is only one Oak Hall in Belleville and we wish the buying public to carefully note that the store is in the same old stand, next door to Ritchie & Co. There have been a few sales lost to us this season by another store representing themselves as the Oak Hall, but for all the good these little mean tricks do them they are welcome, it all tells in favor of the square dealing Oak Hall in the long run. We only wish to call our customers, attention to the matter, so that they will be on their guard.

Louttit's Catarrh Cure is for sale wholesale and retail at Geen's Drug Store.

Those who are in the habit of taking an appetizer before meals could not do better as well for the effect as for economy's sake, than make use of "Indigenous Bitters." As Indigenous Bitters are slightly laxative, those who suffer from habitual constipation, will derive great benefit, by regularly taking them, as they keep the bowels in good order and in that way aid digestion

When you want your cistern pumps and waterpipes repaired send to Deacon and Doyle.

1000 Island Excursion

Rev. D. O. Crossley of the Tabernacle and Rev. F. B. Stratton of Trenton, announce a grand double trip excursion to the 1000 Islands to take place on Saturday, August 13th and 20th—two Saturdays in succession, returning on following Monday. Those wishing to do so may remain a week and return on second Monday. They have been fortunate in securing the best dates of the season at the park, and will no doubt have a large patronage each date. Tickets only $1.00 on steamer Hero. Boat leaves Belleville at 7 a.m.

Have you Thought of it

For four thousand years or more the world groaned, suffered and fumed about its corns, for their was no positive relief—no certain and painless cure until Dr. Scott Putman gave to the world his great Corn Extractor. If there is suffering now it is a result of carelessness, for the remedy is at hand. Try Putman's Corn Extractor. It is sure painless, and prompt. Beware of substitutes. N. C. One of those interesting events that go to make life happy has just transpired in Picton says the Times. We refer to the marriage of Robert Dobson, Esq, B. A., Principal of the Picton High School, and Mrs. Mary E. Stinson. Dr. McDiarmid, pastor of the First Methodist church performed the interesting ceremony. The newly-made pair left in the afternoon for their bridal trip.

Toronto World:—"I stake my professional reputation that there is not one tittle of evidence on any of the points necessary to make out the charge against my client," is the emphatic way in which Mr. Clute, Q.C., spoke of the case against Col. Ray, of Port Arthur. The officials of Port Arthur are anything but a happy family, charges and counter-charges having been made against each other, and District Attorney Lewis is to be cited for having endeavored to persecute instead of prosecuting Col. Ray by persistently objecting to bail being granted. He is charged with having stated that improper influence was used on the magistrates to procure Col. Ray's discharge at the preliminary examination.

The meeting on the Belleville Driving Park on Aug. 31st and Sept. 1st promises to be the most successful event of the season. In all likelihood the turf will be largely patronized by outside horsemen and no effort will be spared by the well-known Manager James E. Ketcheson, to have the races carried out in the most satisfactory manner. These races are not got up and and maintained for nothing. It requires the outlay of considerable expense before a dollar is seen in return and it behoves the racing element of Belleville to give Mr. Ketcheson the honest support that his efforts in their behalf deserve. The first day will embrace a 2.35 class for $150, a three minute for $125 and a ¼ mile running race. On the second day the first event will be the 2.44 class for $125, a free-for-all for $150 and a ½ mile run for $50.

ITCHING AND SCALY

Skin Disease 9 Years. Doctors and Medicines Useless. Cured by Cuticura for $4.75.

I feel it is my duty to tell you my experience with your CUTICURA REMEDIES. I have been troubled for over nine years with a dreadful skin disease. When I first felt it, there appeared a few small red spots on my breast, and it kept on spreading slowly. It started the same on my back, between my shoulders. A few days after the spots turned gray, and began itching. Small scales would fall off, so it continued spreading all over my body. I tried all the patent medicines I could think of, or get hold of. I also consulted doctors. Yes, they would cure me in a short time, but they always failed. Then I gave it all up, thinking there was no cure for me. Some few months ago, I noticed your advertisement in the Tacoma *Morning Globe;* thought I would try the CUTICURA REMEDIES, not thinking it would do me much good, but to my surprise, three boxes of CUTICURA, one cake of CUTICURA SOAP, and three bottles of CUTICURA RESOLVENT cured me entirely. My skin is now as white and pure as that of a child. I send my photograph. I have many friends in Chicago, Ill., and St. Paul, Minn.

HOOD'S PILLS cure Habitual Constipation by restoring peristaltic action of the alimentary canal.

A PROLIFIC SOURCE OF DISEASE.—trifling indiscretion in diet may lay the foundation of confirmed dyspepsia, and there is no fact in medical science more positively ascertained or more authoritatively asserted than that dyspepsia is the parent of a host of bodily ills, not the east of which is contamination of the blood and the maladies of which that is the direct consequence. The original cause is however thoroughly eradicated from the system by Northrop & Lyman's Vegetable Discovery, and Dyspeptic Cure, a medicine which only requires regularity and persistence in it use to cure dyspepsia and many other ills that arise from it. No deleterious mineral ingredient is contained in it, and though its action is thorough in cases of costiveness it never produces griping pains in the abdominal region, or weakens the bowels like a violent purgative. It invigorates the system through the medium of the increased digestive and assimilative activity which it promotes and is also a most efficient remedy for kidney disease scrofulous and all diseases of the blood femole weakness, &c., &c Price $1.00 Sample bottle 10 cents. Ask for Northrup & Lyman's Vegetable Discovery and Dyspeptic Cure. The wrapper bears a fac-smile of their signature. Sold by all medicine dealers.

If you have a cough or cold do not neglect it; many without a trace of that hereditary disease have drifted into a consumptive grave by neglecting, what was only a slight cold. Had the used Bickle's Anti-Consumptive Syrup before it was too late their lives would have been spared. Mr. A. W. Levy Mitchell, writes. "I think Bickel's Anti-Consumptive Syrup the best preparation on the market for coughs and severe colds. About six years ago I caught a severe cold which settled on my lungs, and for three months I had a cought. I had a physician attending me, but gradually grew worse until I was on the verge of Consumption, and had given up hopes of being cured, when I was induced to try Bickel's Syrup. Before I had taken one bottle I found myself greatly relieved, and by the time I had finished the second bottle I was completely cured. I always recommend it for severe colds and consumption."

LABOUCHERE HAD HOPES

BUT HE WAS OMITTED FROM THE CABINET.

It Is Likely That Mr. Gladstone Will Be Questioned in Parliament Regarding It—John Morley, Not the Lord Lieutenant, Will Be the Real Ruler in Ireland.

LONDON, Aug. 29.—H. W. Lucy telegraphs as follows to The New York Tribune: With one or two immaterial exceptions Mr. Gladstone has completed the formation of his Ministry. The task has been one not, perhaps, of exceptional difficulty, but involving much pressure at what, in ordinary circumstances, should be leisure time. In private conversation Mr. Gladstone observes that the disposition of the minor officers cost him much more time and thought than those of Cabinet rank. Every minnow regards himself, and is regarded in his domestic circle, as a whale, and requires provision made for him accordingly.

The Rosebery scare, in due course, reached its inevitable conclusion. There is no doubt about Lord Rosebery's physical indisposition; he has been suffering from insomnia for many weeks. He tried to break the spell by a yachting trip, but was only partially successful. If he had consulted his own feelings and personal comfort he would undoubtedly have stood aside.

The general composition of the new Ministry meets with approval on the Liberal side, and but for one reason, oddest of all to come from such a quarter, is little carped at in the ex-Ministerial press. This particular criticism is the omission of Mr. Labouchere from the Cabinet. It is talked of more than anything else.

It is diversely reported that the exclusion was dictated by the Queen, who cannot forgive Mr. Labouchere's frequent frank criticism of matters concerning the Royal family, and by Mr. Gladstone, who regarded as unpardonable Mr. Labouchere's suggestion that Home Rule should stand aside till the Radical program was forwarded. The former is far more likely to be true.

The affair, however it has been brought about, might certainly have been more dexterously managed. Mr. Gladstone must have known a fortnight ago whether he was able and disposed to include Mr. Labouchere in the Ministry, or whether he was, for whatever reason, precluded. Since he had decided in the latter sense, it would have been easy for him to have sent for Mr. Labouchere and either offered him an appointment out of the Cabinet, not directly bestowed by the Crown, or frankly explained why the proffer of office was withheld. But while all the world, doubtless including Mr. Labouchere, have been waiting to hear that a message has been sent, a fortnight has sped; the contingency has been discussed in every newspaper, and Mr. Chamberlain went out of his way pointedly to allude to it in the Commons. Mr. Labouchere is thus left in a position galling to any man, which even a professed cynic cannot fail to feel, and may be expected to resent. Mr. Disraeli would have managed the affair differently. Mr. Gladstone, a bigger man, is prone to walk with his head in the clouds and occasionally stumbles over something at his feet that a meaner mortal would have seen and avoided.

Lord Houghton's position though nominally supreme as the direct representative of the Queen, is, in the main, ceremonial. The real ruler of Ireland will be Mr. John Morley; though by one of those fatuities that sparkle along the bulwarks of the British constitution, it is Lord Houghton who appoints Mr. John Morley, the eminent statesman's formal designation being Chief Secretary to the Lord Lieutenant. Before the writ for the vacancy at Newcastle, created by Mr. Morley's acceptance of office, could be moved, it was necessary for Lord Houghton's signature to be obtained. This being overlooked, Lord Houghton was not immediately approachable. According the Commons summoned at 3 o'clock, having agreed to the writs for the other elections, were obliged to suspend sitting for an hour till the Lord Lieutenant's appointment of his Chief Secretary had been duly signified.

One Man, One Vote.

LONDON, Aug. 22.—Mr. Gladstone has written a letter in response to an inquiry whether he would submit a measure to Parliament to abolish plural voting, in which he says that the Government has too recently come into office to make a practicable attempt in November next to pass legislation affecting the "one man, one vote" question. The matter, Mr. Gladstone adds, will receive the earliest possible attention, when it will not be encumbered by schemes for the redistribution of seats or the reduction of the strength of the Irish members of the House of Commons.

Davitt at Newcastle.

LONDON, Aug. 22.—Michael Davitt spoke at Newcastle-on-Tyne in support of the Right Hon. John Morley, who seeks reelection upon accepting the Chief Secretaryship for Ireland for Ireland. Mr. Davitt declared that he did not believe the Irish question would so monopolize Parliament as to shut out questions affecting the welfare of British workingmen. He stated that he had the consent of 70 of his colleagues to declare that they would vote as one man in favor of measure to improve the condition of workingmen.

THREATENED THE QUEEN.

A Lunatic Tells Her Majesty He Has Sworn To Kill Her.

LONDON, Aug. 22.—The Globe Saturday reports an incident that occurred to the Queen while she was driving near Osborne House, Isle of Wight. As the royal carriage was proceeding along the road a man making violent gestures advanced toward it. The carriage was stopped and the man approached the Queen. He told her that he was a foreign count and that he and many others had sworn that if the Queen did not resign they would kill her.

Her Majesty listened in silence to the wild harrangue, never once betraying any nervousness. She and her attendants at once saw that the man was mentally unbalanced and, though she did not know but what he would attempt to suit his actions to his words, she retained her presence of mind and gazed calmly at him, never uttering a word. One of her attendants dismounted and quietly talking to the man removed him from Her Majesty's presence. He was handed over to a constable and lodged in jail. There is no doubt that he is insane.

The Hot Wave in Europe.

VIENNA, Aug. 22.—There is no abatement whatever in the terrible heat that has prevailed for some time. The sun Saturday is shining as fiercely as ever, and the suffering entailed is dreadful. The long-continued heat is having a most serious effect upon persons who are confined to their beds by sickness. This morning several deaths from sunstroke have occurred, and it is a common sight on the streets to see people swoon. The city is practically taking a holiday. No one ventures out to transact any business, unless compelled by absolute necessity, and then they move along in a most listless manner. Unless a change for the better sets in soon the death rate will be enormously increased.

PARIS, Aug. 21.—The weather here is slightly cooler. Two fatal cases of sunstroke were reported here Saturday.

The Kaiser Says There Will Be No War.

BERLIN, Aug. 22.—The autumn parade of the Garde de Corps was held on the Tempelhof parade ground. The day was oppressively warm, the mercury marking 97° in the shade, and Emperor William, for the purpose of sparing the men, ordered that a march past be the only manœuvre. When the performance was over the Emperor, in the course of his customary remarks, begged the officers to give an absolute denial of all rumors of an approaching war and of an increase in the budget. He also denied the report that it was the intention of the Government to introduce a smaller calibre rifle in the army.

Divorced and Married to a Millionairess.

BERLIN, Aug. 22.—The following story from Hamburg is interesting the newspaper readers of Berlin: Two domestic servants received a joint legacy from a wealthy uncle of 6,000,000 marks ($1,200,000). A well-known lawyer named Von Kusserow conducted the legal formalities which secured the fortune to the two girls, and was paid for his services the handsome fee of 250,000 marks. During the transaction of the business one of the young women had shown signs of a great liking for the lawyer. The latter conceived a plan to acquire riches with ease. He paid his wife a large sum to consent to a divorce, and then married the heiress who had fallen in love with him. He thus gained possession of 3,000,000 marks ($600,000). The lawyer, his new wife and his former wife then started on the honeymoon trip, the two women being apparently the best of friends.

The Kaisers Quarrel With Bismarck.

BERLIN, Aug. 22.—A serio-comic corollary to the standing quarrel between Prince Bismarck and Emperor William was supplied a few evenings ago. The Emperor and Bismarck were both invited to attend the annual banquet of the First Dragoon Guards. Both had accepted. On learning that his former Minister was to be among the guests his Majesty was embarrassed. At the last moment he resolved not to attend the feast, a sudden turn in the health of the Empress obliging His Majesty to proceed to the Marmaa Palace, which was worked as an excuse for his absence.

BELIEVED IN WITCHCRAFT.

Strange Defence of An American Charged With Murder.

MIDDLETOWN, N.Y., Aug. 22.—The trial of Joseph Heidt was finished in Monticello Saturday, and resulted in his conviction of murder in the second degree. He was charged with having murdered his uncle, George Markeret, at Jeffersonville last January. The prisoner testified as follows:

"Father and I believed Markeret was a wizard. Father has been ill, more or less, for a long time, but not confined to his bed. He often talked of his ailments, and thought that they were put on him by some one. He talked often to me about it. He thought the spell was put on him by George Markeret. He went over to Pennsylvania last fall, thinking the change might benefit him, and returned in November. He was somewhat improved for a time, and then became worse again. I made up my mind to ask my uncle to remove this spell from him.

"I remember the fatal evening I went to Markeret's. I had a pistol in my possession at the time, which I found in the barn. I did not see uncle when I went down to his home that night. Then I went over the bridge and waited awhile, and I met him at the bridge. He asked what I wanted. I asked him if he would be so kind as to take the torture back from my father. His reply was that he would take nothing back. I repeated the request, which he again refused. I told him that I would have him arrested in the morning if he did not. He said that if I said another word he would knock the life out of me.

"He then attempted to strike me. He was angry and [illegible] strike me. I grabbed the club and took it away from him. We had by this time crossed the bridge to the scene of the affray. He clinched me, took out his knife and told me I would have to die on the spot. In trying to escape I slipped and fell. Then I grabbed hold of him, pulled him down, drew the revolver and fired for his head. I cannot say how many times. When I regained my footing I again grabbed him and threw him over the bridge, and then went home. I did not know what I was doing at the time. I have had a headache since then. I was afraid to tell of the deed for fear of being lynched. After I was arrested and put in jail I concluded to tell all."

The jury was out three hours. The trial of the father, Adam Heidt, has been in progress to-day. He will probably be cleared.

Farm Labor Wanted in Manitoba.

WINNIPEG, Aug. 22.—The weather throughout Manitoba and the Northwest continues most favorable, and harvesting is progressing rapidly. A big percentage of the wheat crop is now out.

All the immigration offices in the city are in receipts of telegrams daily from farmers asking for help during harvest and threshing. The supply does not nearly equal the demand, and but a small proportion of the requests are filled. Wages are good throughout the country, $45 a month and board being offered, but even with this inducement men are not to be found.

The Cardinal's Jubilee.

QUEBEC, Aug. 22.—All incoming trains are loaded with French-Canadian visitors from all parts of Canada and the United States, who will take part in the great festival of St. Jean Baptiste and the celebration of Cardinal Taschereau's golden jubilee, both of which takes place Sunday, Monday and Tuesday. This afternoon the different St. Jean Baptiste societies of the Dominion and the United States will be presented to his eminence.

Praying the Other Way Now.

HALIFAX, Aug. 22.—For several weeks farmers of Prince Edward Island prayed for rain. Their prayers were answered. Six inches of rain fell in four and a half days, and now they are praying for fine weather. Floods have ruined thousands of tons of hay. Lightning was terrific. Many barns were struck and burned.

The Minister Approves.

OTTAWA, Aug. 16.—Hon. Mackenzie Bowell stated yesterday that he is in hearty accord with the views of Gen. Herbert respecting the reorganization of the militia.

Lord Rosebery Will Not Join.

LONDON, Aug. 13.—The Daily Telegraph says: "It is understood that Lord Rosebery will not join the new Cabinet. Should this prove true Lord Kimberley will probably accept the Foreign portfolio with the leadership of the House."

RETALIATION AT THE

PRESIDENT HARRISON ISSUES PROCLAMATION.

Because Canada Charges Rebate T Vessels Passing Through the W Canal the U.S. Imposes Tonnage on Vessels Passing the Soo C Feeling at Ottawa.

WASHINGTON, Aug. 22.—The Pr has proclaimed retaliation against C in accordance with the authority con upon him by the "Act to enforce reci relations with Canada," passed last His proclamation is dated Aug. 1 was only issued Saturday, after a final view between Secretary Foster and Michael H. Herbert, the Charge d'A of the British Legation here, which place Saturday. The Canadian G ment had asked for delay, pleading t sence of the Ministers from Ottaw other reasons. A decision was promi Lord Stanley, Governor-General of C by Monday, Aug. 8.

On the 6th inst. Mr. Herbert telegr from Newport to Secretary Foster in ington: "I have received assurances o ther consideration. May I consequ venture to hope that no steps may be in the meantime?"

Secretary Foster replied: "Gratifi your telegram. You may count reasonable time such as indicated i interview."

On Aug. 15 the United States C General at Ottawa informed Secretary ter that the decision of the Canadian istry was to "continue the rebate on tolls as now until the end of the seas navigation."

Thereupon the proclamation of re tion was drawn up and sent to Loon for the President's action. On the d was signed, Aug. 18, Secretary Foster graphed Mr. Herbert: "When may pect you here, or note on canal tolls?"

Mr. Herbert replied the same day Newport: "Have telegraphed to in what day I may expect communication

The next day Secretary Foster sen following significant dispatch:

"JOHN W. FOSTE

Mr. Herbert hastened to Washing telegraphing in advance to Mr. Fo "Could I see you to-morrow morning at the Department? Kindly reply o ceipt of this, in order to enable me to c train."

Mr. Foster answered: "You can se any hour in the morning between 8 an o'clock."

Mr. Herbert came here and saw Foster this morning. The memorandu their final interview is as follows:

"Mr. Herbert, charge of the British L tion, called on the Secretary of Stat Saturday, Aug. 20, and informed the Se tary that he had not yet received the off notice of the action of the Canadian Cab on the canal tolls, but he hoped to be abl communicate it early next week."

"The Secretary of State said that United States Consul-General at Ottawa reported that the decision of the Cab was to abolish the rebate on tolls at the of the present season, and that this had b confirmed by the Ministerial press of C ada. He then asked Mr. Herbert if conformed with his information on the s ject.

"Mr. Herbert answered that he was no yet authorized to make any official comm nication on the subject, but that he had doubt the Consul-General's report was c rect.

"The Secretary of State then said t such a solution of the question would no regarded as satisfactory by his Governme and, in answer to an inquiry, he stated t the President considered it his duty to is the proclamation contemplated by the of Congress. But he gave Mr. Herbert assurance that should the Canadian G ernment give notice of its decision to abo the discriminations now complained of, proclamation would be suspended conc rently with such abolition."

The President's proclamation, after citing the text of the Act of Congress un which it is issued, conclude as follows:

"Whereas, the Government of the minion of Canada imposes a toll amounti to about 20 cents per ton on all freight pa ing through the Welland Canal in transit a port of the United States, and also further toll on all vessels of the Uni States and on all passengers in transit t port of the United States, all of which t are without rebate; and

"Whereas, the Government of the minion of Canada in accordance with order in council of April 4, 1892, refunds cents per ton of the 20 cent toll at Welland Canal on wheat, Indian corn, pe barley, rye, oats, flaxseed and bu wheat, upon condition that they are orig ally shipped for and carried to Montreal, some port east of Montreal for export, a that, if transhipped at an intermedi point, such transhipment is made within t Dominion of Canada, but allows no such r any other rebate on said products wh shipped to a port of the United States, when carried to Montreal for export if tra shipped within the United States; and

"Whereas, the Government of the Domi ion of Canada by said system of rebate a otherwise discriminates against the citiz of the United States in the use of said W land Canal, in violation of the provisions article 27 of thetreaty of Washington, co cluded May 8, 1871; and

"Whereas, said Welland Canal is connec ed with the navigation of the Great Lakes, a I am satisfied that the passage through it cargoes in transit to ports of the United Stat is made difficult and burdensome by said d criminating system of rebate and otherwis and is reciprocally unjust and unreasonabl

"Now, therefore, I, Benjamin Harriso President of the United States of Americ by virtue of the power to that end conferr upon me by said act of Congress, approv July 26, 1892, do hereby direct that from an after Sept. 1, 1892, until further notice, a to of 20 cents per ton be levied, collected an paid on all freight of whatever kind or d scription passing through the St. Mary Falls Canal in transit to any port of t Dominion of Canada, whether carried vessels of the United States or of oth nations, and to that extent I do hereby su pend from and after said date the right free passage through said St. Mary's Fal Canal of any and all cargoes, or portions of cargoes, in transit to Canadian ports."

It Was Carefully Considered.

WASHINGTON, Aug. 22.—Included in th aftermath of the Canadian retaliation pr clamation is a statement that this claus has been under careful advisement since be fore the adjournment of Congress. Aft the act of July 26, authorizing retaliatio had gone through both Houses without o position, it was stated that the members the Foreign Affairs Committees, who re ported the bill, had done so at the person request of the President. The informatio is now allowed to leak out that the precis shape which retaliation should take so as t produce the most telling effect on Cana

EDITORIAL NOTES.

Sir John Abbott is a little under the weather and already various papers are discussing the question of who is to be his successor, if he should die, Sir John Thompson being the one generally fixed upon. It is rather indecent to choose a man's successor before he is dead or even seriously ill.

Interest has been revived in the Labrador Railway scheme by the published report of Mr. Alfred Palmer, the English engineer who was employed to survey the projected route. His report is highly favorable. He describes the route chosen as practically level for its entire distance. Port Markham, on St Louis Inlet, sixty miles from the Straits of Belleisle, on the Atlantic coast, he recommends as a fitting terminus, about three days' steam-sailing from Europe. He describes this harbor as open for seven or eight months in the year. From this point the route runs west within a few miles of the sea shore for about two hundred miles to the head of the Bay of Islands, from thence in a straight line to the Saguenay, at Chicoutimi, where it joins the line of the Quebec and Lake St. John Railway. The length of the line is put down at eight hundred and fifty miles. Mr. Palmer enlarges upon the rich mineral resources of the country traversed, and claims that, when completed, it would be the shortest route to Europe for passengers and mails. Concerning the snowfall, he says it is less on the north than on the south side of the St. Lawrence. Another suggested outcome of the scheme is the projection of a line from the Quebec & Lake St. John Railway to the Canadian Pacific, near Lake Nipissing. This is an old scheme, and has been often pronounced visionary, but as railways are the politics of this country, there is no telling what may come of it. There is, so far as we can see, no great object to be attained in building 850 miles of railway through the wilderness of Labrador to get a harbor open for only seven or eight months in the year.

The Ladies Delighted.

The pleasant effect and the perfect safe with which ladies may use the liquid fru laxative, Syrup of Figs, under all conditions make it their favorite remedy. It is pleasing to the eye and to the taste, gentle, yet effectual in acting on the kidneys, liver and bowels.

A neglected cough brings on consumption—the most fatal and prevalent of al physical ills that flesh is heir to. To check the malady in its early stage, before the deadly turbercles develop themselves in the lungs use Dr. Thomas' Eclectric Oil which also annihilates bronchitis, asthma, catarrh, piles, kidney troubles, and soreness of the muscles and joints.

At no time is man secure from attacks of such painful and dangerous disorders of the stomach as Cholera, Cholera Morbus, Cramps, Diarrhoea, and Dysentery; but these complaints are particularly common during the heated term, and when it is doubly dangerous to neglect them. PERRY DAVIS' PAIN KILLER is a remedy that has never failed when tried, and the severest attacks have been cured by it. It leaves no evil effect, nvariably brings relief to t sufferer. Every reputable druggist in t nir sells PERRY DAVIS'S PAIN KILL

NEWTON BEERS."

The above lines were in a despatch received by an uptown theatrical agent yesterday. The woman referred to is Miss Mollie Thompson, one of the best known actresses on the vaudeville stage, and a daughter of Johnny Thompson of "On Hand" fame. Miss Thompson has been for two weeks with Mr. Beers' company, "Eloped With a Circus Girl," and had made a hit with the company. One of the features of her performance was riding on a bareback horse.

The Miners' War Over.

CHATANOOGA, Tenn., Aug. 22.—The war of the Tennessee miners is evidently over. Gen. Carnes is in possession of Coal Creek and reports his entire ability to care for all of the hostiles with the military and has ordered the volunteer citizens to return to their homes. The casualties among the troops and the citizens amount to 5 killed and about 15 wounded. The miners' loss has not yet been learned, but many of them must have been killed or wounded, as Col. Woolford is certain that six of them were killed in the early morning attack on his column. Two hundred miners are prisoners in the hands of the militia.

For all forms of emale weakness Dr. Williams' Pink Pills are an unfailing specific. Mr. Thomas Strachan, Postmaster, Roballion write :—My daughter has been ill for the last four years with female weakness, and had been attended by four of the best doctors in our section. She began the use of Dr Williams Pink Pills, and two boxes have done her vastly more good than all the medicines she took from those doctors.

What She Said

Mrs. R. Peck, 15th Street, New York City, visited Canada last year, and had the good fortune to pick up something which not only suited her, but her neighbors also. Writing the manufacture of Nerviline she says:—"I bought three bottles of Nerviline while in Canada and treated my neighbors to some of it, and all think it the best medicine for internal or external pain they have ever used." Nerviline deserves such commendation, r it is a most powerful, penetrating, and rtain remedy for pain of all kinds. Take sub stitute.

The highest praise has been won py Hood's Pills for their easy, yet efficent action.

As an after dinner pill, to strengthen the stomach, assist digestion, and correct any bilious tendencies, Ayer's pills are considered the best. Being sugar coated, they are as agreeable as any confection, and may be taken by the most delicate.

How Mr. W. D. Wentz of Geneva, N.Y., was cured of the severest form of dyspepsia? He says everything he ate seemed like pouring melted lead into his stomache. Hood's Sarsaparilla effected a perfect cure. Full particulars will be sent if you write C Hood & Co., Lowell, Mass.

dian commerce and precipitate a solution of the difficulty was arrived at after repeated consultations with leading business men of our Canadian frontier, who were called into consultation by the State Department from Northern New York and other parts of the country so quietly that the fact of their presence here on this business is only now made known after their departure and the completion of the Act. The late hour yesterday when the proclamation was given out, and the fact that Canadian newspapers very largely follow the English fashion and publish no Sunday edition, sufficiently explains why so few echoes have yet been heard from Canada.

It is said in administration circles that the ground was so carefully gone over before hand that Canada is not left a leg to stand on, and must give in to the American demands and immediately revoke the order-in-council of April 4 last authorizing the discriminating rebate of 18 cents a ton on grain products shipped to Canadian ports and refused to all American merchandise. Equality of tolls in the Welland Canal was one of the distinct pledges made by article 27 of the treaty of Washington of 1871 and which Canada has profited so largely.

Another fact much commented on here is the humiliating position in which the Governor-General, Lord Stanley, and the Canadian ministers have placed the British Legation in Washington.

Mr. Herbert, the British Charge d'Affairs, twice asked of the United States Government an extension of time, stating that he did so as the request of the Canadian authorities, and on the last occassion, Aug. 6, holding out on the same authority a promise of some satisfying action, yet, the first news of the decision of the Canadian Government to continue the obnoxious rebate until the end of the navigation season, that is, until a period when retaliation would be harmless; came to State Department, not from the British Legation, which had been led to promise early and satisfactory informatiun, but from the United States Consul-General in Ottawa. When Mr. Herbert journeyed postal haste from Newport to Washington and was asked by Secretary Foster whether the information conveyed by the United States Consul General was true, he was obliged to confess that the Canadian Government had left him absolutely in the dark, that he had no official communication to make, although he did not question the truth of the Consul General's despatch. It is surmised that Mr. Gladstone's Government and the new Colonial Secretary will not let this apparent gross discourtesy on the part of the Canadian powers to the British representatives pass without fitting rebuke.

Feeling in Montreal.

MONTREAL, Aug. 22.—There was a feeling of surprise in Montreal yesterday when it was learned that Harrison had put the power accorded him by Congress into effect, and people interested were at first inclined to doubt it. The managers of the different transportation companies were chary of speaking. Mr. Van Horne said in answer to an enquiry that he had nothing more to say beyond what had already been published as coming from him. Mr. Thompson of the Merchants' Transportation Company, who is interested to a very large extent, was also reticent and had nothing of any consequence to say beyond what he has already said. A rate of 20 cents a ton would ruin the Canadian trade. There is a general feeling of relief that the rate has been fixed so low and that the American Government had left the Canadian Government until Sept. 1 to act and the belief was expressed by one prominent shipping man that the Government would be enabled by some means or other, while satisfying the demands of the United States Government, to relieve them of the burden to which the proclamation would submit them.

The News At Ottawa.

OTTAWA, Ont., Aug. 22.—The intelligence that President Harrison has issued his proclamation against Canada has created no little excitement here. The members of the Government with the exception of the Postmaster-General, the Minister of Railways and Canals and the Minister of Agriculture are out of town. None of them are disposed to express any decided opinion at present as to what action Canada will take now that the American Soo Canal is to all intents and purposes closed to Canadian vessels owing to the prohibitory duties.

President Harrison's action was totally unexpected. Judging from the undercurrent of feeling displayed in official circles the Canadian Government will likely not yield.

It is surmised, however, that a full meeting of the Cabinet will be held at an early date to consider the situation.

Rev. W. W. Carson of Detroit is here. He said to the Associated Press to-night: "Unquestionably President Harrison's proclamation is an indication of the desperate strait in which the Republican party finds itself on the eve of an election. It may please the enemies of England to strike a blow at Canada, but it will awaken the hostility of every Canadian in the States against the President. The result will be a great Democratic gain and a guarantee of Cleveland's election."

Sir Adolphe Caron, Postmaster-General, was seen to-night. He declined to express an opinion until the cabinet had met.

THE BLOCKADE BROKEN.

THE BUFFALO STRIKE NEARING AN END.

The Railway Companies, With the Assistance of the Military, Move Their Trains With Non-Union Crews—A Great Amount of Freight Moving East at the Present Time.

BUFFALO, Aug. 22.—The most sanguine of the striking switchmen can no longer deny that the roads are moving freight. Since the resumption of work yesterday morning the Central Company has moved more cars than ordinarily and the prospect of events arising that would impede further progress is hourly diminishing.

The congested condition of the yards at Black Rock has been relieved to such an extent that all embargo on western freight is practically removed, and cars that have been held back along the Michigan Central are being shoved across the International Bridge in numbers that exceed the ordinary influx. Since the first train was started for East Buffalo at 11 o'clock yesterday morning trains have continued to run over the Belt Line between the Rock and East Buffalo yards as fast as they could be made up by the non-union crews. Since 12 o'clock last night and up to 3 o'clock this afternoon 15 trains, or runs as they are called, have been sent eastward from the Black Rock yards. Stock, dairy and other perishable freight has been given the usual preference, and has moved with promptness and dispatch.

The Erie made their first attempt to start freight out of the Black Rock yards yesterday. It was the first sign of life that has been manifested in the yards since last Monday. Only one train was sent over this morning and another this afternoon. It is not probable that any attempt to work the Erie yards north of East Buffalo will be made to-night. The Central, Erie and Lehigh are all working vigorously at East Buffalo. The Erie sent six full trains east this morning, the Central have done a trifle better and the Lehigh about the same. The soldiers still patrol all yards in which there has been any trouble and have had to deal more with the crowds of spectators who have flocked around the yards than with the dissatisfied railroad men during the day.

Late Saturday afternoon the Central sent a train of hard coal from East Buffalo to Black Rock. The movement of coal is strong evidence that the yards are getting pretty well cleared up, as it is about the last product that would suffer by delay. The Erie moved 66 grain line cars this morning, besides taking all lake freight that was loaded to the East Buffalo yards. The local and transfer freight from the Louisiana-street house is being got out as fast as it is ready for forwarding. The operations of the yards to-day have been a victory for the companies.

The Food Supply Affected.

NEW YORK, Aug. 22.—The effect of the switchmen's strike is beginning to be seriously felt in this city. While the officials of the Erie and Lehigh Valley Railways say freight is being fairly well handled by their lines, wholesale dealers are grumbling at the delay in receiving goods. Perishable stock is found to be in bad shape upon arrival and some delivered had to be sent to the offal dock. Butchers are complaining of a shortage and fresh beef has been increased several cents a pound. The railway officials say this is done without reason.

No Trouble on the Grand Trunk.

MONTREAL, Aug. 22.—Mr. Wainwright, Assistant General Manager of the Grand Trunk Railway, does not believe the dispatch which states that the Grand Trunk yardman had refused to handle 150 Erie cars at Niagara. No official report had been received at the head offices to that effect, and Mr. Wainwright states that a refusal of the men to work would have been reported at once had it really occurred. He says that the company's traffic has been but slightly interfered with and that there is no reason to expect further trouble.

A GHASTLY BURDEN.

One Man Killed and Another Nearly Overcome by Gas in a Well.

SHAMOKIN, Pa., Aug. 22.—After discharging a shot in a new well in Shumantown yesterday Eli Heilner went down before the smoke had cleared and was overcome by gas.

Lewis Hartman responded to his cry for help. He had hardly reached the bottom before he grew faint. The bucket would not bear two and each wanted the other to go up first.

Finally Hartman bundled Heilner in the bucket and told the men overhead to pull. When nearing the top Heilner fell, and, narrowly missing Hartman, struck the rock, killing himself.

Hartman had strength enough to draw himself and the corpse to the bucket, but fainted before he could signal. The men at the windlass saw the rope shake, thought something was wrong and hoisted it. When the bucket and its ghastly burden reached the top many persons fainted.

It is thought that Hartman will recover.

THE "PRINCE" DESERTED.

He Is in Prison and His Wife Secures a Divorce.

DETROIT, Aug. 22.—Mrs. Michael K. Mills, wife of "Prince" Mike, former ruler of the Flying Roll colony, but who is now in Jackson Prison, was granted a divorce by Judge Brevoost Saturday. She appeared in court accompanied by Attorney Roblins. Divorce was granted on the ground that her husband had been convicted of a felony and sentenced to more than three years imprisonment. There may be some question as to the validity of this divorce. It was not granted on any allegation in Mrs. Mills' original bill, but on a supplementary bill filed a few days ago, which was practically a new affair, and the law requires that four months must intervene between the filing of the bill and the granting of the decree.

TORONTO TOPICS.

TORONTO, Aug. 22.—Mr. Hugh N. Baird, president of the Board of Trade, has just returned from a trip through western Ontario. He reports that the crops are promising and that the harvest will show most gratifying results.

A sad death occurred yesterday in Rosedale. Only a few weeks ago Harry Davis, the well-known sporting goods man, left for England on his purchasing trip and bade his wife good-bye, who was in the best of health.

Ten days ago Mrs. Davies was attacked with congestion of the spine. She sank gradually and never recovered from the unconscious state she fell into five days ago, notwithstanding the skilful exertions of her three physicians and the kind attendance of relatives and friends.

All through the Provinces the rapid increase of La Grippe, is causing great alarm. A report was received here to-day, of a new development of the disease, which is worse, perhaps than any other. Wm. Hanley of N. Y. City, died in terrible agony after sickness of only four days. His tongue swelled to such an extent as to make it impossible for him to close his jaws or swallow any food. The report is causing the people in this district to resort to the noted Grip-cure, recently referred to in so many papers. In Cape Breton the disease has spread very rapidly and with fatal results. D. J. McKillop of L'Archeveque writes Feb. 11th that this cure has been tried in his neighborhood and with such success that all those residing there are obtaining a supply believing it to be the only remedy affording relief and effecting a certain cure. He finished his letter by asking for a large quantity of the Medicine (Dr. Morse's Indian Root Pills) to supply the demands of the community for the relief of LaGrippe.

For You r O

GENTLEMAN,—One of my little girls aged 4 years) had been troubled with costiveness in its worst form since infancy. We tried different remedies which gave relief while using, but as soon as discontinued she would be worse than before using. She lost her appetite and was growing weak and delicate. A friend of mine who had used B B B with grand results for the same disease advised me to try it, and also the Burdock Pills, which we did. She did not take the contents of one bottle before it relieved her, and not only relieved her but permanently cured her, for she has not been troubled since since, and she is now eight years old

Diseases of The Liver

Parmelee's Pills possess the power of acting specifically upon the deceased organs, stimulating to action the dormant energies of the system, thereby removing disease. In fact, so great is the power of this medicine to cleanse and purify that disease of almost every name and nature are driven from the body. Mr. D. Carswell, Carswell, P. O., writes I have tried Parmelee's Pills and find them an excellent medicine,

The "Myrtle Navy" brand of smoking tobacco has stood the test for over twenty years, and during that time it has lost no friends and gained scores of thousands This lengthened experience shows that is no mere passing fashion which has gained it the approval of the public, but its superiority in the essential qualities which make a first-class tobacco.

Advice to Mothers

Mrs. Winslow's Soothing Syrup has been used by millions of mothers for children teething for over fifty years, with perfect success. It relieves the little sufferer at once, produces natural quiet sleep, an freeing the child from pain, and the young cherub wakes as bright as a button.' is pleasant to taste, sooths the child softens the gums, allays pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhoea, whether arising from teething or other causes 25 cts. a bottle.

A Question

How can we raise more corn s the acher? Why, of course by using Putman's Corn Extractor. Putman's Painless Corn Extractor has given universal satisfaction, for it is safe, sure and painless. Like every article of real merit it has a host of imitators, and we would specially warn the public to guard against these dangerous substitutes offered for the genuine, Putman's Extractor. N. To Preserve

The richness, color, and beauty of the hair, the greatest care is necessary, much harm being done by the use of worthless dressings. To be sure of having a first-class article, ask your druggist or perfumer for Ayer's Hair Vigor. It is absolutely superior to any other preparation of the kind. It restores the original color and fullness to hair which has become thin, faded, or gray. It keeps the scalp cool, moist, and free from dandruff. It heals itching humors, prevents baldness, and imparts to

THE HAIR

a silken texture and lasting fragrance. No toilet can be considered complete without this most popular and elegant of all hair-dressings.

"My hair began turning gray and falling out when I was about 25 years of age. I have lately been using Ayer's Hair Vigor, and it is causing a new growth of hair of the natural color."—R. J. Lowry, Jones Prairie, Texas.

"Over a year ago I had a severe fever, and when I recovered, my hair began to fall out, and what little remained turned gray. I tried various remedies, but without success, till at last I began to

USE

Ayer's Hair Vigor, and now my hair is growing rapidly and is restored to its original color."—Mrs. Annie Collins, Dighton, Mass.

"I have used Ayer's Hair Vigor for nearly five years, and my hair is moist, glossy, and in an excellent state of preservation. I am forty years old, and have ridden the plains for twenty-five years."—Wm. Henry Ott, alias "Mustang Bill," Newcastle, Wyo.

The local sportsmen of Tweed and vicinity have organized a sporting club with an extensive membership for the better protection of fish and other game. At present there seems to be very little regard for the game laws, and all parties will do well to remember that in the future transgressors of those laws will be harshly dealt with.—Tweed News.

The most wonderful thing that has happened in some time is the ride of young Frank Marsden, eleven years of age, from Kingston to Toronto on a childs's iron high-wheel bicycle. The lad left Kingston on Tuesday morning and got into Toronto at ten o'clock Thursday, having been absent forty-six hours. He says that he rode every foot of the distance, only taking time for refreshments.

The world's pacing record went to smash Thursday. Old Johnson, who paced his mile in 2.06¼ October, 1884, at Chicago, has been dethroned and Hal Pointer reigns in his stead. Hal went around Washington Park track yesterday in 2.05¼, making the fastest mile ever gone in harness. As in the case of Nancy Hanks Wednesday, Hal was hitched to a sulky with low wheels, pneumatic tires and ball bearings. Its weight was the same as that used by Deble in driving Nancy Hanks—62½ pounds. Hal came out of the race strong and fresh. The official time is: First quarter, 31¾; half, 1.02¾; three-quarters, 124; mile, 2.05¼. Hal Pointer is a bay gelding, sixteen hands high, sired by Tom Hall, out of Snow Haven. "Oh, if I had only taken this medicine earlier in my life, what years of sufferin it would have saved me!" was the exclamation of one who had been cured of rheumatism by the use of Ayers Sarsaparilla. Scores of such cases are on record.

As a tonic, the Father Mathew Remedy restores to a healthy condition the stomach and liver of the intemperate, which are always out of order, and builds up his nervous system; as an alterative, it makes a new man of him.

When you want a good stove or range cheap go to Deacon & Doyle, Front St south of Bridge St.

Mr. G. Redick writes Mr. Louttit as follows; I feel it my duty both to you and the public that after ten years affliction with that loathsome disease, catarrh, I have found apparently a lasting benefit (Louttit's Catarrh Cure) and to vouch for the same and am willing and desirious to make affidavit. Louttit's Catarrh Cure is for sale wholesale and retail at Geen's Drug Store.

Those who are in the habit of taking an appetizer before meals could not do better as well for the effect as for economy's sake, than make use of "Indigenous Bitters." As Indigenous Bitters are slightly laxative, those who suffer from habitual constipation, will derive great benefit, by regularly taking them, as they keep the bowels in good order and in that way aid digestion.

When you want your cistern pumps and waterpipes repaired send to Deacon and Doyle.

MATTERS GRAVE AND GAY

A Mixture of All-spice to Season the Day's Journalistic Repast

For the past few months Mars has been the centre of attraction for all lovers of astronomy, and many are the marvellous discoveries made by some of these amateur star-gazers. It is said that a liar with a vivid imagination can see as much of Mars as an astronomer with a telescope. He will certainly see things the astronomer cannot discover even with the most powerful magnifying glass.

Every few days some of our exchanges contain an item about a "deadly tarantula" being discovered in a bunch of bananas. This talk about the bite of this insect being fatal is all nonsense. The bite is painful, but not fatal or even dangerous.

There have been cases of death ensuing from the bite of a tarantula, as there have been cases of the bite of a mosquito or the sting of a bee proving fatal. But the one is not necessarily more fatal then the other.

Here is a recipe that young men may find useful during this season of the year. A raw onion chewed slowly and swallowed without undue haste will destroy the odor of ice cream from the breath. This is reliable and perfectly safe.

The Glascow Mail calculates that only one person in 52,000,000 travellers by rail is killed and only one in 1,930,935 injured. Many people look upon railway travel as exceedingly dangerous, and dread to take a journey lest an accident should occur.

But as a matter of fact many more people are killed while travelling with horses and carriages than on the railway. It is computed that more people are killed by falling out of windows than by travelling on the railways, yet sitting in windows is not considered a very dangerous practice.

Ocean travel is also remarkably safe. Some of the leading Atlantic lines, which have carried millions of passengers, have never lost one by accident. This is a wonderful record.

Mark Twain has considered this subject as he has all others, and he made the startling discovery that lying in bed is the most dangerous practice to which anyone can become addicted, inasmuch as more people die in bed than in any other place.

He concludes, therefore, that it would conduce to longevity for every one to travel continually and never go to bed. All of which is respectfully submitted for consideration.

However, despite well meant statistics and comforting averages many people will continue to be nervous while travelling on the railway. It may be true that but one traveller in fifty million is killed. What each traveller fears is that he may prove to be that one.

The latest fad adopted by the stylish young lady, that of wearing suspenders, is giving the writers of funnigrams lots of subject matter for witticisms.

One of them gives the excellent advice that if a young man would be happy he should pick out a young woman who has some energy, and not marry some listless creature who goes around on hot days with her suspenders down.

Even the novelist seizes with delight on this new material, and in the latest summer novel the heroine saves the hero by taking off her suspenders and throwing them over the edge of a cliff to the ledge to which he is clinging.

All of which is very funny of course though it may bring a blush to the cheek of the modest young man as he reads.

It is stated that Noah's Ark has been discovered on Mt. Ararat by a Greek priest. It will now be in order for some enterprising Yankee to charter it for a trip. However as we all descendants and joint heirs of Noah we all have an equal claim on the ark, and so can ride in it. The ark must have been a pretty big vessel, but it is very doubtful indeed if it would accomodate all of the old patriarch's descendants.

It has been suggested that the ONTARIO should open up a column to which its readers who choose to do so could contribute short notes and comments on any seasonable topics of general interest, such as notes on new books, observations of men or manners, or whatever should occur to the mind.

The idea is a good one and the ONTARIO will be pleased to receive such contributions. W. N. Ponton set the ball rolling in his interesting notes in Saturday's issue and others will doubtless follow his lead. Names need not necessarily be signed to the contributions, but it is preferable that they should, as added interest is lent to any ideas advanced, if the author of them is known. A writer's personality counts for a good deal in such cases.

What Stronger Proof

Is needed of the merit of Hood's Sarsparilla than the hundreds of letters continually coming in telling of marvellous cures it has effected after all other remedies had failed? Truly, Hood's Sarsaparilla possesses peculiar curative power unknown to other medicines.

Have you Thought of it

For four thousand years or more the world groaned, suffered and fumed about its corns, for their was no positive relief—no certain and painless cure until Dr. Scott Putman gave to the world his great Corn Extractor. If there is suffering now it is a result of carelessness, for the remedy is at hand. Try Putman's Corn Extractor. It is sure painless, and prompt. Beware of substitutes. N. C. A DELIBERATE SUICIDE

A German Blacksmith Hangs Himself in the North Country

On Saturday the people of Eganville and vicinity were surprised to learn that Wm. Fleshman, a German farmer and blacksmith, residing about two miles from Eganville, had committed suicide by hanging himself. It seems that the unfortunate man was losing his eyesight for some time past and could not do his work as well as heretofore, and it was also noticed by his family that his brain was affected. In the morning he went to his work seemingly in better spirits than usual. About ten minutes to 12 o'clock, noon, he quit work, picked up a surcingle and fastened it to a post supporting the bellows, to which he then tied a halter shank, made a slip-noose out of the strap and inserted his head. The fall was not high enough from the floor to enable him to stand upright and strangle himself, but he bent his knees, even then only being a few inches from the floor. It was a case of deliberate suicide. The deceased who sixty years of age had lived in the township of Grattan for twenty-eight years, was very highly respected and was in good financial circumstances.

In Children's Suits.

The Oak Hall have a great many bargains these days in their children's clothing department. The spring and summer trade is about over and we have a quantity of odd suits to get out of the way. We would rather not have broken lines and are willing to put a price on these suits that will astonish the buyer. Sailor suits, all light weight and light colored suits are to be cleared out at actual cost. The Oak Hall are bound not to carry over a single summer suit if possible.

On Saturday evening last, about five o'clock, Ida, the four-year old daughter of Mr. John Warwick, had the misfortune to break her right arm while climbing on the fence in front of the house.

This is the way the Hastings Star puts it: "Say, if you owe this journal any money you had better just pay up right now, without any more fooling. We want the money and must have it, so those people who owe us and are rather backward in coming forward, will please wake up and get a hustle on."

On Friday, Patrick Foley, of the District Line, was taking out a large stump by means of a powerful stumping machine, one of the roots broke striking him with great force in the side fracturing a few of his ribs.

John McDonald, who was camping with some Renfrew friends at Lake Dore, on Wednesday morning was extracting a cartridge from a revolver when it accidently went off, the ball penetrating the upper part of the right leg passing downwards locating itself at the inside of the knee.

Mrs Michael Ryan died very suddenly at her residence, Marysville, at 9 o'clock Monday evening. Deceased complained of not feeling well and retired to her room where in a few minutes she breathed her last. Her maiden name was Mary Jane Coffee and she was a native of Tyendinaga township. She is survived by her husband and six children.

Mr. W. H. Minaker, while working with his bees the other day, near Norwood, was so severely stung that for a time it was thought that his life was in danger. An unfortunate double drowning accident occurred on the Moose river near the village of Casselman on Thursday last by which a small boy and girl were drowned. The victims were playing on logs with a number of companions and fell into the water together. Assistance was on hand almost immediately, but life was extint when the bodies were pulled out of the water.

Last Sunday morning Mr. and Mrs. Henry Goodwin and family started in their conveyance from their residence a short distance east from Northport to attend service at St. Gregory's church, Picton. When about four miles from Picton Mrs. Goodwin was suddenly taken ill, complaining first of a feeling of chillness and then becoming unconscious. When taken from the carriage she was dead.

Rev. J. M. Munro, last night preached an eloquent and instructive sermon to a large congregation on baptism, taking for his text, Romans 6—4. "Therefore we are buried with him by baptism into death, that like as Christ was raised up from the dead, by the glory of the Father, even so we also should walk in newness of life." At the close of his interesting sermon, the ordinance of baptism was administered to five believers, four ladies and one gentleman.

Yesterday morning Rev. Dr King, of New York occupied the pulpit in Bridge street Methodist church, and he well sustained his reputation as a preacher of rare eloquence and power. His theme was the importance of small things in the economy of salvation, and he handled his subject in a most able manner. His discourse was practical and an impressive one. He believes in a religion that makes itself felt by every possessor thereof, and he dealt some hard blows at mere churchianity as opposed to christanity.

The Tribune says: "Mr. M. S. Hogan of Cleveland, Ohio, favored us with a pleasant call on Wednesday. He was formerly a resident of Tyendinaga and remembered well when forty years ago, his parents landed at Deseronto, then known as Culbertson's wharf a place of a few houses. He was surprised to see Deseronto such a flourishing town. Mr Hogan is a large dealer in real estate and ranks among the solid men of the great and rapidly growing city of Cleveland. He is making a trip through Canada and the Eastern states visiting all points of interest."

Though the soil of Virginia grows the best tobacco leaf in the world, it does not all grow equal qualities. The production even of adjoining counties is often quite different, the one producing leaf which at once deteriorates if grown in the other. The leaf of the "Myrtle Navy" is the product of the choice sections of the State, which, through some combination of local influences, produce a better quality than any others. This is shown by its always commanding a higher price than any other smoking leaf.

NEWTON BEERS."

The above lines were in a despatch received by an uptown theatrical agent yesterday. The woman referred to is Miss Mollie Thompson, one of the best known actresses on the vaudeville stage, and a daughter of Johnny Thompson of "On Hand" fame. Miss Thompson has been for two weeks with Mr. Beers' company, "Eloped With a Circus Girl," and had made a hit with the company. One of the features of her performance was riding on a bareback horse.

The Miners' War Over.

CHATANOOGA, Tenn., Aug. 22.—The war of the Tennessee miners is evidently over. Gen. Carnes is in possession of Coal Creek and reports his entire ability to care for all of the hostiles with the military and has ordered the volunteer citizens to return to their homes. The casualties among the troops and the citizens amount to 5 killed and about 15 wounded. The miners' loss has not yet been learned, but many of them must have been killed or wounded, as Col. Woolford is certain that six of them were killed in the early morning attack on his column. Two hundred miners are prisoners in the hands of the militia.

ITCHING AND SCALY

Skin Disease 9 Years. Doctors and Medicines Useless. Cured by Cuticura for $4.75.

I feel it is my duty to tell you my experience with your CUTICURA REMEDIES. I have been troubled for over nine years with a dreadful skin disease. When I first felt it, there appeared a few small red spots on my breast, and it kept on spreading slowly. It started the same on my back, between my shoulders. A few days after the spots turned gray, and began itching. Small scales would fall off, so it continued spreading all over my body. I tried all the patent medicines I could think of, or get hold of. I also consulted doctors. Yes, they would cure me in a short time, but they always failed. Then I gave it all up, thinking there was no cure for me. Some few months ago, I noticed your advertisement in the Tacoma *Morning Globe*; thought I would try the CUTICURA REMEDIES, not thinking it would do me much good, but to my surprise, three boxes of CUTICURA, one cake of CUTICURA SOAP, and three bottles of CUTICURA RESOLVENT cured me entirely. My skin is now as white and pure as that of a child. I send my photograph. I have many friends in Chicago, Ill., and St. Paul, Minn.

the sore healed up, he became perfectly well and is now a lively, robust boy. Other parents whose children suffer from impure blood should profit by this example.

HOOD'S PILLS cure Habitual Constipation by restoring peristaltic action of the alimentary canal

A PROLIFIC SOURCE OF DISEASE.—trifling indiscretion in diet may lay the foundation of confirmed dyspepsia, and there is no fact in medical science more positively ascertained or more authoritatively asserted than that dyspepsia is the parent of a host of bodily ills, not the least of which is contamination of the blood and the maladies of which that is the direct consequence. The original cause is however thoroughly eradicated from the system by [illegible] Lyman's Vegetable Discovery and Dyspeptic Cure, a medicine which only requires regularity and persistence in it use to cure dyspepsia and many other ills that arise from it. No deleterious mineral ingredient is contained in it, and though its action is thorough in cases of costiveness it never produces griping pains in the abdominal region, or weakens the bowels like a violent purgative. It invigorates the system through the medium of the increased digestive and assimilative activity which it promotes and is also a most efficient remedy for kidney disease scrofulous and all diseases of the blood femole weakness, &c., &c Price $1.00 Sample bottle 10 cents. Ask for Northrup & Lyman's Vegetable Discovery and Dyspeptic Cure. The wrapper bears a fac-smile of their signature. Sold by all medicine dealers.

If you have a cough or cold do not neglect it; many without a trace of that hereditary disease have drifted into a consumptive grave by neglecting what was only a slight cold. Had the used Bickle's Anti-Consumtive Syrup before it was too late their lives would have been spared. Mr. A. W. Levy Mitchell, writes. "I think Bickel's Anti-Consumptive Syrup the best preparation on the market for coughs and severe colds. About six years ago I caught severe cold which settled on my lungs, and for three months I had a cought. I had a physician attending me, but gradually grew worse until I was on the verge of Consumption, and had given up hopes of being cured, when I was induced to try Bickel's Syrup. Before I had taken one bottle I found myself greatly relieved, and by the time I had finished the second bottle I was completely cured. I always recomend it for severe colds and consumption."

THE STRIKE AT BUFFALO.

IT IS NOW BELIEVED TO BE VIRTUALLY OVER.

The Tied-Up Roads Have Loosened Their Bonds, and Cars are Moving—If the Firemen and Trainmen Don't Go Out the Strikers are Beaten.

BUFFALO, N. Y., Aug. 23.—If the switchmen are to receive the support of the trainmen, firemen, engineers or freight handlers it would be a good idea for them to get it right away. It won't be much good to them unless they do.

The Buffalo railroads were doing a humming business Monday. Vice-President H. Walter Webb of the New York Central sent out more freight than his road has handled on any day for four months. On the Lake Shore, Erie, Nickel Plate and Lehigh Valley work went on and the absence of Mr. Sweeney's switchmen was not noticed.

The incident of the day was the strike of 50 switchmen of the Western New York & Pennsylvania Railroad because required to handle freight from the New York Central and the joining in of 30 car handlers employed upon the Leigh trestles. These latter declare they will not seek re-employment until the grievances of the switchmen have been attended to.

The leaders of the various organizations connected with the railroads will meet in this city probably Thursday. All have been summoned. Grand Master Wilkinson of the Trainmen's Union is expected to-day.

Grand Master Sargent of the firemen, Sweeney of the switchmen and Thurston of the telegraphers are already here. Clark of the conductors will not reach here till Wednesday, and Chief Arthur of the engineers has not yet responded.

It is regarded as improbable that these men will agree to a general strike, and the situation therefore looks blue for the switchmen, as the railways are rapidly getting rid of freight accumulations, and with the present military protection are not grievously put about.

Prepared for an Emergency.

NEW YORK, Aug. 23.—It is understood that Superintendent Byrnes has been informed that trouble may be looked for in connection with the railroads here at any hour and that he has taken measures to cope with any disturbance that may occur. About 900 policemen were kept in the various station houses yesterday. Last night all the reserves were on duty.

Over on the Lehigh.

PHILADELPHIA, Aug. 23.—Reading officers consider that the strike of the Lehigh Valley is at an end. They say that trains are moving freely, and that they apprehend no trouble from firemen and engineers.

General Manager Seargeant Takes a Look Into the Future.

NEW YORK, Aug. 23.—L. J. Seargeant, general manager of the Grand Trunk Railway, speaking yesterday at the Windsor Hotel about the strike at Buffalo, said: "The only point on our road where any dissatisfaction has been manifested is at Toronto. Some switchmen there have presented claims that practically involve an increase of wages. As soon as I return I will give the matter attention. I believe in fairly discussing the question of wages with our employes. I also believe that the men should take a reasonable view of things and in presenting their claims to consider the possibility of meeting them.

"The Grand Trunk is in a position to keep its head above water, but it is not a rich corporation. The stockholders do not favor out-goings that tend to decrease the results. I do not anticipate any demand among our employes for more wages. Living is cheaper in Canada than in the States, and therefore the same conditions do not exist there as in this country. Our men, generally, are satisfied with their wages. Labor disturbances affect the public almost as much as the people directly involved.

"Looking into the future of the relations between capital and labor I think some means will have to be adapted for the settlement, speedily and satisfactorily, of all traubles that may arise. There should be some tribunal, not of a political but of a judicial character, and composed of honest and capable men, who will act fairly and importially on the cases presented for their adjudication. There should be legislation with this end in view."

THE BORDENS TO MOVE.

They Desert the Old Mansion, and it Will Probably be Torn Down.

FALL RIVER, Mass., Aug. 22.—Emma Borden and John V. Morse are now making preparations to leave the old house where the murder was committed. It is in the locality inhabited by many of the best people of Fall River. The old house will be offered for rental, and if not rented will be torn down.

The sentiment in the city, which was early in the week arrayed on the side of Lizzie, has during the past few days rapidly drifted around and crystalized into a general support of the police. As additional evidence is put forth each day the belief is becoming forced on the city that the Government has a strong case.

THE C.P.R'S PLAN.

It Is Arranging to Have a Share of World's Fair Trade.

CHICAGO, Aug. 23.—The Canadian Pacific will be the largest factor in foreign business to the World's Fair. Its plan, now nearly completed, will make it the largest railroad corporation in the world except the Santa Fe. It is well known that Canadian Pacific stockholders are advancing all the money of the so-called Wabash line between Chicago and Detroit. It will be the Canadian Pacific in everything but name, that means being deemed best to avoid international difficulties.

The Bride's Father a Little Too Late.

SHELBYVILLE, Ind., Aug. 23.—Miss Mill Glessner, daughter of Judge O. J. Glessner, eloped with Stephen Ellis last night. Ellis procured a marriage license and carried Miss Glessner away in a buggy to a parson's, where they were married. They appeared at the depot and purchased tickets for St. Louis, but while waiting their train the judge, who had heard of the elopement, came down the street in hot pursuit. The runaways were on guard, and on his approach started east afoot, but were overtaken two blocks away. After convincing the irate father that the ceremony had been performed the twain were permitted to renew their wedding tour.

One More Unfortunate.

WELLAND, Aug. 23.—The adjourned inquest into the death of the girl Mann, whom it was supposed died from criminal abortion, was concluded in Wellandport before Coroner Cumines on Saturday, and a verdict that the girl had died of peritonitis rendered. There was no evidence produced implicating Mr. Fred Weidman, but it was admitted by the mother of the deceased girl that she had asked $500 to keep the scandal quiet, but he refused to pay it.

Lord Rosebery Will Not Join.

LONDON, Aug. 13.—The Daily Telegraph says: "It is understood that Lord Rosebery will not join the new Cabinet. Should this prove true Lord Kimberley will probably accept the Foreign portfolio with the leadership of the House."

MR. HAGGART TALKS.

The Minister of Canals on the Retaliation Question.

OTTAWA, Aug., 23.—Very little except President Harrison's canal proclamation is discussed here.

The Cabinet meets to-day, but the canal dispute will likely not be discussed in the absence of the leading members of the Ministry.

"My own opinion is," said Hon. John Haggart, Minister of Railways and Canals, "that the policy of the Government will be to place the Canadian shippers on the same footing as the American shippers, even if they have to recoup them out of the public treasury."

"I have heard nothing of the proclamation beyond what I have seen in the press. I see that the President has fixed the tolls at 20 cents, the same as is now placed on the Welland, and that they will only remain in effect during the time we continue this alleged discrimination. Long before this we saw that it was in our interests to push ahead the Soo Canal so as to have a line of navigation between the great lakes and our own territory. Instructions have been given out to carry on and complete the work as soon as possible. Work will be carried on night and day, until that is accomplished. I think that by the end of next summer we will have a system of navigation of our own connecting Lake Superior far better than the American's. We will have a lock 900 feet long and 60 feet wide, which can hold a whole tow and make lockage in one half the time it can now be done on the American side.

Sir Henry Tyler Talks.

NEW YORK, Aug. 23.—L. J. Seargeant, general manager of the Grand Trunk Railway, in referring to the retaliation of the American Government in the ship-toll controversy, said yesterday: "There should not be any restriction on the free transportation of commerce either way between this country and Canada. The interchange should be as free on the canals as on the railroads. The Grand Trunk road built a tunnel costing over $3,000,000 under the St. Clair River to encourage an interchange of traffic between the two countries and the project is a great success. I should be sorry to see any restrictions placed upon the free passage of goods through this tunnel, as it is of great benefit to both Canadian and American shippers."

Sir Henry Tyler of London, president of the Grand Trunk Railway, was a guest yesterday of the Windsor. He came here to make his annual inspection of the road. Spoken to with reference to the canal question he said: "I believe that the sooner the difficulty between two great countries is settled the better it will be for both."

RATTLERS KILL TWO WOMEN.

Awful Encounter With the Deadly Reptiles on a Huckleberry Mountain.

COUDERSPORT, Pa., Aug. 23.—The details of a horrible encounter with rattlesnakes in which two women were killed by the venomous reptiles has been brought here by a commercial traveler from Gold, a village of this county. Several days ago Mrs. Jacob Nevins, Mrs. Sarah Harmon and three or four other women and their husbands went upon the mountains near Gold to pick huckleberries. Mrs. Harmon sat down to pluck the fruit by the side of a rock. A large rattler unseen by her, which lay on the rock, struck the woman on the jugular vein, causing a considerable rupture. She screamed, but bled to death in half an hour. While assisting Mrs. Harmon, Mrs. Nevins was bitten twice on the leg and once on the hand by anothes rattlesnake and died five hours afterward. The men in the party came to the rescue from nearby, gave the women whisky, but to no purpose. They then killed seven huge rattlesnakes within a few yards of where the fated women were bitten and the whole party left the mountain in terror.

TALMAGE CAPTURES BIRMINGHAM.

Even in Brooklyn He Never Received Such an Ovation.

BIRMINGHAM, Aug. 23.—The Rev. Dr. Talmage addressed the largest assembly that ever gathered in Birmingham. The Town Hall was packed with an audience of 8000 persons an hour before the services began and outside there were 30,000 more people, whom Dr. Talmage addressed from his carriage after the services in the hall.

On the way back to his hotel Dr. Talmage was informed that 10,000 persons were still waiting on the other side of the Town Hall to hear him. Dr. Talmage immediately returned and briefly addressed them, and an immense crowd, estimated to number 20,000, then sang, "Praise God from whom all blessings flow."

The main doors of the hotel had to be bolted against the surging crowd which ran ahead of his carriage.

A Monument To the Unknown.

WESTVILLE, N.S., Aug. 23.—There have been deadlier explosions in Nova Scotia since the Drummond explosion of 1873, but none so terrifying to those who witnessed it. Opposite Clare Park, the seat of Mr. Charles Fergie of the Drummond colliery is Drummond Park, some eight acres in extent, the gift of the company to the people of Westville. In a corner of the park there is traced off a plot 25 feet square. In this plot are interred the bones of over 50 victims of the explosion. So dreadful was the havoc that the remains of a large number could not be identified. Failing to be recognized by friends the remains were put into one common burying ground. To mark the spot where the victims lie buried a handsome monument, probably the handsomest in the province, has been erected by the employes of the colliery assisted by the owners. The monument was unveiled on Saturday afternoon. Mr. Thomas Hale, chairman of the committee, recited the steps taken in the matter. Short addresses were delivered by Mr. John McDougald, M.P.; Mr. Roderick McDougald, cashier of the company; Mr. Charles Fergie, manager, and Mr. R. Drummond. Letters of apology from Sir John Thompson, Hon. Mr. Tupper and Mr. D. C. Fraser, regretting their absence were read and a telegram from Mr. R. Dickie, M. P., announcing that he had missed the train. The monument stands 16 feet high and has the names of all who perished engraved on it.

Scarcity of Binder Twine.

WINNIPEG, Aug. 23.—A shortage of binder twine is causing dangerous delay in harvesting. One hundred binders in Portage district were idle Monday for want of twine.

Asleep On the Track.

WINNIPEG, Mann., Aug. 23.—Three Russian railroad laborers who had tramped from Medicine Hat to Regina fell asleep on the C.P.R. track near Regina. A passing freight train killed one of them and injured two others.

FARMERS AS ROBB

A WELLS-FARGO CAR RANSACKE A QUARTET OF GRANGERS.

Although New At the Business of ing-Up Trains, the Robbers Did Work Well, Only They Capture Wrong Train and Had a Leaky In the Gang.

WICHITA, Kan., Aug 23.—The St. and San Francisco east-bound pass train, which left here at 10.30 last was held up and the Wells-Fargo pany's express car robbed by four m men near Augusta, Butler County, midnight. Before 9 o'clock this mo the outlaws were captured with pa their booty.

As the train slowed up at Santa Fe crossing, a mile eas Augusta, two masked mounted locomotive from either side and ering the engineer and fireman guns ordered them to stop the train. the train came to a standstill two members of the gang, who had be hiding, began to uncouple the expres

As soon as this was done the eng was forced to pull out with the car a distant from the rest of the train. two of the highwaymen watched the motive crew, the others went to the ex door and demanded admittance, as way of emphasizing their demands, menced shooting through the sides o car, in which were Express Mess Shipp and a baggageman. The impris men soon gave in.

The Wells, Fargo Company has taken hold of the 'Frisco line and their have not yet received their compleme arms. Accordingly the express mess had nothing with which to defend hi save a small revolver.

Shipp was forced to open his safe an robbers ransacked it, getting betwe and 20 packages of money. The thing was over in 30 minutes, and the waymen left the train, firing a few pa shots at the receding locomotive, w however, hit no one.

The outlaws did not attempt to rob passengers, and few of the latter knew thing of the situation until all was ove

How much money was secured cann ascertained, but the amount probabl not exceed $3000, as the train is made Burton, 20 miles west of here.

The robbery was committed by four mers living in the vicinity of Dou Butler County, and, it seems, was ex ed. Sheriff Nipp of Cowley County, been informed early in the week by a man of the gang that such a scheme w foot.

While Nipp could not discover ex when the robbery was to take place he posses in waiting, and as soon as he word of the hold-up pounced on the laws.

The robbers are new at holding up tr but they did their work like professio and the only mistake they made wa capturing the wrong train, as, had robbed the westbound 'Frisco instead o eastbound at so short a distance from of departure, they would probably hav cured a large amount of booty.

EDITORIAL NOTES.

Both liberals and conservatives throughout Ontario will regret to learn of the ill health of Hon. G. W. Ross, Minister of Education, due to excessive labor in the discharge of his onorous duties. No more able and conscientious minister ever held a portfolio in this province and he is withal an orator of the highest rank, he and Mr. Meredith being rivals for the first place in the Ontario Legislature. Mr. Ross leaves shortly for six months to recuperate and let us all hope that he will come back with renewed health. Hon. J. M. Gibson will be acting Minister of Education during Mr. Ross' absence.

Since Sir Oliver ordered the Reform party not to believe in annexation, Sol. White and the Toronto roughs seem to be the only wavers of the Stars and Stripes in Canada.—Hamilton Spectator. In other words the Toronto roughs, in the Spectator's opinion, are all tories. Well, the Spectator should know, and its deliverance on the subject fully accords with the opinion of all intelligent citizens. The tory party contains many respectable men and the reform party contains doubtless a few roughs. But the bulk of the intelligent and respectable citizens are liberals and the vast majority of the roughs are tories. Eliminate that element, as it should be, and the reformers would carry nine tenths of the constituencies in Canada.

The Free Traders in the United States, and their name is legion, are flooding the country with literature. Millions of copies of Henry George's splendid work on protection and free trade have been distributed free, and these are doing wonders in giving the people right ideas on the principles of political economy as they relate to trade and commerce. Another most valuable work on this subject is M. M. Trumbull's "Free Trade Struggle in England," published by the Open Court Pub. Co., of Chicago. This book gives the history of this famous fight between the masses and the classes, and shows how the victory of the masses was finally obtained. The main features of that struggle are now being repeated in the States and in Canada and this timely publication will prove exceedingly helpful to those who are fighting so manfully to break down the artificial barriers to trade erected only in order that the few may become rich at the expense of the many. Everyone who wishes to become conversant with the history of the great struggle in England should secure a copy of this work.

The retaliation bill passed at the last session of Congress has at last been proclaimed in force by the President, and will come into effect on Sept. 1st. After that date all freight to Canadian ports whether in Canadian or American vessels, will have to pay at the Sault Canal a toll of 20 cents per ton. The President delayed his proclamation for some weeks in order to give the Canadian government an opportunity to abolish the rebates, but as they have decided not to do so this year, he has imposed the retaliatory toll. He is, however, to be commended for his moderation. The act allowed him to go as high as $2 a ton on freight and $5 each on passengers, but he imposes only 20c a ton on freight and nothing on passengers and gives moreover ten days of grace before the act comes into force. The fact that our government had announced their intention of abolishing the rebate next year probably induced this moderation on the part of the president, and possibly he would not have declared the act in force at all had it not been compulsory for him to do so. The Toronto Mail says: As it is, the United States simply meets our toll with a like toll. As the American toll is low and does not come into operation until the first of next month, it will not be a very serious matter; and as it will go off altogether when our rebate ceases, as cease it will at the end of this season, it need not trouble us much. The difficulty, in the shape it has assumed, is happily not going to lead to reprisals and to ill-feeling.

The Ladies Delighted.

The pleasant effect and the perfect safety with which ladies may use the liquid fruit laxative, Syrup of Figs, under all conditions make it their favorite remedy. It is pleasing to the eye and to the taste, gentle, yet effectual in acting on the kidneys, liver and bowels.

Advertising a patent medicine in the peculiar way in which the proprietor of Kemp's Balsam for cough and colds does it is indeed wonderful, He authorized all druggists to give all those who call for it a sample bottle free, that they may try it before purchasing. The large bottles are 50c and $1 We certainly would advise . It may save you from consumption

A Pleasant Herb Drink

The best cure we know of for constipation and headache is the pleasant herb drink called Lane's Family Medicine. It is said to be Oregon grape root, combined with simple herbs, and is made ready for use by pouring boiling water onto the dried roots and herbs. It is remarkably efficacious in all blood disorders and is now the sovereign remedy with ladies for clearing up the complexion. Druggists sell the packages at 50c and $1

For all forms of female weakness Dr. Williams' Pink Pills are an unfailing specific. Mr. Thomas Strachan, Postmaster, Roballion write: My daughter has been ill for the last four years with female weakness, and had been attended by four of the best doctors in our section. She began the use of Dr. Williams Pink Pills, and two boxes have done her vastly more good than all the medicines she took from those doctors.

What She Said

Mrs. R. Peck, 15th street, New York City, visited Canada last year, and had the good fortune to pick up something which not only suited her, but her neighbors also. Writing the manufacture of Nerviline she says:—"I bought three bottles of Nerviline while in Canada and treated my neighbors to some of it, and all think it the best medicine for internal or external pain they have ever used." Nerviline deserves such commendation, for it is a most powerful, penetrating, and certain remedy for pain of all kinds. Take no substitute.

PAR the power of acting specifically upon the diseased organs, stimulating into action the dormant energies of the system thereby removing disease. In fact, great is the power of the medicine to cleanse and purify that diseases of almost every name and nature are driven from the body. Mr. D. Carswell, Carswell P. O., Ont. writes: "I have tried Parmelee's Pills and find them an excellent medicine, and one that will sell well.

A Cure For Constipation And Headache

Dr. Silas Lane while in the Rocky Mountains discovered a root that when combined with other herbs makes an easy and certain cure for constipation. It is in the form of dry roots and leaves, and is known as Lane's Family Medicine. It will cure sick-headache in one night, For the blood, liver and kidneys, and for clearing up the complexion it does wonders. Druggists sell it at 50 cents a package

Weighed in the balance, but not found wanting. Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure has been weighed in that just balance, the experience of an impartial and intelligent public. Both remedially and pecuniarily it is a success. Its sales constantly increase, testimony in its favor is daily pouring in. The question of its efficacy in Dyspepsia, Liver complaint, Kidney Ailments, and for Blood Impurity is decided Now is the time to take a good tonic medicine. Hood's Sarsaparilla possesses the greatest merit, and

Cured Female Weakness

Mr. Hugh Caldwell, Clydesdale, Ont, writes:—"My daughter was under the care of doctors for more than a year for female weakness, without getting relief. I then procured Pink Pills and they cured her." All dealers 50 cents a box or 6 boxes for 2.60, or mailed on receipt of price. Dr. Williams' Med. Co.. Brockville, Ont., and Schenectady, N. Y.

The highest praise has been won by Hood's Pills for their easy, yet efficient action.

As an after dinner pill, to strengthen the stomach, assist digestion, and correct any bilious tendencies, Ayer's pills are considered the best. Being sugar coated, they are as agreeable as any confection, and may be taken by the most delicate.

How Mr. W. D. Wentz of Geneva, N.Y, was cured of the severest form of dyspepsia? He says everything he ate seemed like pouring melted lead into his stomache. Hood's Sarsaparilla effected a perfect cure. Full particulars will be sent if you write C. Hood & Co., Lowell, Mass.

HANGED THEIR LEADER.

SOLDIER IN TENNESSEE LYNCH BUD LINDSAY.

The Entire District Now Under Military Law—Commissioner Ford is Believed to Have Been a Spy—A Scheme to Smoke Out the Miners Not Yet Arrested.

COAL CREEK, Tenn., Aug. 23.—"Bud" Lindsay, Deputy United States Marshal, chief conspirator in this insurrection against law and order, the man who placed a pistol at the head of General Anderson and commanded him to surrender the fort after he had gone among the miners under a flag of truce, was hanged by the troops last night. Soldiers who were sent here to uphold the law and gather in the lawbreakers have themselves become the chief spirits in the work of wreaking vengeance in a lawless way.

There have been threats of lynching Lindsay ever since he was brought in a prisoner yesterday. He is known to have been the chief firebrand among the lawless miners. To his inflammatory speeches are due most of the acts of treason among the mountaineers who have waged war against the Commonwealth of Tennessee.

Military law, though not proclaimed, is practised here to-day. Within the circlet of the sentinels there is no individual freedom. Men come and go by sufferance of the commanding officer, and passes must be shown at every turn. Soldiers board the trains as they come into the station and subject each passenger to scrutiny. Arrests without a civil warrant are made as far away as Knoxville, 30 miles distant. The bayonet is deemed process enough, and a prick of the sword is duces tecum sufficient for all practical purposes.

There were no services in either of the two little churches yesterday. The Baptist Church upon the hill was locked and empty. The Methodist Church in the valley was packed by a mass of sweltering, suffering humanity, black and white, unkempt, frowsied, worn and anxious, which made one think of a stockade in war times. Two hundred and fifty prisoners are locked up here, with armed pickets on every side.

Everything was quiet in camp yesterday. There have been 25 or 30 new prisoners brought in.

Labor Commissioner Ford is still under arrest, and positive evidence has been obtained that he not only aided and abetted the miners before the trouble, but it is strongly suspected that he had been acting as a spy up to the time of his arrest. Preparations are being made for scouting parties to go out and smoke out the abandoned mines in order to run out miners who are suspected of being in hiding in them.

A Queenston Man Found Dead Under Suspicious Circumstances.

QUEENSTON, Ont., Aug. 23.—John Ryan, aged 63, was discovered dead in bed Sunday morning. Ryan, who is an old Union soldier, had been on a drunk for several days. His life had been threatened on Saturday, so rumor says, and Charles Wadsworth took him to his house, where he went to bed. He was not seen until the morning, when he was found dead.

The body was buried in great haste Sunday afternoon, so it is alleged. There is considerable mystery regarding his death.

Sir John Abbott's Health.

MONTREAL, Aug. 23.—One of the Conservative leader's sons, Mr. Jack Abbott, said yesterday that the Premier had taken the train for Quebec, where he intended to await the arrival of his own yacht, which had been taken down to the ancient capital by Mr. William Abbott, and from thence the promised trip to the lower St. Lawrence will be immediately undertaken. "All that I can say is," added Mr. Abbott, "that my father is completely tired out, and has been ordered away from the cares of state. I have no fear, however, of the ultimate result, for I believe that absolute rest for three or four weeks is all that is required to bring him back to the vigorous discharge of his duties at the capital."

A C.P.R. Smash.

OTTAWA, Aug. 23.—A smash-up occurred a few miles from Avonmore on the Ontario and Quebec division of the C.P.R. yesterday morning. It resulted in the death of a brakeman named James Woods of Smith's Falls and heavy loss to the company. A freight train going east had only passed Avonmore a couple of minutes when it crashed into another freight train coming in an oppositite direction. The drivers and firemen on both engines jumped and escaped, but James Woods, brakeman, who was on the east-bound train, was between two cars when the trains met and was instantly killed.

The Borden Trial Postponed.

FALL RIVER, Mass., Aug. 23.—The courtroom was crowded yesterday at the preliminary trial of Miss Lizzie Borden. Many ladies were present. Thirty-two newspaper people, three of them ladies, were at the tables. Five of these were artists taking sketches. Bridget Sullivan and Mrs. Russell were on hand.

At the request of the Government the trial was postponed until Thursday. The postponement is generally regarded as a weakening on the part of the Government.

RUSSIA'S CHOLERA PLAGUE.

Three Thousand Deaths Yesterday—And Nearly 7000 New Cases.

LONDON, Aug. 23.—The Standard's Berlin correspondent says: "Since the hot spell set in numerous cases of cholera have occurred in various parts of Germany and several persons have died of the disease in Hamburg, but no cases of Asiatic cholera have been reported."

A Paris correspondent says the heat snapped a rail at the Bourget station yesterday, causing the telescoping of a train. The driver and stoker of the engine were killed.

A Vienna dispatch states that the heat has caused numerous forest fires and has injured the field crops, especially in Hungary, but that the vintage prospects are very fine.

A Madrid correspondent says that in the majority of the provinces of Spain the vintage prospects are very good.

A despatch from Teheran says: "Cholera is increasing rapidly at Tabriz, where the number of deaths has fallen to 60 daily. The epidemic is still severe in the neighborhood of Teheran. The vice-governor and his wife died yesterday. Several Europeans have died. The only trustworthy, independent estimate is that the deaths number from 800 to 900 daily."

ST. PETERSBURG, Aug. 23.—Official cholera returns show 6891 new cases and 3313 deaths throughout Russia yesterday.

LONDON, Aug. 23.—Continental advices report a large increase in the deaths and prostrations owing to the extensive heat. Military manœuvres have been abandoned at Vienna, and in many places business is almost at a standstill. The water famine is spreading owing to the drying up of rivers and creeks.

T. P. O'CONNOR ON THE MINISTRY.

He Thinks That, on the Whole, Gladstone Has Chosen Wisely.

LONDON, Aug. 23.—T. P. O'Connor, M.P. for the Scotland division of Liverpool, in an article in his paper, the Sunday Sun, says:

"Most people not blinded by disappointment, agree that the new ministry is a very good government. This misfortune was, that there were only 36 places for 360 applicants. It is natural though inconsistent that Mr. Gladstone should be bidden to do a certain thing, and then be abused for doing it. He has put in new blood and is now assailed for giving young men undue importance.

"Mr. Asquith's appointment (Home Secretary) is especially criticized. Nevertheless, it is one of the best appointments. Mr. Asquith is one of the finest speakers in the House of Commons—certainly the finest in the ranks of the younger Liberalism, and we want a strong Treasury bench for the great fight we are entering upon—men able to hold their own with the Chamberlains, Goschens, Balfours and Churchills. Mr. Asquith's dazzling success is bound to create for him a rich harvest of jealousy and envy.

"Mr. Acland's appointment, vice-president of the Council on Education, has given unusual satisfaction.

"Arnold Morley has a difficult heritage in the postoffice, but I little doubt that his tenure of the office will be worthy of its best traditions.

"London is well represented in the Government, and the offices outside the Cabinet are well filled. Lord Rosebery, Foreign Secretary, is one of the strongest points in the Administration.

"We must all regret the exclusion of Mr. Labouchere. No man has done harder work for Liberalism. He was too old and true a friend of Home Rule in the days of stress, darkness and isolation to desire to defeat it now. It is a fatal policy for those interested in monarchism to allow a member's action with regard to the civil list to interfere with his official prospects.

"Before many days a royal commission will be announced to enquire into the situation of evicted tenants in Ireland. It would have been announced earlier but for ...

All through the Provinces the rapid increase of La Grippe, is causing great alarm. A report was received here to-day, of a new development of the disease, which is worse, perhaps than any other. Wm. Hanley of N. Y. City, died in terrible agony after sickness of only four days. His tongue swelled to such an extent as to make it impossible for him to close his jaws or swallow any food. The report is causing the people in this district to recall the noted Grip-cure, recently referred to in so many papers. In Cape Breton the disease has spread very rapidly and with fatal results. D. J. McKillop of L'Archeveque writes Feb. 11th that this cure has been tried in his neighborhood and with such success that all those residing there are obtaining a supply believing it to be the only remedy affording relief and effecting a certain cure. He finished his letter by asking for a large quantity of the Medicine (Dr. Morse's Indian Root Pills) to supply the demands of the community for the relief of LaGrippe.

To Preserve

The richness, color, and beauty of the hair, the greatest care is necessary, much harm being done by the use of worthless dressings. To be sure of having a first-class article, ask your druggist or perfumer for **Ayer's Hair Vigor.** It is absolutely superior to any other preparation of the kind. It restores the original color and fullness to hair which has become thin, faded, or gray. It keeps the scalp cool, moist, and free from dandruff. It heals itching humors, prevents baldness, and imparts to

THE HAIR

a silken texture and lasting fragrance. No toilet can be considered complete without this most popular and elegant of all hair-dressings.

"My hair began turning gray and falling out when I was about 25 years of age. I have lately been using Ayer's Hair Vigor, and it is causing a new growth of hair of the natural color."—R. J. Lowry, Jones Prairie, Texas.

"Over a year ago I had a severe fever, and when I recovered, my hair began to fall out, and what little remained turned gray. I tried various remedies, but without success, till at last I began to

USE

Ayer's Hair Vigor, and now my hair is growing rapidly and is restored to its original color."—Mrs. Annie Collins, Dighton, Mass.

"I have used Ayer's Hair Vigor for nearly five years, and my hair is moist, glossy, and in an excellent state of preservation. I am forty years old, and have ridden the plains for twenty-five years."—Wm. Henry Ott, *alias* "Mustang Bill," Newcastle, Wyo.

"There has been a great deal of talk lately about the large black bass hooked in this district. The largest bass caught would only make a bite for the black bass caught near the Island of Santa Barbara, off the Pacific coast. The smallest black bass weighs 350 pounds." So said a gentleman today.

In corps where there are two majors the junior will be held responsible for the duties of paymaster. Where there is one major he will be held responsible.

The Tribune says that John Heggarty was the victim of an untoward accident on Monday. Doctors Newton and Yeomans reduced the fracture and the patient is doing well.

The annual exhibition of the Tyendinaga Agricultural Society will be held at Shannonville, on Saturday Sept. 24th. The Directors will use every effort to make this event a success and should be assisted by all the farmers of Tyendinaga and Thurlow in this laudable purpose. The Shannonville fair has been improving very much of late years and has become one of the best in the bay district.

Principal Dyer yesterday received from the Ontario School of Art the beautiful silver medal awarded to Miss Mary Clarke for the best colored design of a stained glass window. The medal is of all the more value from the fact that the competition was open to all the Ladies' Colleges in Ontario. Miss Emma Clarke has made the fine art department of Albert College one of the best in the Province.

We do not know of any preparation that has caught the public favor in so short a time as Dodd's Kidney Pills, but when we consider that three-fourths of the Canadian people are afflicted with kidney troubles in some form or other, and that Dodd's Pills are a quick and permanent cure for all these troubles, the large and increasing demand can scarcely be wondered at. Sold by all dealers or by mail on receipt of price, 50 cents per box. Dr. A. L. Smith & Co. Toronto.

Not so Remarkable

It's very remarkable that the Oak Hall are doing a rushing business all the time, and yet when we come to consider, it is not so remarkable after all. We read a lot about perfect system and perfection in this and that line, yet any store that talks this way and is playing a losing game all the time is far from being in the right path to attain perfection. Our ability to buy and sell clothing we believe to be unsurpassed, and the fact that every month's sales this season exceeded last year, solves the problem. It is to the interest of the Oak Hall to sell cheap, and they do sell cheap.

When you want your cistern pumps and waterpipes repaired send to Deacon and Doyle.

BELLEVILLE AND QUINTE BAY.

What is Said of Them by an Undoubted Authority.

Appleton's Canadian Guide Books, Parts I and II are useful manuals that should be in every Canadian home. They contain a minute description of every place of importance in the country, paying special attention to scenic and sporting attractions and historic associations. The books are filled with interesting and important facts. Part I deals with all Canada east of Central Ontario and is compiled by Prof. Chas G. D. Roberts. Part II is devoted to Northwestern Ontario, Manitoba, the N. W. Territories, the Rockies and British Columbia, and is the work of Ernest Ingersoll. Both are written in the choicest language and are literary gems as well as mines of information. Prof. Roberts, in Part I speaks as follows of Belleville and the Bay of Quinte:—

Beyond Trenton lies Belleville, beautiful in its surroundings and in its handsome and shaded streets. Belleville has a population of 12,000 and is full of activity and enterprise. It has fine public buildings and is the seat of Albert College and of the Provincial Institution for Deaf Mutes. The city was named in honor of Arabella, wife of Governor Gore. It stands on the shores of the exquisite Bay of Quinte, whose waters teem with all delights for fishermen, and whose changeful and delicious landscapes will long delay the traveller. This is a region of glamor and romance, away from the beaten paths of trade. It is a land of waving barley fields and of merry picnic parties. In the heart of the peninsula is the lovely and romantic Lake on the Mountain, which occupies the highest point of the peninsula and is kept ever full to the brim, with no visible source of supply. Its surface is on the level with that of far of Lake Erie, a circumstance which has given rise to many conjectures of a mysterious communication between them. Over the changing shores and headlands hang memories of Huron and Jesuit, Iroquois and Sulpician, Mississaga and loyalist pioneer. The book proceeds to speak of Deseronto, which name means "Thunder and Lightning," of Picton and the Sandbanks, which are beautifully described, the sands of which it says is enroaching on the adjacent farms at the rate of 150 feet a year. The name Napanee means "flour," "The town is situated," it says, "on a strange river, whose deep and sombre waters are swayed by a mysterious tide every two hours. This tide r presents a variation of 16 inches in mean level, and sometimes attains a fluctuation of 30 inches." These books are appropriately illustrated and bound in limp cloth and are published by D. Appleton & Co., New York.

REMARKABLE LONGEVITY.

Mrs Taft of Campbellford Almost 100 Years old.

A remarkable story of longevity comes from Campbellford. The Herald says:—On New Year's day next, Mrs. Taft, still in full possession of her faculties, and at present staying with her daughter, old Mrs. Frederick, will be ninety-nine years of age. Mrs. Frederick, herself, is now sixty-eight. Mrs. Taft is a native of Adolphustown; her maiden name was Greenleaf; she was twice married; first to Cornelius Greenleaf; daughters by this marriage afterwards became Mrs. Sweet and Mrs. Henresy. Greenleaf died; she then married a Mr. Taft and became the mother of ten children seven of whom survive. Mrs. Taft was left a wealthy widow over thirty years ago. At seventy-five she shows an enlarged photograph without a wrinkle or a gray hair. The family is of Dutch extraction.

THE HORTICULTURAL SOCIETY.

They Will Hold a Show With the Agricultural Society.

The Horticultural Society met last night and carried the following resolution which was to-day submitted to the Agricultural Society: That they hold a joint show with the Agricultural society on Sept. 27, 28 and 29th on condition that the Bay of Quinte Agricultural Society pay all expenses and prizes, the Horticultural society to manage their own department and the Agricultural Society to take all moneys i e, gate receipts and government grant.

Have you Thought of it

For four thousand years or more the world groaned, suffered and fumed about its corns, for their was no positive relief—no certain and painless cure until Dr. Scott Putman gave to the world his great Corn Extractor. If there is suffering now it is a result of carelessness, for the remedy is at hand. Try Putman's Corn Extractor. It is sure painless, and prompt. Beware of substitutes. N. C. Polson & Co. proprieters. Kingston.

Hood's Pills cures Constipation by restoring the peristaltic action of the alimentary canal. They are the best family cathartic.

Though the soil of Virginia grows the best tobacco leaf in the world, it does not all grow equal qualities. The production even of adjoining counties is often quite different, the one producing leaf which at once deteriorates if grown in the other. The leaf of the "Myrtle Navy" is the product of the choice sections of the State, which, through some combination of local influences, produce a better quality than any others. This is shown by its always commanding a higher price than any other smoking leaf.

THE WAYS OF TORY POLITICIANS.

How A C Miller M P is Rewarding his Supporters

A. C. Miller was elected to parliament a few months ago by the people of Prince Edward county by means of bribes and promises of bribes given unstintingly. He is now in various ways trying to fulfil some of those promises. One way in which this is being done can be seen now at Mosquito Bay, where the government dredge, Nipissing, is engaged in dredging out a private dock on the Prince Edward High Shore. This dredge is owned by the government and was paid for by the people's money for public purposes, and the work it is now doing for private parties is being paid for out of the public funds How do the farmers of Hastings and Prince Edward count us like the idea of paying out their money to defray the cost of work done for some friends of Mr. Miller as a reward for their support. Hon. Mackenzie Bowell has spent considerable time recently in this vicinity. Query—has he been superintending this work? He help d to elect Mr. Miller by lavish promises to the electors of Prince Edward. He is now probably seeing that his promises are carried hot—of course, however, at the expense of people whom he thinks exist only as prey on which tory politicians can batten.

SPORTING WORLD.

The Kingston dog show will be held from Sept. 19th to 22nd.

W. W. Power has sold his fine saddle horse to a Toronto man for a fancy figure.

Henry Hall and Henry Leavens left on Saturday in a skiff for a cruise among the islands.

Two nineteen foot skiffs were stolen from Bell Creek last week. They were owned by S. Hall.

Sam. Hall, fireman has accepted the challange of the Belleville man to pitch him a game of quoits.—News. The match will be pitched for $100 a side. Frank Claus is the Belleville man.

The yacht Onward of Rochester and a keen competitor for the Fisher cup has been cruising on the bay this week with a gay party of Americans on board. They left for home to lay.

Capt. W. Bruce Carruthers while cruising on his yacht near Cobourg last week made a crack shot. Picking up his forty-four caliber rifle he brought down a sea gull swooping through the air about fifty yards off. It was an exceptionally sharp shot.

The Whig says:—"Mr. Brown, Belleville, visiting in Kingston for the past week, is an old amateur base-ball player. He says that Belleville has a fair team, but after witnessing the match between the Princess nine and the asylums, says the club there could not play ball with either team. Bradford of Belleville, will pitch for Watertown in the tournament next week."

The Kingston lacrosse club will have the chance of another match with the Madoc boys and this time the match will occur in Kingston. Madoc has written for a return match, asking the same figure as they gave Kingston, namely $40. Next Friday will probably be the date chosen for the game.

The rank decisions of the umpire, the rough field on which the game was played and the cutting of bases by the Belleville's are not taken into consideration by the ONTARIO as the causes of the Peteborough's defeat on the diamond here recently, says the Examiner.

Common carriers and others are prohibited from transporting any wild dear or the skin thereof, on any occasion except between the 1st and 22nd of Nov. in each year, unless accompanied by an affidavit that the same was hunted and taken during the open season.

At an impromptu meeting of the Bowling club last night after practice it was not difinietely decided as to who would represent Belleville at the Ontario Bowling association's annual tournament at Niagara-on-the Lake to-morrow. It is not likely that more than one rink will go in any event. They leave in the morning.

J I Case, owner of the fast trotter, Jay Eye-See (2.10), has converted the famous trotter to the pacing gait and promises a sensation with him soon. He says that he believes that before the close of the season Jay Eye-See and Direct will be able to do a mile in double harness in 2.05.

Over 500 people attended the baseball game at Cobourg yesterday between the Toronto Dukes and the Cobourgs, and saw the former club receive the most severe defeat they had met with this season. The feature of the game was the heavy hitting of the Cobourgs, who forced McGarry to retire in the 7th innings. The score:—

Decide To-night

If you intend to take in the young ladies' bible class excursion for all day you must decide to-night—Wednesday night after church will be too late. To attend an excursion and a picnic without a basket would detract very much from the enjoyment. So decide to-night and buy your ticket and help on the free reading room.

The steamer Hero will take an excursion to Kingston and Clayton on Aug. 24. Leave Trenton at 7 a.m., Belleville 8, reaching Kingston at 1.30 p.m. Return leave Kingston at 7 p.m. Five and a half hours in Kingston or one in Clayton. Tickets 75cts.

Pipe Smokers

You may be satisfied with the brands of tobaccos you have been using for years. Grant it; that you are satisfied. As there is always room for improvement, we ask you to try our OLD CHUM PLUG, or CUT smoking tobacco; we believe you will be better satisfied. In any case, a trial won't hurt you. Don't delay upon the order f buying, but buy at once.

A neglected cough brings on consumption—the most fatal and prevalent of all physical ills that flesh is heir to. To check the malady in its early stage, before the deadly turbercles develop themselves in the lungs use Dr. Thomas' Eclectric Oil which also annihilates bronchitis, asthma, catarrh, piles, kidney troubles, and soreness of the muscles and joints.

There are more cases of sickness and death from diseased kidneys than from all other diseases combined. It is your own fault if you allow your kidneys to remain in an unhealthy condition when the cure is at hand. Dodd's kidney Pills are guaranteed to cure the worst case. It costs but little to give them a trial. They are for sale by all druggists and dealers or by mail on receipt of 50 cts. 6 boxes for $2.50. Write for book called Kidney Talk.

DANDRUFF.—If you wish a preparation upon which you can rely for the complete destruction of Dandruff, use Capilline and you will be satisfied.

Kingston Cheese Market

Kingston News:—Comparatively little cheese is now being held, in cold storage or otherwise, in Kingston or throughout Frontenac. Probably the largest quantity on hand is a lot of 600 boxes, which is lying in E. J. Madden's warehouse awaiting shipment. No large quantites are stored at Napanee, and the Kingston grocers are unable to get as much as they want. Prices are good all along, and the cheese has consequently been sold off as fast as it was made. During the last week there has been a slight drop in the prices, and as a consequence some of the county factories have stored the make of a week or two, in anticipation of another rise.

Immense quantities are stored at Montreal and New York.

Bright Crop Prospects

Business men find great encouragement in the reports of the magnificent harvest now in progress all over the Province. Of reports from 28 countries, 11 indicated that the wheat crop was quite up to that of last year, 10 were to the effect that the average yield would be better than in 1891 and 7 intimated that the wheat crop was remarkably heavy, or the best ever obtained, while one report contained the pleasing intelligence the yield so much exceeded expectations that the farmers' barns would not hold more than half of it. From these and other reports received by the wholesale trade it seems but reasonable to conclude that we have this year in Ontario the best crop of wheat in the history of the Province. The hay crop was never heavier. The oat crop is a fair average in most sections, and heavier than last year in some important sections.

Wheat on the Decline

A local grain merchant said to-day that the English markets had dropped 2½d since last Tuesday. Speaking of the Manitoba crop he said that if the whea escaped frost this week there would not be much danger of the crop being damaged. The weather was very hot up there and the wheat was ripening rapidly. About this time last year considerable damage was done the Manitoba grain by frost.

Rochester Excursion

Rev. D.O. Crossley has arranged to take an excursion to Charlotte, port of Rochester on Monday Sept. 5th, on the splendid steamer North King. Boat leaves Belleville at 12.30 a. m. Monday morning reaching Charlotte at 7.30 a. m. Tickets $2.00, good to return the same day or on the following Saturday.

Those who are in the habit of taking an appetizer before meals could not do better as well for the effect as for economy's sake, than make use of "Indigenous Bitters." As Indigenous Bitters are slightly laxative, those who suffer from habitual constipation, will derive great benefit, by regularly taking them, as they keep the bowels in good order and in that way aid digestion

TRAVELLING.—A prudent person leaving on a voyage never fails to put into her trunk a bottle of Persian Lotion, the most agreeable and reliable article for the toilet that druggists sell under the name of Persian Lotion.

"Oh, if I had only taken this medicine earlier in my life, what years of sufferin it would have saved me!" was the exclamation of one who had been cured of rheumatism by the use of Ayers Sarsaparilla. Scores of such cases are on record.

As a tonic, the Father Mathew Remedy restores to a healthy condition the stomach and liver of the intemperate, which are always out of order, and builds up his nervous system; as an alterative, it makes a new man of him.

When you want a good stove or range cheap go to Deacon & Doyle, Front St south of Bridge St.

Mr. G. Louttit's Catarrh Cure is for sale wholesale and retail at Geen's Drug Store.

ITCHING AND BURNING

Sores All Over Her Body. Suffering Endless. Doctor Useless. Cured in 4 Weeks by Cuticura.

Your most valuable CUTICURA REMEDIES have done my little girl so much good that I feel like saying this for the benefit of those who are troubled with skin diseases. She was troubled with itching, burning sores. When I took her to the doctor the first time, he called it the Italian itch, and said he would cure her in two weeks. When the two weeks were up, he called it eczema, and in that time she was worse than before. He doctored her for three months, and she was so bad that we did not know what to do. He did not do her any good. I saw the advertisement of CUTICURA REMEDIES in the paper, and I said to my wife, "I am going to try them." Mind what I say, she was so thick with sores that we had to soak her clothes to take them off. Itch! there was no end to it. She had it all over her body, back, legs, arms, in between her fingers. She did not have it on her head. But after taking your CUTICURA REMEDIES for two weeks the itch stopped, and in four weeks the sores were all gone. I enclose her portrait. I am more than pleased with your CUTICURA REMEDIES, as they speedily cured my daughter, and if anybody asks me about your remedies, I will uphold them wherever I go. CHARLES M. GRONEL, Coushohocken, Montgomery County, Pa.

Why Suffer One Moment

From torturing and disfiguring skin diseases, when a single application of the CUTICURA REMEDIES will, in the great majority of cases, afford instant relief in the most agonizing of itching, burning, scaly, crusted, pimply, and blotchy skin, scalp and blood diseases, with loss of hair, and point to a speedy, permanent, and economical cure.

HOOD'S PILLS are hand made, and are perfect in condition, proportion and appearance.

A PROLIFIC SOURCE OF DISEASE.—trifling indiscretion in diet may lay the foundation of confirmed dyspepsia, and there is no fact in medical science more positively ascertained or more authoritatively asserted than that dyspepsia is the parent of a host of bodily ills, not the least of which is contamination of the blood and the maladies of which that is the direct consequence. The original cause is however thoroughly eradicated from the system by [illegible] Lyman's Vegetable Discovery and Dyspeptic Cure, a medicine which only requires regularity and persistence in its use to cure dyspepsia and many other ills that arise from it. No deleterious mineral ingredient is contained in it, and though its action is thorough in cases of costiveness it never produces griping pains in the abdominal region, or weakens the bowels like a violent purgative. It invigorates the system through the medium of the increased digestive and assimilative activity which it promotes and is also a most efficient remedy for kidney disease scrofulous and all diseases of the blood female weakness, &c., &c Price $1.00 Sample bottle 10 cents. Ask for Northrup & Lyman's Vegetable Discovery and Dyspeptic Cure. The wrapper bears a fac-smile of their signature. Sold by all medicine dealers.

If you have a cough or cold do not neglect it; many without a trace of that hereditary disease have drifted into a consumptive grave by neglecting what was only a slight cold. Had the used Bickle's Anti-Consumptive Syrup before it was too late their lives would have been spared. Mr. A. W. Levy Mitchell, writes. "I think Bickel's Anti-Consumptive Syrup the best preparation on the market for coughs and severe colds. About six years ago I caught aevere cold which settled on my lungs, and for three months I had a cought. I had a physician attending me, but gradually grew worse until I was on the verge of Consumption, and had given up hodes of being cured, when I was induced to try Bickel's Syrup. Before I had taken one bottle I found myself greatly relieved, and by the time I had finished the second bottle I was completely cured. I always recomend it for severe colds and consumption."

A C.P.R. Smash.

OTTAWA, Aug. 23.—A smash-up occurred a few miles from Avonmore on the Ontario and Quebec division of the C.P.R. yesterday morning. It resulted in the death of a brakeman named James Woods of Smith's Falls and heavy loss to the company. A freight train going east had only passed Avonmore a couple of minutes when it crashed into another freight train coming in an oppositite direction. The drivers and firemen on both engines jumped and escaped, but James Woods, brakeman, who was on the east-bound train, was between two cars when the trains met and was instantly killed.

The Borden Trial Postponed.

FALL RIVER, Mass., Aug. 23.—The courtroom was crowded yesterday at the preliminary trial of Miss Lizzie Borden. Many ladies were present. Thirty-two newspaper people, three of them ladies, were at the tables. Five of these were artists taking sketches. Bridget Sullivan and Mrs. Russell were on hand.

At the request of the Government the trial was postponed until Thursday. The postponement is generally regarded as a weakening on the part of the Government.

committee havi to the
state board of ar ay Messrs.
Dunovan, Purcell rtson attempted
to learn from the nd Master of the
switchmen when, or if ever, he was going to order out the switchmen now working in the jurisdiction affected by the strike. Mr. Sweney practically refused to give the arbitrators any information. One member of the board questioned Mr. Sweney very closely, but nothing was elicited to guide the board in its action in ordering the investigation decided Tuesday. Mr. Sweney's conduct in the matter was the subject of much gossip about Fireman's Hall on that account when the news was received there. The men all express implicit confidence in the Grand Master and none had any fault to find with him. When asked if he took courage from the striking of the W.N.Y. and Pa. men yesterday and of the Lackawanna men today Mr. Sweney replied, "Well, not exactly encouraged. It does not alter the situation materially. They knew what the situation was all along, anyway. I didn't order them out," Mr. Sweney continued, "They went out of their own free will. I didn't want them to be blaming me if the strike didn't prove a success."

Joseph Heimerle is recording secretary and treasurer of Buffalo Lodge No. 39, Switchmen's Mutual Aid Association. Heimerle is one of the leaders of the switchmen. When Grand Master Sweney and Master Moriarity are engaged in other affairs Heimerle takes charge and directs the men. The Lehigh Valley Railroad officials sent word to Supt. Morgenstern that Heimerle was interfering with their passenger trains. They were advised to swear out a warrant charging him with assaulting non-union switchmen. This they did. The police were ordered to look for Heimerle. Detectives located Heimerle and arrested him. He was taken to Superintendent Morgenstern's office. Heimerle was asked if he had been assaulting anybody. He replied he had not. Superintendent Morgenstern told Detectives Jordan and Cannon to search him, and they found a 38-calibre revolver in his pocket. "Oh, yes, you are a nice lot of fellows," said Superintendent Morgenstern to Heimerle, "You are conducting a peaceable campaign, ain't you? You favor the withdrawal of the troops, yet you go around armed to the teeth." And the head of the Police Department took seven big bullets out of Hermerle's gun and carefully put them in his desk. Heimerle furnished bail and was released.

Conductors Adverse to Striking.

CHICAGO, Aug. 24.—E. E. Clark of Cedar Rapids, Ia., Grand Master of the Order of Railway Conductors, was here on his way to Buffalo in response to the request of Grand Master Sweney to take part in the proposed conference of the chiefs of the various organizations of railway employes. He said so far as he knew the conductors had no grievance to right, and added, "but what may develop after I have arrived on the scene I cannot predict. Unless our men have grievances to settle we will not go out, as we do not care to express any sympathy in that way. I know nothing of the trouble except what I have learned through the newspapers."

The most deplorable thing in the affair is that acts of violence were resorted to by someone at the start. This has probably been the greatest cause for prolonging the strike, as otherwise it would probably have been amicably settled.

At this point Grand Master Wilkinson of the Order of Railway Trainmen, who came in this morning from Galesburg, Ill., also en route to Buffalo on a mission similar to that of Grand Master Clark, made his appearance. Further than saying he was responding to a summons from Grand Master Sweney he declined to talk. Clark and Wilkinson left for Buffalo at 3 o'clock this afternoon.

Shot By the Military.

BUFFALO, N.Y., Aug. 24.—Three attacks were made by strikers yesterday afternoon on the military pickets and non-union switchmen. An attack made on the picket lines of the 22nd Regiment of New York, stationed at the Tifft Farm by five strikers will probably result fatally to one of them, Thomas J. Manahar. About 5 o'clock Manahar, in company with Thomas O'Loughlin, Bernard Dunn, Patrick Madigan and William Cotter began throwing stones at John McGucken and Charles Gable, non-union men, who were working in the Tifft farm yard. Lieut. Austin of Company C ordered the stone-throwers to disperse. They refused to do so and were fired upon by order of Lieut. Austin. Manahar was

yards at Chicago."

"Do you look for any trouble beyond that caused by the switchmen?"

"No, I do not. The firemen will not go out unless all the other unions do so. Neither the Brotherhood of Locomotive Engineers nor the firemen have ever been concerned in a sympathetic strike, and I have the utmost confidence in their conservatism. I think when Sweney realizes that the firemen and engineers are not going to stand by him he will order off the strike."

Disturbances At Homestead.

HOMESTEAD, Pa., Aug. 24.—About 12.30 p.m. Nicholas Rattigan, who has a hut in Homestead, attempted to move his effects to a company house near the steel works. About 100 strikers gathered near the house and by jeering and throwing tins, stones, etc., frightened away the people moving and Rattigan was threatened with assault. Fifteen deputy sheriffs were called and succeeded in holding back the crowd. There is much excitement and a company of military is under arms ready to march in case of further trouble.

Failed Because of a Boycott.

PITTSBURG, Pa., Aug. 24.—The boycott instituted by Homestead strikers against tradesmen who sold to the Carnegie Steel Company has resulted in the failure of Adolph Doerr, one of the principal provision dealers in the borough.

TORONTO TOPICS.

TORONTO, Aug. 24—W. Edward Kelly, the Simcoe barrister, implicated with John A. Chrysler, the Simcoe schoolmaster, convicted recently of swindling many school teachers by means of an advertisement in The Globe, was not arraigned in the Toronto Police Court as was expected, but the case was postponed until this morning. The delay was occasioned by the fact that another arrest had been made in connection with the case, the third person being a Teeterville hotelkeeper named W. D. Vanderburg, who was brought to the city by Detective Slemin last night.

The latter's arrest was brought about by the confession of Chrysler, who has turned Queen's evidence, and will give testimony against Kelly and Vanderburg at the examination to-day.

Mrs. Lillie Hebron, 21 Widmer-street, held by the police on a charge of insanity. She was a witness in the Meichum larceny case at the Police Court yesterday, and the excitement worked upon her feelings to such an extent that she thought it necessary to take a dose of morphine. The dose was apparently too large, as the woman became very violent. Some friends took her away in a cab, but were unable to control her, so she was brought back to headquarters, where she informed the officers that she would kill herself some day.

Mrs. Elizabeth Sharkey Morris, who on May 26 last was married to William M. Morris of Seaforth and left him on Aug. 4, has issued through her lawyer a writ for alimony. In her affidavit she alleges harshness, and says her husband refused her sufficient money to clothe herself.

Carrie Hollingshead, aged 27, a domestic at 112 Lisgar-street, is somewhat of a religious monomaniac.

Periodically she imagines herself to be burdened with sins many and grievous. In seeking to atone for them she adopts methods as peculiar as they are painful.

Lately one of those acute spells has been again developing. A few days ago it reached its climax and the poor imaginary sin-burdened woman again had recourse to the carbolic acid bottle. Retiring to her room she saturated her back and hips with the terrible solution. The sense of her guilt was more acute and the application of the acid more liberal than before. But notwithstanding her horrible sufferings she bore them with fortitude for a couple of days, performing her daily duties and whispering to no one of her condition. Nature at last asserted itself and Monday night Carrie collapsed.

Yesterday morning she was taken to the hospital and last night she was reported to be doing nicely. This is the sixth time she has applied carbolic acid to purge away imaginary sins.

THE DAILY ONTARIO

BELLEVILLE, WEDNESDAY, [illegible]

IMPORTANT TO ADVERTISERS.

The ONTARIO [illegible] Circulation [illegible] District.

EDITORIAL NOTE.

The toll of [illegible] a ton on grain would amount to [illegible] cent per bushel, so that the [illegible] imposition is not [illegible] affair after all. It would not [illegible] farmers [illegible] for their wheat, nor would it [illegible] companies to take that much [illegible] freight for the balance of the season, and as the farmer and [illegible] would divide the [illegible] would scarcely be felt. Hon. Mr. Haggart hints that probably the government will reimburse the vessel owners the amount they have to pay in toll at the Sault. This seems like a simple solution of the difficulty and it is all the more easily credited when it is remembered that a large portion of the Canadian bottoms passing through the Sault are owned by the government's masters, the C.P. R. Co., who may be trusted not to lose anything so long as they have the public treasury to fall back on through their dutiful agents, the government.

Stories of Mr. Farrer's versatility and his absolute ignorance of the restraint that is caused by an inconvenient regard for facts are still being told, says the Toronto News. Here is one: It is said that for a time he was editor both of the Orange Sentinel and Irish Canadian, and thus as Farrer the true son of the church scorched with vitriolic anger the other Farrer who spread a fine Orange hue over the columns of the Sentinel. Still later, it is alleged, he prepared the Conservative literature for the campaign of 1882 and then offered to write the reply for the liberals, giving as a reason for the engagement the fact that no one knew the weak points in the case of the other side as well as he did himself.

Is needed of the merit of Hood's Sarsparilla than the hundreds of letters continually coming in telling of marvellous cures it has effected after all other remedies had failed? Truly, Hood's Sarsaparilla possesses peculiar curative power unknown to other medicines.

The Ladies Delighted.

The pleasant effect and the perfect safety with which ladies may use the liquid fruit laxative, Syrup of Figs, under all conditions make it their favorite remedy. It is pleasing to the eye and to the taste, gentle, yet effectual in acting on the kidneys, liver and bowels.

Rochester Excursion

Rev. D.O. Crossley has arranged to take an excursion to Charlotte, port of Rochester on Monday Sept. 5th, on the splendid steamer North King. Boat leaves Belleville at 12.30 a. m. Monday morning reaching Charlotte at 7.30 a. m. Tickets $2.00, good to return the same day or on the following Saturday.

Those who are in the habit of taking an appetizer before meals could not do better as well for the effect as for economy's sake, than make use of "Indigenous Bitters." As Indigenous Bitters are slightly laxative, those who suffer from habitual constipation, will derive great benefit, by regularly taking them, as they keep the bowels in good order and in that way aid digestion

Advertising a patent medicine in the peculiar way in which the proprietor of Kemp's Balsam for cough and colds does it is indeed wonderful. He authorized all druggists to give all those who call for it a sample bottle free, that they may try it before purchasing. The large bottles are 50c and $1 We certainly would advise a trial. It may save you from consumption.

A Pleasant Herb Drink

The best cure we know of for constipation and headache is the pleasant herb drink called Lane's Family Medicine. It is said to be Oregon grape root, combined with simple herbs, and is made ready for use by pouring boiling water onto the dried roots and herbs. It is remarkably efficacious in all blood disorders and is now the sovereign remedy with ladies for clearing up the complexion. Druggists sell the packages at 50c and $1.

For all forms of female weakness Dr. Williams' Pink Pills are an unfailing specific. Mr. Thomas Strachan, Postmaster, Roballion writes: My daughter has been ill for the last four years with female weakness, and had been attended by four of the best doctors in our section. She began the use of Dr. Williams Pink Pills, and two boxes have done her vastly more good than all the medicines she took from those doctors.

What She Said

Mrs. R. Peck, 15th street, New York City, visited Canada last year, and had the good fortune to pick up something which not only suited her, but her neighbors also. Writing the manufacturers of Nerviline she says:—"I bought three bottles of Nerviline while in Canada and treated my neighbors to some of it, and all think it the best medicine for internal or external pain they have ever used." Nerviline deserves such commendation, for it is a most powerful, penetrating, and certain remedy for pain of all kinds. Take no substitute.

PARMELEE'S PILLS possess the power of acting specifically upon the diseased organs, stimulating to action the dormant energies of the system, thereby removing disease. In fact, so great is the power of this medicine to cleanse and purify that diseases of almost every name and nature are driven from the body. Mr. D. Carswell, Carswell P. O., Ont. writes: "I have tried Parmelee's Pills and find them an excellent medicine, and one that will sell well.

A Cure For Constipation And Headache

Dr. Silas Lane while in the Rocky Mountains discovered a root that when combined with other herbs makes an easy and certain cure for constipation. It is in the form of dry roots and leaves, and is known as Lane's Family Medicine. It will cure sick-headache in one night, For the blood, liver and kidneys, and for clearing up the complexion it does wonders. Druggists sell it at 50 cents a package.

Weighed in the balance, but not found wanting. Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure has been weighed in that just balance, the experience of an impartial and intelligent public. Both remedially and pecuniarily it is a success. Its sales constantly increase, testimony in its favor is daily pouring in. The question of its efficacy in Dyspepsia, Liver complaint, Kidney Ailments, and for Blood Impurity is decided.

Now is the time to take a good tonic medicine. Hood's Sarsaparilla possesses the greatest merit, and [illegible] popular favo

Cured Female Weakness

Mr. Hugh Caldwell, Clydesdale, Ont., writes:—"My daughter was under the care of doctors for more than a year for female weakness, without getting relief. I then procured Pink Pills and they cured her." All dealers 50 cents a box or 6 boxes for 2.60, or mailed on receipt of price. Dr. Williams' Med. Co. Brockville, Ont., and Schenectady, N. Y.

The highest praise has been won by Hood's Pills for their easy, yet efficent action.

As an after dinner pill, to strengthen the stomach, assist digestion, and correct any bilious tendencies, Ayer's pills are considered the best. Being sugar coated, they are as agreeable as any confection, and may be taken by the most delicate.

How Mr. W.D. Wentz of Geneva, N.Y., was cured of the severest form of dyspepsia? He says everything he ate seemed like pouring melted lead into his stomach. Hood's Sarsaparilla effected a perfect cure. Full particulars will be sent if you write C. Hood & Co., Lowell, Mass.

THE LABOUCHERE BROIL

THE QUEEN WOULD NOT HAVE HIM IN THE MINISTRY.

The Editor of Truth Was Asked To Write a Letter To Gladstone Saying That He Would Not Accept Office, But He Refused—He Can Now Be Baron Taunton If He Wishes.

LONDON, Aug. 24.—Gen. Ponsonby, the Queen's Private Secretary, in conveying to Mr. Gladstone Her Majesty's command to form a ministry, stipulated that Mr. Labouchere should not be selected to fill any post in the Government. Mr. Labouchere was implored to get Gladstone out of the difficulty by writing a letter declaring he would not accept office, as he wished to remain independent. This Mr. Labouchere declined to do. Overtures have since been made to him to accept the title of Baron Taunton.

Rumors of Gladstone's Retirement.

LONDON, Aug. 24.—The Chronicle says: "There is a strange rumor afloat that Mr. Gladstone will retire from office in the spring; also that a Harcourt party and a Rosebery-Spencer party already exist a Lords party versus a Commons party."

Labby Speaks His Mind.

LONDON, Aug. 24.—Mr. Labouchere had in yesterday's Truth a crisp account of the circumstances of his exclusion from the Government. He says he never thought of seeking office; that he never asked a minister for anything, and that he does not contemplate ever doing so. Mr. Labouchere proceeds to say: "An emissary informed me, presumably a quid pro quo, that Mr. Gladstone would always be glad to consult me on public affairs."

After asking why it should be suggested to him to write a letter renouncing office, he says: "I certainly understood that the Queen had in some way led Mr. Gladstone to arrive at the act that my joining the Government would not please her."

Assuming that the Queen had expressed such a sentiment, Mr. Labouchere says he thinks it is to be regretted that he may not have seen eye to eye with the Queen in all matters; but admits that he always regarded her as strictly constitutional. His interpretation of the constitution is, he says, that the Queen selects the Premier and leaves him a free hand in the choice of colleagues. He (Labouchere) might or might not have accepted office if it had been offered. As the thing is gone, he thanks heaven that, come what may, his head and ears are safe under Queen Victoria. Radical approbation weighs more with him "than that of all the emperors empresses, kings, queens, lords and lickspittals in the universe, so that the good ship democracy sails prosperously into Joppa." He says: "I care not whether my berth is in the officers' quarters or in the forecastle."

Continuing, he says that although his friends urged him not to refuse office he liked his independence, and did not like the trammels of office.

With reference to the Queen's prejudice he says: "If the matter had been a purely personal one the slightest hint that a lady did not wish me to enjoy the privilege of kissing her hand would have been sufficient, but in this case I think there is something more involved."

Disestablishment in Wales.

LONDON, Aug. 24.—Stuart Rendell, Gladstonian member of the House of Commons for Montgomeryshire, Wales, as chairman of the Welsh party, will introduce in parliament a bill fixing the date after which no vested interest can be created in Welsh dioceses. This measure is a forerunner to a bill disestablishing the Church in Wales.

Mr. Chaplin's Successor.

LONDON, Aug. 24.—Mr. Herbert Colstoun Gardner, M.P. for the Saffron-Walden Division of Essex, has been appointed president of the Board of Agriculture, the position held by the Right Hon. Henry Chaplin in Lord Salisbury's Cabinet.

A BRIDGE COLLAPSES.

Twenty-Nine Persons Injured in a Railway Wreck in France.

PARIS, Aug. 24.—Further particulars regarding the railway accident on the bridge over the River Orb, between Beziers and Cessenon, show that it was due to the negligence of the railway company in not having the bridge properly inspected. It is now clear that the accident was due to the rotten condition of the sleepers, which were unable to support the weight of the train. When the decayed sleepers gave way the engine ran for a short distance and then turned on its side. The carriages piled upon each other and made a mass of wreckage from which it was impossible for the passengers to escape unaided.

The scene was a dreadful one, the cries and groans of the injured being heartrending. As soon as help arrived the work of clearing away the wreckage was proceeded with as rapidly as possible. The removal of the dead and injured was accomplished with great difficulty. Five bodies were taken from the wrecked cars, and 29 persons were found to be severely injured.

"August Flower"

Dyspepsia. There is a gentleman at Malden-on-the-Hudson, N. Y., named Captain A. G. Pareis, who has written us a letter in which it is evident that he has made up his mind concerning some things, and this is what he says:

"I have used your preparation called August Flower in my family for seven or eight years. It is constantly in my house, and we consider it the best remedy for Indigestion, and Constipation we have ever used or known. My wife is troubled with Dyspepsia, and at times suffers very much after eating. The August Flower, however, relieves the difficulty. My wife frequently says to me when I am going to town, 'We are out of August Flower, and I think you had better get another bottle.' I am also troubled with Indigestion, and whenever I am, I take one or two teaspoonfuls before eating, for a day or two, and all trouble is removed."

THE HOT WAVE IN EUROPE.

A Rainstorm in Austria Gives Temporary Relief.

VIENNA, Aug. 24.—A terrific thunderstorm, preceded by choking clouds of dust, swept over this city yesterday. Although creating consternation while it lasted, the storm had a beneficial effect, as the mercury fell several degrees and the inhabitants of the city, especially those in the poorer quarters, who have been the greatest sufferers during the intense heat of the last few days, experienced marked relief.

At Agram, Hungary, during a military evolutionary march, a third of the troops dropped out of the ranks overcome by the heat. Lieut. Volman was found dead by the roadside.

The Plague in Persia.

TEHERAN, Aug. 24.—A despatch from Reshed, in the Province of Chilean, states that every day hundreds of persons are dying there from cholera. Reshed lies 16 miles from Enzellee, its port on the Caspian Sea. The population of the town is about 20,000. A new disease is ravaging Enzellee. It causes prurient swellings on the body and face, and the mortality resulting from it is very heavy. The same disease is causing many deaths at Ardabeel, a town of 12,000 inhabitants on the Karahx Soo River. Both towns have been isolated.

An Afghan Defeat.

SIMLA, Aug. 24.—Advices from Afghanistan show that another engagement has occurred between the revolting Hazara tribesmen and a force of Afghan troops under command of the Governor of Candahar.

The Ameer's army was defeated and it is said they are now in a critical position and suffering from scarcity of food. The tribal levies made by the Ameer are not proving very successful, the so-called loyal tribesmen objecting to fighting against the Hazaras.

Cholera Returns.

ST. PETERSBURG, Aug. 24.—The official cholera returns show 6806 new cases and 3429 deaths throughout Russia yesterday. Owing to the fact that many places where the disease is prevalent are not connected with the capitals of the provinces by telegraph, it is thought that even official reports are far from giving the true condition of affairs.

Not Satisfactory.

DUBLIN, Aug. 24.—The Independent (Parnellite) says the assurances given yesterday by Mr. Morley, Chief Secretary for Ireland, to the deputation from the Cork County evicted tenants association are not sufficient. Though expressing solicitude for evicted tenants he hesitates to pronounce the order of restoration or restitution.

Offers $8 Apiece for Human Heads.

TANGIER, Aug. 24.—The negotiations between the Sultan's officials and the leader of the Angheria tribes, looking to the submission of the latter, have been broken off by order of the Sultan. The Sultan has directed that a grand attack be made upon the Angheria and to stimulate his troops he has offered $4 for every prisoner they secure and $8 for every head they bring into their camp.

Archbishop Cleary's Views.

LONDON, Aug. 24.—The Most Rev. James V. Cleary, Archbishop of Kingston, Ont., has sent £400 to the McCarthyites. The archbishop writes that his people, who are chiefly Irish, are eagerly looking forward to the time when they can send delegates to Dublin to take part in the inauguration of the Irish Parliament. He himself and others will be most happy to assist at the inauguration of parliament on College Green.

Pensioned.

LONDON, Aug. 24.—A pension of £2000 yearly has been conferred on Lord George Hamilton, who was First Lord of the Admiralty in Lord Salisbury's Cabinet.

Export of Rye Prohibited.

ST. PETERSBURG, Aug. 24.—A ukase has been issued announcing prohibition of the exportation from Russia of rye, ryemeal and all kinds of bran.

To Be Made Cardinals.

LONDON, Aug. 24.—The News announces that a high dignitary of London has been informed by a prominent member of the Sacred College that Archbishop Vaughan of Westminster, Archbishop Walsh of Dublin and Archbishop McDonald of Edinburgh are about to be made cardinals.

The Potato Blight in Ireland.

LONDON, Aug. 24.—Severe weather in the south of Ireland has caused great damage to the crops. The hay crop has been destroyed and the potato blight has appeared. The potato crop had promised to be the best in years.

The Suicide Was Insane.

LONDON, Aug 24.—An inquest was held on the body of Colonel Henry Prince, an American, aged 82 years, who committed suicide at Morley's hotel on Friday last by shooting himself with a revolver. A number of witnesses testified that Colonel Prince had been depressed for a long time.

He left a letter addressed to his friends saying that his life had been ruined and now the burden was overwhelming him with weakness and pain to an intolerable degree. The letter concluded by saying that as his physician could not cure him he should have removed him with drugs.

The jury returned a verdict that the deceased came to his death from a bullet wound inflicted by himself while temporarily insane.

Manitoba's Great Harvest.

WINNIPEG, Aug. 24.—Glorious sunshine and a balmy atmosphere are making Manitobans smile. Finer harvest weather never favored this great wheat-raising country. From correspondents' reports and from local grain merchants it is learned that binders are at work in every section of the province, and thousands of acres of the finest grain ever grown in the country are falling before the harvest reapers. If the favorable conditions continue until the end of the week a large percentage of the crop will be cut. On Carberry Plain, which has been favored this year with a bountiful crop, half the crop is in shock. Similar reports have been received from other sections.

Wrecks at St. Pierre.

ST. PIERRE, Miq., Aug. 24.—A hurricane from the northeast passed over yesterday morning, accompanied by heavy rain. The French brigantine Hasparren broke from her anchorage in the roadstead and was driven ashore at the entrance to the harbor. The schooners Van and Fernand were driven to sea. Their crews got safely to shore. A lot of damage was done to shipping in the roadstead by collision. No lives were lost.

Want Canadian Codfish.

OTTAWA, Aug. 24.—The Colonial Secretary has notified the Governor-General that the Spanish Government has consented to reduce the duty on codfish to $1.50 per 100 pounds.

All through the Provinces the rapid increase of La Grippe, is causing great alarm. A report was received here to-day, of a new development of the disease, which is worse, perhaps than any other. Wm. Hanley of N. Y. City, died in terrible agony after sickness of only four days. His tongue swelled to such an extent as to make it impossible for him to close his jaws or swallow any food. The report is causing the people in this district to resort to the noted Grip-cure, recently referred to in so many papers. In Cape Breton the disease has spread very rapidly and with fatal results. D. J. McKillop of L'Archeveque writes Feb. 11th that this cure has been tried in his neighborhood and with such success that all those residing there are obtaining a supply believing it to be the only remedy affording relief and effecting a certain cure. He finished his letter by asking for a large quantity of the Medicine (Dr. Morse's Indian Root Pills) to supply the demands of the community for the relief of LaGrippe.

She did not take the contents of one bottle before it relieved her, and not only relieved her but permanently cured her, for she has not been troubled once since, and she is now eight years old

Advice to Mothers

Mrs. Winslow's Soothing Syrup has been used by millions of mothers for children teething for over fifty years, with perfect success. It relieves the little sufferer at once, produces natural quiet sleep, and freeing the child from pain, and the young cherub wakes as bright as a button. It is pleasant to taste, sooths the child softens the gums, allays pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhoea, whether arising from teething or other causes 25 cts a bottle.

A Question

How can we raise more corn is the acher? Why, of course by using Putman's Corn Extractor. Putnam's Painless Corn Extractor has given universal satisfaction, for it is safe, sure and painless. Like every article of real merit it has a host of imitators, and we would specially warn the public to guard against these dangerous substitutes offered for the genuine, Putman's Extractor. N. C. The Rideau Record says : "Rev. W. W Carson, D.D., Detroit, was in town on Saturday on his way up Rideau Lake for a holiday. He used to be a good Methodist at $1,500 a year in Canada ; he is now a straight-laced Presbyterian at $5,000 a year in Detroit. He was here with friends on Saturday, and seemed if out for a good time. He had left all his clerical garb behind except his D. D., which he left in the Wardrobe register, and was very neatly and becomingly attired in a suit of tweed, just the thing for a holiday. He had also left the lace aforementioned behind him, or else he was not using it to any great extent ; for when he sallied out to 'do' the town he walked the streets smoking a cigar which looked like about two-for-a-quarter kind.

What Stronger Proof

Is needed of the merit of Hood's Sarsparilla than the hundreds of letters continually coming in telling of marvellous cures it has effected after all other remedies had failed? Truly, Hood's Sarsaparilla possesses peculiar curative power unknown to other medicines.

THE RETALIATORY TOLLS.

MR J W JOHNSON'S OPINIONS ON THE SUBJECT.

He Thinks Kingston is Chiefly to Blame for the Trouble—Its Relations to Free Trade

A representative of the ONTARIO interviewed Mr. J. W. Johnson, principal of the Ontario Business College of this city on the subject of the Canal Tolls Retaliation, and gleaned some interesting points.

"I understand Mr. Johnson, you have had a good deal of experience in the forwarding trade of the great lakes," said the reporter. "Yes, I was purser of the steamer 'City of London,' trading from Montreal to Chicago, from 1867 to 1872, and have naturally taken a deep interest in all questions affecting navigation ever since."

"What are your views regarding President Harrison's retaliation proclamation?"

"Well," he replied, "I expected the President would use the power conferred upon him, but not so mildly as he has done." I have views of this business of rebate and retaliation that I have not seen in print, and I will give them to you : "I attribute the whole disagreeable business to the greed, and want of enterprise of the city of Kingston, which has never provided proper facilities for handling grain consigned to that port for transhipment to Montreal by rail and canal. It has no elevator and no storage warehouse, and in consequence when vessels arrive with grain and there are no barges in port, or not a sufficient number, the vessels are detained an unreasonable time. The natural consequence followed : Vessels were consigned to Odgensburg, where proper facilities are provided. Kingston and Montreal men, interested in the transportation companies between these places, instead of meeting the Ogdensburg competition, by providing equal accommodation at Kingston, resorted to the government on the plea of protection, and asked for the rebate and discrimination which, in my opinion, the government was foolish to grant.

"They acknowledge the unwisdom of their action by agreeing to put a stop to the rebate at the end of the season of navigation.

"Don't overlook this point,—for this same city of Kingston, to which we owe the present international muddle, the government has just completed a dry dock that should have been built by private enterprise.

"You know I am an advocate of free trade in buying and selling—in that matter there should be no national lines. I would have equal freedom in transportation, every port, and all trade, as free as they are in Great Britain.

"When the government put the canal toll discrimination into operation, it seemed to me then, that they either overlooked, or forgot the existence of the comparatively small, but exceedingly important canal built by the United States, through the St. Clair flats, the FREE use of which is enjoyed by Canadian vessels. I well recollect the difficulty constantly experienced at that point before the canal was built, and the boon it proved to navigators. I have paid as much as one hundred dollars to a tug for hauling our vessel out of the mud in the early spring, stuck there on account of the constantly changing channel on the flats ; and this was the common experience of deep draught vessels.

"The President could shut us out from that canal and practically prevent our vessels proceeding further than Windsor.

"He has the power to suspend any day the bonding privileges of our great railways, and practically destroy at least one of them and sorely cripple the other.

"In spite of the restriction prevailing, you see how closely our commerce is connected with the United States. International bridges and tunnels will decay, and English shareholders have no use for their stocks and bonds but to admire the printing on them, if this undignified and unprofitable retaliation business is not stopped on both sides.

"I would not yield an inch to threats, communities that speak the English tongue were never known to do that. But if we are in the wrong, there is no humiliation in acknowledging it."

"How do you think this difficulty will affect the future trade policy of Canada?"

"Well, individually we have been feeling the effect of the increasing restriction to trade between us and our neighbors, now we see the possibilities involved in it from a national stand point, and they are serious enough to make the most extreme opponent of friendly trade relations with the United States think gravely of a change in this country's policy.

"Free trade will be carried here as it was in 1846 in England, by getting the people to think and reason. Now is a good time to help them to do this."

The Ladies Delighted.

The World Libel Suit

GODERICH, Aug. 22.—In the criminal libel suit against W. F. McLean, M. P., for publishing certain statements against Mr. M. C. Cameron, ex-M. P., West Huron, it is stated that when the case again comes into court there will be startling developments. What the exact nature of these developments are, cannot be stated seeing that the case is still subjudice but it is said one of the principal witnesses has left Canada, leaving behind an affidavit contradicting the previous statements made by said witness.

For four thousand years or more the world groaned, suffered and fumed about its corns, for their was no positive relief—no certain and painless cure until Dr. Scott Putman gave to the world his great Corn Extractor. If there is suffering now it is a result of carelessness, for the remedy is at hand. Try Putman's Corn Extractor. It is sure painless, and prompt. Beware of substitutes. N. C. Hood's Pills cures Constipation by restoring the peristaltic action of the alimentary canal. They are the best family cathartic.

Though the soil of Virginia grows the best tobacco leaf in the world, it does not all grow equal qualities. The production even of adjoining counties is often quite different, the one producing leaf which at once deteriorates if grown in the other. The leaf of the "Myrtle Navy" is the product of the choice sections of the State, which, through some combination of local influences, produce a better quality than any others. This is shown by its always commanding a higher price than any other smoking leaf.

MORE SEVERE EXAMS

In the Future the Test Will be Made Stiffer

The Minister of Education is considering the propriety of raising the standard of the high school entrance examinations to that prescribed to the public school leaving examinations, and, with the view of so doing, has addressed a circular to the school inspectors of the province. The minister says it has been represented to him such a step would prove of advantage to both high and public schools, by doing away with the present overlapping of the courses of study, and by thus making the work of the secondary schools to begin in all cases where that of the elementary schools end.

It is held that the present standard has the effect of doing away with the fifth form work in many rural schools, and compelling children to attend a high school, where their parents only wish them to acquire attainments of the public school course beyond the limits of fourth form. It is moreover contended that in cities, towns and villages, what is now taken up in the high schools during the first year might be taken up in the public schools.

The pupils who pass the entrance examinations are said in many instances to be too immature in age and attainments to take up the full course requried by the High school primary and matriculation examinations, and would be benefitted by a longer drill in purely public school subjects.

If the proposed change is made it is not intended to have it so carried out as to render necessary any change in the staff of any high or public school. From the large number of candidates who write every year at the entrance examination, he is justified in assuming that pupils would readily prepare for higher standard if the present couse is advanced. If the higher standard is adopted it will not come into force till 1894, and care will be taken not to have the test too severe at the first examinations.

The extraordinary number of students presenting themselves for junior leaving as well as well as entrance examinations will necessitate more difficult papers being submitted to the pupils.

FINED SIXHUNDRED DOLLARS.

The Owner of the Steam Yacht Cygnet Will be More Careful Hereafter,

Jacob Cram, Rome, N. Y., owner of the steam yacht Cygnet, seized by collector Lyman for running on marine waters without a licensed pilot, arrived at Oswego and paid a fine of $500 and the boat was released. The offense of running without a licensed pilot was not the only one that the captain of the Cygnet was charged with. It appears that the boat had left Oswego without a government inspection, a violation of the law and the fine for which is $500. The fine of $100 was imposed for not having a pilot. The Cygnet is not unknown to Quinte waters.

Fall Wheat in the North

The other day Mr. Sydmer Sargent, lot 21 in the 6th concession of the township of Limerick, in the County of Hastings, out of 13 bushels sowing, of the Clawson variety of fall wheat, threshed 240 bushels. Mr. Sargent has a good grain farm and also a large run for stock, and is no doubt making his fortune in the north country.

You may be satisfied with the brands of tobaccos you have been using for years. Grant it ; that you are satisfied. As there is always room for improvement, we ask you to try our OLD CHUM PLUG, or CUT smoking tobacco ; we believe you will be better satisfied. In any case, a trial won't hurt you. Don't delay upon the order f buying, but buy at once.

An age of Activity

We're living in an age of activity. Old things are passing away, and usages that a few year ago would have been considered - "too fast" are coming into swing. There is no item of progress, from a shopping standpoint, which merits the approval of honest buyers more than the systems of one price. The Oak Hall clothing house is so well known and established on this great business principle that a second price is rarely asked for. People know that the prices at the Oak Hall are right and if the customers are not good judges it makes no difference, they get good value just the same.

A Yankee's Opinion

J. J. Fleming, proprietor of the Morgan house, New York, was in the city to-day He says that Canada should be annexed to the United States. "You have a beautiful country over here," said he, "but you are away behind the times." He went on to tell about the feeling towards Canada over there. He says Canada is very little known or ever spoken of except in the newspapers. In the states a man is a Yankee, in Canada he claimed it was different ; an Irishman was an Irishman, a Frenchman a Frenchman, and so on. Pointing to where a stone structure was being erected, he said if in the states the location would have been adorned with a beautiful brick building.—Whig.

A neglected cough brings on consumption—the most fatal and prevalent of all physical ills that flesh is heir to. To check the malady in its early stage, before the deadly turbercles develop themselves in the lungs use Dr. Thomas' Eclectric Oil which also annihilates bronchitis, asthma, catarrh, piles, kidney troubles, and soreness of the muscles and joints.

There are more cases of sickness and death from diseased kidneys than from all other diseases combined. It is your own fault if you allow your kidneys to remain in an unhealthy condition when the cure is at hand. Dood's kidney Pills are guaranteed to cure the worst case. It costs but little to give them a trial. They are for sale by all druggists and dealers or by mail on receipt of 50 cts. or 6 boxes for $2.50. Write for book called Kidney Talk.

THE HARLEM COMMONS FORTUNE

The $200,000,000 at Issue Within Sight of the Claimants

A meeting of the directors of the Canadian Branch of the New York Harlem Commons estate embracing $200,000,000, was held in the city yesterday. It was decided to call a meeting of the shareholders on Tuesday Sept 20th in the Prentice Boys Hall. The directors are firmly of the opinion that they can prove a full title to the lands in question and that before long the heirs will come in possession of their rights. Readers of the ONTARIO will remember the circumstance of the great legal fight now going on in New York and which is headed by J. Cohn. The Harlem Commons embraces a large strip of land on the water front in New York city. The land which has been rescued from the surf by a breakwater has been built on until the property is now valued at $200,000,000. The owners have never got a full title to the lands in question and only hold a quick title given by the city. The heirs are now asserting their rights. Mr. Cohn has taken up the case and has entered into an agreement with the heirs by which he pays all expenses of the legal fight, and in the event of his success he is to get a deed of half the estate. He has already put $300,000 into the suit and in a circular to the heirs says he is now confident of victory. He says that matters in connection with the estate, favorable to the heirs, are approaching a settlement. The delay in proceedings are satisfactorily explained, and under the new organization proceedings will be pushed to a close, and which the highest legal opinion affirms must result favorably to the shareholders. There are a great number of heirs living in this part of the country to which this will be pleasant news.

BELLEVILLE HORSE RACES.

It Will be the Most Successful Meeting in the History of the Track

The most interesting event that will take place in Belleville this season in sporting circles will be the annual horse meeting on the Driving Park on Wednesday August 31st and Thursday Sept. 1st. A number of entries have already been received by Manager James E Ketcheson from different points in Ontario and the races promises to be the most successful in the history of the track. It is hoped that the citizens will render all the support within their power that the tur may not loose any oft is old time interest. Mr. Ketcheson has done a graceful act in throwing open the track free to ladies and it is expected that a large number of the fair sex will be in attendance. Horse racing is a great sport and what Manager Ketcheson wants to see is a big patronage at the annual meeting.

SPORTING WORLD.

There will be a quoit match in the court house yard to-morrow afternoon. Game commences at 1.30 p. m.

The Tweed News and the Deseronto Tribune give extended notices of the horse races here on Aug. 31st and Sept. 1st.

P. Clark has located Todd, the great quoit pitcher and finds he is working in Almonte. He has written him to see if he will pitch against 'Claus, of Belleville the man the Belleville club wish to back for $100. Mr. Clarke says that if he finds it impossible to secure Todd he will get Mr. Thompson of Newburg, to meet Claus. Members of the Kingston club will put up all the money the Bellevillians desire to venture. Mr. Clark says that Todd need not give Claus five points in the game—Whig.

A fresh supply of that refreshing temperance drink Hires Improved Root Beer just received at Geens Drug Store. Try a bottle. One 25c bottle makes 10 galls.

When you want your hot air furnace cleaned or repaired Deacon & Doyle will do it on the shortest notice.

TRAVELLING.—A prudent person leaving on a voyage never fails to put into her trunk a bottle of Persian Lotion, the most agreeable and reliable article for the toilet that druggists sell under the name of Persian Lotion.

"Oh, if I had only taken this medicine earlier in my life, what years of suffering it would have saved me !" was the exclamation of one who had been cured of rheumatism by the use of Ayers Sarsaparilla. Scores of such cases are on record.

As a tonic, the Father Mathew Remedy restores to a healthy condition the stomach and liver of the intemperate, which are always out of order, and builds up his nervous system; as an alterative, it makes a new man of him.

When you want a good stove or range cheap go to Deacon & Doyle, Front St south of Bridge St.

Mr. G. Redick writes Mr. Louttit as follows ; I feel it my duty both to you and the public that after ten years affliction with that loathsome disease, catarrh, I have found apparently a lasting benefit (Louttit's Catarrh Cure) and to vouch for the same and am willing and desirous to make affidavit. Louttit's Catarrh Cure is for sale wholesale and retail at Geen's Drug Store.

ITCHING AND BURNING

Sores All Over Her Body. Suffering Endless. Doctor Useless. Cured in 4 Weeks by Cuticura.

Your most valuable CUTICURA REMEDIES have done my little girl so much good that I feel like saying this for the benefit of those who are troubled with skin diseases. She was troubled with itching, burning sores. When I took her to the doctor the first time, he called it the Italian itch, and said he would cure her in two weeks. When the two weeks were up, he called it eczema, and in that time she was worse than before. He doctored her for three months, and she was so bad that we did not know what to do. He did not do her any good. I saw the advertisement of CUTICURA REMEDIES in the paper, and I said to my wife, "I am going to try them." Mind what I say, she was so thick with sores that we had to soak her clothes to take them off. Itch! there was no end to it. She had it all over her body, back, legs, arms, in between her fingers. She did not have it on her head. But after taking your CUTICURA REMEDIES for two weeks the itch stopped, and in four weeks the sores were all gone. I enclose her portrait. I am more than pleased with your CUTICURA REMEDIES, as they speedily cured my daughter, and if anybody asks me about your remedies, I will uphold them wherever I go. CHARLES M. GRONEL,
Conshohocken, Montgomery County, Pa.

Why Suffer One Moment

From torturing and disfiguring skin diseases, when a single application of the CUTICURA REMEDIES will, in the great majority of cases, afford instant relief in the most agonizing of itching, burning, scaly, crusted, pimply, and blotchy skin, scalp and blood diseases, with loss of hair, and point to a speedy, permanent, and economical cure.

HOOD'S PILLS cure liver ills, constipation, biliousness, jaundice, and sick headache.

A PROLIFIC SOURCE OF DISEASE.—trifling indiscretion in diet may lay the foundation of confirmed dyspepsia, and there is no fact in medical science more positively ascertained or more authoritatively asserted than that dyspepsia is the parent of a host of bodily ills, not the least of which is contamination of the blood and the maladies of which that is the direct consequence. The original cause is however thoroughly eradicated from the system b[illegible] Lyman's Vegetable Discovery and Dyspeptic Cure, a medicine which only requires regularity and persistence in it use to cure dyspepsia and many other ills that arise from it. No detelerious mineral ingredient is contained in it, and though its act on is thorough in cases of costiveness it never produces griping pains in the abdominal region, or weakens the bowels like a violent purgative. It invigorates the system through the medium of the increased digestive and assimilative activity which it promotes and is also a most efficient remedy for kidney disease scrofulous and all diseases of the blood femole weakness, &c., &c Price $1.00 Sample bottle 10 cents. Ask for Northrup & Lyman's Vegetable Discovery and Dyspeptic Cure. The wrapper bears a fac-smile of their signature. Sold by all medicine dealers.

If you have a cough or cold do not neglect it; many without a trace of that hereditary disease have drifted into a consumptive grave by neglecting what was only a slight cold. Had the used Bickle's Anti-Consumptive Syrup before it was too late their lives would have been spared. Mr. A. W. Levy Mitchell, writes. "I think Bickel's Anti-Consumptive Syrup the best preparation on the market for coughs and severe colds. About six years ago I caught aevere cold which settled on my lungs, and for three months I had a cought. I had a physician attending me, but gradually grew worse until I was on the verge of Consumption, and had given up hodes of being cured, when I was induced to try Bickel's Syrup. Before I had taken one bottle I found myself greatly relieved, and by the time I had finished the second bottle I was completely cured. I always recommend it for severe colds and consumption."

THE PRINCESS MAY.

Refutation of a Slander Contained in a New York Paper.

NEW YORK, Aug. 25.—The Sunday Sun published the following paragraph:

"A very sad and serious scandal is afloat in court circles about the young Princess May, the betrothed of the late Duke of Clarence. The rumor lacks confirmation and should not be repeated, but it is beyond a doubt that she will not be affianced to the Duke of York."

A despatch from London to The World says the story of a scandal connected with the Princess May is devoid of the shadow of any foundation.

The Princess is at present on a visit to the Duke and Duchess of Westminster at Cliveden, their palatial residence on the Thames. The Duke and Duchess of Teck and her brother are also staying there, in addition to Lord Rowton, Georgina, Countess of Dudley, and others.

On Saturday the Princess with the rest of the company went for a long trip on the river in a launch. A person who saw her says that she looks very well and is apparently in good spirits.

Nothing has been officially announced as yet as to her betrothal, but it is believed that the Queen is raising obstacles to the Duke of York marrying her, as he desires to do.

The Queen is working heaven and earth to bring about an engagement between the Duke of York and Princess Victoria, daughter of Princess Christian.

The arrangement would be as unpopular as an engagement with Princess May would be popular.

The Prince of Wales is also believed to be against the Christian marriage for one reason, because they are cousins, and the chances of the succession might be imperilled.

THE CHOLERA.

The Dread Disease Makes Its Appearance in Antwerp.

LONDON, Aug. 25.—The Standard's Hamburg correspondent says: Cholera has broken out in all parts of the city and its suburbs, though the outbreak is worse in the harbor quarter. Yesterday 340 persons were attacked and 130 cases proved fatal. Several of the worst-infected streets have been closed by the police. Prof. Koch declares that he has found several cases of true Asiatic cholera. Twenty-nine cases were reported in Altona yesterday. The thermometer registered 97 in the shade.

Five Deaths at Antwerp.

ANTWERP, Aug. 25.—Several very bad cases of cholera have made their appearance and have created great consternation throughout the city. Five deaths are reported since yesterday. One case, it is alleged, has appeared on board a steamer from Hamburg.

Precautions at London.

LONDON, Aug 25.—The port sanitary committee has ordered that a medical inspection be made of every arrival from Russia and Hamburg. Dirty clothing and all baggage suspected of being infected with cholera will be burned.

FLAME SWEPT CALLAO.

A Disastrous Fire in the Peruvian City—

CALLAO, via GALVESTON, Tex., Aug. 25.—Another fire broke out early yesterday in the Hotel Italia, which is opposite the American Consulate. It was fully 45 minutes before the firemen could get water on the flames, which in the meantime had gained great headway in the old wooden structure and spread to other buildings.

After the firemen had been at work for some little time the water gave out owing, it is said, to the cutting of the hose at several points.

The building of the Chilian and English Steamship Company caught fire and was totally destroyed, as were several other stores and business places.

The valuable records in the American Consulate were carried over the roofs of buildings to a place of safety. A favorable wind saved the Consular building, with but slight damage.

The records and part of the furniture of the steamship company were carried into the street, but they were destroyed by the water and being trampled by the crowd.

A number of marines from the British war ship Garnet, which was in port, were landed and gave much help to the firemen. They used gun cotton to prevent the spread of the flames and saved some of the best houses in the block.

The loss is estimated at about 250,000 sols and is divided between about 20 firms. One fireman was fatally injured.

A Buffalo Man Capiased.

HAMILTON, Aug. 25.—During the past few months N. Hucker, jr., a commission merchant doing business in Buffalo, has had dealings with E. Berlowitz, a fruit merchant of Toronto, but experiencing some difficulty when the time for settling up accounts arrived, he went to Toronto to see Berlowitz. The total amount of his indebtedness to Berlowitz was $1117, but credits and payments of one kind and another brought that amount down to $450. Hucker had but $350 with him and tendered him that in payment of the account. Berlowitz wanted payment in full, however, and Hucker, finding he could arrive at no settlement with his creditor, started for home. On the way he stopped off here, and on Monday night he was arrested at the Royal Hotel on a capias order issued at the instance of Berlowitz, who thought he was going to try to evade payment of the account. Nesbitt, Bicknell & Gauld were retained by the defendant, and proceedings were begun before Judge Muir this morning to set aside the capias. The investigation of the affair was postponed until to-morrow. In the meantime Hucker is in custody of Sheriff's Officer Stewart.

Supposed to be Crude Petroleum.

WINNIPEG, Aug. 25.—In Battleford district excitement has been created by the discovery of what is said to be crude petroleum. Prospecting parties have been out for some time and the liquid discovered has been sent east to be assayed. Should it prove of good quality a company will at once be formed with the object of developing springs. One of the curious discoveries of the prospectors was a burning coal mine emitting no smoke, but the heat of the earth being so great in the vicinity that the explorers were unable to walk on its surface. An immense cavern on the side of a hill shows where a large seam of coal has taken fire and gradually penetrated the earth.

Fire in Montreal.

MONTREAL, Aug. 25.—About 8 o'clock last evening fire was discovered in Abbott & Co.'s Metropolitan Rolling Mills in Delorimiere-avenue. When the firemen arrived the fire had made rapid progress, and nearly the whole building, a large wooden structure, was enveloped in flames. It was found impossible to save the building, and about 9 o'clock the roof fell in with a crash. The fire will be confined to the mills, but they will be a total loss. The firemen are still working on the building. The loss will be heavy.

Lord Rasebery Will Not Join.

LONDON, Aug. 13.—The Daily Telegraph says: "It is understood that Lord Rosebery will not join the new Cabinet. Should this prove true Lord Kimberley will probably accept the Foreign portfolio with the leadership of the House."

THE STRIKE CALLED OFF

DECLARED AT AN END BY THE LEADERS.

Chief Arthur of the Brotherhood of Locomotive Engineers Refused to Attend the Conference and the Other Chiefs Told Mr. Sweeney That They Could Not Help Him, Hence the Result.

BUFFALO, N.Y., Aug. 25.—The conference of the chiefs of the railway men's orders lasted nearly four hours, adjourning about 7 o'clock. Messrs. Sargent, Wilkinson and Clark were a unit in stating that their respective bodies could not participate in the strike without grievances of their own. Grand Master Sweeney being thus left to the resources of his own order hastened to a conference with the local leaders of the Switchmen's Union, and a conference, which lasted until midnight, resulted in the strike being officially "declared off" by Grand Master Sweeney.

Strikers Return to Work.

ROCHESTER, Aug. 25.—The striking switchmen here have returned to work on a promise from Superintendent Gould that he would endeavor to have their grievances remedied.

Delayed by the Strike.

BOSTON, Aug. 25.—The steamer Boston for Liverpool did not sail yesterday as scheduled, the strike at Buffalo having delayed the shipment of cattle, with which the steamer was to be loaded.

Another Tunnel At the Falls.

NIAGARA FALLS, N.Y., Aug. 25.—President Edward Adams and other officials of the Cataract Construction Company, with Dr. Coleman Sellers of Philadelphia; Clemens Herschel and John Bogart of New York, George B. Burbank and Albert H. Porter of this city, constituting the Board of Engineers, have made an inspection of the tunnel and upper works. Prof. George Forbes, the electrical engineer, and Prof. W.C. Unwin, the hydraulic engineer, of London, Eng., are also on the ground.

It has been decided to develop the Canadian falls by means of another tunnel, and the electrical transmission of power to Buffalo. It will be 800 feet long. The American tunnel will be ready for use in October.

HE CAST AWAY HIS SHIP.

The Captain of the Three Brothers Held for Barratry.

HALIFAX, Aug. 25.—Several weeks ago schooner Seven Brothers, commanded by Warren Baker of Jeddore, left here for Port Hood, N.S., with a cargo consisting of flour, paints and oils and sundry packages of merchandise. A few days after leaving here word was received that the schooner had got ashore near Collins' Harbor, Whitehead, and would be a total wreck. She was insured in Canadian agencies for $600 and there was $650 on the cargo in Nova Scotia Marine Underwriters. Agent Capt. Anderson was sent to the scene of the disaster to arrange about the saving of the cargo. When he arrived at the wreck and inspected her, he found there was not more than half the quantity of flour on board that had been shipped, and on questioning the captain he could get no satisfactory explanation. Capt. Anderson had what there was on board landed and sold for the benefit of the underwriters and then returned to the city. He reported to the insurance officers that there appeared to be something crooked about the affair, but there was not sufficient grounds on which to work up a case.

Some days afterwards information was received by the underwriters from men on the eastern shore stating that parts of cargo of the Seven Brothers, principally flour, had been landed at various points on the coast between Jeddore and Whitehead, and it was rumored that the schooner had afterwards been cast away. At this point Detective Power was engaged to work up the case and bring the guilty parties to justice. After several visits down the eastern shore in company with Captain Anderson, the detective located some of the flour and arrested one of the crew, who gave the snap away, telling where the cargo had been landed and who were in the ring. After some searching, Captain Baker was finally arrested and is now in custody. It is said several respectable men on the coast are implicated and will be brought to book.

Warren Baker, captain of the Seven Brothers, was to-day before Stipendiary Griffin on a charge of breaking bulk, stealing barrels of flour and casting away the vessel. The matter stands over till Saturday next.

A HAMILTON BURGLARY.

Hon. R. Moreton's Residence Ransacked By Thieves.

HAMILTON, Aug. 25.—Extensive robberies have not been common in the city for a long time, but one of abnormal proportions was perpetrated last evening that makes the detectives blink. The residence of Hon. R. Moreton, 383 Main-street east, was the scene of the burglars' depredations. The Moreton family are residing at Burlington at present and the house was locked up and left in the charge of the St. John's Church caretaker.

When that person went to the Moreton residence this morning he found a very dilapidated state of affairs. Evidently busy thieves had been at work. In order to get from one room to another, the burglars had smashed in the panels and locks on no less than 11 doors, by the aid of a hammer and a chisel, which were found on the premises.

The caretaker notified Constable Bainbridge, the first officer he saw, and the latter took a description of a lot of articles that were known to have been stolen. The list is a pretty lengthy one. It includes ten suits of clothes, riding breeches, boots, a dozen shirts, socks, underwear, a watch, a silk dress, lawn tennis rackets and a lot of smaller articles.

The house was evidently well ransacked during the night, and, judging from the construction of the doors, it is surprising that none of the neighbors heard the crashing of the woodwork. The house was entered by a back window, and the footmarks discovered on the lawn at the rear of the house indicate that boys or young men had done the job.

Shot From Ambush.

JACKSON, Ky., Aug. 25.—The mail carriers from Crockettsville report that J. S. Hamilton, United States Deputy Marshal of Owsley County, was shot from ambush on Monday on Lings Creek, near Crockettsville. Hamilton was accompanied by a young man named Riley, who was shot through the arm. They say there were four men in ambush, but they could not be identified. Hamilton lately arrested a number of moonshiners on Buffalo Creek, in Owsley County, and it was for this, doubtless, that he was shot.

Threatened Strike in Paris.

PARIS, Aug. 16.—Five thousand of the Parisian cabmen met yesterday, and the speakers advocated a general strike. No definite resolutions were adopted.

THE BORDEN MURDERS.

A Lawyer Advances a Startli Theory.

FALL RIVER Mass., Aug. 25.—A bouq of flowers—yellow, red and variegated bl soms from the woods—ornamented Liz Borden's prison cell yesterday. The w flowers were placed in a basin on the w dow sill and passers-by in the alley cou see them. Some sympathetic friend h gathered them from the fields, but wh Matron Russell, Lizzie's custodian, did n know. They had not come from the B den house, for there were no flowers the

There was a trend of religious thought Lizzie's being, but her religion was nev ostentatious. Now that she is here awa ing a preliminary trial for murder s passes the day reading books on religio topics.

Sister Emma and her faithful pastor, Re E. A. Buck, called on her, but remain only a short time. These interviews w her sister and Mr. Buck are commonpla The talk is desultory and the subjects n pertinent to her situation. Marshal H liard also dropped in during the afterno to see if she was comfortable.

Her lawyers, J. J. Jennings and M ville O. Adams, were both out of tow It was reported that they had gone Westport to prepare their case in qui Mr. Jennings thinks that he scored a v tory in forcing the prosecution to adjou the hearing until they could put in all th evidence.

In the absence of Distric-Attorn Knowlton Marshal Hilliard declared th the assumption of the defense that the po ponement was an indication of weakness wrong.

"The experts are not ready, it is tru he said, "but I know that Mr. Knowlto satisfied to present his case to the cou and he was yesterday. Miss Borden w arrested on strong suspicion, backed strong circumstantial evidence. If cannot be held on that evidence we are p fectly willing to see her released.

"It was with great reluctance that were compelled to take her into custo The murders were committed by some o and the incriminating circumstances cent ed about her.

"The public demanded the arrest of murderer, and because the prisoner in c tody is a woman and the daughter of t persons who were killed some of the pub howl. That's always the way."

"Is she in your custody now or that the Sheriff of the county?"

"She is in mine. Until the court tu her over to the sheriff she will remain mine. At present she is a person h upon suspicion only, not yet having had trial."

"I notice that the warrant on which was arrested, and which was sworn to you, accuses her of the murder of Andr J. Borden only and does not mention M Borden. Why was that?"

"The reason is simple. If a man h committed 20 burglaries he would be h for one at first, but on his trial all the e dence against him would be produced a the Grand Jury would indict on all charges."

"Then, while you base your case ag Lizzie on the murder of her father you pect to show also that she had killed M Borden?"

"The evidence in one case will inclu the other. The plain presumption is, course, that both people were killed by same person."

"Why was the murderer of the m selected in preference to that of the wom who, the doctors declare, was eviden killed first?"

"You will have to ask the District-Att ney. He drew up the warrant and m the choice for his own reason."

It is apparent, however, that the daugh is charged with the murder of her fath only, because she discovered his body wh the blood was still trickling from his frig ful wounds, and because, so far as can found out, she was the last person to and talk to him.

In discussing the strange affair to-day local lawyer, who has known the Bord since boyhood, expressed great admirat for the self-possession of Lizzie Borden the position in which she has been plac

"It seems hardly possible," he said, "t a woman who had committed such cri could maintain the demeanor borne by Li all along. If guilty an ordinary wom would protest her innocence and show si of her horror of being accused. If innoc she should scarcely bear up under the wei of the outrage upon her.

"An ordinary person would appeal some one for help. Miss Borden has d none of this. She has shown no fear, has never appeared to resent a suppo outrage, she has not appealed to her frien

"There is some reason for her marvell composure, for Lizzie Borden is not insa That is, I cannot think her so. The rea must be an all-powerful one.

"The rock that sustains Lizzie Borden her knowledge of the murderer. She kno who butchered her parents. That gui knowledge is her strength.

"Vicarious guilt, borne with the conv tion that the person's guilt cannot be pr ed and based on some strong personal mot for concealment, is an impregnable bulw for a secret.

"Now, then, why should she want to c ceal the slayer of her parents? There we baffled. She was never known to hav lover, who might have done the deed to has his marriage and the possession of share of the Borden wealth. But she never a demonstrative girl, and even if loved no one would be likely to know However, I am not especially partial to lover theory.

"There remains her knowlege of crime as an instigator. If she was an acc sory only her demeanor is explained. she procured the murder it was the res of a long considered plan, and when it done she was satisfied. She could eas have concealed the murder in the hou sent Bridget out of the way and covered retreat.

"There is my theory; I don't think woman could keep up as Lizzie Borden done if she had killed those old people w her own hands. I don't think she or other woman could do it if she w innocent.

"Many women can keep a secret matter how terrible when it belongs to one in whom they have a deep interest believe that she has a guilty knowledg the crime, but I do not believe that inflicted the death blows." It was lear yesterday that Edward E. Wright of t Wright Drug Company of New Bedfo has been in consultation with Distri Attorney Knowlton and has explained him the composition and effect of pru or hydrocyanic acid. This would indic that the state still clings to the theory poison being administered before hatchet was used.

THE WAR OF RETALIATION.

The majority of people have taken the retaliatory canal tolls imposed at the Sault very calmly, and the agitation has already pretty well subsided. They realize that after all it meant only that the transportation companies, chief of which is the C. P. R. Co., would make a little less money the next few months, and this is of no great concern to the rest of the people.

There are some spit-fire journals, however, that have become wonderfully excited over the matter, and call on the government to do all sorts of desperate things. They insist that at any rate the government should close the Canadian canals to the Americans entirely, or impose a ruinous toll on all American vessels using our canals.

There is no doubt whatever that the Canadians have got the whip hand. The Sault, only a mile or two long, and a short canal in the St. Clair flats are the only American canals Canadians ever use, while Canada has about 80 miles of canals, the largest portion of which are constantly used by Americans, so that Canada could inflict more injury on the Americans than they can on us should a retaliatory policy be decided on.

But what would be the sense of such a policy? We impose a toll on American vessels going through the Welland. They impose a toll on Canadian vessels passing through the Sault. Then why not both cry quits?

Canada, by imposing heavy tolls on all American vessels using our canals, could inflict serious injury to American shipping interests, but we would thus in no wise benefit ourselves. On the contrary we would do ourselves an injury to the extent of the loss of the tolls that are now collected on American vessels, which we would loose were we to shut these vessels out.

To engage in a war of retaliation would therefore be folly. To hurt a neighboring country when we can thereby do ourselves no good is childish. This whole squabble is in fact ridiculously absurd. For two nations to engage in a policy of petty spitefulness is a derogation of national dignity which it is difficult to view with equanimity.

The Canadian government, if they had been wise, might have averted the whole trouble. They have decided to abolish the obnoxious rebate at the end of this year. They thus admit that the rebate is either unjust or unwise. Believing this, and knowing at the beginning of the season that the Americans were dissatisfied with it, it should not have been granted this year at all. In fact the American government assert that the Canadian ministers who visited Washington last Spring distinctly promised that the rebate would not be imposed this year, and this assertion has not been denied by our government.

But the blunder was made, and now the only thing that can be done is to let matters remain as they now are for the rest of the season. Having taken a definite stand on the matter our government cannot now retreat without a loss to our national dignity. The tolls are not a serious matter Our government announce that the rebate will be abolished at the end of the season. When that is abolished the tolls at the Sault will also be abolished. So that next year everything will be peaceful and quiet again.

But to stir up more hard feeling and challenge further reprisals now by imposing harrassing duties on American vessels would be worse than a blunder, it would be almost a crime.

EDITORIAL NOTES.

It is easy to be a tory theorist in Canada, but a short residence in the States convinces the most "loil" of some hard facts that while in this country they strenuously denied. Rev. W. W. Carson, when in Canada, was a tory, dyed in the wool, and he used to strongly maintain that there was no exodus to speak of, that everything was lovely in this favored land and all who talked about the exodus were denounced by him as traitors. He now lives in Michigan, and when on a visit to Canada a few days ago he said there were 125,000 Canadian voters in the State of Michigan. As the voters usually number not more than one to four of population there must, if he spoke true, be half a million men, women and children of Canadian birth in that State. This is worse than any "disloyal" grit has ever dared to assert.

Children Cry for Pitcher's Castoria

TORONTO TOPICS.

TORONTO, Aug. 25.—Dr. Urquhart of Oakville came to the city yesterday with fire in his eye. He claims to be the victim of a "blackmailing" scheme by which an attempt is being made to extort $16 from him illegally. He told the following story:

"The other day a stranger came to my house and asked for an ounce of carbolic acid. I was taking a nap at the time, so my wife gave him the acid after cautioning him as to the danger in handling it. He said, 'O, that's all right, I want to use it in an ointment.' In a few minutes he came back and asked to see me. He reminded me that I had sold poisons and under the act was liable to a fine of $20, and proposed that if I would pay all the back fees—amounting to $16—he would not press his case. I told him I would not agree to that, so he took his leave.

"I do not know the fellow's name, but I intend to find it out, and I intend to see the end of this affair. That is what I came to Toronto for to-day."

A sorrowful man was A. A. Beaton of Alexander Postoffice, Inverness County, Nova Scotia, as he made his way to Police Headquarters last night. His story, as he gave it to the detectives, was as follows: He was on his way east and met on the train a very friendly personage, who, it turned out, was bound for the same destination.

While the pair were in the Union Station waiting-room a man came up to Mr. Beaton's friend and said, "I've got your freight all right, but you didn't give me enough to pay for it." The freight owner pulled out a wad of bills, but found he had not enough to cover the deficit. Turning to Beaton he asked, "Can you lend me some money for a few minutes?" Beaton was quite willing to oblige his new-found friend and brought forth a roll of bills containing $82. His friend took the pile, saying, "Never mind, I'll count it myself." He then disappeared with his confederate and Beaton finally made up his mind that he had been fleeced, and made haste to inform the police.

Advertising a patent medicine in the peculiar way in which the proprietor of Kemp's Balsam for cough and colds does it is indeed wonderful, He authorized all druggists to give all those who call for it a sample bottle free, that they may try it before purchasing. The large bottles are 50c and $1 We certainly would advise a trial. It may save you from consumption.

A Pleasant Herb Drink

The best cure we know of for constipation and headache is the pleasant herb drink called Lane's Family Medicine. It is said to be Oregon grape root, combined with simple herbs, and is made ready for use by pouring boiling water onto the dried roots and herbs. It is remarkably efficacious in all blood disorders and is now the sovereign remedy with ladies for clearing up the complexion. Druggists sell the packages at 50c and $1.

For all forms of female weakness Dr. Williams' Pink Pills are an unfailing specific. Mr. Thomas Strachan, Postmaster, Roballion writes: My daughter has been ill for the last four years with female weakness, and had been attended by four of the best doctors in our section. She began the use of Dr. Williams Pink Pills, and two boxes have done her vastly more good than all the medicines she took from those doctors.

What She Said

Mrs. R. Peck, 15th street, New York City, visited Canada last year, and had the good fortune to pick up something which not only suited her, but her neighbors also. Writing the manufacture of Nerviline she says:—"I bought three bottles of Nerviline while in Canada and treated my neighbors to some of it, and all think it the best medicine for internal or external pain they have ever used." Nerviline deserves such commendation, for it is a most powerful, penetrating, and certain remedy for pain of all kinds. Take no substitute.

PAR the power of acting specifically upon the diseased organs, stimulating to action the dormant energies of the system, thereby removing disease. In fact, great is the power of the medicine to cleanse and purify that diseases of almost every name and nature are driven from the body. Mr. D. Carswell, Carswell P. O., Ont. writes: "I have tried Parmelee's Pills and find them an excellent medicine, and one that will sell well.

A Cure For Constipation And Headache

Dr. Silas Lane while in the Rocky Mountains discovered a root that when combined with other herbs makes an easy and certain cure for constipation. It is in the form of dry roots and leaves, and is known as Lane's Family Medicine. It will cure sick-headache in one night, For the blood, liver and kidneys, and for clearing up the complexion it does wonders. Druggists sell it at 50 cents a package.

Weighed in the balance, but not found wanting. Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure has been weighed in that just balance, the experience of an impartial and intelligent public. Both remedially and pecuniarily it is a success. Its sales constantly increase, testimony in its favor is daily pouring in. The question of its efficacy in Dyspepsia, Liver complaint, Kidney Ailments, and for Blood Impurity is decided.

Now is the time to take a good tonic medicine. Hood's Sarsaparilla possesses the greatest merit, and is in popular favor.

Cured Female Weakness

Mr. Hugh Caldwell, Clydesdale, Ont., writes:—"My daughter was under the care of doctors for more than a year for female weakness, without getting relief. I then procured Pink Pills and they cured her." All dealers 50 cents a box or 6 boxes for 2.60, or mailed on receipt of price. Dr. Williams' Med. Co., Brockville, Ont., and Schenectady, N. Y.

The highest praise has been won by Hood's Pills for their easy, yet efficent action.

As an after dinner pill, to strengthen the stomach, assist digestion, and correct any bilious tendencies, Ayer's pills are considered the best. Being sugar coated, they are as agreeable as any confection, and may be taken by the most delicate.

How Mr. W. D. Wentz of Geneva, N.Y., was cured of the severest form of dyspepsia? He says everything he ate seemed like pouring melted lead into his stomach. Hood's Sarsaparilla effected a perfect cure. Full particulars will be sent if you write C. Hood & Co., Lowell, Mass.

THE AMEER SEEKS HELP

AGAINST RUSSIAN ADVANCE IN THE PAMIRS.

He Appeals To the Indian Government For Aid—The Great Northern Power Does Not Seem to Make Any Calculation of Chinese Opposition, But the Chinese Will Fight.

SIMLA, Aug. 25.—The Ameer of Afghanistan sends an appeal to the Indian Government to aid him against the Russians.

It is thought that Russia's object is to first assert her right to Shingan by occupying it and driving out the Afghans, who have taken possession of the place, and to turn the Chinese position in Kashgar. Russia for some reason seems to make no calculation upon Chinese opposition to her plans.

Professor Arminius Vambery, the well-known traveler, recently expressed the opinion that the Ameer of Afghanistan would eventually appeal to the English for assistance against Russian aggression, and his prediction has been borne out by the fact.

The Novosti of St. Petersburg, commenting upon this prediction, declared that Russia could not permit the occupation of Afghanistan by Great Britain. The paper added that if Afghanistan was merely a buffer for Great Britain it behooves Russia to see that internal affairs in Afghanistan do not threaten to interfere with the economic development of the trans-Caspian provinces.

The reply of the Indian Government to the Ameer's request is anxiously looked for.

A correspondent of The London Times says: "If Russia were to encourage Ishak Khan to come forward as a rival to Abdurrahman it would be a distinct act of hostility, which is not consistent with the friendly relations now existing between the two countries. Let us remember that Ayoob Khan found no support from Russia at the time he escaped from Teheran and attempted a coup d'etat at Herat.

"Professor Vambery, possessing, as he does, exceptional means of information and an intimate knowledge of the subject under discussion, may be right in suspecting Russian intrigues among the Chahar Aimak and the Hazaras, but if it is so, and if Russia were, while pushing her troops forward across the Pamirs toward the Hindu Kush, to at the same time encourage Ishak Khan to take advantage of the reported rising among the Usbegs of Afghan Turkestan, such conduct would be too much, perhaps, for even the tolerant policy of the coming Cabinet. It is more than doubtful if Russia is at this moment desirous of a rupture with England. At the same time, we must admit the opportuneness and relevance of M. Vambery's reference to the 'ambiguous services' that the Russians have always proved ready to render to their good friend, Mr. Gladstone.' "

Sudden Death at Seaforth.

SEAFORTH, Ont., Aug. 25.—James McClure, aged 25, son of Mr. George McClure of the township of McKellop, near this town, who had been in poor health for some time, died very suddenly yesterday of heart failure. Deceased had been in the orchard a short time, and on returning to the house sat down on the doorstep and was in the act of eating an apple when he suddenly fell over and immediately expired.

Robbers Make a Big Haul.

VAN BUREN, Ark., Aug. 25.—James S. Wilson, agent of the Kansas and Arkansas Valley railroad at Nowata, Indian Territory, and two others were held up and robbed Monday night by three men supposed to be members of the Dalton gang. About $41,000 in cash was secured, one-third of it being the personal property of Wilson, the remainder belonging to the railroad and express companies.

The Iron Hall Fraud.

INDIANAPOLIS, Ind., Aug. 25.—Supreme Cashier Davies was yesterday ordered to make an assignment to Receiver Failey of all the funds in the custody of the local order of the Iron Hall. All branches complying with the order will be accounted in good standing. Supreme Justice Somerby disappeared last evening soon after the receiver was appointed and has not been seen since.

Broke the Record.

SPRINGFIELD, Mass., Aug. 25.—P. J. Berlo rode two miles on Hampden Park yesterday in 4.48 2-5, breaking the world's record of 4.48 4-5, made by Taylor last fall.

Reduced Cattle Freights.

MONTREAL, Aug. 25.—Cattle freights took a drop of 20 shillings yesterday, the boats going out at 30 shillings to Liverpool. This is the lowest figure ever accepted by the steamships, and is due partially to the bad state of the English market and partially to the fact that the combine between the three big steamship companies to keep up rates is broken.

Convicts to Return to the Mines.

NASHVILLE, Tenn., Aug. 25.—The Board of Prison Inspectors have just decided to return the convicts to the mines at once.

"German Syrup"

Here is an incident from the South—Mississippi, written in April, 1890, just after the Grippe had visited that country. "I am a farmer, one of those who have to rise early and work late. At the beginning of last Winter I was on a trip to the City of Vicksburg, Miss., where I got well drenched in a shower of rain. I went home and was soon after seized with a dry, hacking cough. This grew worse every day, until I had to seek relief. I consulted Dr. Dixon who has since died, and he told me to get a bottle of Boschee's German Syrup. Meantime my cough grew worse and worse and then the Grippe came along and I caught that also very severely. My condition then compelled me to do something. I got two bottles of German Syrup. I began using them, and before taking much of the second bottle, I was entirely clear of the Cough that had hung to me so long, the Grippe, and all its bad effects. I felt tip-top and have felt that way ever since." PETER J. BRIALS, Jr., Cayuga, Hines Co., Miss.

LABOUCHERE NOT ASKED

TO TAKE A POSITION IN GLADSTONE'S CABINET.

Farmer Atkinson Makes a Poor Run Against Sir William Vernon-Harcourt—Gladstone Re-elected by Acclamation in Midlothian—He Will Not Retire From Office.

LONDON, Aug. 25.—The Associated Press representative here learns that Mr. Gladstone has sent a letter to Mr. Labouchere saying that he alone is responsible for not presenting Mr. Labouchere's name, and his reasons for not appointing Mr. Labouchere in no wise reflect on Mr. Labouchere's public career or services.

The Home Rule Bill.

LONDON, Aug. 25.—The Chronicle yesterday gives the following as the main lines of the Home Rule bill as believed to have been agreed upon between Messrs. Gladstone, McCarthy and Dillon:

First—That the present land legislation shall not be disturbed for five years;

Second—That the police and justiciary shall be in the hands of an Irish Parliament.

Third—That the balance of the Irish Church Fund shall be at the disposal of the Irish Legislature.

Fourth—That the English Receiver-General of the bill of 1886 be dispensed with.

Fifth—That on the other hand there shall be only one customs department, and that the Irish Parliament shall not have power to levy separate duties.

Sixth—That the only veto shall be the Royal veto, to be exercised on the advice of the English Ministry.

Seventh—That thirty Irish members shall be retained at Westminster.

The Chronicle believes that Mr. Gladstone abandoned with great reluctance the idea of a Receiver-General in deference to the wishes of the McCarthyites.

The London World on Mr. Blake.

LONDON, Aug. 25.—The World (Conservative) yesterday comes out with what may be termed a really denunciatory article regarding Mr. Blake and his appearance in Imperial politics.

The World, after reviewing Mr. Blake's political career in Canada, proceeds to compare his line of action with that of the Hon. Alexander Mackenzie, his predecessor in the leadership of the Canadian Liberal party. As might have been expected, the comparison is much against Mr. Blake. "Hon. Alexander Mackenzie," says The World, "never deviated from his fixed principles. Mr. Blake, on the contrary, trimmed his sails in an endeavor to catch the wind of popular appreciation. Mr. Blake, though a Protestant, resembles in every way the typical Irish Catholic. Although a Canadian, Mr. Blake when active in the politics of the Dominion put more value on the Irish vote than any other. Long before he left the Canadian Parliament he had completely failed to command the confidence of his Irish fellow Protestants. His presence in the Imperial Parliament as an Irish Nationalist is designed to capture the Canadian Irish vote for the Liberal party. Mr. Blake is not especially anxious that Ireland should receive self-government. The letter to the Liberals of West Durham, which Mr. Blake addressed on the eve of last election did not indicate a high order of patriotism."

Harcourt Re-Elected.

LONDON, Aug. 25.—Sir William Vernon Harcourt was re-elected by an increased majority, receiving 6508 votes, against 1619 for Farmer Atkinson. In the recent general election Sir William received 7507 votes and his Conservative opponent 5546. With the exception of Sir William Vernon Harcourt and Mr. John Morley all the new ministers have been formally re-elected without opposition. Mr. Gladstone was re-elected yesterday by acclamation.

Gladstone Will Not Retire.

LONDON, Aug. 25.—In response to inquiries as to the truth of the rumor mentioned by The Chronicle yesterday to the effect that Mr. Gladstone would retire from office in the spring, Mr. Gladstone telegraphs from Hawarden that the whole story is utterly groundless.

THE HOT WAVE IN EUROPE.

Eighteen Deaths Reported in Austria and Many Prostrations.

VIENNA, Aug. 25.—Eighteen deaths were caused by the heat in this city yesterday. While a regiment was marching from Kaschau to Borsod 250 soldiers were prostrated by the heat and three died. Rain is falling in Hungary last night.

Deaths in Berlin.

BERLIN, Aug. 25.—The thermometer registered 89 degrees in the shade yesterday. Many deaths from sunstroke were reported. The heat in East Prussia is more intense. The mercury rose to 95 degrees in Thorn to-day and five deaths were reported there as due to the heat. The fruit and vegetable crops have been ruined. Fifty soldiers were prostrated by the heat in Dantsic yesterday.

The Panama Canal.

PARIS, Aug. 25.—The newspaper Paris says that the liquidator of the Panama Canal Company has concluded an agreement with M. Hielard, the vice-president of the Paris Chamber of Commerce, providing for the formation of a new company with a capital of $30,000,000, to resume work on the Panama Canal. Work will be resumed immediately in order to prevent the lapsing of the concession granted to the old company by the Government of Colombia.

Suffering in Hungary.

BUDA PEST, Aug. 25.—A hot wave of tropical intensity is traversing Galicia and is causing much suffering. Notwithstanding the hot weather the military manœuvres are being held at Fuenkirchen. Yesterday while a regiment was marching in the manœuvres one-third of its members were overcome by the heat and dropped helpless by the roadside.

All through the Provinces the rapid increase of La Grippe, is causing great alarm. A report was received here to-day, of a new development of the disease, which is worse, perhaps than any other. Wm. Hanley of N. Y. City, died in terrible agony after sickness of only four days. His tongue swelled to such an extent as to make it impossible for him to close his jaws or swallow any food. The report is causing the people in this district to irritate into the noted Grip-cure, recently referred to in so many papers. In Cape Breton the disease has spread very rapidly and with fatal results, D. J. McKillop of L'Archeveque writes Feb. 11th that this cure has been tried in his neighborhood and with such success that all those residing there are obtaining a supply believing it to be the only remedy affording relief and effecting a certain cure. He finished his letter by asking for a large quantity of the Medicine (Dr. Morse's Indian Root Pills) to supply the demands of the community for the relief of LaGrippe.

The "Myrtle Navy" brand of smoking tobacco has stood the test for over twenty years, and during that time it has lost no friends and gained scores of thousands This lengthened experience shows that is no mere passing fashion which has gained it the approval of the public, but its superiority in the essential qualities which make a first-class tobacco.

Advice to Mothers

Mrs Winslow's Soothing Syrup has been used by millions of mothers for children teething for over fifty years, with perfect success. It relieves the little sufferer at once, produces natural quiet sleep, and freeing the child from pain, and the young cherub wakes as bright as a button.' is pleasant to taste, soothes the child softens the gums, allays pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhoea, whether arising from teething or other causes 25 cts a bottle.

A Question

How can we raise more corn [illegible] the acher? Why, of course by using Putman's Corn Extractor. Putman's Painless Corn Extractor has given universal satisfaction, for it is safe, sure and painless. Like every article of real merit it has a host of imitators, and we would specially warn the public to guard against these dangerous substitutes offered for the genuine, Putman's Extractor. N. C. AMONG SUNNY GROVES

What a Belleville Boy saw on the Pacific Coast

SIR:—Deeming that a short description of one of the most interesting, beautiful and picturesque drives in California, if not in the world, would be of interest to the many readers of your readable paper, I give the following inadequate sketch of what is called the "Seventeen Mile Drive," situated in Monterey County, in this state.

We left Pacific Grove at 9 a.m. and immediately were on a firm sprinkled and well-paved road, which for the most part continued on the whole drive.

We soon had tall trees on both sides of us, while here and there an old hut, a relic of California's semi-civilization broke in upon our curious vision. These buildings are all low, dilapidated structures gradually falling to pieces, and as I stood and gazed upon the remains of the work of a hundred years ago, I involuntarily shuddered, and after a hurried, curious look on the inside of one of them (for one was enough for me) was soon breathing the glorious sea air, and experiencing that indescribable sense of relief one feels after having got away from the presence of a dead person.

Continuing for about a mile and a half we arrived at a branch road leading to Moss Beach, which we took, and were well re-paid for so doing, as the view was grand, the moss of the rarest varieties, and the breakers seemingly engaged in an endless struggle with the immense rocks which lined the coast.

Prior to reaching the main road we pass over a sandy eminence, from which may be seen immense rocks rearing their gigantic heads almost as high as mountains, and which are literally covered with a species of sea bird, whose shrill coarse screech was mingled with the soft hollow bellow of the seal. Cypress Point probably the most picturesque place on the coast, is but a short distance, and we drove right out to the land's end, were a view was presented that was simply magnificent.

This is the only natural home of the Cypress tree, with the exception of Lebanon and as I looked at the curious old shapes, and the venerable appearance of them, overlooking, as it were, the thousands upon thousands of "white caps" as far as the eye could reach, they involuntarily brought to mind the picture of a group of old generals standing at the head of an immense army of white turbaned soldiers, grouped upon an illimitable plain. Continuing from thence we passed over beautiful undulating little hills, with here and there some wild flowers or moss or stones that made us all look with wonder and delight, till we arrived at Pebble Beach, and it is very aptly named such, for the entire shore is covered with pebbles of all shapes and sizes and colors.

We then passed through a wood full of delightful little nooks for picnics while now on one side of the road, now on the other, could be seen rare and choice wild flowers, while the trees were covered with that thin vapoury air moss which is so much admired by all sight seekers.

It is but a short distance now to the old town of Monterey, which we soon passed through and arrived at the famous "Hotel Del Monte," whose grounds it took us about an hour to see. Romantic avenues of the rarest and most regular trees, with here and there a vacancy to make room for a bed of the choicest and most tropical flowers, or a beautiful and artistic "carpet" of mosses, passed us in rapid succession, till we arrived at the artificial lake, which is a perfect gem. Cute little islands may be seen peeping out from some cosy cove, while the quack, quack, of the ducks, mingled with the coo, coo, of the birds of many colors as they flitted from a peach to a palm, or an orange to a banana tree, made us wonder if we were not actually in the Garden of Eden.

The bathing pavilion is also an interesting feature in connection with the hotel. There are four large tanks, the water in each having a different temperature ranging from cold to warmth. The first time I took a bath (not the first since I left Belleville however) I did more looking on than swimming I'm afraid, as the scene was rather strange to me. Picture to yourself a large room, filled with all manner of tropical trees, shrubs and flowers, with dozens and dozens of bathers (both sexes) in costumes that were decidedly "unique," some coming down off what a Canadian might call "a small toboggan slide" head or feet foremost, as the case might be, others leaping or diving off some high place made specially for that purpose, the pretty girl learning to swim, or the quiet couple gently breasting the calm waters etc, etc., and you have a faint idea of the scene that was before me. But I soon went in for the enjoyment on my own account, and when I say that it was "delightful," it but faintly expresses it.

From here we took the road back to Pacific Grove (where I have been staying for the last month, and which is to this coast what Nantucket or Ocean Grove are to the Atlantic sea-side resorts,) but just on the outskirts of Monterey ran up and saw the remains of General Tremont's fort just as it was placed in 1849, which forcibly brought to my mind the fact that "peace not always was," which, I can assure you, was hard to realize after having taken the most enchanting drive it has ever been my fortune to enjoy.

What Stronger Proof

Is needed of the merit of Hood's Sarsparilla than the hundreds of letters continually coming in telling of marvellous cures it has effected after all other remedies had failed? Truly, Hood's Sarsaparilla possesses peculiar curative power unknown to other medicines.

Pipe Smokers

You may be satisfied with the brands of tobaccos you have been using for years. Grant it; that you are satisfied. As there is always room for improvement, we ask you to try our OLD CHUM PLUG, or CUT smoking tobacco; we believe you will be better satisfied. In any case, a trial won't hurt you. Don't delay upon the order buying, but buy at once.

We do not know of any preparation that has caught the public favor in so short a time as Dodd's Kidney Pills, but when we consider that three-fourths of the Canadian people are afflicted with kidney troubles in some form or other, and that Dodd's Pills are a quick and permanent cure for all these troubles, the large and increasing demand can scarcely be wondered at. Major Philpott who has seceded from the Salvation army was formerly District officer for Kingston district, and his voice has frequently been heard in the Belleville barracks.

Large posters and post cards advertising the Belleville horse races on Aug. 31 and Sept. 1st have been issued and distributed all over Ontario. It is expected a large number of people will witness the meeting.

John Fleming, the well-known confectioner, has added a handsome bread wagon to his rapidly increasing business. The cart is one of the most handsome in the city and is perfectly adapted for its work.

The big Belleville exhibition will open in a few weeks and merchants desiring to reach the farmers of this district with advertisements will have to do so at once. The WEEKLY CHRONICLE reaches every family throughout this whole section. No other paper reaches an average of one in ten houses in the same area. Rates are about half those of other papers in proportion.

Burglars broke into F. Fraser's hardware store, Norwood, on Sunday night. They made a big haul in knives, small wares and silver. The burglars got into the store through the back window.

Dr. Brennan, of Peterboro, met with an accident at Hastings Wednesday last week while boarding the Belleville train. The train was moving off and the doctor not calculating its distance missed his hold of the rail and feel heavily on the rails. He received a bad shaking up and several bruises, but thinks he was fortunate in escaping as well as he did.

Mr. Wilson, formerly hotel-keeper in Picton, intends erecting a first-class summer hotel at Glenora this fall. The building will cost about $10,000 and will be equipped with all modern conveniences. Mr. Nowlands, of this city, is the architect. The need of a summer hotel at this resort has been felt for many years. Mr. Wilson made P. McLaughlin an offer for the Windsor hotel a short time ago.—Whig.

The residents of the Thousand Island Park were aroused from their slumbers on Monday night by the furious ringing of the chapel bell. Soon a goodly number of the startled people had congregated with lanterns and buckets to fight the supposed fire. No sign of fire was to be seen and it finally dawned upon their minds that the alarm was a hoax. The perpetrators of the joke had vanished, and the citizens retired again to their couches.

To-morrow the fraternal societies of the city will decorate the graves of their deceased friends. The Mayor has proclaimed a half holiday to allow all to attend. Those requiring badges can procure them at Geen's Drug store, or on the market square at time of procession. Citizens will please take the steamer before the 3 o'clock trip. Moonlight in the evening. Oddfellows band on board.

The Cheese Board meeting on Tuesday was probably the last that will be held this season. On that day nearly all the factories contracted their cheese for the balance of the season, and probably before the end of the week the rest of the factories will follow suit, so there will be no more cheese to board. The price realized was a good one, over 10 cents for the September and October makes.

Miss Lottie Lee of Orillia has entered suit against a young man named Robert Oag, of the same place for $5,000 damages. The young lady charges breach of promise, and the case when it comes to trial promises to furnish an interesting story of love's disappointment.

E. P. Stevens has contracted with Miss Florence Ockerman for his leading soubrette with the Perils of New York Co. They open here at the Columbia theatre. Frankford (Ind.) News. The lady above referred to is the widow of Mr. Charles Ockerman, who was fatally burned in the Windsor House fire in Belleville a short time ago. She is one of the brightest stars on the American stage and in her favorite character as "Topsy" scored a decided success in the principal theatres in America. Her many friends here will hope that her past splendid success was but the earnest of what her future career will be.

The Prisoners and Twine,

(London Advertiser.)

We trust that the Ontario Government will not be deterred from its determination to break down the binder twine monopoly, and give the farmers of the Province a supply of this useful commodity at a reasonable cost, by any dodges that the ringsters may set on foot. Convicts in the Central Prison have to be employed. It is not fair to the farmers or the wage-earners who have to pay for their keep that they should be maintained in idleness, and it is bad for the prisoners themselves to be locked up without something to cultivate their energies. Objection has been raised that employment of convicts at trades is unfair to existing industries. There is some logic in opposition of that nature; but there is no reason in the outcry raised in some quarters that binding twine should not be produced in the Central Prison because at some future time someone in the Province may see fit to erect a factory.

Have you Thought of it

For four thousand years or more the world groaned, suffered and fumed about its corns, for their was no positive relief—no certain and painless cure until Dr. Scott Putman gave to the world his great Corn Extractor. If there is suffering now it is a result of carelessness, for the remedy is at hand. Try Putman's Corn Extractor. It is sure, painless, and prompt. Beware of substitutes. N. C. Polson & Co. proprieters. Kingston.

Clear Havana Cigars.

"La Cadena" and "La Flora." Insist upon having these brands.

Though the soil of Virginia grows the best tobacco leaf in the world, it does not all grow equal qualities. The production even of adjoining counties is often quite different, the one producing leaf which at once deteriorates if grown in the other. The leaf of the "Myrtle Navy" is the product of the choice sections of the State, which, through some combination of local influences, produce a better quality than any others. This is shown by its always commanding a higher price than any other smoking leaf.

THE PUGILISTS.

Kilrain's View of the Principals in the Coming Great Fight

Probably no person in the land is following the movements of Sullivan and Corbett with a keener interest than the man who has stood up before them both, and from actual experience is able to say something about their skill and prowess, and that man is Jake Kilrain. Jake says he is out of the ring for good, but he would like to see this fight. When asked who he thought would win, he replied: "Well, if he is in any kind of condition, I don't see how Sullivan can lose. I know Corbett is a keen, shifty fellow and a mighty clever boxer, but I shall never believe he is a fighter until I see him lick somebody. I hear his people are doing a lot of talking, but you know he is in very clever hands. Take it now right on dead form. You remember the night Corbett boxed three men in New York, winding up with Lannon. Joe was keeping a saloon in Boston, and was in no shape for a fight. He just came over to accomodate Corbett. When in condition he weighs about 180 pounds, but that night he weighed 230 pounds. Corbett was in the pink of condition, and, finding Joe off started in to do him up. But he couldn't do it. Try as hard as he would, he couldn't do it. Now, when Lannon was in the best of shape George Godfrey stopped him in four rounds. That doesn't look as if Corbett was a wonder. Corbett is scientific, to be sure, but in Sullivan he will find a man who knows just as much about the game as he does. I don't believe Jim will stand punishment. If he gets one or two of Sullivan's stiff punches his science will leave him. Corbett's hanbs are liable to go back on him. He hits with his hand open.

"In sparring with Corbett I found there was no steam to his blows. He would touch me and get away, but, while it looked pretty, there was no damage done. I didn't feel a single punch he gave me. His long reach gave him some advantage and I had to rush in on him to reach him. Now as to Sullivan. In the first place he is a heavy, powerful man, very light on his feet. He is a good two-handed fighter with an extra good right. Sullivan's weight and strength give him good advantage. If a man meets him he will drive him back, and by the time he is settled Sullivan is on the top of him down. That was the way he wore me down in our fight. That was all nonsence about his hitting me over the heart. If he had done so I could not have stood it. That story originated in this way: While I was training, Mitchel in rubbing me down chafed my side, leaving a red spot. In the fight my tights slipped down and showed this spot, and every body thought it was occasioned by Sullivan's blows. Do I think Sullivan is game and will stand punishment? I believe he is as game as a pebble, I know I hit him some punches that would have knocked out a dozen ordinary men and he didn't mind them at all. He is so big and strong that a blow doesn't effect him. I was in the ring with him in France when he fought Mitchell. The Englishman's blows he didn't notice at all. The only thing that used him up was the rain that gave him a chill. Corbett's reach is so long that Sullivan will have to do a great deal of in-fighting, to best him. I hear that the referee is opposed to in-fighting and that may work against Sullivan. I hope that John L. will be well seconded. A good deal depends upon that. A good cool second can soon detect the weak points of the opponent and tell his man how to go at him. In any sort of fair condition, I expect to see Sullivan win easy.

Corbett gets the best of the betting in the west, but pretty much all over the rest of the country Sullivan is a good favorite. Both men claim to be in magnificent condition.

MADOC NOTES

Duncan Thrasher who lives four miles from the village, Sunday night hearing a noise in his barn, went to the barn to see what was the matter and found one of his horses cast in the stable. He put the lantern down to assist the horse to rise. In rising one of the horses feet struck the lamp, smashing it and spreading its contents over some loose straw which caught fire in a short time. Barn and contents were burned to the ground. The loss will be a severe one for Mr. Thrasher, as he had considerable hay and grain stowed in the barn. The insurance is small.

Mr. Wm. Thompson ex-reeve of the township had a valuable cow killed by lightning.

Mr. Fred Rollen's elevator will be ready to receive grain by the last of nex week.

Campers at the lake all break up thi week.

Another new lodge of I. O. O. F. will be instituted at Thomasburg. They have the material there for a first class lodge. They will start with a membership of fifty.

There was another large shipment of hogs from from here, the price paid being five cents live weight.

Our public schools open next week.

Mr. George Brown of Brantford is visiting friends at Madoc.

Mr John Stratton, formerly of Belleville died Sunday night. The deceased was in his 83rd year.

Nothing Strange About it

Generally speaking times are dull, at least people talk that way. At the Oak Hall clothing house, right along these dull times, the cash sales are nearly double the corresponding days a year ago. Some people may think this strange, but there is nothing strange about it. The Oak Hall have been working hard for years to build up a successful business and as it stands now they have the full confidence of the public. We have found that when customers are used right they will come again.

TOWN TALK

A fresh supply of that refreshing temperance drink Hires Improved Root Beer just received at Geens Drug Store. Try a bottle. One 25c bottle makes 10 galls.

When you want your hot air furnace cleaned or repaired Deacon & Doyle will do it on the shortest notice.

TRAVELLING.—A prudent person leaving on a voyage never fails to put into her trunk a bottle of Persian Lotion, the most agreeable and reliable article for the toilet that druggists sell under the name of Persian Lotion.

"Oh, if I had only taken this medicine earlier in my life, what years of suffering it would have saved me!" was the exclamation of one who had been cured of rheumatism by the use of Ayers Sarsaparilla. Scores of such cases are on record.

As a tonic, the Father Mathew Remedy restores to a healthy condition the stomach and liver of the intemperate, which are always out of order, and builds up his nervous system; as an alterative, it makes a new man of him.

Mr. G. Redick writes Mr. Louttit as follows; I feel it my duty both to you and the public that after ten years affliction with that loathsome disease, catarrh, I have found apparently a lasting benefit (Louttit's Catarrh Cure) and to vouch for the same and am willing and desirous to make affidavit. Louttit's Catarrh Cure is for sale wholesale and retail at Geen's Drug Store.

A MINISTER ON THE WARPATH

An Accident Happens to Hon M Bowell's car at Port Hope

Mr Mackenzie Bowell, Minister of Militia, arrived in Toronto from Belleville on the Government car yesterday afternoon. He expected to meet Major General Herbert, who had left Ottawa, at North Bay to-day, but an accident to the wheels of the Government car delayed the Minister at Port Hope. He will meet the General at Winnipig, and together they will make a thorough examination of the militia stores and forts in the North West and British Columbia. The accident at Port Hope might have been a very serious affair but for prompt action of one of the railway employees. As it was a considerable portion of the track was torn up.

An Interesting Event

Monday evening there will be a mass meeting of the Christian Endeavor societies, Epworth Leages, King's Sons and Daughters and Christian Associations and all kindred societies in the city, in the lecture and class rooms of the Bridge St. church. In addition to a prayer and praise service and five minute talks from representatives of the different bodies represented, Rev. Mr. Floyd of New York, one of the leading and most zealous Christian Endeavor organizers in the world, a brilliant and original speaker and active worker will give an account of the monster convention held last month in the city of New York, with lessons therefrom and practical suggestions as to future work for the Master. Christians generally of all denominations are cordially invited to be present.

ITCHING AND BURNING

Sores All Over Her Body. Suffering Endless. Doctor Useless. Cured in 4 Weeks by Cuticura.

Your most valuable CUTICURA REMEDIES have done my little girl so much good that I feel like saying this for the benefit of those who are troubled with skin diseases. She was troubled with itching, burning sores. When I took her to the doctor the first time, he called it the Italian itch, and said he would cure her in two weeks. When the two weeks were up, he called it eczema, and in that time she was worse than before. He doctored her for three months, and she was so bad that we did not know what to do. He did not do her any good. I saw the advertisement of CUTICURA REMEDIES in the paper, and I said to my wife, "I am going to try them." Mind what I say, she was so thick with sores that we had to soak her clothes to take them off. Itch! there was no end to it. She had it all over her body, back, legs, arms, in between her fingers. She did not have it on her head. But after taking your CUTICURA REMEDIES for two weeks the itch stopped, and in four weeks the sores were all gone. I enclose her portrait. I am more than pleased with your CUTICURA REMEDIES, as they speedily cured my daughter, and if anybody asks me about your remedies, I will uphold them wherever I go. CHARLES M. GRONEL, Conshohocken, Montgomery County, Pa.

Why Suffer One Moment

From torturing and disfiguring skin diseases, when a single application of the CUTICURA REMEDIES will, in the great majority of cases, afford instant relief in the most agonizing of itching, burning, scaly, crusted, pimply, and blotchy skin, scalp and blood diseases, with loss of hair, and point to a speedy, permanent, and economical cure.

Mr. L. B. Hamlen,

Of Augusta, Me., says: "I do not remember when I began to take Hood's Sarsaparilla; it was several years ago, and I have found it does me a great deal of good in my declining years.

I am 91 Years

2 months and 26 days old, and my health is perfectly good. I have no aches or pains about me.

Hood's Sarsaparilla

regulates my bowels, stimulates my appetite, and **helps me to sleep well.** I doubt if a preparation ever was made so well suited to the wants of **old people.**" L. B. HAMLEN, Elm Street, Augusta, Me., Sept. 26, 1891.

HOOD'S PILLS are a mild, gentle, painless, safe and efficient cathartic. Always reliable.

A PROLIFIC SOURCE OF DISEASE.—A trifling indiscretion in diet may lay the foundation of confirmed dyspepsia, and there is no fact in medical science more positively ascertained or more authoritatively asserted than that dyspepsia is the parent of a host of bodily ills, not the least of which is contamination of the blood and the maladies of which that is the direct consequence. Their original cause is however thoroughly eradicated from the system by Northrup & Lyman's Vegetable Discovery and Dyspeptic Cure, a medicine which only requires regularity and persistence in it use to cure dyspepsia and many other ills that arise from it. No deleterious mineral ingredient is contained in it, and though its action is thorough in cases of costiveness it never produces griping pains in the abdominal region, or weakens the bowels like a violent purgative. It invigorates the system through the medium of the increased digestive and assimilative activity which it promotes and is also a most efficient remedy for kidney disease scrofulous and all diseases of the blood female weakness, &c., &c Price $1.00 Sample bottle 10 cents. Ask for Northrup & Lyman's Vegetable Discovery and Dyspeptic Cure. The wrapper bears a fac-smile of their signature. Sold by all medicine dealers.

If you have a cough or cold do not neglect it; many without a trace of that hereditary disease have drifted into a consumptive grave by neglecting, what was only a slight cold. Had the used Bickle's Anti-Consumptive Syrup before it was too late their lives would have been spared. Mr. A. W. Levy Mitchell, writes. "I think Bickel's Anti-Consumptive Syrup the best preparation on the market for coughs and severe colds. About six years ago I caught a severe cold which settled on my lungs, and for three months I had a cought. I had a physician attending me, but gradually grew worse until I was on the verge of Consumption, and had given up hopes of being cured, when I was induced to try Bickel's Syrup. Before I had taken one bottle I found myself greatly relieved, and by the time I had finished the second bottle I was completely cured. I always recommend it for severe colds and consumption."

LEO FAVORS GLADSTONE

AND IS GRATIFIED AT HIS RECENT SUCCESS.

Leo XIII. Likes the English Leader, and Democratic Ideas Held in Common Make the Two Nearer to Each Other Than Any Other Two Statesmen of the Present Time.

ROME, Aug. 26.—The constitution of a Gladstone Ministry in England has caused the relations between England and the Vatican to enter upon a new phase. The Conservative party and Lord Salisbury had tried to use the influence of the Holy See by promising much while giving almost nothing. Lord Salisbury had a number of agents at Rome, who tried incessantly to get on good terms with the Vatican, but who made the mistake of co-operating with the agents of the triple alliance in order to act upon the Roman Curia. The Italians were able to see how England, under Lord Salisbury, was closely bound to the triple alliance on finding how the united action of the four Powers made itself felt on common grounds. Since the affair of Malta the Pope has understood the game of the Tory Cabinet and distrusted it. Recently, when England requested the Propaganda to create in Egypt English bishoprics, with a view to consolidating English dominance there, and to form the bases of an Anglo-African empire, the Holy Father ordered all decision in the matter to be suspended until the close of the elections. He doubtless understood that Gladstone would return and that his policy would differ in its applications from that of his predecessor.

The Pope has not been deceived. At this moment the agents of the Conservative party and the representatives of the triple alliance are trying to persuade the Vatican that there is nothing to be done with Gladstone, that his policy will be anti-pontifical and that he will never forget his grievances against the Papacy. They add that he has become a revolutionary democrat and that to rely on him is to throw oneself into radical paths.

It is not believed that the Pope allows himself to be in the slightest influenced by these suggestions. Leo XIII. likes Mr. Gladstone through affinity of character, age and aspirations. Gladstone has committed faults in the Pope's opinion. Two above all, the publication of "Vaticanism" and the official mission of Sir George Errington. Before 1870 Mr. Gladstone dreamed of a union of the churches. He was nearly becoming Catholic. Then he threw himself into opposition and wrote "Vaticanism." But little by little he became more just minded. In 1882 he sent Errington to Rome in connection with his Irish policy. Rome was distrustful and became more so owing to Errington's want of tact. After his fall from power he came to Florence, about the beginning of 1889, with the hope of being received at Rome by the Pope, who was desirous of conversing with the illustrious Englishman, who, on his part, wished to explain to His Holiness the Home Rule question. But Salisbury's agents imposed upon and over-reached the Vatican. They declared that to receive Gladstone would constitute an act of opposition to the Conservative Cabinet. Leo XIII., from prudential motives, gave way to these representations. Affected at the check, Gladstone revenged himself in a magazine article.

But these difficulties will not prevent the Pope from coming to an understanding with Mr. Gladstone. The Pope knows that in politics it is necessary to forget and to be able to look at history in perspective. Nobody is more impersonal than the Pope. The question of Ireland and democratic ideas held in common make the two statesmen the nearest to each other of any statesmen of the present day. Here we are in hopes that a common interest will do the rest in effecting an entente.

A Bitter Contest at Newcastle.

NEWCASTLE, Aug. 26.—The climax of the bitterest and most rancorous contest on record was a comparatively uneventful polling day. Mr. Morley drove to every corner of the constituency. Both he and Mr. Ralli, the latter being accompanied by Mr. Hammond, were cordially received. As the day advanced Mr. Morley's friends became more confident of success. The exertions of Commoneas Wilson and Davitt it is believed, induced many eight-hour men to vote for Mr. Morley. The poll was unexpectedly heavy, 24,051 votes being cast, against 24,586 recorded in the general election. The result of the poll will be declared to-day.

It is reported that Mr. Ralli's face was cut with a stone that was thrown at him. In an interview to-night Mr. Morley's agent, Mr. Scott, said he could not believe that Morley was defeated, though he thought the issue doubtful. The other side admitted that the Gladstonian poll is heavier than at the general election.

It Was a Disorderly Meeting.

LONDON, Aug. 26.—The meeting called by the Liberal Radical Association of Northampton to protest against the exclusion of M. Labouchere from the new Ministry, was held in the Northampton town Hall last evening, the Mayor presiding. A resolution was passed expressing regret that Mr. Labouchere had been excluded from the Cabinet. This resolution was opposed by many present and attempts were made to expel the opponents, which led to several free fights. During the uproar many chairs were smashed. The meeting broke up in the greatest disorder.

A Canadian Lady's Brave Act.

LONDON, Aug. 26.—Mrs. E. W. Rowley, a Canadian lady, living in Cheyne Walk, Chelsea, has been presented with the certificate of the Royal Humane Society for courage and coolness in saving the life of a boy in the River Thames some weeks ago. Mr. and Mrs. Rowley were paddling their canoe below the Caudoyn pier when the accident occurred, and hastened at once to the boy's rescue. He had sunk twice and was reached only just in time. With admirable coolness Mrs. Rowley seized the lad, and telling him not to touch the canoe, held his head above water until a boat arrived. The heroine of the occasion is the daughter of ex-Lieut.-Governor Richards of British Columbia.

The Meteor's Mishap.

LONDON, Aug. 26.—In the Torbay regatta yesterday Emperor William's Meteor wound up with an accident her unfortunate season in English waters. In rounding the mark boat she fouled Major Murphy's cutter Lorna, and for five minutes it looked as if both boats were in for a rough time.

The Meteor tore the Lorna's mainsail to pieces and broke some of her rigging. Neither boat, however, sustained serious damage. The fault of the accident lay with the Emperor's British master. The Meteor will leave for Germany early next week.

Destitute State of Russian Jews.

PARIS, Aug. 26.—The condition of many of the Jewish emigrants who pass through this city is such that should cholera break out among them it would find a fertile field for its spread. The Jewish committee here state that within a month 1000 Jews, refugees from Russia, have passed through Paris, most of whom were on their way to the United States. Those who have recently arrived here have been in a most filthy condition.

Ship Owners in Trouble.

LONDON, Aug 26.—D. G. Pinkney & Sons, ship owners of Sunderland, have called a meeting of their creditors for Wednesday next to discuss private affairs. The directors of the Pinkney Sons Steamship Company, whose affairs are not affected by those of the private firm, have placed the management of the company and its vessels in the hands of W. & T. W. Pinkney of the Neptune Steam Navigation Company. Much gossip is current concerning other shipping firms.

Anderson, Anderson & Co., ship and insurance brokers of this city, have settled all open accounts to stop gossip.

A Steamer Capsized.

CALCUTTA, Aug. 26.—The British steamer Angelia, bound hence for England, capsized in the Hoogly River yesterday. Thirty-two of her crew were saved, but 15 are missing. It has not yet been ascertained how the accident occurred.

The Dahomeyans Fled.

PARIS, Aug. 26.—An official despatch from Porto Novo states that Col. Dodds, in command of French forces, yesterday advanced against Sakelo. When the Dahomeyans became aware of the advance of the French their entire fighting force fled northwest.

Conferring the Pallium.

EDINBURGH, Aug. 26.—The ceremony of enthroning and conferring the pallium upon the Most Rev. Angus MacDonald, Catholic Archbishop of St. Andrew's and Edinburgh, took place yesterday in the Roman Catholic cathedral here.

England Will Participate.

LONDON, Aug. 26.—Great Britain has received an invitation from the United States Government to take part in the naval parade in April next in connection with the Columbus celebration and has accepted it.

A WIND-UP TO THE STRIKE.

Sweeney, the Buffalo Strike Leader, Assaulted.

BUFFALO, N.Y., Aug. 26.—Grand Master Sweeney of the Switchmen's Union was brutally assaulted by one of the striking switchmen at the corner of Main and Swan-streets at 11 yesterday morning. While Sweeney was talking with other switchmen a man came up behind and dealt him a blow under the left eye. Sweeney staggered and a second blow felled him to the pavement. His assailant then kicked him in the head. Probably Sweeney would have been killed had it not been for the interference of several men who were standing within arm's length of the man who assaulted him. The man who struck Sweeney was Arthur Quinn of 175 Smith-street, one of the Nickel Plate switchmen who went out on strike. As soon as Quinn was pulled away from Sweeney he started on a run down Main-street, and one man started after him. Seeing that he was pursued, Quinn turned quickly about and shouted, "Keep back there; if you follow me I'll kill you." Then Quinn disappeared in the crowd.

Mr. Sweeney walked slowly down Main-street. At Seneca-street he turned into a drug store and was fixed up. The blow from Quinn's fist seemed to have stunned him. He was dazed and acted like a man recovering from a knock-out. After he recovered he began to pour out a torrent of abuse on Quinn's head.

"It was one of the most cowardly assaults I ever heard of," Mr. Sweeney remarked.

"What cause could he have to hit you?" asked a reporter.

"Quinn is a Nickel Plate switchman and has been thrown out of a job by the strike. I suppose he blames me for the loss of his position and has taken this way to get even. It was the only course he thought he had, I suppose."

"It is the first time in the history of the order that an officer has been assaulted," Mr. Sweeney continued. "I was never hit by a striker before."

"Will you have him arrested?"

"I don't know what to do. I'll see as quick as I wash the blood from my face."

After Mr. Sweeney had his wounds dressed he went to the Genesee Hotel under police escort. While he was in the drug store having his wounds dressed a number of strikers assembled on the sidewalk in front of the place and threatened further violence to the Grand Master. Sweeney was frightened and police were called to disperse the crowd. The blow upon his nose must have been a terrible one to judge from its appearance. An intensely bitter feeling against Sweeney has developed among the late strikers, who consider that they have been duped and betrayed by him. One of them stated that Sweeney had given the men no chance to get their places back again.

Troops Withdrawn.

About 1500 troops have been ordered home. General Porter said: "I will send no more away until we are sure that they will not be needed. We have received communication from some of the railroad companies this morning complaining of trouble and danger to their property and objecting to speedy withdrawal of the troops. Our military reports this morning bear out the statement of the railroad companies. We are going to stay here until the rioting is stopped if it takes all summer."

Strikers Frozen Out.

NEW YORK, Aug. 26.—H. Walter Webb, vice-president of the New York Central, said yesterday: "Now that the strike has ended we have time to think. Our yards are full. We have all the men we want and there is no room for strikers. They cannot come back, for under no circumstances will we discharge a single new man for an old one. Those of the old men who were loyal to the company, though forced out, may make application in the regular way. When there is room for them they can return."

To Be Extradited.

OTTAWA, Aug. 26.—It was learned at the Justice Department yesterday that a requisition has been made by the United States Government for the surrender of Frank La Fortune, wanted in Michigan for the crime of perjury. The prisoner was committed for extradition on Aug. 4 at Sarnia. Jacob Bernetz is the officer appointed to receive the prisoner.

"That is false. You have given m and I know it, but remember, I w give in one inch; never, never! Th I care to say to you."

In a voice embittered with supp passion Lizzie A. Borden yester the presence of her attendant, Mrs. the police matron, thus addressed he est and dearest relative, as with a wave of the hand she turned her bac her sister, with whom the conve just narrated had taken place.

With tears in her eyes and a voice ed with sobs Miss Emma left the roo the accused, overcome with emotio prostrate on the bed.

Cast off by the sister to whom sh come with words of comfort and hop ma Borden returned to her home in S street with Lizzie's denunciation ring her ears.

Mrs. Regan, speechless and hor watched the prisoner intently. The s cance of the scene she had witnesse fully realized and the compromising of the suspected murderess, her un nerves and wretched mental condition a revelation.

Previously she had been stoical a served, even in disposition and self-co But in one brief minute, as Emma B was entering the room, a transform had taken place and passion reigned w her where indifference had before been

The circumstances that led up t conversation between the Misses B are learned to be as follows: Since th of her late arrival in this city Lizz been visited daily by Miss Emma, wh been solicitous for her comfort and we Everything that could possibly be gested to make the prisoner's life a Central Station less tedious Miss E thought of and did.

Miss Lizzie's food was all sent from Borden house, her favorite books brought to her, and frequently her called either to bring some delicacy offer words of comfort and sympathy.

It appears that Mr. Jennings has been a frequent caller at the Central tion and that his interviews with Lizzie have not appearently been so s factory as he desired. Wishing, as co for Miss Borden, to be possessed of i mation that he did not have it is un stoon that he called at the Borden h this morning and had a talk with Emma.

It is asserted that he told Miss Emma necessity of his becoming at once acquai with such facts in the case of which might have a direct or indirect knowl as had not yet come to his ears.

It is understood that Miss Emma Bor told Mr. Jennings all that she knew or mised as to the Borden murder. Becom possessed of this information Mr. Jenn called at the Central Station and asked see the prisoner. He was shown at onc the matron's room and was allowed attorney's customary privilege of se his client alone. Upon his entrance M Regan immediately departed, and fo considerable length of time the two were gether. Then Mr. Jennings came out the attendant returned to her charge, wh she found more nervous and troubled t previously.

Mr. John Morse did not bring Miss Lizz luncheon down from the Borden house noon and the bearer of it did not see prisoner. Miss Lizzie ate sparingly and parently had no appetite.

Soon after, however, her sister was nounced. It was then that Mrs. Re saw signs of increased nervousness in prisoner's manner. She got up from bed and commenced walking the floor, when Miss Emma, with a smile, ca through the door Miss Lizzie did not w for the door to be closed before she gree her. Her utterances then were not of hitherto affectionate character. On contrary, she was cold and distant, a made no move to kiss the visitor as came towards her.

Miss Emma spoke pleasantly, sayin "Well, Lizzie, how do you feel this aft noon?"

To this question her sister made rep "You gave me away, Emma, did you no

Mrs. Regan was instantly alert. Suc remark she never before heard from a p soner charged with a serious crime.

As has been stated, Miss Emma's rep was reassuring: "No, Lizzie; I only told M Jennings what he ought to know for yo defence."

This seemed to exasperate the defenda and her reply was impetuously made. was the only compromising speech that h escaped her lips, and the moment the wor were uttered Miss Lizzie looked as if s would have given her inheritance to rec them. But she could not do so. In instant her lips were sealed, and f more than an hour afterwards she ke silent.

That anger existed on Miss Lizzie's pa towards her sister was manifested, and t emphatic manner in which she practicall ordered her out of the room was not to misunderstood.

After this scene on the second floor of th Central Station the newspaper men an officers below had no idea of the significan of Miss Emma's hasty departure. Neith did they realize the importance of oth movements which were soon after made by the friends of the imprisoned girl.

Within half an hour the Rev. Mr. Jub presented himself in a state of apparen anxiety and requested to see Miss Lizzie He was allowed to do so, and after a shor call left. He talked to her in a low voic and was very positive and earnest in his manner. Mrs. Regan was in the room but did not hear much that was said.

Then came City Missionary Buck, wh also appeared to be in a disturbed frame o mind, and he, too, offered consolation Mrs. George Brigam also put in an ap pearance, and after her came John V Morse. This constituted the list of th prisoner's visitors in the afternoon, and i was evident that the purpose was to chee up the prostrate woman.

Whether their calls were the result of request of Miss Emma and her friends o whether their presence so closely followin the outbreak between the sisters was coincidence can only be conjectured. The left, however, before supper time, whe Mr. Morse returned from the Borden house bringing Miss Lizzie her evening repast.

IT WOULD BE UNJUSTIFIABLE

Hon. Mr. Haggart, Minister of Railways and Canals, states that the government will probably offer the contractor of the Canadian Sault Canal $100,000 to induce him to complete the canal next year instead of in 1894 as the contract calls for. The payment of that sum for such a purpose would be illegal and unjustifiable. It would be illegal because the government has no authority to pay or even to promise such a sum without the consent of the House. Unfortunately, however, such consent does not count for much these days. The House of Commons is simply a registering body for the dictates of the cabinet, and it is not at all surprising that the cabinet should not think it necessary to wait for the decision of the House when they know that the majority of the members of the House have no will of their own, but will vote without question, just as the government instructs them to.

But even if legal, the vote would be unjustifiable. The government have publicly announced that the rebate would be abolished at the end of this season. The President of the United States has stated that as soon as the rebate has been abolished the toll just imposed at the Sault will be done away with. Consequently next year the American canal will be as free to Canadian vessels as it has heretofore been, so there is no need to squander $100,000 in hurrying on the completion of the Canadian Sault. The only possible reason for this hurry is that our government intends next year to repudiate the pledge they have now given—a feat that their past record proves them quite capable of performing. In that case it might be important to have the Canadian canal completed next year. But that would be making the country pay pretty dear for the perfidy of its rulers.

EDITORIAL NOTES.

The defeat of the Scott Act in Drummond reduces to 31 the number of counties in which the act is now in force. In all the Scott Act has been defeated 52 times and carried in 77 elections. Up to 1886 it had been carried 69 times and defeated but 18 times. Since then it has been defeated 36 times and carried but eight times.

President Van Horne, of the Canadian Pacific Railway, referring to the latest phase of the canal tolls retaliatory war, says:

"I have believed all along that as a matter of policy the canal rebate was a mistake, and that it would sooner or later result in trouble. I have no opinion to express as to Canada's legal rights under the treaty of Washington, but if a competing railway should do as Canada did in this matter, I should accuse it of cutting rates and act accordingly."

This seems to be about the short and the long of the whole matter.

"August Flower"

Perhaps you do not believe these statements concerning Green's August Flower. Well, we can't make you. We can't force conviction into your head or medicine into your throat. We don't want to. The money is yours, and the misery is yours; and until you are willing to believe, and spend the one for the relief of the other, they will stay so. John H. Foster, 1122 Brown Street, Philadelphia, says: "My wife is a little Scotch woman, thirty years of age and of a naturally delicate disposition. For five or six years past she has been suffering from Dyspepsia. She became so bad at last that she could not sit down to a meal but she had to vomit it as soon as she had eaten it. Two bottles of your August Flower have cured her, after many doctors failed. She can now eat anything, and enjoy it; and as for Dyspepsia, she does not know that she ever had it."

Advertising a patent medicine in the peculiar way in which the proprietor of Kemp's Balsam for cough and colds does it is indeed wonderful, He authorized all druggists to give all those who call for it a sample bottle free, that they may try it before purchasing. The large bottles are 50c and $1 We certainly would advise . It may save you from consumption.

A Pleasant Herb Drink

The best cure we know of for constipation and headache is the pleasant herb drink called Lane's Family Medicine. It is said to be Oregon grape root, combined with simple herbs, and is made ready for use by pouring boiling water onto the dried roots and herbs. It is remarkably efficacious in all blood disorders and now the sovereign remedy with ladies for clearing up the complexion. Druggists sell the packages at 50c and $1.

For all forms of female weakness Dr. Williams' Pink Pills are an unfailing specific. Mr. Thomas Strachan, Postmaster, Roballion write :- My daughter has been ill for the last four years with female weakness, and had been attended by four of the best doctors in our section. She began the use of Dr. Williams Pink Pills, and two boxes have done her vastly more good than all the medicines she took from those doctors.

What She Said

Mrs. R. Peck, 15th street, New York City, visited Canada last year, and had the good fortune to pick up something which not only suited her, but her neighbors also. Writing the manufacture of Nerviline she says:—"I bought three bottles of Nerviline while in Canada and treated my neighbors to some of it, and all think it the best medicine for internal or external pain they have ever used." Nerviline deserves such commendation, for it is a most powerful, penetrating, and certain remedy for pain of all kinds. Take no substitute.

PAR the power of acting specifically upon the diseased organs, stimulating to action the dormant energies of the system, thereby removing disease. In fact, great is the power of the medicine to cleanse and purify that diseases of almost every name and nature are driven from the body. Mr. D. Carswell, Carswell P. O., Ont. writes: "I have tried Parmelee's Pills and find them an excellent medicine, and one that will sell well.

A Cure For Constipation And Headache

Dr. Silas Lane while in the Rocky Mountains discovered a root that when combined with other herbs makes an easy and certain cure for constipation. It is in the form of dry roots and leaves, and is known as Lane's Family Medicine. THE FACTS OF THE CASE.

THE CORRESPONDENCE REGARDING TOLLS AT THE SOO.

Mr. Herbert, the British Charge at Washington, Defines Canada's Position, But Secretary Foster Discards Argument in the Insistence That Rebates Should Be Abolished.

WASHINGTON, Aug. 26.—Additional correspondence with reference to tolls on vessels passing through the St. Mary's Canal, between Secretary of State Foster and Mr. Herbert, in charge of the British legation, brings information from the latter that the Canadian Government desire to point out that the United States Government may be unaware that the tolls for the Welland and St. Lawrence canals are of a temporary nature and that it is not intended to re-establish them in their present form after the expiration of the season of 1892.

Mr. Herbert goes on to say: "The Canadian Government state that grave difficulties present themselves to an alteration of the tariff of tolls during the present season. Contracts and engagements have been entered into in various parts of this country and in Great Britain, based on the continuance of this tariff during the whole of the present season. The rights which have been established under these contracts and engagements cannot be interfered with without great confusion and detriment and apparent breach of faith. They believe, therefore, that the United States Government will recognize the importance of the difficulties which stand in the way of an immediate repeal of the present tariff, and that the assurance of its termination at the end of the present season will be regarded as satisfactory evidence of the desire of the Government of the Dominion to remove any ground which has a tendency to disturb the friendly interchange of trade between the two countries."

Secretary Foster's reply to Mr. Herbert contains the following statements:

"The information which you now convey to me is that 'the features of the present tariff, giving preferential treatment to certain routes and ports and providing for transhipment at Canadian ports only, will not be re-adopted after this season,' and you add, 'this undertaking, however, would not be binding on the Canadian Government if the President of the United States should, in the meanwhile, proclaim and enforce the imposition of tolls in the Sault Ste. Marie Canal as authorized by the recent act of Congress.

"I am at a loss to understand why the Canadian Government should attach such a condition to its proposition. All that is contemplated by the President's proclamation is to establish in the American canal named the same conditions as now exist and have existed on the Canadian canals for years past. Besides, I have already given you the assurance which I now repeat, that the President's proclamation will remain in force no longer than the discriminations complained of are maintained by the Canadian Government.

"Not until the discrimination against American ports and lines of transportation became so oppressive as to call forth earnest protests from the Carriers' Association and boards of trade of the cities of Milwaukee, Chicago, Detroit, Cleveland, Buffalo, Oswego, Ogdensburg and other lake ports did the Government of the United States take action.

"I lament that grave difficulties present themselves to an alteration of the tariff of tolls during the present season, but I beg to remind you that the Government of the United States is not responsible in any degree for these difficulties, and its citizens should not be required to suffer on that account. For several years past the attention of the Canadian Government has been called to its violation of Article 27 of the Treaty of 1871, and earnest remonstrances on the subject have been addressed to the British legation by my predecessors."

Secretary Foster expresses the hope that before the President's proclamation goes into effect the Canadian Government will take such action in the direction of treaty observance as will make the enforcement of that proclamation unnecessary.

TORONTO TOPICS.

TORONTO, Aug. 26.—A case recalling in almost every detail the Priestman mystery of five years ago occurred in this city last night. And what is more singular still last night's affair happened on the same day of the week and the same day of the month and within three blocks of the spot where Priestman's dead body was found in August, 1887. Like Priestman the victim of last night's affair is also a member of the Masonic Brotherhood. The only difference between the two affairs is that, while Priestman was dead when found, in the present case the victim is alive at this writing and able to give his version of the affair.

Charles McClelland, aged 42, a builder residing with his wife and several children at 159 Sorauren-avenue, arrived home last evening and reported that he had been shot by a highwayman. His wounds are very dangerous, and may result fatally. McClelland told the following story as to how he received his injuries:

About 7.30 o'clock he was crossing the common between the Mercer Reformatory and Dufferin-street, being on his way home, when he was accosted by two young men, who demanded his money. He told them he had no money, but they grappled with him and attempted to go through his pockets. He resisted their efforts, when one of them produced a revolver, and placing it against Mr. McClelland's left breast fired. The shot took effect just below the heart. The injured man says he does not remember distinctly what occurred immediately after the shot was fired, but he walked towards his home. He was in great pain and was compelled to sit down twice on the way.

Arriving at his home about 8 o'clock he sent for Dr. Ferguson, 2 Macdonnell-avenue, who, when he arrived, had the wound dressed. The doctor found that the bullet had passed almost through the body, as it could be felt in the back, opposite the wound.

When a policeman arrived the wounded man described his assailants as being short and stout, with clean-shaven and sunburnt faces and wearing dark clothes. One wore a soft felt hat, the other a stiff hat, the former being the man who fired the shot. He thought the men would be about 20 and 23 years of age, and describes them as being very slouchy in appearance.

The chapel of Loretto Abbey was thronged yesterday morning when the ceremony of the reception of the religious habit by six young ladies was conducted by Rev. Father Rooney, V.G., assisted by Rev. Father Gilroy of Stratford. Mass was celebrated by Rev. Father Campbell, and among those in the chancel were Fathers Cassidy, Walsh and Coyne of Toronto and O'Sullivan of Montpelier, Vermont. Rev. Father Ryan preached an eloquent and touching sermon. The young ladies were Miss Annie McDermott of Orillia, in religion Sister Mary Thecla; Miss Agnes Mitchell of Toronto, Sister Mary Xatorio; Miss Kate Donnelly of Orillia, Sister Mary Bernard; Miss Mamie McKenna of New York, Sister Mary Ethelrida; Miss Teresa O'Gorman of Eganville, Sister Mary Radagona, and Miss Ellen Connolly of Hamilton, Sister Mary Delecta.

THE CHOLERA.

Prof. Koch Pronounces It the Most Virulent Kind.

HAMBURG, Aug. 26.—Considerable excitement has been caused among the military authorities by the appearance of cholera among the troops. Three cases of the disease and one death have occurred in a regiment that was temporarily quartered here. To prevent, if possible, the spread of the disease among the soldiers the regiment has been ordered to leave Hamburg immediately. They will proceed to some point in the interior, where a close watch for the appearance of the disease will be kept on them. The weather continues intensely hot, and the sun unfortunately is favorable to the growth of the cholera germs. So many warnings have been given of the danger lurking in water that thousands of people have abandoned its use as a beverage, quenching their thirst with beer and light wines. Lime juice and lemons are also in demand. Yesterday there were 82 new cases of the disease reported and the deaths amounted to 31. The steamship service between Hamburg and the Island of Heligoland has been suspended in consequence of the cholera here.

HAMBURG, Aug. 26.—The newspapers here attack the authorities for persistently denying the presence in Hamburg of Asiatic cholera until the violence of the outbreak made concealment no longer possible. They claim if the authorities had admitted at the start that the disease was true cholera sanitary measures might have been enforced that would have prevented the spread of the disease.

The Plague at Antwerp.

ANTWERP, Aug. 26.—There is no appreciable change in the cholera situation here. It is generally believed the disease reached here from some vessel from an infected port. The first persons to fall victims to the disease were dock laborers. They were taken to the hospitals. The doctors stated that it was common cholera and that nothing was to be feared from it. Other patients were soon taken to the hospitals suffering with the same disease, and the number of cases has constantly increased since. The first victims died almost instantly on entering the hospitals. It is thought the hospital physicians were fully aware of the presence of the scourge, but that they were compelled by the authorities to deny it. One-fourth of all the patients removed to the hospitals have died. The quarantine regulations are now being enforced with great severity. This course is held to be useless, as the danger now lies in the spread of the contagion from sources inside the city.

Berlin Trying to Keep the Plague Out.

BERLIN, Aug. 26.—In consequence of the facilities offered for the transmission of cholera by means of sleeping cars that service between Hamburg and Berlin has been suspended. It is feared that notwithstanding all the precautions that have been taken to prevent the introduction of the disease here it has managed to get into the city. A passenger who arrived here today from Hamburg showed symptoms of the disease. He was at once removed to an hospital, where he was isolated. The physicians are carefully watching the case. The wife of a merchant of this city died last night and it is believed her death was due to Asiatic cholera.

Ships Avoid Hamburg.

NEW YORK, Aug. 26.—The American Packet Company has decided to discontinue the service of the ships and cabin passengers to Hamburg until the cholera has disappeared.

The steamships Fuerst Bismarck, Normannia and Augusta Victoria will ply only to Southampton until further orders, and will carry no immigrants whatever. All immigrant passengers will be brought by separate ships from Hamburg, and no cabin passengers will be taken on these ships.

Prof. Koch's Opinion.

BERLIN, Aug. 26.—Prof. Koch is reported to have said that the number of cases of cholera in Hamburg is not great in proportion to the population, but that the virulent character of the disease gives ground for the greatest possible anxiety.

BIRDIE RAN AWAY.

And Her Lover Is in the Lock-Up Charged With Abduction.

HAMILTON, Aug. 26.—Thomas Agnew, a moulder who works in Moore's foundry, was arrested Wednesday on a charge of abducting Birdie Trudgeon, daughter of Mrs. Trudgeon, who keeps a boarding-house at 51 Catharine-street north. Agnew has been boarding at the Trudgeon house, and became enamored of Birdie, who is described as a bouncing damsel of 14 years of age, but looks more mature. On Monday Agnew and Miss Trudgeon went off to Toronto and did not return that night. The mother of the girl became very much alarmed. Chief McKinnon had messages sent out in all directions describing the pair and requesting that they be detained. When Tuesday and Wednesday passed without the girl returning Mrs. Trudgeon was quite prostrated with grief and anxiety. Mrs. Nellie Stigletz of Cleveland, an aunt of the missing girl, swore out a warrant charging Agnew with abduction, the issue of the warrant being based on the statement that she was under 16. Though the pair had been staying at a hotel in Toronto, the police there failed to get them, but that evening Constable Bleakley arrested Agnew as the pair got off the Toronto train at 8.15.

The prisoner occupied the dock at the police court yesterday, and as neither the prosecution nor defence was ready the case was adjourned. After the prisoner had been taken to the cells H. Carscallen, Q.C., appeared on Agnew's behalf to ask for bail. The counsel stated that the circumstances of the case were not of a serious nature, and hinted that Birdie had abducted the prisoner.

Sergt.-Major Smith informed the magistrate that since the warrant had been sworn out by the girl's aunt it had been found that Miss Trudgeon is under 14 years of age, and if that was the case the offence would be much more serious and the charge might be changed to seduction.

The magistrate refused to grant bail.

The Late Mr. T. H. Stinson's Will.

HAMILTON, Aug. 26.—The will of the late T.H. Stinson was filed yesterday at the Surrogate Court office for probate by Mrs. Agnes Hope Stinson, widow of the deceased. The will is dated January 29, 1890, and leaves everything to Mrs. Stinson and appoints her sole executrix. It is a brief document, not occupying half a foolscap page, but devises property valued at nearly $60,000.

The estate is valued at $59,924, made up of $24,424.59 personalty and $35,500 realty. It includes $10,783 life insurance, $11,140.93 set down as "present value of half interest in remainder after life estate in mortgages and securities amounting to $60,000, valuation based on Carlisle tables." Of the real estate $5500 was owned by the deceased and $30,000 is the stipulated present value of the half interest in remainder after life estate of lands in Ontario and the United States.

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

All through the Provinces the rapid increase of La Grippe, is causing great alarm. A report was received here to-day, of a new development o the disease, which is worse, perhaps than any other. Wm. Hanley of N. Y. City, died in terrible agony after sickness of only four days. His tongue swelled to such an extent as to make it impossible for him to close his jaws or swallow any food. The report is causing the people in this district to resort into the noted Grip-cure, recently referred to in so many papers. In Cape Breton the disease has spread very rapidly and with fatal results, D. J. McKillop of L'Archeveque writes Feb. 11th that this cure has been tried in his neighborhood and with such success that all those residing there are obtaining a supply believing it to be the only remedy affording relief and effecting a certain cure. He finished his letter by asking for a large quantity of the Medicine (Dr. Morse's Indian Root Pills) to supply the demands of the community for the relief of LaGrippe.

For You r O

GENTLEMAN One of my little girls aged 4 years) had been troubled with costiveness in its worst form since infancy. We tried different remedies which gave relief while using, but as soon as discontinued she would be worse than before using. She lost her appetite and was growing weak and delicate. A friend of mine who had used B B B with grand results for the same disease advised me to try it, and also the Burdock Pills, which we did. She did not take the contents of one bottle before it relieved her, and not only relieved her but permanently cured her, for she has not been troubled once since, and she is now eight years old

Diseases of The Liver

Parmelee's Pills possess the power of acting specifically upon the deceased organs, stimulating to action the dormant energies of the system, thereby removing disease. In fact, so great is the power of this medicine to cleanse and purify that disease of almost every name and nature are driven from the body. Mr. D. Carswell, Carswell, P. O., writes I have tried Parmelee's Pills and find them an excellent medicine,

The "Myrtle Navy" brand of smoking tobacco has stood the test for over twenty years, and during that time it has lost no friends and gained scores of thousands This lengthened experience shows that is no mere passing fashion which has gained it the approval of the public, but its superocity in the essential qualities which make a first-class tobacco.

Advice to Mothers

Mrs. Winslow's Soothing Syrup has been used by millions of mothers for children teething for over fifty years, with perfect success. It relieves the little sufferer at once, produces natural quiet sleep, and freeing the child from pain, and the young cherub wakes as bright as a button.' is pleasant to taste, sooths the child softens the gums, allays pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhoea, whether arising from teething or other causes 25 cts bottle.

A Question

How can we raise more corn to the acher ? Why, of course by using Putman's Corn Extractor. Putnam's Painless Corn Extractor has given universal satisfaction, for it is safe, sure and painless. Like every article of real merit it has a host of imitators, and we would specially warn the public to guard against these dangerous substitutes offered for the genuine, Putman's Extractor. N. C. THE DAILY ONTARIO

BELLEVILLE, FRIDAY, AUG. 26

TOLD IN A LINE OR TWO

Bridge street church is having a water motor put in to run the organ.

Notice was to-day received by the local coal dealers that on Sept. 1st the price of coal would be raised 30 cents.

Children starting to school Monday morning will please read over notice headed School opening.

The county Model School staff at Madoc will have two new assistants, Miss Campbell of Paris, and Miss Wilson, of Woodstock.

George H. Newton who recently launched the Campbellford Press on the troubled sea of journalism has sold the business to B. R Dryden. The paper will suspend publication for some time, but the job printing business will be continued.

Mrs. Elizabeth Sharkey Morris of Seaforth was married to M. Morris last May but left him at the end of three months, their wedded life not having been very happy. She is now living at Toronto, and has begun suit for alimony against husband. In her affidavit the wife alleges that he was at times harsh and violent, and refused her money to buy necessary wearing apparel. She is 29, while he is slightly past middle age.

If Robt. McCoy gets paid for lighting the coal oil lamp on the corner of Catherine and Yeomans street he gets it dishonestly. Although the ONTARIO has frequently called attention to the unsatisfactory lighting of the coal oil lamps in west Belleville and especially on Yeomans street the service does not seem to improve. When the next pay day arrives a protest will be put in against payment for lights which have never been known to come out of an opaque darkness. The residents living in the neighborhood might as well dwell in an unexplored cave as in some sections in west Belleville where a coal oil lamp graces the corner.

PERSONAL PARAGRAPHS.

Judge Fralick is spending a few days in the city.

The Newburg base ball club are at the Buffman House.

L. W. Burke, inspector of the Standard Life insurance company of London, Ont., was in the city yesterday.

Charles Craig, student in the law office of Clute & Williams, leaves for Toronto next week to attend lectures in Osgoode Hall.

C. W. Young, proprietor of the Cornwell Freeholder, favored the ONTARIO with a call to-day. He is the guest of A. Matheson, Bursar of the D. & D. Institute.

The rapidity of travel in this day is exemplified in the return home yesterday noon of Rev. G. J. Dingman, who has been visiting in Denver Colorado, which place he left Monday evening.

Rev. Mr. Baker returned from Grimsby Park yesterday where he spent a pleasant time. The only unpleasant part of the trip that was not to the rev. gentleman's liking, was the return to the Queen city on the unsteady deck of one of Toronto's palatial steamers.

Mr and Mrs Ramson entertained at the Huffman House for dinner the following guests: Chas S Young and wife, Bangor, Man; Geo. S Young and wife, Brockville; S S Young and wife, Trenton; Mrs E Robin, Mr Ernie Robin, Picton; Mrs Demerest, Foxboro.

SPORTING WORLD.

Newburg and Belleville played baseball on the exhibition Park this afternoon.

The Madoc lacrosse club will play in Belleville in the course of a few weeks.

The Kingston lacrosse club meets the Peterboro club at Belleville on Wednesday.

It has finally been decided by the Kingston lacrosse club to play Peterboro' at Belleville on Wednesday next. The club will take advantage of the Hero's excursion, and the members will be given a free passage. The contesting teams share the gate receipts.—Whig.

Minnie is entered in the free-for-all trot at Belleville next week. F. Folger's Fawn will figure in the three minute class, and has Dr. Carver in the 3:40 class. P. McLaughlin has still Warlock to enter in the running races and he stands a good change o winning.—Whig.

Have you Thought of it

For four thousand years or more the world groaned, suffered and fumed about its corns, for their was no positive relief—no certain and painless cure until Dr. Scott Putman gave to the world his great Corn Extractor. If there is suffering now it is a result of carelessness, for the remedy is at hand. Try Putman's Corn Extractor. It is sure painless, and prompt. Beware of substitutes. N. C. THE CROPS IN ONTARIO

They are not as Favorable as had Been Anticipate

The Globe thus comprehensively sums up the condition of the various crops in Ontario:—The general condition of crops in Ontario, according to the bulletin of Bureau of Industries, dated August, 6th, is less favorable than was expected. In all cereals, except oats, the yield will be slightly under the average, and in the majority of cases the quality will not be up to the standard. Fall wheat will not turn out as well as last year owing largely to the heavy rains of June which encouraged rust, and to the very hot weather of July, which ripened the grain too rapidly Spring wheat, again, is reported not as good as fall wheat. Rust has attacked it in nearly every county, and in some sections the midge made its appearance. The damage, however, is by no means so extensive that the crops can be termed a failure. Barley is not a good crop. The grain, owing to the heavy rain of June and the rank growth of straw, lodged and is discolored- The excessive heat of July too, ripened it to quickly to allow it to fill perfectly. The oat crop will be an excellent one both in quantity and quality. Favorably reports have been received of the rye crop, but the pea yield is variable. In the western counties this crop may be termed a failure, but the condition improves to the north and east. The crop, on the whole is under the average. The corn crop is fair, and will improve if the warm weather continues; the quantity however, will not be large. The yield in hay is large, and the quality both of timothy and clover is excellent. The crop in fact has been extraordinarily good. The potato crop is uneven; in some sections very good, in others extremely bad. The general prospect for roots is excellent, but the crop is a late one. According to reports received, only an average crop of flax will be reaped. This is owing to the cold and wet weather of spring. The fruit yield on the whole is poor. The larger fruits except pears, are inferior in quality and limited in quantity. Pears are abundant throughout the Province, and are of excellent quality.

A ROMANTIC STORY

Of a Picton Soldier in the American War

A good many years ago says the Times Mr. Charles Wood Gilbert of Picton brought up and cared for a boy named James Foster, a brother of Mr. Gilbert's wife, and learned him a trade. About the opening of the American war the young man enlisted in the Northern army. Among his first experiences was the theft of his bounty money. He stuck to the army until the end of the war. His last letter home was written while lying on picket duty and he wrote that a great battle was soon expected. It was supposed he was killed in battle as no further intelligence was received from him until a few weeks ago a young man appeared in Picton and made inquiries which resulted in finding Mr. Gilbert. It appears that the soldier had survived the war and that his communications homeward had miscarried in the unsettled state of affairs at that time in the part of the country where he had located. He married and had a son, Harry Foster, now about 24 years of age. The senior Foster died while the son was very young and the child was adopted by a retired army officer of the same name in Tennessee. This gentleman was a bachelor and had no relatives, but he claimed to have discovered a relationship between himself and Harry's father. The boy was brought up in ignorance of the fact that he was not the real son of the gentleman he was living with. About the time of the death of the latter, however, the facts were revealed, and a ranch of 1500 acres and other valuable property were willed to the young man. Some information was also given him as to his father's birth place and relatives. Being in ill health and having no relatives in Tennessee, the young man lately set out on a search of his family and came to Picton, It was a great surprise to Mr. Gilbert to see the young man. Mr. Foster has been spending some weeks at St. Leon springs and finds himself much improved in health. When he returns to Picton in a few weeks Mr. Gilbert will go with him to Tennessee for a visit.

The Glenora Summer Hotel

It is J. C. Wilson, who runs a large grist mill at Glenora, who intends building a summer Hotel there and not Mr. Wilson, hotel-keeper at Picton. Mr. Newlands architect, says the projected building would cost at least $10,000 and will be lighted by electricity. Mr. Wilson also intends building a cable railway at the mountain and will do this even if the hotel is not erected this fall. Mr. Wilson owns the whole side of the mountain.

Rochester Excursion

Rev. D.O. Crossley has arranged to take an excursion to Charlotte, port of Rochester on Monday Sept. 5th, on the splendid steamer North King. Boat leaves Belleville at 12.30 a. m. Monday morning reaching Charlotte at 7.30 a. m. Tickets $2.00, good to return the same day or on the following Saturday.

As there is always room for improvement, we ask you to try our OLD CHUM PLUG, or CUT smoking tobacco; we believe you will be better satisfied. In any case, a trial won't hurt you. Don't delay upon the order [illegible]

We do not know of any preparation that has caught the public favor in so short a time as Dodd's Kidney Pills, but when we consider that three-fourths of the Canadian people are afflicted with kidney troubles in some form or other, and that Dodd's Pills are a quick and permanent cure for all these troubles, the large and increasing demand can scarcely be wondered at. Sold by all dealers or by mail on receipt of price, 50 cents per box, Dr. A. L. Smith & Co. Toronto.

Though the soil of Virginia grows the best tobacco leaf in the world, it does not all grow equal qualities. The production even of adjoining counties is often quite different, the one producing leaf which at once deteriorates if grown in the other The leaf of the "Myrtle Navy" is the product of the choice sections of the State, which, through some combination of local influences, produce a better quality than any others. This is shown by its always commanding a higher price than any other smoking leaf.

Those who are in the habit of taking an appetizer before meals could not do better as well for the effect as for economy's sake, than make use of "Indigenous Bitters." As Indigenous Bitters are slightly laxative, those who suffer from habitual constipation, will derive great benefit, by regularly taking them, as they keep the bowels in good order and in that way aid digestion

THE DEATH ROLL

NAMES OF THOSE WHOSE GRAVES WILL BE DECORATED

Slowly but Surely the List is Increasing The day Being Generally Observed by the Citizens

This afternoon the various secret societies of Belleville will decorate the graves of their deceased brethren, and the opportunity will also be utilized by the citizens generally to show a tribute of respect and of loving memory to their friends who have gone before. Mayor Bogart has proclaimed the afternoon a half holiday so that business generally has been suspended and a brief pause made in the rush and hurry of business to think of those who have gone before. The Hero has been chartered for the day and the early trips made by the boat have been well patronized. At one o'clock the societies formed on the market square and headed by the I. O. O. F. Band paraded the principal streets and then proceeded to the wharf and took the boat for the cemetery, where Rev. M. W. McLean will deliver the memorial address.

The list of deceased society members, whose graves will be decorated, is as follows:—

A O U W Belleville Lodge No 251

H E Filliter, died August 28th 1890
W W J Watson, died Sept. 17th, 1891.
Mathew J Kennedy, died Sept, 22nd 1891.

True Blues Derry Lodge No 30

Chas Quincey, died August 20th, 1888.
Thos Diamond, died April 27th, 1891.

The ranks of the Sons of Scotland, Juvenile Sons of England and Enniskillen lodge True Blues have not been visited by the hand of death, and consequently there will be no graves for them to decorate.

TOWN TALK

Deacon & Doyle keeps a full line of tinware.

F. Abraham issues of marriage license at the ONTARIO office. Application strictly confidential.

A fresh supply of that refreshing temperance drink Hires Improved Root Beer just received at Geens Drug Store. Try a bottle. One 25c bottle makes 10 galls.

When you want your hot air furnace cleaned or repaired Deacon & Doyle will do it on the shortest notice.

TRAVELLING.—A prudent person leaving on a voyage never fails to put into her trunk a bottle of Persian Lotion, the most agreeable and reliable article for the toilet that druggists sell under the name of Persian Lotion.

"Oh, if I had only taken this medicine earlier in my life, what years of sufferin t would have saved me!" was the exclamation of one who had been cured of rheumatism by the use of Ayers Sarsaparilla. Scores of such cases are on record.

As a tonic, the Father Mathew Remedy restores to a healthy condition the stomach and liver of the intemperate, which are always out of order, and builds up his nervous system; as an alterative, it makes a new man of him.

Mr. G. Redick writes Mr. Louttit as follows; I feel it my duty both to you and the public that after ten years affliction with that loathsome disease, catarrh, I have found apparently a lasting benefit (Louttit's Catarrh Cure) and to vouch for the same and am willing and desirous o make affidavit. Louttit's Catarrh Cure is for sale wholesale and retail at Geen's Drug Store.

When you want your cistern pumps and waterpipes repaired send to Deacon and Doyle.

CHILDHOOD MEMORIES

(Toronto Saturday Night.)

The following poem, published in 1861 by Miss Lina Warren of Belleville, Ont., in the Republican and Democrat, an American journal, will recall to some readers of Saturday Night the memory of a life of promise cut short in its first blush of fame. Miss Warren was the daughter of the well known manufacturer of that name, of Belleville and Bridgewater, and late of Montreal. At the age of sixteen she had written extensively, both poems and prose, and had published stories and sketches in the Waverley Magazine, the Republican and Democrat and other American papers. Her writings showed genius of a high order, even at that early age, but her marriage to Capt. T. A. Howard rendered it necessary for her to abandon her literary pursuits and devote herself wholly to domestic affairs. She died at the age of twenty eight, and with her decease sank into oblivion that poetic genius which, like a brilliant meteor, shone all the brighter for its short-lived flight. Her two sisters live in this city.

The thoughts of other days come o'er my spirit
Like a dream, to chase away its gloomy sadness!
Years have passed since last I gazed
Upon those hills and waters; and
As memory's chain is around me,
Life's early joys steal, in all their freshness,
O'er my heart.
Once more I gaze
Upon my own proud hills! Each bud
And flower seems blooming as in days
Of old, where free and happy as
The birds that sing above my head,
I lived in joyous ecstacy I seem
To see the scenes once blended with the
Happy hours of youth and gladness,
And feel that life—though sometimes
Shadowed by the sombre wings of care—is not
Quite all sadness. Methinks again
I roam beside the winding stream
That gushes on through verdant meadows
And grassy hillocks; gleefully it seems
To dance along and then lose itself
Amid the waters of the ocean.
No! its bright waters have not ceased
To play—the bright wave still flashes on
In gladness to the sunlight And by
Its sunny margin the wild flowers
Ope their tiny petals to the sun.
Still memory leads me on,
And I behold the grand old forest;
The summits of its stately pines seem to
Pierce the heaven's blue dome. And feathered
Songsters with sweetest strains send
Melodious melody from every tree;
They know no care; God has made them
The free possessors of unbounded happiness;
Their homes are among the green, leafy bowers,
They sweep along the sunbeam's track

Oh early joys! How sweet, how beautiful
They are! So bright that they seem but
The creation of a fairy's dream. With livid glow
They light up the sorrows of after life;
And oh, what joyous felicity,
Innocent childhood hours!
No shadow of a care comes to banish happiness;
Ah, never will I forget thee, bright,
Happy childhood. And love for thy memory
Will flow on, in unfading brightness,
Deep in the buried channels of the heart.

Labor vs Capital.

SIR—For the good it may possibly do, I would ask prominence in your columns for the following, with the further request that contemporaries will reprint the matter.

It has been stated by the press that L. J. Seargeant, general manager of the Grand Trunk Railway, speaking on the switchman's strike at Buffalo, said: "Looking into the future relations between capital and labor, that some means would have to be adopted for the speedy and satisfactory settlement of all troubles which may arise. * * * * There should be a tribunal of capable and honest men, who would act fairly and impartially on the cases presented for their adjudication." The writer, some seven years ago, took the same ground, and in a pamphlet on the subject of laber and capital, discussed the question in many of its forms, finally laying down a method for formation of such a legislative body, and code for regulation of the proceedings thereof. L. V. Powderly, head of the Knights of Labor organization, held that the principle was excellent, but too far in advance for adoption at that time. So also held—McGuin, the heak of the Amalgamated Association of carpenters and joiners. Perhaps the present is an opportune time for its adoption A paper condensed from the pamphlet, read at a meeting in Toronto, was considered of such value, that a resolution was carried to have it printed and circuiated, but the writer believing that the future would present a more fitting opportunity for publication with effect, stood in the way thereof.

A copy of the pamphlet may not be in existence—the read paper is. It would not be a difficult task for the writer to reframe the code, a something he would willingly undertake (upon sufficient request) believing that on such formation lines, lies the solution of all questions affecting capital and its co-worker labor.

If not, why not.

If you do not buy your clothing at the Oak Hall, why not? We are all anxious to save money and there is certainly no easier way of saving a few dollars than by buying your clothing where you can buy it the cheapest. We invite buyers to call into all the stores in Belleville that sell clothing then come to the Oak Hall and you will soon be satisfied not only that we sell you cheap, but we sell you a superior class of goods. We are receiving new fall goods now and customers can have an early choice of the very newest patterns.

A neglected cough brings on consumption—the most fatal and prevalent of al physical ills that flesh is heir to. To check the malady in its early stage, before the deadly turbercles develop themselves in the lungs use Dr. Thomas' Eclectric Oil which also annihilates bronchitis, asthma, catarrh, piles, kidney troubles, and soreness of the muscles and joints.

There are more cases of sickness and death from diseased kidneys than from all other diseases combined. It is your own fault if you allow your kidneys to remain in an unhealthy condition when the cure is at hand. Dood's kidney Pills are guaranteed to cure the worst cases. It costs but little to give them a trial. They are for sale by all druggists at l dealers or by mail on receipt of 50 cts., 6 boxes for $2.50. Write for book called Kidney Talk.

DANDRUFF.—If you wish a preparation upon which you can rely for the complete destruction of Dandruff, use Capilline and ou will be satisfied.

UP GOES COAL.

At Least the Price Goes up—Another 30 Cents,

Capt. Eccles, the well-known local coal dealer, has received this despatch: "The price of coal increased thirty cents from the 1st of September." This makes a total increase of one dollar and thirty cents since the Reading deal. At present President McLeod, of the Reading railroad holds the key to the situation. The Reading interest has quietly secured a controlling power in all coal roads and at present this road controls about seventy-five per cent of the traffic leading to the coal region and can fix the price of coal to suit it itself. The agents for coal all over the country meet in New York and they report as to the state of the market. When they report President McLeod ponders over the situation and then fixes the price. Although coal has gone up a dollar since spring on the other side the coal dealers in this city have advanced it only fifty cents. With this additional rise of thirty cents on the other side it is altogether likely that it will have to advance fifty cents about the first of September. Coal in stock at present can be sold at the old figure, but after the first of September it can not be done. Six dollars and half will then be the price.

ITCHING AND BURNING

Sores All Over Her Body. Suffering Endless. Doctor Useless. Cured in 4 Weeks by Cuticura.

Your most valuable CUTICURA REMEDIES have done my little girl so much good that I feel like saying this for the benefit of those who are troubled with skin diseases. She was troubled with itching, burning sores. When I took her to the doctor the first time, he called it the Italian itch, and said he would cure her in two weeks. When the two weeks were up, he called it eczema, and in that time she was worse than before. He doctored her for three months, and she was so bad that we did not know what to do. He did not do her any good. I saw the advertisement of CUTICURA REMEDIES in the paper, and I said to my wife, "I am going to try them." Mind what I say, she was so thick with sores that we had to soak her clothes to take them off. Itch! there was no end to it. She had it all over her body, back, legs, arms, in between her fingers. She did not have it on her head. But after taking your CUTICURA REMEDIES for two weeks the itch stopped, and in four weeks the sores were all gone. I enclose her portrait. I am more than pleased with your CUTICURA REMEDIES, as they speedily cured my daughter, and if anybody asks me about your remedies, I will uphold them wherever I go. CHARLES M. GRONEL, Conshohocken, Montgomery County, Pa.

Mrs Annie W. Jordan

Of 165 Tremont St., Boston, was in very poor health, from bad circulation of the blood, having rush of blood to the head, numb spells, and chills, and the physician said the veins were almost bursting all over her body. A collision with a double runner brought on neuralgia of the liver, causing great suffering. She could not take the doctor's medicine, so took

Hood's Sarsaparilla

and soon fully recovered, and now enjoys perfect health. She says she could praise Hood's Sarsaparilla all day and then not say enough.

HOOD'S PILLS are hand made, and are perfect in composition, proportion and appearance.

A PROLIFIC SOURCE OF DISEASE.—A trifling indiscretion in diet may lay the foundation of confirmed dyspepsia, and there is no fact in medical science more positively ascertained or more authoritatively asserted than that dyspepsia is the parent of a host of bodily ills, not the least of which is contamination of the blood and the maladies of which that is the direct consequence. The original cause is however thoroughly eradicated from the system by [illegible] Lyman's Vegetable Discovery and Dyspeptic Cure, a medicine which only requires regularity and persistence in it use to cure dyspepsia and many other ills that arise from it. No deleterious mineral ingredient is contained in it, and though its action is thorough in cases of costiveness it never produces griping pains in the abdominal region, or weakens the bowels like a violent purgative. It invigorates the system through the medium of the increased digestive and assimilative activity which it promotes and is also a most efficient remedy for kidney disease scrofulous and all diseases of the blood female weakness, &c., &c Price $1.00 Sample bottle 10 cents. Ask for Northrup & Lyman's Vegetable Discovery and Dyspeptic Cure. The wrapper bears a fac-smile of their signature. Sold by all medicine dealers.

If you have a cough or cold do not neglect it; many without a trace of that hereditary disease have drifted into a consumptive grave by neglecting what was only a slight cold. Had the used Bickle's Anti-Consumptive Syrup before it was too late their lives would have been spared. Mr. A. W. Levy Mitchell, writes. "I think Bickel's Anti-Consumptive Syrup the best preparation on the market for coughs and severe colds. About six years ago I caught a severe cold which settled on my lungs, and for three months I had a cought. I had a physician attending me, but gradually grew worse until I was on the verge of Consumption, and had given up hopes of being cured, when I was induced to try Bickel's Syrup. Before I had taken one bottle I found myself greatly relieved, and by the time I had finished the second bottle I was completely cured. I always recommend it for severe colds and consumption."

ITCHING AND BURNING

Sores All Over Her Body. Suffering Endless. Doctor Useless. Cured in 4 Weeks by Cuticura.

Your most valuable CUTICURA REMEDIES have done my little girl so much good that I feel like saying this for the benefit of those who are troubled with skin diseases. She was troubled with itching, burning sores. When I took her to the doctor the first time, he called it the Italian itch, and said he would cure her in two weeks. When the two weeks were up, he called it eczema, and in that time she was worse than before. He doctored her for three months, and she was so bad that we did not know what to do. He did not do her any good. I saw the advertisement of CUTICURA REMEDIES in the paper, and I said to my wife, "I am going to try them." Mind what I say, she was so thick with sores that we had to soak her clothes to take them off. Itch! there was no end to it. She had it all over her body, back, legs, arms, in between her fingers. She did not have it on her head. But after taking your CUTICURA REMEDIES for two weeks the itch stopped, and in four weeks the sores were all gone. I enclose her portrait. I am more than pleased with your CUTICURA REMEDIES, as they speedily cured my daughter, and if anybody asks me about your remedies, I will uphold them wherever I go.

TRIAL OF LIZZIE BORDEN

ENQUIRY INTO THE FALL RIVER MURDERS BEGUN.

The Medical Examiner Tells of the Bloody Scene in the Borden Homestead and of the Stains Which He Found on the Prisoner's Garments and on a Hatchet.

FALL RIVER, Mass, Aug. 27.—The preliminary trial of Lizzie Borden for the murder of her parents began yesterday. A conjunction of circumstances brought about the opening on Thursday. Thursday has been the most fateful in this mysterious crime. Andrew J. Borden and his wife were murdered in their home Thursday, Aug. 4. The following Thursday the bodies were removed from their vault and the first real autopsy made. It was then that the gash in Mrs. Borden's back between the shoulder blades was discovered. On that Thursday, too, Lizzie Borden was arrested, and now her trial begins Thursday.

The proceedings began at about the same moment, it is calculated, that Mrs. Borden was chopped to death in her bedroom three weeks ago. As on Monday when the case was postponed the court house was packed and over half of the spectators were women, only a few of whom appeared to be young and unmarried.

It was 10.25 o'clock when the trial began, by District-Attorney Knowlton calling Medical Examiner Dr. William A. Dolan to the stand. Five minutes before that time the accused woman entered the room. She was preceded by her sister, Emma, leaning on the arm of Charles J. Holmes, the cashier of the bank of which Andrew Borden was President, and who looks like A. M. Palmer. Mrs. Holmes and Mrs. George Brigham, who attended Lizzie while she was being guarded in the Borden house previous to arrest, followed, and then Lizzie came in on the arm of Rev. E. A. Buck.

Her face was no longer pallid. It was suffused with the blood which mounts to the cheeks during excitement or mental tension. Even her ears were red with the feverish flush. That was all there was to show that the prisoner felt her position.

She was dressed in a blue serge dress, with a black bonnet, black clothes and carried a palm-leaf fan. Now and then she shielded her face with the fan, bowing her head and closing her eyes. Those fits of abstraction were brief, though, and throughout she held her head up and looked at the witnesses and lawyers. Once late in the afternoon, at 5 o'clock, when there was a little badinage between Lawyer Adams and Dr. Dolan, Sister Emma leaned over and with a smile whispered something in Lizzie's ear. Lizzie responded with a smile so broad that it was what might be called a noiseless laugh.

By the time Dr. Dolan took the stand the court room was jammed to the doors, and some of the free citizens of the burgh were hanging on to the judge's bench and helping themselves to his ice-water. Judge Blaisdell is a benevolent old gentleman with a perpetual smile on his face and he did not care.

Dr. Dolan, in answer to questions from District Attorney Knowlton, said he saw the dead bodies of Andrew and Abby Borden at the house No. 62 Second-street on the forenoon of Aug. 4. He was driving by and was attracted by the crowd.

He first saw the body of Mr. Borden about 11.45 o'clock. It was lying on an old-fashioned sofa in the sitting-room, covered with a sheet. After he had been in the house three or four minutes he was told that Mrs. Borden was also murdered and was lying upstairs. He went up and viewed the body, placing his hands in the wounds upon her head.

The body of Mrs. Borden the witness described as lying on the right side. The head rested on a Prince Albert coat that had been folded under a small pillow. Both were soaked with blood that had also penetrated through the sofa and saturated the carpet. The man's feet were on the floor.

There were 11 incisive wounds on the left side of the head and face, one of which cut through the eyeball. The wounds were made by some sharp instrument, probably a hatchet. One wound back of the left ear had crushed in the skull. This was done by the blunt end of the weapon.

The body of Mrs. Borden was lying face down, with the arm twined around her head as if to protect it. An old handkerchief that looked as if she might have worn it around her head while she was dusting lay near her. It was badly torn and was covered with blood, which formed a pool about the head.

Mr. Jennings, for the defence, asked the witness if a man could not easily have climbed upon the pile of boards against the back fence and jumped over. Mr. Kiernan said he did not know. A spot thought to be blood was found on the architrave of the door leading from the sitting-room to the dining-room, but it was so small Dr. Dolan and those with him lost it and it was some time before they could locate it again. Dr. Dolan, on resuming the stand, said that later in the day he removed the stomachs of the murdered people, and took for analysis samples of the milk furnished the family that morning. He described the horrible wounds on Mr. Borden's head. There were 10 on one side of the face and head, varying from an inch and a half to four and a half inches in length.

"Now, doctor," asked the District-Attorney, "what did you decide upon as the cause of death?"

"Death was due to shock and the wounds."

"What was the condition of Mr. Borden's body and face as to blood?"

"It was covered with blood."

"Were there no wounds on the right side of the face?"

"No, none."

"Was the blood clotted?"

"No."

"Was the body cold?"

"It was not."

"What time was that?"

"I got there about a quarter to twelve. The blood was still oozing from Mr. Borden's wounds."

"Was there much blood on his clothing?"

"Very little, except on the bosom of the shirt and around the neck and shoulders."

"What is your opinion as to the length of time that the man was dead?"

"I should think not over a half hour."

Dr. Dolan then said that he had counted 86 distinct blood spots on the wall, a little above the sofa, within three or four inches of the man's head. The highest blood spot on the wall was 6 feet 1½ inches from the floor. There were 47 on a picture hanging above the body, 58 inches from the floor. Five feet away on the parlor door there were two spots and on the jamb of the door leading to the dining-room there was a splatter that looked as if made by blood flying from the weapon as it was being swung in the air.

"What weapon was used, doctor."

"I should say a hatchet or small ax. The wounds were incisive, necessitating a sharp surface, and the force with which they were given shows that there was a leverage to the weapon."

"How thick is the skull where these wounds were?"

"It is the weakest part of the skull."

"Would these wounds require a strong [illegible]

"I think an ordinary, not a robust, person with a hatchet weighing four or five pounds could have done it."

The medical examiner took up the condition of Mrs. Borden's body. There were 18 wounds in all, 14 of which were on one side of the head and four on the other. The 14 gashes were made in a space bounded by the median line on the right side from the crown of the head to the base of the skull and across over the ear to within an inch or two of the right eye. The wounds were nearly all parallel and seven or eight went through the skull to the brain. The four on the left of the median line did not go through the skull. Another wound on the left side was not a penetrating wound, the scalp having been only torn off and turned back.

There were blood spots on the bed in Mrs. Borden's room 18 inches from where the body lay. He thought the woman had been dead from an hour to an hour and a half before he saw the body.

"Was there anything in the appearance of the body or the blood inconsistent with her having been dead two hours?" asked Mr. Knowlton.

The defence objected to this question, the witness not having been qualified as an expert, but the Judge allowed it, and Dr. Dolan answered that there was not. Mrs. Borden, he said, was 65 years old, 5 feet 3 inches tall and weighed from 210 to 225 pounds. Shock and the wounds caused her death.

The District-Attorney got the witness to describe the direction of the cuts, and when he said they ran posteriorly, Mr. Knowlton fell over the word trying to repeat it. The audience laughed and there was the faintest zephyr dimpling Lizzie's face.

During all this evidence about blood and wounds and the constant mention of the names of her butchered parents, Miss Lizzie maintained her equanimity. Never once did she betray more than the interest of a casual spectator. The lines in her sister Emma's face were drawn tighter and her eyes were kept lowered. The ghastly picture in that old house where she was brought up was more than she could look upon. Yet, she was courageous, too. There were no tears, no feminine weakness of any kind.

Lizzie gazed in an unconcerned, half interested way at Dr. Dolan as he described the hatchet found in the cellar, which he judged could have made the wounds on both bodies. It was found with three axes, all of which had spots on them, either blood or rust.

The hatchet was a keen blade, and looked as if it had been ground recently. The blade had been washed or scraped, still there were spots on it and some on the handle. He had looked at them through an ordinary magnifying glass, but would not swear that they were blood. He found two hairs on the hatchet, a gray one near the top of the blade and a brown one caught in a ragged edge of the handle.

The hatchet and axes, the hairs and a dress and an underskirt of Lizzie Borden's were all given to Prof. Wood, the Harvard toxicologist, as were also a pair of shoes and stockings belonging to the accused daughter.

"Now, doctor," asked Mr. Knowlton, "how soon would one of those crushing blows that went through the skull cause death?"

"Instantly."

"If the person had been standing and received one of those blows, would he be dead by the time he reached the floor ?"

"Yes; the action of the heart would instantly cease."

"Would that have any effect on the spurting or splurring of the blood?"

"Yes, it would retard it or lessen its force."

"Did you talk to Lizzie Borden that day?"

"Yes, I talked to her at about 1 o'clock. I asked her if her mother had received a note that morning. She said yes. I then asked if she had seen the note. She said no. I asked her how it came to the house, and she said she supposed a boy had brought it. She said she had not seen the boy, and she thought her mother had destroyed the note."

It was 2.50 o'clock when Dr. Dolan was turned over to the defence for cross-examination. This was conducted by Melvin O. Adams of Boston. For three hours and a quarter Mr. Adams plied the medical examiner with tantalizing questions, but failed to get him confused.

In answer to questions the witness said he thought the blow behind the left ear of Mr. Borden might have been the first delivered. It was sufficient to have caused death. On the Saturday following the murders the witness said he visited the house and Mr. Jennings gave him a blouse, a skirt and an underskirt said to have been worn by Lizzie Borden at the time the crimes were committed.

"Did you see any blood on those garments?"

"There was a spot on the white underskirt about the size of a pinhead—a good-sized pin. It looked as if the blood had dripped through another garment first, as it did not go through the underskirt."

"Was there any blood on the dress?"

"There was a smooch of some kind at the pocket. No; I could not swear it was blood."

"You also took her shoes and stockings?"

"Yes; they were given to me through Mr. Jennings."

"Was there any blood on the shoes?"

"Yes; on the sole at the ball of the foot and on the heel."

"Was it fresh blood?"

"I don't know; it might have been some left in the tanning in the leather."

"When did you find these hairs and blood spots on the hatchet? Was it on the day of the murders?"

"No; the hatchet was found that day, but I saw the hairs a day or two after."

"Were they long hairs?"

"No, they were short pieces. One was three-quarters of an inch and the other an inch and a half. Both were broken—the brown one was the longer. Both had been broken back of the fine point, or outer end."

By pinning the doctor down and hurling confusing questions, based on contradictions in his estimates of distance and the engineer's measurements, Mr. Adams had Mrs. Borden's body, that weighed over 200 pounds, reduced to occupy a space about ten inches wide.

As the lawyer reached his climax Lizzie Borden broke into laughter. She had to bite her lips to keep back the sounds, and was evidently very much amused.

The public interest in the trial is at fever pitch, and all the hotels here are crowded.

Marshal Hilliard said that Mrs. Reagan would probably go on the stand, and if she does the truth of that rather sensational episode will be established.

IMPORTANT TO ADVERTISERS

The ONTARIO has the Largest bona-fide Circulation of any Paper in the Midland District

THE POWER OF THE PRESS.

IN a recent speech in reply to the toast of "Journalists as Educators," Hon. G. W. Ross made use of the following suggestive remarks:—Of all the educators entrusted with the duty of giving form and fashion to the human mind, the pupils of the journalist are the most varied in social position, in occupation and in mental attainments. If you could bring together in a procession the readers of the humblest weekly for a single year or of our largest dailies for a single day, you would find it composed, perhaps, of the millionaire and the scavenger, the professor and the clown, the fashionable lady at a seaside hotel and the servant girl in a sweltering garret, the clergyman and the pickpocket, the statesman and the ward heeler, with all other varieties of rank and station conceivable and inconceivable. What a motley crowd of pupils; and what a marvel of genius must the man be who is capable for 300 days in the year (for Sunday should not be included) of interesting such pupils, and in addition make them pay for their instruction. Then look at the journalist's school. It is not a free school. There is no compulsory legislation to secure the attendance of pupils. There is no act of Parliament or of a State Legislature authorizing him to levy taxes for the erection and equipment of such buildings as he requires. If he cannot collect the fees from the pupils themselves he must go without. If his classes are too large for one man he must increase his staff and pay for such increase out of his own pocket. He has not even the power of preventing competition, whether reasonable or otherwise. In the face of these difficulties he asks to be paid for teaching, and to a public not always too discriminating he offers the best products of his journalistic brain. It does appear to me that to be a journalist under such circumstances is to be possessed of more than ordinary courage.

EDITORIAL NOTES.

THE Toronto Telegram thus sizes up some of the Canadian Cabinet Ministers:—

Fancy a Cabinet meeting at which were present Caron, Ouimet, Dewdney, Haggart and Costigan, to consider weighty matters of State! Barebones' Parliament could never have furnished such a collection of gems as these.

What Stronger Proof

Is needed of the merit of Hood's Sarsparilla than the hundreds of letters continually coming in telling of marvellous cures it has effected after all other remedies had failed? Truly, Hood's Sarsaparilla possesses peculiar curative power unknown to other medicines.

Interested People

Advertising a patent medicine in the peculiar way in which the proprieter of Kemp's Balsam for cough and colds does it is indeed wonderful. He authorized all druggists to give all those who call for it a sample bottle free, that they may try it before purchasing. The large bottles are 50c and $1. We certainly would advise a trial. It may save you from consumption.

A Pleasant Herb Drink

The best cure we know of for constipation and headache is the pleasant herb drink called Lane's Family Medicine. It is said to be Oregon grape root, combined with simple herbs, and is made ready for use by pouring boiling water on to the dried roots and herbs. It is remarkably efficacious in all blood disorders and is now the sovereign remedy with ladies for clearing up the complexion. Druggists sell the package at 50c and $1

IN BIRMINGHAM'S HALL.

DR. TALMAGE PREACHES TO AN AUDIENCE OF EIGHT THOUSAND PEOPLE.

"I Will Arise and Go to My Father"—The Story of the Prodigal Son Retold by Brooklyn's Eloquent Divine.

LONDON, August 21, 1892.—Dr. Talmage has been preaching during the past week every day. Besides the engagements made in his original programme for the week, he preached in several towns which he had promised to visit earlier, but had been unable to do so, owing to so much more time than he expected being taken up by his visit to Russia. The audiences last week at Leeds, Bradford, Sheffield and Derby were enormous. Dr. Talmage addressed an audience of 8,000 this evening at the town hall in Birmingham. It was the largest religious meeting ever held in that town. An immense crowd gathered outside the hall unable to gain admission. After an address, lasting 15 minutes, to the audience inside the hall, Mr. Talmage spoke outside to an unnumbered multitude. The pressure of the crowd was so great that the carriage from which the preacher spoke was almost crushed under him. After he had extricated himself from the throng and had been driven nearly to his hotel, Dr. Talmage ordered the driver to turn back. On arriving at the town hall again he delivered another address on the opposite side of the building, so that those who had been unable to hear the previous oration could listen to his words. He then went to his hotel, where the doors had to be locked to keep out the crowd who tried to force their way in to greet or see the popular American divine. During the meeting in the town hall 3,000 persons stood up and asked for prayers, and a collection for the Russian famine sufferers was taken.

The sermon selected for publication this week is from the text, Luke 15-18, "I will arise and go to my father."

There is nothing like hunger to take the energy out of a man. A hungry man can toil neither with pen nor hand nor foot. There has been many an army defeated, not so much for lack of ammunition as for lack of bread. It was that fact that took the fire out of this young man of the text. Storm and exposure will wear out any man's life in time, but hunger makes quick work. The most awful cry ever heard on earth is the cry for bread.

A traveller tells us that in Asia Minor there are trees which bear fruit looking very much like the long bean of our time. This is the carab tree. Once in a while the people, reduced to destitution, would eat these carabs, but generally the carabs, the beans spoken of here in the text, were thrown only to the swine and they crunched them with great avidity. But this young man of my text could not get even them without stealing them. So one day amid the swine troughs he begins to soliloquize. He says: "These are no clothes for a rich man's son to wear; this is no kind of business for a Jew to be engaged in—feeding swine; I'll go home; I'll go home; I will arise and go to my father."

I know there are a great many people who try to throw a fascination, a romance, a halo about sin; but notwithstanding all that Lord Byron and George Sand have said in regard to it, it is a mean, low, contemptible business, and putting food and fodder into the troughs of a herd of iniquities that root and wallow in the soul of a man is very poor business for men and women intended to be sons and daughters of the Lord Almighty. And when this young man resolved to go home, it was a very wise thing for him to do, and the only question is whether we will follow him.

Satan promises large wages if we will serve him; but he clothes his victims with rags, and he pinches them with hunger, and when they start out to do better he sets after them all the bloodhounds of hell. Satan comes to us to-day and promises all luxuries, all emoluments if we will only serve him. Liar, down with thee to the pit! "The wages of sin is death." Oh! the young man of the text was wise when he uttered the resolution: "I will arise and go to my father."

In the time of Queen Mary of England a persecutor came to a Christian woman who had hidden in her house for the Lord's sake one of Christ's servants, and the persecutor said: "Where is that heretic?" The Christian woman said: "You open that trunk and you will see the heretic." The persecutor opened the trunk, and on top of the linen of the trunk he saw a glass. He said: "There is no heretic here." "Ah!" she said, "you look in the glass and you will see the heretic?" As I take up the mirror of God's word to-day, I would that instead of seeing the prodigal of the text, we might see ourselves—our want, our wandering, our sin, our lost condition, so that we might be as wise as this young man was and say; "I will arise and go to my father."

The resolution of this text was formed in disgust at his present circumstances. If this young man had been by his employer set to culturing flowers, or training vines over an arbor, or keeping account of the pork market, or overseeing other laborers, he would not have thought of going home. If he had had his pockets full of money, if he had been able to say, "I have a thousand dollars now of my own; what's the use of my going back to my father's house? Do you think I am going back to apologize to the old man? Why, he would put me on the limits; he would not have going on around the old place such conduct as I have been engaged in; I won't go home; there is no reason why I should go home; I have plenty of money, plenty of pleasant surroundings, why should I go home?" Ah! it was his pauperism, it was his beggary. He had to go home.

Some man comes and says to me: "Why do you talk about the ruined state of the human soul? Why don't you speak about the progress of the nineteenth century, and talk of something more exhilarating?" It is for this reason: a man never wants the Gospel until he realizes he is in a famine-struck state. Suppose I should come to you in your home and you are in good, robust health, and I should begin to talk about medicines, and about how much better this medicine is than that, and some other medicine than some other medicine, and talk about this physician and that physician. After a while you would get tired and you would say: "I don't want to hear about medicines. Why do you talk to me of physicians? I never have a doctor?" Suppose I come into your house and I find you severely sick, and I know the medicines that will cure you, and I know the physician who is skilful enough to meet your case. You say: "Bring on all that medicine, bring on that physician. I am terribly sick and I want help." If I came to you and you feel that you are all right in body and all right in mind, and all right in soul, you have need of nothing; but suppose I have persuaded you that the leprosy of sin is upon you, the worst of all sickness. Oh! then you say: "Bring me that balm of the Gospel, bring me that divine medicament, bring me Jesus Christ."

But, says someone in the audience, "how do you prove that we are in a ruined condition by sin?" Well, I can prove it in two ways, and you may have your choice. I can prove it either by the statements of men, or by the statement of God. Which shall it be? You all say "Let us have the statement of God." Well, He says in one place, "The heart is deceitful above all things, and desperately wicked." He says in another place, "What is man that he should be clean? and he that is born of a woman that he should be righteous?" He says in another place, "There is none that doeth good, no, not one." He says in another place, "As by one man sin entered into the world, and death by sin; and so death passed upon all men, for that all have sinned."

"Well," you say, "I am willing to acknowledge that, but why should I take the particular rescue that you propose?" This is the reason: "Except a man be born again he cannot see the kingdom of God." This is the reason. "There is one name given under heaven among men whereby they may be saved." Then there are a thousand voices here ready to say: "Well, I am ready to accept this help of the Gospel: I would like to have this divine cure; how shall I go to work?" Let me say that a mere whim, an undefined longing, amounts to nothing. You must have a stout, tremendous resolution like this young man of the text when he said: "I will arise and go to my father."

"Oh!" says some man, "how do I know my father wants me? How do I know, if I go back, I would be received?" "Oh!" says some man, "you don't known where I have been; you don't know how far I have wandered; you wouldn't talk that way to me if you knew all the iniquities I have committed." What is that flutter among the angels of God? It is news, it is news! Christ has found the loss.

When Napoleon talked of going into Italy, they said: "You can't get there; if you knew what the Alps were you would not talk about it or think of it; you can't get your ammunition wagons over the Alps." Then Napoleon rose in his stirrups and waving his hand toward the mountains he said: "There shall be no Alps." That wonderful pass was laid out which has been the wonderment of all the years since—the wonderment of all engineers. And you tell me there are such mountains of sin between your soul and God, there is no mercy. Then I see Christ waving his hand toward the mountains, and I hear him say: "I will come over the mountains of thy sin and the hills of thine iniquity." There shall be no Pyrenees, there shall no no Alps.

Again, I notice that this resolution of the young man of the text was founded in sorrow at his misbehavior. It was not mere physical plight. It was grief that he had so maltreated his father. It is a sad thing after a father has done everything for a child to have that child be ungrateful.

"A foolish son is the heaviness of his mother." That is the Bible. Well, my friends, have not some of us been cruel prodigals? Have we not maltreated our Father? And such a Father! So loving, so kind. If He had been a stranger, if He had forsaken us, if He had flagellated us, if He had pounded us and turned us out of doors on the commons, it would not have been so wonderful—our treatment of Him; but he is a Father so loving, so kind, and yet how many of us for our wanderings have never apologized. We apologize for wrongs done to our fellows, but some of us perhaps have committed ten thousand times ten thousand wrongs against God and never apologized.

I remark still further, that this resolution of my text was founded in a feeling of homesickness. I do not know how long this young man, how many months, how many years, he had been away from his father's house; but there is something about the reading of my text that makes me think he was homesick. Some of you know what that feeling is. Far away from home sometimes, surrounded by everything bright and pleasant—plenty of friends—you have said, "I would give the world to be home to-night. This young man was homesick for his father's house. It is the old homestead, but a stranger comes to the door. He finds out father is gone, mother is gone, and brothers and sisters all gone. I think this young man of the text said to himself: "Perhaps father may be dead." Still he starts to find out. He is homesick. Are there any here to-day homesick for God, homesick for heaven?

A sailor after having been long on the sea, returned to his father's house, and his mother tried to persuade him not to go away again. She said: "Now, you had better stay at home: don't go away, we don't want you to go. You will have it a great deal better here." But it made him angry. The night before he went away again to sea, he heard his mother praying in the next room, and that made him more angry. He went far out on the sea and a storm came up, he was ordered to very perilous duty, and he ran up the ratlines, and amid the shrouds of the ship he heard the voice that he had heard in the next room. He tried to whistle it off, he tried to rally his courage, but he could not silence that voice he had heard in the next room, and there in the storm and the darkness he said: "Oh! Lord, what a wretch I have been, what a wretch I am. Help me just now, Lord God." And I thought in this assemblage to-day there may be some who may have the memory of a father's petition, or a mother's prayer pressing mightily upon the soul, and that this hour they may make the same resolution I find in my text, saying: "I will arise and go to my father."

A lad at Liverpool went out to bathe, went out into the sea, went out too far, got beyond his depth and he floated far away. A ship bound for Dublin came along and took him on board. Sailors are generally very generous fellows, and one gave him a cap and another gave him a jacket, and another gave him shoes. A gentleman passing along on the beach at Liverpool found the lad's clothes and took them home, and the father was heart-broken, the mother was heart-broken at the loss of their child. They had heard nothing from him day after day, and they ordered the usual mourning for the sad event. But the lad took ship from Dublin and arrived in Liverpool the very day the garments arrived. He knocked at the door and the father was overjoyed, and the mother was overjoyed at the return of their lost son. O! my friends, have you waded out too deep? Have you waded down into sin? Have you waded from the shore? Will you come back? When you come back will you come in the rags of your sin, or will you come robed in the Saviour's righteousness? I believe the latter. Go home to your God to-day. He is waiting for you. Go home!

But I remark the characteristic of this resolution was, it was immediately put into execution.

The context says "he arose and came to his father." The trouble in nine hundred and ninety-nine times out of a thousand is that our resolutions amount to nothing because we make them for some distant time. If I resolve to become a Christian next year that amounts to nothing at all. If I resolve to become a Christian to-morrow, that amounts to nothing at all. If I resolve after I go home to-day to yield my heart to God, that amounts to nothing at all. The only kind of resolution that amounts to anything is the resolution that is immediately put into execution. There is a man who had the typhoid fever. He said: "Oh! if I could get over this terrible distress; if this fever should depart, if I could be restored to health, I would all the rest of my life serve God." The fever departed. He got well enough to walk around the block. He got well enough to attend to business. He is well to-day—as well as he ever was. Where is the broken vow? There is a man who said long ago: "If I could live to the year 1892, by that time I will have my business matters all arranged, and I will have time to attend to religion, and I will be a good, thorough consecrated Christian. The year 1892 has come. January, February, March, April, May, June, July—fully half of the year gone." Where is your broken vow? "Oh! says some man, "I'll attend to that when I get my character fixed up. When I can get over my evil habits; I am now given to strong drink," or, says the man, "I am given to dishonesty. When I get over my present habits, then I'll be a thorough Christian." My brother you will get worse and worse until Christ takes you in hand. "Not the righteous, sinners Jesus came to call."

Oh! but you say: "I agree with you on all that, but I must put it off a little longer." Do you know there were many who came just as near as you are to the kingdom of God and never entered it? I was at East Hampton, Long Island, and I went into the cemetery to look around, and in that cemetery there are twelve graves side by side—the graves of sailors. This crew, some years ago, in a ship went into the breakers at Amagansett, about three miles away. My brother, then preaching at East Hampton, had been at the burial. Those men of the crew came very near being saved. The people from Amagansett saw the vessel, and they shot rockets, and they sent ropes from the shore, and these poor fellows got into the boat, and they pulled mightily for the shore, but just before they got to the shore, the rope snapped and the boat capsized and they were lost, their bodies afterwards washed upon the beach. Oh! a solemn day it was—I have [illegible] my brother—when these twelve men lay at the foot of the pulpit and he read over them the funeral service. They came very near shore—within shouting distance of the shore, yet did not arrive on solid land. There are some men who come almost to the shore of God's mercy, but not quite, not quite. To be only almost saved is to be lost.

To-day I offered you the pardon of the Gospel—full pardon, free pardon. I do not care what your crime has been. Though you say you have committed a crime against God, against your own soul, against your fellow-man, against your family, against the day of judgment, against the Cross of Christ—whatever your crime has been, here is pardon, full pardon, and the very moment you take that pardon your heavenly Father throws his arms about you and says: "My son, I forgive you. It is all right. You are as much in My favor now as if you had never sinned." Oh! there is joy on earth and joy in heaven. Who will take the Father's embrace?

For all forms of female weakness Dr. Williams' Pink Pills are an unfailing specific. Mr. Thomas Strachan, Postmaster, Roballion writes:- My daughter has been ill for the last four years with female weakness, and had been attended by four of the best doctors in our section. She began the use of Dr. Williams Pink Pills, and two boxes have done her vastly more good than all the medicines she took from those doctors.

What She Said

Mrs. R. Peck, 15th street, New York City, visited Canada last year, and had the good fortune to pick up something which not only suited her, but her neighbors also. Writing the manufacture of Nerviline she says:—"I bought three bottles of Nerviline while in Canada and treated my neighbors to some of it, and all think it the best medicine for internal or external pain they have ever used." Nerviline deserves such commendation, for it is a most powerful, penetrating, and certain remedy for pain of all kinds. Take no substitute.

NEWCASTLE'S HOT FIGHT

THE LABORISTS MUCH OFFENDED AT DAVITT.

He Said That If They Opposed Mr. Morley Their Demands in Parliament Would Be Foiled—The Incident Will Probably React Against Mr. Gladstone's Government.

LONDON, Aug. 27.—Mr. Morley's return for Newcastle is an immense relief to the Liberals, who have been watching for the result with breathless anxiety. The party never expended money and energies so profusely to secure a local election. While the Unionist candidate relied solely on local influence, the Liberals imported to strengthen Mr. Morley 14 members of the House of Commons, 8 ex-members and 15 preachers—Episcopal, Catholic, Methodist—and all were in the field daily. The contest became one of national importance, when some adherents of the Labor party joined the ranks of the Unionists. It was only the 8-hour section of the Laborists, but this is now a strong political factor in the country. Mr. Morley's repute as a high-minded and honest politician never shone brighter than when he declared that he was ready to risk his seat and his office rather than submit to the demands of the Laborists. But apart from his success the leading outcome of the contest is the definite rupture of the Laborists with the Home Rulers.

The Laborists throughout the country resent Mr. Davitt's threat that the members would foil the labor demands in the House of Commons if the Laborists opposed Mr. Morley. The labor leader, Mr. Champion, replies that they have power to destroy all chance of Home Rule. As Mr. Morley has triumpled, Mr. Davitt may now seek to reconcile the Laborists, otherwise the feud will bring disaster to the Gladstone Government.

Mr. Morley's short visit to Dublin has confirmed the Nationalist confidence in him. It soon became known that he had selected as private adviser and probably Under-Secretary for Ireland George Fottrel, a man whose influence in Irish affairs has long been recognized by both English and Irish leaders. Mr. Fottrel stands so well with the Nationalists that his reported appointment as Under-Secretary was hailed with general delight, as the advent of a genuine Irish administration—sealing the end of the obnoxious Castle domination. The Irish leaders will be satisfied if Mr. Fottrel is appointed.

Regarding the Home Rule bill, The London Chronicle's travesty of the result of the negotiations between Mr. Gladstone and the McCarthyites is not deemed worthy of notice by the Irish party. Mr. Dillon's statement that the retention of the whole of the Irish members in the Imperial Parliament is an essential feature of the bill has acceptance among all of the new ministerial circle.

Mr. Gladstone's nominees for the great court offices are criticized in a friendly spirit on all sides. Lord Breadalbane is a genuine Gladstonian, but is at the same time "persona grata" with the Queen, having already been Lord in Waiting and Treasurer of the Household. Lord Carrington will make a good Lord Chamberlain.

An Increased Majority for Morley.

LONDON, Aug. 27.—John Morley has been re-elected to Parliament. The figures afford much satisfaction to the Liberals. In the general election Morley received 10,905 votes, but his poll yesterday was increased by 2078 votes, the official figures showing he received 12,983 votes. Ralli received 11,244, making Morley's majority 1739.

France Will Protest Against Manitoba's School Legislation.

ROME, Aug. 27.—The Congregation of the Propaganda has requested the French Government to protest to Great Britain against the closing of Catholic schools in Manitoba. The request is made on the ground of the rights guaranteed to the French Catholics of Canada when that country was annexed by Great Britain, the Roman Catholics of Manitoba being largely of French descent.

Closed By the McKinley Bill.

LONDON, Aug. 27.—A meeting of the shareholders of the great Bradford manufacturing concern of Sir Titus Saltson & Co. (limited) has been called to consider a proposition to wind up the company. The English plush trade, in which the company is largely engaged, has fallen to about one-tenth of what it was before the McKinley tariff went into force.

Quarrelsome Miners.

PARIS, Aug. 27.—The troubles between the French and Belgian miners employed at Lievin culminated Friday in a very serious disturbance. The Frenchmen in a body attacked the dwellings occupied by the Belgians. The Belgians appealed to the gendarmes for help. When the officers attempted to disperse the rioters the latter showed such an ugly disposition that it was found necessary to call upon the troops to suppress the disorder.

"German Syrup"

Martinsville, N.J., Methodist Parsonage. "My acquaintance with your remedy, Boschee's German Syrup, was made about fourteen years ago, when I contracted a Cold which resulted in a Hoarseness and a Cough which disabled me from filling my pulpit for a number of Sabbaths. After trying a Physician, without obtaining relief— I cannot say now what remedy he prescribed —I saw the advertisement of your remedy and obtained a bottle. I received such quick and permanent help from it that whenever we have had Throat or Bronchial troubles since in our family, Boschee's German Syrup has been our favorite remedy and always with favorable results. I have never hesitated to report my experience of its use to others when I have found them troubled in like manner." REV. W. H. HAGGARTY, of the Newark, New Jersey, M.E. Conference, April 25, '90.

MINING DISASTER IN WALES.

An Explosion in a Mine Causes Great Loss of Life.

LONDON, Aug. 27.—A fearful mining accident occurred yesterday at the Park Slip coal pit near Bridge-end, a mining town in Glamorganshire. The day shift of miners had not been long in the mine before a most terrific explosion was heard. The ground trembled with the force of the explosion, and the people in the vicinity knew immediately that an accident had happened.

The day shift comprised 150 men, and their relatives and friends rushed to the pit mouth to learn the extent of the disaster. The explosion had caused the earth and rock to fall, and the mouth of the pit was closed. Not a single man of the 150 in the mine had made his escape and it is feared there has been great loss of life. Hundreds of the miners in the vicinity have volunteered their services for the work of clearing the pit mouth, and it is being pushed as rapidly as circumstances will permit. All around the pit are gathered women and children, hoping for the best, yet expecting the worst.

The officials hold out all the hope possible, but it can easily be seen that they fail to make the mothers and wives believe that there is much hope.

At 6 o'clock last evening a rescuing party ascended to the surface bearing with them two men whom they had found near the bottom of the pit. Both the men were badly burned and unconscious. They had evidently inhaled fire and will die. Shortly after these men were brought up the flames from the burning pit ascended and set fire to the structures at the pit head. When the huge tongues of fire were seen leaping up from the pit cries of horror and despair arose from the throng. Many women fainted, while the screams of others were heartrending. When the flames issued from the pit all hope was abandoned. Those who escaped death in the explosion have certainly been suffocated or burned to death.

A despatch from Bridge-end this evening says: "Though the volunteers have been working with desperate energy since morning it is still impossible to reach the imprisoned miners. From the indications it is believed the whole interior of the pit was set on fire by the explosion, and that the flames are still raging. It is feared every man in the mine at the time of the explosion perished.

SIR HENRY TYLER'S VISIT.

He Thinks the Canal Difficulty Should Be Settled at Once.

MONTREAL, Que., Aug. 27.—Sir Henry Tyler, president of the Grand Trunk, accompanied by Mr. Hubbard, president of Great Western Railway and a director of the Grand Trunk, arrived here last evening, after inspecting the eastern division of the road. He expressed himself as highly satisfied with the condition of the road and declares that the company is in a much better position than it has been for some time He thinks that a speedy settlement of the canal dispute should be made in the interest of both countries. Sir Henry, after spending a few days in Montreal in consultation with the chief officers of the company, will proceed to inspect the other divisions and will go as far west as Chicago He will then return to New York and leave for home about the end of September. He states that no important changes are contemplated in connection with the company.

TORONTO TOPICS.

TORONTO, Aug. 27.—It turns out that Charles McClelland, who reported that two men had waylaid and shot him on Thursday night, did not tell the truth. Investigations yesterday afternoon established beynd doubt that he attempted suicide and the shot which he fired failing to end his life he concocted the yarn which he told the police.

McClelland came here from the village of Cannington about seven and a half years ago. He was one of the most successful builders in the village and brought with him to the city quite a little capital. He at once launched out as a speculative builder and contractor, but after a few years' experience lost his all and had to make an assignment. Subsequently he again commenced business in his wife's name, but about a year ago his wife was also forced to make assignment when the liabilities were found to be in the neighborhood of $30,000, with assets a few hundred. Since then McClelland has eked out a precarious livelihood, as a carpenter, for him family of seven children, the eldest being about 15 and the youngest 6 months old.

A member oe the Legislature made the statement yesterday that the Ontario Government was in receipt of a letter from Hon. Edward Blake recommending Professor James Loudon as President of Toronto in succession of Sir Daniel Wilson. He said further, that from the information in the hands of the ministers, gathered from graduates of the members of the University faculty, the heads of affiliated colleges and the high school teachers throughout the province, he was confident that Mr. Mowat and his colleagues would act on the recommendation of Mr. Blake.

About 2.30 o'clock yesterday morning fire was discovered in the finishing room of the American Rattan Company's big factory on the southeast corner of Major and Tecumseth-streets.

The alarm was given and the brigade promptly responded, but upon arrival the two upper storys were in flames, which spread quickly to all parts of the building. The firemen were at first handicapped by low pressure, but this was soon rendered and in a few hours they managed by hard work to confine the blaze to the three upper flats, which was packed with manufactured goods, was considerably damaged by water.

The loss is estimated at $40,000, $15,000 of which is on stock and plant. The insurance is in the following companies: Eastern, $2250; Union, $1000; British North America, $1000; Phœnix of Hartford, $7000; Lancashire, $1500, and Hartford, $1750.

Choked by a Piece of Meat.

ORANGEVILLE, Aug. 27.—Last night John Foregrave, formerly of Marsville, and a farmer, who lives near Grand Valley, left the latter place to go home. When they arrived at the farmer's they took a lunch and a piece of meat lodged in Foregrave's throat and choked him to death. It is said he remained sitting in a chair all night, the farmer not discovering he was dead until the morning. He leaves a wife and several small children.

Suicide of the Reeve of Lobo.

COLDSTREAM, Ont., Aug. 27.—Alexander Sinclair, Reeve of Lobo Township, comitted suicide yesterday. He was found with a tie strap around his neck hanging from the rafters of a shed on his farm. No reason known.

The Manitoba Harvest.

WINNIPEG, Aug. 27.— By to-night fully 80 per cent. of Manitoba's wheat crop will have been harvested. Weather throughout the province continues most favorable.

All through the Provinces the rapid increase of La Grippe, is causing great alarm. A report was received here to-day, of a new development o the disease, which is worse, perhaps than any other. Wm. Hanley of N. Y. City, died in terrible agony after sickness of only four days. His tongue swelled to such an extent as to make it impossible for him to close his jaws or swallow any food. The report is causing the people in this district to re ai e into the noted Grip-cure, recently referred to in so many papers. In Cape Breton the disease has pread very rapidly and with fatal results, D. J. McKillop of L'Archeveque writes Feb. 11th that this cure has been tried in his neighborhood and with such success that all those residing there are obtaining a supply believing it to be the only remedy affording relief and effecting a certain cure. He finished his letter by asking for a large quantity of the Medicine (Dr. Morse's Indian Root Pills) to supply the demands of the mmunity for the relief of LaGrippe.

It is the greatest blessing of the century to all in delicate health for who suffer with couhs, colds and ailments that tend to consumption. Remember, Miller's Emulsion contains he constituents of wheat.

THE AIR BRAKE.

How the Invention was Suggested to a Young Mechanic.

The air brake was a creature of George Westinghouse's youth ; he had invented it before he was 21 years of age, and nearly a quarter of a century has passed since he saw his invention applied with success to a railway train. It has gone upon record as one of the great achievements.

The air brake was suggested to him on the inspiration of the moment, but that is not infrequently the beginning of great inventions. The suggestion of the divisibility of the electric current came to Edison one summer Sunday afternoon as he stood with Prof. Barker of the University of Pennsylvania watching a majestic piece of mechanism in operation at the Wallace works in Ansonia. The hint of the telephone was received in an instant almost by Bell, and the suggestion of the quadruplex telegraph came to Edison, as he once said, "between two thoughts." Ericsson received the hint of the screw propeller as he watched a fish swimming in a quiet pool, and Westinghouse had the first suggestion of the air brake while in a railway accident. His train was brought to a standstill, and they told him that a collision had occurred, and then it seemed to him that it should be possible to invent some mechanical appliance which would give an engineer command of a train such as he did not possess in the use of the throttle and the reversing lever. He turned this idea over in his mind, and, being skilful with his hands and having the capacity of the inventor, he constructed in a little while the first model of the air brake.

It happened that not long afterward he was in Chicago, and he met an inventor who thought that to him had come the inspiration for the perfect brake, and had such faith in this inspiration that he had worked it out and had secured patents for his design.

Westinghouse said: "I, too, have a scheme for a railway brake which will enable the engineer of a train to apply the brake from the engine to the last car, and will bring a train to a standstill in far less time than the hand brake now in use, can do."

"Ah, but," the older inventor said, "you cannot make a brake which will do these things without infringing upon my patents."

"I can and will," replied young Westinghouse, and within a year he had done his work and found himself a famous man.

The longest canal in the world is the one which extends from the frontier of China to St. Petersburg. It measures in all 4,472 miles. Another canal running from Astrachan to St. Petersburg is 1,434 miles long. Both of these were begun by Peter the Great.

A Tennessee inventor has patented a gauge for determining the age of horses. The device consists of a steel plate, having a tapered body portion, one of its longitudinal edges being marked by lines and fingers. By applying the scale to the teeth of a horse, its approximate age is said to be determined.

The highest viaducts and bridges in the world are: St. Giustina, Tyrol, 460 feet high, 197 feet long, without piers ; Garabit, France, 406 feet high, 1,852 feet long, stone and iron ; Du Viaur (proposed), France, 382 feet high, 1,508 feet long, iron arch ; Forth, 375 feet, steel.

There are two farmers of Milltown, Pa., who have gone into the business of extracting the poison from bees. They catch the bees, and either immerse them for eight days in a bottle of alcohol, having previously enraged them, so as to cause the poison to exude from the poison sacs, or else they kill them and squeeze the virus into a glass tube. The virus has a local repute as a cure for dropsy, chills and fever and all kinds of insect stings.

The Other Side of the Shield.

When Robert Lowe, afterwards Viscount Sherbrooke, became Chancellor of the Exchequer he wrote these pathetic lines, which, as The London Speaker says, reveal a side of his character which was not conspicuous in the eyes of the world ;

"Success has come—the thing that men desire ;
The toil of office and the care of State.
Ambition has naught left her to acquire.
Success is come! But, ah, it comes too late.

"Where is the bounding pulse of other days
That would have chilled enchantment through my frame,
The lips that would have loved to speak my praise,
The heart that would have kindled at my name ?

"Oh, Vanity of Vanities ! For Truth
And Time dry up the source where joy was rife,
Teach us we are but shadows of our youth,
And mock us with the emptiness of Life."

The Revival of Spinning.

The ancient and honorable art of spinning is to be revived, says the Washington Post, in order that the fair women of society may find a new incentive to living in imitating the thrift which to their grandfathers was a subject of such genuine pride.

A pretty woman seated at a spinning wheel twisting the flax between her fingers as her perfectly slippered foot keeps the wheel in motion with a gently whirring sound, is always a picture, for it brings the hands and arms into fine play. Therefore the new fad is to be encouraged, for as it becomes more general, one's mind will cease to be haunted with visions of the spinning scene in "Faust," and take ten degrees more pleasure in the private performance gotten up for the benefit of the select few invited or voluntary callers at an informal afternoon reception.

The idea in undertaking to learn the art of spinning is to weave a small square of linen, which, when decorated with a trifling amount of embroidery, is then reserved for a gift to the nearest and dearest acquaintance.

What Causes the Trouble.

Most people have two kinds of manners. One they use in the kitchen and the other is saved for parlor use. You never know a man until you know his kitchen manners. One reason that marriage brings out so many unpleasant surprises is that the courtship was based on the parlor manners.—Atchison Globe.

Horse races at the Belleville Driving Park on Wednesday Aug. 31st and Thursday Sept 1st.

It is not known whether Rowdy Boy will be able to enter his class here next week or not. He has been lame for some time past and is getting better and if able at all Sam Curry will send him off.

The Newburg baseball nine came to Belleville yesterday to play the home nine on the agricultural Park. The visiting club were weak from the start. They were unable to strike Bradford and the result was that in the fifth innings Belleville had twenty-seven runs and the visitors one. Game was called on account of rain. The game was witnessed by a large number of spectators.

Chas N Gill, the energetic secretary of the Cobourg baseball club today telegraphed W N Power, proprietor of the Queen's Hotel to engage the agricultural park, Wednesday Aug. 31st, for a match between Cobourg and the Princess street nine of Kingston. These two clubs have been rivals for the championship of Eastern Ontario for several years and their last match at Belleville will be remembered for a long time by local base ball enthusiasts.

It is likely that the track will be in first class condition for the races next week. Men are now busily engaged in putting it into the best possible shape and the fastest half mile track in America will see some good time on Wednesday and Thursday. If the weather is favorable the largest crowd of sports that ever visited Belleville will be in the city. Kingston will run a big excursion here and reduced rates have been arranged on all trains and boats.

THE SHRINE OF ST. ANNE

A NUMBER OF PILGRIMS FROM BELLEVILLE JOIN THE PILGRIMAGE

Some Remarkable Cures That Have Been Affected by the Power of Faith—Thousands Wend Their way to the Shrine

A large number of pilgrims from Belleville took in the pilgrimage to the shrine of St. Anne in Quebec. Among them were Thos. Hanley and wife, Mrs. M. Lally, Mrs. O'Neil, Mrs. Mackie, Misses Mackie, Donald Patterson, James Hanley and Charles Kyle. St. Anne is situated on the St. Lawrence river about twenty-five miles east of Quebec. It is a typical French village with little to arouse interest in the mind of the visitor, yet this hallowed place is yearly visited by thousands of people from all parts of the globe. It is not the quiet, sleepy little village that attracts these pilgrims, but the shrine which has wrought such miraculous faith cures. The church is a plain stone building with little interior decoration. The object that will attract the eye of the vistor are two immense pyramids built, one on each side of the church. On these pyramids are piled every conceivable kind of crutch, cane, bandage, etc., as proof of the wonderful cures effected. Crowds of people are constantly surging through the aisles while here and there are invalids and cripples engaged in the depth of prayer. It does seem superstitious in this enlightened generation, yet the fact remains that these cures have been affected. Mr. James Hanley stated to a reporter that on the night before he was there, a young man who had gone into the church on crutches walked out alone and unaided while his sticks were added to the immense pile. Cases have been known where people have gone into the building who had never walked a step in their lives without the aid of crutches have been permanently cured by the power of prayer and gone on their way rejoicing. One case within the knowledge of the writer was probably the most conspicuous in the long list of notable cures. The subject was a young woman who had been wasted by disease until she was only a shadow. She had never left her bed since she was born and in this state she was carried into church by her friends. The power of faith was not strong enough within her apparently, for the operation was not successful. The experiment was tried the second day with no better success. On the third day the young lady left her couch and walked out of the church. It is a fact known to hundreds of people that the young lady had never walked a step in her life, and the proof is undeniable that she is today a strong and healthy woman. Such advanced cases of course it may be supposed are rarely cured, yet the almost daily cures reported would furnish material for a big book.

Boulta While Crossing a Bridge the Victim of a sad Fatality

A sad fatality is reported from Black Creek Bridge. Last week while Joseph Boulta, a teamster for Gilmour & Co. was driving a load of stones and camp furnishings across the bridge, the latter gave way and let the load into the creek, Some stones fell on Boulta which inflicted such injuries that he died from the effects soon after. Deceased had several relatives living in the city.

Worth Knowing.

None of us are too old to to learn. Here is a point that is worth knowing. There are clothing houses that in order to buy (as they think) cheap, are always picking up "jobs." Do you know what "job" clothing is? It simply is a lot of moth eaten stuff, five and ten years old, trash that no respectable clothing house will have. Wholesale houses in order to sell are glad to give a reduction on such filth. The Oak Hall buy nothing but the very newest styles and always just out of the tailor's hands. Cash talks, and we are enabled to buy so cheap that it is no trouble to give our customers the very latest styles at lower prices than other houses con sell you trashy 'jobs' for.

DECKED WITH FLOWERS.

MEMBERS OF THE VARIOUS ORDERS DECORATE THE GRAVES

Many other Citizens Take Part in the Ceremony—The Unfavorable Weather Made the Celebration a Failure in Point of Numbers

Decoration day is always looked forward to with a good deal of interest by a large number of the citizens of Belleville, that being the day when all unite in paying a tribute of loving memory to their friends who have gone on before them into the "dark house and long slumber," and this year elaborate preparations had been made by the joint committees of the various secret societies, preparations that would have ensured a splendid success had the weather been favorable.

But it wasn't. The day broke dull and chill, and lowering, all day long the damp winds blew, and in the afternoon the rain began to fall with steady and dull monotony. It is perhaps appropriate that the skies should have wept in sympathy with the grief of humanity, but that copious downpour of pearly drops was an effectual damper on the ardor and devotion of frail humanity.

In point of numbers the ceremony was a failure. This was due, as above indicated, to the unfavorable weather—and for this the committee is partly to blame. Decoration day should be held earlier in the season, when there is greater assurance of fair weather, and when people will be more apt to celebrate the day, the spring and early summer being especially the flower season. In future it would be well if a day in June were chosen for this suggestive and beautiful ceremony.

At one o'clock the members of the various Orders assembled on the market square where a procession was formed which, preceded by the band, marched through the principal streets and thence to the wharf, where the Hero was taken for the cemetery. On their arrival the Rev. T. J. Edmison offered the invocation, after which the graves of those named in yesterday's ONTARIO were handsomely decorated with the usual touching ceremony.

Rev. M. W. McLean delivered the memorial address, which was a most eloquent, thoughtful and appropriate effort.

He said he would be a strange being whose heart would not be touched, nor his feelings stirred when in this silent city of the dead. These marble stones and stately monuments that are becoming so numerous in this beautiful acropolis speak to us of those who have gone before, they remind us of our fellow citizens, of those who in other days were our friends and companions. Here comes one to plant a wreath upon the grave of a brother, there another on the grave of a sister. Here children come to weep over and recall tender memories of a departed father or mother, there a father and mother stand beside the grave of the child, the sweet flower of heaven, who was given to sweeten their lives for a few short years, and then transplanted to bloom eternally in the garden of the Lord. And as we thus stand beside the resting places of our loved ones how the sadly sweet memories of the past come sweeping over us, and how ardently we

> "Long for the touch of a vanished hand,
> And the sound of a voice that is still."

These silent tombs speak to us of the uncertainty of life. Here we see the grave of the little babbling babe, there rests the maiden or the youth, here lies the man or woman in middle age, there the hoary headed father or mother. All ages and all conditions of life are here found, speaking to us with a deeper meaning and a clearer light that soon we shall go down into the darkness of death, that

> "Our hearts like muffled drums are beating,
> Funeral marches to the grave."

It is natural that affection should prompt us to decorate these graves with fragrant flowers, emblems not only of love, but of beauty and of perishableness. How bitter the problem of life must have been to those who like us had to part with their dearest! But for the knowledge of the gospel life would be a weariness and death an eternal separation. But this blessed gospel lightens the bitterness of parting with the hope of meeting.

> "Alas for love if thou wert all
> And naught beyond, O death."

Here we learn the importance of life its inestimable value; here we realize that this is but a time for preparation, a time of trial, the apprenticeship of the life to come. And what opportunities, what glorious possibilities this life offers. A boy's future depends upon what he does in the present. The apprentice, the student each will attain a high or low position according as he uses or abuses his present opportunities. So of life as a whole. It is full of opportunities, and our future life will depend on the use made of our present duty. In spiritual as in worldly affairs is it true that "as a man soweth so shall he reap."

The end of life is the end of opportunity. Each of us goes alone into the valley of death. Friends, possessions, everything will be left except our record, our character, those alone go with us, and by these alone shall we be judged. If the spirits of those gone before could speak they would cry as with one voice, "Fear God and keep his commandments for this is the whole of man." For

> "In the cold grave to which we haste
> There are no acts of pardon past;
> Fixed the doom of all remains,
> And everlasting silence reigns."

That being so how are we to fill out our lives? We are to be "diligent in business." Some stop at this, but there is more than that. We are also to be "Fervent in spirit, serving the Lord." That should be our true aim in life.

He serves God best who does most good to his fellow men. Brethern you are banded together for brotherliness. You know something of kindly deeds, of devotion to the sick, of how to cheer and comfort the widow and the orphan. This you esteem your first and greatest duty, to be brotherly towards one another. But this brotherliness should not be confined to those of your own order alone, but should extend to and include every fellow-citizen. All have claims on your good will, on your helpfulness. You represent all branches of the christian church. What a mighty power for good they would be if all were united not only for the worldly but also for the moral and spiritual welfare of the community? Banded together to carry into practice the principles of the Master in the workshop, in the office, in the market place and in the store. It is our duty to strengthen the good and to crush out evil wherever found. No man has a right to do evil or wrong under any circumstances. Each is bound to exert his influence for the moral, spiritual and temporal welfare of his fellow-citizens. Every day claims are made on your forbearance, sobriety, honesty, self-denial, truthfulness, kindliness, helpfulness. As we meet and fulfil these claims we are doing the work of the master. What a mighty influence for good we could exert if the members of all the different congregations were banded together to advance the moral and spiritual welfare of our city. Then we would each and all do our part to make life cheerier and the world safer to live in for young and old. He lives best who gives the life most useful to his fellow-men.

DESERTED HER CHILD

LIZZIE AULT, OF MADOC GETS INTO BAD COMPANY.

She Gets her Illegitimate Child Admitted to Maternity Hospital at Toronto and Then Deserts It.

The police yesterday received a telegram from Toronto to arrest Elizabet Ault who had been going under the name Anderson for deserting her illegitimate child at the maternity hospital in that city. The girl in question is twenty-two years of age and of light complexion. She was born in Ireland and came to Monteral, when a young girl. There she worked as a domestic for some time after which her family moved back of Madoc in north Hastings. She come to Belleville last summer and worked here for several months as a domestic. During the fall the police received word from Montreal that while working in that city she had stole various articles from a merchant on Notre Dame street. She gave up the articles and was not prosecuted. In July last she gave birth to an illegitimate child, the father of whom is supposed to be a merchant of Montreal. She took the child to the Maternity Hospital in Toronto to where she deserted it. She has been living in Belleville for some days past and yesterday afternoon officer Hayes found her at the Grand Trunk boarding house. Detective Clemens from Toronto arrived in the city at noon and took his prisoner west on the six o'clock train. When she made application at the Maternity hospital a letter was given her by a Belleville doctor. The detective stated to a reporter of the ONTARIO that the child had died.

Bread is selling for nine cents a loaf in Deseronto.

The Model school will open on Thursday next at Madoc.

Horse races at the Belleville Driving Park on Wednesday Aug. 31st and Sept. 1st

All persons indebted to Albert L. Geen are requested to settle their accounts and all having claims are requested to present them on or before the 1st Sept.

James Bedborough, of Picton, has returned from England where he secured several thousand dollars from his grandmother's estate.

It has been decided to change the date for holding the North Hastings Fair. It will be held on Tuesday the 27th Sept. instead of the 29th.

The High and Public schools will reopen next Monday at 9. The Inspector has the authority of the board of education in requesting all pupils to be present with books for promotion and classification as no seats will be kept for absent pupils.

Mr. F. L. Weiss, of Madoc, left on Friday last for a trip to the land of his birth, Germany. He expects to be gone a year. Mr. Weiss settled in this part of Hastings when Madoc was little better than a howling wilderness.

When coming up the bay from Deseronto to Picton on Wednesday a spark from the smokestack of the Varuna set on fire one of the boats hung up above the deck, burning a space about two square feet. Happily the blaze was quickly discovered, the hose turned on, and in five minutes the fire was extinguished.—Picton Times.

It is suggested that the hydrants in the lower end of the city should be left open for a day in order to cleanse the pipes of any impurity which is likely to be harbored in the warm season.

It was reported to the police last night that Geo. Babcock was assaulting his wife. When the officer arrived the wife denied that she had been assaulted. It was only a family jar.

John Nelson, drunk, was discharged at the police court to-day.

Daniel Canniff, who recently reported a mare lost has recovered it.

On July 12th Michael LaFrance, a 14 year old son of Mr. L. H. La France of Trenton, took it into his head to stray away from home and up to the present his parents have been unable to find him. Two years ago the lad was seriously ill and ever since he has indulged in rambling fits.

The changeable weather is now upon us and with it sudden attacks of cholera, cramps and kindred trouble. Each family should have a bottle of Holden's Cholera Drops which gives prompt relief. It is put up and sold at Geen's drug store.

The Kingston Canton is drilling twice a week with a view to carrying off one of the prizes to be offered in the competition which is advertised to take place on Tuesday, Sept. 6th. The Belleville Oddfellows' band will supply the music in connection with this competition.

Two of Mr. Thos. Paxton Bigelow's friends from Port Perry called on him in Trenton last week having made the whole tour from that pretty village to our town with a Canoe. Starting at Scugog Lake they came down by Scugog river to Sturgeon lake then on through Pigeon lake, Buckhorne, Stony and Clear Lakes, Otonabee River, Rice lake thence down the whole length of the Trent to Trenton.—Courier.

Ald. Luscombe, as chairman of the lighting committee, should see that the lights in West Belleville are better attended to. This morning the ONTARIO received no less than five complaints from residents living in the west end stating that the article in last night's issue had the right ring. Robt. McCoy gets $11.92 a month for lighting the coal oil lamps in that part of the city and if he is paid for this work at the end of this month, Ald. Luscombe will be responsible for seeing the city robbed. The fact that this work is given out to the lowest bidder does not interest the residents in West Belleville. The contractor agrees to light the lamps for a certain sum and the ratepayers want to know why it is not carried out.

A HOUSE BURNED

Rob't Moffat's House Reduced to Ashes by the Upsetting of a Lamp

A fire broke out in Mrs. John Wallace's house on the corner of North Front and Ridley street at 10.55 last night which soon demolished the premises together with the contents. The fire was caused by the explosion of a lamp in the hands of a boy who had gone up stairs in search of some wearing apparel. The property was owned by Robert Moffat. The house and contents were insured.

PERSONAL PARAGRAPHS.

C. A. Abraham, of Woodstock, is in the city.

Miss Morris, of Belleville, is stopping at Chemong Park.

Miss Maggie McCrudden left yesterday to visit friends in Toronto.

Miss Minnie Brintnell, who is confined to the hospital with illness is improving.

Miss Imogene Palen returned home yesterday after visiting friends in Chicago.

Alf. Bates, of Buffalo, N Y is home. He will move his effects to the other side next week.

Mr. Lew Terwillegar, of Paterson's confectionery house, Belleville, took home with him a fine driving mare purchased from Mr. Z. Herrington.—Picton Times.

Harry Haney, who for some time past has worked with Geo. Ritchie & Co, in the dry goods business has secured a position in Rochester. He left to-day for the Flower City. Mr. Haney has a large number of young friends in Belleville who will wish him success.

This is the way the Detroit Tribune puts it : "Thomas Downs, chief of police of Belleville Ont., and Dr. Lafferty, of Sudbury, Ont., are visiting Chief Downs' daughter, Miss Lily Downs, 60 Labrosse street. The chief is a relative of Coroner Downs of this city." But it so happens that Sergt. Downs has not been out of Belleville in three years.

It is understood that Hon. J. M. Gibson Provincial Secretary, will not do the work of the Educational department along with his own when Mr. Ross leaves for Germany. Mr. Gibson has a lot of work in his own department, and it is as good as settled that Mr. Harcourt will take up the work of the Educational Department together with that of the Treasury Department.

Miss Eva Roblin and her mother, Mrs Drewry, of Toronto, sailed on Wednesday for Italy from New York on the steamship Birmania, for Genoa via Gibraltar. They propose taking up their residence in Milan and other musical centres so as to enable Miss Roblin to finish her musical education under the supervision of the Italian and other European masters. During the comparatively short time since Miss Roblin has made her debut as a vocalist she has won golden opinions on all sides.

If you have a cough or cold do not neglect it; many without a trace of that hereditary disease have drifted into a consumptive grave by neglecting what was only a slight cold. Had the used Bickle's Anti-Consumptive Syrup before it was too late their lives would have been spared. Mr. A. W. Levy Mitchell, writes. "I think Bickel's Anti-Consumptive Syrup the best preparation on the market for coughs and severe colds. About six years ago I caught severe cold which settled on my lungs, and for three months I had a cought. I had a physic attending me, but gradually grew worse until I was on the verge of Consumption, and had given up hopes of being cured, when I was induced to try Bickel's Syrup. Before I had taken one bottle I found myself greatly relieved, and by the time I had finished the second bottle I was completely cured. I always recommend it for severe colds and consumption."

TRIAL OF LIZZIE BORDEN

THE SERVANT GIRL GIVES IMPOTANT TESTIMONY.

Bridget Sullivan Tells What Occurred on the Eventful Morning—The Prisoner's Movements Previous to the Discovery of the Bodies.

FALL RIVER, Mass., Aug. 29.—The reasons of the police for arresting Lizzie Borden for the murder of her gray-haired parents are being made clear. The second day of her preliminary trial has brought out the most sensational evidence.

Bridget Sullivan, the Borden family servant girl, has told enough of the occurences of that fatal morning to weave a strong chain of circumstantial evidence against the accused daughter. According to Bridget's story it seems impossible for anyone to have committed the murders but Lizzie Borden.

Under the lead of District-Attorney Knowlton this Irish girl traced minute by minute the happenings in the Borden house that morning. Her dreadful story was told in a straightforward, honest way that bore the impression of truth. There was no hesitancy in her speech, no awkwardness and no contradiction.

Bridget's testimony is vital. Unless the defense can show what Lizzie was engaged in at the time the murders were committed, there can be scarcely any doubt of the hand that dealt the blows. During all of Bridget's damning evidence Lizzie maintained that imperturbability that has characterized her all along. With her black-gloved hand resting on her cheek she looked steadily at the pale-faced girl recounting the details that preceded the commission of the crimes and never winced.

The demeanor of her sister Emma was about the same. She heard all with bowed head. Her face seemed to speak regret and resignation.

The Fateful Moments.

After describing her movements that morning, and telling how she passed in and out while washing the windows, she tells about meeting Lizzie in the dining room, where she was ironing. The examination proceeded:

Q. Did Lizzie say anything to you then?—A. She asked me if I was going out that afternoon. I told her I did not know. She then said that Mrs. Borden had either gone out or was going, I don't know which. She told me if I were going out to be sure and lock the door.

Q. What did you do after that?—A. I went upstairs and lay down on the bed in my room.

Q. Have you told me all Lizzie said to you when she was ironing the handkerchiefs?—A. She said something about a sale of dress goods for eight cents that day.

Q. What time was it when you went upstairs?—A. Four or five minutes to 11. I know that because I had just laid down when the clock struck 11.

Q. What happened next?—A. I heard Lizzie call me and I jumped up. I knew something was the matter the way she hallooed.

Q. What did she say?—A. She said her father was dead.

Q. What time was that?—A. Ten or fifteen minutes after I lay down. She told me to run quick for Dr. Bowen. She was leaning against the back door. I started to look into the sitting-room and she told me to hurry to Dr. Bowen. I went across the street to the doctor's and Mrs. Bowen told me he was out. I went back and told Lizzie, who said to go for Mrs. Russell on Borden-street. She was still standing against the door. I did not see anything in her hands. I went to Mrs. Russell's, and when I got back Dr. Bowen and Mrs. Churchill were in the house.

Q Did anybody say anything then?—A. Yes, Mrs. Churchill said Mrs. Borden ought to be sent for and Lizzie said, "I think I heard her come in." Mrs. Churchill said I'd better look for her, and when I said I was afraid to go upstairs she offered to go with me. We went up and saw Mrs. Borden's body lying on the floor near the bureau. Then Mrs. Churchill came down with me and told Dr. Bowen that Mrs. Borden was murdered, too.

Q. Did you see any axes in the cellar that day?—A. Yes, I saw them in a box where Mr. Borden kept the firewood.

Q. Was that the first time you had ever seen them?—A. Yes, it was.

Q. You had never seen them before that day?—A. No, never.

Q. And you went into the cellar every day?—A. Yes, ever since I had been at the house.

Q. How did you happen to see them?—A. I went down when the officers were there and they found them.

Q. You had never seen any axes there before that?—A. I had not.

Q. Was the cellar door open then?—A. It was shut.

Q. Did you see Lizzie afterwards and say anything to her?—A. I asked her where she had been, and she said in the backyard.

Q. Did she say what she had been doing?—A. No.

Q. Had Mrs. Borden said anything to you about going out?—A. She had not.

Q. The only person you heard from that Mrs. Borden was going was Lizzie?—A. That was all

Saturday's Proceedings.

FALL RIVER, Mass. Aug. 29.—The examination of Bridget Sullivan in the Borden case was resumed Saturday. Witness said somebody was sick at the house Tuesday night. Mrs. Borden said she and Mr. Borden were sick all night. They had been vomiting and looked sick. When Lizzie came down she said she had been sick, but witness did not notice that she looked unwell. She had never seen Lizzie in the barn.

When witness came down stairs Lizzie told her she heard her father graning while she was in the back yard. When she came in she said the back door was open.

The witness was then subjected to a rigid cross-examination by Mr. Adams and adhered very closely to her previous story.

She went out Wednesday night, had a key for the rear door and returned alone about 10 o'clock; never had any man from Fall River visiting her at the Borden house; two or three mouths ago an out-of-town man called upon her; the lamp was lit when she returned Wednesday night; there was no gas in the house. Miss Lizzie said she was sick, but did not appear to have been sick. Witness then described what the family had to eat Wednesday. Emma and Lizzie went away the Thursday before the murder, and Lizzie came back the following Tuesday. Witness didn't think Lizzie left the house on the Saturday after the murder. The day before they were sick they had friad fish for dinner, and warmed over for supper. Wednesday they had the mutton soup warmed over that they had the day before. It was the next day that they complained of feeling ill. The night before I ate some of the mutton soup and the next morning I felt a little sick and went out in the back yard to vomit.

Witness went several times to the barn to get water for the windows. All the windows outside were washed before witness went inside. She had finished washing the windows nearest the hall when she heard someone at the front door; could not say that doorbell rang. When Mrs. Borden was in the house she answered the bell. When Mr. Borden was in he always answered it. When witness went in to wash the inside of the windows she could not say that Miss Lizzie was ironing down stairs. She began to iron when the witness was at work washing the windows inside the dining-room. All the locks of the front door were fastened when she went to open it. Miss Lizzie asked her if she was going out, and if so to be sure and fasten the door, as her father had been called to see a sick friend. The defence took unusual notice of this statement.

It was 10.55 o'clock when witness went upstairs. She was there about 10 or 15 minutes when Lizzie shouted to her. Lizzie was standing near the screen door leading into the yard when the witness went down stairs, and was not giving any signs of great grief. Witness then detailed her trips to Dr. Bowen's, Mrs. Churchill's, and Miss Russell's house. She remembered the piece of board in the yard. Never saw Emma or Lizzie go to the barn at any time, but they might have gone 25 times and she not notice it. Witness went downstairs shortly after the tragedy. The axes were found in a starch box back of the furnace. Could not tell what kind of a dress Lizzie had on. Saw no blood except that already spoken of.

Expressions of Opinion.

Since the close of the forenoon's testimony there has been a great deal of talk about the effect of the evidence put in thus far. The only new fact developed beyond the time of Bridget Sullivan's going and coming was that Miss Lizzie Borden was in the upper part of the house, near her mother's room, when Mr. Borden returned home and entered. It has been proved beyond question that the Borden home life was not all that would be expected in a family whose debts were paid, and whose means were more than $500,000. Warmed over mutton frequently served, and a daughter who did not dine with her father and mother, and who thus far has not been shown to have asked about her mother's health after a dangerous sickness, girls who for the most part lived in their rooms and said nothing of their going and coming—all these things are being discussed and are being commented on as giving strength to the Government's suspicions.

An official who stands high in the Government counsels was asked by a United Press reporter his opinion concerning the guilt or innocence of Lizzie Borden. He said in substance, "I have no hesitation in saying that I believe her guilty of the crime."

Being pressed for the ground on which his judgment was based, the official said it was largely founded on the evidence of Bridget Sullivan, although developments at the private examination which resulted in Lizzie's arrest were strongly condemnatory.

THE MINE EXPLOSION.

Forty-Seven of the Imprisoned Miners Rescued.

LONDON, Aug. 29.—All night long volunteer rescuing parties kept up their work at Park Slip pit, the scene of the disastrous explosion at Bridgend, Wales, yesterday. They worked with a will, and removed enormous quantities of debris from the mine. At 6 o'clock Saturday they had penetrated several yards into the main shafts. In all this distance not a sign of life was discovered, but here and there the body of a miner was found, its attitude showing how suddenly death had come to them. Some of the men had died in the act of using their picks. Ten bodies were recovered of men who did not have a second's warning of the fate hanging over them. All who were killed in this locality, however, had not met with instant death. The bodies of two miners were found who had apparently made frantic efforts to escape from the pit. They had been frustrated by the falling of the roof of the mine, and their bodies were terribly mutilated. Crushed to death, they were swept over by a raging fire that burned out many timber supports and their arms, legs and heads, that had not been protected by the fallen earth, were horribly burned. The rescuers are divided into relays. It is impossible for any of the volunteers to work for any length of time, as the mine is filled with afterdamp. It is thought that the bodies of the men who were working in the inner recesses of the mine will never be recovered.

The Dead Numbers 107.

LONDON, Aug 29.—Mr. Asquith, Home Secretary, Saturday visited the Parkslip pit at Bridgale, Wales, the scene of the disastrous explosion of Friday last. Mr. Arquith examined the mine machinery, conferred with the officers and questioned survivors. A despatch received last night says that only 41 miners have been rescued from the pit and that two have since died. Exploring parties are still searching the mine, though all hope of finding further survivers has been abandoned. The number of the dead is therefore placed at 107.

India's Reply to the Ameer.

SIMLA, Aug. 29.—The Indian Government, replying to the letter of the Ameer of Afghanistan declaring that the administration of the external affairs is in the hands of the British, and asking what he will do in regard to the Russian aggressions, has written expressing the hope that a cessation of the troubles between the Ameer and the Hazaras will enable the British Mission headed by General Roberts to visit the Ameer earlier than was expected. The letter of the Government also dwells upon the disturbances on the Indian frontier caused by Afghan agents, and demands the immediate removal of these agents.

DISASTROUS FIRE IN NEW YORK.

The Metropolitan, in New York, Very Badly Damaged.

NEW YORK, Aug. 29.—The Metropolitan Opera House, one of the most magnificent and expensive of modern play houses, occupying the entire block bounded by Broadway and Seventh-avenue, 39th and 40th-streets, was ruined by fire Saturday. The Broadway front was saved by the firemen, but fully three quarters of the structure was made havoc of by the flames. Just where the fire started is unknown, but it must have been in the vicinity of the stage, which backs on Seventh-avenue. How the flames managed to get such a headway without being discovered is also a problem which puzzles Fire Chief Bonner and his men.

During the summer the house has been chiefly used for amusements and was just used for a ball. The pine flooring had not been removed, and this, once ignited carried the fire to the main entrance. The interior of the theatre had been overhauled and was thoroughly fitted for the opening of the season which would have taken place in a short time.

Before 10 o'clock the roof had been burned through and the flames and smoke shot high into the air. This assisted the firemen materially in saving the Broadway front. Half an hour later, the flames having in the meantime eaten up everything before them, had literally burned themselves out and the fire was reported under control.

A $400,000 Fire.

AUGUSTA, Aug. 29.—A destructive fire broke out here at 2.30 yesterday morning. The Alander Drug and Seed Co., Fleming & Bowle's furniture warehouse, E. D. Smith's crockery store, and The Cronicle office were totally destroyed. Augusta Davis' clothing house was damaged. The loss is estimated at $400,000; insurance $300,000. The entire morning edition of The Chhronicle was worked off while the building was in flames. All the type and machinery was burned.

Fighting the Plague on the Continen

BERLIN, Aug. 29.—Delegates from all Federal States held a conference at Home Office Saturday on the subject of cholera. The president of the police ported that not a single case of Asi cholera had yet been certified to in Ber Statements were read from Dr. Koch Councillor Rants with a general rep covering the whole health condition Germany. Both the statements and report were reassuring, although P Koch thinks that the worst period of epidemic in Hamburg and Altona has yet passed.

The authorities of Hamburg and Alt are blamed for concealing the prese of the disease. The first outbreak curred in Hamburg as far back August 14, and at Altona August During a whole week vessels left Hamb under clear bills of health, although authorities knew the epidemic was stead growing worse. The Imperial health offi recognizing the value of the utmost publici is making arrangements to publish dail health record of Berlin and other centr reporting all cases of cholera and the k dred disease. Diarrhoeal disorders dysentery, which are rather rife there which are apt to alarm people, will have especial attention of the doctors.

Mr. Edwards, the American Consul G eral here, has taken the necessary steps keep the State Department at Washington formed of the situation throughout Germa The health officer promises to furnish h with all the information he receives. Charles F. Johnson, the consul at Hambu was visiting Berlin with his family, wh he learned that Hamburg had been tacked. He at once returned to his po Scrupulous care is now taken at Hamb The inspection is extending not [illegible] grants alone, but to the [illegible] of vess and all passengers. To-night's advi leave every populous place in Germany f from Asiatic cholera, except Hambu where Prof. Koch's predictions regardi the spread of the disease are being fulfill The plague has now spread over the wh city and to the suburbs. A doctor wit number of assistants has left Berlin to ass the Hamburg physicians. The ambulan service and the means for the rapid bur of the victims have been greatly augme ed. The exodus of the wealthier Hamb families is now proceeding on a large sca Many merchants would close their sho but are prevented through fear of adding the public depression, which wants little to become absolute panic. Wh many have fled other prosperous citiz are doing much personally and throu agents to relieve families who have b stricken, or who are menaced through w of nourishing food. Donations of fo disinfectables and medicaments plentiful. Brandy, in which t mass of the people believe, desp the doctors' opinions to the contrary supplied gratuitously, though in sm doses, at many places. Never in the hist of Hamburg has the hand of charity b so open.

The people of Berlin talk of forming absolute cordon around Hamburg, Alto and the mouths of the Elbe. This i cowardly and panicky idea and would be merciless restriction upon those within t cholera sphere, while in official opinion would be ineffective.

A sharp watch is kept upon cases occu ring in Hungary and Austria. A numb of cholera cases have been reported Wienerneustadt, at Bollenau in Aust and even in Vienna itself, where the pidity of the deaths is suggestive of Asia cholera. The health officer here relies i plicitly upon the official communicati regarding the disease received from Vien

EDITORIAL NOTES.

Some of our tory contemporaries are asserting that when Sir John Abbott retires from the premiership he will be succeeded by Hon. John Haggart. The choice would be a good one. Mr. Haggart would be an appropriate leader for that party, typifying as he does its principles, its policy, its ambitions, its statesmanship. By all means let Mr. Haggar be chosen.

The Montreal Gazette, the leading conservative paper in Quebec, says :—"If the foolish counsel to meet blow with blow were heeded, and Canada should deliberately seek a war of commercial reprisals by largely increasing the tolls on American traffic through the Welland Canal, the end would not conduce to the advantage of either country, because in the very nature of things our neighbors have quite as effective weapons of attack as ourselves." This is sensible talk, and a fitting rebuke to the fool journals like the Toronto News, Hamilton Spectator and several other papers, which demand that Canada shall retaliate now against the States.

"There are enough superintendents, deputy-superintendents and other officials on the Welland canal to run the whole canal system of the country. There is a superintendent for almost every deputy and a deputy for almost every locktender. There is room for a great deal of economy in the management of the Welland Canal." These are the words, not of a disloyal grit sheet but of a good tory journal, the St. Catharines Star. This shows how some of the money goes. The host of superfluous employees on the Intercolonial R. R. shows how more of its money goes. If the government ran the public business in the interests of the country instead of in the interests of impecunious tories they would be able to relieve the people of some of the heavy imposts under which they now so loudly groan.

British officers are now on their way to the Pacific coast for the purpose of inquiring into the facilities offered by the Canadian Pacific Railway for the transport of troops. The information which is being gathered is doubtless sought for in view of the threatening outlook on the northern frontier of India. Should war break out between Britain and Russia, Afghanistan will be the battleground and Canada's transcontinental highway will be the principal route by which the armed forces of the Mother Country will be moved to the field of action.

The Ladies Delighted.

The pleasant effect and the perfect safety with which ladies may use the liquid fruit laxative, Syrup of Figs, under all conditions make it their favorite remedy. It is pleasing to the eye and to the taste, gentle, yet effectual in acting on the kidneys, liver and bowels.

What Stronger Proof

Is needed of the merit of Hood's Sarsparilla than the hundreds of letters continually coming in telling of marvellous cures it has effected after all other remedies had failed? Truly, Hood's Sarsaparilla possesses peculiar curative power unknown to other medicines.

Interested People

Advertising a patent medicine in the peculiar way in which the proprietor of Kemp's Balsam for cough and colds does it is indeed wonderful. He authorized all druggists to give all those who call for it a sample bottle free, that they may try it before purchasing. The large bottles are 50c and $1. We certainly would advise a trial. It may save you from consumption.

A Pleasant Herb Drink

The best cure we know of for constipation and headache is the pleasant herb drink called Lane's Family Medicine. It is said to be Oregon grape root, combined with simple herbs, and is made ready for use by pouring boiling water onto the dried roots and herbs. It is remarkably efficacious in all blood disorders and is now the sovereign remedy with ladies for clearing up the complexion. Druggists sell the package at 50c and $1.

His Neck Was Broken.

KINGTON, Aug. 29.—On Thursday noon Secord Vanalstine, an old and well-known resident of Richmond, near Napanee, fell from a milk wagon, which he was driving and his neck was broken, killing him instantly. He was over 70 years of age and was once a prominent farmer. He was a veteran of 1837 and also a pensioner of the American Government. He has several children living in Napanee.

Attempt to Wreck a Train.

PITTSBURG, Pa., Aug. 29.—An attempt was made to wreck the east-bound Chicago and New York limited express on the Pennsylvania railroad near Enon, Pa., yesterday. Several ties and pieces of iron were found tied to the track by a farmer, who set to work to remove them and while engaged in doing so he was shot twice. He succeeded in clearing the track and the train passed in safety.

Died in a Carriage.

KINGSTON, Aug. 29.—Mr. and Mrs. Henry Goodwin and family started in their conveyance from there residence, near Northport, to attend church at Pictor. For all forms of female weakness Dr Williams' Pink Pills are an unfailing specific. Mr. Thomas Strachan, Postmaster, Roballion write :- My daughter has been ill for the last four years with female weakness, and had been attended by four of the best doctors in our section. She began the use of Dr. Williams Pink Pills, and two boxes have done her vastly more good than all the medicines she took from those doctors.

What She Said

Mrs. R. Peck, 15th street, New York City, visited Canada last year, and had the good fortune to pick up something which not only suited her, but her neighbors also. Writing the manufacture of Nerviline she says:—"I bought three bottles of Nerviline while in Canada and treated my neighbors to some of it, and all think it the best medicine for internal or external pain they have ever used." Nerviline deserves such commendation, for it is a most powerful, penetrating, and certain remedy for pain of all kinds. Take no substitute.

PAR the p of acting specifically upon the diseased organs, stimulating to action the dormant energies of the system, thereby removing disease. In fact, great is the power of the medicine to cleanse and purify that diseases of almost every name and nature are driven from the body. Mr. D. Carswell, Carswell P. O., Ont. writes: "I have tried Parmelee's Pills and find them an excellent medicine, and one that will sell well."

A Cure For Constipation And Headache

Dr. Silas Lane while in the Rocky Mountains discovered a root that when combined with other herbs makes an easy and certain cure for constipation. It is in the form of dry roots and leaves, and is known as Lane's Family Medicine. It will cure sick headache in one night. For the blood, liver and kidneys, and for clearing up the complexion it does wonders. Druggists sell it at 50 cents a package

Weighed in the balance, but not found wanting. Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure has been weighed in that just balance, the experience of an impartial and intelligent public. Both remedially and pecuniarily it is a success. Its sales constantly increase, testimony in its favor is daily pouring in. The question of its efficacy in Dyspepsia, Liver complaint, Kidney Ailments, and for Blood Impurity is decided

Now is the time to take a good tonic medicine. Hood's Sarsaparilla possesses the greatest merit, and has a similar fame.

Cured Female Weakness

Mr. Hugh Caldwell, Clydesdale, Ont, writes:—"My daughter was under the care of doctors for more than a year for female weakness, without getting relief. I then procured Pink Pills and they cured her." All dealers 50 cents a box or 6 boxes for 2.60, or mailed on receipt of price. Dr. Williams' Med. Co.. Brockville, Ont., and Schenectady, N. Y.

Prince Imperial, 12350, Record 2:27 12

Will stand at Windsor House Belleville every Wednesday night and Thursday, and at St. Lawrence, Hall, Trenton Thursday night until Friday noon. For further particulars apply to A. HUDGINS or to G H Sprung, Picton Ont.

The highest praise has been won by Hood's Pills for their easy, yet efficient action.

As an after dinner pill, to strengthen the stomach, assist digestion, and correct any bilious tendencies, Ayer's pills are considered the best. Being sugar coated, they are as agreeable as any confection, and may be taken by the most delicate.

"How Mr. W. D. Wentz of Geneva, N.Y., was cured of the severest form of dyspepsia? He says everything he ate seemed like pouring melted lead into his stomach. Hood's Sarsaparilla effected a perfect cure. Full particulars will be sent if you write C Hood & Co., Lowell, Mass.

two sailors suffering from cholera symptoms. They were removed to the floating hospital and the Talavera was towed to the quarantine station.

As no further cases of cholera have appeared among the passengers of the steamship Gamma at Gravesend from Hamburg, the immigrants have been allowed to disembark. However as a further precaution they will be obliged to remain three days more under canvas on the grounds of the Gravesend Hospital.

A Case at Middlesborough.

LONDON, Aug. 29.—The steamer Gerona arrived at Middlesborough Saturday from Hamburg and as there was no sickness aboard the crew was allowed to disembark, but subsequently one of the seamen was seized with cholera, and the Gerona was then placed in quarantine. The stricken seaman died to-night.

Latest Returns from Hamburg.

HAMBURG, Aug. 29.—The official returns show that on Friday there were reported in this city 416 new cases of cholera and 150 deaths. Up to noon yesterday 128 new cases and 55 deaths were reported, but the returns are not complete. Prayers were offered in all the churches to-day for a cessation of the scourge. Whole households have been sent to the cholera hospital. Relief committees have been formed and appeals for subscriptions have been issued throughout the city.

SIR HENRY TYLER'S VISIT.

He Does Not Think the Bonding Privilege Will Be Withdrawn.

MONTREAL, Aug. 29.—Callers detained Sir Henry Tyler in his rooms at the Windsor until 10 o'clock Saturday forenoon. All found the President of the Grand Trunk Railway as genial and approachable as ever and looking not a bit the worse for the year that had passed over his head since he last visited his great railway system.

Of course, Sir Henry was asked in what condition he found the road. He replied that its condition was first-class. "Physically," he said, "the road is about perfect. What we wish is to see Canada prosper, for we know that our road will prosper with it."

He wished to know what other enterprise had done more for Canada during the past forty years than the Grand Trunk, and the little pause he made at the conclusion of that remark seemed to imply that none could be named.

The threat of a withdrawal by the Americans of the bonding privilege appears to be no bugaboo to Sir Henry. He did not fear its being done. Chicago and the American west, as well as all of New England, were too deeply interested in the traffic of the Grand Trunk to quietly stand by and permit the American Government to injure their own people by such action. At least it would have to be a remarkably strong Government that would carry.

"Probably all this retaliation talk," observed Sir Henry, "will gain Mr. Harrison a few more votes; that is all. Judging from past events, we know what all these things mean, especially on the eve of an election."

Once again Sir Henry stated that the rumor of amalgamation with the C. P. R. was unfounded and altogether out of the question.

His attention was called to the discussion of some time ago respecting the advisability of transferring the head office of the G.T.R. from England to Canada. Sir Henry remarked that it must be borne in mind that the Grand Trunk was almost wholly owned in England, and surely the owners would wish to have control of their property. The change suggested would be unfair to them.

He spoke of the beautiful township country through which he passed in coming up from Portland and he thought that in time it would contain many fine residential places.

Sir Henry Tyler appears to be in the best of health and spirits. He does not expect to sail for England until Oct. 8.

A Body Refused Burial.

KINGSTON, Aug. 29.—The body of a young woman named Minnie Kemp was brought here the other day from Gouverneur, N.Y., and the usual service was held at St. Mary's Cathedral. The funeral party then started for Railton, a country parish, intending to have the remains buried in the Roman Catholic cemetery there. When about half way out they met the clergyman, who was coming in on the stage. It is stated that he refused the burial rites of his church, and informed the mourners that the interment would have to take place in the Protestant burying ground, where it accordingly did occur.

"August Flower"

"I inherit some tendency to Dyspepsia from my mother. I suffered two years in this way; consulted a number of doctors. They did me no good. I then used your August Flower and it was just two days when I felt great relief. I soon got so that I could sleep and eat, and I felt that I was well. That was three years ago, and I am still first-class. I am never without a bottle, and if I feel constipated the least particle a dose or two of August Flower does the work. The beauty of the medicine is, that you can stop the use of it without any bad effects on the system. While I was sick I felt everything it seemed to me a man could feel. I was of all men most miserable. I can say, in conclusion, that I believe August Flower will cure anyone of indigestion, if taken with judgment. A. M. Weed, 229 Bellefontaine St., Indianapolis. RIVALS FOR LEADERSHIP

ROSEBERY AND HARCOURT WANT THE HONOR.

The Russians in the Pamirs—A Report That Prince Esterhazy Was a Sufferer From Cholera—Harvest Prospects Not Bright and Hard Times for Agriculturists are Expected.

NEW YORK, Aug. 29.—Mr. Lucy's London despatch to The Tribune contains the following: With that charming freedom from prejudice which marks an enterprising news agency one has telegraphed to Hawarden with the genial inquiry as to whether it is true that Mr. Gladstone intends retiring from the Premiership in the spring. The Premier gravely replies that the rumor is entirely groundless. There are, nevertheless, a considerable number of people, chiefly on the Conservative side, who comfort themselves with the assurance that such conclusion is inevitable. With grim particularity they fix Easter as the date of Mr. Gladstone's breakdown, and ask each other what will happen as to the leadership of the party and the destinies of Home Rule. It is foreseen that a struggle for Elijah's mantle will take place between Lord Rosebery and Sir William Harcourt. Lord Rosebery is heavily handicapped by his peerage. The Radicals determined never again to have a premier in the House of Lords. Mr. Labouchere has already openly declared in favor of Sir William Harcourt.

The Cloud in the East.

There is a cloud in the East no bigger just now than a man's hand, but which has uncomfortable reminiscences of what was known as the Penjdeh incident. The restless Russians, ever creeping on toward Central Asia, have pushed forward into the Pamirs, and there encountered the Afghan troops. The Ameer has reported the incident to the Indian Government and claimed assistance. It may be all a mistake. It probably will be so described and dealt with upon receipt of the representations from the British Government, but it may drag on as the Penjdeh incident did. At best it is an uncomfortable inauguration of Lord Rosebery's Foreign Secretaryship.

The Cholera Scare.

Cholera, after hovering round all the ports on the east and southern coasts, has at last uplifted its head in London. According to the earliest report, it struck high, Prince Esterhazy, military attache to the Austro-Hungarian Embassy, being said to be down with the plague. This unpleasant and embarrassing rumor was subsequently contradicted. The Prince is said to be ill of something quite different. There is no doubt about the nature of the attack on a woman named Hurley, living in New-Cut, Lambeth, one of the most densely crowded quarters in the metropolis. The local authorities everywhere are on the alert. To-day an extraordinary meeting of the Metropolitan Asylums Board was held to consider the situation and take steps for protecting London. At all the ports the sanitary authorities are on the watch night and day. Every ship is boarded on arrival, and the passengers and crew thoroughly examined. Where, as at Lynn last night, vessels are found with choleraic symptoms on board, they are ordered back to sea. What becomes of them then, heaven only knows. No port will take them in. They become pariahs of the ocean, cruising up and down till all are dead or some are better. For London, the magnet of attraction for all Continental nations, the danger of infection is peculiarly great. The journey between the infected districts and Charing Cross is so short that travelers passed at the port of arrival as healthy may sicken on their arrival at their hotel and so plant contagion in the midst of a teeming population.

A Bad Harvest.

The fine weather, occasionally varied by thunderstorms, now prevalent, improves the harvest prospects, though coming too late to greatly vary the general conclusions. These point to bad times for agriculturists. The barley crop is considerably above the average, but wheat is sadly below. As for hay, the harvest is the worst for many years, both in quantity and quality. It clear that the necessity for large importations of wheat will weigh upon the country. Fortunately it happens that the imports of last year were above the average, 22,000,000 quarters being imported, with the result that the country enters upon the new season with 2,000,000 quarters of supply above the normal stock. The consequence of this accident will be that the imports for the coming year, estimated not to exceed 20,000,000 quarters, will be 2,000,000 less than was needed last year.

Fire in Dublin.

DUBLIN, Aug. 29.—The South Dublin market was burned yesterday. Adjoining the market stood Warren's Hotel, which was crowded with guests. The fire communicated to the hotel and in a short time the whole structure was wiped in flames. The guests were panic stricken and fled in every direction. Many narrowly escaped with their lives. Loss £120,000.

Labouchere Sarcastic.

LONDON, Aug. 29.—Henry Labouchere has written a letter to Mr. Gladstone complimenting him upon his chivalry in accepting the sole responsibility for the arrangement of the Ministry.

Neill Committed For Trial.

LONDON, Aug. 29.—Thomas Neill, indited for the murder of Matilda Clover, was again arraigned Saturday. A witness swore the prisoner had confessed his giving poison to women. He was committed for trial for murder and blackmail.

An Ex-Captain Charged With Forgery.

LONDON, Aug. 29.—Scott Sanders, ex-captain of the Fusiliers, has been arrested on the charge of forging a check for £3700 in the name of Lord Londesborough. It is stated that Sanders' stealings amount to £200,000. He had booked passages for himself and a lady to the West Indies.

Masonic Relief.

LONDON, Aug. 29.—At the next meeting of the Masonic Grand Lodge the Prince of Wales will move a grant of £300 to the Lord Mayor's fund for the St. John's fire sufferers.

Not Chargeable to Fanaticism.

CONSTANTINOPLE, Aug. 29.—The Porte recently ordered an investigation to be made into the burning of the house of the Rev. Mr. Bartlett, an American missionary at Bourdom, Asia Minor, and a report has been received showing that the destruction of the dwelling was due to the carelessness of an American servant and not to the fanaticism of the natives.

The First Death at Rotterdam.

ROTTERDAM, Aug. 29.—The first death from cholera occurred Saturday morning. The victim was a woman.

Ta-ra-rah.

LONDON Aug. 29.—Lottie Collins, the well-known music hall singer, sailed yesterday for New York.

All through the Provinces the rapid increase of La Grippe, is causing great alarm. A report was received here to-day, of a new development of the disease, which is worse, perhaps than any other. Wm. Hanley of N. Y. City, died in terrible agony after sickness of only four days, His tongue swelled to such an extent as to make it impossible for him to close his jaws or swallow any food. The report is causing the people in this district to rush into the noted Grip-cure, recently referred to in so many papers. In Cape Breton the disease has spread very rapidly and with fatal results, D. J. McKillop of L'Archeveque writes Feb. 11th that this cure has been tried in his neighborhood and with such success that all those residing there are obtaining a supply believing it to be the only remedy affording relief and effecting a certain cure. He finished his letter by asking for a large quantity of the Medicine (Dr. Morse's Indian Root Pills) to supply the demands of the community for the relief of LaGrippe.

For You r O

GENTLEMAN One of my little girls aged 4 years) had been troubled with costiveness in its worst form since infancy. We tried different remedies which gave relief while using, but as soon as discontinued she would be worse than before using. She lost her appetite and was growing weak and delicate. A friend of mine who had used B B B with grand results for the same disease advised me to try it, and also the Burdock Pills, which we did. She did not take the contents of one bottle before it relieved her, and not only relieved her but permanently cured her, for she has not been troubled once since, and she is now eight years old

A Question

How can we raise more corn to the acher? Why, of course by using Putman's Corn Extractor. Putnam's Painless Corn Extractor has given universal satisfaction, for it is safe, sure and painless. Like every article of real merit it has a host of imitators, and we would specially warn the public to guard against these dangerous substitutes offered for the genuine, Putman's Extractor. N. C. Best Cure For

All disorders of the Throat and Lungs is **Ayer's Cherry Pectoral.** It has no equal as a cough-cure.

Bronchitis

"When I was a boy, I had a bronchial trouble of such a persistent and stubborn character, that the doctor pronounced it incurable with ordinary remedies, but recommended me to try Ayer's Cherry Pectoral. I did so, and one bottle cured me. For the last fifteen years, I have used this preparation with good effect whenever I take a bad cold, and I know of numbers of people who keep it in the house all the time, not considering it safe to be without it."—J. C. Woodson, P.M., Forest Hill, W. Va.

Cough

"For more than twenty-five years, I was a sufferer from lung trouble, attended with coughing so severe at times as to cause hemorrhage, the paroxysms frequently lasting three or four hours. I was induced to try Ayer's Cherry Pectoral, and after taking four bottles, was thoroughly cured."—Franz Hoffman, Clay Centre, Kans.

La Grippe

"Last spring I was taken down with la grippe. At times I was completely prostrated, and so difficult was my breathing that my breast seemed as if confined in an iron cage. I procured a bottle of Ayer's Cherry Pectoral, and no sooner had I began taking it than relief followed. I could not believe that the effect would be so rapid and the cure so complete."—W. H. IMPORTANT JUDGMENT.

OF INTEREST TO ALL CHEESEMEN AND PATRONS OF FACTORIES.

The Refuse from Hog Pens at Factories Declared a Nuisance—It is Injurious to Health and Deteriorates the Cheese.

Much interest has been aroused in the cases entered against the East Hastings Cheese factory for maintaining a nuisance in the form of a hog pen, the refuse from which it was claimed contaminated the river, vitiated the air and deteriorated the quality of the cheese. Following is Police Magistrate Flint's judgment on the first case :

In this case the defendants are charged for that they did deposit hog manure in the river Moira, contrary to the public health by-law. An application has been made to amend the summons by charging that the deposit was upon the river bank. I allow the amendment under the evidence given. The complainant is entitled under the law. The defendants maintain upon their premises hog pens in which a large number of hogs are kept. The refuse is raked into a trench then into leaders which carry it to a point variously estimated from twenty to forty feet from the river where it is deposited on the land.

The land slopes and according to Garretts and Emerson's testimonies the refuse finds its way way to the river.

Lewis is the company's agent and directs the course of the refuse until it is deposited on the ground there to remain until it either finds its way to the river, evaporates or sinks into the soil. It appears that two years ago the Board of Health upon complaint investigated the question as to the state of the pens and directed that disinfectants of copperas and lime should be freely used and the leaders extended in order to carry away the refuse to a point farther from complainant's residence.

Lime was used the first year, but no disinfectant whatever since that time. The defendants contend that they are not responsible in this case as they followed the direction of the Board of Health The Sanitary Inspector, Dr. Falkiner, clearly states that the refuse should have been removed and not allowed to accumulate and his recollection is that the Board so directed.

It is clear the defendants had no right to deposit the refuse on the river bank or on their lot. The law is express upon this point. Much time and evidence was expended in order to ascertain if the place of deposit was the river bank. At low water it is clear the place of deposit would be distant from the water, at high water the place of deposit would be submerged. I think that the boundaries which confined the bed of the river at low water and which are unquestionably banks cannot be considered the banks of the river at high water mark. I think that as the evidence proves the deposits of the refuse at a point upon defendant's premise, which at high water, would be carried away, that I must hold the place of deposit to be the bank. If the bank at low water is to be considered the only bank of the river than at high water mark the bank of the river would have to be held to be a piece of land submerged five or six feet. I think what is at one time the bank at another time may not be the bank. The intention of the law was that refuse should not be placed on the bank of a river where the probabilities were that it would find its way into the river. Here the defendants placed it at a point where they well knew at high water it would flow into the river. The keeping of the manure on their lot any where was a violation of the law. Did I not think the case charged made out by the evidence, I should feel bound to amend the proceedings under the evidence and charge the defendants with allowing the accumulation upon their lot. Lewis, defendant's agent in his evidence stated he would call the place of deposit the river bank. Subsequently upon another day he declared he could not say whether it was or was not the bank. The case may be summed up as follows :—The law declares that no one shall deposit on the river bank or on their lot manure. The defendants place their hog manure on their lot at a place where the high water carries it into the river. The defendants cannot rely upon the direction of the Board of Health to escape conviction. The Board never contemplated that the defendants would disobey the plain law of the land and allow this manure to accumulate. The Board did direct the leaders to be extended but for another purpose namely to remove the odour from Mr. Ketcheson, the complainant, but the Board had every reason to expect that the company would not allow the manure to be deposited contrary to law. If the direction of the board involved violation of the law the defendants were bound to disobey that direction. Dr. Falkner, the sanitary inspector, distinctly declares that the manure was to be removed.

There is another excellent reason why this wise provision of the Public Health by-law should be observed. Milk is a liquid which absorbs impurities quickly. there is probably no liquid which can be contaminated so easily. The effluvia emitted by one hundred and fifty to two hundred hogs and their refuse must certainly contaminate milk. If the milk was deterioated the cheese manufactured must necessarily contain impurities. It is no answer that the cheese manufactured is good and high class, impurities absorbed might not be detected from taste or colour but would still be present and be conveyed into the bodies of the consumers. It is therefore clear that the defendants are wrong in permitting this refuse to accumulate and that it must be removed.

I therefore convict defendants and I hold that it was not necessary that the twenty-four hours notice mentioned in the by-law should be given.

I fine the defendants $5, and $9 costs which sums I direct be levied from defendants in the usual way and to be paid forthwith.

AN ATTEMPTED RAPE.

A VILLIANOUS ASSAULT ON TWO DEFENCELESS GIRLS

A Gains an Entrance Into a House at an Early Hour in the Morning and Attempts to Ravish a Young Lady

Trenton a few nights ago was startled by one of the most dastardly and criminal assaults ever reported in Hastings county, if not in Ontario. About 2,30 that morning residents in the east end were awakened by cries of Help ! Help ! Murder ! And a young lady could be soon half out of the window in her desperate effort to attract assistance. Several men ran towards the house and as they did so they saw a figure hurriedly leave the building and disappear through an alley-way. An entrance was affected to the house and hastening up stairs the men found two young girls lying unconscious on a bed room floor clad in their night clothes. When the girls had sufficiently revived they told the following story, which for audacity and coolness eclipses there ord. It appears that Miss Majeau and a friend were sleeping in a room upstairs in the Majeau house the rest of the family having gone camping. At an early hour their door was noiselessly opened and a man hastily stepped inside. After listening awhile he walked stealthily over to the bed on which the two innocent young ladies were sleeping. When sufficiently near to serve his purpose the villian stopped and with one desperate spring leaped onto the form of Miss Majeau. The fiend apparently did not know that the bed contained two occupants. He clapped his hand over Miss Majeau's mouth to prevent any outcry. By this time Miss Edgar was awake and slipping out of the other side of the bed, ran to the window and called for help. The man, with a curse, leaped from his victim and darted down stairs and escaped through the door. The case has been handed over to Chief of Police Hinds. Suspicion rests on a certain young man of the town, who was on the scene a few minutes after the cries were heard. The fact that he was all dressed is suspicious and will form a clue to a careful investigation on the par of the police.

A PATHETIC EPISODE

The Only Child of two Immigrants from Belgium Dies on the Train

A pathetic episode occurred this morning on the No. 3 train from the east. Julien Poucet and his wife, with a four months old baby left Angers, Belgium, a few days ago for Kansas, where they intend to settle. In the vessel on the way over the child was vaccinated and from the effects of the vaccine it never recovered. Blood poisoning had apparently set in and on the train when approaching Belleville the baby died in convulsions. The parents, whose grief was pitiful to see, got off the train at the station here, but the cabmen refused to drive them to a hotel, evidently fearing that the child had died from cholera or some other contagious disease. The parents could not speak a word of English, but understood French, and a Frenchman named Legault was sent for and took them in charge, and is deserving of great credit for the efforts he put forth in their behalf. Dr. Tracy was summoned and relieved all anxiety as to the nature of the disease, and undertaker John G. Frost was given charge of the body, which was interred to-day. The parents left on the next train for the west, sobbing bitterly over the pitiless fate that had befallen their only child.

THE PRICE OF BREAD.

It Takes a Drop To-day—A Suggestion to the Bakers.

Considerable comment has been aroused in the city about the remarks made in the ONTARIO with reference to the price of bread, and the attention called to the matter has already produced its effect, for to-day the price drops down to 10 cents a loaf. This is a big enough price for the quality of bread supplied. We are informed that the bread sold so cheap in Trenton and Shannonville is of an inferior quality, and probably the price paid is all or more than it is worth. What the people of Belleville want are two grades of bread, a grade such as is now supplied at a cost of say 10 cents a loaf, and a higher grade at a higher price. Those then who wished first class bread and were willing to pay for it could have it while those who wished a cheaper grade could also be accommodated. These higher grades at a higher price are supplied in Toronto and other cities and it would pay the bakers of Belleville to follow their example in this respect.

THE WEST END KICK

They will Have Light if it Takes Blood

Mr. Kleingbeil, living on the corner of Parker street and the boundary line in West Belleville has made a complaint to the police that the coal oil lamp in front of his house was seldom lit. Officer Cook has made it his business to investigate the facts and has found that on the three nights in which he visited the locality the lamp was not lit. What is the lighting committee doing ?

Ald. Luscombe called on the ONTARIO to-day and stated that as chairman of the lighting committee he had no more authority then Ald. Hopkins or any other member of that body. He says he has frequently asked the residents in the west end to lay a written complaint before the committee and it would be promptly dealt with. To day he sent word to Robt. McCoy to either fulfil his contract or resign at once. The alderman says he is alive to the grievances and that the residents have good cause for complaint. The lighting has been getting worse and worse until no effort is now made to light any of the lamps.

A BLOW AT THE COMBINE

Dicision Against the Grasping Reading Combination

At Trenton, N. J.—Chancellor McGill late this afternoon filed an opinion in the great Reading combine suit. It covers 25 pages of closely typewritten legal cap and is a voluminous document. He grants the preliminary injunction asked for by the Attorney-General, continues the restraining order heretofore granted and in addition enjoins the Port Reading Company from operating the Central Railroad Company and ordering the Central Company to operate its on line and retake its own property. The decision is a sweeping one in favor of the State.

Horse races at the Belleville Driving Park on Wednesday Aug. 31st and Sept. 1st

It is not unlikely that the Belleville quoit club will challenge the Kingston team for $100 a side.

Bradford, Thompson, Howe and Downs go to Kingston to-morrow with the Stars of Trenton to play the Princess St. club.

The trotting horse Fawn, of Kingston will enter the three minute class at the races here on Wednesday and Tuesday.

Pat Clark says he will back Mr. Thompson, of Newburg, for $100 against Claus, the Belleville quoit pitcher.—Kingston News.

The Whig a few days ago stated that Kingston had found Todd and would pitch him against F. Claus, of the Belleville Quoit Club for $100 a side or as much as the Belleville man wanted to put up. Officer Mason stated to a reporter today that as yet Claus' challenge had not been accepted.

Everything points to a successful meeting on the Belleville Driving Park on Wednesday and Thursday. The weather is favorable and the track will be in good condition. As a local institution the races should be patronized in preference to a ball game between two outside clubs.

W. W. Power, of the Queen's Hotel when he received word from Cobourg that they would play the Princess Street nine of Kingston at Belleville on Wednesday of this week, at once telegraphed to have the match postponed on account of the horse races here on the same date. Cobourg replied that it was the only day that Kingston would play and they were compelled to accept the date.

DROPPED DEAD ON THE STREET

The Awfully Sudden Death of W S Yates

On Saturday afternoon W. S. Yates, while walking on Church street was taken suddenly ill and dropped on the street. He recovered sufficiently in a few minutes to get up, but on George street he again fell down and in a few minutes expired. Mrs. Corbett, who passed along a few minutes later recognized him and after closing his eyes went to inform his friends. The deceased was a retired farmer and has for the last five years kept a boarding house on Bridge street. He was afflicted with heart disease, and has been in very poor health all summer. Not long ago he told his family that they would probably find him lying dead sometime, and his premonition has come true. He was born and has always lived in Sidney township. He married Miss Vandervoort, of Sidney, and she survives him, as do four daughters, Mrs. Lawrence and Mrs. Vanderwaters, of Sidney and two at home unmarried.

POOR CROPS

Prospects are not as Encouraging as was First Supposed

The prospects for a big harvest in the Bay of Quinte section is not so encouraging as it seemed earlier in the season while the grain was still in stalk. While there is an unprecedented quantity of straw the yield of grain does not come up to the average in several instances brought to the knowledge of the ONTARIO. A. A. Thrasher a well-to-do farmer living in the second concession of Sidney thrashed last week and was disappointed in the yield of grain. Out of sixteen loads of peas only 114 bushels were realized, and out of six loads of oats only 78 bushels threshed out With the exception of barley Mr. Thrasher's crop has been below the average and not half as large as he expected.

Mr. Robert W. Denvir

An Exempt Fireman of Jackson Engine Co., Long Island City, N. Y., says that at Christmas, 1890, he could only take a smell of dinner, as he was in a fearful condition from **Dyspepsia.** The next summer he went to Europe for his health, but came home uncured. In the fall he decided upon a thorough trial of

Hood's Sarsaparilla

And by Christmas had a hearty appetite, healthy digestion, and was perfectly well. His cure was due wholly to Hood's Sarsaparilla.

HOOD'S PILLS cure liver ills, constipation, biliousness, jaundice, and sick headache. Try them.

A PROLIFIC SOURCE OF DISEASE.—trifling indiscretion in diet may lay the foundation of confirmed dyspepsia, and there is no fact in medical science more positively ascertained or more authoritatively asserted than that dyspepsia is the parent of a host of bodily ills, not the least of which is contamination of the blood and the maladies of which that is the direct consequence. The original cause s however thoroughly eradicated from the system b[illegible] Lyman's Vegetable Discovery and Dyspeptic Cure, a medicine which only requires regularity and persistence in it use to cure dyspepsia and many other ills that arise from it. No deleterious mineral ingredient is contained in it, and though its action is thorough in cases of costiveness it never produces griping pains in the abdominal region, or weakens the bowels like a violent purgative. It invigorates the system through the medium of the increased digestive and assimilative activity which it promotes and is also a most efficient remedy for kidney disease scrofulous and all diseases of the blood femole weakness, &c., &c Price $1.00 Sample bottle 10 cents. Ask for Northrup & Lyman's Vegetable Discovery and Dyspeptic Cure. The wrapper bears a fac-simile of their signature. Sold by all medicine dealers.

It you have a cough or cold do not neglect it; many without a trace of that hereditary disease have drifted into a consumptive grave by neglecting, what was only a slight cold. Had the used Bickle's Anti-Consumptive Syrup before it was too late their lives would have been spared. Mr. A, W. Levy Mitchell, writes. "I think Bickel's Anti-Consumptive Syrup the best preparation on the market for coughs and severe colds. About six years ago I caught severe cold which settled on my lungs, and for three months I had a cought. I had a physician attending me, but gradually grew worse until I was on the verge of Consumption, and had given up hopes of being cured, when I was induced to try Bickel's Syrup. Before I had taken one bottle I found myself greatly relieved, and by the time I had finished the second bottle I was completely cured. I always recommend it for severe colds and consumption."

THE CHOLERA SPREADING

MANY DEATHS IN ENGLAND, SCOTLAND AND WALES.

London in a State of Alarm Because of Other Cases of the Pest—An Ever-Growing Mortality List—Precautionary Measures in England.

LONDON, Aug. 30.—If all the deaths that are being reported from Asiatic cholera are true there is no doubt of Great Britain's having a visitation of the dread scourge. From Gravesend, Swansea, Glasgow and Dundee, towns in England, Scotland and Wales, reports come of deaths from the disease, showing that all the efforts of the health officials to keep it out of the country have proved fruitless.

This afternoon it was reported that a person had died from Asiatic cholera in Bolton, the large manufacturing town which lies 12 miles northwest of Manchester. The place is one of the principal seats of the English cotton manufactures and thousands of mill employes live there.

The permission given by the health officials at Middlesborough for the landing of the crew of the steamer Gama from Hamburg promises to have most serious results. The vessel was placed in quarantine after one of the crew had been attacked by cholera, but in the meantime a number of the ship's company had departed for their homes. Six of them went to Dundee, among others Walker, the engineer of the Gama. Shortly after his arrival there he was taken sick and died in a few hours. The physician who attended him says there is no doubt that his death was due to cholera.

Steps were at once taken by the health officers to isolate the other five of the crew in Dundee and the rest in Aberdeen.

Another member of the Gama's crew who went to South Shields to-day was found to be suffering from cholera.

A sailor arrived at Swansea from Cork to-day. He was found to be suffering from cholera and was immediately removed to the cholera hospital.

The Local Government Board to-night issued regulations requiring ship owners under heavy penalties to retain aboard ship all foreign immigrants who are unable to inform the port medical officer to watch them until all danger of cholera is passed. No immigrant in a dirty condition will be allowed to land until all the sanitary regulations are complied with. The order will be rigidly executed. It will not interfere with emigrants in transit across England en route for America.

Gravesend Excited.

A steamer belonging to the same company as the Porita has been in quarantine at Cuxhaven on the Elbe, for a week, owing to two deaths from cholera having occurred on board of her. This steamer is expected to arrive at Gravesend to-night with a large number of poor immigrants. The inhabitants of Gravesend are awaiting her arrival with much apprehension.

Gravesend is 20 miles from London and is a holiday resort. Immense crowds of excursionists from London visit the place. The sanitary system of the town is antiquated and will prove an excellent factor in spreading the disease.

Cholera has spread to a number of suburbs of Hamburg. Eight cases were reported at Bremen, two at Hall in Prussian Saxony, and several cases at Ferver, near Magdeburg.

Cholera has also reached Merv, in Turkestan, and a panic prevails there.

Sixty new cases and 24 deaths were reported at Havre yesterday.

A stoker belonging to the steamer Urania from Hamburg has died from cholera at Amsterdam.

At Cronstadt, Russia, three cases and one death were reported.

Seven cholera patients are in the hospital at Antwerp, some of them are in a serious condition. Only two new cases have been reported since Friday.

The official cholera returns from all infected districts in Russia show that on Friday 4767 new cases and 3234 deaths were reported. In St. Petersburg yesterday 125 new cases were reported, while the deaths numbered 15.

Complaints are being made at Southampton that in view of the danger of infection to trans-Atlantic and other steamers as well as to the ports the authorities are not taking adequate precautions to guard against cholera. Fishing vessels arriving from infected ports such as Havre enter Southampton without inspection.

Thirteen cholera patients have been admitted to the hospital at Bremen. Five of the cases were certified to as Asiatic cholera. One patient died.

The official cholera statistics of Hamburg place the number of new cases on Saturday at 435 and the number of deaths at 145. On Sunday and up to noon to-day 148 new cases had developed, with 67 deaths.

A dispatch from Vladikavkas, capital of the Government of Terek, Russia, says that every town and village in the Government is affected with cholera.

In Altona 77 new cases and 33 deaths were reported from noon Saturday to noon to-day.

The decrease of the disease in Hamburg and Altona has been most noticeable since midnight last night. Isolated cases have been reported from the various suburbs of Hamburg.

At Wandsbeck, a summer resort of merchants, there were nine cases and five deaths up to Saturday evening.

Eight cases of true Asiatic cholera have been certified to in the hospital at Bremen.

Two fresh cases of cholera and two deaths from the disease were reported at Antwerp to-day.

Precautions in New York.

NEW YORK, Aug. 30.—Several steamships arrived here to-day and were detained at quarantine. All the passengers were submitted to a searching investigation and the vessels' baggage and mails disinfected. No evidences of cholera were found. The vessels were released and proceeded to their docks.

The report that cholera has broken out in Havana, although not believed, has decided the quarantine officials to be more careful about the steamships coming from that port.

The United States consuls at Glasgow and Liverpool have advised the State Department of the presence of cholera at these points.

THE CHOLERA IN CANADA.

Precautionary Measures Adopted in Toronto—The Previous Epidemic.

In view of the probability of an outbreak of cholera on this continent the Executive of the International Conference of State Health Boards will meet in Toronto to-morrow. The commission which begins its work at Toronto was appointed to inspect all quarantine stations of the United States, Canada and Mexico, with instructions to report to the International board. The following is the committee of experts who will do this work: Dr. J. N. McCormack, Bowling Green, Ky.; Dr. B. H. Baker, Lansing, Mich.; Dr. Irving Watson, Concord, N. H.; Dr. P. H. Bryce, Toronto, Ont.; Dr. Joseph Holt, New Orleans; J. H. Laine, Sacramento; Dr. Domingo Orvanos, City of Mexico. The first five named will inspect the quarantine stations from Quebec to Galveston, Tex. Dr. Laine will look after the stations along the Gulf and Dr. Orvanos those on the Pacific slope.

This is an opportune time to review the ravages of cholera, especially in connection with Canada and Toronto.

Some Former Epidemics.

The principal cholera outbreaks during the present century were in the years 1817-19, 1829-31, 1841-43, 1853-55, 1865-67. India is the chief seat of the outbreaks which generally coincided with the holding of the great Hindoo pilgrimages.

In 1826 cholera broke out in India at Hurdwar, the great centre of the pilgrimage, at which several millions of souls assemble every twelfth year. The pilgrims again carried it through the country, and it took the great northwest central Asiatic caravan route, reaching Orenburg in Russia, Aug 26, 1829. It reached Moscow and spread throughout the north and west. At Riga, on the Baltic, it took passage upon 60 or 70 British coal vessels, which bore it to Sunderland and Newcastle. It was also conveyed by Russian troops, then engaged with the Polish revolution of 1830-31, to Warsaw and thence to Posen, Berlin, Hamburg and London, afflicting each member of the United Kingdom. Irish emigrants brought it to Quebec in 1832, whence it spread throughout the country up to Detroit, rendering incapable the entire force of soldiers going by way of the lakes to the Black Hawk War, one regiment losing over 200 men in a week. It was carried west and south, reaching New Orleans, where some 6000 deaths took place out of a population of 55,000.

The epidemic of 1841 began in lower Bengal, over-ran India, visited Afghanistan in 1844, Persia and Meshed in 1845, Teheran in 1846 and visited Astrakhan in Russia, July 30, 1847. It also visited Trebizond and Poti, Constantinople and Odessa, passing up the Danube to Germany and thence to Holland and England.

Carried by Immigrants.

In 1848 German immigrants carried it to Havre and thence to New Orleans, from which it spread as far west as San Francisco.

Another great epidemic commenced in India in April, 1865, and by railroads and steamboats traveled widely, reaching Italy, England and France, and passing from Havre to America, where it preyed upon the population in almost every quarter of the United States.

Since that time the plague has been kept off this continent by strict quarantine. The climax of another duodecennial period came about 1889-90 and cholera has been active in Asia and Europe, especially during the past year. It has found Russia a famine tried country and ready prey for its devastations and it has reached several ports from which easy communication is to be had with this continent.

Cholera At Toronto In '32.

The exigencies of Canada called into existence laws for protecting the public health. The emigration which came in by way of the St. Lawrence created an ever-present danger to the health of the colony. The long ocean passage, principally by sailing vessels, and the wretched condition of many of the immigrants occasioned the frequent introduction of pestilential diseases, amongst which typhus, or ship fever, and cholera were the most common.

This is illustrated in the report to the Legislature of the York (Toronto) Hospital and Dispensary, dated York, Nov. 19, 1832, which is as follows:

> The great increase in the population of this town and its vicinity, and the misery and wretchedness of the lower classes of emigrants could not fail to disseminate amongst them disease in its various forms. * * * Typhus fever, in its most malignant form, raged to a most alarming extent; many of the fatal cases above reported upon have been of this malady brought into hospitals from the steamboats or from the confined and filthy parts of the town. * * * It is worthy of remark that most of the lower orders have such an aversion to an hospital, that they will not submit to be removed until they are conveyed hither in a state of insensibility.

In this same year cholera was introduced into Canada by way of the St. Lawrence, and though it disappeared in the early autumn, its ravages were of an extended and most fatal description. It was a mysterious disease to the medical profession in Canada, and here, as elsewhere, the knowledge of its causation and method of propagation were the subject of constant speculation. Many supposed that winds of some peculiar and special character spread the disease from country to country, and the reports which had reached Canada on its westward march from India in 1827 to Russia in 1829 and later to Britain had created serious misgivings lest it should be transported to these western shores.

The first Sanitary Commission instituted in Canada to deal with cholera was appointed in Quebec in February, 1822.

Though not appearing in epidemic form until June, the first cases of cholera arrived in the St. Lawrence on April 28, 1832, and were landed at Grose Isle from the ship Constantia, from Limerick, having 170 emigrants, of whom 29 had died on the voyage.

On May 14 the ship Robert, from Cork, arrived and had 10 deaths on the voyage.

On May 28 the ship Elizabeth, from Dublin, arrived with 145 emigrants and 42 deaths

But the weather by June had grown warmer, and on June 3 the ship Carrick, from Dublin, arrived, having had 145 emigrants, of whom 42 had died on the voyage.

No Proper Precautions.

This may be said to have been the beginning of the epidemic in Canada. The Grosse Isle Station, having only been opened that spring, there were no conveniences and no proper quarantine precautions. All who seemed well were allowed to pass up the St. Lawrence, disinfection was unknown, and hence all the soiled clothing of the emigrants was forwarded unwashed. Further, there was constant intercourse between sailing and steam vessels westward to Montreal. It ascended the Richelieu and thence reached Lake Champlain and the Hudson.

By June 10 the disease had reached Montreal and spread rapidly to different parts of Lower and Upper Canada. It had disappeared by the middle of October, having lasted four months.

The discontent and famine in Ireland had caused an extensive emigration to American shores, and by September nearly 30,000 emigrants had come up the St. Lawrence.

Nearly 5000 Deaths.

Deaths amongst these people were so common from every cause that no special record was kept of those from cholera, but it is stated that in Quebec there occurred during this fatal summer 2208 deaths from cholera alone, and that in Montreal 800 deaths occurred in the first fortnight and by September 1843 had been slain by the disease.

Returning, however, to Upper Canada it will be seen that the epidemic of 1832 soon passed westward from Montreal, appearing in Prescott on June 15.

That the province was alive to the danger of cholera is learned from the fact of an act being passed by the Legislature in 1833 entitled "An Act to establish Boards of Health and to guard against the introduction of malignant, contagious and infectious diseases in this province, and for the formation of local boards."

Only in Warm Weather.

In a specially prepared report by Dr. Bryce, secretary of the Provincial Board of Health, are these words: "As those of us of the present generation know nothing of cholera, except as telegraphic reports bring us news of its ravages in far-off India and Persia, or occasionally from the shores of the Mediterranean, it is of interest to learn something of the ravages it has been capable of creating even in this northern climate during the warm weather of summer, which alone makes its ravages possible."

Its next appearance in serious proportions was in 1849, and regarding this epidemic in this Province the newspapers of the time give very full accounts. In these it is most curious to note how, as in more recent times, local commercial interests have minimized the dangers with the result of creating at a later stage evils of an extent impossible had prompt measures at the outset been taken for its limitation.

At this time, as even in later times, the doctrine was taught by many that cholera was not contagious. Thus it was stated: "It is no doubt true that when one person takes the cholera another may take it. The atmospheric conditions which produce the one may produce the other. But as to any direct communicability of air from one person to another it is no more likely in the case of cholera than in the case of a broken leg. This was the doctrine taught in November, 1849.

In 1488 It Came From Hamburg.

Cholera had then, in October, reached England via Hamburg in the person of sailors, which resulted in the city of London voting an allowance for its first medical heath officer, [illegible] per superintend the health of the metr for recommending means for t safety. The Government sent Dr and Ayres to Hamburg to inves disease.

On June 1, 1849, The British Journal says: "Cholera has ap New York, Cincinnati and C great deal requires to be done, and the time for doing it, when the d broken out and is daily numberi tims. Let the Board of Health is direction. Let the cities be cle this one particularly, for we be quires it more, and if the cholera will be prepared for it. Two cases dic cholera, presenting a number tures of the Algide variety, and ter fatally, the one in 24 hours and th 8 hours, having occurred during week in Montreal."

Another Outbreak in Toron

On July 12 cholera was reporte in Toronto. The Globe of July "The malady has appeared in our not to an alarming extent. 449 Deaths in Toronto.

The cholera was abating in Mo Sept. 5. Sept. 11 there are still a of cholera in Toronto. To date th been 745 cases and 449 deaths.

By Sept. 22 cholera had disappe Quebec, there having been 1047 de during the epidemic. The deaths York per 1000 in the three epid given below: 1832, 15.7 per 1000 per 1000; 1849, 11.35 per 1000.

With the advent of the autum disappeared from the province an reappear until 1854. Its prevalen the valley of the Mississippi and Britain in 1848 made its reappearan to be feared, and the province seem been fairly well prepared for it.

A proclamation establishing und of 1849 a central board of health Quebec, July 20, 1854, declaring s 1849 to be in force in the provin continue in force for and during t of six calendar months.

In Other Places in Canad

The city of Hamilton suffered, severely, a very notable number having occurred. On the 19th of deaths occurred in Hamilton, wh the same time 56 deaths occurred Montreal, while by 1st August 8 had occurred in Montreal. D visits were then carried out regul people under penalty were required cases. Cholera was very prevalent in St. John, New Brunswick. O 26th 23 deaths occurred in Ham pital alone.

The following are some newsp ments of the time:

"If a judicious expenditure of £ been made last spring by the To poration in removing nuisances i that one-half the persons who ha victims to cholera in this city woul living.

"Some of our civic ru ignoring the existence of cholera month after its appearance, and t and most inhuman neglect of the and dying took place. No place vided for the patients for weeks."

The Last Outbreak in Onta

The epidemic of 1845 was practi last outbreak of cholera in Ontario Cholera having appeared in E 1865 created apprehensions lest reach Canada in 1866.

The regulations provided that steamers be boarded at Father Poi spected, and if free from infec pratique up the river. All infec had to stop at Grosse Isle or Charles at Quebec.

The disease prevailed to some New York all summer, ten fresh c reported as late as Sept. 13, cholera ships occasionally reached ports as Halifax and Grosse Isle, does not seem to have reached O ther than one fatal case in Toronto.

The last cholera scare comes period 1884 and 1885, but no cases of ease reached Canada. Only once i ten years, viz., September, 1887, h reached New York, and that in the Alesia.

Dr. Bryce has prepared details o lera outbreak in Toronto, from wh duces: That after three or four increased heat the number of cases and continue to increase for severa a succeeding cooler term; every ended with a decline in the numbe excessive humidity without incr was not sufficient to cause an i cases. The moment the tempera below 70° there is an associated d the number of cases; and when it r this there is an increase in the n cases. Apparently the cho crobe requires a temperatur 70° for its free developmen development is aided by increased ture up to at least as high as 9 That successive humidity, with hea orable to its free development; tha several days of favorable con develop an abundant crop of micr high temperatures, with excessive are the conditions favorable for a decomposition, and abundant bact that, apparently, from the mortalit the first two weeks of Sept makes the cases more fatal; a anomaly in the last week simpl that with the wearing out of the cases became more like severe diar

Dr. F. Montizambert, the super of the Dominion Quarantine Serv St. Lawrence, says that in 1834 t 290 cases of cholera with imm Grosse Isle and 159 deaths. In 18 were 56 fatal cases; in 1854, 6. T been no deaths from cholera since at the quarantine station.

THE DAILY ONTARIO

IMPORTANT TO ADVERTISERS

The ONTARIO has the Largest bona-fide Circulation of any Paper in the Midland District

STILL THEY GO

"THE displacement of population going on in our rural districts threatens to assume the proportion of a national disaster." This sentence occurs in the report of the commission appointed by the Provincial Government of Quebec, and forms a text from which every patriotic journal in Canada should thunder until all the controllable causes of the exodus are removed. Tory papers, anxious to serve the monopolists, who hold in their hands the fate of the Government, loudly proclaim that there is no exodus of sufficient importance to deserve notice, proclaim this in spite of the array of humiliating and staggering facts that meet them on every side. So great had that exodus become in Quebec Province that the local government appointed a commission to enquire into the causes of it, in the hope that a remedy might be suggested.

What are some of these facts? A credible authority says that there are no fewer than 1,009,596 French Canadians in the United States, these figures being compiled from official and unimpeachable sources. In the New England States alone there are 362,000, of these Canadians, earning there the living they could not earn at home.

During a visit to Canada a few days ago Rev. W. W. Carson, of Detroit, formerly of Kingston, Ottawa, etc., asserted that there were in Michigan alone 125,000 voters of Canadian birth, which means a Canadian population of half a million. Mr. Carson when in Canada was an uncompromising tory, and it is altogether unlikely that during the few months since he left Canada he has lost his love for that party, so it is impossible to suppose that he exaggerated in a statement so damaging to the policy of the tory party. No doubt he has good authority for his assertion, which but bears out the statements made in American official documents.

What is true of Michigan is true also of other States, though in a less degree. The Chicago Canadian-American says that New York State has over 45,000 Canadian voters, representing a population of over 200,000, the Canadian vote in Dakota is expected to decide the political fate of that State this fall, there are over 10,000 Canadian voters in Minnesota, the Canadian vote in Illinois is causing much anxiety to the political bosses, who realize that they can turn the scale in that State, even in far off California over 10,000 Canadian voters will go to the polls this year. When it is remembered that each voter represents on an average five of a population, and when it is remembered that only those Canadians who have become naturalized are taken into consideration in the above estimates and that as a matter of fact only a small proportion of the Canadians in the States have become naturalized, some idea of the enormous dimensions of the exodus can be formed.

When the liberals have dared to assert that there are a million of Canadians in the United States the tories have raised a terrific protest and given a loud denial, based on—nothing except the desire to hide the truth in the interest of the party. But if the figures above given are even approximately correct, instead of a million there must be at least two million Canadians who have gone to the States to live.

These facts are not stated by the liberal press for the sake of glorying in them. Sincerely do they regret the fact—so sincerely that they have proposed a remedy for the evil that exists. But they do not believe that the truth should be suppressed just because it is unpleasant. The evil must be pointed out before the remedy can be applied. The people must know the bare facts of the case if they are to deal with it, and that is the patriotic paper or statesman which informs the people of the facts as they really exist, not the one that conceals the facts, lest they injure the prospects of the party.

Interested People

Advertising a patent medicine in the peculiar way in which the proprietor of Kemp's Balsam for cough and colds does it is indeed wonderful. He authorized all druggists to give all those who call for it a sample bottle free, that they may try it before purchasing. The large bottles are 50c and $1. We certainly would advise it. It may save you from consumption.

A Pleasant Herb Drink

The best cure we know of for constipation and headache is the pleasant herb drink called Lane's Family Medicine. It is said to be Oregon grape root, combined with simple herbs, and is made ready for use by pouring boiling water onto the dried roots and herbs. It is remarkably efficacious in all blood disorders and is now the sovereign remedy with ladies for clearing up the complexion. Druggists [illegible] the package at 50c and $1.

For all forms of female weakness Dr Williams' Pink Pills are an unfailing specific. Mr. Thomas Strachan, Postmaster, Roballion writes:—My daughter has been ill for the last four years with female weakness, and had been attended by four of the best doctors in our section. She began the use of Dr. Williams Pink Pills, and two boxes have done her vastly more good than all the medicines she took from those doctors.

What She Said

Mrs. R. Peck, 15th street, New York City, visited Canada last year, and had the good fortune to pick up something which not only suited her, but her neighbors also. Writing the manufacture of Nerviline she says:—"I bought three bottles of Nerviline while in Canada and treated my neighbors to some of it, and all think it the best medicine for internal or external pain they have ever used." Nerviline deserves such commendation, for it is a most powerful, penetrating, and certain remedy for pain of all kinds. Take no substitute.

Two Fatal Accidents Resulting From Horses Taking Fright at Trolley Cars—A Decrease in the Assessment of the Queen City.

TORONTO, Aug. 30.—Joseph Swallow aged 39, a groom, living at 47 George street was riding a spirited colt down Church street at 6.45 last night, when the animal took fright and shied at a passing trolley car. Swallow lost control of the animal and was thrown violently to the ground alighting on his head.

On arriving at the hospital he was able to walk out of the ambulance, but within a few minutes was seized with vomiting and within an hour after admission he was dead. The cause of death was concussion of the brain. The poor fellow's wife was with him when he died. Deceased was an Englishman and was employed at the C Hotel, and had a good reputation for steadiness, attention and sobriety.

Died From Her Injuries.

TORONTO, Aug. 30.—Mrs. Ann Tre the wife of a Woodbridge farmer, injured by being thrown from her husband's wagon Saturday in Bloor-street through the horse being frightened by a trolley car, died in the General Hospital shortly before noon yesterday. The cause of death was inflammation and hemorrage of the brain. The unfortunate woman never regained consciousness. Deceased was 53, and leaves a husband and 11 children.

TORONTO'S TUMBLE.

The Assessment This Year Shows a Falling Off For the Boom Town.

TORONTO, Aug. 29.—The assessors are nearing the completion of their annual work and the unusual fact has developed that the total assessment this year will be a decrease on that of a year ago. This is due entirely to the larger amount of exemption on income owing to recent provincial legislation, and also to the operation of the city bylaw exempting manufacturers plants and machinery from taxation. The exact figures of the assessment will not be known for a couple of weeks.

FROST IN MANITOBA.

The Weather Very Cold—Three-Fourths of the Wheat Harvested.

WINNIPEG, Man., Aug. 30.—The weather here has been constantly growing colder during the past 24 hours and the farmers fear they will have a frost. Early this morning the mercury had fallen to 42 degrees. To-day it is cold, with a strong north wind blowing.

The wheat harvesting is about three-fourths over. It is expected that harvesting will be over this week.

About 30,000,000 bushels of wheat, it is calculated, will be available for export. This tallies with the immense yield of last year.

THE TOLLS AT THE SAULT.

The United States Treasury Department Issues Another Circular.

WASHINGTON, Aug. 30.—It having been stated that the Canadians with a view of evading the 20 cent tolls to be imposed in accordance with the terms of the President's proclamation were proposing to evade the requirements of the proclamation by shipping in Canadian bottoms from Duluth to Port Huron to be transhipped from that point by the Grand Trunk line through Canada, Assistant-Secretary S. Spaulding sent a telegram to the solicitor of the Grand Trunk Railroad Company at Detroit to the effect that neither Manitoba nor domestic wheat can be carried in Canadian bottoms from Duluth to Port Huron, as it would be in violation of the United States coasting laws, but if carried in American bottoms it is not subject to tolls. If carried through the canal from Duluth to Sarnia for consumption in or export from Canada via Montreal or any other port it would be."

A MONTREAL SCANDAL.

In Which a Priest and the Wife of a Lawyer Are Named.

MONTREAL, Que., Aug. 30.—A scandal has been caused in French-Canadian society by the discovery that a leading French-Canadian priest, a member of the Sulpician order assigned to St. James' Church, is involved in a scandal with the wife of a leading lawyer. There he became acquainted with the woman and became her spiritual adviser. He went on a trip to Europe a few weeks ago, and while he was away compromising letters were found. The wife has gone into a convent, and the husband threatens to shoot the priest when he returns to Montreal.

Gored to Death By a Bull.

GORE BAY, Ont., Aug. 30.—William Bellon of the township of Campbell was leading a bull to water when the animal broke the ring by which he was led and attacked Bellon. The horn of the bull entered his side just below the ribs and with an upward toss laid the side open almost to his arm. He only lived five minutes.

"August Flower"

"I inherit some tendency to Dyspepsia from my mother. I suffered two years in this way; consulted a number of doctors. They did me no good. I then used **Relieved In** your August Flower and it was just two days when I felt great relief. I soon got so that I could sleep and eat, and I felt that I was well. That was three years ago, and I am still first-class. I am never **Two Days.** without a bottle, and if I feel constipated the least particle a dose or two of August Flower does the work. The beauty of the medicine is, that you can stop the use of it without any bad effects on the system. **Constipation** While I was sick I felt everything it seemed to me a man could feel. I was of all men most miserable. I can say, in conclusion, that I believe August Flower will cure anyone of indigestion, if taken **Life of Misery** with judgment. A. M. Weed, 229 Bellefontaine St., Indianapolis, Ind."

THE SULTAN'S TROOPS DEFEAT THE REBELS.

And Many Heads Are Brought into Tangier for the $8 Ransom—The Marquis De Mores on Trial for Manslaughter—Killed by Her Performing Bears.

TANGIER, Aug. 30.—The Sultan's cavalry and infantry met the main body of insurgent Angheras yesterday. A brisk exchange of musketry shots followed and in a short time a majority of the rebels fled. Many of the fugitives made their way to the sea shore, whence they escaped in fishing boats.

A few of the insurgents fought desperately until Haman, their leader, seeing that the battle was lost, mounted his horse and fled.

The troops then returned to Tangiers with the heads of the rebels they had killed, for which they will receive $8 per head from the Sultan's treasury.

In the encounter 80 of the Sultan's troops and several officers were killed or wounded.

THE MARQUIS' TRIAL.

He Harangues the Court with a Story of His Speculations.

PARIS, Aug. 30.—At the trial of the Marquis De Mores for manslaughter in killing in a duel on June 23 Capt. Mayers of the Engineer Corps the Marquis De Mores arose in the dock, and standing with folded arms harangued the court for half an hour on his meat speculations in the United States and his colonizing enterprises in Tonquin.

The four seconds in the duel were arraigned with De Mores.

KILLED BY BEARS.

Mme. Mars Torn to Pieces and Her Husband Badly Hurt.

PARIS, Aug. 29.—Mme. Mars, a bear tamer, while performing at a show in this city yesterday slipped and fell upon the floor of a cage. The bears, which she had been holding in check, at once sprang upon the prostrate woman and tore her to pieces.

Her husband, who was near by, made a desperate effort to save her life, but in vain. He killed one of the bears, but before the others could be subdued his wife was dead. The husband was severely wounded in the struggle with the beasts.

Dashed to Death on the Rocks.

BERLIN, Aug. 30.—News was received here to-day that a banker of this city named Broks, and two guides who were accompanying him, fell over a precipice while ascending Mont Grivola, in the Aosta Valley, Italy, and that all three were dashed to death on the rocks below.

The Queen Off For Balmoral.

LONDON, Aug. 30.—The Queen started from Osborne House, Isle of Wight, for Balmoral this evening, crossing to Portsmouth. The old custom of saluting, which had been dispensed with since the death of Prince Consort, was revived on this occasion. All the warships at Portsmouth and the guardship stationed at Cannes saluted Her Majesty by firing 21 guns each. The yards of the different men-of-war were manned, the vessels were covered with flags and streamers from stem to stern and their bands played the National Anthem.

Relief for the Distressed.

LONDON, Aug. 30.—The Parkslip Mining Company has given £500; Colonel North, the chairman of the board of directors of the company, £250 and three of the directors £100 each, to form the nucleus of a fund to be started under the auspices of the Lord Mayor of London for the purpose of relieving the distress caused by the disaster. The death roll now numbers 110.

The Borden Trial.

FALL RIVER, Mass., Aug. 30.—Court came in on the Borden case at 10.45 sharp. Lizzie Borden passed a fairly restful night, and at an early hour this morning was visited by her sister Emma. Among those who were present was Mrs. Fish of Hartford, a sister of the murdered woman.

The Daily News says to-night: "New and important evidence for the defence, somewhat corroborative of Dr. Handy's story in locating a strange man at the Bordens an hour before the tragedy, has been found. It is eminently reliable." What it is no one at police headquarters seems to know.

Facts that Need Explaining.

How does the case now stand? The prosecution has settled the primary facts about the murders. The position of the bodies, the shocking nature of the wounds, the absence from the house of all its inmates except Lizzie Borden and Bridget Sullivan. These things are admitted. It has further shown by medical testimony—and this is important—that Mrs. Borden came to her death fully an hour and a half or two hours before her husband. It has shown that at the moment of the attack on Mrs. Borden Lizzie Borden was on the same floor, if not in the next room; that an ax stained with what looked like blood, and bearing evidences of recent scraping and washing, was found in the cellar; that certain articles of Lizzie Borden's attire were found to be slightly spotted with blood, or what looked like blood.

All this of course is not enough to condemn her. They have now to establish that the stains on the ax and clothing were blood, and then to connect the blood with the bodies of the murdered couple. This is what Prof. Wood is expected to do when he takes the stand to-morrow. Public expectation, baffled of the promised sensation in the testimony of Bridget Sullivan, looks to him to furnish the conclusive evidence in the case which is still lacking. He has also had the stomachs for analysis, and possibly he may say something which will hook together the mysterious sickness of the family and Lizzie's attempt to buy poison.

If Lizzie Borden is innocent some fiend must have stolen into the house, killed Mrs. Borden, concealed himself for an hour and a half, murdered Mr Borden and escaped so silently and secretly that nobody saw or heard him. If Lizzie Borden is guilty she must have killed her stepmother, hidden the evidence of the crime, laughed when the servant let her father in and a few minutes afterwards have sunk the same hatchet into his head.

Either conclusion is something at which credulity revolts. Yet neither is so very much stranger than the conduct of this extraordinary woman since her arrest or the other features of the story that have made it something beyond the wildest calculations of fiction.

Major Weston Shot.

OTTAWA, Aug. 30.—At the revolver ranges of the Rifle Association yesterday, Captain Stevens of the 66th Halifax had a self-cocking 38-calibre rev ver which, while he was waiting his turn to fire, went off and struck Major Weston, also of the 66th, on the fleshy part of the left calf. The bullet traveled down the leg and finally lodged in the ankle.

All through the Provinces the rapid crease of La Grippe, is causing great alarm. A report was received here to-day, of a new development of the disease, which is worse, perhaps than any other. Wm. Hanley of N. Y. City, died in terrible agony after sickness of only four days. His tongue swelled to such an extent as to make it impossible for him to close his jaws or swallow any food. The report is causing the people in this district to remain into the noted Grip-cure, recently referred to in so many papers. In Cape Breton the disease has spread very rapidly and with fatal results, D. J. McKillop of L'Archeveque writes Feb. 11th that this cure has been tried in his neighborhood and with such success that all those residing there are obtaining a supply believing it to be the only remedy affording reliefand effecting a certain cure. He finished his letter by asking for a large quantity of the Medicine (Dr. Morse's Indian Root Pills) to supply the demands of the mmunity for the relief of LaGrippe.

GENTLEMAN One of my ttle girls aged 4 years) had been troubled with ostiveness in its worst form since infancy. We tried different remedies hich gave relief while using, but as soon as discontinued she would be worse than before using. She lost her appetite and was growing weak and delicate. A friend of mine who had used B B B with grand results for the same disease advised me to try it, and also the Burdock Pills, which we did. She did not take the contents f one bottle before it relieved her, and ot only relieved her but permanently ured her, for she has not been troubled nce since, and she is now eight years old

Best Cure For

All disorders of the Throat and Lungs is **Ayer's Cherry Pectoral.** It has no equal as a cough-cure.

Bronchitis

"When I was a boy, I had a bronchial trouble of such a persistent and stubborn character, that the doctor pronounced it incurable with ordinary remedies, but recommended me to try Ayer's Cherry Pectoral. I did so, and one bottle cured me. For the last fifteen years, I have used this preparation with good effect whenever I take a bad cold, and I know of numbers of people who keep it in the house all the time, not considering it safe to be without it."—J. C. Woodson, P.M., Forest Hill, W. Va.

Cough

"For more than twenty-five years, I was a sufferer from lung trouble, attended with coughing so severe at times as to cause hemorrhage, the paroxysms frequently lasting three or four hours. I was induced to try Ayer's Cherry Pectoral, and after taking four bottles, was thoroughly cured."—Franz Hoffman, Clay Centre, Kans.

La Grippe

"Last spring I was taken down with la grippe. At times I was completely prostrated, and so difficult was my breathing that my breast seemed as if confined in an iron cage. I procured a bottle of Ayer's Cherry Pectoral, and no sooner had I began taking it than relief followed. I could not believe that the effect would be so rapid and the cure so complete."—W. H. On Saturday afternoon while Robert Easton, treasurer of Napanee, was crossing one of the streets of that town he was struck and knocked down by a passing team and a wheel of the carriage passed over him before it could be stopped. He was cut about the head somewhat and got a pretty bad shaking up, but his injuries were not of a very serious or dangerous character. The team was being driven by some young ladies of Deseronto, but was going slow at the time.

The Toronto Fair management has secured at great expense a novel attraction in the shape of an orchestra of cats, which are announced to produce a most mellifluous mewing and wailing, in the C clef, we suppose, treble, counter tenor and tenor. The Princess Street Nine are determined to defeat their old opponents, the Cobourgs in Belleville on Wednesday.—News

Great interest is being excited in the grand baseball match here to-morrow between the Cobourgs and Princess Street Nine of Kingston, and it will undoubtedly be the game of the season. The Cobourg club will run an excursion on the Grand Trunk, a 75 cent rate having been obtained, and half of Cobourg will be here, while hundreds of Kingstonians will come up with their favorites on the Hero's cheap excursion. It will be a great game and there will be a great crowd present.

F. Claus and his backers are very anxious to hear from the Kingston Quoit players with reference to the challenge sent them. About every other day the Kingston papers report that some one has been found who will accept the challenge —and that is the end of it. The quoit players of that city are something like their lacrosse club—they can beat all comers in talk, but are no good in action. Claus is ready, the money is up, all that is wanted is Kingston's acceptance when the match will be played.

why is it?

Why is it, that no matter how much or what kind of opposition the Oak Hall clothing house gets, they are continually increasing their trade? The Oak Hall do an honest one price business and use their customers as if they expected to see them again, that is the reason. Besides, they carry nothing but the better class of goods, and by keeping down expenses and selling at small profits they are enabled to put good goods on the market lower in price than other stores can sell inferior makes for.

Children Cry for Pitcher's Castoria

IT IS A NUISANCE.

SO DECIDES P. M. FLINT IN THE EAST HASTINGS CHEESE FACTORY CASE.

He Says the Effluvia From the Pig Sties is a Nuisance—He Supports his Position With Copious Extracts From the Authorities.

The charge against the defendants is that they did unlawfully maintain a public nusiance by keeping a pig-sty on 6th day of July, 1892. The defendants maintain hog-pens in which were contained about 150 hogs at the date of the charge. Evidence shows that they average 100 hogs during the season. First question is, what according to law is a public nusiance? The term nusiance is well understood, it means literally "annoyance" "anything that worketh hurt." Rex vs White & Burr. "If there be smells offensive to the sense, "that is enough as the neighborhood has a "right to fresh and pure air "Rex vs. Mill 2 C and P 385. "Per Abbott C J. "The only question therefore is the business carried on by the defendant productive of smells to persons passing along the public highway."

In Rex v Watts 2 C. and P. It was proved that smells from a slaughter house are a great nusiance to persons passing along a public highway."

Rex v. Papeneau 2 Str 686 a nusiance near the highway, whereby the air thereabout is corrupted is a public nusiance So too the keeping of hogs in a town is not only a nusiance by statute, but also by common law. Roscoe 816. "It is now settled that the circumstance, that the thing complained of furnishes, upon the whole a greater convenience to the public than it takes away, is no answer to an indictment for a nusiance A. 816. It was held in R. v. White that it was not necessary "the smell should be unwholesome, but that "it was enough if it rendered the enjoy- "ment of life and property uncomfortable. So it is said the carrying on of an offensive trade is indictable, where it is destructive of the health of the neighborhood, "or renders the houses untenantable or "uncomfortable. R D Doney 5 Eop "So it was ruled by Abbott C. J. in R v "Neil 2 C, and P. 485 in the case of an "indictment for carrying on the trade of "a varnish maker, that it was not neces- "sary that a public nusiance should be in- "jurious to health, that if there were "smells offensive to the senses, it was "enough, as the neighborhood had a right to pure and fresh air." And it seems that a brewhouse erected in such a place that the business cannot be carried on without greatly inconveniencing the neighborhood, may be indicted as a common nuisance, and so in the case of a swine-yard.

Hawk Proc cases !

"So a tannery where skins are steeped "in water by which the neighbouring air "is corrupted. R. vs. Pappineau, Lord Ellenboro said: "An indictment for a "nuisance by steeping stinking skins in "water laying as to be committed near "highway, and also near several dwelling "houses has been held sufficient. And "the Court said that if a man erects a "nuisance near the highway, by which the "air is thereby corrupted, it must in its "nature be a nuisance to those who are in "the highway and that therefore the in- "dictment was well enough." And an indictment was held good for a nuisance in erecting a building and making fires, throwing out offensive smokes, and making quantities of offensive liquors.

The greatest authority for information is the case of Rex vs. Neill - 1 C & P 485.

"If there are smells offensive to the "senses that is enough, as the neighbour- "hood has a right to fresh and pure air "Rupell 319.

It is in evidence that the Board of Health for Thurlow two years ago examined the premises, directed the leaders from the pens to be extended, and ordered that lime and copperas, "OR lime and copperas" should be freely used. This action of the Board of Health has nothing whatever to do with the maintenance of a public nuisance. If the report of the Board of Health had been reasonably complied with by the free use of lime and copperas, or the free use of either disinfectent, probably this information might not have succeeded. The company certainly have not this season used lime or copperas at all. Now supposing this prosecution to succeed, who is in a very great degree to blame? The only answer is the defendants. The free use of lime or copperas would so disinfect the pens, that in all probability the nuisance complained of would not be perceptible. This wise order of the Board, has not been obeyed. I can well understand that the Board of Health was naturally anxious that the business of the factory should not be interfered with so so long as it could be carried on without polluting the air or rendering it dangerous. I must infer from the action of the Board that they believed the use of disinfectents necessary and so ordered them but the defendants have not chosen to comply with their very reasonable report and direction.

Now as to the evidence. All witnesses agree that the pens emit odors. Nearly all of the witnesses for the defence are patrons of the factory and keep pigs in the pens.

The evidence proves the keeping of pigs and consumption of the whey is profitable to all of the patrons who share in the profits. Every patron who gave evidence was therefore interested in the maintenance of the pens.

Several of the witnesses such as the milk drawers are employees of the defendants. The evidence of these who are not patrons or employees therefor stands upon a different basis from the other witnesses for defence.

The evidence of interested parties, interested financially in the undertaking, or industry attached does not rank as high as disinterested witnesses in the scale of evidence and reliability, for a very self-evident reason. Interest very frequently clouds the judgment of the wisest, and most honest men. What is the evidence offered on behalf of the prosecution? With the exception of two witnesses these persons were apparently disinterested. Mr. McKim is a patron of the factory, and yet gave evidence against his interest.

Mr. and Mrs Ketcheson are interested in relieving their property of this unpleasant odor.

Now the prosecution has clearly established under the definitions given by the judges in the cited cases that the smells emanating from the pens constitute a nusiance. All witnesses agree that the smell is offensive, many declare it is only occasionally so, when the wind blows from certain quarters. To some it is more offensive then to others. When the wind does not blow the smell to the highway it is blowing it somewhere else. If the smell is part of the time on the highway and is offensive to persons using the highway it is a nusiance. The prosecution proved it was always offensive on the highway, at some times worse than at other times. If the defendants had freely distributed copperas and lime as The Board of Health directed, probably there would have been no further complaint. If they had carted away the manure as they should have done they might have avoided trouble. Not having taken reasonable precaution they cannot complain at their conviction. The fact of it being a large industry will not prevent conviction. No notice is required under the law, the law simply states there shall not be a public nuisance. I think hereafter the whey will require distribution among patrons. Many large and successful factories take this course. As regards my jurisdiction I am satisfied that I have jurisdiction. My judgment is that the nusiance must be abated and accordingly I must and do direct and prohibit the defendants from maintaining the nusiance upon the premises. I direct that the hog pens be no longer used for keeping hogs therein. I fine defts $25 and $ —costs to be paid in fifteen days otherwise in default of payment the said amounts to be levied by distress. If within that period the nusiance is abated and hogs withdrawn I direct that the fine be not imposed and that only the costs be paid.

The case was exhaustively argued by P. J. M. Anderson for plff's. W. J. Diamond for Def't.

HARD ON Q C'S

Their Legal Titles may not be Worth a Pinch of Salt

For some time past a despute has been going on between the Dominion Government and that of the Province of Ontario as to which has the right to confer the title of Queen's Counsel. Now the Imperial authorities show a disposition to step in with the assertion that this power rests neither with the Province or Dominion, but in Great Britain. This latest development was brought about in this way: A short time ago the question was raised in South Australia as to the power of the Government of a colony to appoint Queen's Counsel, where upon the Attorney General consulted Mr. Madden, a distinguished Australian jurist. Mr. Madden memorandum on the subject was transmitted to the Home Office, and has been sent by circular despatch to the Governors of the various colonies, with an invitation to forward any remarks which their Governments may desire to make on the question. Mr. Madden cites Blackstone to show that the right to appoint Queen's Counsel forms part of the royal prerogative of bestowing titles of honor, and he contends that the prerogative can be exercised only by the sovereign or the agent delegated to exercise that specific prerogative, and that inasmuch as such authority has not been specifically conferred on governors they have no power to confer the title of Queen's Counsel any more than to create dukes and marquises.

Though the soil of Virginia grows the best tobacco leaf in the world, it does not all grow equal qualities. The production even of adjoining counties is often quite different, the one producing leaf which at once deteriorates if grown in the other The leaf of the "Myrtle Navy" is the product of the choice sections of the State, which, through some combination of local influences, produce a better quality than any others. This is shown by its always commanding a higher price than any other smoking leaf.

A MURDEROUS ASSAULT.

AN AGED PRISONER BRUTALLY ATTACKED BY A FELLOW CONVICT,

From the Effects of Which the Victim Dies—The Assailant Thought to be a Lunatic.

It was reported a few days ago that a prisoner named James Roe aged 93 had died in the Napanee jail. The statement that the old man had died of old age was at once accepted as satisfactory. But recent developments lend a different color to the case. On the 9th of July last a vagrant named Wm. Leary was sentenced by the Police Magistrate to a year in Central Prison. Owing to the congested condition of the prison he was not removed, but was detained awaiting orders. A few days before Roe's death the vagrant Leary was left with the old man. When Turkey Clarke returned he found Roe lying on the floor, with Learly looking defiantly at him. Clarke asked Roe, what was the matter, and he replied that Leary had beaten him unmercifully. The prisoner acknowledged the fact, and said he would do it again if he got a chance. He said Roe had stolen $2,000 from him and called him vile names. Dr. Ruttan was called in and found that Roe had been pounded dreadfully on the face and head, and that his neck had the appearance of being choked. His feet had also been beaten until they were black and blue, and his hip was also, the Dr. thought dislocated, though from the feeble state of the poor unfortunate, he did not make a critical examination. An inquest was held and the jury returned the following verdict: "We the jury selected to investigate the cause of the death of the late James Roe a vagrant in the Napanee jail, decide from evidence received, that deceased died from old age, death being hastened by injuries inflicted by a fellow prisoner, and we belive the said prisoner to be of unsound mind."

COMMERCIAL COLUMN

Speculation in Cheese.

Probably no previous season has witnessed such a large amount of speculation in cheese as has taken place this year, short sales have been the rule from the very commencement of the season. It is now reported that about 50,000 boxes of September cheese have been sold for future delivery at around 50s. c f. Liverpool, a portion of which have, it is said, already been covered. Further contracts have been made in the Belleville section at 10c to 10⅛, about 12 factories having been secured this week at those prices for August, September and October. It is also reported that 10¼c has been bid for other factories in the same district. In this market $100 has been paid for the privilege of putting 1,000 boxes of Sept. or October goods at 10½c in December or January ex.—Trade Bulletin.

Eighty per cent. of the Northwest crop has been gathered in and so far frost has been unheard of. The heart of the husbandman in the Northwest will therefore be gladdened, and all Canada will rejoice with him, since the hopes of the Dominion are largely centered on the magnificent territories beyond the great lakes.

Belleville Cheese Board.

BELLEVILLE, August 30th—The Belleville Cheese board came to an end to-day for this season, as most of the factories have contracted for the rest of the season. 1270 boxes white, balance of the season, were boarded by four factories as follows: Stirling 75w, Bronk 750w, Roblin 400w, Thurlow 45w.

The only sale was 45w, to J. T. Warrington for 9⅞. There was bid 10 for August and 10⅛ for Sept. and Oct. makes, but it was not accepted.

Votes of thanks were tendered the President, R. L. Lazier, the secretary, B. C. McCargar, the buyers and the local papers, and the Mayor and council for the use of the room, after which the board adjourned till the first Tuesday in May, 1893.

Inside Facts About Mosquitoes,

The term "no mosquitoes" in the Summer resort advertisement is merely an abbreviation and means "number of mosquitoes."

While the ant has a picnic, the mosquito goes in for a moonlight serenade.

You never know much about the unattainable until you get up in the middle of the night and reach for the mosquito with the wet end of a towel.

The microscope discloses the fact that the mosquito's sting is full of teeth. This no doubt explains the origin of the buzz-saw.

It seems strange that it should be any where respected, yet over in Jersey the mosquito is a big bug.

It has been said that the mosquito has some of the best blood of the country in its veins, and yet it is only the presumptuous insect that gets mashed on the pretty girl.

How strange that it should continue to do such terrible execution when it is always leaving its sting behind.

The mosquito knows enough to first sing you to sleep so that it can sting you with impunity, and even when you murder it the poor thing is dead stuck on you.

The mosquito is a sucker and will stick you whenever it can.

In all of its battles it always draws first blood.

Thanks to the mosquito, the angler can never complain of not getting a bite.

A Happy Man.

No pleasanter thing has been recorded of our late friend, Sir Daniel Wilson, than the fact that he made a business of being happy. "He never made the mistake of exaggerating his troubles or wearing them on his sleeve, and so in most cases he succeeded apparently in weaning them even from his heart. He was fond of quoting a fine aphorism which fell once in his hearing from a friend's lips: 'I have had a great deal of trouble in my life, but most of it never happened.' So Sir Daniel turned a cheery face to troubles of the present, put them from him at the right seasons, and armed himself with a wise hopefulness against the future. From this cheerfulness, even more than from the circumstances of his life, it came to pass that he was a man unusually happy. If man has never been for any length of time or over any considerable space otherwise than unhappy, yet individual men everywhere and in all ages, have escaped the general doom; and this supreme blessing seems to have been bestowed on the university's late president. One of his interviewers a few months ago, writing up an interview and selecting his words rather crudely, wrote that Sir Daniel 'had had a hard life of it.' 'No greater mistake,' said Sir Daniel, 'could have been made. I have had a very happy life, few men happier.'—Presbyterian Review.

What He Is.

The tramp had appealed for a dime and had it safe in his pocket.

"Why don't you go to work?" asked the donor of the dime.

"I don't have to," he replied.

"Why not? Have you enough money to live on?"

"No, sir, but I have a positon, sir".

"But I thought you said you didn't work?"

"I don't."

"And you have no private fortune?"

The tramp smiled negatively.

"Then what kind of a position do you hold?"

"I'm the connecting link between labor and capital. See?"

A PROLIFIC SOURCE OF DISEASE.—trifling indiscretion in diet may lay the foundation of confirmed dyspepsia, and there is no fact in medical science more positively ascertained or more authoritatively asserted than that dyspepsia is the parent of a host of bodily ills, not the east of which is contamination of the blood and the maladies of which that is the direct consequence. The original cause s however thoroughly eradicated from the system b [illegible] Lyman's Vegetable Discovery and Dyspeptic Cure, a medicine which only requires regularity and persistence in it use to cure dyspepsia and many other ills that arise from it. No deleterious mineral ingredient is contained in it, and though its action is thorough in cases of costiveness it never produces griping pains in the abdominal region, or weakens the bowels like a violent purgative. It you have a cough or cold do not neglect it; many without a trace of that hereditary disease have drifted into a consumptive grave by neglecting what was only a slight cold. Had the used Bickle's Anti-Consumptive Syrup before it was too late their lives would have been spared. Mr. A. W. Levy Mitchell, writes. "I think Bickel's Anti-Consumptive Syrup the best preparation ou the market for coughs and severe colds. About six years ago I caught a severe cold which settled on my lungs, and for three months I had a cought. I had a physician attending me, but gradually grew worse until I was on the verge of Consumption, and had given up hopes of being cured, when I was induced to try Bickel's Syrup. Before I had taken one bottle I found myself greatly relieved, and by the time I had finished the second bottle I was completely cured. I always recommend it for severe colds and consumption."

TRIAL OF LIZZIE BORDEN

THE ANALYST GIVES HIS EVIDENCE IN THE CASE

He Examined the Stomachs of the Murdered Persons and Found No Trace of Poison—He Also Examined the Ax But Could Find No Blood Stains on It.

FALL RIVER, Mass., Aug. 31.—The court came in at 10.30 precisely, and the first witness called was Prof. Edward S. Wood, the man for whom everybody has been looking for days. He said he had received a package containing two stomachs on Aug. 5, and two jars containing milk used on Aug. 4 and 5. All were properly labeled. The stomachs were labeled "Mr." and "Mrs. Borden." The stomachs appeared to be perfectly natural. Mrs. Borden's stomach contained about 11 ounces of solid food. The food was partly digested and showed wheat, starch and meat. The contents were chiefly meat, and there were vegetable pulp cells, which might be bread or apples. The digestion seemed to be advanced about two and a half hours. The stomach was tested for prussic acid, but without any results. The stomach of Mr. Borden contained only six ounces, chiefly water. In Mr. Borden's stomach there was only a small portion of starch. The digestion in his case, the contents being nearly all water, was much further advanced than in the case of Mrs. Borden. There were a few threads of vegetable tissue in his stomach which might have been apple.

Q. "Could they have been pears?"—A. "Yes."

Witness had not yet analyzed the milk and could not report on that.

On Aug. 10 witness received from Dr. Dolan a hatchet, two axes, a blue dress skirt, dress waist, white starched skirt, lounge cover and three small envelopes in which were hair taken from Mr. and Mrs. Borden, and hair taken from the hatchet. On Aug. 16 he received a pair of black stockings. The hatchet contained a number of suspicious-looking spots, but careful examination showed no traces of blood. Every spot which looked like blood was examined, but no traces of blood were seen.

SHOT DOWN IN HIS YARD.

A Prominent Politician of Fresno, Cal., Assassinated.

FRESNO, Cal., Aug. 31.—L. C. McWharter, a prominent lawyer and politician, was killed early yesterday morning by parties unknown.

He heard a noise about the house and told his wife he would go out into the yard to ascertain the cause. He armed himself with a revolver and left the house by the front door, going to the back yard on a side path. About 50 feet from the rear of the house he must have seen men, as an exchange of shots took place, and McWharter fell in the path with a bullet in his heart.

Examination of the premises and McWharter's revolver shows that six shots were fired, three by each side. It is supposed that there were two trespassers, because two clubs were found on the ground besides a revolver and masks of red flannel.

Many believe that burglars did the deed, but the majority are of the opinion that the tragedy is the culmination of the political turmoil in this county.

McWharter came to California about eight years ago from Tennessee. He was Deputy Commissioner from Tennessee for the New Orleans Fair, and was a popular Nashville lawyer. In Fresno he divided his time between law and journalism. His editorials against corrupt politicians in Fresno were very bitter, and two years ago he exposed delinquencies of several county officers, but the grand jury refused to indict. McWharter then organized the Cleveland men in the county and beat the Hill forces in the last Democratic State Convention held in Fresno.

To Superior Court Judge Harris, who spoke disparagingly of him, McWharter recently sent a letter characterizing him as a coward and offering the satisfaction of a gentleman, but Harris failed to accept the challenge.

About three months ago McWharter had his life insured for about $50,000, and he said frequently that he believed his political enemies would not hesitate to have him put out of the way. He went armed, but said he did not expect to be attacked openly.

JOHN L. IN NEW YORK.

He Will Go Thence to the New Orleans Training Ground.

NEW YORK, Aug. 31.—In a quiet part of Brooklyn there is a sporting house kept by Philip Casey, who has trained John L. Sullivan for his battle with Corbett. An airy, bright sleeping room at the head of the stairs is the one assigned to Sullivan during his wait for the start to New Orleans.

Early yesterday morning Casey and Sullivan tramped several miles around the racquet court in the rear of Casey's house. Then Sullivan was showered with cold water, rubbed down, dressed and breakfasted. His food until his fight will be of chops, steaks, chicken and fish.

About 11 o'clock Sullivan and Casey drove to the Star Theatre, in Brooklyn, where Sullivan was left to rehearse his new play, "Captain Harcourt, or the Man from Boston." Two hours he trod the boards and then was driven back to Casey's. An hour after dinner he took further exercise in the racquet court. To see the champion hopping up and down while a rope was swished under his feet was a curious spectacle. Philip Casey this morning talked with an Associated Press reporter about Sullivan's weight. "We don't care to have people think Sullivan is any lighter than he is," said Casey: "I have said his weight is 204, and if anybody thinks he is heavier or that he is too fat to fight, why there's a good deal of money waiting for any man who will come up and lick our man, thin or fat. That is all I have to say of his weight."

Hatred of the Pinkertons.

HOMESTEAD, Aug. 31.—All the members of the Advisory Committee stand ready to give their evidence on the charge of conspiracy preferred by Secretary Lovejoy of the Carnegie Steel Co., but if arrests are made by Pinkertons trouble will certainly ensue. The people of Homestead are convinced that in the last week or two a number of the detectives have been sworn in by Sheriff McCleary as deputies.

Dead at 89.

UTICA, N. Y., Aug. 31.—Jacob Fox, a wealthy and prominent resident of Little Falls died yesterday, aged 89 years. He was a nephew of Capt. George I. Eaker of New York, who killed Philip, son of Alexander Hamilton, in a duel on the Jersey shore on nearly the same spot where, three years later, his father fell before Aaron Burr.

THE CHOLERA.

English Authorities Accused of Belittling the Situation.

LONDON, Aug. 31.—It is a significant fact that the two deaths from cholera which have occurred at Glasgow as well as the three deaths at Gravesend all took place in the ranks of bodies of emigrants who were on their way to the United States.

While steerage passengers on board ships on which actual outbreaks of cholera have taken place have been detained by the English authorities, many shiploads coming from infected parts, including Hamburg, have been allowed to proceed to their ultimate destination, which in nearly every case means the United States.

That the English medical authorities are making a grave error in belitting the danger of cholera infection by communication is the opinion held by several army surgeons who were interviewed to-day, and whose vast experiences in India render them peculiarly able to speak on the subject of cholera with authority.

"The appearance of the disease at Hamburg," said one of these, "means a positive danger, not only to England, but to the United States, whither at this season of the year continental emigrants are swarming.

"Supervision or any modified form of quarantine is a worse than useless precaution to take in these cases, as it lulls to a fancied security and leaves the danger as imminent as ever.

"Nothing short of an absolute prohibition of immigration to England and the United States will serve to save these countries from running a tremendous risk."

Already the indirect outcome of the cholera scare is seen in France. London is full of American travelers who have cut short their continental journeys, in many cases at a day's notice, and who have arrived here in order to take passage home.

Unfortunately the principal Atlantic liners are always on their return trip crowded at this season of the year, and they find it impossible to make room for would-be voyagers.

In consequence scores are obliged to wait over here until room can be found for them, while others are taking passage by less popular lines, or even traveling second class on fast steamers in order to reach home at all hazards.

A Suspicious Case in London.

LONDON, Aug. 31.—The first suspicious case of cholera in London developed Monday: The detention of a couple of Russian Jews, who arrived from Hamburg on Saturday at the hospital, suffering with symptoms of Asiatic cholera.

Extensive measures have been taken by the East End hospitals to meet any demand in the event of an extensive outbreak. The strictest rules have been formulated to keep both the patients and the attendants isolated.

The sanitary authorities have in no wise relaxed their vigilance. Every day the lodging houses are subjected to a rigid inspection.

Considerable uneasiness is felt here because of the knowledge that cholera has certainly obtained a footing in London, and in one of the worst places in which it could appear. Notwithstanding the quarantine that has been established people from Hamburg are allowed to land and the result of this is shown by the fact that two new cases of cholera have occurred in the City-road, London. The victims arrived yesterday on the steamship Peregrine from Hamburg. They showed no symptoms of the disease and were permitted to land. They proceeded to their homes, and to day the disease appeared. The district is filled with small houses and is densely populated.

Hamburgers Treated Like Lepers.

LONDON, Aug. 31.—The Berlin correspondent of The News says: The export case of Asiatic cholera in this city did not create a panic. The Sanitary Committee has decided to stop the gratuitous distribution of disinfectants in order to prevent their waste, and to avoid an unwarranted feeling of safety. At the same time the largest powers of inspection will begin, and ample provisions for doctors and nurses will be made in event of a contingency. Prof. Koch has issued a warning against over-much watering of the streets, the humidity, he claims, favoring the spread of bacilli and the rapid consumption of water preventing effective filtration of the water-works.

The most conflicting reports as to the extent of the epidemic in Hamburg have been published. Hamburgers are treated like lepers elsewhere in Germany. Hotel doors are shut in their faces, and it is impossible for them to obtain lodging. Many have been known to alight from railroad trains a few stations before reaching Berlin and to come into the city by local trains to avoid inspection. The authorities are endeavoring to stop this practice, but find it difficult to do so. Suspected cases of cholera are reported at Halle and Leipzic, but the presence of the disease in these places has not been officially confirmed.

Sanitary Cordon in France.

PARIS, Aug. 31.—The Minister of the Interior will to-day sign an order embodying advice from the Board of Health for the establishment of a sanitary cordon along the eastern frontier from Dunkirk to Delle and for the maintenance of cholera sanitary stations in all the ports of France.

A stevedore working at Havre yesterday died suddenly after drinking a glass of water, presumably from cholera. The British and American officials at Havre do not regard the situation as alarming. As a matter of precaution the American consul appointed a commission of physicians to inspect all out-going Atlantic steamers. The Minister of the Interior has ordered every possible facility to be extended to the foreign consuls in the matter of the abode and extent of the disease and its progress. The weather appears to have no effect on the epidemic. Sunday the weather at Havre was cold and windy; yesterday both the cases of cholera and the deaths were more numerous than ever.

Ten New Cases in Antwerp.

ANTWERP, Aug. 31.—Ten persons suffering from cholera were admitted to the hospital yesterday. One of the patients subsequently died.

One Death in Brussels.

EDITORIAL NOTES.

To-morrow the retaliatory duties imposed by the American Government on Canadian freight passing through the Sault Canal will come into effect. The agitation has pretty well died down and but little is now said about it on either side of the line. It amounts only to a tax of from $12,000 to $20,000 on our shipping for the balance of the year, and that is a matter of too little importance to quarrel about.

Canada Presbyterian:—Whatever bad feeling exists between Canada and the United States has been caused mainly by reckless newspapers and by politicians bidding for votes. The people of both countries never were on more friendly terms and never mingled more freely. Toronto is a favorite city with many of our neighbors. No summer passes here without meetings of American associations and societies of one kind and another. Excursionists from the other side are on the streets every day. Montreal is full of Americans every summer. American ministers are often brought over here to open churches, preach anniversary sermons, address conventions and do other special work—Canadian congregations—and very important ones too—not unfrequently call ministers from the American church. There is not a word said about the "old flag" or British connection or anything of that kind when a minister is being called. The most conspicuous admirer of British connection will vote for a spiritual adviser from the other side in preference to a born and bred loyal Canadian if it seems to suit his purpose so to do. The most loyal congregation will bring a preacher from the other side to open a church if they can draw fifty more people or make ten dollars by so doing. In social life, Americans and Canadians agree very much better than many Canadians agree among themselves. It is not easy to find a family that has not connections across the lines. The fact is, the people of the two countries never were more friendly that at the very time their rulers began a commercial war. The politicians are responsible for the trouble, and the people are responsible for putting the politicians in high places armed with almost infinite power to do harm.

A neglected cough brings on consumption—the most fatal and prevalent of all physical ills that flesh is heir to. To check the malady in its early stage, before the deadly turbercles develop themselves in the lungs use Dr. Thomas' Eclectric Oil which also annihilates bronchitis, asthma, catarrh, piles, kidney troubles, and soreness of the muscles and joints.

Interested People

Advertising a patent medicine in the peculiar way in which the proprieter of Kemp's Balsam for cough and colds does it is indeed wonderful. He authorized all druggists to give all those who call for it a sample bottle free, that they may try it before purchasing. The large bottles are 50c and $1. We certainly would advise ... It may save you from consumption.

A Pleasant Herb Drink

The best cure we know of for constipation and headache is the pleasant herb drink called Lane's Family Medicine. It is said to be Oregon grape root, combined with simple herbs, and is made ready for use by pouring boiling water onto the dried roots and herbs. It is remarkably efficacious in all blood disorders and is now the sovereign remedy with ladies for clearing up the complexion. Druggists sell the packages at 50c and $1.

There are more cases of sickness and death from diseased kidneys than from all other diseases combined. It is your own fault if you allow your kidneys to remain in an unhealthy condition when the cure is at hand. Dodd's kidney Pills are guaranteed to cure the worst case. It costs but little to give them a trial. They are for sale by all druggists and dealers or by mail on receipt of 50 cts. or 6 boxes for $2.50. Write for book called Kidney Talk.

Those who are in the habit of taking an appetizer before meals could not do better as well for the effect as for economy's sake, than make use of "Indigenous Bitters." As Indigenous Bitters are a slight laxative, those who suffer from habitual constipation, will derive great benefit, by regularly taking them, as they keep the bowels in good order and in that way aid digestion.

As a tonic, the Father Mathew Remedy restores to a healthy condition the stomach and liver of the intemperate, which are always out of order, and builds up his nervous system; as an alterative, it makes a new man of him.

TORONTO TOPICS.

TORONTO, Aug. 31.—Mr. Bryan Lynch, President of the local branch of the National League, telegraphed Hon. Edward Blake on Monday asking him to receive a reception at the hands of the Home Rulers of Ontario. Yesterday Mr. Lynch received this reply:

Have written you. In the meantime see letter to Frank Yeigh. Will arrive to-morrow.

At a late hour last night Mr. Yeigh had not received the letter referred to, and so both the Young Liberals and the Home Rulers are as much in the dark as ever. Mr. Yeigh thought that perhaps the letter suggested a union of the two interests to honor Mr. Blake.

Herbert H. Booth, Commandant of the Salvation Army, has issued his promised explanation with reference to the resignation of Mr. Philpott, and answers the latter's charges. Replying to Philpott's charges of extravagant salaries paid to the Headquarters Staff, the Commandant says that this statement is absolutely unfounded. The best proof of this is the fact that there are working at Headquarters 22 persons, 11 of whom are married. The total amount drawn for salary, divided among these 22 persons, gives an average of only $8.81 per head. Among the most expensive men on Headquarters Staff was Mr. Philpott himself, who, when he left, was costing the Army, including his house rent, as much as myself, my house rent not being chargeable to the funds.

The testimonial as to his loyalty which Philpott says he received from Commissioner Rees, the Commandant says, was merely a license to marry under the Salvation Army Marriage Act, and the official legal document giving him this license was commenced in the customary way with the words which he quotes. His assertion that he was compelled to resign is absolutely unfounded, says the Commandant, and is proved by his own written resignation, in which he admits that I was expecting another interview with him."

For all forms of female weakness Dr. Williams' Pink Pills are an unfailing specific. Mr. Thomas Strachan, Postmaster, Roballion write:—My daughter has been ill for the last four years with female weakness, and had been attended by four of the best doctors in our section. She began the use of Dr. Williams Pink Pills, and two boxes have done her vastly more good than all the medicines she took from those doctors.

What She Said

Mrs. R. Peck, 15th street, New York City, visited Canada last year, and had the good fortune to pick up something which not only suited her, but her neighbors also. Writing the manufacture of Nerviline she says:—"I bought three bottles of Nerviline while in Canada and treated my neighbors to some of it, and all think it the best medicine for internal or external pain they have ever used." Nerviline deserves such commendation, for it is a most powerful, penetrating, and certain remedy for pain of all kinds. Take ... substitute.

PAR... the pow... of acting specifically upon the diseased organs, stimulating to action the dormant energies of the system thereby removing disease. In fact, great is the power of the medicine to cleanse and purify that diseases of almost every name and nature are driven from the body. Mr. D. Carswell, Carswell P. O., Ont. writes: "I have tried Parmelee's Pills and find them an excellent medicine, and one that will well.

A Cure For Constipation And Headache

Dr. Silas Lane while in the Rocky Mountains discovered a root that when combined with other herbs makes an easy and certain cure for constipation. It is in the form of dry roots and leaves, and is known as Lane's Family Medicine. It will cure sick headache in one night, For the blood, liver and kidneys, and for clearing up the complexion it does wonders. Druggists sell it at 50 cents a package.

Weighed in the balance, but not found wanting. Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure has been weighed in that just balance, the experience of an impartial and intelligent public. Both remedially and pecuniarily it is a success. Its sales constantly increase, testimony in its favor is daily pouring in. The highest praise has been won by Hood's Pills for their easy, yet efficent action.

As an after dinner pill, to strengthen the stomach, assist digestion, and correct any bilious tendencies, Ayer's pills are considered the best. Being sugar coated, they are as agreeable as any confection, and may be taken by the most delicate.

How Mr. W.D. Wentz of Geneva, N.Y., was cured of the severest form of dyspepsia? He says everything he ate seemed like pouring melted lead into his stomach. Hood's Sarsaparilla effected a perfect cure. Full particulars will be sent if you write C Hood & Co., Lowell, Mass.

THE BLONDE IN TROUSERS

STRANGE ACTIONS OF LIZZIE BENDORF OF NEW YORK.

She Is Found In the Streets Dressed In Man's Garb and Says She Was Looking For Work—There is a Suspicion That She Is Insane and the Doctors Have Her In Hand.

NEW YORK, Aug. 31.—A startling flight of fancy was indulged in by Lizzie Bendorf in the hours verging on Sunday morning last. What she did seems to have constituted prima facie evidence of insanity, for the authorities have given her a place in Bellevue Insanity Pavilion, pending the verdict of specialists as to the exact quality of her wits.

The woman was first brought to the attention of the public by Officer Tinney of the Twenty-second-street squad. While patrolling his beat on First-avenue late Saturday night he was attracted by a curious looking biped in masculine garb, but decidedly feminine in face and form. It wore baggy seersucker trousers that flapped in the breeze and a jumper of the 'longshoreman stamp. Outside was a threadbare alpaca coat that threatened to go tobogganing down the delicate sloping shoulders.

On the woman's feet were big cowhide brogans that went flippity flop and awakened noisy reverberations along the deserted pavements. Her hat was a dilapidated species of the derby, and rested unnaturally upon the wearer's shoulders. The attire was striking, but not becoming. The woman herself—what was to be seen of her—appeared to be a good-looking blonde, apparently about 30 years old. She bore evidences of belonging to the hard-working class. Her hands were hard and muscular and her figure spare and short.

When asked to account for herself the woman replied that she "was out looking for work." When taken before Justice Tainter, at the Yorkville Police Court, she said that her husband had come home drunk and abused her. When he went out later she had put on his working clothes and left the house in search of employment.

The fair masquerader was remanded to Supt. Blake of the Society of Charicties and Correction. According to that officer she was a pitiable object. There was a suspicion of the inebriating cup about her voice and manner. She wore her hair "dressed high," according to Supt. Blake, and appeared willing to divulge more to him than she had previously told. She stated that she was a Baltimorean and had lived out as a domestic. She had been out of work for two weeks. A week ago, while walking in Central Park, a man had offered her a home with him until she got another position. She went to live with him, and further than that she would not commit herself.

The woman was detained for examination as to her sanity. At Bellevue Hospital, where she was then taken, she was uncommunicative. Apparently she was rational, quiet and well-behaved. It was only to Dr. Stuart Douglas that she would speak of herself at all. When the subject of her conduct Saturday night was broached she suddenly affected a befogged expression and seemed to be all at sea. She did not know where she had lived, nor could she recall the name of the man she lived with. She had forgotten whether or not she kept house for him, and did not know whether he had done the cooking or whether the meals had been brought in from a restaurant. The doctor believed all this was affected.

The woman was examined at 4 o'clock yesterday afternoon by Dr. Allen Fitch and Dr. Matthew D. Field. Their decision has not yet been arrived at owing to their doubt of the woman's veracity and her seemingly sane conduct.

The man involved has not yet put in an appearance in quest of his clothes.

CAST INTO A THRESHER.

A Weird Tale Which Comes From Cayuga County, New York.

SAVANNAH, N.Y., Aug. 31.—Meagre details of a peculiar tragedy in Cayuga County have just been received here.

A boy while cutting bundles for a threshing machine near Cato in that county accidentally cut the feeder's hand, which so infuriated the latter that he caught the lad up and threw him into the rapidly revolving cylinder, where he was ground to death before any one present could raise a hand to rescue him.

The brother of the unfortunate lad immediately felled the murderer with a blow from a pitchfork and then repeatedly plunged the tines of the fork through his body until he was dead.

All the threshing hands stood by and witnessed the terrible affair, apparently paralyzed by horror and unable to interfere.

Fatal Magazine Explosion.

ROME, Aug. 31.—An explosion occurred yesterday at the Mancini magazine at San Severo, a town 17 miles northeast of Foggia. Two men were killed and two others were seriously injured. The noise of the explosion was terrific. This is the third time that the magazine has blown up.

Frost in Dakota.

ABERDEEN, S.D., Aug. 30.—The mercury fell to 30 degrees last night and a light frost nipped small vegetables and fruit.

"German Syrup"

Here is an incident from the South—Mississippi, written in April, 1890, just after the Grippe had visited that country. "I am a farmer, one of those who have to rise early and work late. At the beginning of last Winter I was on a trip to the City of Vicksburg, Miss., where I got well drenched in a shower of rain. I went home and was soon after seized with a dry, hacking cough. This grew worse every day, until I had to seek relief. I consulted Dr. Dixon who has since died, and he told me to get a bottle of Boschee's German Syrup. Meantime my cough grew worse and worse and then the Grippe came along and I caught that also very severely. My condition then compelled me to do something. I got two bottles of German Syrup. I began using them, and before taking much of the second bottle, I was entirely clear of the Cough that had hung to me so long, the Grippe, and all its bad effects. I felt tip-top and have felt that way ever since." PETER J. BRIALS, Jr., Cayuga, Hines Co., Miss

DR. WILLIAMS' PINK PILLS FOR PALE PEOPLE

ARE NOT a Purgative Medicine. They are a BLOOD BUILDER, TONIC and RECONSTRUCTOR, as they supply in a condensed form the substances actually needed to enrich the Blood, curing all diseases coming from POOR and WATERY BLOOD, or from VITIATED HUMORS in the BLOOD, and also invigorate and BUILD UP the BLOOD and SYSTEM, when broken down by overwork, mental worry, disease, excesses and indiscretions. They have a SPECIFIC ACTION on the SEXUAL SYSTEM of both men and women, restoring LOST VIGOR and correcting all IRREGULARITIES and SUPPRESSIONS.

EVERY MAN Who finds his mental faculties dull or failing, or his physical powers flagging, should take these PILLS. They will restore his lost energies, both physical and mental.

EVERY WOMAN should take them. They cure all suppressions and irregularities, which inevitably entail sickness when neglected.

YOUNG MEN should take these PILLS. They will cure the results of youthful bad habits, and strengthen the system.

YOUNG WOMEN should take them. These PILLS will make them regular.

THE MONTREAL SCANDAL

FATHER GUIPOT'S CRIME CAUSES A SENSATION.

He Was the Spiritual Adviser of Many of the Leading Families—It is Understood That He Has Been Warned and Will Not Return to the City—Letters Incriminating Him.

MONTREAL, Aug. 31.—The scandal caused by the escapade of Father Guipot, a Sulpician priest of this city, caused a tremendous sensation in French-Canadian society, as the priest was the spiritual adviser of many of the leading families. He is not expected to return to Montreal. It is understood that he was a passenger on board one of the French ships to New York, but he has been warned to keep out of the way. The husband of the woman whom he betrayed has a large number of letters proving his guilt.

RUSSIA IN THE PAMIRS.

The Exploring Party a Force of Conquest and Occupation.

LONDON, Aug. 31.—There seems to be much mystery about British operations in India. The Foreign Office and India Office appear to have entered into a conspiracy of silence and it is impossible to get information from either. It is noticed, however, that the troopships are being furnished up, troops are being concentrated ready for departure at short notice and several line-of-battle ships are keeping within ready distance for orders. The attitude of the Government, so far as can be inferred from these and similar facts, is one of preparation for war. England, it is stated on excellent authority, will sustain the Ameer should Russia continue her aggressive course toward Afghanistan.

The Government is said to be in possession of reliable information that the so-called Russian exploring party in the Pamirs actually amounts to several thousand men, and that it has forcibly occupied territory that is undoubtedly Afghan.

The Mining Disaster.

LONDON, Aug. 31.—Thirty-one bodies have been recovered from the Parks Slip pit. Their features were so terribly burned that they were unrecognizable. In every case, however, the fire had not destroyed all their clothing, and they were identified by this and by articles found in their pockets. The other bodies are still in the shaft. In spite of the many obstacles and dangers which confront the searching parties the work of rescue is being steadily kept up, and thus far 85 bodies have been brought to the surface.

In Honor of Talmage.

LONDON, Aug. 31.—The mayor of Plymouth Monday gave a jubilee luncheon in honor of Rev. Mr. T. Dewitt Talmage of Brooklyn, N.Y., who is on a visit to the place. Many of the leading citizens of Plymouth and a number of clergymen were present.

French Successes in Dahomey.

LONDON, Aug. 31.—A despatch received here yesterday from Kolonou says that the Dahomeyans have abandoned their entrenched camp situated eight kilometres to the westward of Takon and are now retreating into the interior.

Will Not Wait for England's Aid.

BOMBAY, Aug. 31.—Advices from Afghanistan, just received here, contain the statement that the Ameer is quite prepared to forcibly resist a Russian advance to Shijan and Boshan without waiting for England's action.

The Marquis de Mores Acquitted.

PARIS, Aug. 31.—The jury returned a verdict of not guilty in the case of the Marquis de Mores and also acquitted Count Lamasse and M. Guerin, the marquis and seconds, and Captain Panjade and M. DeLorme, who acted as seconds for Captain Mayer. All four of the seconds were indicted for complicity in the killing of Captain Mayer.

A Schooner Wrecked.

LONDON, Aug. 31.—The schooner Mary Jane was wrecked near Elie in the Firth of Forth. Three of her crew were drowned.

WAITING TO BE TRANSLATED.

Lieut. Totten of End of the World Fame Deeds His Property.

NEW HAVEN, Conn., Aug. 31.—Lieut. G. A. L. Totten has filed with the town clerk a document which takes the place of a will and which is styled a deed of gift. According to the provisions of the paper he conveys to his wife, Mary Totten, all his personal effects and assets of every character. The closing sentence reads as follows: "Should, therefore, any of the accidents of life overtake me, or should I apparently disappear, all persons to whom this comes will know that what we have my wife alone owns, and may God bless her and reunite us in His own good time."

In referring to the last clause, Lieut. Totten said: "Disappearances will become common, and no one can explain them. It is just as sure to come as anything in the world, and is merely the fulfilment of the prophesies that are laid down in the Bible."

A POET'S GREAT AGE.

Oliver Wendell Holmes Reaches His Eighty-Third Year.

BEVERLY FARMS, Aug. 31.—Dr. Oliver Wendell Holmes' charming home in Hale-street was the Mecca of hundreds yesterday, who came from near and far to pay homage to the genial poet and congratulate him on the attainment of his 83rd birthday.

Dr. Holmes held his reception in his library. The old poet stood near the open fireplace and talked with all who came. Dr. Holmes was the recipient of many beautiful flowers and other tokens of esteem.

Another Strike of Ironworkers.

PITTSBURG, Aug. 31.—The iron strike has broken out in a new quarter. After a week of activity the entire steel and iron plant of Schomberg, Speer & Company is again silent. Five departments are affected, the bar mills, the puddling furnaces and two departments of the horseshoe factory. The trouble arose out of the fixing of a scale of wages in the Bessemer steel department. The men claim that they do not receive as much as is paid at other mills, while the firm claim the wages are correspondingly as large as those paid elsewhere. Five hundred men are effected by the strike.

Whalen's Long Drive.

WINNIPEG, Aug. 31.—John Whalen, a wealthy hotel man, has left Winnipeg with a team of horses and a stout buckboard, and purposes to drive every foot of distance between here and Jacksonville, Florida, where he will spend the winter. Early in the summer he will drive from Florida to Chicago, and after taking in the World's Fair, will drive from Chicago to his old home in Centreville, Lennox County, Ont.

All through the Provinces the rapid crease of La Gripppe, is causing great alarm. A report was received here to-day, of a new development o the disease, which is worse, perhaps than any other. Wm. Hanley of N. Y. City, died in terrible agony after sickness of only four days. His tongue swelled to such an extent as to make it impossible for him to close his jaws or swallow any food. The report is causing the people in this district to inquire into the noted Grip-cure, recently referred to in so many papers. In Cape Breton the disease has spread very rapidly and with fatal results. D. J. McKillop of L'Archeveque writes Feb. 11th that this cure has been tried in his neighborhood and with such success that all those residing there are obtaining a supply believing it to be the only remedy affording reliefand effecting a certain cure. He finished his letter by asking for a large quantity of the Medicine (Dr. Morse's Indian Root Pills) to supply the demands of the community for the relief of LaGrippe.

For You r O

GENTLEMAN One of my little girls aged 4 years) had been troubled with costiveness in its worst form since infancy. We tried different remedies which gave relief while using, but as soon as discontinued she would be worse than before using. She lost her appetite and was growing weak and delicate. A friend of mine who had used B B B with grand results for the same disease advised me to try it, and also the Burdock Pills, which we did. She did not take the contents of one bottle before it relieved her, and not only relieved her but permanently cured her, for she has not been troubled once since, and she is now eight years old

Best Cure For

All disorders of the Throat and Lungs is **Ayer's Cherry Pectoral.** It has no equal as a cough-cure.

Bronchitis

"When I was a boy, I had a bronchial trouble of such a persistent and stubborn character, that the doctor pronounced it incurable with ordinary remedies, but recommended me to try Ayer's Cherry Pectoral. I did so, and one bottle cured me. For the last fifteen years, I have used this preparation with good effect whenever I take a bad cold, and I know of numbers of people who keep it in the house all the time, not considering it safe to be without it."—J. C. Woodson, P.M., Forest Hill, W. Va.

Cough

"For more than twenty-five years, I was a sufferer from lung trouble, attended with coughing so severe at times as to cause hemorrhage, the paroxysms frequently lasting three or four hours. I was induced to try Ayer's Cherry Pectoral, and after taking four bottles, was thoroughly cured."—Franz Hoffman, Clay Centre, Kans.

La Grippe

"Last spring I was taken down with la grippe. At times I was completely prostrated, and so difficult was my breathing that my breast seemed as if confined in an iron cage. I procured a bottle of Ayer's Cherry Pectoral, and no sooner had I began taking it than relief followed. I could not believe that the effect would be so rapid and the cure so complete."—W. H. Williams, Cook City, S. Dak.

THE CHOLERA SCROUGE

The Importance of Proper Precautions Being Taken in Good Time

It is announced that the dreaded cholera epidemic has made its appearance in England. The disease was brought over from Germany. This is bringing the epidemic alarmingly close to America. While there is danger of reaching our shores this year, still the season is too far advanced for it to gain much of a foot hold, especially in northern latitudes. In view of the danger that threatens it is of the greatest importance that every precaution should be taken against it. An ounce of prevention is worth a pound of cure. The ports of entry should be strictly guarded and people generally should see to that extra sanitary precautions are taken in their homes. Pure water, fresh air and general cleanliness of the body and surroundings are the greatest enemies of cholera. The dread scrouge of 1840 and 1850 is yet fresh in the memory of many, when death stalked through the country and there was gloom and desolution on every hand. Cholera invariably breaks out first in those portions of towns or cities where privy pits are thickest and people are careless and uncleanly in their habits. Garbage and refuse of all sorts should be promptly destroyed and every care taken to keep the person and the home in the best condition. It is recommended by physicians tnat all water should be filtered and boiled before drinking, and the use of ice is not advised. Brockville is in better position than many places in this regard both its ice and water being of unusual purity and clearness. But with all our advantages it is not wise to neglect precautionary measures. Assurance should be made doubly sure.

Our Export Cheese Trade

The shipments of cheese from this port to Great Britain during the present season have already exceeded $5,000,000 in value and there is still left the August, September and October product to market. Uu to the present time factorymen have experienced no difficulty in selling their goods at remunerative prices, and it remains to be seen if the fall make is taken off their hands as readily as that of the past three months has been. Upon this point there is a great diversity of opinion some of our leading men in the trade maintaining that a great deal of the buying of late has been more on speculative than consumptive account, and that retail buyers have been pretty well stocked. If this be true, and the retailers in Great Britain have been induced to buy on an average say five boxes each over their present requirements, it would mean a tremendous quantity put on one side. If retailers have anticipated their wants to the extent reported, that fact alone will account for the prompiness with which the heavy landings in England have of late gone into the hands of retailers; but at the same time this fact has been misleading, as the stock has gone into immediate consumption, but a large portion of it is being stored for future requirements. On the other hand, it is claimed that owing to the healthy condition of trade in England, and the fine weather suitable for outdoor work, the consumption of cheese has been simply phenomenal, and that the amount of stock in the hands of retailers is not as large as many believe. Be this as it may, it is pretty certain that short sales of September cheese have been made at 50s c. i. f. Liverpool, which is considered rather dangerous, when it is taken into account that the factorymen in Canada have sold up closer to the hoops than ever before known at this season of the year. There can be no question that the market here is easier; but when it comes to actual sales, it is difficult to buy at any material decline in prices. At the beginning of the week 3,000 to 4,000 boxes of French cheese were sold at 9¼c to 9⅜c, a few bringing a fraction more. The shipments of finest cheese going out by this week's steamers cost 8⅝ to 9¼, and some a fraction more. The Liverpool public cable has dropped 6d since our last issue to 46s 6d. At the close of last week the shipments from this port for the season were 840,000 boxes against 718,000 boxes for the same period last year, showing an increase of 122,000 boxes. Regarding contracts, ten or twelve more factories have been taken this week at 10c to 10⅛ for August, September and and October makes.—Trade Bulletin.

For four thousand years or more the world groaned, suffered and fumed about its corns, for their was no positive relief—no certain and painless cure until Dr. Scott Putman gave to the world his great Corn Extractor. If there is suffering now it is a result of carelessness, for the remedy is at hand. Try Putman's Corn Extractor. It is sure painless, and prompt. Beware of substitutes. N. C. Polson & Co. proprieters. Kingston.

Why is it?

Why is it, that no matter how much or what kind of opposition the Oak Hall clothing house gets, they are continually increasing their trade? The Oak Hall do an honest one price business and use their customers as if they expected to see them again, that is the reason. Besides, they carry nothing but the better class of goods, and by keeping down expenses and selling at small profits they are enabled to put good goods on the market lower in price than other stores can sell inferior makes for.

AMELIASBURG ITEMS.

The Rev. Mr. McQuade, the new Methodist minister at this place, has been very busy since his arrival here in pastoral work, and his energy and earnestness are beginning to make their impress each service being attended by larger and yet larger increasing congregations. His sermons are original, somewhat after "Talmage" type, and make an impression which continues to exist from one service till the next. His genial companion also assists him with her presence on every occasion. We bespeak for both the Rev. gentleman and his estimable wife the continued high esteem of the entire community.

The church at this place is being thoroughly renovated and when finished will be one of the finest churches in the county. The council have kindly placed the town hall at the disposal of the congregation during the time the church is undergoing repairs, and service was conducted there last Sunday evening by the pastor, Rev. Mr. McQuade, who delivered a very able sermon to a large and appreciative audience.

While the mill pond was being drained in order to put in a new water wheel. (The Little Giant) in the mill and evaporator belonging to Mr. R. O. Roblin, the citizens placed a net over the mouth of the flume and caught seventy-five large bass, which were carefully removed to the lake. These added to the large number already there, will make Roblin's Lake a good resort for bass fishing in a few years.

Mr. Eaton, of Rednersville preached here last Sunday afternoon in place of Rev. S. G. Depew who was visiting friends at Alymer, and Mr Townsend Raynor of Rose Hall preached in the evening to a large congregation in the same church,

A so called Texas fly is doing considerable damage to the cattle of this place. It attacks the animal's horns first which drop of a short time if not looked after. Farmers had better look after their cattle. It is said that coal tar will prevent the fly from doing any damage.

Mr. Ira Parks, of Consecon, had a very narrow escape from death yesterday while threshing at Mr. W. H. Tittus. His arm was caught in a belt and but for the assistance of one of the men he no doubt would have been battered to pieces. As it was his head got a severe thumping and one arm nearly broke. He, however, is improving and will be around in a few days.

The Ladies Delighted.

The pleasant effect and the perfect safety with which ladies may use the liquid fruit laxative, Syrup of Figs, under all conditions make it their favorite remedy. It is pleasing to the eye and to the tase, gentle, yet effectual in acting on the kidneys, liver and bowels

We do not know of any preparation that has caught the public favor in so short a time as Dodd's Kidney Pills, but when we consider that three-fourths of the Canadian people are afflicted with kidney troubles in some form or other, and that Dodd's Pills are a quick and permanent cure for all these troubles, the large and increasing demand can scarcely be wondered at. Sold by all dealers or by mail on receipt of price, 50 cents per box. Dr. A. L. Smith & Co. Toronto.

Though the soil of Virginia grows the best tobacco leaf in the world, it does not all grow equal qualities. The production even of adjoining counties is often quite different, the one producing leaf which at once deteriorates if grown in the other. The leaf of the "Myrtle Navy" is the product of the choice sections of the State, which, through some combination of local influences, produce a better quality than any others. This is shown by its always commanding a higher price than any other smoking leaf.

By a simple system of registered numbers Messrs. Tuckett & Son can tell which of their workmen manipulated any particular plug of their "Myrtle Navy" tobacco, if the caddy which contained it is known. Should any imperfection be found in any plug, therefore, they can at once single out the workman—from among their 400 hands—who is responsible for it. This system works so thoroughly that the complaints do not average one for every 200,000 plugs turned t.

The Season Will Open on Sept 10 With Verona Jarbeau.

W. W. Power, manager of the Queen's Opera House stated to a reporter to-day that the house would be opened for the season on Sept. 10. He has made an engagement with Verona Jarbeau one of the most renowned musical comedy actresses on the American stage She opens the Queen's House in Montreal this week and is receiving high enconiums from the press. It is not saying too much to say that it will be the finest performance of the kind ever put on in Belleville. Manager Power has two of the best scenic artists in New York—Messrs Grant and Welsh—now at work. A complete transformation has been made in the house. An elegant cloak room for ladies has been fitted up at the entrance. The coming season promises to be the most successful in the history of the Opera House.

Forestry in Ontario.

In his annual report for 1891 Mr. R. W. Phipps, Clerk of Forestry for Ontario, describes the important step in the direction of forest preservation now being made by the Ontario Government, in reserving for that purpose a large tract of land, twenty or more townships, principally in the Nipissing territory. It is largely interspersed with small lakes and numerous streams, forming reservoirs of water to feed the rivers flowing into the greater lakes to the south and north, giving moisture and fertility to the lands through which they pass. Mr. Phipps explains that the passage of water, or rather the vapor of water, through the ground is the means of which all food is conveyed to plants. The rain falling to the earth, assisted by numerous little rivulets under the surface, is perpetually drawn into the atmosphere by the heat of the sun, and in its passage among the plant roots carries their necessary food to them. This again points out the value of lines of trees, especially evergreens, which prevent the too rapid progress of the wind over the earth, and keep the ground after a shower much longer in a moist and growing condition. The proposed park contains many ranges of lofty hills, broad and pleasant valleys and rapid streams and stretches of barren and rocky land, now covered with trees which with a little care can be preserved. The ground is generally unfit for agriculture, owing to the quality of the soil, which is light, poor and often of a peaty nature. It will, if well cared for, yield good crops of grass, but it is not needed for that purpose, there being vast areas yet unsettled adjoining, equally well adapted for the purpose. The reservation will form a resting-place for many wild animals and birds which it is desirable to preserve. For instance, there numerous creeks and ponds are the favorite resort, in fact the very home of the beaver, one of our most valuable fur-bearing animals. Such a place will in time form a most agreeable resort for those who go to the country, not to destroy life but to enjoy nature

A PROLIFIC SOURCE OF DISEASE.—trifling indiscretion in diet may lay the foundation of confirmed dyspepsia, and there is no fact in medical science more positively ascertained or more authoritatively asserted than that dyspepsia is the parent of a host of bodily ills, not the least of which is contamination of the blood and the maladies of which that is the direct consequence. The original cause is however thoroughly eradicated from the system b [illegible] Lyman's Vegetable Discovery and Dyspeptic Cure, a medicine which only requires regularity and persistence in it use to cure dyspepsia and many other ills that arise from it. No detelerious mineral ingredient is contained in it, and though its action is thorough in cases of costiveness it never produces griping pains in the abdominal region, or weakens the bowels like a violent purgative. It invigorates the system through the medium of the increased digestive and assimilative activity which it promotes and is also a most efficient remedy for kidney disease scrofulous and all diseases of the blood femole weakness, &c., &c Price $1.00 Sample bottle 10 cents. If you have a cough or cold do not neglect it; many without a trace of that hereditary disease have drifted into a consumptive grave by neglecting what was only a slight cold. Had the used Bickle's Anti-Consumptive Syrup before it was too late their lives would have been spared. Mr. A. W. Levy Mitchell, writes. "I think Bickel's Anti-Consumptive Syrup the best preparation ou the market for coughs and severe colds. About six years ago I caught aevere cold which settled on my lungs, and for three months I had a cought. I had a physician attending me, but gradually grew worse until I was on the verge of Consumption, and had given up hodes of being cured, when I was induced to try Bickel's Syrup. Before I had taken one bottle I found myself greatly relieved, and by the time I had finished the second bottle I was completely cured. I always recommend it for severe colds and consumption."
